Subject: Chris Pardo

Hi, Michael:

I've heard Chris Pardo has joined the design team for Block A in the large downtown Palm Springs redevelopment... Can you say if this is the case?

Is this a redesign of Block A? What can we expect? In other words, is this a significant change? A change to the actual building footprint?

And what role will Pardo play? Lead designer? Consulting?

And it seems late in the game... Why alter the building now...?

Thanks.

It just dawned on me that if the Marilyn Monroe statue will be here through 2013, your race will go right by it next year! That would be a great photo spot to have them set up. If the photographer is down low enough, he can catch the runners go by with the statue in th background. You may even want to use a staged picture in the advertising???

Also, I'd mentioned last December (?) that I'd like to see if John Wessman would be interested in putting a 9-11 memorial somewhere in the new construction. Could you possibly introduce me to him so I can make that suggestion? I have $5,000 in an account held by the school district earmarked for the 9-11 memorial.

Thanks, Mayor--

> You may want to consider distances. If your goal is to attract as many runners as possible, a more popular distance, such as a 10K, may attract more runners who like to be able to compare times. But, the 5.5 would be your own brand and you could start a new mid-distance course. Regardless of which you choose, you might also want to include an optional 5K. As you know, lots of runners love that distance and most newbies and walkers feel confident they could complete a 5K but might be intimidated to go the further distance. It would be simple to incorporate 2 distances--we just make the turn-around for the shorter distance earlier and we'll share the same finsih line.

Money that Latino Books Y Mas bookstore helped generate. Now that the Wessman corporation has their money it appears that our independent, mom and pop bookstore, the last general bookstore in Palm Springs is going to be the first casualty of progress and greed. Today we received a letter from Wessman's lawyer telling us that we have to vacate our store by the middle of next month. The last independent bookstore in Palm Springs has to shut down and all because of greed. Last week at their request we met with them and presented a buyout offer since we have a lease until 2015. We felt that the offer we presented was fair and just. The Wessman Corporation owns half of Palm Springs and they could not, would not, come to terms with us. We could not come to an amicable agreement. They lawyered up and are using eminent domain as a way to get us out to unilaterally breach the contract. They feel that they can intimidate us. Why am I writing this, because we need your help! I am not sure how you fight a Goliath with very deep money pockets. But we are not going to give up. Please help us in any way that you can. Write or call the officials of the City of Palm Springs, call the Desert Sun, call the TV stations, call the Wessman Corporation, but please help us.

> The name of our restaurant in Palm Desert is Il Corso, Interior and Exterior design was a collaboration between Chris Pardo, Allan Sanborn and John Wessman. As you might know, John is very hands on and gets involved in every detail of the design and construction of any our projects. During the construction of the project the design of the final product evolved further resulting in an architectural gem on El Paseo recognized in many publications. We have no doubt the same will be applicable to downtown.

> Thank you for responding to me. If the design you are referring to is the one originally proposed by Mark Rios during the study vignettes, then yes the new proposed perspectives are considerably worse Steve... in very basic massing, context and scale.... not even taking into consideration what you or anyone else would consider "architecture". The project as it stands today so far fails in its design and scale and is clearly not being steered in the "right direction" or I would not be even be bothering to write to you.

It will take a model so you and our community can understand what is going on and am befuddled why this has never been provided as it may help to clear up many citizens concerns....

You need to know I am 100% supportive of this project and am not one to complain and am more than just 1 of the 47,000 citizens you represent, I am also currently the senior government planner/architect for the largest development projects in the country for the Department of Veterans Affairs, past comprehensive work with Los Angeles County, Cal Trans, Metrolink and UCLA and numerous large scale private development projects, so I do have a 30 year understanding and familiarity with this very type of project and do have a comprehensive background of process, contracting and design..... and trust me Steve, from what I have seen so far this project, it falls far short of minimum industry standard in process, planning and design. A project of this importance and magnitude in this relatively small town especially needs to follow industries best practice, and this project is clearly not doing that. There seems to be a lack of transparency to the people that are paying for this project.

I urge you to please at the very least require Mr. Wessman to create a model with street sight lines and view vectors to adjacent buildings and mountains..... it will make a huge difference to everyone and this technology is now commonplace, extremely minimal in cost and will help everyone (all 47,000) to have a much better understanding of what is going on,(including yourself) with respect to the scale and massing and then be able to thoroughly study architectural elements including shading at a minimum (this has been done on every single project I have worked on for the last 15 years !)..... and make prudent decisions on this project. It is vitally important at this juncture as we are clearly lacking transparency and trust on this project and quickly losing the confidence of your constituents and neighborhood groups that have been very supportive of you up until this point (me included!)..... face it, the renderings are not very good at all.

Unless this project follows some kind of cohesive design process, including providing at least a model.... it is going to continue to be extremely problematic and under tremendous scrutiny by the taxpayers/constituents of PS..... with a potentially disasterous final product..... all this and unhappy citizens do not make for a great tourist destination.

I am sure you do not want this for the city we both love and call

our home..... well neither do all of the 47,000 people you represent.

John,

Thanks for your email. Clearly, I disagree with most of your comments , especially " lashing out by the Mayor "
I represent you and 46,000 other residents, and we don't always agree... And as everyone knows, I believe strongly that I am steering the City in the right direction.
You may not like the current architecture (which is not final) but if you truly believe that it is worse than what was presented during the 2011 election , I would be astounded to day the least ...

On Jul 10, 2014, at 7:04 PM, "john dozois" <jcdozois@hotmail.com> wrote:

Dear Mayor Pougnet, City Council Members and Planning Commissioners:

Palm Springs is one of those rare wonderful places that has an almost magical feeling with its beautiful scenery, incredible homes and great architecture. The future of the new development in the middle of OUR Downtown and Palm Springs has an incredible opportunity to further enhance what we have become known for especially as the Modernism Week event keeps attracting worldwide recognition. This project is vital for our future.

I've been coming to Palm Springs from West Hollywood for over 30 years and I have owned my mid-century home in south Palm Springs for over

12 years. Up until this point, I have really enjoyed and supported everything about Palm Springs, but not any more....

I am deeply troubled over the redevelopment of Desert Fashion Plaza in the very heart of our business district and its impact on the future of Palm Springs. It has been made very clear to me that John Wessman/Wessman Development has complete autonomy (using my hard earned taxpayer money) to do anything they want. God forbid if anyone questions, asks for accountability or inquires for a better project or you put yourself at risk for public humiliation/lashing by our own mayor or worse by Mr. Wessman himself. I find this all very disturbing.

After consistently watching the Council and Planning meetings and seeing the awful ever changing renderings (with no model) that are progressively getting worse by the minute. The information that has been disseminated to the public about the plans are minimal. The designs and renderings keep changing and there has been no model, massing or shading studies or contextual studies with the surrounding buildings. Bottom line, WE are allowing this project to progress into a joke and worse a slap in the face to taxpayers.

Projects need to be approved *after* the design is finalized. Models are built. Animated video is produced to put the project in context. Page after page of renderings are produced to show every detail, including shading, landscaping, articulation, parking, pedestrian amenities, public art, etc. While some details may change after approval, they are generally small or immaterial and if a major change is proposed, it has to go back to the Planning Commission and/or City Council for approval.

Since the City Of Palm Springs is now a vested major financial player in this public/private development, it's the job of the City to demand the best possible project for the taxpayers..... yes, looking out for your constituents!

So far, that hasn't happened and I beg you to do your best to put this project back on track.

Sincerely,

John Dozois

City Council Goals for the City Manager – 2014/15
October 15, 2014

1. Hire an Assistant City Manager which can expedite Measure J projects and other City projects

2. Additional approaches to improve the cleanliness/aesthetics in Downtown and Uptown Design District

3. Focus on improvements of parks

4. Information technology strategic plan for the City (on-line payments, social media, i-pads, increased "virtual city hall" web-based opportunities, new video equipment for Council Chambers)

5. Fast track implementation of the "Non-Motorized Transportation Plan"

6. Downtown palm tree lighting/holiday lighting, renovation and repair of tree wells, installation of downtown decorative light fixtures

7. New fire station – site selection and project launch

8. Finalize selection and make progress on soccer park

9. Complete water conservation initiative

10. Develop Master Plan for street paving, repairs and bike lanes

Stephen P. Pougnet
Mayor

Date: 11-5-14.

City Manager Goals Update
City Council Review - June 18, 2014

1. Additional approaches to improve the cleanliness/aesthetics in Downtown and the Uptown Design District.

The downtown maintenance crew reorganization has been finalized with their separation from the Street Department. Patrick Sweeny is now leading the Maintenance and Facilities Department over all City maintenance functions, and Heather MacPhearson has been promoted to Downtown Supervisor. They have reworked the daily and weekly cleaning/maintenance schedule with special focus on benches, trash receptacles, etc., and continue to make refinements for both the uptown and downtown areas, including up to Vista Chino.

The final component – transition from the Canyon Commercial contract – will be two agreements with Mainstreet and the Chamber of Commerce (under $20,000 each) for liaison/inspection/feedback services. Mainstreet will participate and lead the "weekly walk tour" of uptown and downtown to identify maintenance/cleaning issues, monitor Villagefest activity, participate in SEPT meetings to keep merchants informed of events, and provide general and targeted liaison communication services with business owners.

The Chamber of Commerce will also provide business liaison services, however, their focus will include the visitor experience "on the ground" during evenings and on weekends. They will be providing feedback on all aspects of the downtown and uptown experience, ranging from issues that arise from parking (e.g. valet's illegally using the parking structure, or improperly "coned off" spaces) to inoperable lighting, etc. This feedback – during hours when staff is not working – will be extremely helpful for guiding maintenance and code enforcement efforts.

2. Focus on improvements for Demuth Park – maintenance, and development of revenues producing events.

Maintenance efforts at Demuth Park have been reviewed and modified under the new organizational structure (Maintenance and Facilities Department. New LED lighting has improved the restroom area, and a burglar alarm system has been installed at the concession stand to address criminal activity that had occurred. Also, Measure J projects in the process of implementation include security cameras at the restrooms, and improved parking lot lighting.

With the finalization of the Parks Master Plan – efforts to increase the capacity for revenue producing events may be possible, particularly if a soccer field project can be completed in the next few years.

3. *Develop an RFP for solar installation for at least five city facilities*

The NAM solar feasibility study is now complete and per Council direction we are moving forward with an RFP for solar installation at possibly 11 facilities. Also, the Sentinel Power Plant/AQMD Mitigation Grant will provide solar at 4 additional facilities. Council will be reviewing both projects at the meeting of June 18th.

4. *Information technology strategic plan for the City (on-line payments, social media, i-pads, increased "virtual city hall" web-based opportunities, new video equipment for Council Chambers)*

Three specific items toward this goal include, revision to the City Web-Site expected to be complete by October, the "At Your Service" smartphone app for citizens to report problems directly to the City and "on-line" renewals of business licenses. Also, as you are aware, I-pads are now available for the Council agendas. With regard to video equipment in the Council Chambers, a consulting firm's agreement for RFP design configuration will be on your agenda July 2nd.

With regard to "social media" we have not dedicated staff time for continuous efforts here, however, the City does have a Facebook page that is updated by Amy Blaisdell. Also, Tourism has an active Facebook page and Twitter account.

5. *Implementation of possible elements of the "Non-Motorized Transportation Plan"*

In addition to the previous non-motorized transportation studies, and based upon Council's direction, we requested a consultant (Ryan Snyder) to review all City streets – and provide guidance on how to make the entire City "bike friendly." The Sustainability Commission and their Sub-Committee has taken this report and recommended a specific three year implementation plan which Council approved and gave guidance on a multi-year funding proposal for the Measure J Commission. Your recent direction will result in a $3 million capital investment over three years.

As Council moves forward with additional street resurfacing over the next few years, all work will be designed and constructed in accordance with the NMTP and Snyder report.

6. *Downtown palm tree lighting/holiday lighting*

The Chevron project, previously approved by City Council is addressing the palm tree lighting and will be completed by mid August. Also, your approval of a $900,000 Measure J project to address "electrical backbone" infrastructure is currently in the design phase and will be completed in the next two to three months. Construction may have to occur next summer to avoid interruptions to Palm Canyon during next season.

Also, you may recall, Council suggested that new holiday lights be postponed until the Downtown Palm Springs Project is nearer to completion and the electrical infrastructure improvements are finalized.

7. Trolley shuttle service proposal

The trolley project has been under review for the last year – it is a complicated project with several challenges to work through (cost, equipment, marketing, participation, routes, etc.). Your staff has done a great job working with stakeholders to address these challenges – and with Council Sub-Committee guidance, the contract commencing a pilot project is on your meeting agenda June 18th.

8. Chevron project implementation

Implementation is well underway with the irrigation portion almost complete. The lighting elements are approximately 90% complete, and new equipment replacing the "decommissioned co-gen plant at Sunrise Park was completed six months ahead of schedule. The remaining City Hall "Muni-plant co-gen" replacement is on schedule with an anticipated completion (equipment order lead time and construction) of approximately eight months.

9. New Fire Station – site selection and project launch

The site originally favored by the Fire Chief was a parcel of land that was not "fee" and Council preferred we look to alternate locations. A new site has been identified; however the parcel size and shape may not be conducive for a Fire Station. An architectural site assessment has been prepared – with a preliminary report being reviewed by the Chief. We will be returning to Council in Closed Session under "property negotiations" for further direction.

10. Medical Marijuana Tax – ballot initiative

Complete!

11. Welwood Murray Library project completion and commence operations

The construction contract has been approved by City Council, with work to be complete before the end of the year (estimate is November). Staff is preparing for operations to commence at the earliest possible date after construction is complete.

Current Projects/Programs - Partial List

June 1, 2014

1. Airline agreements
2. Airport master plan
3. Banners on trees - Barristo to Ramon
4. Bike paths - city friendly program (NMTP)
5. Chevron implementation
6. College of the Desert Campus
7. Convention Center bond refinance
8. Convention Center parking
9. Council Chamber video/audio
10. Downtown Palm Springs Redevelopment project
11. Fire station location
12. Food-truck policy
13. FTZ
14. Holiday lights
15. I.T. strategic plan
16. I-Hub review
17. Indian Avenue - planning
18. Labor contract negotiations
19. Library renovation
20. M.M.J (4th dispensary, audits, quality review process
21. Measure J project implementation
22. Parks Master Plan - Demuth renovations and new soccer park
23. Plastic bag ordinance implementation
24. Plaza theater renovation and tenant RFP
25. PSTV programming
26. RDA appeal
27. School district land acquisition - tennis center
28. Sculpture repair - Gene Autry
29. Sentinel power plant grant projects

30. Sober living policy
31. Solar study - city facilities
32. Sphere of influence - Council discussion
33. Traffic signal interconnect
34. Tribe agreements
35. Trolley
36. U.S.O. Airport
37. Uptown parking modifications
38. Vacant building portfolio
39. Vacant Building Ordinance revisions
40. Violia contract renewal
41. Walk of stars (review of criteria and mall relocations)
42. Water Conservation
43. Web-site updates
44. Welwood (Historical Society agreement and operating structure)

City Council Goals for the City Manager – 2013/14
July 18, 2013

1. Additional approaches to improve the cleanliness/aesthetics in Downtown and the Uptown Design District.

2. Focus on improvements for Demuth Park – maintenance, and development of revenues producing events.

CITY COUNCIL CLOSED SESSION – July 3, 2013

Last Year's City Council Goals for the City Manager (Continued)

1. Additional approaches to improve the cleanliness/aesthetics in Downtown and the Uptown Design District *(see item 15 below)*

2. Focus on improvements for Demuth Park – maintenance, development of revenue-producing events, and new youth recreation areas (*new soccer facility*)

3. Develop an RFP for solar installation for City facilities (*several locations for RFP*)

4. Information technology strategic plan for the City *(see item 14 below)*

5. Non-Motorized Transportation Plan – additional bike lanes; Measure J funding

Additional Goals – 2013/14

6. Downtown palm tree lighting/holiday lighting
7. Trolley shuttle service proposal
8. Measure J projects implementation
9. Chevron project implementation
10. Finalization of Airport Master Plan
11. New Fire Station – site selection and project launch
12. Welwood Murray Library project completion and commence operations
13. Medical Marijuana Tax – ballot initiative information process
14. Information technology – new City Web-Site, on-line payments for select services, new video equipment for Council Chambers, additional opportunities for web/app citizen interactions
15. Downtown/Uptown
    a. Liaison – information/communications
    b. Development – retail/business attraction, retention and renovation
    c. Maintenance/Aesthetics – focused review and coordination
    d. Special Events – extra opportunities, coordination and communication
16. Complete city-wide traffic synchronization grant project
17. Waste Water Treatment Plant contract renewal negotiations

CITY MANAGER GOALS – 2011
Council Review

February 15, 2012

1. ***Execute the Fashion Plaza Plan; execute Visioning Sessions; continue to explore opportunities with Wessman Development; and follow and implement the direction of the City Council as we proceed with decision points in 2011.***

   Finance agreement between City and Wessman Development is complete; Measure J sales tax will be implemented on April 1, 2012; and the developer is commencing with architectural services.

   Next steps include working with the Council sub-committee and the developer on a regular (weekly) basis as we move through the architectural/engineering/entitlement process; frequent updates to City Council; comprehensive communication plan for citizens and downtown merchants; issuance of bonds to fulfill City's financial obligation; working with Council appointed Measure J Oversight Committee.

2. ***Additional approaches to improve the cleanliness/aesthetics in Downtown.***

   Implementation of downtown "porter service" on Sunday to pick up trash and clean trouble spots; new banners in both uptown and downtown areas; revised downtown maintenance schedule to include weekly steam cleaning of the parking structure; downtown streets are now being swept four times weekly; tree well modifications at several locations included plant replacement and permanently affixing loose stones.

3. ***Focus on significant improvements for DeMuth Park. Increase maintenance and development of revenue-producing events and uses at DeMuth and the City's other parks. Consider camera surveillance at all City parks.***

   I've made the least progress in this area. With furloughs, our general goal was to maintain current levels of maintenance. In two specific areas we were able to make improvements – tree trimming, and a safety audit of all park playground equipment with appropriate repairs

and or replacements.

With regard to revenue-producing events and uses at DeMuth, it certainly may be possible to utilize Measure J funds for future improvements (e.g. ball fields, infrastructure for larger tournaments, etc.).

Park camera surveillance has not been accomplished at this time. Our focus has been on replacement of the cameras downtown (utilizing a Police grant the City received), and at the train station to improve an immediate security issue. I will present a park camera surveillance project in the upcoming capital improvement budget to be submitted to Council.

4. ***Develop a detailed work plan for implementation of the Innovation Hub.***

The I-Hub/CVEP facility is now operational; the I-Hub Director's recruitment has been completed; four companies are currently housed in the facility, with two of them preparing to "graduate" from the I-Hub; the federal Small Business Administration's SBDC (Small Business Development Center) is now a part of our I-Hub/CVEP center as we have been designated a "host" city; and the Foreign Trade Zone expansion partnership with the County is proceeding and expected to be complete before year's end.

Our anticipated next step is the creation of a "stage II" incubation facility (larger manufacturing space) for I-Hub new businesses. We are currently looking at leasing a portion of the former School District Building at the Airport. A Proposal will be forthcoming to Council.

5. ***Develop a signature event for the City of Palm Springs occurring during an off-peak month.***

In partnership with the large hoteliers – the carnival festival type event is being planned for September of this year. Toward that end, a contract has been executed with PS Resorts which details the City's relationship with "resort fee" hoteliers. They will be coordinating the event directly with the promoter. Moreover, staff and I will be working with the Council Sub-Committee on additional new special event opportunities. Several meetings are already planned with event producers and the committee members.

6. ***Sustainability Initiatives: Study viability and develop an RFP for solar installation on the Convention Center. In addition, develop a work plan and timeline for solar installations on other existing City facilities.***

   The Chevron project is well into the "third party" analysis phase to review pricing and cost saving assumptions, including a solar component at the Convention Center, per the Council's direction. As part of this process, it was determined that solar was not a viable cost option at this time for other facilities of the city without significant capital outlays. However, we are currently preparing a RFQ for solar at the animal shelter with all capital investment to be borne by the vendor.

7. ***Submit to the City Council a plan with departments that would increase revenue and decrease expenses for the City.***

   As we prepare the new fiscal budget for submission to Council, all departments are financially balanced, and we anticipate a General Fund balance of approximately $11 million at the end of this fiscal year. Regarding revenue increases – obviously the major increase is passage of Measure J – and City Council members, you deserve all the credit!

   We are also monitoring all areas of fees that do not include automatic COLA's for review and modification during the budget process.

8. ***Continue with the implementation of the Master Plan of Tahquitz Creek Golf Course.***

   Improvements are now complete to the restrooms, club house and various other infrastructure repairs. This was done under the guidance of the Council Sub-Committee.

9. ***Explore the sale of the Wastewater Treatment Plant, or any other properties that would be in the best interest of the City of Palm Springs.***

   Based upon work and recommendation by the Council Sub-Committee with DWA's Sub-Committee, we are currently in a holding pattern as DWA was not willing to provide the City with an appropriate value for a sale agreement to occur. In the meantime, staff is moving forward with a rate restructure and capital program for the plant, which will be presented to Council.

10. ***Explore the feasibility of multi-agency involvement in the operation of the Animal Shelter; and explore the possibility of dividing the operations of the animal shelter using animal control and a non-profit for front-of-the-house operations.***

We have completed an analysis of the cost/benefit of providing animal control and shelter services to Desert Hot Springs and Cathedral City. Based upon the minimal level of service in which they are willing to commit, it would not be cost effective for the City to take on this additional responsibility. Additionally, we are continuing to explore all models to make the operation more efficient. This is particularly important as the new shelter's operational costs will be significantly higher due to the larger space, increased animal population and implementation of several new programs regarding animal care.

Additional City Manager Goals 2012

- Continued efforts on Fashion Plaza project – finance bonds, temporary park, entitlement process, communication plan
- Liaison to the Measure J Committee
- Information technology strategic plan for the City (i-pads, on-line payments, social media, and increased "virtual city hall" on-line opportunities)
- Planning Director recruitment (retirement 12/31/12)
- Fire Chief recruitment (retirement 12/31/12)
- Chevron program implementation
- City-wide review/upgrades on traffic signal synchronization
- Uptown "pedestrian crosswalk" program
- Complete RDA dissolution – manage related City/RDA property issues
- W.W.T.P. – implement rate increase and commence capital projects
- Finalize labor contracts with all bargaining units
- New holiday lights
- Park security camera program
- I-Hub – phase II incubator
- Complete skate park modification and implement contract operations
- Complete Foreign Trade Zone expansion
- City-wide review ADA/disability compliance

(6) * Personnel - Intervol, listen; motivate.
(5) * Monitor Upkeep for INFRASTRUCTURE
(4) Programs, i.e. Soccer Fields Wellness Park, & Parks

Part III – City Council Goals

1. Adoption by Council of a Plan for a project to replace the Desert Fashion Plaza in early 2009 and visible, demonstrable Phase One progress toward Phase One implementation.

2. Working with Chief Dominguez, implement a plan which measurably reduces the number of burglaries and property crimes in Palm Springs.

(1) 3. Create and propose a ~~five~~ 3 year plan to achieve and maintain a fiscally sound budget for the City of Palm Springs.

4. Working with stakeholders, create and implement a plan for continued improvement in the appearance (tourist appeal, beauty and cleanliness) of downtown and uptown during this interim period when large development projects have slowed as a result of the national economy.

5. Continue the increased investment in neighborhood street improvements.

6. Create and implement visible and significant steps toward achieving City of Palm Springs sustainability goals.

7. Create and implement specific goals for continuing to improve the "customer friendly" aspects of services offered by the City of Palm Springs.

8. Develop a plan for City-owned golf courses that significantly reduces the City's annual loss.

9. Create a comprehensive master plan for the City's parks, including increasing the overall amount of City parkland, as well as maintenance and operations.

10. Participate with CVAG and Riverside County on the development of a West Valley Homeless Resource Center.

10. Customer Service Program ✓

Lee: Museum Market Place.
Sustainability. $157,500
Code Enforcement

Chris: Keep it up.

(8) Lobbying in Sacramento + wish list. ✓

(10/9) Senior Center + Boys & Girls Club. ✓

COUNCIL GOALS FOR THE CITY MANAGER – 2011
Closed Session Review

April 11, 2012

1. ***Execute the Fashion Plaza Plan; execute Visioning Sessions; continue to explore opportunities with Wessman Development; and follow and implement the direction of the City Council as we proceed with decision points in 2011.***

Finance agreement between City and Wessman Development has been completed; Measure J sales tax was implemented on April 1, 2012; and the developer is moving toward choosing an architect with the Council Sub-Committee participating in the selection process.

Next steps include working with the Sub-Committee and the developer on a regular basis as we move through the entitlement process; frequent updates to City Council; a comprehensive communication plan for citizens and downtown merchants; issuance of bonds to fulfill the City's financial obligation; working with the Measure J Oversight Committee.

2. ***Additional approaches to improve the cleanliness/aesthetics in Downtown.***

Implementation of downtown "porter service" on Sunday to pick up trash and clean trouble spots; new banners in both uptown and downtown areas; revised downtown maintenance schedule to include weekly steam cleaning of the parking structure; downtown streets are now being swept four times weekly; tree well modifications at several locations including plant replacement and permanently affixing loose stones.

3. ***Focus on significant improvements for DeMuth Park. Increase maintenance and development of revenue-producing events and uses at DeMuth and the City's other parks. Consider camera surveillance at all City parks.***

I've made the least progress on this set of goals. With furloughs, our general goal was to maintain current levels of maintenance. However,

+ Palm Springs Country Club.

in two specific areas we were able to make improvements – tree trimming, and a safety audit of all park playground equipment with appropriate repairs and or replacements.

With regard to revenue-producing events and uses at DeMuth, it certainly may be possible to utilize Measure J funds for future improvements in this area (e.g. ball fields, infrastructure for larger tournaments, etc.).

Park camera surveillance has not been accomplished at this time. Our focus has been on replacement of the cameras downtown (utilizing a Police grant the City received), and at the train station to improve an immediate security issue. I will present a park camera surveillance project in the upcoming capital improvement budget submitted to Council.

✓ ***Develop a detailed work plan for implementation of the Innovation Hub.***

The I-Hub/CVEP facility is now operational; the I-Hub Director's recruitment has been completed; four companies are currently housed in the facility, with two of them preparing to "graduate" from the I-Hub; the federal Small Business Administration's SBDC (Small Business Development Center) is now a part of our I-Hub/CVEP center as we are a designated "host" city; and the Foreign Trade Zone expansion partnership with the County is proceeding and expected to be complete before year's end.

Our anticipated next step is the creation of a "stage II" incubation facility (larger manufacturing space) for I-Hub new businesses. We are currently looking at leasing the former School District Building at the Airport. A Proposal will be forthcoming to Council.

Develop a signature event for the City of Palm Springs occurring during an off-peak month.

In partnership with the large hoteliers – the carnival festival type event is being planned for September of this year. Toward that end, a contract has been executed with PS Resorts which details the City's relationship with "resort fee" hoteliers who will be working directly with the event promoter.

Additionally, staff and I have been working with the Special Events Sub-Committee on additional new event opportunities. Several meetings have taken place and staff is following up with potential promoters to bring a proposal to Council.

City Finances.

Sustainability Initiatives: Study viability and develop an RFP for solar ~~installation on the Convention Center~~. In addition, develop a work plan and timeline for solar installations on other existing City facilities.

The Chevron project is well into the 'third party" analysis phase to review pricing and cost saving assumptions, including a solar component at the Convention Center. As part of this process, it was determined that solar was not a viable cost option at this time for other facilities of the city without significant capital outlays. However, we are currently preparing a RFQ for solar at the animal shelter with all capital investment to be borne by the vendor.

Submit to the City Council a plan with departments that would increase revenue and decrease expenses for the City.

As we prepare the new fiscal budget for submission to Council, the General Fund is essentially balanced – with the exception of additional costs for the new Animal Shelter and Community/Economic Development (RDA dissolution/operating costs). We anticipate a General Fund balance of approximately $11.7 million at the end of this fiscal year.

Regarding revenue increases – as a result of Council's efforts - Measure J will produce at least $8 million in new sales tax. We are also monitoring all areas of fees which do not currently include automatic COLA's for review and modification during the budget process.

Continue with the implementation of the Master Plan of Tahquitz Creek Golf Course.

Improvements are now complete to the restrooms, club house and various other infrastructure repairs. This was done under the guidance of the Council Sub-Committee.

Explore the sale of the Wastewater Treatment Plant, or any other properties that would be in the best interest of the City of Palm Springs.

Based upon work and recommendation by the Council Sub-Committee with DWA's Sub-Committee, we are currently in a holding pattern as DWA was not willing to provide the City with an appropriate value for a sale agreement to occur. In the meantime, staff is moving forward with a rate restructure and capital program for the plant.

10. ***Explore the feasibility of multi-agency involvement in the operation of the Animal Shelter; and explore the possibility of dividing the operations of the animal shelter using animal control and a non-profit for front-of-the-house operations.***

We have completed an analysis of the cost/benefit of providing animal control and shelter services to Desert Hot Springs and Cathedral City. Based upon the minimal level of service in which these cities are willing to commit, it would not be cost effective to take on this additional responsibility. Additionally, we are continuing to explore all models to make the operation more efficient. This is particularly important as the new shelter's operation cost will be significantly higher due to the larger space, increased animal population and implementation of several new programs regarding animal care.

CITY MANAGER GOALS – 2011

1. Execute the Fashion Plaza Plan; execute Visioning Sessions; continue to explore opportunities with Wessman Development; and follow and implement the direction of the City Council as we proceed with decision points in 2011.

2. Additional approaches to improve the cleanliness / aesthetics in Downtown.

3. Focus on significant improvements for DeMuth Park. Increase maintenance and development of revenue-producing events and uses at DeMuth and the City's other parks. Consider camera surveillance at all City parks.

4. Develop a detailed work plan for implementation of the Innovation Hub.

5. Develop a signature event for the City of Palm Springs occurring during an off-peak month.

6. Sustainability Initiatives: Study viability and develop an RFP for solar installation on the Convention Center. In addition, develop a work plan and timeline for solar installations on other existing City facilities.

7. Submit to the City Council a plan with departments that would increase revenue and decrease expenses for the City.

8. Continue with the implementation of the Master Plan of Tahquitz Creek Golf Course.

9. Explore the sale of the Wastewater Treatment Plant, or any other properties that would be in the best interest of the City of Palm Springs.

10. Explore the feasibility of multi-agency involvement in the operation of the Animal Shelter; and explore the possibility of dividing the operations of the animal shelter using animal control and a non-profit for front-of-the-house operations.

Partial Goals List - 2011

Economic/Community Development

- Fashion Plaza – Design/Funding/Procurement
- I-Hub Office/Programs
- Enterprise Zone Implementation
- Council Direction on General Plan Amendment for S.O.I. application
- RDA – Combine Areas 1 & 2
- Code Enforcement App

Safety

- Animal Shelter – Completion/Start Up Operations
- Downtown Cameras
- Downtown Parking Structure Cameras
- ERICA – Finalization of Installation/Rollout

Downtown

- App Downtown Directory/Maps
- Downtown Business Census – 2 reports annually
- Rainmaker Fountain Lighting
- Hospitality Entertainment Zone Policy Guide

Parks & Recreation

- Golf Course – Roof & Phase I Remodel
- Trails Signage
- Parks Master Plan - Finalization

Public Works

- Traffic Light Synchronization Study
- WWTP Fence
- WWTP Electrical - Phase I
- PSDS – Trash Pick-Up Once Per Week Service
- City Hall Parking Lot
- WWTP Appraisal

(Goals List Continued)

Budget/Finance

- "Elastic Budget Policy" – Ongoing Stabilization Budgeting
- Grants – software and consultant; grant search/tracking/application submittal

Airport

- Valet Parking
- New Perimeter Fence

Convention Center

- New Marquis Sign
- New Palm Springs Tourism Event
- CVA ; R.O.I. Analysis

Library

- Welwood Library Remodel
- Main Library Renovation – Roof/Misc.

City Website

- Web cams – Airport/Downtown/Convention Center/Tram
- On Line Payments
- On Line Licensing – Business/Pets/Etc.
- On Line Permitting (where feasible)

Other

- Donation Policy
- Council Monthly Report - Format

Partial Goals List - 2011

Economic/Community Development

DAVID READY'S REVIEW - 2010

1. *Museum Market Plaza aka Desert Fashion Plaza –*

   Encouraging progress on the Design for Development – accomplished the goals we set for the City Manager, which included passage of Specific Plan and timeline for Development Agreement and OPA with Wessman Development.

2. *Plan to Accomplish Economic Development –*

   Successful in a very difficult economic time. Received Innovation Hub designation from State of California.

   Rehiring of John Raymond to work on Desert Fashion Plaza and iHub is a plus!

3. *College of the Desert –*

   The acquisition of the Bureau of Land Management's 119-acre parcel for the COD West Valley Campus; continued to proceed on time – a complete success.

4. *Spheres of Influence - North and West of town; Parc Andreas and Bellamonte –*

   Not completed – part of the problem is that the Homeowners Associations of Parc Andreas and Bellamonte are concerned about sewers. Meetings were held with no clear direction from the homeowners. Sewer issue was addressed by Barakian/ Public Works Department. Additionally, the HOA was concerned about possible higher costs to renew their "allottee land lease" if the City was involved. They asked us to not pursue annexation until they were able to work through that particular issue.

   Council direction regarding "sphere of influence" and "annexation" relative to land adjacent to Desert Hot Springs at the I-10 interchange was to not contest the DHS request as Palm Springs had previously annexed other areas at the interchange.

   With regard to the Cove/Windy Point area, the City was successful in eliminating the agreement with Riverside that we provide costly police and fire services to that area. Annexation, if possible, would likely not produce a level of revenue to reinstate those and other City services. Finally, a letter was sent to LAFCO on December 31, 2008 to preserve our options and indicate that the Council may want to consider a future "sphere of influence" inclusion for the area of I-10 and Highway 111. To process this request, LAFCO requires a General Plan Amendment prior to a formal application submission - approximately $40,000 in environmental review costs. This request should be presented to Council in early 2011 for further direction to staff.

5. *Finish Golf Course Master Plan –*

   Completed – very successful.

6. *Assist with Mater Plan for Chino Cone -*

   Incomplete due to property owners and environmental groups unable to come to agreement.

7. *Come up with another Signature Event for the City -*

   Did not complete – the City's "events budget" was substantially reduced this fiscal year due to the deficit. Next year, with the advent of the new "resort TOT fee" set-aside for events, this goal should be able to be realized.

8. *Improve Convention Center Business – Analyze relationship with CVA. Answer question: Are we getting our money's worth?*

   Did not complete – transitions have occurred at top management levels of both the City's Convention Center and the CVA. With the new CVA Director scheduled to arrive in mid December after a lengthy professional recruitment, a formal analysis should be able to be completed and presented to Council by February.

9. *Show 2 visible projects on Sustainability – own it internally within the City –*

   Animal Shelter, and additional projects worked on by the Office of Sustainability.

10. *3-Year Budget & Capital Plan –*

    Budget and Budget Analysis completed during extremely volatile economic conditions. Due to these economic conditions, a capital plan could not be completed.

VALLEY VOICE

Palm Springs needs this shot of adrenaline

Palm Springs is famous throughout the world for its beautiful scenery, incredible weather and iconic architecture. However, our beloved downtown has begun to stagnate.

The old Desert Fashion Plaza sits deteriorating on 13 acres right in the heart of our city. I have heard people say that the downtown should continue to be a village — that the new hotel should mirror the 13 small boutique hotels lined up along Bellardo Road. I most strongly disagree.

Yes, we need to continue to aggressively preserve the best examples of our architectural heritage, and our small intimate family hotels are a priceless asset to our city.

However, we will not survive, much less prosper, if we try to wrap downtown Palm Springs in a giant roll of Saran Wrap and wish for a time that has long since passed.

If we are to survive and flourish, it is imperative that we continue to evolve and grow.

The current plan as presented to the Planning Commission for downtown Palm Springs with its plazas, open spaces, sight lines and village green — all with the Kimpton hotel as its focal point — will be the key to our future and our prosperity for decades to come.

The scale of the hotel is appropriate to the location and will stand proudly as a centerpiece in the very heart of our downtown. It is just large enough and grand enough to attract upscale corporate executive offsite meetings and conference business as well as be a destination point for sophisticated travelers from throughout the U.S. and abroad — without being so large as to dominate the downtown.

Robert Moon

Its scale fits with the proposed downtown development. Its setback will minimize the blocking of the view from Palm Canyon Drive. The architecture of the hotel as well as the entire development is creative, modern, varied and interesting. The recent changes made to the hotel design, such as the 30-foot prow windows, have made it even more interesting.

This is a building that will represent the spirit and taste of our current early 21st century just as our midcentury modern architecture represented the spirit and taste of the Palm Springs of 50 years ago.

This exciting hotel with its iconic rooftop deck will be to the Palm Springs of today what the El Mirador and Racquet Club were to the Palm Springs of yesterday.

Success breeds success. This new downtown development with its vibrant upscale full service hotel as a centerpiece will be a needed shot of adrenaline right into the heart of our beautiful city.

It will create an excitement and a vibe that will be contagious and result in a 21st century renaissance of our downtown. It is a critical first step in moving Palm Springs from being a 1960 village to a proud, beautiful, vibrant and diverse city that reflects the excitement and wonder of this new 21st century.

Let's all get on board, get on track, and get it built.

Robert Moon is an 11-year resident of Palm Springs and resides in the Vista Las Palmas neighborhood. He is a retired career military officer and information technology executive. Email him at RobertLMoon@yahoo.com

COURTESY OF JEFFREY FOSKETT

But he's looking forward to harmonizing again with those original Beach Boys.

"Al Jardine's voice is absolutely essential to that blend," he said. "Brian's voice — when he's singing lead with Michael and Alan and, for lack of Carl, me backing him up — it sounds great. When we're playing with Brian's band, it sounds really good. But when it has the original voices it just adds that air of authenticity that's missing in all of the other bands."

McCallum gala

I can't remember hearing as many complaints about having to sit through speeches at a benefit as at Friday's McCallum Theatre gala. They came from country fans who paid at least $100 to see Reba McEntire while patrons paid $500 to pay their respects to honoree Ted Giatas and enjoy a meal at either Cuistot, Jillian's, Wally's Desert Turtle or Ruth's Chris Steak House.

But Reba performed the exact same show she performed in two previous concerts in Canada. So the fans got to hear an artist that might have been too expensive to book as a regular concert and they got to hear her in the comfortable McCallum setting.

I frankly became a fan of Reba and her nine-piece band led by the wonderfully versatile pianist, Catherine Marx. It was particularly telling when Reba said she heard a demo of "Can't Even Get the Blues" early in her career and her country label said they didn't think it was her kind of music. Reba said it was exactly the kind of music she wanted to record and it became her first number one hit.

People know McEntire for the narrative tale "Fancy," but she can sing the blues.

More local concerts

Sam Harris was so sick from a bronchial infection, he told his friend Liza Minnelli a few hours before his benefit concert for the nonprofit group promoting foster families, For the Children, "I think I want to come in on a gurney."

He poured his heart out for a small crowd at Hotel Zoso, including 92-year-old Mickey Rooney, who described Harris after the show as "sensational."

The inaugural "Star Search" winner opened his cabaret-type show with an autobiographical version of U2's "I Still Haven't Found What I'm Looking For" and Stephen Sondheim's "I'm Still Here," amending the lyrics to say he's a recovering alcoholic with a husband and child, "and I'm queer."

He's a showman with great comic timing, even managing to make cliché marriage jokes sound fresh with his gay perspective. He got a standing ovation for his gospel-fused version of "Bridge Over Troubled Waters" and brought some fans to tears with his plaintive finale, "In My Life."

He was a perfect entertainer for a group that realizes the 21st century meaning of family. This tight-knit organization of foster parents started in 2003 with just five families and has grown to support more than 200 children. If you want to find out more about them, go to www.forthechildren.org.

OUR VOICE

New vision for downtown Palm Springs looks smart

At this point, the plans for a revitalized downtown Palm Springs are just drawings and dreams.

But the adjustments in strategy announced this week by the city and developer John Wessman to replace the long-dead Desert Fashion Plaza look to be smartly targeted.

Step 1: Forget the name Desert Fashion Plaza. The project is called Downtown Palm Springs. City officials and Wessman himself now say the downtown shopping center was bad idea from the start. The best thing is to erase it from our memories and start over.

And forget, at least for now, a new multiplex movie theater and a hip bowling alley. And drop your dreams of a six-story office building.

Instead, Palm Springs hopes to do what it does best — introduce a posh new hotel. The proposal includes a new concert venue, some high-end retail and office space, and a new "mixed" shopping area designed to give smaller retailers a chance to be an integral part of downtown. It could work.

While it may seem like the valley has plenty of hotels, the Palm Springs Convention Center & Bureau of Tourism cites a 2006 study by Economic Research Associates that said the city needed 1,000 more rooms.

The best example of the continuing need is next week's Aviation Summit, held by the Aircraft Owners and Pilots Association. At its peak, the convention will need 1,600 rooms. The tourism bureau is using 11 hotels, some as far as 3 miles away, and four shuttle routes. Most conventioneers prefer a hotel within walking distance.

The Aviation Summit was last held here in 2006. The pilots association brought back the convention this year and it committed to 2014. For the public, the best part of this visit is the Parade of Planes, which will be from 10 a.m. to noon Wednesday from Palm Springs International Airport along Alejo Road and south on Avenida Caballeros to the convention center. Palm Springs is one of the few places where this can happen.

Some may object to a six-story hotel tower climbing 74 feet into the blue skies of Palm Springs. But it's not much higher than the 65-foot Hyatt Regency just to the north, and we agree with Michael Braun of Wessman Development who predicted the rooftop bar could become the most visited sight in the Coachella Valley.

The new Downtown Palm Springs is designed to be pedestrian- and bicycle-friendly with new streets to improve traffic circulation. It will include charging stations for electric cars.

The city has long talked about a new street from Palm Canyon Drive to Museum Drive, which would open up the view of the world-class Palm Springs Art Museum. Plans now call it Main Street. Belardo Road will go through to Andreas Road.

» Read more about the Parade of Planes at mydesert.com/opinion

Plans include another new street linking Andreas Road to the new Main Street. Known as Market Street, it will be covered with a colorful shade structure. This and many other areas could be blocked off with bollards. Officials speculated Market Street could be closed off routinely from 6 p.m. to midnight so restaurants can allow customers to dine under the stars on curbless streets.

Wessman says 40 percent of the retail space already has committed tenants, but he declined to identify any of them because it is still early in the planning process. He said four or five chef-driven restaurants have expressed interest.

And the idea of holding concerts on a new venue from Belardo Road to Museum Drive that could accommodate crowds of 5,000 is intriguing. A permanent stage on city land is envisioned across from the museum. Paul Tollett of Goldenvoice confirmed that he has talked to Wessman officials about the potential outdoor concert space.

We don't want to get too excited, at least until we see the old mall razed and new construction under way, but so far it looks like the decision by Palm Springs voters to approve a 1 percentage point sales tax increase to pay for infrastructure was wise.

This probably will be the most significant projects in Palm Springs for 50 years. Let's do it right.

> J.R. Thanks for your comments. With regard to John Wessman, we have no relationship whatsoever. I've never met with him privately. Our only encounters have been during public proceedings. As far as I can remember, I've never allowed John to have a side bar with me during commission proceedings except for what occurred last week. I agree with you that such a conversation is totally inappropriate and not in the spirit of transparency and openness. John had been badgering me with hand signs and expressions for several minutes and I gave him looks that I hoped would discourage him from taking any other action-never thinking that he would approach me on the dais. I tried to shut him up and the only thing I said to him was that he could not talk with me in that fashion. I must strongly object to your assumption that our conversations (none of which I can remember ever occurred) have, in any way, driven decisions I've made. I take my responsibilities of independence and impartiality as a commissioner very seriously. I'm stunned that you would accuse me of such conduct. J.R. have had a career which has been above reproach and my ethics and morality have never been questioned. I can't imagine where your accusations are coming from. I have never taken a bias in my decisions. No one has ever questioned my ethical conduct in the various public and private positions that I've held. Regarding developers' presentations, I've always strived to give them full opportunity to explain themselves, but will be careful not to let them get away with anything. John is very difficult as you know and one never knows what he's likely to say.. I wasn't aware I treated him any differently than other applicants but if I've done so, I will be more careful in the future. J.R. you have raised serious allegations against my reputation and ethics. I am certainly open to critiques about my conduct as chairman but I seriously question your motives here in light of what I consider to be outrageous aspirations on my character. Ever since our conversation regarding your feeling demeaned by me in earlier debate on Downtown Palm Springs and I sincerely apologized for what was unintentional on my part, I've felt you've had it in for me. Accusing me of lacking character only works to confirm these suspicions. Doug

May 25 Planning Commission, Public Comments on Desert Fashion Plaza Development Agreement

Motion to recommend denial included the following points:

1) No retail marketing study provided to justify project
    - Outside the purview of the Planning Commission
2) Entire Planning Commission should be involved in a Study Session
    - Recused Commissioners may not participate in project review
3) This developer has a long history with the project (and no action?)
    - Outside the purview of the Planning Commission
4) City should step back and study larger traffic circulation pattern / design
    - Outside the purview of the Planning Commission
5) Preserve Town & Country Center / Eliminate Block K1 and K2 from DA
    - Already decided by Specific Plan; outside the purview of the Planning Commission
6) Insufficient public plaza space in proposed plan
    - Policy question for City Council
7) TOT sharing plan is in appropriate
    - Policy question for City Council

Other points raised during Commission discussion:

1) Private benefits to developer significantly outweigh public benefits to City
    - Policy question for City Council
2) Indian Canyon and Palm Canyon should be returned to two-way traffic
    - Outside the purview of the Planning Commission

3) Not enough commitment to housing in proposed plan (compared to Specific Plan)

- Interpretation of the Specific Plan, subject to Council review

4) Frank Property not clearly identified as in or out of proposed project

- Policy question for City Council

5) Adaptive re-use of historic building should be considered

- Already decided by Specific Plan; outside the purview of the Planning Commission

From Jon Caffery (by e-mail following the May 25th PC meeting)

1) Recitals: Inconsistent with the General Plan regarding preserving our historical resources and sustainability (adaptive reuse: notably T&CC).

- An interpretation of the General Plan, but already resolved by adopted Specific Plan

2) 2.3 – Term of 25 years is too long maybe 10-15 max

- Policy question for the City Council

3) 2.4 – Sale of any portion of the development to any person including relatives only requires notice (no city approval).

- Procedural question for the City Council.

4) 2.4 – Eliminates liability of the seller for the responsibilities of the DA with any sold property.

- Not correct, per City Attorney

5) 3.2 (e) – Sounds like it overrides specific plan phasing and other regs.

- Phasing allowed to be flexible per Specific Plan

6) 3.3 – Explain "support OWNER" it is too general, is it money, services, advice or anything?

- Clarified to mean only regulatory processing; no money payment.

7) 4.3 – No public benefit except the expectation of a completed project, such as amenities, open space, public art, etc.

- Policy question for the City Council

8) 6.3 – No time table for phases of development. What is reasonable?

- Phasing allowed to be flexible per Specific Plan

9) 6.5 – "Super Majority" should be simple majority.

- Policy question for the City Council

10) 7.1 – No damages = no remedy… this agreement has no teeth.

- Clarified by City Attorney that injunctive relief the preferred remedy

11) 7.2 – If developer quits or dies during construction with a partially demolished mall or worse, what then?

- Clarified by City Attorney that City has options, including acquisition.

12) 9 (d)– Mortgagee protection should exclude developer and his successors, surrogates, assignees, corporations and relatives.

- Clarified by City Attorney that all subsequent parties are subject to DA

13) Exhibit A IIA-2&3 – Overrides specific plan phasing and demolishes the T&CC. Museum Way should be **Pedestrian only.**

- Already decided by Specific Plan; outside the purview of the Planning Commission

14) Exhibit A IIA-6-8 – Developer should give the property to the City, because we have to improve and maintain it for his benefit.

- Policy question for the City Council

15) Exhibit A IIB-1 – Immediate demolition of the T&CC a historic resource for an unnecessary mid block street that further divides the development and adds unwanted auto traffic instead of open space (Bad planning).

- Already decided by Specific Plan; outside the purview of the Planning Commission

16) Exhibit A IIB-2 – There should be an acceptable approved site plan before implementing a development agreement.

- City staff clarified that the approved site plan is not finalized at this time.

17) Exhibit A IIB-3 – I DISAGREE, It does not conform to Visioning Session outcomes.

- Language tying DA site plan to visioning sessions could be revised.

18) Exhibit A III – We will not know what kind of architecture until it is too late (attaching foam to existing structures of no significance) and we are tearing down World Class Architecture (T&CC).

- Already decided by Specific Plan; outside the purview of the Planning Commission

19) Exhibit D-2-A,B&C – No in lieu fees for deficient parking at hotels in Blocks K1 and K2

- Policy question for the City Council

20) Exhibit D-2-D – No Reduction in TOT should be given we are giving up a historical resource that brings tourism…

- Policy question for the City Council

Responses to Planning Commission's Concerns

The Palm Springs Planning Commission on Wednesday approved a resolution that states why it rejected a proposed agreement between the city and Wessman Development to rebuild the Desert Fashion Plaza. The commission's concerns are highlighted below. Some of these to be answered by Planning:

No retail marketing study was provided to justify project. The City and Wessman have undertaken a number of retail assessments of the site over the past 8 years, using the Buxton Companies of Fort Worth, Texas, to identify potential tenants. Buxton is one of the country's leading retail analytics firms. In addition, Wessman is undertaking a comprehensive retail branding effort as part of this project. The existence or inclusion of such a study, however, should not be a basis for the Planning Commission's decision – their jurisdiction is land use.

Developer John Wessman has a history of not moving to redevelop the property. Outside the scope of the Planning Commission's review. However, since 2002, Wessman has proposed at least 4 and as many as 6 previous projects on this site, depending on how different versions of site plans are counted. The Desert Sun has run stories on all of them, and most of them ran into some form of community opposition. This plan has been the best-received because of reduced height and density.

The city should study a larger traffic circulation pattern. To undertake an examination of a larger study area would push this project scope beyond the boundaries of the Specific Plan, which would create problems from a consistency (and CEQA) perspective. There was a full EIR certified on the Specific Plan in 2009. There is a nexus problem with requiring one project – even one this large – to study and redesign the entire downtown circulation plan. On the specific issue of two-way traffic on Indian Canyon Drive, the last several studies by the City placed the price tag at $2 million or more for resignalization, as well as the redesign of the ends of the one-way sections. And there is not unanimity in the downtown over whether it's a good idea, anyway.

There is insufficient public plaza space in the design. The amount of public space was not well articulated in the plan the commission saw. The project proposes demolishing property at the most valuable corner – the 100% corner in downtown – and placing a public space at least 90-100' deep there. The entire street grid created by the project and purchased by the City through the Project Funding Agreement will also be designed with landscaping, architectural shading and decorative interlocking pavers, and no curbs, to maximize its use for events. The new Museum street will be wider, building to building, than Palm Canyon Drive. All of it will be available to be closed off for special events and public activities. It is appropriate urban public space for an urban environment. Additionally, the new plan creates a 60' x 140' plaza along the pedestrian way from the corner to the center street. That also doesn't count the two "museum pads" to be purchased by the City which will be open green space until the day the museum builds on one of them.

The agreement provides a share of transient occupancy tax with Wessman. The agreement restates and offers the City's existing Hotel Incentive Program that is available, by existing ordinance, to any party proposing to build a new hotel in the city. It is not a special program for this project.

Commission believes the private benefits to Wessman significantly outweigh public benefits. Answered by Planning.

Proposed housing in the plan is inadequate compared to the Museum Market Plaza Specific Plan. The Revitalization Plan being proposed by Wessman actually includes three residential buildings, in Block D, E, and G. Those buildings would be mixed use properties but built in future phases. There could be several hundred residential units on the site: less than the "up to 900" residential units approved in the Specific Plan but nonetheless a significant and more feasible commitment to residential development.

The proposal does not mention whether the Frank Property, located on the east side of Palm Canyon Drive next to Town and Country Center, is excluded or included in the plan. The property is already in the Specific Plan area. Wessman does not own it, however.

The adaptive reuse of the Town and Country Center should be considered instead of demolition. The Specific Plan already shows a street through the property. Council voted unanimously to not designate it as historic.

The proposed agreement is inconsistent with the city's general plan regarding the city's historical resources and sustainability. Answered by Planning.

The agreement proposes a 25-year maximum completion deadline. The 25 years was in the event the Project Financing Agreement did not go forward and the project needed to go forward on a market basis; the term has since been reduced and won't be 25 years. The Project Financing Agreement has a much, much shorter term.

Contractual Issues: (1) The sale of any portion of the development to any person including relatives should require city approval. (2) It appears to eliminate the liability of the seller for the responsibilities of the development agreement with any sold property. (3) The agreement's provision for no monetary damages is insufficient. (4) It doesn't provide a remedy should Wessman quit or die during the construction of the project. (5) Mortgagee protection should exclude Wessman and his successors, surrogates, assignees, corporations and relatives.

Most of these provisions will be addressed in the Project Financing Agreement but are not appropriate to load into a land use entitlement.

It appears to override the phasing and other regulations in the Museum Market Plaza Specific Plan. It doesn't contain a definitive schedule for phasing the project. Answered by Planning.

Requires a "super majority" of the City Council to modify or terminate the proposed agreement. This was changed in the Agreement to "majority."

The new through-street to the Palm Springs Art Museum should be pedestrian only. The Specific Plan shows a vehicular street through to the museum.

Wessman should give the city the properties developed as public right of way. The Commission had suggested that normally in a development agreement the developer would dedicate the streets to the City. The City can only require dedication of general plan streets, and these are not. In addition, the cost of developing these streets – on land that had previously been buildings, or worse, parking structures – is extraordinarily high.

No waiver of in-lieu fees should be allowed for deficient parking at hotels in the plan. The project creates over 100 brand new on-street spaces at the Fashion Plaza site, and the parking structure has nearly 1,100 spaces. The hotels look largely self-parked, but because the project is a unified project it may be possible to look at the overall parking demand and make the calculations work if there is a shortfall from the parking code perspective. Many hotels in the City are "underparked" per the code but operate well, and the City has a policy of working through parking issues on hotel projects, as it did with the Hard Rock and Mondrian projects. This would not be unique to Wessman.

There should be an acceptable approved site plan before implementing the development agreement. Planning Commission should have been offering feedback on the site plan; this is why the agreement was in front of them.

Palm Springs, CA 92262

Riviera
Palm Springs, CA

June 9, 2011

The Honorable Steve Pougnet
City of Palm Springs
3200 East Tahquitz Canyon Way
Palm Springs, CA 92262

Dear Mayor Pougnet:

The Riviera is committed to supporting the efforts of Palm Springs and organizations that bring business into the city. We feel strongly that our hotel should play a key role in supporting the initiatives that prove to be beneficial to the image of Palm Springs and generate revenue for the surrounding businesses.

In 2011, we were a Platinum Sponsor for Modernism Week. This sponsorship included:

- $10,000 donation
- 60 complimentary room nights
- 10 days of complimentary banquet space
- Discounted rates to media

After reviewing the revenue generated by Modernism Week, we determined that the event did not provide an adequate return on our investment. Unfortunately, we will not be able to continue participation as a sponsor for 2012. You have our commitment that the Riviera will continue to be a supportive member of the community. However, we do not feel that this event is structured in a way that will bring visitors into the city and we feel that there are other types of events that would be more worthy of our tax dollars.

We applaud the effort that went into creating Modernism Week, however in our opinion; the financial results were just not strong enough to warrant repeating the event for future years. If you would like to discuss this in more detail please feel free to contact me and I would be happy to speak with you.

Sincerely,

Geoff Young
Vice President & General Manager

PLANNING SERVICES DEPARTMENT

TO: **CRAIG EWING**
DIRECTOR OF PLANNING
CITY OF PALM SPRINGS

FROM: **PALM SPRINGS PROMENADE, LLC**
WESSMAN HOLDINGS, LLC

RE: **DEVELOPMENT AGREEMENT FOR DOWNTOWN REVITALIZATION PLAN**

Dear Craig:

We are encouraged by the tremendous amount of support we have received from the community for this project thus far, and we don't want anything to risk dampening that enthusiasm or otherwise impede our forward progress.

On or before July 20, 2011, the City of Palm Springs and our company must reach agreement on a Project Financing Agreement , ("PFA"), that will facilitate the purchase of assets from us, i.e. the existing 1054 space parking garage, land for new public streets and future possible museum expansion.

The PFA will bring definition to the financial participation by the City and our company including a binding timeline for all parties to complete the core Downtown Revitalization Plan by late 2014. It will also clarify that public assets, including but not limited to parking garages, parking lots and public streets, will remain in public ownership and will not transferred to private interests. If the City Council elects on July 20th to place a ballot measure for the November 8th election, the citizens of Palm Springs will have an opportunity by their vote to support a public-private partnership. This will revitalize the core of downtown and put Palm Springs back on the track toward economic viability by creating new jobs, new additional building projects in the core downtown and new hotel and residential construction, increasing sales tax, room revenue taxes, and creating new opportunities for the Convention Center. The community has made it very clear that this is where they want the City and us to focus our efforts and to work together to make this a reality.

The Development Agreement that was submitted to the Planning Commission on May 25th was to address future expectations for the future development of projects not part of the Downtown Revitalization Plan. However, we do not want confusion about the future plan to affect the progress on the things we do know and can resolve to ensure that the core Downtown Revitalization Plan and the public-private partnership will go forward. To that end, we are today withdrawing our request for a Development Agreement at this time.

WESSMAN HOLDINGS, LLC

By: _____

JOHN WESSMAN, Its Managing Member

Wessman Development Withdraws Request for Development Agreement
City of Palm Springs Talking Points

- The city will honor Wessman Development's decision to pull the Development Agreement for further consideration.

- We agree that the public private partnership and the revitalization of the core downtown within three years and should be the focus in the near term and will continue to make both our priority.

- Public infrastructure improvements funded by the city or the proposed ballot measure are important elements of the revitalization.

- Those public infrastructure improvements will remain public assets in perpetuity, including parking lots paid for with public funding. The city will own those parking lots which will remain free and publicly accessible. There will be no transfer of public assets paid for with public funds.

- Our next step is finalizing the Finance Agreement which will make clear that public infrastructure assets, including public streets, open space and parking will remain public and not be leveraged or transferred to private hands.

DRAFT

INITIAL DOWNTOWN REVITALIZATION PLAN:
WINTER 2014: BUILDINGS - A1, A2, C AND BLOCK F

A REVITALIZED DOWNTOWN WILL BRING MANY BENEFITS TO OUR COMMUNITY

- New FREE parking
- 30% more pedestrian open space than required under the Specific Plan
- Public open areas – the highest concentration of plazas and energetic open areas downtown
- New shops
- New restaurants
- New Movie Theaters – including a permanent site for the Palm Springs Film Festival
- Views of the mountains enhanced with four major new view corridors
- Improved traffic flow through and around the new Plaza project
- Grand opening Winter 2014
- Low density project
- 120,000 of the 190,000 sq. ft. footprint will be single story
- Dynamic return on City's investment including new jobs and new tax revenues from the revitalized business community in Palm Springs
- Broad-based community support
- The product of three visioning sessions with important input from hundreds of citizens

Wessman has a proven track record of building many high quality, successful projects.

Desert Sun
Sunday 6/5/11

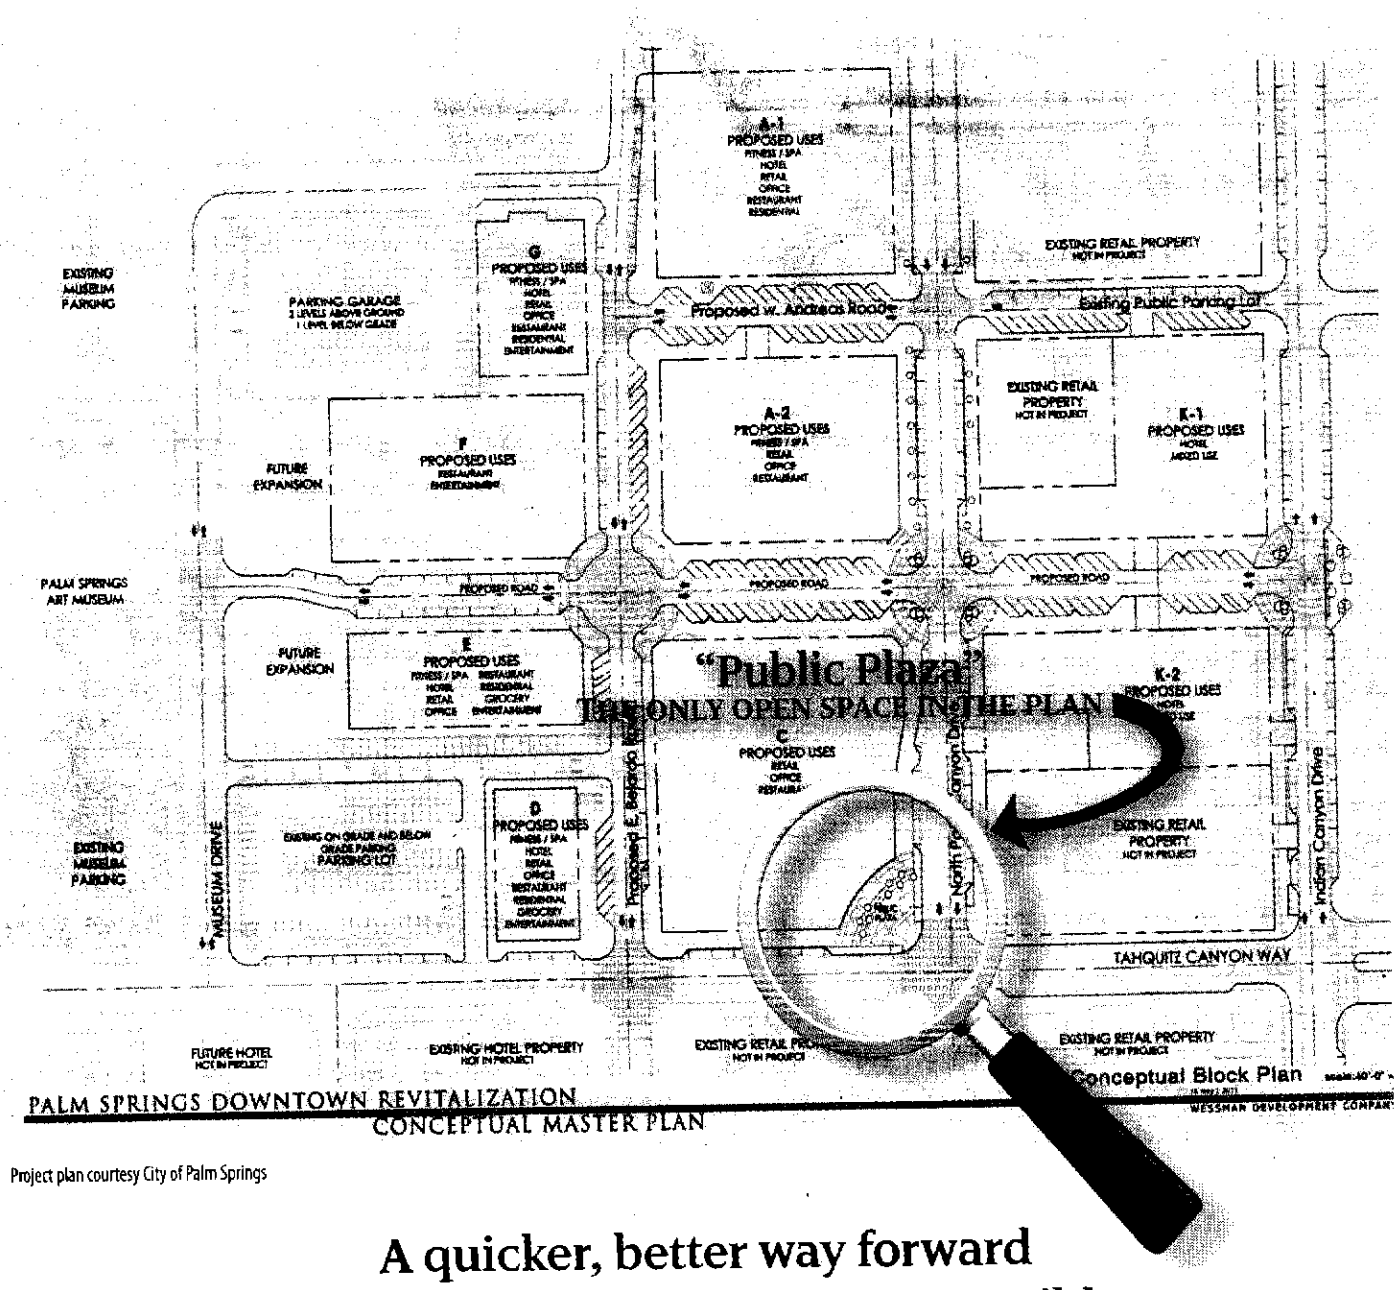
THANK YOU, PALM SPRINGS PLANNING COMMISSION

for listening to the people and **voting to reject** the deeply flawed Development Agreement proposed by the City and John Wessman for the Desert Fashion Plaza.

What's wrong with the Development Agreement?

It does not fulfill the wishes of the citizens as expressed during the Mayor's Visioning Sessions.

- **Only a sliver of open space!** What happened to the promised community meeting areas?
- Lack of pedestrian promenades
- **A timeframe of 10 to 25 years for Wessman to complete the project**
- Existing and new parking structures to be paid for with our tax dollars, only to be handed over to a private developer
- Willful dismissal of the Visioning Session results that incorporated the **historic Town & Country Center** in a revitalized downtown



Project plan courtesy City of Palm Springs

A quicker, better way forward for Downtown Palm Springs is possible.

City Council, please negotiate a fairer deal for Palm Springs!

Contact the City Council with your thoughts about this Development Agreement before their June 15th vote.

>
> It highlights issues we defiantly need to address.... "non revenue" portions of the project "Admit how much money Wessman wants"
>
> Sooner or later we need to address the $$$ issue and need a simple explanation for it, otherwise the PFA will get twisted around similar to the DA ...
>
> Yes, e mails like this go around every day, but the sooner we can get the true story out ...the better.... In my view, It would be not good, if someone would confront us first with a number that we have to confirm July 20th....
>
> We need to bring the point about the sale of property and the parking garage across.... How much It would be, if the city would hire a contractor to build a parking garage today.... - Thoughts ?
>
> E MAIL for Tuesday's main street meeting
>
> > I truly feel for the merchants downtown, especially in light of the disastrous joint development agreement (JDA) proposed by Wessman and Pougnet who have gotten in bed together to the disservice of our City. The JDA was written by Wessman's attorney and serves only his interests. Please see the link below to next week's Planning Commission Agenda. The Commission, at the last meeting, said they would articulate all the reasons the JDA was completely unacceptable. Those reasons are now in print and listed on the agenda with their recommendation to disapprove - there are 28 reasons cited for disapproval in the upcoming Planning Commission agenda. These are

worth reading. I've attached the Planning Commission link, just click on the JDA agenda item.

Also, I hear Wessman will be asking for between $14 and $21 million for the non-revenue portions of the project he plans to dump on City. See if you can get him to admit that.

Bureau of Tourism

Like no place else.™

How many visitors come to Palm Springs?

- Approximately 2 million per year

Although neither the BOT or CVA has an exact number, this formula gives the 2 million:
5,861 PS hotel rooms/725 vacation home rental/condos = 6,586
x 365 days = 2,403,890 rooms available per year
x 50% occupancy = 1,201,945 occupied rooms per year
x 1.3 visitors per room = 1,562,528 overnight visitors per year
Add in day visitors and you can see how it can reach 2 million per year (more or less)

Why do people come to Palm Springs?

- Favorable weather ("Fun in the Sun")
- Relaxing (The most popular word used to describe Palm Springs)
- Fine Dining
- Spas
- Outdoor Recreation (Being surrounded by natural beauty is a popular description)
- Shopping
- Sporting Events
- Nightlife
- Variety of Activities
- Friendly, Laid back, Casual
- Diverse/Cosmopolitan Flavor
- Able to combine business with pleasure
- Easy to get to/Proximity

The Honorable Steven Pougnet
Mayor of Palm Springs
3200 E. Tahquitz Canyon Way
Palm Springs, CA 92262

Subject: Town & Country Center

Dear Mayor:

Last month I visited Palm Springs as a guest of the Palm Springs Preservation Foundation. During the visit, I had the opportunity to tour the grounds of the historic Town & Country Center designed by Paul R. Williams and A. Quincy Jones in 1948.

I am very disappointed that the city of Palm Springs is pursuing a development plan that includes the demolition of such a valuable historic resource. As an architect and preservation, I have seen many similar properties in far more distressed condition transformed into economically-contributing developments. The Town & Country Center is as relevant today with its mixed-use, pedestrian-friendly courtyard, as it was in 1948.

Additionally, concept of sending more than 50,000 square feet of building debris to a local landfill, the removal and replacement of a historic resource, and the modification of traffic patterns does not seem to be the most advantageous approach to take as an architect, preservationist, urban designer, and LEED-accredited professional. My understanding is that you have embarked on a highly-publicized sustainability campaign, if so; I would encourage you to consult with your Sustainability Commission on this matter.

Finally, the historical importance of Paul R. Williams cannot be overstated. Williams was an immensely talented architect and Palm Springs is fortunate to be the steward of such a fine example of his work. As the American Institute of Architects' first African-American member and fellow, Williams faced enormous social and professional challenges and still inspires architects to this day.

It would be my pleasure to speak with you in greater detail about this structure and the proposed project. If you would like to engage in a conversation, I can be reached at (317) 388-8850.

Sincerely yours,

Sanford E. Garner

EC 9282. (a) For measures placed on the ballot by petition, the persons filing an initiative petition pursuant to this article may file a written argument in favor of the ordinance, and the legislative body may submit an argument against the ordinance.

(b) For measures placed on the ballot by the legislative body, the legislative body, or any member or members of the legislative body authorized by that body, or any individual voter who is eligible to vote on the measure, or bona fide association of citizens, or any combination of voters and associations, may file a written argument for or against any city measure.

EC 9287. If more than one argument for or more than one argument against any city measure is submitted to the city elections official within the time prescribed, he or she shall select one of the arguments in favor and one of the arguments against the measure for printing and distribution to the voters. In selecting the argument the city elections official shall give preference and priority, in the order named, to the arguments of the following:

(a) The legislative body, or member or members of the legislative body authorized by that body.

(b) The individual voter, or bona fide association of citizens, or combination of voters and associations, who are the bona fide sponsors or proponents of the measure.

(c) Bona fide associations of citizens.

(d) Individual voters who are eligible to vote on the measure.

Public communications plan for the proposed Palm Springs tax measure

Introduction

For many Palm Springs residents and visitors the Desert Fashion Plaza is the symbol of a depressed downtown. The City of Palm Springs is pursuing a strategy to renovate and revitalize the Desert Fashion Plaza.

The following plan and budget presents strategies and programs that may be implemented by the City and interested citizens to accomplish the goal of revitalizing downtown Palm Springs and the local economy as a whole.

In this document we recommend a communications plan that is to be implemented by a coalition of concerned citizens. This coalition would be distinctly separate from the City of Palm Springs, its staff and its elected officials. This private citizens' advocacy effort is mentioned only to make clear the distinction between our recommended City actions and what a separate and completely independent coalition may do if they wish to address voter issues.

The following recommendations are based upon in depth issues research, confidential interviews with key business and opinion leaders, and other relevant research. We analyzed our findings based upon 30 years of experience in public opinion research and ten years of working specifically on Palm Springs issues.

Overview

The City is exploring a public-private partnership with the Desert Fashion Plaza owner, Wessman Development Company. The City has proposed to provide an estimated $30 million, possibly in exchange for Desert Fashion Plaza assets such as public parking and other elements that are of value to the community. In addition, the City will get Wessman's commitments to accomplish defined project improvements, meet milestones, and include certain project elements within tight development restrictions.

The financing for the $30 million will come through a Palm Springs bond that will be financed through a proposed half-cent sales tax. The revenues from the proposed sales tax will go to the Palm Springs General Fund and will not be earmarked for the Desert Fashion Plaza project. Palm Springs City Attorney Doug Holland has opined that using the sales tax in this manner

allows voter approval of this measure by a simple majority as opposed to the two-thirds majority which would be required if the sales tax been dedicated to specific programs or projects.

Benefits and constraints to the City

There are strengths and weaknesses in this ballot measure scenario. Following are some of our research findings based upon confidential interviews, analysis of local political trends and trends in pubic opinion, and other relevant research.

Community issues

The revitalization of downtown Palm Springs is a top priority for Palm Springs residents.

When asked to choose from among high profile issues – including the local economy, jobs, the environment, housing, schools, traffic, the Warm Sands sting issue and crime -- nearly half of those interviewed cited downtown revitalization as the number one issue facing the City. And, in the realm of public opinion, downtown revitalization means renovating the Desert Fashion Plaza.

While the idea of renovating the Desert Fashion Plaza is very popular, the idea of higher taxes to pay for the Desert Fashion Plaza renovation is far less popular. Naturally, people express resentment to paying taxes. However, we identified some aspects of public attitudes toward the long time Desert Fashion Plaza that play into attitudes about the proposed sales tax.

Widespread skepticism

The public's perception of the Desert Fashion Plaza itself is very negative. In fact, there is widely shared skepticism about the project ***ever*** being completed.

Further, John Wessman, suffers from a very negative image among Palm Spring residents. Whether Wessman's public image comes from his Desert Fashion Plaza ownership, or his recent Chino Cone projects or other projects in Palm Springs, we find that Wessman's involvement in the project lowers public confidence in a successful Desert Fashion Plaza renovation.

When we explore three possible scenarios and there is no positive consensus in public opinion regarding which scenario would most likely result in the Desert Fashion Plaza being revitalized. While 31% believe a partnership between Wessman and the City, using public taxpayer funds is most likely, another 29% believe revitalization will most likely occur if Wessman handles and finances the project, and 24% believe the best scenario is if the City is in charge of the project using taxpayer funds. Another 9% do not believe the Desert Fashion Center will be revitalized and 7% have no opinion.

Opposition arguments resonate

What is also troubling is that most interviewed agreed with the statement: "there have been proposals and talk of revitalizing Desert Fashion Plaza for years and nothing has ever been done – it is unlikely that this project will get off the ground either."

Further, nearly two-thirds of those interviewed agreed with the view that "revitalizing the Desert Fashion Plaza is a good idea, but raising taxes is not the way to pay for a project like this."

Opportunities

Still, despite public skepticism about the completion of the Desert Fashion Plaza renovation, reactions remain positive to potential components of the project. These positive reactions point to a path for successful messaging. For example, six of the seven potential projects that could be included in revitalization of the Desert Fashion Plaza are favored by more than 70% of voters, with the most popular projects being free parking and public open areas for pedestrians. The least popular tested amenity is the inclusion of more museums.

Priorities for Revitalization Projects

Six of the seven potential projects for the downtown revitalization are popular with more than seven-in-ten voters today. The most popular projects are "free public parking" (92% favor) and "public open areas for pedestrians" (90% favor), but wide majorities also favor "new shops and boutiques" (86%), "new restaurants" (83%), "outdoor entertainment venues" (81%) and "height restrictions on buildings" (71%). Voters are not as likely to favor the inclusion of more museums in the revitalization project. Specific reactions to each project are summarized in the following table.

Potential Funding Proposals

We explored reactions to two potential funding mechanisms that would generate $30 million to purchase and revitalize the Desert Fashion Plaza. One tax measure has a chance of winning and the other is doomed.

A sales tax increase generates support from nearly six-in-ten surveyed, however, a parcel tax is not popular today.

Specifically, by a 59-38% margin, voters support a one-half of one cent sales tax increase. The remaining 4% are undecided.

On the other hand, a parcel tax of $50 - $90 is supported by 39%, opposed by 50%, and 11% have no opinion.

Caveat

While the 59% support rate for a sales tax may appear encouraging, this support figure is not as high as one would want to see in a public opinion survey if a 50% plus one majority YES vote was required at the polls. Typically, in a survey you want to see at least 65% or higher favorable support for a measure that costs voters money.

We further probed opponents to both tax measures to determine if there was anything that would change their minds. The short answer is nothing would change their opposition to either new tax proposal.

Political Climate

City approval rating

Palm Springs voters are divided in their outlook about things in the City today. Forty-six percent believe things in the City are generally headed in the right direction, while 40% say things are off on the wrong track, and 14% have no opinion. These numbers are not positive, but closely mirror what we have seen in other Palm Springs public opinion surveys over the past decade.

November election context

The sales tax measure is likely to share the November 2011 ballot with the Palm Springs races for mayor and two council seats. Candidates competing for these elected seats will likely influence the public opinion by raising the visibility of selected issues. They may also impact elections by influencing turnout of some or all segments of the voting population. The mayor's race may particularly shape the political climate and define issues if Mayor Pougnet declines to run for reelection and the contest for the open seat becomes heated.

Other state or regional ballot measures may also contribute to shaping the political context of the November election.

It is not the purpose of this document to address how selected candidates or issues will influence voters in the November 2011 election.

Strategy and theme

The concept of revitalizing downtown is very positive.

The idea of a tax is less well received by the voters.

We recommend implementing a strategy that leverages the renovation of the Desert Fashion Plaza and its most popular and positive elements to help define the sales tax proposal. To say it another way, we recommend implementing an effort to increase public support for a half-cent sales tax in Palm Springs by linking it with the revitalization of the Desert Fashion Plaza.

Constraints

The City cannot explicitly say the half-cent cent tax increase will go towards the revitalization project, so the City needs to somehow signal to voters that if additional funds were available they would go towards the Desert Fashion Center project.

Two phased program

We recommend a two-phased voter contact program -- education and persuasion.

The education portion of the program will be led by City of Palm Springs. The City's public communications role will be very limited. The education phase will focus on making it clear to voters that the revitalization project is a top priority for City Hall.

A citizens' coalition that is completely separate from the City Hall will head the broader persuasion element. During the persuasion phase the citizens committee will focus on framing the issue and more closely linking the tax increase and revitalization project.

City education phase

Define the issue early and inoculate the public

A series of at least two newsletters distributed citywide are recommended, to both demonstrate the City's dedication to revitalization and also highlight specific improvements that will be made if funding is available. Examples of the specific improvement elements include new free parking, new shops and restaurants, more open public space, outdoor entertainment venues, etc.

To help frame the issue for a November election, it is recommended that one of these newsletters arrive in home before July coupled with a public meeting. Communicating early will help lay the foundation for the upcoming persuasion phase and also help appropriately distance the City from the

political/persuasion aspect of program. A good opportunity for the newsletter and public meeting may be the development agreement between the City and Wessman. The second newsletter should be distributed in the second week of October.

The Dolphin Group will prepare and produce the newsletters, prepare talking points and coordinate presentations for the public meetings.

Other communications

We recommend the City sponsor at least two public forums to announce milestones or significant points of progress toward a successful partnership of the City and Wessman. Examples of these milestones may include the signing of a development agreement, demolition of portions of the Desert Fashion Plaza, commitments from exciting new tenants, unveiling of new designs, etc.

Mayor Pougnet and representatives of the Desert Fashion Plaza team whom may address specific issues regarding the Desert Fashion Plaza renovation should host the public forums.

The Dolphin Group will prepare talking points and produce appropriate materials to support the presentations and for distribution at the events.

Media

We recommend that the City does not take a lead role in discussing the sales tax measure in the media. Instead we recommend that media inquiries be directed to a spokesperson for the citizens advocacy group. The citizens advocacy group may deliver arguments that tie the benefits of the Desert Fashion Plaza renovation/downtown revitalization with the sales tax measure.

When media inquiries require comment from a city official, we recommend that either Mayor Pougnet or Councilmember Chris Mills provide the statement.

The Dolphin Group will provide media talking points and media kit materials.

City Education Phase Budget: May - November 2011

Two newsletters	$37,000
Presentation materials expenses (using Wessman graphics and some production)	$600
Media costs	$200
The Dolphin Group Fee: May – July 2011 at $8,000 per month	$24,000
Total: City Education Phase Budget	$61,800

PALM SPRINGS PRESERVATION FOUNDATION

March 6, 2011

Board of Trustees
Attn: Dr. Steven A. Nash, Executive Director
Palm Springs Art Museum
101 Museum Drive
Palm Springs, CA 92262-5659

Dear Trustees,

The Palm Springs Preservation Foundation's (PSPF) board of directors requests the opportunity to meet with the Palm Springs Art Museum's board of trustees to discuss the future of the Town & Country Center (1947) designed by architects Paul R. Williams and A. Quincy Jones.

Specifically, we have become increasingly concerned and alarmed at the public statements made by Messrs. Matzner and Meyerman (i.e., on June 24, 2009 and on March 2, 2011) wherein they have represented the museum's position as endorsing development plans that include the demolition of the historic Town & Country Center.

These public statements seem to be at odds with the museum's longstanding support of historic preservation and completely antithetical to one of the museum's core missions, i.e., the protection of our local cultural resources. It is also important to point out that the museum's Architecture and Design Council (ADC) has become one of the museum's largest and most popular councils. Many ADC members (and ADC board members) have very publicly supported the restoration of the Town & Country Center and have confided in us their unease at the museum's public statements.

In short, we're sure you would agree that it is very important that the museum's board of trustees hear other points of view on this important matter.

Finally, while we endorse the museum's expansion goals, we also feel that the museum leadership cannot in good conscience be so directly complicit in the destruction of this important architectural resource, a resource which we believe could significantly contribute to the long-term economic health of the city and its burgeoning cultural tourism industry. Ultimately, we would like for the museum leadership to publicly state their support for the restoration of the Town & Country Center.

We look forward to meeting with you. Please contact the foundation at (760) 837-7117 or info@pspreservationfoundation.org to make the necessary arrangements.

Sincerely,

Ron Marshall

ALM PRINGS ERN MITTEE

March 8, 2011

RECEIVED
BY:

Board of Trustees
Palm Springs Art Museum
101 Museum Drive
Palm Springs, CA 92262-5659

Dear Trustees,

The Palm Springs Modern Committee (PS ModCom) requests a meeting with the Palm Springs Art Museum's board of trustees regarding the museum's public support for certain aspects of the current Desert Fashion Plaza project.

Specifically, we are very concerned about public statements made by board executives on June 24, 2009 and March 2, 2011 that endorse plans for the project that will result in the demolition of the historic Town & Country Center for the sake of a road from Palm Canyon Drive to Indian Canyon Drive.

Given that one of the core missions of the museum is the protection of our local cultural resources it seems completely inappropriate for the museum to encourage proposals that destroy that heritage. Also, many members of the museum's Architecture and Design Council (ADC) publicly support the restoration and adaptive reuse of the Town & Country Center and are distressed by the museum's current stand.

It should be noted that during many years of public discussion we have consistently supported the museum's goal of having direct and unobstructed access from the museum to Palm Canyon Drive. Where we differ is in the need for such access to continue east directly through the Town & Country Center to Indian Canyon Drive. While the declaration that "there must be a clear path from the museum to Indian Canyon Drive" has a pithy declarative ring to it, the reality is that this further extension leads directly to a dead-end at the tribe's Spa Hotel. In addition, the issue of providing left turn access to the museum could be solved, for instance, by making Palm Canyon Drive a two-way street as it once was.

We look forward to an open dialog on this important issue in the very near future given the rapid momentum of the latest Desert Fashion Plaza project.

Sincerely,

Peter Moruzzi

Peter Moruzzi
President
Palm Springs Modern Committee

(A) What project amenities

1. Free Public Parking - 92%
2. Public Open Areas for Ped's - 90%
3. Restore Village Atmosphere - 87%
4. New shops - boutiques - 86%
5. New restaurants - 83%

(B) Should City be involved in project?

Yes - 57%

No - 38%

(C) ½ penny sales tax

yes - 59%

No - 38%

(D) What we need to get from Walmart -

1. height restrictions
2. more public space.

WAKE UP PALM SPRINGS!

The future of downtown is in your hands.

The development agreement being proposed by the City of Palm Springs and John Wessman for the Desert Fashion Plaza is a bad deal all around.

Did you know?

- Only 2,400 square feet of open space is planned. We were promised community meeting areas and pedestrian promenades.
- The proposed plan allows John Wessman 10 to 25 years to complete the project.
- Your taxpayer dollars will fund parking structures that will then be given to John Wessman.

DON'T ALLOW YOURSELF TO BE TAXED FOR YET ANOTHER JOHN WESSMAN BOONDOGGLE!

City Council...*Please! Negotiate a fairer deal for Palm Springs!*

Paid for by Palm Springs Modern Committee

WHAT CAN YOU DO TO STOP THIS?

It's ***vital*** that you attend the Palm Springs City Council meeting on June 15th to express your views on this terribly flawed plan.

WHERE: City Hall, 3200 E. Tahquitz Canyon Way
WHEN: June 15th at 6 p.m.

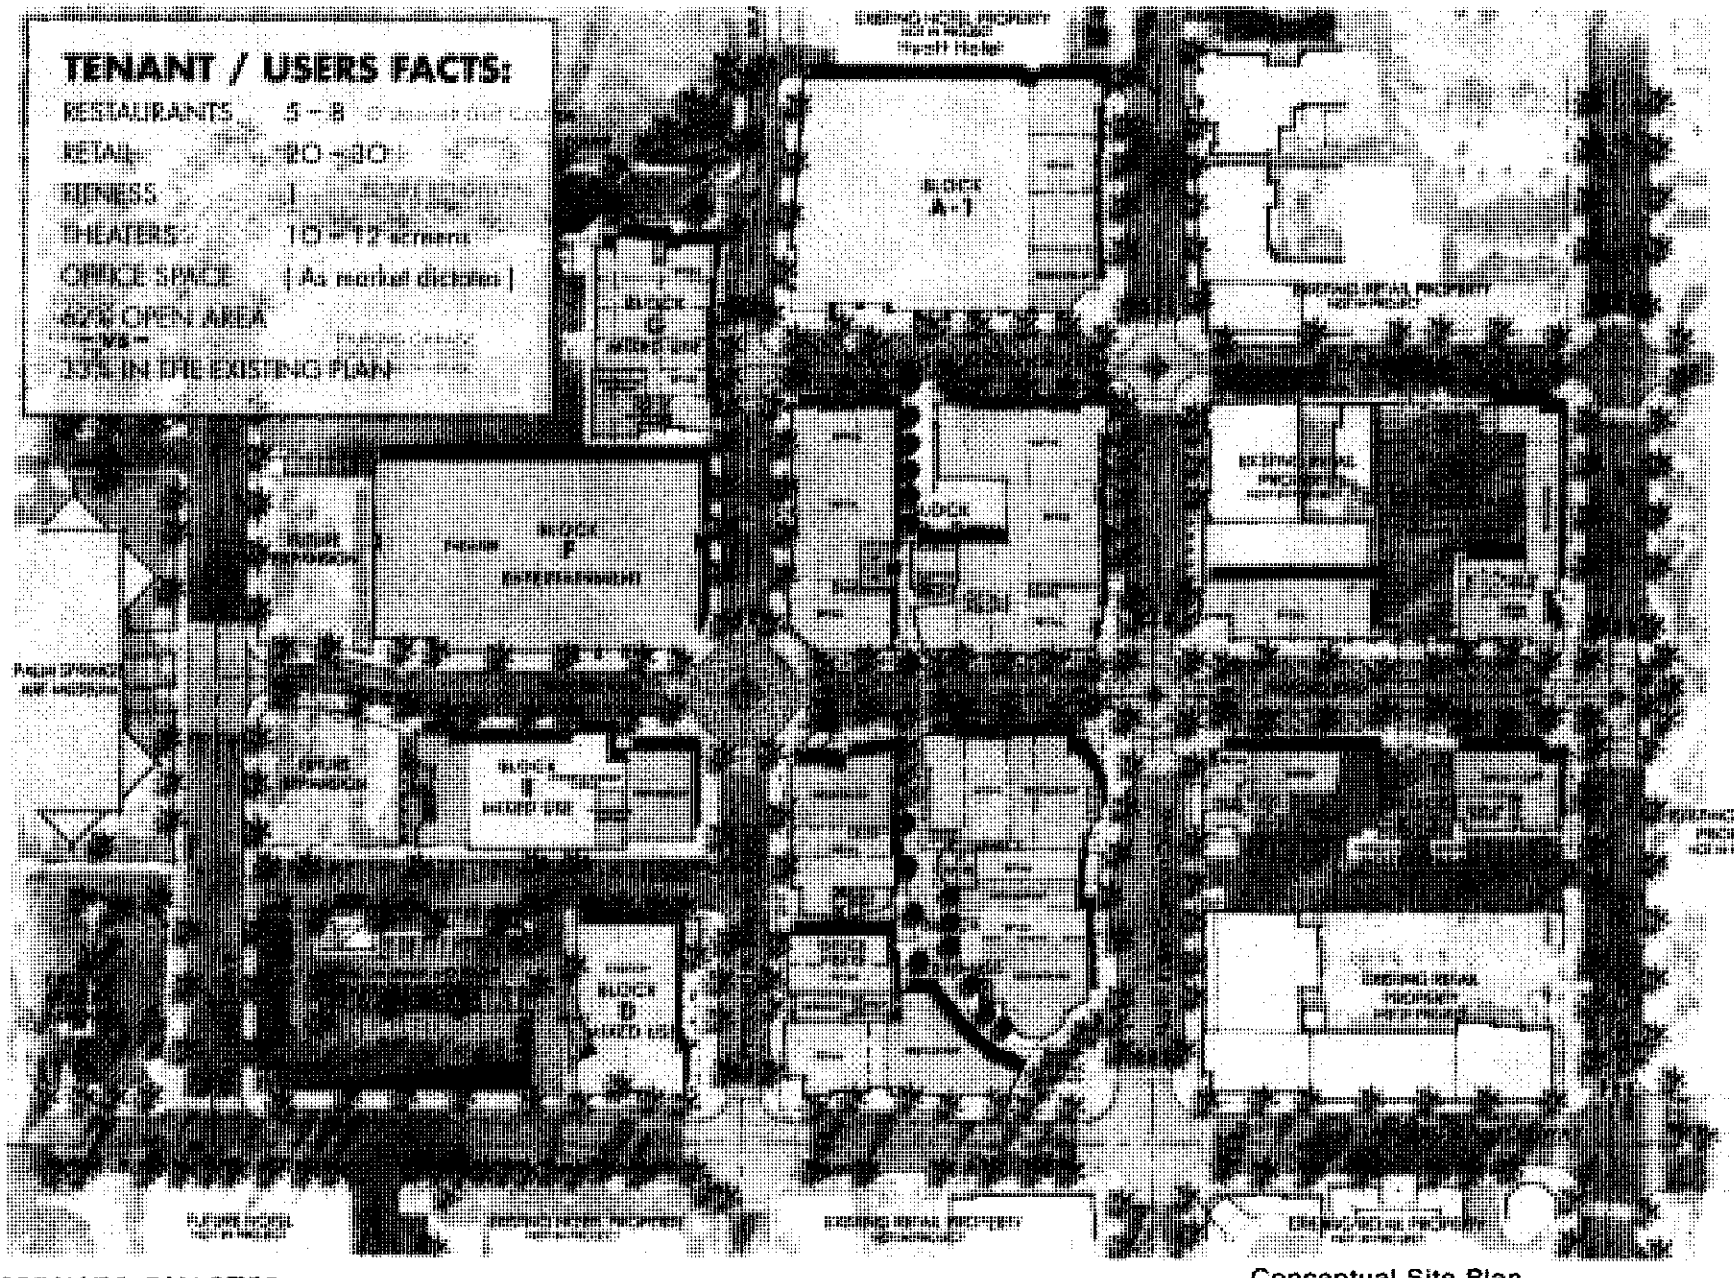
YES! WE SUPPORT REVITALIZING DOWN TOWN

A REVITALIZED DOWNTOWN WILL BRING MANY BENEFITS TO OUR COMMUNITY

- New FREE parking
- 30% more pedestrian open space than required under the Specific Plan
- Public open areas – the highest concentration of plazas and energetic open areas downtown
- New restaurants
- New shops
- New Movie Theaters – including a permanent site for the Palm Springs Film Festival
- Views of the mountains enhanced with four major new view corridors
- Improved traffic flow through and around the new Plaza project
- Grand opening 2014
- Low density project
- 120,000 of the 190,000 sq. ft. footprint will be single story
- Dynamic return on City's investment including new jobs and new tax revenues from the revitalized business community in Palm Springs
- Broad-based community support
- The product of three visioning sessions with important input from hundreds of citizens

INITIAL DOWNTOWN REVITALIZATION PLAN:
WINTER 2014: BUILDINGS - A1, A2, C AND BLOCK F



Conceptual Site Plan

From Mark Anderson
6/7/11

Talking Points for the Downtown Revitalization Effort

We have an exciting opportunity for revitalizing downtown with the Desert Fashion Plaza project

- We cannot miss this opportunity & We cannot lose our focus on this goal.

Many benefits for the community

- New free parking.
- Public open areas – the highest concentration of plazas and energetic open areas downtown.
- New restaurants & New shops.
- New movie theaters – including a permanent site for the Palm Springs Film Festival.
- View of the mountains preserved and enhanced.
- Improved traffic flow through and around the new Plaza project.
- The return on investment includes new tax revenues from the revitalized Desert Fashion Plaza and the revitalized business community in Palm Springs.

The Desert Fashion Plaza revitalization project has broad based community support

- Hundreds of citizens gave their input and showed their support in the three visioning sessions.
- Local businesses and merchants support.
- Local hotels & restaurants support.

Wessman builds high quality projects

- Wessman wants to be able to build a spectacular shopping center in PS, a project the community will be proud of.
- Proven track record (Mercado Plaza, Plaza del Sol, Las Palmas Medical Center across the Hospital, Target Center in Cathedral City etc) of landmark and architecturally appealing properties that have won multiple awards receiving national recognition.

Development Agreement is a needed tool

- The Development Agreement is a necessary tool for planning and stabilizing many of the essential factors upon which economic and planning decisions need to be made.

- The City benefits because the Development Agreement defines how and when Wessman must perform, as well as the City benefits of new free parking, new tax revenues, new jobs and local businesses, and a revitalized downtown.
- We cannot afford to throw any more roadblocks in the way of revitalizing downtown.

Three things that history has taught us are that:

- Some key current structures in downtown Palm Springs do not work – prime downtown land that is stagnant needs to be revitalized now.
- Wessman has a consistent track record of delivering quality projects.
- Partnering with a winner is a winning strategy.

>
> Revitalization Plan - SF and Targeted Tenants
>
> Dear Harold:
>
> As promised please see below a summary of various studies we conducted during the last 6 years. We contracted in 2006 & 2007 retail studies prepared by Robert Lessor for the Palm Springs Trade and Cathedral City Trade area when planning life style centers for both downtown Palm Springs and Cathedral City centers. A study by the Buxton Group about the average income level and possible retailers in Palm Springs was recently updated by the city confirming that the Palm Springs area has a much higher purchasing power than regular studies by zip code reveal.
>
> I summarized below the findings and updated the target list of tenants that have been identified as suitable for our trade area.
>
> I trust that you will not forward or share this information in its entirety as the studies were in excess of $150,000 and several brokers and other shopping center operators would like to get their hands on this information. I believe this analysis will help you to better understand that a well designed project with good accessibility, plenty of parking and quality entertainment choices will attract more tenants than we will

be able to accommodate. Let's not forget that the market is graving for new entertainment choices in the Coachella as existing ones are dated or tired. Palm Springs with it's unique offering of culture, gambling, hiking, golf and accessibility from the I 10 will be the only game in the Coachella, when it comes to an entertainment center that offers a full menu of choices for today's consumers.

Study Summary:

A typically regional tenant tends to select locations that can demonstrate support for 200,000 - 300,000 square feet, and thereby benefit from synergies of co-tenancy.

The current hotel stock of 7,500 plus rooms in Palm Springs is a major attraction to retailers as it is a proven fact that tourists tend to spend 5 times the amount during vacation / business trips when compared to their primary home trade area.

The site's access (provided the East / West connection is being established) and visibility make it an attractive location for local, tourist-serving and community-oriented retail. Past analysis by the Buxton Group and Robert Lesser company indicate that a number of retailers in this category are interested in new and/or additional locations in the Coachella Valley, and that the Desert Fashion Plaza would match their location criteria.

Based on the current supply/demand context of the local market, and our understanding of retailers looking for locations in the Coachella Valley, support exists for the site. Especially smaller restaurant and retail operators are looking for space in excellent locations to reduce marketing costs to drive traffic count. The target site offers excellent downtown frontage location with easy access.

Structural" demand should exists for an estimated 150-200,000 square feet of regional retail in Palm Springs, which is currently leaking outside of the city boundaries and is being captured in nearby concentrations of regional/big box retail or the Internet. It is unlikely that the subject property could attract a national regional retailer based on this level of demand alone, as typically regional tenants tend to select locations that can demonstrate support for 300,000 to 500,000, which makes the Rancho Mirage/ Palm Desert corridor more attractive for national retail chains (bigger trade area within a 3,5 and 10 mile radius)

DSFP numbers - Existing vs Planned:

Total Land DSFP SF 575,000

Existing DSFP Building Coverage ground floor of SF 358,000 with 38% Open Space and View areas (includes the 2 existing museum pads currently open space) and surface parking.

New Revitalization Plan
Building coverage ground floor SF 226,000 providing 62% vs 38% in the existing structure of Open Space and View areas I.e surface parking lot.

In the initial revitalization phase, we will build SF 105,000 of leasable retail and restaurant space on the ground floor (separately office space and restaurants above retail in certain sections with the movie theater and gym absorbing initially 65,000 - 85,000 SF) Existing DSFP tenants, which will be relocated within the center will absorb approximately SF 15,000 (CPK, ATT etc)

We are currently in advanced discussions with 2 restaurant operators and 3 retailers, who will lease a total of SF 25,000.

In summary we only have about SF 50,000 of non committed leasable space in the initial revitalization phase. Once agreements are executed and demolition will have started other retailers will take notice and will be pressured to commit quickly in order not to miss securing key locations in the center. let's not forget success breeds success.

SUMMARY OF SF Numbers for the initial Revitalization Phase:

Total New Retail in three new blocs SF 75,000 - SF 90,000
All Retail Space provide prime street frontage exposure, providing maximum visibility. (Please note Mercado Plaza's occupancy rate never dropped below 90% due to its lay out and accessibility from Indian Canyon, Palm Canyon and Belardo Road)

Total New Restaurant Spaces SF 25,000

New Movie Theater SF 45,000

New Gym SF 25,000 - SF 41,000

Office Space above Retail - TBA as market dictates

Target Tenants and Achievable Rents (not provided) with street or major entertainment frontage

New Specialty Retailer Stores to absorb a total of: SF 35,000 - SF 50,000
H&M and or Forever 21, Urban Outfitters SF 10,000 - SF 15,000
Victoria Secret SF 2,500
Make Up: Mac or Ulta SF 3,000
Tommy Bahamas and or Ted Baker, Seven for all mankind SF 4,000 -SF 6,000
Sporting Goods: Nike and or LuLu Lemon SF 3,000
Quicksilver and or The Limited, Gap, Jack's SF 3,000 - SF 5,000
Furniture: West Elm and or Jonathan Adler, Ligne Roset, Z Galerie SF 5,000 - 10,000
Sunglasses Hut and or Optical Aspen SF 1,500
Vitamine shop, Bath and Body Works SF 2,500
ATT and possibly Verizon, SF 2,500
Game Stop and or Radio Shack SF 1,500 -SF 2,500

New Convenience Retailer stores to absorb a total of: SF 10,000 - SF 12,000
Dry Cleaner, Pet store, Hair Salon, Card and Gift stores

Financial Institution to absorb a total of: SF 5,000 - SF 10,000
(Rabo Bank, Chase Bank, One West)

Galleries SF 10,000 - SF 15,000

New Restaurants to absorb a total of: SF 25,000
Ruth Christ and or Morton's, Buffalo Wings or Yard House, Banderas or Houston's, the Counter, CPK, Chipolte, & local specialty operators. (Please note there is currently a void for a quality Italian and Chinese restaurant, which all seek street frontage location that is not availble)

Specialty Restaurants SF 10,000 - SF 15,000
Le Pain Qutidien or Brea bakery or Haute Cakes, Haegen Daz, Quality Fast Food (Five Burgers),Einstein Bagels, Pick Up Sticks, Waho Fish Taco,Juice It, Nekter, Red Robin, Auntie Ant's Bretzels)

Fitness / Spa to absorb a total of: SF 25,000 -SF 40,000
Palm Springs currently does not offer an attractive quality Fitness / Spa experience for the local or tourist community
LA Fitness or Equinox or LA sports club SF 20,000 - SF 40,000

Movie Theater to absorb SF 45,000

Grocery Store: SF 12,000
Trader Joes, Jenson, Brystol Farms or other specialty stores

As you can see we have plenty of choices and will not be able to accommodate all of them as the center evolves. More important we will offer space that will accommodate ceiling heights and technology other spaces in the Coachella are unable to provide. Retailers and Restaurant operators will be able to provide a consumer experience that other cities are unable to provide.

Please confirm receipt of this e mail and feel free to e mail or call either John or me with any additional questions you might have.

My children complained all weekend as this summary took playtime away from them with me, so I promised them you would play tennis with them after we get this approved.

Tx,
Michael

Subject: Who is organzing tomorrow's speaker ?

Chris

Do we have someone to speak at tomorrow's Planning Commission, when the commissioners plan to draft a "memo" why the DA is one sided and a bad idea.....?

Shall we write an editorial to be published in tomorrow's paper?

Can you draft an e mail for me that I can send around asking people to come and speak at the beginning or send emails to the individual members to support the revitalization of downtown ?

T&C issue was already decided in 2009 with a 5:0 vote.... This community needs to move forward and must realize that we are competing with other tourist destination. If we consistently revisit issues that have already been decided years ago, we will never move forward.

We want to build a spectacular shopping center in PS, a project the community will be proud of. This community cannot afford to let a developer build a new shopping center that will not work because a crucial street connection from Indian canyon to Palm Canyon into the new center is prohibited (see success of Mercado Plaza with easy street access from Indian Canyon and Belardo Road); all just to save a complex of buildings referred to as T&C that is unable to compete in today's economy.

We are successful Developers with a proven track record (Mercado Plaza, Plaza del Sol, Las Palmas Medical Center across the Hospital, Target Center in Cathedral City etc) of landmark and architecturally appealing properties that have won multiple awards receiving national recognition.

We need to create a spectacular experience for today's consumer ! Why is Starbucks able to sell coffee for $5, when you can buy one for $2 at McDonalds.... Because they create an experience around that coffee cup people are carving for.... We will do the same with our plans for the DSFP; people will want to

come to downtown PS to experience what Wessman and the community of Palm Springs will create in the next 3-5 years. People want to be socially connected and PS is the only city in the Coachella Valley to offer such an experience with its pedestrian friendly street grid. Without a doubt we will have the highest grossing theater in the valley, once the project is finished. The only competition in the valley is THE RIVER and to a certain extend El Paseo

We know what works in PS and what does not work; we need certainty for the foreseeable future to plan and build a successful project. Nobody will start a project of this magnitude, if they are not assured future council might change the agreed upon game plan

Imagine the consequences of plans to build great restaurant space with INDOOR and OUTDOOR experiences and having future councils than deciding not allow outdoor seating in restaurants anymore.... Yes unthinkable, but possible...

The planning commissioners never discussed the plan or its street configuration integrating the "super" bloc DSFP back into the downtown grid. They focused on an old building in a prime downtown location that needs to be activated, nobody.... not the community or any business around the T&C can afford to have an ill designed project like remain in such an important location holding the revitalization of downtown up.

Would Doug Hudson (the architect on the planning commission) start working on the design on any project without a contract that assures him that he will get paid for his work – the answer is NO

John Caffery; former mortgage broker – he sold fixed 5 , 10 and 30 year mortgages to his customers, because they wanted to have certainty about the monthly payments for the foreseeable future, he of all people should understand why we need "Certainty" to start this project.

Why are tenants demanding 5,10 or 20 year leases, so they have the certainty, that they can build their business based on certain parameters that are fixed (SF of the space, rents and common area charges); everyone needs certainty to run a successful business.

Wessman Development has a track record of delivering quality projects the community is and always has been proud of.

NEWS RELEASE

CITY OF PALM SPRINGS

Specific Timelines for Completion of Desert Fashion Plaza Announced

Contact: **Amy Blaisdell**
Communications Director
City of Palm Springs
(760) 323-8250

May 27, 2011

In response to the Planning Commission's denial of the Development Agreement for Desert Fashion Plaza in downtown Palm Springs, Mayor Steve Pougnet wants to reaffirm to the community that specific timelines for the completion of the revitalization project is part of the Public/Private Partnership which is still being negotiated between the City of Palm Springs and Wessman Development

"As part of its obligations under this partnership, Wessman Development has agreed that it can complete the revitalization of Desert Fashion Plaza by November 2014," Pougnet said.

"The Bank of America building will be demolished within 30 days of voter approval of a general tax measure on Nov. 8, 2011," indicated the Mayor.

The City Council will consider a Development Agreement with Wessman at its June 15 meeting.

"The Development Agreement is only one part of the partnership; a separate Project Finance Agreement, which is still being finalized, will detail all of Wessman Development's performance obligations including appropriate default remedies for the City," Pougnet emphasized.

The City Council will consider the Project Finance Agreement at its July 20 meeting.

The proposed agreement presented to the City Council will also include timelines that call for final project design to commence before the end of this year and construction documents to be prepared during 2012. Construction would begin in May 2013.

"The revitalization of Desert Fashion Plaza is the top priority of the Palm Springs City Council and we are committed to that goal," said Pougnet.

"I encourage Palm Springs citizens to attend these important upcoming meetings and learn more about the proposed plan for the future of this critical property in our downtown."

This is Mayor Steve Pougnet's response to the Planning Commission's decision today on the Desert Fashion Plaza Development Agreement:

"Of course, I'm disappointed with the Planning Commission's decision today, but as the citizens of Palm Springs know, I am committed to the City's downtown revitalization. The public-private partnership with Wessman Development will ensure that we achieve this goal for the entire community. I am looking forward to the Council's review of the Development Agreement on June 15, which represents the next step in implementing the community's vision for the revitalization of Downtown Palm Springs."

May 25 Planning Commission, Public Comments on Desert Fashion Plaza Development Agreement

Purpose. What is the purpose of the Development Agreement? What is actually being vested? If the project is evolving and will evolve over 10-25 years, how can such a project be "vested"? There is a lack of specificity in both the Specific Plan and the Development Agreement, made even more stark by the plain vanilla site plan.

Term. Development Agreement has a 10 year span if the tax measure passes and 25 if it does not. Need to articulate why such lengthy term is necessary, particularly the 25 year term. It was also asserted that the long terms was intended to allow for several tries at the ballot. If we feel that this is a one-shot deal, we need to say so. We should discuss timing of ballots vs. the need for Wessman to move forward on the Renovation Plan in the event of ballot failure. Pulling the trigger on the Renovation Plan means there will be no Revitalization Plan – too expensive to relocate tenants, etc.

Consistency with the Specific Plan and General Plan. The Development Agreement must be consistent with both. Need to describe more clearly how all three project descriptions are consistent with the Specific Plan; particularly, the Revitalization Plan. Is there any deviation from the boundaries of the Specific Plan, such as project boundary (no), parking requirements (maybe for hotels in K-1 and K-2), street alignments (maybe Andreas), height (no), or land use? There was some confusion over whether the Specific Plan said there "must" be residential uses: clearly they are in the Plan but in later phases. "Must" they be? Or were these allowed land uses but not required?

Specific Plan calls for "adaptive reuse of architecturally and historically significant buildings." This is an opener into the Town & Country Center discussion.

Consistency with the Visioning sessions. The recitals are incorrect in that the City and Wessman did not jointly undertake the Visioning sessions. That needs to be corrected. The plan as shown, particularly today, is very similar to the MIG plan. Need to explain the "dropping off" of the Town & Country Center. There was a significant minority and perhaps even a plurality of attendees that were interested in saving the Town & Country Center but it was not universal. Because of that the Wessman plan has been delegitimized by the opponents as being very far from the community plan, when it is in fact strikingly similar. Need to say how similar in a side by side manner.

Open space and public benefit. There was a great deal of concern that there was not adequate public open space in the project; less than the Specific Plan contemplated. It was asserted that the Koffi courtyard is 15,000 square feet and that the courtyards here are 2,300 sqaure feet or less, and that most of the open space is actually streets and sidewalks. Please dimension the corner open space, the interior courtyard in Tahquitz square, and the interior traffic circle. Also articulate the potential street closure plans for special events. Talk more about shade and landscaping and come up with photos vignettes of similar size/scale courtyards.

What are other public benefits from the plan? Can we articulate what the public benefits of the project are?

Street dedications. Wouldn't the City require the dedication of the streets by the Developer at no cost? Why would we pay for something we could get for free?

Defaults. There was concern about the default process and the remedies in the event of default of the Development Agreement: specific performance and injunctive relief. There is no monetary remedy. There was also not a clear definition of a default – could we use the failure to use "best efforts" to build out the project? There was also a concern about if Wessman defaults and how that would affect any eminent domain action contemplated by the City. Does it affect value? Do we have to default Wessman out of the Development Agreement prior to undertaking eminent domain? Would a default eliminate the 25 year span of the development agreement?

Cure. Section 6.3 provides 60 day notice of default before City can act, and 7.3 adds another 60 day "cure" period after City votes to terminate the agreement -- so 4-5 months minimum before City can make a finding of default. What is the process for deciding if breach can be cured by a longer period of time, during which City may not terminate?

Review. There should be periodic review of the Development Agreement. The Agreement proscribes annual review. What are we reviewing: Progress? (see "best efforts," above).

Termination. Section 6.5 calls for "Supermajority" to terminate the agreement. We agreed that it would only need a majority and this will be changed.

Henry Frank property. It is included in Block K-2 in the Specific Plan. Jay Frank asked for it to be marked as not a part of the Development Agreement.

Encumbrance of the property. The Mortgage Protection provisions of the Agreement allow for encumbrance of the property for the purpose of financing a project or other improvements. We should look at the provisions that restrict encumbrance for cash out purposes: how would that be enforced over a 10-25 year period. Would City have a right to review loan documents?

Question: Could Wessman get a mortgage on the portions of the Property that the City is supposed to own after an agreement is signed? Answer is that it is no, but need to make sure that that is clear in the agreement.

Also, the Mortgage Protection provisions of the Agreement do not require the Mortgagee to complete the improvements. To do so would make it impossible to obtain a construction loan.

Circulation. They evidently did not like narrowing Indian to make it more pedestrian friendly because of the greater desire to make it two-way. There was also concern about bottle-necking Indian by removing a lane. There was some criticism of adding streets in the downtown core, in terms of increasing vehicles and traffic in that area. One person's

Factual explanation to the facts raised in the Van Etten email.

"It appears eminent domain is dead and Pougnet has sold us down the river in order to gain support for his personal political/employment goals."

The City suspended some of the actions necessary to undertake eminent domain, but there is still a City appraisal on the property and we required to allow Wessman to undertake his own appraisal, which will be completed this week. If negotiations on a Development Agreement and Project Financing Agreement had broken down, the City would want to be in the position to vote on a resolution of necessity prior to August 3 to put it on the ballot as well. At this point it doesn't look necessary to do that. The goal of eminent domain wasn't for the City to own the property, but to move the project forward toward completion.

"Among other things, not only is the plan itself a disaster, but the agreement has the City committing to buying all the land for parking on the project from Wessman - (i.e. - spending millions to construct and maintain the non-revenue producing portions of a private developer's project.)"

If you think the plan is a disaster, then there's not a constructive argument for why the financial structure works. However, the City held three community design workshops, which were each attended by 150-200 people from all segments of the community – not just one interest group. What came out of those very positive meetings were concepts and a plan that bears a tremendous resemblance to the Wessman plan. Calling it a "disaster" is definitely a minority viewpoint.

"There is, of course, no price specified in the agreement for this purchase, nor is there a prescribed method for determining value dictated by the agreement. In other words, the City is giving Wessman a blank check."

The Development Agreement before Planning Commission is not the Project Financing Agreement (PFA), which does not go to Planning Commission. The Development Agreement is only the land use entitlement, and does not contain any of the business terms between the City and Wessman. It is would be bad legal work to mix entitlement issues with business terms. The PFA will contain the price for the parking facilities and streets, as well as the price for the City's option to purchase the property in the event of a default by Wessman – in lieu a revving up eminent domain again.

"Adding insult to injury, you should know that the existing large parking structure behind the mall was built with taxpayer funds via a bond initiative we're still paying for, then donated to Wessman. The development agreement now commits the City to buying it back from him, essentially requiring us to pay for it twice."

The bonds that paid for the parking structure were Certificates of Participation (COPs). Staff believes these bonds were about $23 million, but will confirm. COPs are a form of lease revenue bonds that are secured by a lease. DeBartolo, as the lessee, would have pledged to pay the annual debt service and would have received *all* right, title and interest to the property. While the City, as issuer, would have technically "owned" the structure, in the event of a defeasance of

the bonds (paying them off early), which occurred prior to DeBartolo's default on the shopping center financing, title to the structure would have flowed to the lessee (DeBartolo), not the City. The City has never paid for the parking structure. It did have several million dollars of bonds in the DeBartolo project, of which about $3.8 million are still outstanding, but those funds paid for some of the street infrastructure and perhaps some property acquisition for the expansion. Staff is working to retrieve the detail on City/Agency expenditures during the DeBartolo project – nearly 30 years ago. (Even if we provide all the detail, it's unclear what it would mean. If we put money into a failed project 25 years ago, we shouldn't put more in?)

"Additionally the agreement gives Wessman the right to demolish the Town and Country Center, a historic A. Quincy Jones/Paul R. Williams project from the 1948, in order to create a street we don't need. . But it is a street that will give Wessman new prime commercial street frontage on both sides of the newly created street between Indian and Palm Canyon."

Wessman already has the right to demolish The Center, by two Council actions: the adoption of the Specific Plan, which puts a street through the middle of the project; and, by Council not designating The Center as a Class 1 historic site, as had been recommended by HSPB. The next sentence is contradictory – either the demolition is unnecessary or it creates a prime commercial street frontage. It can't be both unnecessary and successful..

"The agreement also locks the city into a minimum 10-year committment (sic) to Wessman, his heirs and assigns on this project, and possibly a 25-year commitment (sic). This will pertpetuate (sic) and codify a co-dependent relationship that has been toxic now for at least a decade."

There's not even a response to this.

I received this from a friend today. I am shocked and dismayed. Is this true????

If it is true, prepare yourselves for a huge controversy with the public.

I look forward to a reply.

Thomas Van Etten

Thomas,

I thought you should have this information.

The City's development agreement for the Desert Fashion Plaza is the last item on next Wednesda Planning Commission Agenda. It is even worse than anyone could have predicted. It appears emin domain is dead. Steve Pougnet, who was elected mayor with the promise of invoking eminent dom within 90 days of taking office appears to have sold the City down the river in order to gain support his own personal political ambitions. Among other things, not only is the remodeling plan itself a disaster, but proposed development agreement has the City committing to buying all the land prop for parking from Wessman - (i.e. - spending what will probably be millions to acquire, construct and maintain the non-revenue producing portions of a private developer's project.) There is no purchas price specified in the agreement for the parking acquisition, nor is there a prescribed method for determining value dictated in the agreement. In other words, the City is giving Wessman a blank ch In the document, the City also agrees to pay Wessman for the land on which the new street to the museum will be built. As with the City's parking purchase, no price or method for determining value specified in the agreement.

Adding insult to injury, you should know that the existing large parking structure behind the mall wa built with taxpayer funds via a bond initiative we're still paying for, then donated to Wessman. The development agreement commits the City to buying the parking structure back from him, essentiall requiring Palm Springs taxpayers to pay for it twice. Additionally the agreement gives Wessman a vested right to demolish the Town and Country Center, a historic A. Quincy Jones/Paul R. Williams project from the 1948, in order to create a street we don't need. But the road will give Wessman ne prime commercial street frontage on both sides of the street between Indian and Palm Canyon.

The agreement locks the city into a minimum 10-year commitment to Wessman, his heirs and assi on this project, and possibly a commitment as long as 25-years. This will perpetuate and codify a c dependent relationship that has been toxic now for at least a decade. If the public is ever really infc

about what is contained in this agreement, it will not only be a deal-breaker, but a possible career-k for Pougnet.

I hope you will spend some time reviewing the agreement because it is a deadly proposal. I take lit comfort in knowing that if this is presented to the voters in November, instead of eminent domain, i most certainly fail. The link to the agenda is below. And the agenda item 3B link will take you to the page staff report.

To All,

Next Wednesday, May 25th, the Planning Commission will conduct a hearing on the proposed Development Agreement from Wessman Co. for the redevelopment and revitalization of the Desert Fashion Plaza and The Center sites. The City Council will review the proposal on June 15, 2011.

For your preview, I have attached the Commission staff report and Draft Agreement, as well as a comment letter received from Mr. Ron Marshall of the Palm Springs Preservation Foundation. Feel free to contact me if you have any questions, but do not Reply All.

2. Already bought parking once?

PLANNING COMMISSION STAFF REPORT

Date:	May 25, 2011
Case No.:	5.1263
Type:	Development Agreement
Location:	Northwest corner of N. Palm Canyon Drive and Tahquitz Canyon Way, and other nearby properties.
Applicant:	Wessman Development Co.
From:	Craig A. Ewing, AICP, Director of Planning Services
Subject:	Proposed Development Agreement to establish terms for redevelopment and revitalization of the Desert Fashion Plaza and related properties, in accordance with the Museum Market Plaza Specific Plan

PROJECT DESCRIPTION:

Over the past several months, representatives of the City Council and the Wessman Development Company have engaged in dialogue and negotiations aimed at revitalizing the existing Desert Fashion Plaza and Town & Country Center properties. As the discussions have progressed, both parties have determined that a Development Agreement is an appropriate vehicle for establishing the terms and relationships that would move the project to completion.

A Development Agreement is a land use planning tool recognized by the State of California (Government Code Section 65864 et seq.); it is also a form of development entitlement similar to a planned development permit and is allowed in Palm Springs under the provisions of Section 94.08.00 of the Palm Springs Municipal Code.

The Planning Commission is required by state and local law to review draft Development Agreements and forward its recommendation to the City Council. A public hearing has been noticed and the Commission will take public testimony prior to adopting a recommendation.

RECOMMENDATION:

That the Planning Commission determine that the draft Development Agreement between the City of Palm Springs, Palm Springs Promenade, LLC and Wessman Holdings, LLC meets the required findings of state and local law.

BACKGROUND AND SETTING

- On May 21, 2008, the City Council initiated a Specific Plan review process and directed staff to report on the conformance of the draft Museum Market Plaza Specific Plan with the Palm Springs General Plan, Downtown Design Guidelines and Palm Springs Zoning Code.

- On November 18, 2009, the City Council certified an Environmental Impact Report, adopted a Statement of Overriding Consideration and Findings of Fact, and adopted the Museum Market Plaza Specific Plan, including Amendments to the Palm Springs General Plan and the Palm Springs Zoning Code.

- On March 23, 2011, the Planning Commission conducted a Study Session on Development Agreements and related state and local laws.

- On May 3, 2011, the City submitted a draft Development Agreement for the Desert Fashion Plaza and Town & Country Center for review and approval.

ANALYSIS

The draft Development Agreement is essentially a contract between the City and the Desert Fashion Plaza and Town & Country Center owners (Palm Springs Promenade LLC and Wessman Holdings LLC). The Agreement is a binding agreement, which means that both parties agree to abide by its terms. The major terms are identified and described below.

Project Description / Development Plan

The underlying purpose of the Agreement is to identify the responsibilities of the City and the property owner in order to facilitate the revitalization of the properties. The Agreement includes a project description to guide the revitalization, labeled the "Development Plan" and comprised of three scenarios:

1. A "Revitalization Plan", is referenced in the Agreement's project description and a site plan. This approach uses certain existing buildings and replaces others, and may be contingent on a tax revenue measure that the City may put to a public vote in November 2011.
2. A "Renovation Plan", which can be summarized as a re-use of the existing mall with surface upgrades and new tenants.
3. A "Specific Plan" approach which implements the Museum Market Specific Plan, including significant new construction, mixed uses, increased densities.

See the definition of "development plan" (Section 1.1.8) on page 3 of the draft Agreement.

Term

Another important aspect of the Agreement is that it is proposed to have a term of ten (10) years if the tax ballot measure passes and twenty-five (25) years if it does not. This longer term is considered useful in providing predictability to the property owner, private financing interests and tenants who will be involved in developing a complex project in an as-yet uncertain economy (Section 2.3, page 5)

Sales and Assignments
The Agreement allows the property owner the right to sell the property or any part of it, subject to notification to the City. The new property owner will be subject to the Agreement to the full extent of the ownership. (Section 2.4, page 5)

Vesting
The Agreement establishes a vested right to develop the property in accordance with the terms of the Agreement and the Development Plan. This vesting is subject to the land use regulations in effect at the time of the adoption of the Agreement. These regulations are primarily the Museum Market Plaza Specific Plan and other current and applicable zoning and land use regulations. Should the Agreement be adopted, any subsequent zoning amendments or new land use regulations would not apply to the development. This is one of the primary benefits to the property owner: A predictable land use regulatory environment over the term of the Agreement. (Section 3.1, page 7)

As noted in the Section 3.2 of the Agreement, the applicable land use regulations also include processing requirements, fees, hearings and other provisions in effect at the time of adoption of the Agreement. All building codes apply to the project. Any new regulations that limit the extent, rate or time of development – including any adopted by initiative – would not apply.

Public Benefits
This section of the Agreement (Section 4, pages 8 and 9) list the benefits to the public that would accrue from the Agreement's implementation. They include: A stronger planning process that would otherwise occur, a more stable basis for long-term investment in the property, and the redevelopment of the core of downtown Palm Springs through a public-private partnership. Without this partnership, the Agreement notes that these benefits would be less likely to occur in a timely way.

Private Benefits
The property owner also receives certain benefits (Section 5, page 9) from the Agreement, including vested rights to develop the property, and specific arrangements regarding mitigation fees, parking and Transient Occupancy Taxes, as attached to the Agreement, as Appendices

Compliance and Other Provisions for Enforcement of the Agreement
Subsequent sections of the Agreement (Sections 6 through 9, pages 9 – 12) provide the means for enforcement of the Agreement, including

- Annual review by the City to show good faith compliance by the property owner,
- Proceedings for modification / termination of the Agreement,
- Remedies in case of default, including injunctive relief, but not monetary damages
- Terms of litigation of the Agreement, and
- Certain protections for lenders and mortgagees.

The Agreement concludes with a variety of standard provisions typical of such documents.

Staff believes that the key elements of the Development Agreement are the provisions for a comprehensive approach to redeveloping the site, the vesting rights granted to the owner and the Agreement's terms, as they relate to the financial options that might be used to support the project.

A review of the proposed Development Agreement indicates that the Agreement meets the requirements of the Palm Springs Zoning Code for consideration of such a document:

1. The proposed Development Agreement is intended to fulfill the purpose and use of such Agreements, as required of Section 94.08.A.12.a:
   iv. Conditions imposed in connection with the adoption of any specific plan;
   and
   viii. Mitigation measures imposed upon a project after approval of an environmental impact report in which such mitigation measures have been proposed as a mechanism for eliminating or reducing environmental impacts.

   Both these purposes are fulfilled by the proposed Development Agreement in that it specifically cites the Museum Market Specific Plan and relies on the mitigation measures of the Specific Plan's certified Environmental Impact Report for complete implementation of the project.

2. The proposed Development Agreement has been filed by a "qualified applicant", as required by Section 94.08.A.4:
   A qualified applicant is a person who has legal or equitable interest in the real property which is the subject of the development agreement.

   Staff has determined that the Wessman Development Company meets the requirement of this section.

3. The proposed Development Agreement contains certain required provisions, per Section 94.08.A.5 and A.7:
   A.5 Each application shall identify all the proposed parties and shall include the general terms and conditions proposed by the applicant to be contained in the development agreement.
   and
   A.7 A development agreement shall specify the duration of the agreement, the proposed uses of the property, the density or intensity of use, the maximum height and size of proposed buildings, and provisions for reservation or dedication of land for public purposes. The development agreement may include conditions, terms, restrictions and requirements for subsequent discretionary actions; provided that, such conditions, terms, restrictions and requirements for subsequent discretionary actions shall not prevent development of the land for the uses and to the density or intensity of development set forth in the agreement. The agreement may provide that construction shall be

commenced within a specified time and that the project or any phase thereof be completed within a specified time.

As summarized above, all required terms, conditions and parties are contained in the Agreement.

Staff has also reviewed the proposed Agreement against the California Government Code (Section 65864, et seq) and determined that all provisions of the Government Code concerning the contents of the proposed Development Agreement are met.

REQUIRED FINDINGS

According to Section 65867.5 of the California Government Code, a Development Agreement must meet three requirements prior to its adoption. Staff has reviewed the proposed Agreement against these provisions, as follows:

a) *A development agreement is a legislative act that shall be approved by ordinance and is subject to referendum.*

The proposed Development Agreement is proposed to be adopted by the City Council by ordinance. Staff has concluded that the Agreement meets this finding.

b) *A development agreement shall not be approved unless the legislative body finds that the provisions of the agreement are consistent with the general plan and any applicable specific plan.*

The Development Agreement cites the Museum Market Plaza Specific Plan as the land use plan to be used in the development of the affected property under the terms of the Agreement. This Specific Plan was adopted by the City Council in November 2009 as both a General Plan and Zoning amendment for the subject sites. Staff has concluded that the Agreement meets this finding.

c) *A development agreement that includes a subdivision, as defined in Section 66473.7, shall not be approved unless the agreement provides that any tentative map prepared for the subdivision will comply with the provisions of Section 66473.7.*

No subdivision is presently included in the Development Agreement, nor is one contemplated. However, it is possible that implementation of the plan may include revisions to internal lot lines and new subdivisions. The Development Agreement specifically provides for compliance with all provisions of the Subdivision Map Act (§§ 66410 – 66499.58), including the above section.

According to Palm Springs Zoning Code Section 94.08.A.12.b (Recommendations to City Council) the Planning Commission provides a recommendation to the City Council, including its determination of whether or not the proposed Development Agreement meets certain findings. Staff has analyzed the proposed Agreement against these findings, which require that the Agreement:

i. *Is consistent with the objectives, policies, general land uses and programs specified in the general plan and any applicable specific plan;*

The Development Agreement cites the Museum Market Plaza Specific Plan as the land use plan to be used in the development of the affected property. This Specific Plan was adopted by the City Council in November 2009 as both a General Plan and Zoning amendment for the subject sites. Consequently, the Development Agreement can be determined to be consistent with the objectives, policies, general land uses and programs of the City's adopted land use documents.

ii. *Is compatible with the uses authorized in, and the regulations prescribed for, the land use district in which the real property is located;*

The Museum Market Plaza Specific Plan sets forth the authorized uses and prescribed regulations for the land use district in which the subject property is located. The Development Agreement specifically cites this Specific Plan as the controlling land use document for future development. Consequently the proposed Agreement can be determined to be compatible with the authorized uses and prescribed land use regulations.

iii. *Is in conformity with public convenience, general welfare and good land use practice;*

The proposed Development Agreement will provide for the implementation of the Museum Market Plaza Specific Plan and thereby provide a comprehensive redevelopment of the center of City's downtown area. The coordinated arrangement of buildings, roads, open space, parking and existing surrounding land uses is provided for in this Specific Plan in a manner which assures the long-term environmental, economic and social wellbeing of the community. Consequently, the proposed Development Agreement can be determined to be in conformity with public convenience, general welfare and good land use practice.

iv. *Will not be detrimental to the health, safety and general welfare;*

The Development Agreement will implement both the Museum Market Plaza Specific Plan as well as the associated Mitigation Measures of the certified Environmental Impact Report that was prepared for the Specific Plan. Consequently, the proposed Development Agreement can be determined to not be detrimental to the health, safety and general welfare of the community and surroundings.

v. *Will not adversely affect the orderly development of property or the preservation of property values.*

The Development Agreement is specifically intended to provide for the orderly development of property in the downtown by establishing a means to implement the Museum Market Plaza Specific Plan. Further, the comprehensive redevelopment of the site as provided by the Agreement will provide a stable long-term development environment for the site and surroundings, thereby reducing uncertainty for the

property owner, owners of adjacent properties and the community. Consequently, the proposed Development Agreement can be determined to not adversely affect the orderly development of property or the preservation of property values.

ENVIRONMENTAL ASSESSMENT

Staff has reviewed the Environmental Impact Report and associated findings and mitigation measures, which were certified and adopted in November 2009 for the Museum Market Plaza Specific Plan. These environmental documents provide an adequate and complete assessment of the future environmental condition should the Development Agreement be approved and implemented, including all required mitigation. Staff has concluded that these documents may be adopted for the proposed Development Agreement and no additional environmental review is necessary

NOTIFICATION

In accordance with the requirements of Section 94.08.A.9, including publication in the Desert Sun and mailing to all owners of record for properties with 400 feet of the proposed project boundaries.

CITY OF PALM SPRINGS

CASE NO: 5.1263 – Development Agreement

APPLICANT: Wessman Development

DESCRIPTION: To consider a draft Development Agreement proposed by Wessman Development to renovate and remodel the existing Desert Fashion Plaza and related properties in accordance with the Museum Market Plaza Specific Plan (Case No. 5.1204).

RESOLUTION No.

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF PALM SPRINGS DETERMINING THAT A PROPOSED DEVELOPMENT AGREEMENT FOR THE DESERT FASHION PLAZA AND RELATED PROPERTIES CONFORMS TO STATE AND CITY LAWS

WHEREAS, the Wessman Development Company has proposed a Development Agreement (Case No. 5.1263) with the City of Palm Springs to assist in the redevelopment and revitalization of the Desert Fashion Plaza and certain related properties; and

WHEREAS, the proposed Development Agreement includes reference to the Museum Market Plaza Specific Plan as the controlling land use document for said Agreement; and

WHEREAS, the conceptual plan proposed with the Development Agreement provides for redevelopment and revitalization of the subject properties in a manner consistent with and conforming to the Museum Market Plaza Specific Plan; and,

WHEREAS, the approval of a Development Agreement must conform to the requirements of California Government Code Section 65867 et seq, and also to the provisions of Palm Springs Zoning Code Section 94.08; and

WHEREAS, a notice of public hearing for Case 5.1263 was given in accordance with applicable law; and

WHEREAS, on May 25, 2011, a public hearing on the conformity of the proposed Development Agreement Case 5.1263 with State and City laws was held by the Planning Commission in accordance with applicable law; and

WHEREAS, the Planning Commission has carefully reviewed and considered all of the evidence presented in connection with the hearing on the project, including, but not limited to, the staff report, and all written and oral testimony presented.

NOW THEREFORE, the Planning Commission of the City of Palm Springs does determine as follows:

1. The proposed Development Agreement meets the requirements of Section 65867.5 of the California Government Code, as follows:

a. A development agreement is a legislative act that shall be approved by ordinance and is subject to referendum.

The proposed Development Agreement is proposed to be adopted by the City Council by ordinance. The proposed Development Agreement meets this finding.

b. *A development agreement shall not be approved unless the legislative body finds that the provisions of the agreement are consistent with the general plan and any applicable specific plan.*

The Development Agreement cites the Museum Market Plaza Specific Plan as the land use plan to be used in the development of the affected property under the terms of the Agreement. This Specific Plan was adopted by the City Council in November 2009 as both a General Plan and Zoning amendment for the subject sites. The proposed Development Agreement meets this finding.

c. *A development agreement that includes a subdivision, as defined in Section 66473.7, shall not be approved unless the agreement provides that any tentative map prepared for the subdivision will comply with the provisions of Section 66473.7.*

No subdivision is presently included in the Development Agreement, nor is one contemplated. However, it is possible that implementation of the plan may include revisions to internal lot lines and new subdivisions. The Development Agreement specifically provides for compliance with all provisions of the Subdivision Map Act (§§ 66410 – 66499.58), including the above section. The proposed Development Agreement meets this finding.

2. The proposed Development Agreement meets the required findings of Palm Springs Zoning Code Section 94.08.A.12.b, as follows:

a. *Is consistent with the objectives, policies, general land uses and programs specified in the general plan and any applicable specific plan;*

The Development Agreement cites the Museum Market Plaza Specific Plan as the land use plan to be used in the development of the affected property. This Specific Plan was adopted by the City Council in November 2009 as both a General Plan and Zoning amendment for the subject sites. Consequently, the Development Agreement is consistent with the objectives, policies, general land uses and programs of the City's adopted land use documents.

b. *Is compatible with the uses authorized in, and the regulations prescribed for, the land use district in which the real property is located;*

The Museum Market Plaza Specific Plan sets forth the authorized uses and prescribed regulations for the land use district in which the subject property is located. The Development Agreement specifically cites this Specific Plan as the controlling land use document for future development. Consequently the proposed Agreement is compatible with the authorized uses and prescribed land use regulations.

c. *Is in conformity with public convenience, general welfare and good land use practice;*

The proposed Development Agreement will provide for the implementation of the Museum Market Plaza Specific Plan and thereby provide a comprehensive redevelopment of the center of City's downtown area. The coordinated arrangement of buildings, roads, open space, parking and existing surrounding land uses is provided for in this Specific Plan in a manner which assures the long-term environmental, economic and social wellbeing of the community. Consequently, the proposed Development Agreement is in conformity with public convenience, general welfare and good land use practice.

d. Will not be detrimental to the health, safety and general welfare;

The Development Agreement will implement both the Museum Market Plaza Specific Plan as well as the associated Mitigation Measures of the certified Environmental Impact Report that was prepared for the Specific Plan. Consequently, the proposed Development Agreement is determined to not be detrimental to the health, safety and general welfare of the community and surroundings.

e. Will not adversely affect the orderly development of property or the preservation of property values.

The Development Agreement is specifically intended to provide for the orderly development of property in the downtown by establishing a means to implement the Museum Market Plaza Specific Plan. Further, the comprehensive redevelopment of the site as provided by the Agreement will provide a stable long-term development environment for the site and surroundings, thereby reducing uncertainty for the property owner, owners of adjacent properties and the community. Consequently, the proposed Development Agreement is determined to not adversely affect the orderly development of property or the preservation of property values.

DEVELOPMENT AGREEMENT

A DEVELOPMENT AGREEMENT BETWEEN

CITY OF PALM SPRINGS

and

PALM SPRINGS PROMENADE, LLC

and

WESSMAN HOLDINGS, LLC

DRAFT

DRAFT

DEVELOPMENT AGREEMENT

This Development Agreement ("Agreement") is entered into and made effective as of the Effective Date set forth below, by and between the City of Palm Springs, a California municipal corporation and charter city ("CITY"), and Palm Springs Promenade, LLC, a California limited liability company ("PSP LLC") and Wessman Holdings, LLC, a California limited liability company ("WH LLC") (collectively "OWNER"), with reference to the recitals set forth below.

RECITALS

WHEREAS, CITY is authorized to enter into binding development agreements with persons having legal or equitable interests in real property for the development of such property, pursuant to Section 65864, et seq, of the Government Code; and

WHEREAS, by adoption of Ordinance No. _____ (or Resolution No. _____), CITY has established procedures and requirements for the consideration of development agreements; and

WHEREAS, OWNER has requested CITY to enter into a development agreement regarding the Property (as defined below), and proceedings have been taken in accordance with established development agreement procedures and requirements of CITY; and

WHEREAS, by electing to enter into this Agreement, CITY intends to and shall bind future City Councils of CITY by the obligations specified herein and limit the future exercise of certain governmental and proprietary powers of CITY, to the greatest extent permitted by law; and

WHEREAS, the terms and conditions of this Agreement have undergone extensive review by CITY and the City Council and have been found to be fair, just and reasonable; and

WHEREAS, the best interests of the citizens of the City of Palm Springs and the public health, safety and welfare will be served by entering into this Agreement; and

WHEREAS, CITY and OWNER believe that all of the procedures of the California Environmental Quality Act have been met with respect to this Agreement pursuant to City Council Resolution 22625, adopted on December 2, 2009, which certified an Environmental Impact Report for the Specific Plan (as defined below), and pursuant to City Council Resolution _____, adopted on _____, which certified this Agreement as being in conformance with the Specific Plan; and

WHEREAS, this Agreement and the Project (as defined below) are consistent with the Palm Springs General Plan and the Specific Plan (as defined below); and

WHEREAS, CITY and OWNER believe that all actions taken and approvals given by CITY have been duly taken and/or given in accordance with applicable legal requirements for notice, public hearings, findings, votes, and other procedural matters; and

WHEREAS, development of the Property in accordance with this Agreement will provide substantial benefits to CITY and will further important policies and goals of CITY; and

WHEREAS, this Agreement will eliminate uncertainty in planning and provide for the orderly development of the Property, ensure progressive installation of necessary improvements, provide for public services appropriate to the development of the Project, and generally serve the intended purposes for development agreements under Section 65864, et seq, of the Government Code; and

WHEREAS, OWNER has incurred and will in the future incur substantial costs, including substantial costs in excess of the generally applicable requirements, in order to assure vesting of legal rights to develop and development of the Property in accordance with this Agreement.

COVENANTS

NOW, THEREFORE, in consideration of the above recitals and of the mutual covenants hereinafter contained, and for other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the parties agree as follows:

1. DEFINITIONS AND EXHIBITS.

1.1 Definitions. When used in this Agreement, terms defined below (whether or not initially capitalized herein) shall have meanings and definitions as indicated. Additional defined terms, if any, shall have meanings as otherwise indicated in this Agreement.

1.1.1 "Agreement" means this Development Agreement.

1.1.2 "CITY" means the City of Palm Springs, a California municipal corporation and charter city.

1.1.3 "City Council" means the duly elected city council of the City of Palm Springs.

1.1.4 "Development" means revitalization and/or renovation of the Property and Project and includes, without limitation, demolition, grading, re-grading, construction, re-construction, installation and/or re-installation of (a) on-site private infrastructure, improvements and landscaping, and (b) on and off-site public infrastructure, improvements and landscaping.

1.1.5 "Development Approvals" means all permits and entitlements subject to approval or issuance by CITY in connection with development and use of the Property and Project including, without limitation, the Specific Plan and all provisions thereof, architectural approvals, tentative and final subdivision maps, conditional use permits, planned development permits, plot plans, zoning, grading and building permits.

1.1.6 "Development Exaction" means any requirement of CITY, in connection with or pursuant to any Land Use Regulations or Development Approvals, for the dedication of land, the construction of improvements (public or private), or the payment of fees in order to lessen, offset, mitigate or compensate for the impacts of development on the environment, or otherwise comply with requirements of CITY.

1.1.7 "Development Impact Fee" means a monetary exaction, other than a tax or special assessment, whether established for a broad class of projects by legislation of general applicability or imposed on a specific project on an ad hoc basis, that is charged by a local agency to the applicant in connection with approval of a development project for the purpose of defraying all or a portion of the cost of public facilities related to the development project, but does not include fees specified in Government Code Section 66477, fees for processing applications for governmental regulatory actions or approvals, fees collected under development agreements adopted pursuant to Article 2.5 of the Government Code (commencing with Section 65864) of Chapter 4, or fees collected pursuant to agreements with redevelopment agencies which provide for the redevelopment of property in furtherance or for the benefit of a redevelopment project for which a redevelopment plan has been adopted pursuant to the Community Redevelopment Law, Part 1 (commencing with Section 33000) of Division 24 of the Health and Safety Code.

1.1.8 "Development Plan" means the plan for development and/or redevelopment of the Property and Project, in phases, as contemplated by the Specific Plan and the "Project Description" attached hereto as Exhibit "A". The Development Plan consists of three (3) potential approaches, as follows: As of the Effective Date, the desired approach is to implement, as the initial phase, the Revitalization Plan referenced in the Project Description. However, implementation of the Revitalization Plan may be contingent upon voter approval of a tax revenue measure ("Ballot Measure") to be placed by the CITY on the ballot for the November 2011 general election and, therefore, if the Ballot Measure is not approved, the approach may be to implement, as the initial phase, the Renovation Plan referenced in the Project Description. In any event, the Development Plan includes development and/or redevelopment of the Property and Project, in phases, as and when determined by OWNER to be practical and feasible but subject to time limits as provided herein, in accordance with the Specific Plan. It is understood and agreed that this Agreement is intended to and shall grant to OWNER vested rights, for time periods as specified herein, to implement development and/or redevelopment of the Property and Project, in phases, pursuant to the Revitalization Plan, the Renovation Plan and/or the Specific Plan.

1.1.9 "Effective Date" means the date on which the CITY ordinance approving and authorizing this Agreement has become effective and both parties have signed and delivered this Agreement.

1.1.10 "Land Use Regulations" means all ordinances, resolutions, codes, rules, regulations and official policies of CITY governing the development and use of land, including, without limitation, the permitted use of land, the density or intensity of use, subdivision requirements, the maximum height and size of proposed buildings, the provisions for reservation or dedication of land for public purposes, and the design, improvement and construction

standards and specifications applicable to the development of the Property. "Land Use Regulations" includes the right of the CITY, when applicable and subject to the provisions of this Agreement, to impose Development Exactions and/or Development Impact Fees. "Land Use Regulations" does not include any CITY ordinance, resolution, code, rule, regulation or policy governing the conduct of businesses, professions and occupations, taxes and assessments, the control and abatement of nuisances, or the granting of encroachment permits and the conveyance of rights and interests that provide for the use of or entry upon public property.

1.1.11 "OWNER" means the entity identified as such on the initial page of this Agreement, and any successor in interest to such Owner.

1.1.12 "Mortgagee" means a mortgagee of a mortgage, a beneficiary under a deed of trust or any other security-device lender, and any successor in interest thereto.

1.1.13 "Project" means the development of the Property as contemplated by the Development Plan and this Agreement.

1.1.14 "Property" means the real property described on Exhibit "B", and shown and depicted in the Specific Plan; any reference herein to "Property" shall, whenever reasonably appropriate to the context, automatically be deemed to include reference to the Project.

1.1.15 "Reservation of Rights" means the rights reserved to CITY and excluded from the assurances and rights provided to OWNER under this Agreement, as provided Section 3.2 hereof.

1.1.16 "Specific Plan" means that certain Museum Market Plaza Specific Plan approved by the City Council on December 2, 2009, by adoption of Ordinance 1764.

1.2 Exhibits. Documents attached and made a part hereof are:

Exhibit "A" – Project Description.
Exhibit "B" – Legal Description of Property.
Exhibit "C" – Development Impact Fees
Exhibit "D" – Specific Arrangements regarding Parking
Exhibit "E" – Specific Arrangements regarding Transient Occupancy Tax

2. GENERAL PROVISIONS.

2.1 Binding Effect of Agreement. The Property and Project are hereby made subject to this Agreement. Development, and subsequent use and operation of the Property and Project, are hereby authorized and may be carried out by OWNER in accordance with the terms of the Development Plan and this Agreement.

2.2 Interest in Property. OWNER represents and covenants that as of the Effective Date OWNER has legal title to the Property.

2.3. Term. The term of this Agreement shall commence on the Effective Date and, unless cancelled, modified or terminated pursuant to other provisions hereof, continue for a period of twenty-five (25) years thereafter; provided, however, if the Ballot Measure passes, OWNER shall have vested rights to develop in accordance with the Revitalization Plan only for a period of ten (10) years from the Effective Date.

2.4 Sales and Assignments. OWNER shall have the right, at any time during the term of this Agreement, to sell and/or convey all or any part of the Property (provided that any conveyance of only part of the Property shall be in compliance with the Subdivision Map Act), to any related or unrelated person or entity; provided, however, notice of any such sale and/or conveyance shall promptly be provided by OWNER to CITY. Upon any sale and/or conveyance of all of the Property, the acquiring party shall thereupon assume all obligations and be entitled to all rights of OWNER under this Agreement. Upon any sale and/or conveyance of only a part of the Property, obligations and rights of OWNER under this Agreement shall, to the maximum extent reasonably practicable, be bifurcated between OWNER and the acquiring party so that OWNER remains responsible for obligations and entitled to rights relating to the part of the Property retained, and the acquiring party becomes responsible for obligations and entitled to rights relating to the part of the Property acquired and, in such event, OWNER, CITY and the acquiring party shall cooperate with each other and execute such supplements and/or addenda to this Agreement as may be reasonably necessary, expedient or convenient to reflect and implement such bifurcation.

2.5 Amendment or Cancellation. This Agreement may be amended or canceled, in whole or in part, by mutual consent of the parties or their successors in interest, only in the manner provided for in Government Code Section 65868; provided, however, the foregoing shall not limit any remedy of CITY or OWNER provided by this Agreement.

2.6 Termination. This Agreement shall be deemed terminated and of no further effect upon the occurrence of any of the following events:

(a) Expiration of the term as set forth in Section 2.3.

(b) Entry of a final judgment setting aside, voiding or annulling the adoption of the ordinance approving this Agreement.

(c) The adoption of a referendum measure overriding or repealing the ordinance approving this Agreement.

(d) Termination of this Agreement based on default by OWNER and following termination proceedings required by this Agreement.

Termination of this Agreement shall not constitute termination of any other Development Approvals or Land Use Regulations applicable to the Property and/or Project, or to continued use, operation and/or maintenance of portions of the Property or Project that have been developed prior to the date of termination. Upon the termination of this Agreement, no party shall have any further right or obligation hereunder except with respect to any obligation to have

been performed prior to such termination or with respect to any default in the performance that has occurred prior to such termination.

2.7 Notices.

(a) As used in this Agreement, "notice" includes, but is not limited to, the communication of notice, request, demand, approval, statement, report, acceptance, consent, waiver, appointment or other communication required or permitted hereunder.

(b) All notices shall be in writing and shall be considered given either: (i) when delivered in person to the recipient named below; or (ii) on the date of delivery shown on the return receipt, after deposit in the United States mail in a sealed envelope as either registered or certified mail with return receipt requested, and postage and postal charges prepaid, and addressed to the recipient named below; or (iii) on the date of delivery shown in the records of the telegraph company after transmission by telegraph to the recipient named below. All notices shall be addressed as follows:

Either party may, by notice given at any time, require subsequent notices to be given to another person or entity, whether a party or an officer or representative of a party, or to a different address, or both. Notices given before actual receipt of notice of change shall not be invalidated by the change

3. DEVELOPMENT OF PROPERTY.

3.1 Vested Rights to Develop. During the term of this Agreement, OWNER (and successors) shall have vested rights to develop and/or redevelop the Property and Project in accordance with this Agreement and the Development Plan; provided, however, any such development shall be subject to Land Use Regulations as they exist and are in effect, as modified and/or supplemented by this Agreement, as of the Effective Date; provided further, however, if the Ballot Measure passes, OWNER shall have vested rights to develop in accordance with the Revitalization Plan only for a period of ten (10) years from the Effective Date. During the term and time periods specified herein, this Agreement shall be binding on CITY, and future City Councils, to the maximum extent allowed by law.

3.2 Reservation of Rights.

3.2.1 Limitations, Reservations and Exceptions. Notwithstanding any other provision of this Agreement, the following Land Use Regulations shall apply to the development of the Property.

(a) Processing fees and charges customarily imposed by CITY to cover the estimated actual costs to CITY of processing applications for Development Approvals or for monitoring compliance with any Development Approvals granted or issued.

(b) Procedural regulations relating to hearing bodies, petitions, applications, notices, findings, records, hearings, reports, recommendations, appeals and any other matter of procedure.

(c) Regulations governing engineering and construction standards and specifications applicable to public and private improvements, including, without limitation, all uniform codes, and local amendments thereto, adopted by the CITY including, without limitation, the CITY's Building Code, Plumbing Code, Mechanical Code, Electrical Code, Fire Code and Grading Code.

(d) Regulations that may be in material conflict with this Agreement but that are necessary to protect the residents and/or members of the public from a condition immediately perilous to health or safety; provided, however, City shall endeavor to apply and consture any such regulations so as to reasonably preserve the rights and assurances provided Owner under this Agreement.

(e) Regulations that are not in material conflict with this Agreement or the Development Plan; provided, however, any regulation, whether adopted by initiative or otherwise, limiting the extent, rate or timing of development of the Property, shall be deemed to materially conflict with this Agreement and/or the Development Plan and shall, therefore, not be applicable to the development and/or redevelopment of the Property.

(f) Regulations that are in material conflict with this Agreement or the Development Plan but, with respect to which, OWNER has provided written concurrence and consent.

3.2.2 Development Applications Submitted After Term. This Agreement shall not prevent CITY, with respect to applications for Development Approvals submitted after the term of this Agreement, from acting on such applications in the same manner and to the same extent as it would otherwise be authorized to do absent this Agreement.

3.2.3 Modification or Suspension by State or Federal Law. In the event that state or federal laws or regulations, enacted after the Effective Date of this Agreement, prevent or preclude compliance with any provisions of this Agreement, such provisions shall be modified or suspended as may be necessary to comply with such state or federal laws or regulations; provided, however, this Agreement shall remain in full force and effect to the extent it is not inconsistent with such laws or regulations.

3.3 Regulations of Other Public Agencies. The parties acknowledge that other public agencies, not within the control of CITY, possess authority to regulate aspects of the development of the Property separately from CITY, and this Agreement does not limit the authority of such other public agencies; provided, however, CITY agrees to reasonably cooperate with and support OWNER, in connection with any reasonable efforts by OWNER to mitigate and/or minimize the effect of regulations, including Development Impact Fees, imposed by any other public agency but enforced or collected by the CITY so long as such cooperation and/or support does not violate any law or agreement

4. PUBLIC BENEFITS.

4.1 Comprehensive Planning. The parties acknowledge and agree that providing, by way of this Agreement, assurance that OWNER may proceed with development and redevelopment per the Development Plan will strengthen the planning process and encourage public and private participation therein.

4.2 Investment. The parties acknowledge and agree that the lack of certainty in the approval of development projects can result in a waste of resources and discourage investment in and commitment to comprehensive planning and development, and this Agreement is intended to overcome and/or mitigate such constraints, and encourage investment and efficient utilization of resources.

4.3 Downtown Redevelopment. Development and/or redevelopment pursuant to the Development Plan is considered to be a critical component to restoring economic vitality and

luster to core areas of downtown Palm Springs. In the current economic climate, such restoration will require cooperation and joint public and private efforts to achieve meaningful results. Proceeding with the Development Plan is expected to promote and serve the long term best interests of the City and its residents. This Agreement is intended to constitute significant progress in the correct direction, and result in substantial public benefits and the satisfaction of substantial public needs that would not otherwise occur.

5. PRIVATE BENEFITS.

5.1 Compliance with Government Code. The parties acknowledge that this Agreement is intended to serve purposes for which development agreements are authorized, as provided and contemplated under Section 65864, et seq, of the Government Code.

5.2 Vested Rights. The provision of vested rights to develop and/or redevelop, as set forth and/or contemplated herein, is intended to eliminate uncertainty in planning, and provide for orderly revitalization and/or renovation, and progressive installation, in phases, of desired improvements, both public and private.

5.3 Development Mitigation Fees. Anything in this Agreement to the contrary notwithstanding, with respect to Development Mitigation Fees, the parties agree to specific arrangements as set forth in Exhibit "C" attached.

5.4 Parking. Anything in this Agreement to the contrary notwithstanding, with respect to parking, the parties agree to specific arrangements as set forth in Exhibit "D" attached.

5.5 Transient Occupancy Tax. Anything in this Agreement to the contrary notwithstanding, with respect to Transient Occupancy Taxes relating to hotels developed within the Property, the parties agree to specific sharing arrangements as set forth in Exhibit "E" attached.

6. REVIEW FOR COMPLIANCE.

6.1 Periodic Review. During the term hereof, CITY shall review this Agreement annually, on or before the anniversary of the Effective Date, in order to ascertain good faith compliance by OWNER with the terms of the Agreement.

6.2 Special Review. During the term hereof, a special review of good faith compliance with this Agreement may be initiated upon a majority vote of the City Council.

6.3 Procedure. During either a periodic review or a special review, OWNER shall be required to reasonably demonstrate good faith compliance with the terms of the Agreement. If the CITY finds, based on substantial evidence and the vote of a majority of the City Council, that OWNER has not reasonably complied in good faith, CITY may, subject to Section 7.3 below, initiate procedures to terminate or reasonably modify this Agreement.

6.4 Proceedings regarding Termination or Modification. If, upon a finding under

Section 6.3, CITY determines to proceed with termination or reasonable modification of this Agreement, CITY shall give written notice to OWNER of its intention so to do. The notice shall be given at least sixty (60) calendar days prior to the scheduled hearing and shall contain (a) the time and place of the hearing, (b) a statement as to whether or not CITY proposes to terminate or modify this Agreement, and (c) additional information sufficient to ensure that OWNER is reasonably apprised of the full nature and extent of the proceeding, and the allegations thereof.

6.5 Hearing on Termination or Modification. At the time and place set for the hearing on termination or reasonable modification, OWNER shall be given an opportunity to be heard. OWNER shall be required to reasonably demonstrate good faith compliance with material terms and conditions of this Agreement. If the City Council finds, based upon substantial evidence and the vote of a super majority of the City Council, that OWNER has not complied in good faith with material terms or conditions of the Agreement, the City Council may, subject to satisfaction of requirements in Section 7.3 hereof, terminate or reasonably modify this Agreement to impose such conditions as are reasonably necessary to protect the interests of the CITY. The decision of the City Council shall be final, subject only to judicial review pursuant to Section 1094.5 of the Code of Civil Procedure.

6.6 Certificate of Compliance. If, at the conclusion of any periodic or special review, OWNER is found to be in compliance with this Agreement, CITY shall, upon request by OWNER, issue a Certificate of Agreement Compliance ("Certificate") to OWNER stating that, after the most recent periodic or special review and based upon information known or made known, the City Council has found that this Agreement remains in effect, and OWNER is not in default. The Certificate shall be in recordable form, shall contain information necessary to communicate constructive record notice of the finding of compliance, shall state whether the Certificate is issued after a periodic or special review and shall state the anticipated date of commencement of the next periodic review. OWNER may record the Certificate with the County Recorder. During the term of this Agreement, and from time to time, OWNER may request and CITY shall provide, the aforementioned Certificate, as long as OWNER is then considered to be in good faith compliance with this Agreement.

7. DEFAULT AND REMEDIES.

7.1 Remedies in General. The parties acknowledge that they would not have entered into this Agreement if they were to be liable in damages for breach. Therefore, it is agreed that each party may pursue any remedy at law or equity available for breach of any provision of this Agreement, except that neither CITY nor OWNER shall be liable in damages, and each party covenants not to sue for damages or claim any damages: (a) for any breach of this Agreement or for any cause of action that arises out of this Agreement; or (b) for the taking, impairment or restriction of any right or interest conveyed or provided under or pursuant to this Agreement; or (c) arising out of or connected with any dispute, controversy or issue regarding the application or interpretation or effect of the provisions of this Agreement.

7.2 Specific Performance and Injunctive Relief. The parties acknowledge that money damages and remedies at law generally are inadequate, and specific performance, injunctive relief and other non-monetary relief are particularly appropriate remedies for the enforcement of

this Agreement and should be available to all parties for the following reasons: (a) money damages are unavailable as per Section 7.1 above, and (b) due to the size, nature and scope of the Project, it may not be practical or possible to restore the Property once implementation of this Agreement has begun.

7.3 Termination or Modification of Agreement for Default of OWNER. CITY may terminate or reasonably modify this Agreement for any failure of OWNER to comply in good faith with the terms hereof ("default"); provided, however, CITY may commence proceedings to do so only after providing written notice of default to OWNER, setting forth the nature of the default and the actions, if any, required by OWNER to cure such default and, where the default can be cured, providing OWNER with an opportunity to cure such default for a period of sixty (60) days after delivery of such notice or, in the event that such default cannot be cured within such sixty (60) day period but can be cured within a longer time, providing OWNER with such reasonable time as may be necessary to cure such default (and during such time neither termination or modification actions shall be commenced by CITY as long as OWNER commences and diligently pursues such cure.

8. LITIGATION.

8.1 Development Agreement Litigation. In the event litigation is commenced to attack or set aside this Agreement before the election, or after the election with voter approval of the Ballot Measure, CITY and OWNER shall both join in the good faith defense of such litigation, and each shall pay commercially reasonable legal fees and costs incurred by each in connection therewith. In the event litigation is commenced after the election with no voter approval of the Ballot Measure, OWNER shall defend against such litigation and indemnify and hold CITY, its officers, agents and employees, free and harmless from any and all costs, claims and/or liabilities incurred in connection therewith.

8.2 Ballot Measure – Litigation after Election. In the event litigation is commenced to attack or set aside the Ballot Measure (or any bond or other financing issued pursuant thereto) after the election with voter approval of the Ballot Measure, CITY shall defend against such litigation and indemnify and hold OWNER, its officers, agents and employees, free and harmless from any and all costs, claims and/or liabilities incurred in connection therewith.

9. MORTGAGEE PROTECTION.

The parties hereto agree that this Agreement shall not prevent or limit OWNER, in any manner, at OWNER's sole discretion, from encumbering the Property or any portion thereof or any improvement thereon by any mortgage, deed of trust or other security device securing financing with respect to the Property and/or Project. CITY acknowledges that the lenders providing such financing may require certain Agreement interpretations and/or modifications, and agrees upon request, from time to time, to meet with OWNER and representatives of such lenders to negotiate in good faith any such request for interpretation and/or modification. CITY will not unreasonably withhold, delay or condition its consent to any such requested interpretation and/or modification provided such interpretation and/or modification is reasonably consistent with the intent and purposes of this Agreement. Any Mortgagee of the Property shall

be entitled to the following rights and privileges:

(a) Neither entering into this Agreement nor a breach of this Agreement shall defeat, render invalid, diminish or impair the lien of any mortgage or deed of trust on the Property made in good faith and for value, unless otherwise required by law.

(b) The Mortgagee of any mortgage or deed of trust encumbering the Property and/or Project, or any part thereof, which Mortgagee, has submitted a request in writing to the CITY in the manner specified herein for giving notices, shall be entitled to receive written notification from CITY of any default by OWNER in the performance of OWNER's obligations under this Agreement.

(c) If CITY timely receives a request from a Mortgagee requesting a copy of any notice of default given to OWNER under the terms of this Agreement, CITY shall provide a copy of that notice to the Mortgagee within ten (10) days of sending the notice of default to OWNER. Anything in this Agreement to the contrary notwithstanding, the Mortgagee shall have the right, but not the obligation, to notify the CITY that the Mortgagee has elected to cure the default, and, in such event, the Mortgagee shall thereafter have all rights of OWNER including, without limitation, the right to cure any such default; provided, however, the Mortgagee shall have an additional sixty (60) days (beyond the cure period of OWNER) to cure the default, or, if such default cannot be cured within that time, then such additional time as may be reasonably necessary to cure such default if, within such additional sixty (60) day period, the Mortgagee has commenced and is diligently pursuing cure of the default (including, without limitation, commencement of foreclosure proceedings against OWNER), in which event and while such remedies are being diligently pursued by Mortgagee, CITY shall not continue with proceedings to terminate or modify this Agreement.

(d) Any Mortgagee who comes into possession of the Property, or any part thereof, pursuant to foreclosure of the mortgage or deed of trust, or deed in lieu of such foreclosure, shall take the Property, or part thereof, subject to the terms of this Agreement. Notwithstanding any other provision of this Agreement to the contrary, no Mortgagee shall have an obligation or duty under this Agreement to perform any of OWNER's obligations or other affirmative covenants of OWNER hereunder, or to guarantee such performance; provided, however, that to the extent that any covenant to be performed by OWNER is a condition precedent to the performance of a covenant by CITY, the performance thereof shall continue to be a condition precedent to CITY's performance hereunder, and further provided that any sale, transfer or assignment by any Mortgagee in possession shall be subject to the provisions of Section 2.4 of this Agreement.

(e) In the event of any conflict between the provisions of this Section 9 of the Agreement and any any agreement between CITY and OWNER relating to CITY'S acquisition of improved land and/or public facilities within or on the Property ("Acquisition Agreement"), the provisions of the Acquisition Agreement shall control.

10. MISCELLANEOUS PROVISIONS.

10.1 Recordation of Agreement. This Agreement, and any amendment or cancellation of it, shall be recorded with the Riverside County Recorder by the Clerk of the City Council within ten (10) days after the CITY enters into the Agreement, in accordance with Section 65868.5 of the Government Code. If the parties to this Agreement or their successors in interest amend or cancel this Agreement, or if the CITY terminates or modifies this Agreement as provided herein for failure of the OWNER to reasonably comply in good faith with the terms and conditions of this Agreement, the City Clerk shall have notice of such action recorded with the Riverside County Recorder.

10.2 Entire Agreement. This Agreement sets forth and contains the entire understanding and agreement of the parties with respect to matters contained herein, and there are no oral or written representations, understandings or ancillary covenants, undertakings or agreements that are not contained or expressly referred to herein. No testimony or evidence of any such representations, understandings or covenants shall be admissible in any proceeding of any kind or nature to interpret or determine the terms or conditions of this Agreement.

10.3 Severability. If any term, provision, covenant or condition of this Agreement shall be determined invalid, void or unenforceable, the remainder of this Agreement shall not be affected thereby to the extent such remaining provisions are not rendered impractical to perform taking into consideration the purposes of this Agreement.

10.4 Interpretation and Governing Law. This Agreement and any dispute arising hereunder shall be governed and interpreted in accordance with the laws of the State of California. This Agreement shall be construed as a whole according to its fair language and common meaning to achieve the objectives and purposes of the parties hereto, and the rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not be employed in interpreting this Agreement, all parties having been represented by counsel in the negotiation and preparation hereof.

10.5 Section Headings. All section headings and subheadings are inserted for convenience only and shall not affect any construction or interpretation of this Agreement.

10.6 Singular and Plural. As used herein, the singular of any word includes the plural.

10.7 Joint and Several Obligations. If at any time during the Term of this Agreement the Property is owned, in whole or in part, by more than one OWNER, all obligations of such OWNERS under this Agreement shall be joint and several, and the default of any such OWNER shall be the default of all such OWNERS.

10.8 Time of Essence. Time is of the essence in the performance of .the provisions of this Agreement as to which time is an element.

10.9 Waiver. Failure by a party to insist upon the strict performance of any of the provisions of this Agreement by the other party, or the failure by a party to exercise its rights upon the default of the other party, shall not constitute a waiver of such party's right to insist and demand strict compliance by the other party with the terms of this Agreement thereafter.

10.10 No Third Party Beneficiaries. This Agreement is made and entered into for the sole protection and benefit of the parties and their successors and assigns. No other person shall have any right of action based upon any provision of this Agreement.

10.11 Force Majeure. Neither party shall be deemed to be in default where failure or delay in performance of any of its obligations under this Agreement is caused by floods, earthquakes, other Acts of God, fires, wars, riots, hostilities, strikes, , or court actions. If any such events shall occur, the term of this Agreement and the time for performance by either party of any of its obligations hereunder shall be extended by the length of time that such events reasonably prevented performance, provided that the term of this Agreement shall not be extended under any circumstances for more than five (5) years.

10.12 Mutual Covenants. The covenants contained herein are mutual covenants and also constitute conditions to the concurrent or subsequent performance by the party benefited thereby of the covenants to be performed hereunder by such benefited party.

10.13 Successors in Interest. The burdens of this Agreement shall be binding upon, and the benefits of this Agreement shall inure to, all successors in interest to the parties to this Agreement; provided, however, tenants of OWNER shall not be deemed to be successors of OWNER, and shall not, unless authorized by OWNER, have any rights under this agreement. All provisions of this Agreement shall be enforceable as equitable servitudes and constitute covenants running with the land. Each covenant to do or refrain from doing some act hereunder with regard to development of the Property: (a) is for the benefit of and is a burden upon every portion of the Property; (b) runs with the Property and each portion thereof; and (c) is binding upon each party and each successor in interest during ownership of the Property or any portion thereof.

10.14 Counterparts. This Agreement may be executed by the parties in counterparts, which counterparts shall be construed together and have the same effect as if all of the parties had executed the same instrument.

10.15 Jurisdiction and Venue. Any action at law or in equity arising under this Agreement or brought by a party hereto for the purpose of enforcing, construing or determining the validity of any provision of this Agreement shall be filed and tried in the Superior Court of the County of Riverside, State of California, and the parties hereto waive all provisions of law providing for the filing, removal or change of venue to any other court.

10.16 Project as a Private Undertaking. It is specifically understood and agreed by and between the parties hereto that the development of the Project is a private development, that neither party is acting as the agent of the other in any respect hereunder, and that each party is an independent contracting entity with respect to the terms, covenants and conditions contained in this Agreement. No partnership, joint venture or other association of any kind is formed by this Agreement. The only relationship between CITY and OWNER is that of a government entity regulating the development of private property and the owner of such property.

10.17 Further Actions and Instruments. Each of the parties shall cooperate with and provide reasonable assistance to the other to the extent contemplated hereunder in the performance of all obligations under this Agreement and the satisfaction of the conditions of this Agreement. Upon the request of either party at any time, the other party shall promptly execute, with acknowledgment or affidavit if reasonably required, and file or record such required instruments and writings and take any actions as may be reasonably necessary or expedient under the terms of this Agreement to carry out the intent and to fulfill the provisions of this Agreement or to evidence or consummate the transactions contemplated by this Agreement.

10.18 Authority to Execute. The person executing this Agreement on behalf of OWNER warrants and represents (a) that he has the authority to execute this Agreement on behalf of OWNER, and (b) that he has the authority to bind OWNER to the performance of its obligations hereunder.

IN WITNESS WHEREOF, the parties hereto have executed this Development Agreement on the last day and year set forth below.

DRAFT

EXHIBIT "A" TO DEVELOPMENT AGREEMENT

(Project Description)

I. BACKGROUND.

A. **Specific Plan**. On December 2, 2009, the City Council ("Council") of the City of Palm Springs ("City") adopted Ordinance 1764, which approved the Museum Market Plaza Specific Plan ("Specific Plan"). The Specific Plan covered two existing downtown commercial complexes, i.e., the area commonly known as Desert Fashion Plaza ("DFP Area"), and the area (shown on the Specific Plan as Blocks K-1 and K-2) commonly known as Town & Country Center ("TCC Area"). In granting such approval, the Council found that the Specific Plan was consistent with applicable provisions of the State Government Code, and the General Plan of the City. Among other things, the Specific Plan established criteria, standards, restrictions, requirements and limitations (collectively "criteria") for major redevelopment, in phases, of both the DFP Area and the TCC Area. Such criteria included without limitation, criteria for land use (allowed and prohibited uses), development standards (minimum setbacks and maximum heights), land regulations (allowable square footage and building mass), and design guidelines (architectural themes and concepts).

B. **Prior Renovation Plan**. At the time of approval of the Specific Plan, the U.S. economy was in process of a major downturn and, in recognition of that fact and the reality of potential long term financial and development constraints, the owner of the Specific Plan property ("Developer"), had previously submitted a less ambitious plan ("Renovation Plan"), which contemplated that existing buildings within the DFP Area would largely remain intact but be upgraded with exterior architectural improvements. In Section V.C of the Specific Plan, the Renovation Plan, which was primarily confined to the DFP Area, was approved as an optional "phase one" of the Specific Plan.

C. **EIR Certification**. Concurrently with approval of the Specific Plan, the Council approved and adopted Resolution 22625, which certified an Environmental Impact Report for the Specific Plan. Such Resolution included, without limitation, the making of amendments to the General Plan and Zoning Ordinance of the City, the making of certain findings relative to environmental effects identified in the EIR, the adoption of a Statement of Overriding Consideratons, and the adoption of a Mitigation Monitoring Plan and Reporting Plan. The Resolution also included the incorporation of the Renovation Plan as an option, i.e., a potential "phase one" for remodeling the DFP Area.

D. **Current Revitalization Plan**. Because of continuing depressed economic and financial conditions locally and nationally, the Renovation Plan was not commenced during the latter part of 2009 or 2010. As a result, and recognizing that commencement of redevelopment under the Specific Plan is critical to restoring economic vitality to central areas of downtown Palm Springs, the City Council and the Developer, in 2011, commenced a series of "visioning" sessions with community leaders and concerned

citizens, with broad and significant community input. As a product of that joint effort, a new plan ("Revitalization Plan") has evolved, which has broad community support, as evidenced by input from participants during the visioning sessions. The Revitalization Plan constitutes the current proposal that is the topic of discussion below.

II. CURRENT PROPOSAL

A. **Project Description for Revitalization Plan**. The Revitalization Plan is intended to expand upon the prior Renovation Plan, and continue to remain in conformance with the Specific Plan. In essence, the Revitalization Plan will constitute part of the redevelopment "phasing" process recognized and approved in the Specific Plan. Relevant aspects of the Revitalization Plan are considered below.

1. **New Site Plan**. The new site plan for the Revitalization Plan ("New Site Plan") is attached hereto as *Exhibit "A-1"*. With respect to the New Site Plan (and the Revitalization Plan) the comments below are relevant.

2. **Internal Street Improvements**. The New Site Plan shows the main internal street running the full distance from Indian Canyon Drive to Museum Drive. In this respect, it is consistent with ultimate Specific Plan redevelopment concepts, and provides an important part of the solution to making the DFP Area commercially successful, i.e., direct east-west access from Indian Canyon Drive into the DFP Area. The New Site Plan also shows an extension from the roundabout at the "center" of the DFP Area southerly to become part of an extension of Belardo Road into the DFP Area. (Note: [1] Construction of the Belardo Bridge over Tahquitz Creek will provide a large new segment of residential areas with direct northerly access to the DFP Area. [2] Under the New Site Plan, internal streets will be public, i.e., owned by the City rather than the Developer.)

3. **New Building Improvements**. The Prior Site Plan contemplated that existing buildings within the DFP Area would largely remain in place but be upgraded with exterior architectural improvements. The New Site Plan contemplates the demolition, reconfiguration and replacement of some buildings, particularly in the southeast corner of the DFP Area. In that location, existing buildings will be demolished, a new open space area will be located at the northwest corner of Tahquitz Canyon Way and North Palm Canyon Drive, and a landscaped pedestrian walkway will extend from the corner open space area into the center of the DFP Area, connecting to the "roundabout" described in Section II.A.2 above. New retail building improvements are planned for location in the area shown as Block 2 on the New Site Plan. A new movie theater complex is planned for location directly north of the roundabout in the center of the DFP Area.

4. **Retention and Use of Existing Building Improvements**. The New Site Plan contemplates the retention, upgrade and use of some existing building improvements, as follows: (1) the former Saks Fifth Avenue building located on Palm Canyon Drive may be retained and used for major retail purposes, (2) the former I.

Magnin building located directly northwest of the center roundabout in the DFP Area may be retained and used as an entertainment venue, such as for fitness/spa uses and/or recreational bowling purposes, (3) existing building improvements shown as Block 1 on the New Site Plan (located on Palm Canyon Drive), may be retained and used for retail purposes, and (4) existing building improvements located immediately adjacent to the Hyatt Hotel may be retained and used for hotel ballroom and conference center purposes. Depending on the condition of these properties, the needs of potential tenants, and economic feasibility, any of these buildings could be replaced with new structures. (Note: The foregoing identification of potential uses is not intended to preclude other uses authorized by the Specific Plan.)

5. **Retention of Block 6 for Future Development**. The New Site Plan calls for the area shown thereon as Block 6 to be retained by the Developer and be held for future development for a variety of potential uses including, without limitation, boutique gourmet grocery, bar/restaurant, entertainment, multi-story housing and/or office uses.

6. **City Purchase of Improvements for Public Parking**. The Revitalization Plan calls for certain parking improvements within the DFP Area to be purchased by the City from the Developer, and be used by the City in perpetuity as and for free public parking. These may include all or part of the above-ground parking structure at the northwest corner of the DFP Area, the parking deck and associated underground parking at the southwest corner of the DFP Area, the parking underneath developed portions of the DFP Area, and all associated ramps, driveways and approaches currently owned by the Developer.

7. **City Purchase of Land for Public Streets**. The Revitalization Plan calls for the City to purchase from the Developer the ground upon which the interior streets shown on the New Site Plan will be built. Such purchase could be the ground only, or the purchase from Developer of full streets in finished condition.

8. **City Purchase of Land (Parcels A and B) for Future Use**. The Revitalization Plan calls for two parcels within the DFP Area, i.e., the two parcels directly east of the Palm Springs Art Museum ("Art Museum") which are currently used for open space and sculpture garden purposes ("Parcels A and B"), to be purchased by the City from the Developer and be held for future development opportunities including, without limitation, possible expansion of Art Museum facilities.

B. **City Administration and Processing of Revitalization Plan**. With respect to City Administration and processing, a number of matters need to be considered, as follows:

1. **Development Agreement**. Under certain provisions of the State Government Code, local governments are authorized to enter into binding contracts with developers known as development agreements. Among other things, a development agreement, once consummated, gives the developer a vested right to proceed to develop

his property in the manner specified in the development agreement and/or entitlements adopted concurrently therewith or prior thereto. In this case, the Developer has filed an application for approval of a Development Agreement. Once approved and executed, the Development Agreement will, among other things, grant the Developer the vested right to develop the DFP Area in accordance with the Revitalization Plan, and the TCC Area in accordance with the Revitalization Plan (construction of the public street from Indian Canyon Drive to Palm Canyon Drive) and other entitlements authorized by the Specific Plan (hotel and retail use), but subject to all criteria (restrictions, standards, requirements and limitations) contained in the Specific Plan.

2. **Major Architectural Review**. Section V.A of the Specific Plan provides that implementation tools will be major architectural reviews, conditional use permits, subdivision maps and, in certain circumstances, planned development permits. For purposes of the subject Revitalization Plan, the Planning Commission and City Council will consider and rule on the Development Agreement application prior to major architectural review of proposed revitalization improvements, which will come later.

3. **Substantial Conformance of Revitalization Plan**. For reasons indicated herein, the Revitalization Plan and New Site Plan are consistent and in conformance with the Specific Plan in general and the prior Renovation Plan in particular. Land uses under the Revitalization Plan will be fully consistent with land uses allowed under the Specific Plan, development standards and land use regulations set forth in the Specific Plan will be followed in the Revitalization Plan, and architectural and design concepts under the Revitalization Plan will be consistent with those contained in the Specific Plan.

III. SUMMARY. Redevelopment pursuant to the goals, objectives and criteria of the Museum Market Place Specific Plan is a critical component to restoring economic vitality and luster to core areas of downtown Palm Springs. This has been recognized by essentially all that have considered the subject, e.g., the City Council, business groups such as the Chamber of Commerce, The Desert Sun and other media outlets, community leaders and concerned citizens. In the current challenging economic climate, this is not an easy task, and it will require serious cooperation and joint public and private efforts to achieve meaningful results. Proceeding with the Revitalization Plan described above would constitute significant progress in the right direction, and clearly serve the long term best interests of the City and its residents. Upon completion, the project would create a strong public gathering place comprised of well-designed public spaces linked by a total shopping environment offering a variety of merchandise and price points, with major emphasis on dining and entertainment. World-class architecture, landscaping and enhanced circulation facilities will create an exciting atmosphere where retail, hotel, cultural and other activities can come together an establish a sense of arrival and place – one that can compete with other Coachella Valley venues such as such as The River in Rancho Mirage and The Gardens at El Paseo in Palm Desert. The design will preserve and enhance views of the adjacent San Jacinto Mountains and provide pedestrian friendly movement to an interior architectural feature at the project center. Proposed streets and walkways will establish a direct connection between the Art Museum adjacent to the

mountains on the west, and casino and convention center facilities located in Section 14 to the east. The project will serve as a gathering place, a destination for both tourists and locals alike – a place to dine, be entertained and shop, in a setting of architectural and cultural stimulation.

DRAFT

EXHIBIT "B"

(Legal Description of the Property)

DRAFT

EXHIBIT "C"

(Development Impact Fees)

DRAFT

EXHIBIT "D" TO DEVELOPMENT AGREEMENT

(Specific Arrangements regarding Parking and Related Matters)

1. Existing Parking Facilities. Existing parking facilities within the DFP Area ("Existing Parking Facilities") consist of (i) an above-ground parking structure at the northwest corner of the DFP Area; (ii) a parking deck and associated underground parking at the southwest corner of the DFP Area; (iii) parking spaces underneath developed portions of the DFP Area; and (iv) associated ramps, driveways and approaches.

2. Agreements Regarding Parking and Related Matters.

A. DFP Area. City agrees that the Existing Parking Facilities are sufficient to satisfy all City parking requirements for all uses and occupancies allowed and/or contemplated within the DFP Area under the Revitalization Plan (including future Block 6) and/or the Renovation Plan. Accordingly, no additional parking requirements or in lieu parking fees of any type shall be imposed or required by the City in connection any application for development approval within the DFP Area that is consistent with the Revitalization Plan and/or the Renovation Plan.

B. Block K1 of TCC Area. City agrees that the Existing Parking Facilities, when combined with approximately 50 additional surface parking spaces to be built within the DFP Area as part of the Revitalization Plan, and 65 new surface parking spaces to be built within Block K1 upon development, will satisfy all parking requirements for future development of up to a 160 room hotel (and accompanying retail/restaurant uses) within Block K1. Accordingly, no additional parking requirements or in lieu parking fees of any type shall be imposed or required by the City in connection any application for development of such 160 room hotel (and accompanying retail/restaurant uses).

C. Block K2 of TCC Area. City agrees that the Existing Parking Facilities, when combined with approximately 50 additional surface parking spaces to be built within the DFP Area as part of the Revitalization Plan, and 80 new surface parking spaces to be built within Block K2 upon development, will satisfy all parking requirements for future development of up to a 180 room hotel (and accompanying retail/restaurant uses) within said Block K2. Accordingly, no additional parking requirements or in lieu parking fees of any type shall be imposed or required by the City in connection any application for development of such 180 room hotel (and accompanying retail/restaurant facilities).

D. Hotel Development. Blocks K1 and K2 are acknowledged as prime locations for new hotel stock to support the recently expanded Palm Springs Convention Center and, accordingly, City agrees that, during the ten (10) year period immediately following the Effective Date of this Development Agreement, approval of applications for hotel construction which are consistent with the above and otherwise satisfy normal requirements will not be unreasonably withheld.

DRAFT

EXHIBIT "E" TO DEVELOPMENT AGREEMENT

(Specific Arrangements regarding Transient Occupancy Tax)

Pursuant to City Ordinance No. 1730, adopted January 9, 2008, the City found and determined that the general welfare and material well being of City residents were dependent, in large measure, upon growth and expansion of tourism and travel industries within the City, and that inducing and encouraging operation, maintenance and expansion of quality hotel inventory was in the best interest of the City. Accordingly, the City adopted Ordinance No. 1730 and thereby created a Hotel Operations Incentive Plan ("Incentive Plan"). Pursuant to City Ordinance No. 1742, adopted June 18, 2008, the City amended the Incentive Plan to revise certain tax rate calculations and add Deluxe Hotel as a type of hotel that would be eligible for the Incentive Plan. Pursuant to City Ordinance No. 1786, adopted April 6, 2011, the City further amended the Incentive Plan to allow a First Class New Hotel to receive 75% of the Adjusted Tax Rate (as defined).

Blocks K1 and K2 within the TCC Area are acknowledged as prime locations for new hotel stock to benefit the City and support the recently expanded Palm Springs Convention Center and, accordingly, City agrees to allow and/or to take actions reasonably necessary to allow continued applicability of the Incentive Plan (and benefits thereof) to any "New Hotel", "First Class New Hotel", "Deluxe New Hotel" or "New Quality Hotel" that is under construction after the Effective Date of this Development Agreement but before expiration of the ten (10) year period immediately following said Effective Date. Further, City agrees that during said ten (10) year period, approval of applications for hotel construction which are consistent with the Sections 2.B and 2.C of Exhibit "D" to this Development Agreement and otherwise satisfy normal requirements will not be unreasonably withheld.

RECEIVED
CITY OF PALM SPRINGS
2011 MAY 19 AM 11:56
JAMES THOMPSON
CITY CLERK

PALM SPRINGS PRESERVATION FOUNDATION

May 18, 2011

Mr. Jon Caffery
Chair, Planning Commission
City of Palm Springs
3200 East Tahquitz Canyon Way
Palm Springs, CA 92262

Re: Wessman Development Desert Fashion Plaza Concept Plan and Proposed Development Agreement

Dear Mr. Caffery,

We understand that the Planning Commission will meet on May 25, 2011 to evaluate the merits of the subject plan and Development Agreement against the criteria of the city's General Plan.

Our view is that the inclusion of the Town & Country Center (T&CC) in the proposed plan and Development Agreement before you is flawed on many levels and fails to comport with the values and priorities of the city's general plan, historic resources program and sustainability program. Accordingly, we ask you to consider only that portion of the subject plan and agreement west of North Palm Canyon Drive.

We realize this is a complex issue and would like to provide you with some important background information. We hope that the following organization of facts and opinions about the T&CC will help you in your deliberations:

Architectural Significance of the T&CC

The T&CC (1948) was designed by two internationally-famous architects, Paul R. Williams and A. Quincy Jones. The T&CC is one of the best examples of the international-style of architecture in southern California and is an important early "mixed-use" development. It is also architecturally noteworthy for its pedestrian-friendly courtyard. We ask that you read the scholarly T&CC historic site nomination authored by Palm Springs Preservation Foundation (PSPF) board member Patrick McGrew in 2009 (see attachment 1).

Importance of Paul R. Williams' Involvement with the T&CC

Paul R. Williams is historically important as the American Institute of Architects' (AIA)

1775 East Palm Canyon Drive, Suite 110-195, Palm Springs, CA 92264
(760) 837-7117 • info@pspreservationfoundation.org • www.pspreservationfoundation.org

first African-American architect (joining in 1923) and first African-American AIA Fellow (so honored in 1957). From April 29-30, 2011 we hosted an educational advocacy visit by Mr. Sanford Garner, the president of the National Organization of Minority Architects. On Saturday, April 30 Mr. Garner (who has significant experience in the field of preservation architecture) toured the T&CC with several of our board members. After the tour, Mr. Garner commented that the T&CC was "an historic resource that other cities would envy."

The T&CC Portion of the Wessman Development Plan is Inconsistent with the City's General Plan

The city of Palm Springs General Plan is replete with references to the importance of our historic resources, the "character" of our city and the importance of sustainable development.

The proposed demolition of the T&CC directly contradicts many of the city's general plan values and priorities including:

> "pedestrian-oriented shopping" (page 1-12)
> "unique architecture" (page 1-12)
> to "Promote the...use of...existing construction to minimize resource depletion and conserve resources for future generations." (page 1-12)
> to "Create unique places that strengthen community identity, offer visual interest, and support lively activity." (page 1-13)
> to "Preserve and uphold the high quality of architecture and the unique visual and aesthetic form in buildings...that distinguish Palm Springs from other cities." (page 1-13)

and perhaps most to the point,

> to "Recognize the importance of adaptive reuse for architecturally and historically significant resources." (page 1-13)

The T&CC *is* Historic

The T&CC has been evaluated for its historic significance no fewer than five times starting in 1983 and each review has determined that the T&CC is a *bona fide* historic structure that is eligible for listing on the National Register of Historic Places. With full knowledge of its historic significance, the T&CC was purchased by the current owner at a below market price in 1997.

Unfortunately, the decision as to whether a property is "historic" can fall victim to political expediency and the machinations of well-meaning city councils. Hence, more expert and scholarly assessments of properties, which evaluate the historic and architectural merits of a site using more objective criteria, should be consulted. The most recent of these expert assessments occurred in June of 2004 with the publication of the *Citywide Historic Resources Survey*. The city-directed survey was conducted by qualified experts from the Architectural Resources Group, Inc. and was approved by the city council on October 20, 2004. The 2004 survey opines that the T&CC "appears to meet the level of significance

necessary for individual National Register of Historic Places or California Register of Historic Resources eligibility at the local level," and further that the T&CC is "A rare and excellent example of the late Moderne style...." Finally, the survey concludes that "Because of the building's visual quality, history, intact setting, and fair to high integrity, and as an outstanding example of commercial architecture in the late Moderne style, the building represents the overall commercial development of downtown Palm Springs during the post-war era and contributes to the mid-century modernist character so strongly identified with Palm Springs."

In the case of Palm Springs, historic properties have frequently been pawns in city-developer conflicts and alliances. An occurrence similar to today's T&CC saga transpired with the Frey-designed Tramway Gas Station: the architecturally distinctive gas station's historic designation was initially rebuffed by a city council intent on supporting a developer's proposed retail expansion at that end of the city. A later city council decision designated the Tramway Gas Station a Class 1 historic site and today the building (now the Visitors Center) is the one of the city's most iconic destinations.

Wessman Development's Plan is Inconsistent with the Publicly-Driven "Preferred Plan"

On January 26, February 3 and February 9, 2011 the city of Palm Springs hosted "visioning sessions" to solicit public input regarding the Desert Fashion Plaza (DFP) and T&CC. Public input included calls for local (as opposed to chain) retail, pedestrian-friendly throughways, etc. As a result of this community process a "Preferred Concept Plan" was developed that offered a solution addressing many of the shortcomings of the failed DFP superblock. Notably, the final community-derived Preferred Concept Plan disconnected the T&CC from the DFP. Despite this apparent real progress, at the final February 9, 2011 visioning session, the mayor announced that the developer had agreed to "work with the city" and "had heard" the community's input. At the March 2, 2011 city council meeting the latest Wessman Development plan was unveiled.

Sustainable Development

The rehabilitation of buildings like the T&CC is an environmentally responsible practice and is essentially a recycling program. Older buildings like the T&CC were often designed to be energy efficient through their use of good ventilation, durable materials and siting. A huge advantage of older buildings is that the building already exists; therefore energy is not necessary to create new building materials and the infrastructure is already in place. Minor modifications can be made to adapt existing buildings to compatible new uses and systems can be upgraded to meet modern building requirements and codes. These positive characteristics of many older buildings prompted National Trust for Historic Preservation president Richard Moe to assert that, "The greenest building is the one that's already built."

On May 5, 2011 our board of directors voted unanimously to accept a proposal from Ecotype Consulting, Inc. to conduct a "Town & Country Center Sustainability Study." Ecotype Consulting is a highly-regarded local firm from Redlands, California that has real-world experience coupled with academic credentials. The study should be completed by the end of June 2011, in time to inform decisions about the fate of the T&CC. The completed

study will be distributed to the Palm Springs city council and other interested city boards and commissions. The study intends to:

> Describe the use of historic resources in sustainable planning and urban design,
> Assess and compare the embodied energy in both the current Wessman

Development plan and in a viable preservation alternative,

> Compare the potential Leadership in Energy and Environmental Design (LEED) credits of the current Wessman Development plan with those of a viable preservation alternative,

> Propose transportation (common and alternative) and pedestrian connectivity between the T&CC and adjacent areas, and

> Summarize parking and transportation strategies in the Wessman Development plan and alternatives that promote better walkability, access to public transportation, reduced traffic and reduced single-occupancy vehicle use.

The Proposed Road through the T&CC is Bad for the City, Good for the Developer

The developer's oft-stated T&CC "demolition or bust" threat reflects a scenario of his own creation. There is no factual reason the DFP cannot be remodeled or replaced without the T&CC's demolition. It is generally held that the developer's motivation to demolish the T&CC to make way for an east-west road is obvious: he will own an entire city block of buildings, on both sides of a new street, with prime street-front commercial space that will command high market rents.

With the motives of the developer better understood, what is the best east-west corridor for *the city*? The routing of an east-west corridor through Andreas Road has been identified many times as the most advantageous for the city. Andreas Road makes an important connection directly to the Palm Springs Convention Center (see attachment 2).

Additionally, should it be considered necessary to route vehicular traffic westward into the DFP (and Palm Springs Art Museum) near the physical location of the T&CC, one clever solution would be to create a single north-bound lane on North Palm Canyon Drive that can turn left (west) into the DFP. This idea has recently gained much support from experts who understand urban planning and traffic flow and is a logical, inexpensive and sustainable solution. The "re-striping" solution also corrects the over-capacity, one-way scheme currently being used in this area of North Palm Canyon Drive.

The "Wexler Connection" to the T&CC

Last month, our board members accompanied local architect Donald Wexler on a visit to the E. F. Hutton Building, an international-style building that has been "hiding in plain sight" for years within the T&CC. Designed by the architectural firm of Wexler & Harrison in 1955, the E. F. Hutton building will fall victim to demolition should the Wessman Development plan for the DFP be approved. As appreciation for Wexler's work continues to increase, this potentially historic asset should be evaluated for possible historic preservation.

The Destruction of the T&CC will Damage the National Reputation of the City

On April 5, 2011 PSPF board member Erik Rosenow wrote a "Valley Voice" column for the Desert Sun newspaper that addressed some of the public relations aspects of the T&CC controversy (see attachment 3). There is a reasonable expectation that a city that derives so much of its revenue through architectural and cultural tourism be a good steward of the historic resources which bring visitors. The demolition of the T&CC might be expected to generate as much negative press as the destruction of Neutra's Maslon House in Rancho Mirage in 2002.

On June 3, 2009 the Palm Springs city council voted unanimously to support an application to become a "Preserve America Community." On October 7, 2009 the city of Palm Springs was officially designated a Preserve America Community in a letter from the White House signed by First Lady Michelle Obama. The Preserve America program "recognizes communities that:

> protect and celebrate their heritage;
> use their historic assets for economic development and community revitalization; and
> encourage people to experience and appreciate local historic resources through education and heritage tourism programs."

Obviously, Wessman Development's proposal to demolish the T&CC directly contradicts the city's commitment to adhere to the principles of the Preserve America program.

Public Support for a Tax Measure or "Wessman Subsidy"

One of our concerns regarding the practicality of the Wessman Development plan is the proposed strategy of partially financing of the DFP redevelopment with a public subsidy (derived from an earmarked "new tax"). In any political environment garnering public support for a tax measure is difficult. Garnering public support for a tax measure that provides a subsidy for an unpopular millionaire developer will be exceedingly difficult. Garnering public support for a tax measure that further subsidizes a scheme of cultural vandalism, i.e., the destruction of an historic asset, will be nearly impossible. The Planning Commission's recognition of this obvious political dynamic is important. Hence, disconnecting the T&CC from the proposed Wessman Development plan may prove to be the key to a quick and successful redevelopment of both the DFP and the T&CC. It should be noted that in the run-up to the T&CC's Class 1 designation hearing, we quickly collected 896 petition signatures supporting the designation. In a city where officials are elected by razor-thin margins, potential public support for the preservation of the T&CC should not be underestimated.

Policy Impediments to the Wessman Development Plan

At the November 18, 2009 Palm Springs city council meeting, the Museum Market Plaza Specific Plan (which includes the T&CC) was amended as follows: *"No permit for the*

demolition or substantial alteration of any portion of the Town and Country Center will be issued until (a) all discretionary entitlements consistent with the Specific Plan have been approved for the renovation or redevelopment of the existing Desert Fashion Plaza; (b) building permits in furtherance of such renovation or redevelopment have been issued; and (c) substantial work consistent with such building permits have commenced on the existing Desert Fashion Plaza."

In short, the progress of the proposed DFP redevelopment is "serialized" by the foregoing city council-approved language. Should the T&CC portion of the Wessman Plan be disconnected, the developer and city (especially should it elect to pursue an eminent domain strategy) would have greater flexibility in pursuing the development of the DFP and/or the T&CC.

The Fallacy of a "Grand Boulevard"

While the idea of a grand east-west boulevard as proposed in the Wessman Development plan is alluring to some, it does not stand up to scrutiny. Such a boulevard is incompatible with the "village" feel of the city and is more appropriate for a dense urban area and typically requires anchoring by an "imposing" structure. Asking the Palm Springs Art Museum (PSAM) to anchor such a grand boulevard is asking much of a building built well below grade with much of its façade designed to look like the mountain behind it. A more appropriate model would be a pedestrian and/or "slow traffic" connection from the PSAM to the T&CC, effectively creating two architectural "bookends."

The Success of Courtyard Configurations

We know from local retail experience that pedestrian-friendly courtyard configurations have not only been viable in the past but are viable today (witness the success of "The Corridor" complex just a few blocks north of the T&CC).

The T&CC is Economically Viable

Despite the developer's occasional assertions that the T&CC is standing in the way of the city's economic revitalization, the T&CC was financially viable until the DFP was built across the street. Today, shoppers have rejected retail superblocks like the DFP in favor of smaller, more pedestrian-friendly shopping opportunities. The T&CC contains approximately 60,000 square feet of rental space. Comparable space in historic downtown buildings generates an income in the range of a dollar per square foot per month. Had the T&CC been properly restored and marketed it could conceivably have grossed as much as $700,000 a year in income - roughly $7 million over the time it has been in the current owner's control. Instead the building has been allowed to languish, presumably in the hopes that it can be demolished as a development opportunity. The rehabilitation of the T&CC, when combined with sympathetic new development could, in time, provide a major expansion of the downtown retail core – something another street could never do. It is ironic that the developer recently proposed to demolish the T&CC (a remarkable and important midcentury building) while simultaneously proposing to change the façade of the

DFP to look "midcentury modern": in short proposing to tear down an authentic midcentury building only to build a fake across the street!

For a downtown to be viable it must possess a range of building types and functions. Mixed-use properties such as the T&CC provide small retail office and residential spaces for start-up retail businesses and offices. Over the years, the list of tenants in the T&CC has included drug stores, furniture stores, publishing offices, restaurants, architect's offices and more...all of which would still be welcome in the downtown. An examination of the preservation and restoration-based revival of the Uptown Design District, which includes several comparable properties, provides a model for preserving the downtown's historic resources.

Innate Advantages of Historic Preservation

Possible future activities like the historic preservation of the T&CC are cost-effective tools that can be used to leverage private capital, create jobs, revitalize business districts, and stimulate a wide range of other economic activities. Palm Springs property owners, like Wessman Development, can take advantage of federal and state tax credit programs to help rehabilitate historic buildings. Preserving historic character helps support tourism by providing interesting and unique opportunities for visitors.

Conclusion

When the Palm Springs city council voted unanimously on December 15, 2010 to proceed with plans to acquire both the DFP and T&CC we were hopeful that real progress was forthcoming. We saw the vote as a tangible expression of the city's frustration with Wessman Development and, more importantly, the city's desire to have the DFP complex contribute to the city's economy. The vote also validated the preservation community's strategic decision not to litigate on CEQA grounds when the T&CC's Class 1 historic site nomination was rebuffed by the city in June of 2009.

In summary, while the new Wessman Development DFP Concept Plan is laudable insofar as it successfully breaks up the DFP superblock, it recycles the developer's demand for the gratuitous demolition of the T&CC in exchange for a new retail store frontage "road to nowhere."

We hope that the foregoing information has been useful and ask that you please share this letter with your fellow commissioners.

Sincerely,

Ron Marshall

Ron Marshall
President

Subject: RE: PSDT Public Escrow Draws - Clarification

David,

Jeff and I went through the various accounts that were set up related to the Wessman project from 2011 on and here is a basic summary. Paula has pulled the actual Partial Receiving Reports with the backup documents if you feel you need that information.

Earlier today we discussed the $500,000 account set up pursuant to the Reimbursement Agreement approved by Council in December, 2011, after the Measure J election but prior to the issuance of bonds. I overlooked the fact that we had approved an earlier Reimbursement Agreement for $200,000 in March, 2011, right after we started working with Wessman on the new plan. That fund was set up in the 2010-11 Fiscal Year. During that year and the following year (2011-12) we paid Wessman a little more than $180,000 from that account. We also used $18,500 from that account to pay Ficcadenti & Waggoner, the structural engineering firm that investigated the condition of the parking structure. They were contracted by us and paid directly, rather than through Wessman. There was a balance of $1,500 left in that account, which I believe got recaptured back into Fund Balance.

In December 2011/January 2012, we took $500,000 from Fund Balance to pay for additional "pursuit costs" (the term used in the agreement) for the overall project. Wessman was relatively slow to spend that money during that six months period (he had his hands full with the demolition of the Bank of America, and was just beginning to work on changing the project to add the Kimpton Hotel), and by June the expenditure and reimbursement obligations shifted to the two escrow accounts, with his having only expended about $55,000 from the $500,000 fund. The remaining balance went back to the Fund Balance or remained in the City's Unscheduled Appropriations account.

All of the expenditures under both agreements were for the entire project – both public and private improvements – as the segregation of "Public" and "Private" escrows did not occur until the deposit of bond funds in the two accounts in late June, 2012.

Separately, as you know, we set up the Measure J-funded maintenance account for the 2012-13 Fiscal Year of about $135,000, which was to pay electrical, water, cleaning and landscaping. There were some maintenance costs that were originally charged to the larger account, but we redirected those charges into the Measure J account and returned the funds. That account was budgeted again in 2013-14, along with some additional funds for "Event Center Design" and site-related issues.

Hope this helps.

Mike:

I researched Reimbursement Request 1 - 6 and PFA 7 -12 and are my findings

Reimbursement Request 1 -6 was not part of any Measure J Funds or the PFA. These payments were the result of a reimbursement agreement executed March 2011 in order to "jump start" the predevelopment process. The pre development phase was limited from March 2011 – November 2011. Reimbursement Request 1 – 6 were submitted and approved by John Raymond.

PFA 7 – PFA 12 was part of the funds provided via Measure J and the public escrow account (PFA agreement). DWJ reviewed PFA 7 through PFA 12 and has all back up and copies of the bills including lean releases and copies of canceled checks.

I would like to suggest that you review the backup documentation of PFA 7-12 either at DJW office or at our office.

We will see you tomorrow at 4:30 pm.

Regards,
Michael

Subject: PSDT Public Escrow Draws

I was able to meet with John and David yesterday. We talked about the Public Escrow account draws. I will need to review the complete invoice backup for all twelve draws. I would prefer hard copies. If you can have the copies made I will pick them up. If that is not possible, you can send electronic copies and I will print them.

AMENDMENT NO. 1 TO REIMBURSEMENT AGREEMENT

This AMENDMENT NO. 1 TO A REIMBURSEMENT AGREEMENT ("Amendment") is entered into as of this 12th day of SEPTEMBER, 2012, by and between the CITY OF PALM SPRINGS, a California public entity ("City"), and JOHN WESSMAN, an individual, and WESSMAN HOLDINGS, LLC, a California limited liability company (collectively the "Owner").

RECITALS

A. Owner and City entered into that certain Reimbursement Agreement related to the development of the Desert Fashion Plaza ("Property") on or about March 2, 2011.

B. The City and Owner desire to enter into this Agreement to provide for City to reimburse Owner for 50% of Owner's costs for architectural and engineering costs ("Pursuit Costs").

C. It was originally estimated that the Pursuit Costs would not exceed $400,000, and the City's share of the Pursuit Costs was estimated at the time not to exceed Two Hundred Thousand Dollars ($200,000.00). Owner has incurred a total of $460,238.20 in Pursuit Costs City and Owner now desire to amend the Agreement to cover the costs of additionally beneficial design work.

AGREEMENT

Based upon the foregoing Recitals and for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by both parties, City and Owner hereby agree as follows:

1. **Pursuit Period**. The "Pursuit Period" shall be from March 2, 2011, until November 1, 2012.

2. **City Reimbursement**. The total reimbursement obligation of City for Pursuit Costs shall be Two Hundred Thirty Thousand, One Hundred Nineteen Dollars and Ten Cents ($230,119.10).

3. **No Other Amendment**. Except as expressly amended herein, the Reimbursement Agreement shall remain in full force and effect.

(signatures on next page)

IN WITNESS WHEREOF, City and Owner have entered into this Amendment as of the date set forth above.

REIMBURSEMENT AGREEMENT

This REIMBURSEMENT AGREEMENT ("Agreement") is entered into as of this 31 day of March, 2011, by and between the CITY OF PALM SPRINGS, a California public entity ("City"), and JOHN WESSMAN, an individual, and WESSMAN HOLDINGS, LLC, a California limited liability company (collectively the "Owner").

RECITALS

A. Owner is the owner of the Desert Fashion Plaza and the Town and Country Center ("Properties"), two developed properties that make up the planning area of the adopted Museum Market Plaza Specific Plan. On or about March 2, 2010, Owner presented a plan for the redevelopment of the Properties ("Project") to the City Council of the City of Palm Springs as a part of the City Community Visioning Process for the implementation of the Specific Plan. A description of the Project ("Project Description") is attached hereto as Exhibit "A" and incorporated herein by reference.

B. The City agreed to enter into a reimbursement agreement with Owner for a portion of all costs reasonably incurred by Owner in pursuit of the Project ("Pursuit Costs").

C. City and Owner desire to enter into this Agreement to provide for City to reimburse Owner for a portion of Owner's predevelopment costs, including without limitation architectural, planning, and engineering costs ("Pursuit Costs").

AGREEMENT

Based upon the foregoing Recitals and for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by both parties, City and Owner hereby agree as follows:

1. Pursuit Period. The City and Owner acknowledge that time is of the essence and agree, for the Pursuit Period (as hereinafter defined), to work diligently and in good faith to pursue the Project, and cause preparation of preliminary design plans, drawings, and schematics in sufficient detail to allow the City of Palm Springs to process and review a Development Agreement, and related financial agreements for the implementation of the Project. The duration of this Agreement ("Pursuit Period") shall be from March 2, 2011, until November 2, 2011, unless the period has been mutually extended by the City and the Owner or terminated earlier pursuant to Section 7 of this Agreement. (Note: Fees and charges by Alan Sanborn for work performed prior to March 2, 2011, in connection with preparing and revising Project Description, shall be reimbursable Pursuit Costs.)

2. Owner's Responsibility for Design. Owner shall be solely responsible for design of the Project, consisting of the preparation of preliminary plans, drawings, and schematics as described in Section 1. Owner shall submit all design documents to the Agency, conforming to all applicable legal authority and standards, in accord with established City policies and procedures and compliance with all applicable authority, and City shall receive and expeditiously review and process same. The adequacy of "work product" with respect to design

documents shall be subject to the City's reasonable satisfaction. All parties acknowledge that the City shall have, with respect to any formal applications submitted by Owner, normal discretionary approval rights as provided under State law and City Ordinances.

3. **City Reimbursement.** City shall promptly, within 30 days after receipt from Owner of bills and reasonable supporting information, reimburse Owner for 50% of Owner's Pursuit Costs, as from time to time incurred; provided, however, the total reimbursement obligation of City shall not exceed Two Hundred Thousand Dollars ($200,000.00).

4. **Compliance With Laws.** All work performed under the terms of this Agreement shall be in strict conformity with all laws, ordinances, rules, regulations applicable to the Project and shall require the design professionals retained to prepare the design documents to comply with all such requirements.

5. **Insurance.**

5.1 Owner's and Contractor's Insurance.

5.1.1 At all relevant times during this Agreement and until the City has accepted the work, the Owner shall, if requested by City, require each design professional to maintain at least $1,000,000 in errors and omissions (professional liability) insurance applicable to his/its design work, and to defend, indemnify and hold harmless the City and its respective officers, employees, and agents, from any and all claims due to the design professional's negligent acts or omissions or intentional wrongful conduct in its performance of design work. Such insurance shall be in form and substance as reasonably acceptable to City.

5.1.2 Design professionals shall also provide the following insurance for its work on the Project:

(a) Workers' compensation insurance in at least the minimum amounts required under California Law.

(b) Comprehensive general liability insurance, for injuries to persons and property, and automobile liability insurance, each with limits not less than $1,000,000 combined single limit, per occurrence and $2,000,000 in the aggregate.

5.1.3 Each insurance policy required to be maintained pursuant to this Section 5.1 shall be issued by a company admitted in California and having an A.M. Best's Guide Rating of "A-", Class VII or better. The Owner shall, if requested by City, require its design professionals to obtain and provide to City an endorsement for each of the policies providing the above insurance (except for worker's compensation insurance and errors and omissions insurance) naming the City and its respective officers, employees and agents as additional insureds. Each policy shall be endorsed to require 30 days advance notice to the City of cancellation or material modification of the policy. Each worker's compensation policy shall be endorsed to waive any right of subrogation against the City.

Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees, expert fees, costs of investigation, and costs of suit from the losing party.

8.4 Interpretation; Governing Law. This Agreement shall be construed according to its fair meaning and as if prepared by both of the parties hereto. This Agreement shall be construed in accordance with the internal laws of the State of California without regard to conflict of law principles.

8.5 Severability. If any term, provision, covenant, or condition of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of this Agreement shall not be affected thereby to the extent such remaining provisions are not rendered impractical to perform taking into consideration the purposes of this Agreement.

8.6 Non-Liability of Officials and Employees of the City. No official or employee of City or the City shall be personally liable to Owner in the event of any default or breach by City, or for any amount that will become due to Owner, or any obligation under the terms of this Agreement.

8.7 No Third-Party Beneficiaries. This Agreement is made only for the benefit of the parties hereto; it is not intended that any rights under this Agreement shall accrue to any third person.

8.8 Independent Contractor. It is expressly understood and agreed by the Parties that the Owner, while engaged in carrying out the terms and conditions of this Agreement, is an independent contractors and not an employee of the City.

8.9 Authority to Execute. The persons executing this Agreement warrant and represent that they have the authority to execute this Agreement and represent that they have the authority to bind the parties for which they are signing to the performance of the obligations hereunder.

8.10 Execution in Counterpart. This Agreement may be executed in several counterparts, and all so executed shall constitute one agreement binding on both parties hereto, notwithstanding that both parties are not signatories to the original or the same counterpart.

8.11 Cooperation. Subject to the City's discretionary approval rights as set forth in Section 2 above, each party agrees to do and perform such other and further acts, and execute and deliver such other and further acts as may be reasonably necessary to effectuate the intents and purposes of this Agreement.

(signatures on next page)

IN WITNESS WHEREOF, City and Owner have entered into this Agreement as of the date set forth above.

PROJECT DESCRIPTION
FOR MUSEUM MARKET PLAZA
REIMBURSEMENT AGREEMENT

I. BACKGROUND.

A. Specific Plan. On December 2, 2009, the City Council ("Council") of the City of Palm Springs ("City") adopted Ordinance 1764, which approved the Museum Market Plaza Specific Plan ("Specific Plan"). The Specific Plan covered two existing downtown commercial complexes, i.e., the area commonly known as Desert Fashion Plaza ("DFP Area"), and the area (shown on the Specific Plan as Blocks K-1 and K-2) commonly known as Town & Country Center ("TCC Area"). In granting such approval, the Council found that the Specific Plan was consistent with applicable provisions of the State Government Code, and the General Plan of the City. Among other things, the Specific Plan established criteria, standards, restrictions, requirements and limitations (collectively "criteria") for major redevelopment, in phases until build out ("Build Out"), of both the DFP Area and the TCC Area. Such criteria included without limitation, criteria for land use (allowed and prohibited uses), development standards (minimum setbacks and maximum heights), land regulations (allowable square footage and building mass), and design guidelines (architectural themes and concepts). The Specific Plan also included a a substantially more moderate and less ambitious plan ("Renovation Plan"), which contemplated that existing buildings within the DFP Area would largely remain intact but be upgraded with exterior architectural improvements. In Section V.C of the Specific Plan, the Renovation Plan, which was approved as an optional "phase one" of the Specific Plan.

B. EIR Certification. Concurrently with approval of the Specific Plan, the Council approved and adopted Resolution 22625, which certified an Environmental Impact Report for the Specific Plan. Such Resolution included, without limitation, the making of amendments to the General Plan and Zoning Ordinance of the City, the making of certain findings relative to environmental effects identified in the EIR, the adoption of a Statement of Overriding Consideratons, and the adoption of a Mitigation Monitoring Plan and Reporting Plan. The Resolution also included the incorporation of the Renovation Plan as an option, i.e., a phase one for remodeling the DFP Area.

II. CURRENT PROPOSAL

A. Project Description for Revitalization Plan. The Revitalization Plan is intended to expand upon the prior Renovation Plan, and continue to remain in substantial conformance with the Specific Plan. In essence, the Revitalization Plan will constitute part of the redevelopment "phasing" process recognized and approved in the Specific Plan. Relevant aspects of the Revitalization Plan are considered below.

1. **New Site Plan**. The new site plan for the Revitalization Plan ("New Site Plan") is attached hereto as *Exhibit "A"* and, as can be seen, it contains some

modifications from the prior site plan for the Renovation Plan ("Prior Site Plan"). With respect to the New Site Plan (and the Revitalization Plan) the comments below are relevant.

2. **Internal Street Improvements**. The New Site Plan shows the main internal street running the full distance from Indian Canyon Drive to Museum Drive(?). In this respect, it is consistent with ultimate Specific Plan redevelopment concepts, and provides an important part of the solution to making the DFP Area commercially successful, i.e., direct east-west access from Indian Canyon Drive into the DFP Area. The New Site Plan also shows an extension from the roundabout at the "center" of the DFP Area southerly to become part of an extension of Belardo Road into the DFP Area. (Note: [1] Construction of the Belardo Bridge over Tahquitz Creek will provide a large new segment of residential areas with direct northerly access to the DFP Area. [2] Under the New Site Plan, internal streets will be public, i.e., owned by the City rather than the Developer.)

3. **New Building Improvements**. The Prior Site Plan contemplated that existing buildings within the DFP Area would largely remain in place but be upgraded with exterior architectural improvements. The New Site Plan contemplates the demolition, reconfiguration and replacement of some buildings, particularly in the southeast corner of the DFP Area. In that location, existing buildings will be demolished, a new open space area will be located at the northwest corner of Tahquitz Canyon Way and North Palm Canyon Drive, and a landscaped pedestrian walkway will extend from the corner open space area into the center of the DFP Area, connecting to the "roundabout" described in Section 2. above. New retail building improvements are planned for location in the area shown as Block 2 on the New Site Plan. A new movie theater complex is planned for location directly north of the roundabout in the center of the DFP Area. (The Prior Site Plan showed the theater as being located immediately southwest of the center of the DFP Area – at the site of the former Pavilion Theatre tent.)

4. **Retention and Use of Existing Building Improvements**. The New Site Plan contemplates the retention, upgrade and use of some existing building improvements, as follows: (1) the former Saks Fifth Avenue building located on Palm Canyon Drive may be retained and used for major retail purposes, (2) the former I. Magnin building located directly northwest of the center roundabout in the DFP Area may be retained and used as an entertainment venue, such as for fitness/spa uses and/or recreational bowling purposes, (3) existing building improvements shown as Block 1 on the New Site Plan (located on Palm Canyon Drive), may be retained and used for retail purposes, and (4) existing building improvements located immediately adjacent to the Hyatt Hotel may be retained and used for hotel ballroom and conference center purposes. Depending on the condition of these properties, the needs of potential tenants, and economic feasibility, any of these buildings could be replaced with new structures. (Note: The foregoing identification of potential uses is not intended to preclude other uses authorized by the Specific Plan.)

5. **Retention of Block 6 for Future Development**. The New Site Plan calls for the area shown thereon as Block 6 to be retained by the Developer and be held for future development for a variety of potential uses including, without limitation, boutique gourmet grocery, bar/restaurant, entertainment, multi-story housing and/or office uses.

6. **City Purchase of Improvements for Public Parking**. The Revitalization Plan calls for certain parking improvements within the DFP Area to be purchased by the City from the Developer, and be used by the City in perpetuity as and for free public parking. These may include all or part of the above-ground parking structure at the northwest corner of the property, the parking deck and associated underground parking at the southwest corner of the property, the parking underneath developed portions of the DFP property, and all associated ramps, driveways and approaches currently owned by the Developer.

7. **City Purchase of Land for Public Streets**. The Revitalization Plan calls for the City to purchase from the Developer the ground upon which the interior streets shown on the New Site Plan will be built. This purchase could be the ground only or the purchase from the Developer the full street in a finished condition.

8. **City Purchase of Land (Parcels A and B) for Future Use**. The Revitalization Plan calls for two parcels within the DFP Area, i.e., the two parcels directly east of the Palm Springs Art Museum (the "Art Museum") which are currently used for open space and sculpture garden purposes ("Parcels A and B"), to be purchased by the City from the Developer and be held for future development opportunities including, without limitation, possible expansion of Art Museum facilities.

B. **City Administration and Processing of Revitalization Plan**. With respect to City Administration and processing, a number of matters need to be considered, as follows:

1. **Development Agreement**. Under certain provisions of the State Government Code, local governments are authorized to enter into binding contracts with developers known as development agreements. Among other things, a development agreement, once consummated, gives the developer a vested right to proceed to develop his property in the manner specified in the development agreement and/or entitlements adopted concurrently therewith or prior thereto. In this case, the Developer has filed an application for approval of a Development Agreement. Once approved and executed, the Development Agreement will, among other things, grant the Developer the vested right to develop the DFP Area in accordance with the Revitalization Plan, and the TCC Area in accordance with the Revitalization Plan (construction of the public street from Indian Canyon Drive to Palm Canyon Drive) and other entitlements authorized by the Specific Plan (hotel and retail use), but subject to all criteria (restrictions, standards, requirements and limitations) contained in the Specific Plan.

2. **Major Architectural Review**. Section V.A of the Specific Plan provides that implementation tools will be major architectural reviews, conditional use permits, subdivision maps and, in certain circumstances, planned development permits. For purposes of the subject Revitalization Plan, the Planning Commission and City Council will consider and act on the Development Agreement application, in conjunction prior to major architectural review of proposed revitalization improvements.

3. **Substantial Conformance of Revitalization Plan**. For reasons indicated herein, the Revitalization Plan and New Site Plan are consistent and in substantial conformance with the Specific Plan in general, and the prior Renovation Plan in particular. Land uses under the Revitalization Plan will be fully consistent with land uses allowed under the Specific Plan, development standards and land use regulations set forth in the Specific Plan will be followed in the Revitalization Plan, and architectural and design concepts under the Revitalization Plan will be consistent with those contained in the Specific Plan.

4. **Project Funding Agreement**. Section V.D of the Specific Plan acknowledges (1) that although the Specific Plan occurs in an area in which infrastructure is generally complete, improvements and alterations will be required throughout the development of Museum Market Plaza, and (2) that financing for such improvements and alterations is likely to come from a number of sources, both public and private.

AMENDMENT NO. 1 TO REIMBURSEMENT AGREEMENT

This AMENDMENT NO. 1 TO A REIMBURSEMENT AGREEMENT ("Amendment") is entered into as of this 12th day of September, 2012, by and between the CITY OF PALM SPRINGS, a California public entity ("City"), and JOHN WESSMAN, an individual, and WESSMAN HOLDINGS, LLC, a California limited liability company (collectively the "Owner").

RECITALS

A. Owner and City entered into that certain Reimbursement Agreement related to the development of the Desert Fashion Plaza ("Property") on or about March 2, 2011.

B. The City and Owner desire to enter into this Agreement to provide for City to reimburse Owner for 50% of Owner's costs for architectural and engineering costs ("Pursuit Costs").

C. It was originally estimated that the Pursuit Costs would not exceed $400,000, and the City's share of the Pursuit Costs was estimated at the time not to exceed Two Hundred Thousand Dollars ($200,000.00). Owner has incurred a total of $460,238.20 in Pursuit Costs City and Owner now desire to amend the Agreement to cover the costs of additionally beneficial design work.

AGREEMENT

Based upon the foregoing Recitals and for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by both parties, City and Owner hereby agree as follows:

1. **Pursuit Period**. The "Pursuit Period" shall be from March 2, 2011, until November 1, 2012.

2. **City Reimbursement**. The total reimbursement obligation of City for Pursuit Costs shall be Two Hundred Thirty Thousand, One Hundred Nineteen Dollars and Ten Cents ($230,119.10).

3. **No Other Amendment**. Except as expressly amended herein, the Reimbursement Agreement shall remain in full force and effect.

Form **W-9**
(Rev. December 2014)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)
Valerie A. Walton

Business name/disregarded entity name, if different from above
Wonder Valley Fence & Supply

Check appropriate box for federal tax classification:
☑ Individual/sole proprietor ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶

☐ Exempt payee

☐ Other (see instructions) ▶

Address (number, street, and apt. or suite no.)
83134 Virginia Rd.

Requester's name and address (optional)
Wenaman Development Company
543 S. Sunrise Way, Suite 200
Palm Springs, CA 92264

City, state, and ZIP code
Twentynine Palms, CA 92277

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
[ ] [ ] [ ] - [ ] [ ] - [ ] [ ] [ ] [ ]

Employer identification number
2 0 - 0 6 4 1 8 7 1

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here Signature of U.S. person ▶ Valerie A. Walton Date ▶ 7/22/15

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

UNCONDITIONAL WAIVER AND RELEASE ON PROGRESS PAYMENT

(CALIFORNIA)

TYPE 2 FORM - Pursuant to Civil Code §8134 (Effective 7/1/2012)

NOTICE TO CLAIMANT: THIS DOCUMENT WAIVES AND RELEASES LIEN, STOP PAYMENT NOTICE, AND PAYMENT BOND RIGHTS UNCONDITIONALLY AND STATES THAT YOU HAVE BEEN PAID FOR GIVING UP THOSE RIGHTS. THIS DOCUMENT IS ENFORCEABLE AGAINST YOU IF YOU SIGN IT, EVEN IF YOU HAVE NOT BEEN PAID. IF YOU HAVE NOT BEEN PAID, USE A CONDITIONAL WAIVER AND RELEASE FORM.

Claimant:	WONDER VALLEY FENCE & SUPPLY
Customer:	WESSMAN - DOWNTOWNPS
Job Location:	PALM SPRINGS, CA
Owner:	PALM SPRINGS PROMENADE, LLC
Through Date:	07/15/2013

This document waives and releases lien, stop payment notice, and payment bond rights the claimant has for labor and service provided, and equipment and material delivered, to the customer on this job through the Through Date of this document. Rights based upon labor or service provided, or equipment or material delivered, pursuant to a written change order that has been fully executed by the parties prior to the date that this document is signed by the claimant, are waived and released by this document, unless listed as an Exception below.

The claimant has received the following progress payment: $ 3535.00

Exceptions This document does not affect any of the following: (1) Retentions. (2) Extras for which the claimant has not received payment. (3) Contract rights, including (A) a right based on rescission, abandonment, or breach of contract, and (B) the right to recover compensation for work not compensated by the payment.

The following invoices and pay applications are included in the above referenced amount:
50% DEPOSIT ON TOTAL BID OF $7068.75

1. Acceptance: City reserves the right to refuse any goods and to cancel all or any part of the goods not conforming to applicable specifications drawings, samples or descriptions Acceptance of any part of the order shall not bind City to accept future shipments, nor deprive it of the right to return goods already accepted.

2. Late Deliveries: If delivery of the commodity or service cannot be made as speicified or sooner and at the price shown, notify the City Purchasing Manager immediately. And correspondence, other than invoices, relating to this Order must be sent to the Purchasing Manager. The City reserves the right to cancel order if delivery is not made by the time specified.

3. Risk of Loss: Delivery shall not be deemed to be complete until the goods have been actually received and accepted by the City.

4. Defects: By accepting this order Seller acknowledges that the goods covered by this order are satisfactory for the purposes intended by City.

5. Prices: Unless otherwise provided, goods shall be furnished at the prices indicated on this order only. Invoices will be horored for purchase order prices only. Price on the order include delivery to the Department within building unless otherwise specified on the order.

6. Patent Infringement: Seller agrees to indemnify City and hold it harmless from and against all liability, loss, damage, and expense, including reasonable counsel fees resulting from any actual or claimed trademark patent or copyright infringement, or any litigation based thereon with respect to any part of the goods covered by the order, and such obligation shall survive acceptance of the goods and payment therefore by the City.

7. Packing: All goods, wrappers and containers must bear markings and labels required by applicable federal, state, and municipal laws and regulations for the protection and safety of persons and property and Seller warrants that prices include all charges to packing, crating, and transportation to f.o.b. point.

8. Nonassignment: This order must not be assigned or transferred to anyone without the written approval of the Purchasing Manager.

9. Labor Disputes: Whenever any actual or potential labor dispute delays or threatens to delay the timely performance of the order, Seller shall immediately give notice thereof to City.

10. HAZARDOUS MATERIAL: SELLER SHALL PROVIDE MATERIAL SAFTTY DATA SHEETS FOR EACH PRODUCT CONTAINING HAZARDOUS SUBSTANCES AS LISTED BY CALIF. DIR. IND. REL. IN CALIF. ADM. CODE, TITLE 8, SEC 5194 AND LABOR COSTS. Seller agrees to furish Material Safety Data Sheet (Form OSHA-20) as applicable for hazardous or potentially hazardous products.

11. Discounts: Discount period will be computed from date of receipt of invoice, or goods or services whichever is the later date.

12. Hold harmless: seller agrees to indemnify, defend and save City and its agents and employees harmless from any and all liability, claims, damages or injuries to any person, including injury to Sellers employees and all claims which arise from or are connected with the negligent performance of or failure to perform the work or other obligations of this agreement, or are caused or claim to be caused by the negligent acts of Seller, its agents or employees, and all expenses of investigating and defending against same; provided, however, that this indemnification and hold harmless shall not include any claim arising from the sole negligence or willful misconduct of the City, its agents or employees.

13. In the event of any conflict between the provisions of this Purchase Order Terms and Conditions and the terms of any proposal or

PURCHASE ORDER TERMS AND CONDITIONS

1. Please Submit invoices in duplicate
2. Please submit separate invoices for each other
3. Show PO# on each carton label.
4. Notify at Once if Order cannot be filled
5. The city is not exempt from California sales tax.
6. The city is exempt from Federal excise tax.

1. Acceptance: City reserves the right to refuse any goods and to cancel all or any part of the goods not conforming to applicable specifications drawings, samples or descriptions Acceptance of any part of the order shall not bind City to accept future shipments, nor deprive it of the right to return goods already accepted.

2. Late Deliveries: If delivery of the commodity or service cannot be made as speicified or sooner and at the price shown, notify the City Purchasing Manager immediately. And correspondence, other than invoices, relating to this Order must be sent to the Purchasing Manager. The City reserves the right to cancel order if delivery is not made by the time specified.

3. Risk of Loss: Delivery shall not be deemed to be complete until the goods have been actually received and accepted by the City.

4. Defects: By accepting this order Seller acknowledges that the goods covered by this order are satisfactory for the purposes intended by City.

5. Prices: Unless otherwise provided, goods shall be furnished at the prices indicated on this order only. Invoices will be horored for purchase order prices only. Price on the order include delivery to the Department within building unless otherwise specified on the order.

6. Patent Infringement: Seller agrees to indemnify City and hold it harmless from and against all liability, loss, damage, and expense, including reasonable counsel fees resulting from any actual or claimed trademark patent or copyright infringement, or any litigation based thereon with respect to any part of the goods covered by the order, and such obligation shall survive acceptance of the goods and payment therefore by the City.

7. Packing: All goods, wrappers and containers must bear markings and labels required by applicable federal, state, and municipal laws and regulations for the protection and safety of persons and property and Seller warrants that prices include all charges to packing, crating, and transportation to f.o.b. point.

8. Nonassignment: This order must not be assigned or transferred to anyone without the written approval of the Purchasing Manager.

9. Labor Disputes: Whenever any actual or potential labor dispute delays or threatens to delay the timely performance of the order, Seller shall immediately give notice thereof to City.

10. HAZARDOUS MATERIAL: SELLER SHALL PROVIDE MATERIAL SAFTTY DATA SHEETS FOR EACH PRODUCT CONTAINING HAZARDOUS SUBSTANCES AS LISTED BY CALIF. DIR. IND. REL. IN CALIF. ADM. CODE, TITLE 8, SEC 5194 AND LABOR COSTS. Seller agrees to furish Material Safety Data Sheet (Form OSHA-20) as applicable for hazardous or potentially hazardous products.

11. Discounts: Discount period will be computed from date of receipt of invoice, or goods or services whichever is the later date.

12. Hold harmless: seller agrees to indemnify, defend and save City and its agents and employees harmless from any and all liability, claims, damages or injuries to any person, including injury to Sellers employees and all claims which arise from or are connected with the negligent performance of or failure to perform the work or other obligations of this agreement, or are caused or claim to be caused by the negligent acts of Seller, its agents or employees, and all expenses of investigating and defending against same; provided, however, that this indemnification and hold harmless shall not include any claim arising from the sole negligence or willful misconduct of the City, its agents or employees.

13. In the event of any conflict between the provisions of this Purchase Order Terms and Conditions and the terms of any proposal or related documents submitted by a vendor or a consultant, including without limitation a scope of work or alternate contract terms and conditions, the provisions of this Purchase Order Terms and Conditions shall control.

Important information

Rotating outages

A rotating outage is a controlled electric outage that lasts approximately one hour for a group of circuits, which is used during electric system emergency conditions to avoid widespread or uncontrolled blackouts. Each SCE customer is assigned a rotating outage group, shown on the upper part of the SCE bill. If your rotating outage group begins with the letters A, M, R, S, or X, you are subject to rotating outages. If it begins with N or Exempt, you are not. Your rotating outage group may change at any time. For more information, and to see which rotating outage groups are likely to be called in the event of a system emergency, visit www.sce.com or call 1-800-655-4555.

Options for paying your bill

On-line	www.sce.com or Electronic Fund Transfer	
Mail-in	Check or Money order	
In Person	Authorized payment locations	1-800-747-8908
Phone	QuickCheck	1-800-950-2356
	Credit Card-Visa/MasterCard*	1-800-254-4123
	Debit Card-ACCEL/NYCE/Pulse/Star*	1-800-254-4123

*The Credit/Debit card payment options are not available for payment of commercial services or security deposits for commercial services.

You may call us for electronic payment options, to make payment arrangements, or for information on agencies to assist you in bill payment. If service has been disconnected, on the day of the service reconnection, be sure all appliances and other electric devices are turned off. For additional home safety tips, visit www.sce.com/safety or you may call SCE Customer Service at 1-800-655-4555.

Past due bills

Your bill was prepared on October 3, 2013. Your bill is due when you receive it and becomes past due 19 days after the date the bill was prepared. You will have 15 days at your new address to pay a bill from a prior address before your service will be terminated. SCE does not terminate residential service for non-payment of bills for other classes of service. Termination of electric service requires a Service Connection charge. If you are a residential customer, and claim an inability to pay and payment arrangements have not been extended to you by SCE pursuant to SCE's filed tariffs, you may contact the California Public Utilities Commission (CPUC).

Rules and rates

SCE's rules and rates are available in full at www.sce.com or upon request.

Late Payment Charge (LPC)

A late payment charge of 0.8% will be applied to the total unpaid balance on your account if full payment is not received by the due date on this bill (except for CARE and state agency accounts).

Disputed bills

If you think your bill is incorrect, call us and speak with a customer service representative, or if necessary, with a manager. If you feel unsatisfied with the result of such discussion(s), contact the CPUC, Consumer Affairs Branch by mail at: 505 Van Ness, Room 2003, San Francisco, CA 94102, or at: www.cpuc.ca.gov, 1-800-649-7570, TTY: 1-800-229-6846. Include a copy of your bill, why you believe SCE did not follow its rules and rates, and a check or money order made out to the CPUC for the disputed amount. You must pay the disputed amount, or send it to the CPUC, before the past-due date to avoid disconnection. The CPUC accepts payment only for matters relating directly to bill accuracy. While the CPUC is investigating your complaint, you must pay any new SCE bills that become due.

Electronic Fund Transfers (EFT)

When you provide a check as payment, you authorize us either to use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. When we use information from your check to make an electronic fund transfer, funds may be withdrawn from your account as soon as the same day we receive your payment. You will not receive your check back from your financial institution, but the transaction will appear on your financial institution statement. If you do not wish to authorize an electronic fund transfer, please call the 800 number on the front of your bill.

Definitions

- DWR Bond Charge: Bonds issued by the Department of Water Resources (DWR) to cover the cost of buying power for customers during the energy crisis are being repaid through this charge.
- SCE Generation: These charges recover energy procurement and generation costs for that portion of your energy provided by SCE. Beginning April 11, 2010, pursuant to CPUC Decision 10-03-022, Direct Access (DA) is again open to all non-residential customers, subject to annual limits during a four year phase-in period, and absolute limits following the phase-in. All residential customers currently returning to Bundled Service may not elect to return to DA service.

Things you should know

HEAT WAVE...

Due to the recent heat wave and period of higher than normal humidity you may have used more electricity than normal. As a result, you may notice an increase in your electric bill. For solutions to help you manage your energy usage and costs, visit www.sce.com/highbillhelp.

You may notice a change in your billing statement...

Effective 10/1/2013, the billing rates used to calculate your bill have been modified. You may notice the recurring line items in the "Details of New Charges" section which reflects the bill calculation before and after the rate change. The first line item reflects the rates pnor to 10/1/2013 and the second line item reflects the rates after 10/1/2013. For more information, please visit www.sce.com/bill_change.

SOUTHERN CALIFORNIA EDISON COMPANY (SCE)

NOTICE OF PROPOSED SETTLEMENT IN APPLICATION 10-11-009

PROPOSAL TO INCREASE YOUR ELECTRIC RATES

Southern California Edison Company (SCE) has filed a motion with the California Public Utilities Commission (CPUC) to approve a settlement for the 2011 Catalina Water General Rate Case (Application 10-11-009). The proposed settlement requests an additional $8.895 million, or 0.074%, of revenue from SCE's electric customers over current electnc utility revenues for a one-year period only and a substantial increase in residential Catalina Island average water rates.

If the CPUC approves the settlement as requested, an average residential electric customer using 600 kilowatt-hours per month would see an Increase of $0.09 per month for 12 months, from the current $108.76 to $108.85. The table set out below shows current rates compared to estimated rates by customer group.

SCE is the owner and operator of the CPUC-regulated water utility on Catalina Island off the coast of Southern California. SCE's application requested additional revenue from water sales on Catalina to compensate SCE for its investments in water service. If accepted, SCE's request would have led to an 85% water rate increase on Catalina Island. To mitigate the impact on Catalina Island residents and business from that rate increase, SCE provided an alternate proposal for the Commission's consideration that would recover a portion of the investment from the Catalina water customers and a portion from SCE's electric customers. SCE's alternate proposal recognized that a significant number of visitors to Catalina Island are visitors from the mainland and that those visitors to Catalina also benefit from water service on the island. Both proposals were thoroughly vetted through evidentiary hearings. The CPUC Administrative Law Judge (ALJ) presiding over the proceeding issued a Proposed Decision which would have adopted SCE's alternate proposal and would have shifted $10.7 million in revenue to SCE's electric customers. That proposed decision is still pending. Usually once a proposed decision is issued, the Commissioners schedule it for consideration at a Commission voting meeting where the Commissioners may accept it, modify it, approve an alternate sponsored by a Commissioner or reject the utility proposal in its entirety

However, all parties in the proceeding are requesting that the CPUC approve this unique settlement instead. It requires SCE to recover less than it requested from the CPUC to compensate it for the water service on Catalina, adopts rates that will lead to substantial average bill increases for Catalina Island's residential water utility customers, and recovers a portion of the increased costs for one year from SCE electric customers. The following table shows the impact on SCE's electric customers.

Customer Group Revenue Impact
A.10-11-009 Proposed Settlement

Customer Group	Revenue Change ($000)	% Change	Present Rates ¢/kWh	Proposed Rates ¢/kWh
Residential	4,580	0.091%	17.1	17.2
Lighting - Small and Medium Power	3,020	0.070%	16.4	16.4
Large Power	1,056	0.048%	11.5	11.5
Agricultural and Pumping	225	0.061%	12.8	12.8
Street and Area Lighting	14	0.011%	17.7	17.7
TOTAL	8,895	0.074%	15.5	15.5

FOR FURTHER INFORMATION FROM SCE

You may review the proposed settlement at SCE's corporate headquarters (2244 Walnut Grove Avenue, Rosemead, CA 91770). You may also view it at the following SCE business offices:

1 Pebbly Beach Rd. Avalon, CA 90704	1820 Rimrock Rd. Barstow, CA 92311	374 Lagoon St. Bishop, CA 93514
505 W. 14th Ave. Blythe, CA 92225	3001 Chateau Rd. Mammoth Lakes, CA 93546	510 S. China Lake Blvd. Ridgecrest CA 93555
26364 Pine Ave. Rimforest, CA 92378	41694 Dinkey Creek Rd. Shaver Lake, CA 93664	421 W. J St. Tehachapi, CA 93561
120 Woodland Dr. Wofford Heights CA 93285	6999 Old Woman Springs Rd. Yucca Valley, CA 92284	

Customers with Internet access may view and download the proposed settlement on SCE's website: **www.sce.com/applications**. Anyone who would like to obtain more information about the settlement or application, please write to:

Utility Bill Scams Continue to Target Southern California Edison Customers

Southern California Edison (SCE) is advising customers to be aware of a telephone scam that demands immediate payment for allegedly past due electricity bills.
Customers suspecting a fraudulent call should ask for the caller's name, department and business phone number. If the caller refuses to provide this information, customers should terminate the call and report the incident immediately to local police or SCE at **1-800-655-4555**.

SCE customers should also note that:

- An SCE employee will never ask for money in person.
- Never reveal your credit card, ATM or calling card numbers (or PIN numbers) to anyone.
- If someone calls and requests you leave your residence at a specific time for a utility-related cause, call the police. This could be a burglary attempt set up by the caller.
- Be suspicious of anyone who arrives at your house without an appointment asking to check an appliance, wiring or suggesting that there may be some other electrical problem inside or outside your residence.

For more ways customers can stay safe, please see **www.sce.com/safety** and read the safety tips section.

Don't Miss Out on Discounted Bulbs Purchased Online

For a limited time, Southern California Edison (SCE) is offering discounts ranging from $5 to $15 off select light-emitting diode (LED) and compact fluorescent light (CFL) bulbs. When you purchase online, you'll enjoy immediate savings on LEDs and CFLs, and c ontinued energy savings for years to come.

Visit **www.sce.com/bulbsoffer** for your discount today!

Important information

Rotating outages

A rotating outage is a controlled electric outage that lasts approximately one hour for a group of circuits, which is used during electric system emergency conditions to avoid widespread or uncontrolled blackouts. Each SCE customer is assigned a rotating outage group, shown on the upper part of the SCE bill. If your rotating outage group begins with the letters A, M, R, S, or X, you are subject to rotating outages. If it begins with N or Exempt, you are not. Your rotating outage group may change at any time. For more information, and to see which rotating outage groups are likely to be called in the event of a system emergency, visit www.sce.com or call 1-800-655-4555.

Options for paying your bill

On-line	www.sce.com or Electronic Fund Transfer	
Mail-In	Check or Money order	
In Person	Authorized payment locations	1-800-747-8908
Phone	QuickCheck	1-800-950-2356
	Credit Card-Visa/MasterCard*	1-800-254-4123
	Debit Card-ACCEL/NYCE/Pulse/Star*	1-800-254-4123

*The Credit/Debit card payment options are not available for payment of commercial services or security deposits for commercial services.

You may call us for electronic payment options, to make payment arrangements, or for information on agencies to assist you in bill payment. If service has been disconnected, on the day of the service reconnection, be sure all appliances and other electric devices are turned off. For additional home safety tips, visit www.sce.com/safety or you may call SCE Customer Service at 1-800-655-4555.

Past due bills

Your bill was prepared on September 4, 2013. Your bill is due when you receive it and becomes past due 19 days after the date the bill was prepared. You will have 15 days at your new address to pay a bill from a prior address before your service will be terminated. SCE does not terminate residential service for non-payment of bills for other classes of service. Termination of electric service requires a Service Connection charge. If you are a residential customer, and claim an inability to pay and payment arrangements have not been extended to you by SCE pursuant to SCE's filed tariffs, you may contact the California Public Utilities Commission (CPUC).

Rules and rates

SCE's rules and rates are available in full at www.sce.com or upon request.

Late Payment Charge (LPC)

A late payment charge of 0.8% will be applied to the total unpaid balance on your account if full payment is not received by the due date on this bill (except for CARE and state agency accounts).

Disputed bills

If you think your bill is incorrect, call us and speak with a customer service representative, or if necessary, with a manager. If you feel unsatisfied with the result of such discussion(s), contact the CPUC Consumer Affairs Branch by mail at: 505 Van Ness, Room 2003, San Francisco, CA 94102; or at: www.cpuc.ca.gov, 1-800-649-7570, TTY 1-800-229-6846. Include a copy of your bill, why you believe SCE did not follow its rules and rates, and a check or money order made out to the CPUC for the disputed amount. You must pay the disputed amount, or send it to the CPUC, before the past-due date to avoid disconnection. The CPUC accepts payment only for matters relating directly to bill accuracy. While the CPUC is investigating your complaint, you must pay any new SCE bills that become due.

Electronic Fund Transfers (EFT)

When you provide a check as payment, you authorize us either to use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. When we use information from your check to make an electronic fund transfer, funds may be withdrawn from your account as soon as the same day we receive your payment. You will not receive your check back from your financial institution, but the transaction will appear on your financial institution statement. If you do not wish to authorize an electronic fund transfer, please call the 800 number on the front of your bill.

Definitions

- DWR Bond Charge: Bonds issued by the Department of Water Resources (DWR) to cover the cost of buying power for customers during the energy crisis are being repaid through this charge.
- SCE Generation: These charges recover energy procurement and generation costs for that portion of your energy provided by SCE. Beginning April 11, 2010, pursuant to CPUC Decision 10-03-022, Direct Access (DA) is again open to all non-residential customers, subject to annual limits during a four year phase-in period, and absolute limits following the phase-in. All residential customers currently returning to Bundled Service may not elect to return to DA service.

UNDERSTANDING EMF - ELECTRIC AND MAGNETIC FIELDS

Questions have been raised about the possible health effects of 60-hertz (power frequency) electric and magnetic fields (EMF*), which are found wherever you have electric power. This article contains information that will help you understand the EMF issue, plus practical tips you can use if you want to reduce your exposure at home and at work.

Campos Eléctricos y Magnéticos (EMF): Si desea recibir información en español, comuníquese con SCE al 1-800-441-2233.

*The term EMF in this publication refers to extremely low frequency (ELF) 60-hertz electric and magnetic fields associated with power delivered by electric utilities does not refer to radio frequency (RF) waves associated with wireless communications such as cell phones.

Can EMF Harm Your Health?

Electric and magnetic fields are present wherever electricity flows—around appliances and power lines, and in offices, schools and homes. Many researchers believe that if there is a risk of adverse health effects from usual residential exposures to EMF, it is probably just at the detection limit of human health studies; nonetheless, the possible risk warrants further investigation. The varying results from epidemiological studies, which looked at estimated EMF exposures and childhood leukemia, are consistent with a weak link. Laboratory studies, including studies investigating a possible mechanism for health effects (mechanistic studies), provide little or no evidence to support this weak link.

The results from many research studies have been evaluated by international, national and California EMF research programs to determine whether EMF poses any health risk. Given the uncertainty of the issue, the medical and scientific communities have been unable to conclude that usual residential exposures to EMF cause health effects, or to establish any standard or level of residential exposure that is known to be either safe or harmful. These conclusions remain unchanged by recent studies.

World Health Organization Findings

The World Health Organization (WHO) completed a review of the potential health implications of extremely low frequency (ELF) EMF, which includes power-frequency fields. Their conclusions and recommendations were presented in June 2007 in a report known as the Extremely Low Frequency Fields, Environmental Health Criteria Monograph No. 238.

The WHO report concluded that evidence for a link between ELF magnetic fields and childhood leukemia "is not strong enough to be considered causal but sufficiently strong to remain a concern." "Virtually all of the laboratory evidence and the mechanistic evidence fail to support" this reported association. For all other diseases, there is inadequate or no evidence of health effects at low exposure levels.

The report emphasized that, given the weakness of the evidence for health effects, the health benefits of exposure reduction are unclear and adopting policies based on arbitrary low exposure limits is not warranted. In light of this situation, WHO made these and other recommendations:

- National authorities should implement communication programs with all stakeholders to enable informed decision-making, including how individuals can reduce their own exposure.
- Policy makers and community planners should implement very low-cost measures to reduce exposures when constructing new facilities and designing new equipment, including appliances.
- Policy makers should establish guidelines for ELF field exposure for both the general public and workers. The best source of guidance for both exposure levels and the principles of scientific review are the international guidelines.
- Government and industry should promote research to reduce the uncertainty of the scientific evidence on the health effects of ELF field exposure. Several recommended research projects are already under way through the Electric Power Research Institute, of which SCE is a member.

Understanding EMF

What You Can Do
In a situation of scientific uncertainty and public concern, WHO recommended that utilities explore "very low-cost" ways to reduce EMF exposure from new or upgraded facilities. SCE and other California public utilities have been pursuing no-cost and low-cost measures to reduce EMF levels from new utility transmission lines and substation projects. You, too, may want to take no-cost and low-cost measures to reduce your EMF exposure at home and at work.

Human studies have not produced a consensus about any health benefits from changing the way people use electric appliances. But, if you feel reducing your EMF exposure would be beneficial, you can increase your distance from electric appliances and/or limit the amount of time you use appliances at home or at work.

For instance, you can place phone answering machines and electric clocks away from the head of your bed. Increasing your distance from these and other appliances such as televisions, computer monitors and microwave ovens can reduce your EMF exposure.

You can also reduce your EMF exposure by limiting the time you spend using personal appliances such as hair dryers, electric razors, heating pads and electric blankets. You may also want to limit the time you spend using electric cooking appliances.

You can locate the sources of EMF in your work environment, and spend break time in lower-field areas.

It is not known whether such actions will have any impact on your health.

Additional Information Is Available
SCE provides free EMF information packages and home/business measurements upon request. We also invite you to attend a workshop on EMF at our EMF Education Center located in Irwindale. For any of these services, please call us at **1-800-200-4SCE**.

SOUTHERN CALIFORNIA EDISON COMPANY (SCE)
NOTICE OF ENERGY RESOURCE RECOVERY ACCOUNT (ERRA) APPLICATION FILING IN A.13-08-004
PROPOSAL TO INCREASE YOUR ELECTRIC RATES

In compliance with California Public Utilities Commission (CPUC) decisions, Southern California Edison Company (SCE) has filed an Energy Resource Recovery Account (ERRA) forecast application. This application is referred to as A.13-08-004. In an ERRA forecast application, SCE estimates the costs of fuel and purchased power that is required to generate and procure electricity for the following year, in order to set rates and recover these costs.

In this application, SCE is requesting the Commission to authorize SCE's 2014 ERRA proceeding revenue requirement in the amount of $5.844 billion, which represents an increase of $1.174 billion from the ERRA revenue requirement SCE requested be included in 2013 rate levels.

The ERRA proceeding revenue requirement consists primarily of SCE's estimated 2014 fuel and purchased power costs. However, it also includes: (1) one-half of the currently estimated December 31, 2013 collective balances in certain balancing accounts that SCE requests to recover from customers, [1] and (2) other miscellaneous expenses recoverable in ERRA proceedings, such as expenses related to spent nuclear fuel.

The following table compares the rates forecast for the 2013 ERRA to the forecast for the 2014 ERRA.

Customer Group Revenue Impact
2014 ERRA Application compared to 2013 ERRA Application

Customer Group	Revenue Change ($000)	% Change	Proposed 2013 ERRA Rates ¢/kWh	Proposed 2014 ERRA Rates ¢/kWh
Residential	490,466	9.2%	18.38	20.06
Lighting - Small and Medium Power	403,476	8.8%	17.57	19.17
Large Power	207,848	10.0%	12.67	14.05
Agricultural and Pumping	36,536	9.3%	13.70	14.98
Street and Area Lighting	5,051	3.9%	18.14	18.85
Standby	30,806	11.0%	10.97	12.23
TOTAL	1,174,183	9.2%	16.60	18.16

[1] SCE is requesting to recover the other half of this estimated balance from customers in 2015.

The Commission has not acted on SCE's 2013 ERRA, and SCE rates have remained at the levels needed to cover its 2012 forecasts. Compared to 2012 rate levels, SCE's 2014 ERRA represents an increase of $1.963 billion. **If the Commission should approve total rates as requested, an average residential electric customer using 600 kilowatt-hours per month would expect to see an increase of $18.81 per month, from $114.45 to $133.26.** The chart below illustrate SCE's 2014 request compared to actual current rates.

Customer Group Revenue Impact
2014 ERRA Application compared to Current Rates

Customer Group	Revenue Change ($000)	% Change	Current Rates ¢/kWh	Proposed 2014 ERRA Rates ¢/kWh
Residential	828,799	16.6%	17.21	20.06
Lighting - Small and Medium Power	673,183	15.6%	16.50	19.17
Large Power	342,691	17.6%	11.78	14.05
Agricultural and Pumping	60,479	16.3%	12.86	14.98
Street and Area Lighting	7,623	6.0%	17.78	18.85
Standby	50,487	19.3%	10.17	12.23
TOTAL	1,963,263	16.3%	15.55	18.16

FOR FURTHER INFORMATION FROM SCE
As noted above, you may review a copy of this Application and related exhibits at SCE's corporate headquarters (2244 Walnut Grove Avenue, Rosemead, CA 91770). You may also view these materials at the following SCE business offices:

CPUC PROCESS

The CPUC will evaluate and determine the ERRA forecast through its administrative law process where the proceeding is assigned to an Administrative Law Judge (ALJ) who will direct the method in which the record, upon which the Commission bases its decisions, is made. The ALJ **may** hold evidentiary hearings where parties to the proceeding provide testimony and other parties may cross-examine them. These hearings are open to the public, but only formal parties of record may participate. After considering all proposals and evidence presented, the assigned ALJ will issue a proposed decision. The Commissioners may approve the proposed decision as written, modify it, approve another proposal written by a Commissioner or completely deny SCE's request.

The CPUC also would like to hear from you. You may submit informal comments to the CPUC's Public Advisor's Office at:

Write: California Public Utilities Commission
Public Advisor's Office
505 Van Ness Avenue
San Francisco, CA 94102

E-mail: Public.Advisor @cpuc.ca.gov

Telephone: 1-415-703-2074 or 1-866-849-8390

Please state that you are writing concerning SCE's application A.13-08-004. Your comments will become a part of the formal correspondence file for public comment in this proceeding. The Public Advisor's Office will circulate your comments to the five Commissioners, the ALJ, DRA, and to CPUC staff assigned to this proceeding.

You may also contact the CPUC Public Advisor's Office if you need advice on how to participate in this proceeding.

August 2013

September is National Preparedness Month

A natural disaster can strike at any moment and could cause a power outage. At Southern California Edison, an Edison International company, our number one priority is keeping your electricity on 24 hours a day – in a way that keeps you and our crews safe.

As a founding partner of **PrepareSoCal**, Edison International joined the American Red Cross in working together to promote emergency preparedness in Southern California. Edison and the Red Cross emphasize preparedness as key to helping prevent electricity-related injuries in the event of an emergency.

Here are important safety tips to help you and your family stay safe in case of an emergency:

- **Get a kit. Make a plan. Be informed.** The American Red Cross has made it easy by suggesting three simple steps to help you and your loved ones prepare:
  - Build a family disaster preparedness kit.
  - Make a family disaster plan.
  - Stay informed about disasters in your area.

  Remember to include your pets. For more emergency preparedness tips, visit **PrepareSoCal.org**.
- If someone in your home is dependent on electric-powered, life-sustaining medical equipment, have an emergency plan that includes a back-up power source, or make arrangements to relocate.
- The American Red Cross **Ready Rating** program provides information and tools for businesses, organizations and schools to prepare for emergencies. To learn more, visit **ReadyRating.org**.

Sometimes, due to extreme conditions, hazards or high demand, the power may go out temporarily. Here are important safety tips around power lines:

If you see a downed power line, stay away and call 911.

- Do not approach or touch the line or any person or object in contact with it.
- Inform the 911 operator it is an electrical emergency.
- Assume all wires are energized. **Coming into contact with energized wires can cause serious injury or even death.**
- Water conducts electricity, so it's possible to be electrocuted by water that has come in contact with electricity.

To learn more about safety around electricity, visit **www.sce.com/staysafe**.

Don't Miss Out on Discounted Bulbs Purchased Online

For a limited time, Southern California Edison (SCE) is offering discounts ranging from $5 to $15 off select light-emitting diode (LED) and compact fluorescent light (CFL) bulbs. When you purchase online, you'll enjoy immediate savings on LEDs and CFLs, and continued energy savings for years to come.

Visit **www.sce.com/bulbsoffer** for your discount today!

Important information

Rotating outages

A rotating outage is a controlled electric outage that lasts approximately one hour for a group of circuits, which is used during electric system emergency conditions to avoid widespread or uncontrolled blackouts. Each SCE customer is assigned a rotating outage group, shown on the upper part of the SCE bill. If your rotating outage group begins with the letters A, M, R, S, or X, you are subject to rotating outages. If it begins with N or Exempt, you are not. Your rotating outage group may change at any time. For more information, and to see which rotating outage groups are likely to be called in the event of a system emergency, visit www.sce.com or call 1-800-655-4555.

Options for paying your bill

You can pay your bill by

On-line electronically	In Person	
- www.sce.com	- Authorized payment locations	1-800-747-8908
- Electronic Fund Transfer	Phone	
Mail-in	- QuickCheck	1-800-950-2356
- Check	- Credit Card-MasterCard*	1-800-254-4123
- Money order	- Debit Card-Star/NYCE/Pulse*	1-800-254-4123

*The Credit/Debit card payment options are not available for payment of commercial services or security deposits for commercial services.

You may call us for electronic payment options, to make payment arrangements, or for information on agencies to assist you in bill payment. If service has been disconnected, on the day of the service reconnection, be sure all appliances and other electric devices are turned off. For additional home safety tips, visit www.sce.com/safety or you may call SCE Customer Service at 1-800-655-4555.

Past due bills

Your bill was prepared on August 3, 2013. Your bill is due when you receive it and becomes past due 19 days after the date the bill was prepared. You will have 15 days at your new address to pay a bill from a prior address before your service will be terminated. SCE does not terminate residential service for non-payment of bills for other classes of service. Termination of electric service requires a Service Connection charge. If you are a residential customer, and claim an inability to pay and peyment arrangements have not been extended to you by SCE pursuant to SCE's filed tariffs, you may contact the California Public Utilities Commission (CPUC).

Rules and rates

SCE's rules and rates are available in full at www.sce.com or upon request.

Late Payment Charge (LPC)

A late payment charge of 0.8% will be applied to the total unpaid balance on your account if full payment is not received by the due date on this bill (except for CARE and state agency accounts)

Disputed bills

If you think your bill is incorrect, call us and speak with a customer service representative, or if necessary, with a manager. If you feel unsatisfied with the result of such discussion(s), contact the CPUC, Consumer Affairs Branch by mail at: 505 Van Ness, Room 2003, San Francisco, CA 94102; or at: www.cpuc.ca.gov, 1-800-649-7570. TTY: 1-800-229-6846. Include a copy of your bill, why you believe SCE did not follow its rules and rates, and a check or money order made out to the CPUC for the disputed amount. You must pay the disputed amount, or send it to the CPUC, before the past-due date to avoid disconnection. The CPUC accepts payment only for matters relating directly to bill accuracy. While the CPUC is investigating your complaint, you must pay any new SCE bills that become due.

Electronic Fund Transfers (EFT)

When you provide a check as payment, you authorize us either to use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. When we use information from your check to make an electronic fund transfer, funds may be withdrawn from your account as soon as the same day we receive your payment. You will not receive your check back from your financial institution, but the transaction will appear on your financial institution statement. If you do not wish to authorize an electronic fund transfer, please call the 800 number on the front of your bill.

Definitions

- DWR Bond Charge: Bonds issued by the Department of Water Resources (DWR) to cover the cost of buying power for customers during the energy crisis are being repaid through this charge.
- SCE Generation: These charges recover energy procurement and generation costs for that portion of your energy provided by SCE. Beginning April 11, 2010, pursuant to CPUC Decision 10-03-022, Direct Access (DA) is again open to all non-residential customers, subject to annual limits during a four year phase-in period, and absolute limits following the phase-in. All residential customers currently returning to Bundled Service may not elect to return to DA service.

Health and Safety Tips for Temperature-Sensitive Customers

Extreme hot weather may be harmful to people who are in poor health or those who are sensitive to high temperatures. Here are steps you can take to avoid heat-related illness this summer, should you be without air conditioning:

To help you stay cool in hot weather:

- Take a cool shower or bath.
- Wear lightweight, loose, light-colored clothing and a head covering.
- Stay out of direct sunlight and limit outdoor activity to covered or shaded areas.
- Drink plenty of water to stay hydrated.
- Visit a movie theatre, an air-conditioned mall, a library or a community center.
- Visit friends or family whose homes are air-conditioned and are located in areas not affected by severe weather or rotating outages.

What to Do During Rotating Outages?

A rotating outage is a temporary electricity outage, designed to last no more than one hour, to help protect the integrity of the overall electric system. You can prepare for rotating outages by planning ahead. Your rotating outage group number is located at the top of your bill. Customers in rotating outage group N001 (or "Exempt") are normally not subject to rotating outages.

SCE strongly encourages you to be prepared for summer heat waves and potential outages. Power outages, regardless of their cause, can occur at any time. Since we cannot guarantee uninterrupted service to our customers, it is important that your emergency plan includes having sufficient standby battery power or a back-up portable unit available to power any in-home medical equipment you may have. If you have back-up power generation, we recommend you test it each month to ensure it is ready in case of a power interruption.

Advance Notification of a Rotating Outage

When possible, SCE will provide advance notice of a rotating outage via an automated telephone message to residential customers, or to someone in a customer's household who files an application certifying that their health is at risk when they are exposed to extreme temperatures.

Note: If you already participate in SCE's Medical Baseline program, you are automatically enrolled, so you do not need to complete this application form. Medical Baseline program participants receive advance notification, whenever possible, of rotating power outages that may affect them.

To sign up for advance notification, just call **1-800-655-4555** to request an application, complete it, and return it to the address shown on the application.

Upon receipt of your application, SCE will place your name on a calling list to receive advance notice, whenever practical, if a rotating outage is anticipated in your area. This service will be provided to you at no cost.

Call 811 Before You Dig

Southern California Edison wants you to have the information you need to help keep you and your family safe around electricity. We encourage you to share the safety tips below with family and loved ones.

Know what's below. Make the required 811 call to mark your underground utilities before starting any digging job, no matter how small.

- This service is free.
- You should call before any digging job– from small projects, such as planting trees and shrubs, to larger construction projects.
- Digging without calling can disrupt utility service to an entire neighborhood and harm you and those around you.

To learn more about safety around electricity, visit **www.sce.com/safety**.

Know what's below.
Call before you dig.

SCE's Business Energy Advisor Delivers Free, Customized Energy-Saving Tips

Want an online energy report showing customized money-saving ideas you can use now? Get connected with SCE's free, easy-to-use Business Energy Advisor. Just answer a few questions to get a quick, in-depth report with recommendations on how your type of business may save energy. The tool also tracks your progress so you can monitor your savings.

Fast, Easy, Accurate

Business Energy Advisor gives you instant concepts you can try now, tailored to your business type and size. It's designed to help you take action and start saving energy and money today. Business Energy Advisor features:

- Custom Recommendations: Answer questions about your business to get immediate, customized energy-saving options.
- Order of Priority: Your savings projections can be displayed in order of priority, to help you maximize your energy savings.
- End Use Insights: Find details about common commercial uses, and discover how your business uses energy.
- Energy Information: Learn more about saving energy, and how to benefit by taking specific measures.
- Energy Management Solutions: Explore energy-saving programs, like Demand Response and rebate initiatives, to see how they may enhance your energy strategy.
- Solar Sizing: Calculate which solar panels would be optimal for your business needs and efficiency goals.

Whether your business is an office building, retail store, restaurant, hotel, school, warehouse, or other type of building, Business Energy Advisor will provide the information you need to take action, learn about your payback period, and link to available financial incentives.

Get Started Today

Discover Business Energy Advisor and start saving. Visit **www.sce.com/BusinessAdvisor**.

To: John Raymond
Cc: Sam Spinello; Linda Nu'uvali; Judea Gicaraya
Subject: RE: Palm springs Promebade billing for Electricity, Water, Landscape,

I billed them for 50% of the electricity only.

From: John Raymond [mailto:John.Raymond@palmsprings-ca.gov]
Sent: November 08 12 11:45 AM
To: Cindy Lepley
Subject: RE: Palm springs Promebade billing for Electricity, Water, Landscape,

We agreed to keep the agreement in place, at least for now. When you billed them, was it for electricity only or did it include water or landscaping too?

From: Cindy Lepley [mailto:Cindy@SpinelloPropertyManagement.com]

To: John Raymond
Cc: Linda Nu'uvali; Judea Gicaraya; Sam Spinello
Subject: RE: Palm springs Promebade billing for Electricity, Water, Landscape,

John,

No I billed them thru June 30, at which time I believe the parking structure became the city's. As I said, with the parking now being free to the public, I do not know how that interacts with the previous parking agreement.

To: John Raymond
Cc: Sam Spinello; Linda Nu'uvali; Judea Gicaraya
Subject: RE: Palm springs Promebade billing for Electricity, Water, Landscape,

John,
I would not know what arrangement you have made with the Hyatt. It is my understanding the previous electrical billing was due to a parking agreement.

Cindy

PARKING AGREEMENT

THIS AGREEMENT ("Agreement") is made effective as of the date that the last signature is placed on the signature page hereof by and between Palm Springs Promenade, LLC, a California limited liability company ("Promenade"), and PSH Holdings, Inc., a California corporation ("PSH"), with reference to the following:

A. Description of Properties. With reference to **Exhibit "A"** attached hereto, PSH is the owner of the Hotel (as defined below) and Promenade is the owner of the North Plaza and the South Plaza.

B. Description of Building Improvements. Building improvements on the Hotel and North and South Plaza properties are described as follows:

1. Hotel. As of the date hereof, a six story Hyatt Regency Suites hotel ("Hotel") is open and operating on the Hotel property.

2. Buildings in North and South Plaza. Building improvements containing approximately 331,000 square feet of commercial space were originally constructed by predecessors in interest of Promenade. Such improvements include building structures with frontage on Palm Canyon Drive ("Palm Canyon Buildings") and attached and/or detached building structures located westerly thereof ("Westerly Buildings"). Portions of the Palm Canyon Drive Buildings are leased and occupied, however, the Westerly Buildings are generally vacant.

3. Interior Mall Areas and Corridors in North and South Plaza. Interior mall areas and corridors in the North and South Plaza were closed to the public by predecessors in interest of Promenade, and remain closed. A large interior mall corridor originally connected to the interior of the Hotel, however, such corridor was also closed off by predecessors in interest of Promenade, and remains closed.

~~4. Pavilion Theater. Promenade has made arrangements with Palm Springs Pavilion, L.P., a California limited partnership ("Pavilion"), to demolish a substantial portion of one of the Westerly Buildings, and to erect in place thereof temporary tent facilities to be used as a theater ("Theater") for producing and conducting live on stage theater operations and ancillary activities. Demolition work in fact commenced on or about October 21, 2005.~~

C. Description of Parking Structure Improvements. There are three levels of parking structure improvements relevant to the Hotel and North and South Plaza that were originally constructed and currently exist as follows:

1. Lower Level Parking Structures.

(a) Hotel Lower Level Structure. A lower level parking structure ("Hotel Lower Level Structure") containing 179 parking spaces is located at the Hotel. The Hotel Lower Level Structure is connected to the NP Lower Level Structure (defined below), and is further

accessed by two driveway ramps, as follows:

(1) Palm Canyon Ramp. One ramp ("Palm Canyon Ramp") extends from the grade level Hotel reception area facing on Palm Canyon Drive southerly and downward into the NP Lower Level Structure.

(2) Belardo Ramp. A second ramp ("Belardo Ramp") extends from the southwest corner of the Hotel Lower Level Structure westerly and upward to Belardo Drive.

(b) NP Lower Level Structure. A lower level parking structure ("NP Lower Level Structure") containing 243 parking spaces is located at the North Plaza. The NP Lower Level Structure is connected to the Hotel Lower Level Structure and the SP Lower Level Structure (defined below), and is also accessed by a driveway ramp, as follows:

(1) Museum Road Ramp. A ramp ("Museum Road Ramp") extends from the grade level Museum Road Security Gate (defined below) easterly and downward into the NP Lower Level Structure.

(c) SP Lower Level Structure. A lower level parking structure ("SP Lower Level Structure") containing 278 parking spaces is located at the lower level of the South Plaza. The SP Lower Level Structure is connected to the NP Lower Level Structure. The SP Lower Level Structure is accessed by a driveway ramp, as follows:

(1) Tahquitz Ramp. A ramp ("Tahquitz Ramp") extends from the southwest corner of the SP Grade Level Structure (defined below) easterly and downward into the SP Lower Level Structure.

2. Grade Level Parking Structures.

(a) Hotel. There is no grade level parking structure at the Hotel.

(b) NP Grade Level Structure. A grade level parking structure ("NP Grade Level Structure") containing 71 parking spaces is located at the North Plaza. The NP Grade Level Structure is accessed through a security gate on Museum Road ("Museum Road Security Gate").

(c) SP Grade Level Structure. A grade level parking structure ("SP Grade Level Structure") containing 243 parking spaces is located at the South Plaza. The SP Grade Level Structure is accessed through a security gate on Tahquitz Canyon Way ("Tahquitz Security Gate").

3. Second Level Parking Structure.

(a) Hotel. There is no second level parking structure at the Hotel.

(b) NP Second Level Structure. A second level parking structure ("NP Second Level Structure") containing 179 parking spaces is located at the North Plaza, and is

WCE-2

connected by driveway ramps to the NP Grade Level Structure.

(c) South Plaza. There is no second level parking structure at South Plaza.

D. NP Management Area. By this Agreement, PSH desires to assume, for the term hereof, responsibility for management of an area ("PSH Management Area") consisting of the Museum Road Security Gate, the NP Grade Level Structure, the NP Second Level Structure, and a portion of the NP Lower Level Structure ~~as depicted on Exhibit "B" attached hereto~~ (which portion is to be separated from remaining portions of the NP Lower Level Structure by two rolling gates ["Rolling Gates"] that may be opened and closed for emergency and other appropriate purposes.)

JW as WCE attorney in fact

E. PSH Management Area Improvements. In preparation for assumption of management responsibilities as provided herein, PSH has installed, at its cost, certain improvements ("PSH Management Area Improvements") as described on **Exhibit "C"** attached hereto.

NOW, THEREFORE, IT IS AGREED AS FOLLOWS:

1. Operation of PSH Management Area. During the term of this Agreement, the PSH Management Area shall be operated, maintained, managed and used in accordance with the following:

A. Parking Company. Hotel shall engage, at its cost, Parking Companies of America or some other reputable and qualified parking company ("Parking Company") to provide parking attendant personnel each day during the hours of 6:00 AM and 12:00 PM at the Museum Road Security Gate.

B. Access through Museum Road Security Gate. Access through the Museum Road Security Gate and use of the PSH Management Area for parking shall be in accordance with the following:

(1) Hotel People.

(a) Employees. Employees of the Hotel will receive magnetic cards to gain ingress and egress to and from the PSH Management Area, and no fees will be imposed for such parking.

(b) Self Parking Guests. Self parking guests of the Hotel will receive magnetic cards to gain ingress and egress to and from the PSH Management Area, and fees for such parking will be added to their room charges.

(c) Valet Parking Guests. Valet parking guests of the Hotel will have to pay fees for parking, and such fees will be added to their room charges.

(2) Promenade People.

WCE-3

(a) Management Personnel. Promenade will receive 4 magnetic cards for use by its management personnel to gain ingress and egress to and from the PSH Management Area, and no fees will be imposed for such parking. Further, 4 parking spaces will be specifically designated for use by such personnel.

(b) Tenants. Promenade will receive 25 magnetic cards for use by certain of its tenants (that have businesses or offices located near the PSH Management Area) to gain ingress and egress to and from the PSH Management Area, and no fees will be imposed for such parking. Further, 25 parking spaces will be specifically designated for use by such tenants.

(3) Members of the Public. Members of the public will need to take a parking ticket from an automatic dispenser to enter the PSH Management Area, and will be charged the then going rate for parking ("Going Rate") upon exit. (Currently the Going Rate is $4.00 for the first hour and $1.00 per hour after that with a maximum rate of $8.00 per day, but with a rate of $10.00 for overnight parking. Material changes in the going rate shall be subject to reasonable approval by Promenade, not to be unreasonably delayed or withheld.)

~~(4) Theater Patrons. With respect to the Theater, the following will apply:~~

~~(a) Use of PSH Management Area - Fees to Promenade. It is expected that in the vast majority of cases, Theater patrons will enter through the Tahquitz Security Gate and use designated areas in the South or North Plaza for parking, and that they will not enter through the Museum Road Security Gate or use the PSH Management Area for parking. However, with respect to any Theater patrons that do enter through the Museum Road Security Gate and use the PSH Management Area for parking, the following will apply: (i) The Parking Company will implement a special system to identify such patrons and separately account for all parking fees (which shall be at the same rate as for members of the public unless otherwise designated by Promenade) paid by them, and (ii) all such parking fees shall be the property of Promenade and be separately paid to Promenade on a monthly basis. Promenade agrees that if in practice it is determined by Promenade that such use by Theater patrons is de minimus, Promenade will waive requirements further requirements for such special system and separate accounting and payment procedure.~~

~~(b) Occasional Exiting through PSH Management Area. It is also expected that in the vast majority of cases, it will be more than adequate for Theater patrons using the South or North Plaza for parking to exit the same way they came in, i.e., through the Tahquitz Security Gate. However, there may be occasions in which it would be expedient or convenient to have some of such patrons exit through the PSH Management Area, and Promenade reserves the right to require the Parking Company to open the Rolling Gates for such purposes.~~

JW by WCE attorney in fact

C. Maintenance, Security and Insurance of PSH Management Area.

(1) Maintenance. PSH shall, at its cost, be responsible for general maintenance and clean-up of the PSH Management Area, and shall keep same in a reasonably clean, safe and attractive condition.

WCE-4

(2) Security. PSH shall, at its cost, be responsible for general security within the PSH Management Area.

(3) Insurance. PSH shall require, in its contract with the Parking Company, that the Parking Company obtain general liability insurance from a reputable insurance company, and cause PSH (and its agent managing the Hotel) and Promenade to be named as additional insureds thereon. Such policy shall provide coverage of at least $1,000,000 combined single limit and provide that it may not be terminated without at least 30 days prior written notice to all insureds and additional insureds.

(4) Bollard Control of NP Second Level Structure. With respect to the NP Second Level Structure, except during periods when use thereof is necessary or expedient, PSH may place bollard type post structures in driveways extending upward to such NP Second Level Structure and thereby block off vehicular traffic.

2. Operation of Parking Structures other than within PSH Management Area.

A. Use of Same Parking Company. Promenade will give reasonable consideration (but shall not be required) to use of the same Parking Company being used by PSH, on the premise that centralized and uniform methods and operations may be beneficial for overall systems and facilities.

B. Method of Collecting Parking Fees. Promenade will give reasonable consideration (but shall not be required) to modifying its current system of collecting fees at the Tahquitz Security Gate (which involves collections upon entry) to match that of the Parking Company (which involves collections upon exit).

3. Term. The term of this Agreement shall commence on the effective date as set forth above and continue for until June 30, ~~2009~~ 2008, AT WHICH TIME IT WILL TERMINATE (*) ~~Provided however, Promenade may terminate upon thirty (30) days notice upon the inception of Promenade's re-construction of the Parking Structure.~~ JW by WCE attorney in fact

4. Option to Purchase PSH Management Area Improvements. Promenade shall have the option, running for a period which commences 120 days prior to expiration of the term of this Agreement and continues until 30 days prior to expiration of the term of this Agreement, to purchase all removable property included within the PSH Management Area Improvements referenced above, for a price equal to the depreciated book value of such improvements based on a 5 year straight line method of depreciation. (Permanently affixed non-removable property shall remain at North Plaza and become the property of Promenade.) Promenade may exercise such option by providing written notice thereof to PSH during the specified option period. In the event Promenade does not exercise such option, PSH shall, at its sole cost, remove all such removable property and repair and restore any damage caused by such removal.

5. General Provisions. The parties hereby agree to the following general provisions:

JW by WCE attorney in fact (*) AND BE OF NO FURTHER FORCE OR EFFECT SUBJECT TO THE FOLLOWING: THE AGREEMENT MAY BE EXTENDED ON A MONTH TO MONTH BASIS SUBJECT TO TERMINATION UPON 30 DAYS WRITTEN NOTICE OF TERMINATION BY EITHER PARTY. WCE

A. Notices. Unless otherwise specifically provided herein, all notices, demands or other communications given hereunder shall be in writing and shall be (I) delivered personally, in which case notice shall be deemed to have been given upon delivery, (ii) delivered by United States registered or certified mail, return receipt requested and postage prepaid, in which case notice shall be deemed to have been given as of the third business day after mailing, (iii) delivered by a reputable and nationally recognized overnight courier, in which case notice shall be deemed to have been given upon delivery, or (iv) transmitted telephonically via facsimile, in which case notice shall be deemed to have been given upon receipt by the sender of certification of transmission, addressed as follows:

If to Promenade to:

John Wessman, Managing Member
Wessman Development
300 South Palm Canyon Drive
Palm Spring, California 92262
Telephone: 760/ 325-3050
Facsimile: 760/ 325-5848

If to PSH to:

PSH Holdings, Inc.
201 Merchant St., Suite 1650
Honolulu, HI 96813
Telephone: 808 537-6146
Facsimile: 808 523-1488

B. Entire Agreement. This Agreement contain the entire agreement between the parties relating to the matters contained herein, and, with respect to such matters, all prior or contemporaneous agreements, understandings, representations and statements, oral or written, are merged herein.

C. Attorney's Fees. In the event of any litigation arising out of or relating to this Agreement or the breach or performance of it, the prevailing party shall be entitled to recover reasonable attorneys fees incurred in connection therewith.

D. Binding on Successors. Subject to restrictions on assignments as provided herein, all terms of this Agreement shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective legal representatives, heirs, successors and permitted assigns.

E. Effect of Unenforceable Terms. In the event any term, covenant, condition, provision, or agreement herein contained is held invalid, void or otherwise unenforceable by any

WCE-6

court of competent jurisdiction, such decision shall not effect the remaining terms.

F. Governing Law. This Agreement, and the rights and obligations of the parties hereunder, shall be construed and enforced in accordance with the laws of the State of California.

G. Assignment. The rights and obligations of the parties to this Agreement may not be assigned or delegated, in whole or in part, without the prior written consent of all parties, which consent may not be unreasonably withheld. Notwithstanding the foregoing, no consent shall be required in connection with the sale of the Hotel.

H. Further Assurances. Each party agrees to and shall take and perform in good faith any and all further steps and actions, and execute and acknowledge any and all further documents, as may be reasonably necessary and/or expedient in order to effectuate the intents and purposes of this Agreement.

I. Legal Representation. Each party to this Agreement has had its own separate legal representation and counsel.

J. Reasonable Approvals. Whenever this Agreement calls for the approval or consent of either party, such approval or consent shall not be unreasonably withheld or delayed.

K. Time of Essence. Time is of the essence of this Agreement and each and every term and provision hereof.

L. Counterparts. This Agreement may be signed in counterparts and, when fully signed, such counterparts shall have the same effect as if signed in one document.

M. Exhibits and Recitals. All exhibits and recitals referenced herein are incorporated into this Agreement and made a part hereof as though set forth in full.

WEE-1

IN WITNESS WHEREOF, the parties have executed this Agreement and made it effective as of the day and year first above written.

AMENDMENT AND RESTATEMENT OF AMENDED AND RESTATED RECIPROCAL EASEMENT AND OPERATING AGREEMENT

THIS AMENDMENT AND RESTATEMENT OF AMENDED AND RESTATED RECIPROCAL EASEMENT AND OPERATING AGREEMENT ("Amendment and Restatement") is made effective as of the date that the last signature is placed on the signature page hereof by and between Palm Springs Promenade, LLC, a California limited liability company ("Promenade"), and PSH Holdings, Inc., a California corporation ("PSH"), with reference to the following:

A. On November 13, 1989, a document entitled Amended and Restated Reciprocal Easement and Operating Agreement ("Amended and Restated REOA") was recorded as Instrument No. 396373, Official Records of Riverside County, California. (For purposes of general clarification and understanding only, the Amended and Restated REOA is incorporated herein by reference as though set forth in full.)

B. The Amended and Restated REOA covered the real properties depicted on **Exhibit "A"** and legally described on **Exhibit "B"** attached hereto (hereinafter sometimes referred to in toto as the "Overall Property" and in separate parcels as the "Hotel", the "North Plaza" and the "South Plaza").

C. The Amended and Restated REOA provided that it was binding upon the parties thereto, their heirs, successors and assigns. The parties to this Amendment and Restatement constitute all of the heirs, successors and assigns of the parties to the Amended and Restated REOA, and, accordingly, have full right, power and authority to completely amend and restate said Amended and Restated REOA. In particular, Promenade is the owner of the North Plaza and the South Plaza, and PSH is the owner of the Hotel.

NOW, THEREFORE, IT IS AGREED AS FOLLOWS:

1. Complete Termination of Amended and Restated REOA. As of the effective date set forth above, the Amended and Restated REOA and all covenants, conditions, restrictions and easements contained and/or granted therein are completely and fully terminated and shall be of no further force or effect whatsoever or at all.

2. Replacement by this Amendment and Restatement. As of the effective date set forth above, the parties and the Overall Property shall be bound only by this Amendment and Restatement and the covenants, conditions, restrictions and easements contained and/or granted herein.

3. Grant of Access Easements. Easements are hereby established with reference to and in accordance with the following:

A. Hotel Building. The Hotel building currently consists, among other improvements, of a six story Hyatt Regency Suites hotel.

B. Hotel Lower Level Parking Structure. A lower level parking structure ("Hotel Lower Level Parking Structure") is located below portions of the Hotel.

C. North Plaza Buildings. The North Plaza parcel includes commercial shopping buildings and improvements (substantial portions of which are closed and being considered for renovation and/or demolition). A large interior corridor within the North Plaza originally connected to the interior of the Hotel, however, such corridor was closed off by predecessors in interest of Promenade, and remains closed at this time.

D. North Plaza Lower Level Parking Structure. A lower level parking structure ("North Plaza Lower Level Parking Structure") is located below portions of the North Plaza Buildings.

E. Connection between Parking Structures. The Hotel Lower Level Parking Structure is connected and adjacent to easterly portions of the North Plaza Lower Level Parking Structure. For clarity, in the event the North Plaza area is redeveloped, Promenade agrees, at their own cost and expense, to finish out the connection providing access between the properties.

F. Palm Canyon Ramp and Palm Canyon Access Route. Currently, in order to gain physical ingress from the Hotel reception area to the Hotel Lower Level Parking Structure, a ramp ("Palm Canyon Ramp") has been constructed and is used for vehicular and pedestrian purposes. The Palm Canyon Ramp extends southerly and downward into northeasterly portions of the North Plaza Lower Level Parking Structure, and, after entering into such northeasterly portions of the North Plaza Lower Level Parking Structure and promptly completing a 180 degree turn, vehicles and pedestrians are able to enter the Hotel Lower Level Parking Structure and use same for Hotel parking purposes. The Palm Canyon Ramp and the foregoing access route are hereinafter collectively referred to as the "Palm Canyon Access Route"). The Palm Canyon Access Route lies party on Hotel parcel and party on North Plaza parcel.

G. Belardo Ramp. Currently, in order to gain physical egress from the Hotel Lower Level Parking Structure, a ramp ("Belardo Ramp") has been constructed and is used for vehicular and pedestrian purposes. The Belardo Ramp extends westerly and upward from the Hotel Lower Level Parking Structure onto Belardo Drive, a public street.

H. Grant of Easement to PSH. In order to ensure continued ingress (and egress as desired) from the Hotel reception area to the Hotel Lower Level Parking Structure, Promenade, on behalf of its heirs, successors and assigns, hereby grants to PSH, its heirs, successors and assigns, an easement in perpetuity over and across the northeasterly portion of the North Plaza Lower Level Parking Structure and portions of the Palm Canyon Ramp and the Palm Canyon Access Route lying on the Hotel parcel, all as depicted on **Exhibit "C"** attached hereto and incorporated herein. (Said easement shall be deemed to be a "floating easement" in the sense that Promenade may move and adjust its exact location in accordance with redevelopment work as described below.) Said easement shall (i) be for purposes of providing pedestrian and vehicular traffic for PSH, its agents, employees, guests and invitees, over the Palm Canyon Access Route to and from the Hotel reception area to and from the Hotel Lower Level Parking Area, and (ii) be appurtenant to and run to the benefit of the Hotel parcel and be binding upon and burden the North Plaza parcel.

I. Grant of Easements to Promenade.

(1) Palm Canyon Ramp and Access Route. In order to ensure continued ingress and egress rights to Promenade, PSH, on behalf of its heirs, successors and assigns, hereby grants to Promenade, its heirs, successors and assigns, an easement in perpetuity over and across portions of the Palm Canyon Ramp (as shown on Exhibit "C") and the Palm Canyon Access Route lying on the Hotel parcel. Said easement shall (i) be for purposes of providing pedestrian and vehicular traffic to and from the North Plaza Lower Level Parking Structure, and (ii) be appurtenant to and run to the benefit of the North Plaza parcel and be binding upon and burden the Hotel parcel.

(2) Belardo Ramp. In order to ensure continued ingress and egress rights to Promenade, PSH, on behalf of its heirs, successors and assigns, hereby grants to Promenade, its heirs, successors and assigns, an easement in perpetuity over and across the Belardo Ramp together with an easement over and across driveway areas within the Hotel Lower Level Parking Structure. Said easements shall (i) be for purposes of providing pedestrian and vehicular traffic to and from the North Plaza Lower Level Parking Structure, and (ii) be appurtenant to and run to the benefit of the North Plaza parcel and be binding upon and burden the Hotel parcel.

(3) Redevelopment Work. With respect to the Palm Canyon Ramp and Palm Canyon Access Route, Promenade shall have the right and easement, in connection with redevelopment the North Plaza Buildings and North Plaza Lower Level Parking Structure (and adjacent improvements and facilities), to completely shut down the Palm Canyon Ramp and Palm Canyon Access Route to redevelop same. The period of such shut down and redevelopment shall not exceed 18 consecutive months from start to finish, and all redevelopment expenses incurred in connection therewith shall be borne by Promenade. The design of such redevelopment work shall be set up so as to provide substantially equivalent access to each party's facilities after completion. Such redevelopment easement shall include the right to go on and redevelop areas and improvements owned by PSH and located within reasonable proximity to the Palm Canyon Ramp, however, Promenade shall, at its expense, expeditiously repair any damage to such areas and improvements. Promenade covenants and agrees to indemnify, defend and hold PSH, it's officers, directors,

employees, agents and invitees, harmless against all claims, demands, liability, loss, damage, costs or expenses, including reasonable attorneys' fees, which results in personal injury, death or property damage, or results from claims of liens from laborers, materialmen, or from others, for work performed or supplies furnished, or which arise in connection with any action or proceeding, arising from or as a result of construction performed by or at the direction of Promenade, its contractors or agents, including any work authorized hereunder to be performed.

The exercise of rights granted in this Section (I) shall be subject, however, to the following conditions:

(a) Promenade, during the course of its construction, at its own cost and expense, shall take all steps reasonably necessary to protect the Hotel Building and the Hotel Lower Level Parking Structure or any other structures and shall perform every other act or thing which may be reasonably necessary for the preservation and safety thereof in connection with any work done by it;

(b) if at any time Promenade is performing any work which (i) could reasonably be deemed to constitute a hazardous condition, or (ii) substantially detracts from the appearance of the Project, Promenade shall erect and maintain through the course of such work an adequate barricade or other protective device providing protection to and screening from the public.

(c) Promenade, during the course of its construction, shall not unreasonably interfere with PSH's operation of its business or the business of the other occupants of the Hotel Building.

J. Indenmnity. Each party to this Amendment and Restatement will indemnify and save the other party to this Amendment and Restatement harmless from and defend them against any and all claims, demands, actions, damages, liabilities and expenses by or to third persons in connection with loss of life, personal injury or damage to property, or any of them, occasioned wholly or in part by any act or omission of such party, its tenants, subtenants, agents, contractors or employees in connection with their use of the easement granted to such party easement hereunder, except to the extent the party seeking to be indemnified and held harmless by the indemnifying party or its tenants, subtenants, agents, contractors or employees are found to be responsible for all or part of the injury, loss or damage.

4. Monthly Payments to Cease. Based on other agreements by the parties or their predecessors in interest, PSH has been paying to Promenade the sum of $73,462.56 per calendar year (payable in 12 equal installments of $6,121.88 each on the first day of each calendar month), subject to cost of living increases as of January 1 of each year. For valuable consideration, receipt of which is acknowledged, the parties hereto agree that the obligation of PSH to make such payments will permanently terminate effective June 30, 2007. Thereafter, the parties shall each be responsible for any expenses related to their own properties and the parties shall attempt to separately meter the properties as soon as is reasonable practicable.

5. General Provisions. The parties hereby agree to the following general provisions:

A. Notices. Unless otherwise specifically provided herein, all notices, demands or other communications given hereunder shall be in writing and shall be (I) delivered personally, in which case notice shall be deemed to have been given upon delivery, (ii) delivered by United States registered or certified mail, return receipt requested and postage prepaid, in which case notice shall be deemed to have been given as of the third business day after mailing, (iii) delivered by a reputable and nationally recognized overnight courier, in which case notice shall be deemed to have been given upon delivery, or (iv) transmitted telephonically via facsimile, in which case notice shall be deemed to have been given upon receipt by the sender of certification of transmission, addressed as follows:

Dania J. Duke, General Manager
Hyatt Regency Suites
285 North Palm Canyon Drive
Palm Springs, California 92262
Telephone: 760/ 322-9000
Facsimile: 760/ 969-6005

B. Entire Agreement. This Amendment and Restatement contain the entire agreement between the parties relating to the matters contained herein. All prior or contemporaneous agreements, understandings, representations and statements, oral or written, are merged herein. This Amendment and Restatement may not be amended without the written consent of all parties. The foregoing notwithstanding, this Amendment and Restatement shall not serve to in any way modify any existing rights or obligations of the parties with respect to any lease arrangements in effect as of the date of this Amendment and Restatement.

C. Attorney's Fees. In the event of any litigation arising out of or relating to this Amendment and Restatement or the breach or performance of it, the prevailing party shall be entitled to recover reasonable attorneys fees incurred in connection therewith.

D. Binding on Successors. All terms of this Amendment and Restatement shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective legal representatives, heirs, successors and assigns.

E. Effect of Unenforceable Terms. In the event any term, covenant, condition, provision, or agreement herein contained is held invalid, void or otherwise unenforceable by any court of competent jurisdiction, such decision shall not effect the remaining terms.

F. Governing Law. This Amendment and Restatement, and the rights and obligations of the parties hereunder, shall be construed and enforced in accordance with the laws of the State of California.

G. Assignment and Delegation. The rights and obligations of the parties to this Amendment and Restatement shall be automatically assumed by and delegated to any buyer/transferee upon any sale/transfer by PSH of the Hotel parcel or any sale/transfer by Promenade of the North Plaza parcel.

H. Further Assurances. Each party agrees to and shall take and perform in good faith any and all further steps and actions, and execute and acknowledge any and all further documents, as may be reasonably necessary and/or expedient in order to effectuate the intents and purposes of this Amendment and Restatement.

I. Legal Representation. Each party to this Amendment and Restatement has had its own separate legal representation and counsel.

J. Reasonable Approvals. Whenever this Amendment and Restatement calls for the approval or consent of either party, such approval or consent shall not be unreasonably withheld or delayed.

K. Time of Essence. Time is of the essence of this Amendment and Restatement and each and every term and provision hereof.

L. Counterparts. This Amendment and Restatement may be signed in counterparts and, when fully signed, such counterparts shall have the same effect as if signed in one document.

M. Exhibits and Recitals. All exhibits and recitals referenced herein are incorporated into this Amendment and Restatement and made a part hereof as though set forth in full.

IN WITNESS WHEREOF, the parties have executed this Amendment and Restatement and made it effective as of the day and year first above written.

PURCHASE ORDER TERMS AND CONDITIONS

1. Please Submit invoices in duplicate
2. Please submit separate invoices for each other
3. Show PO# on each carton label.
4. Notify at Once if Order cannot be filled
5. The city is not exempt from California sales tax.
6. The city is exempt from Federal excise tax.

1. Acceptance: City reserves the right to refuse any goods and to cancel all or any part of the goods not conforming to applicable specifications drawings, samples or descriptions Acceptance of any part of the order shall not bind City to accept future shipments, nor deprive it of the right to return goods already accepted.

2. Late Deliveries: If delivery of the commodity or service cannot be made as speicified or sooner and at the price shown, notify the City Purchasing Manager immediately. And correspondence, other than invoices, relating to this Order must be sent to the Purchasing Manager. The City reserves the right to cancel order if delivery is not made by the time specified.

3. Risk of Loss: Delivery shall not be deemed to be complete until the goods have been actually received and accepted by the City.

4. Defects: By accepting this order Seller acknowledges that the goods covered by this order are satisfactory for the purposes intended by City.

5. Prices: Unless otherwise provided, goods shall be furnished at the prices indicated on this order only. Invoices will be horored for purchase order prices only. Price on the order include delivery to the Department within building unless otherwise specified on the order.

6. Patent Infringement: Seller agrees to indemnify City and hold it harmless from and against all liability, loss, damage, and expense, including reasonable counsel fees resulting from any actual or claimed trademark patent or copyright infringement, or any litigation based thereon with respect to any part of the goods covered by the order, and such obligation shall survive acceptance of the goods and payment therefore by the City.

7. Packing: All goods, wrappers and containers must bear markings and labels required by applicable federal, state, and municipal laws and regulations for the protection and safety of persons and property and Seller warrants that prices include all charges to packing, crating, and transportation to f.o.b. point.

8. Nonassignment: This order must not be assigned or transferred to anyone without the written approval of the Purchasing Manager.

9. Labor Disputes: Whenever any actual or potential labor dispute delays or threatens to delay the timely performance of the order, Seller shall immediately give notice thereof to City.

10. HAZARDOUS MATERIAL: SELLER SHALL PROVIDE MATERIAL SAFTTY DATA SHEETS FOR EACH PRODUCT CONTAINING HAZARDOUS SUBSTANCES AS LISTED BY CALIF. DIR. IND. REL. IN CALIF. ADM. CODE, TITLE 8, SEC 5194 AND LABOR COSTS. Seller agrees to furish Material Safety Data Sheet (Form OSHA-20) as applicable for hazardous or potentially hazardous products.

11. Discounts: Discount period will be computed from date of receipt of invoice, or goods or services whichever is the later date.

12. Hold harmless: seller agrees to indemnify, defend and save City and its agents and employees harmless from any and all liability, claims, damages or injuries to any person, including injury to Sellers employees and all claims which arise from or are connected with the negligent performance of or failure to perform the work or other obligations of this agreement, or are caused or claim to be caused by the negligent acts of Seller, its agents or employees, and all expenses of investigating and defending against same; provided, however, that this indemnification and hold harmless shall not include any claim arising from the sole negligence or willful misconduct of the City, its agents or employees.

13. In the event of any conflict between the provisions of this Purchase Order Terms and Conditions and the terms of any proposal or related documents submitted by a vendor or a consultant, including without limitation a scope of work or alternate contract terms and conditions, the provisions of this Purchase Order Terms and Conditions shall control.

Re: Reimbursement Agreement
Request #2
Museum Market Plaza
Palm Springs, CA

Dear John:

Please find enclosed Request #2 for reimbursement for paid expenses as per the Reimbursement Agreement. I did this in a very simple format which I hope is acceptable to you.

Should you have any questions or need anything further, do not hesitate to contact me.

Sincerely,

Martha Higgins

Mark

We can not locate the previously issued check, so we will issue a new one today for $12k and overnight it. If you get the previous issued check, notify us and we simply let it run against the next billing cycle from you.

Thank you

REIMBURSEMENT AGREEMENT

This REIMBURSEMENT AGREEMENT ("Agreement") is entered into as of this 31 day of March, 2011, by and between the CITY OF PALM SPRINGS, a California public entity ("City"), and JOHN WESSMAN, an individual, and WESSMAN HOLDINGS, LLC, a California limited liability company (collectively the "Owner").

RECITALS

A. Owner is the owner of the Desert Fashion Plaza and the Town and Country Center ("Properties"), two developed properties that make up the planning area of the adopted Museum Market Plaza Specific Plan. On or about March 2, 2010, Owner presented a plan for the redevelopment of the Properties ("Project") to the City Council of the City of Palm Springs as a part of the City Community Visioning Process for the implementation of the Specific Plan. A description of the Project ("Project Description") is attached hereto as Exhibit "A" and incorporated herein by reference.

B. The City agreed to enter into a reimbursement agreement with Owner for a portion of all costs reasonably incurred by Owner in pursuit of the Project ("Pursuit Costs").

C. City and Owner desire to enter into this Agreement to provide for City to reimburse Owner for a portion of Owner's predevelopment costs, including without limitation architectural, planning, and engineering costs ("Pursuit Costs").

AGREEMENT

Based upon the foregoing Recitals and for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by both parties, City and Owner hereby agree as follows:

1. Pursuit Period. The City and Owner acknowledge that time is of the essence and agree, for the Pursuit Period (as hereinafter defined), to work diligently and in good faith to pursue the Project, and cause preparation of preliminary design plans, drawings, and schematics in sufficient detail to allow the City of Palm Springs to process and review a Development Agreement, and related financial agreements for the implementation of the Project. The duration of this Agreement ("Pursuit Period") shall be from March 2, 2011, until November 2, 2011, unless the period has been mutually extended by the City and the Owner or terminated earlier pursuant to Section 7 of this Agreement. (Note: Fees and charges by Alan Sanborn for work performed prior to March 2, 2011, in connection with preparing and revising Project Description, shall be reimbursable Pursuit Costs.)

2. Owner's Responsibility for Design. Owner shall be solely responsible for design of the Project, consisting of the preparation of preliminary plans, drawings, and schematics as described in Section 1. Owner shall submit all design documents to the Agency, conforming to all applicable legal authority and standards, in accord with established City policies and procedures and compliance with all applicable authority, and City shall receive and expeditiously review and process same. The adequacy of "work product" with respect to design

documents shall be subject to the City's reasonable satisfaction. All parties acknowledge that the City shall have, with respect to any formal applications submitted by Owner, normal discretionary approval rights as provided under State law and City Ordinances.

3. City Reimbursement. City shall promptly, within 30 days after receipt from Owner of bills and reasonable supporting information, reimburse Owner for 50% of Owner's Pursuit Costs, as from time to time incurred; provided, however, the total reimbursement obligation of City shall not exceed Two Hundred Thousand Dollars ($200,000.00).

4. Compliance With Laws. All work performed under the terms of this Agreement shall be in strict conformity with all laws, ordinances, rules, regulations applicable to the Project and shall require the design professionals retained to prepare the design documents to comply with all such requirements.

5. Insurance.

5.1 Owner's and Contractor's Insurance.

5.1.1 At all relevant times during this Agreement and until the City has accepted the work, the Owner shall, if requested by City, require each design professional to maintain at least $1,000,000 in errors and omissions (professional liability) insurance applicable to his/its design work, and to defend, indemnify and hold harmless the City and its respective officers, employees, and agents, from any and all claims due to the design professional's negligent acts or omissions or intentional wrongful conduct in its performance of design work. Such insurance shall be in form and substance as reasonably acceptable to City.

5.1.2 Design professionals shall also provide the following insurance for its work on the Project:

(a) Workers' compensation insurance in at least the minimum amounts required under California Law.

(b) Comprehensive general liability insurance, for injuries to persons and property, and automobile liability insurance, each with limits not less than $1,000,000 combined single limit, per occurrence and $2,000,000 in the aggregate.

5.1.3 Each insurance policy required to be maintained pursuant to this Section 5.1 shall be issued by a company admitted in California and having an A.M. Best's Guide Rating of "A-", Class VII or better. The Owner shall, if requested by City, require its design professionals to obtain and provide to City an endorsement for each of the policies providing the above insurance (except for worker's compensation insurance and errors and omissions insurance) naming the City and its respective officers, employees and agents as additional insureds. Each policy shall be endorsed to require 30 days advance notice to the City of cancellation or material modification of the policy. Each worker's compensation policy shall be endorsed to waive any right of subrogation against the City.

Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees, expert fees, costs of investigation, and costs of suit from the losing party.

8.4 Interpretation; Governing Law. This Agreement shall be construed according to its fair meaning and as if prepared by both of the parties hereto. This Agreement shall be construed in accordance with the internal laws of the State of California without regard to conflict of law principles.

8.5 Severability. If any term, provision, covenant, or condition of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of this Agreement shall not be affected thereby to the extent such remaining provisions are not rendered impractical to perform taking into consideration the purposes of this Agreement.

8.6 Non-Liability of Officials and Employees of the City. No official or employee of City or the City shall be personally liable to Owner in the event of any default or breach by City, or for any amount that will become due to Owner, or any obligation under the terms of this Agreement.

8.7 No Third-Party Beneficiaries. This Agreement is made only for the benefit of the parties hereto; it is not intended that any rights under this Agreement shall accrue to any third person.

8.8 Independent Contractor. It is expressly understood and agreed by the Parties that the Owner, while engaged in carrying out the terms and conditions of this Agreement, is an independent contractors and not an employee of the City.

8.9 Authority to Execute. The persons executing this Agreement warrant and represent that they have the authority to execute this Agreement and represent that they have the authority to bind the parties for which they are signing to the performance of the obligations hereunder.

8.10 Execution in Counterpart. This Agreement may be executed in several counterparts, and all so executed shall constitute one agreement binding on both parties hereto, notwithstanding that both parties are not signatories to the original or the same counterpart.

8.11 Cooperation. Subject to the City's discretionary approval rights as set forth in Section 2 above, each party agrees to do and perform such other and further acts, and execute and deliver such other and further acts as may be reasonably necessary to effectuate the intents and purposes of this Agreement.

(signatures on next page)

IN WITNESS WHEREOF, City and Owner have entered into this Agreement as of the date set forth above.

PROJECT DESCRIPTION
FOR MUSEUM MARKET PLAZA
REIMBURSEMENT AGREEMENT

I. BACKGROUND.

A. Specific Plan. On December 2, 2009, the City Council ("Council") of the City of Palm Springs ("City") adopted Ordinance 1764, which approved the Museum Market Plaza Specific Plan ("Specific Plan"). The Specific Plan covered two existing downtown commercial complexes, i.e., the area commonly known as Desert Fashion Plaza ("DFP Area"), and the area (shown on the Specific Plan as Blocks K-1 and K-2) commonly known as Town & Country Center ("TCC Area"). In granting such approval, the Council found that the Specific Plan was consistent with applicable provisions of the State Government Code, and the General Plan of the City. Among other things, the Specific Plan established criteria, standards, restrictions, requirements and limitations (collectively "criteria") for major redevelopment, in phases until build out ("Build Out"), of both the DFP Area and the TCC Area. Such criteria included without limitation, criteria for land use (allowed and prohibited uses), development standards (minimum setbacks and maximum heights), land regulations (allowable square footage and building mass), and design guidelines (architectural themes and concepts). The Specific Plan also included a a substantially more moderate and less ambitious plan ("Renovation Plan"), which contemplated that existing buildings within the DFP Area would largely remain intact but be upgraded with exterior architectural improvements. In Section V.C of the Specific Plan, the Renovation Plan, which was approved as an optional "phase one" of the Specific Plan.

B. EIR Certification. Concurrently with approval of the Specific Plan, the Council approved and adopted Resolution 22625, which certified an Environmental Impact Report for the Specific Plan. Such Resolution included, without limitation, the making of amendments to the General Plan and Zoning Ordinance of the City, the making of certain findings relative to environmental effects identified in the EIR, the adoption of a Statement of Overriding Consideratons, and the adoption of a Mitigation Monitoring Plan and Reporting Plan. The Resolution also included the incorporation of the Renovation Plan as an option, i.e., a phase one for remodeling the DFP Area.

II. CURRENT PROPOSAL

A. Project Description for Revitalization Plan. The Revitalization Plan is intended to expand upon the prior Renovation Plan, and continue to remain in substantial conformance with the Specific Plan. In essence, the Revitalization Plan will constitute part of the redevelopment "phasing" process recognized and approved in the Specific Plan. Relevant aspects of the Revitalization Plan are considered below.

1. **New Site Plan**. The new site plan for the Revitalization Plan ("New Site Plan") is attached hereto as *Exhibit "A"* and, as can be seen, it contains some

modifications from the prior site plan for the Renovation Plan ("Prior Site Plan"). With respect to the New Site Plan (and the Revitalization Plan) the comments below are relevant.

2. **Internal Street Improvements**. The New Site Plan shows the main internal street running the full distance from Indian Canyon Drive to Museum Drive(?). In this respect, it is consistent with ultimate Specific Plan redevelopment concepts, and provides an important part of the solution to making the DFP Area commercially successful, i.e., direct east-west access from Indian Canyon Drive into the DFP Area. The New Site Plan also shows an extension from the roundabout at the "center" of the DFP Area southerly to become part of an extension of Belardo Road into the DFP Area. (Note: [1] Construction of the Belardo Bridge over Tahquitz Creek will provide a large new segment of residential areas with direct northerly access to the DFP Area. [2] Under the New Site Plan, internal streets will be public, i.e., owned by the City rather than the Developer.)

3. **New Building Improvements**. The Prior Site Plan contemplated that existing buildings within the DFP Area would largely remain in place but be upgraded with exterior architectural improvements. The New Site Plan contemplates the demolition, reconfiguration and replacement of some buildings, particularly in the southeast corner of the DFP Area. In that location, existing buildings will be demolished, a new open space area will be located at the northwest corner of Tahquitz Canyon Way and North Palm Canyon Drive, and a landscaped pedestrian walkway will extend from the corner open space area into the center of the DFP Area, connecting to the "roundabout" described in Section 2. above. New retail building improvements are planned for location in the area shown as Block 2 on the New Site Plan. A new movie theater complex is planned for location directly north of the roundabout in the center of the DFP Area. (The Prior Site Plan showed the theater as being located immediately southwest of the center of the DFP Area – at the site of the former Pavilion Theatre tent.)

4. **Retention and Use of Existing Building Improvements**. The New Site Plan contemplates the retention, upgrade and use of some existing building improvements, as follows: (1) the former Saks Fifth Avenue building located on Palm Canyon Drive may be retained and used for major retail purposes, (2) the former I. Magnin building located directly northwest of the center roundabout in the DFP Area may be retained and used as an entertainment venue, such as for fitness/spa uses and/or recreational bowling purposes, (3) existing building improvements shown as Block 1 on the New Site Plan (located on Palm Canyon Drive), may be retained and used for retail purposes, and (4) existing building improvements located immediately adjacent to the Hyatt Hotel may be retained and used for hotel ballroom and conference center purposes. Depending on the condition of these properties, the needs of potential tenants, and economic feasibility, any of these buildings could be replaced with new structures. (Note: The foregoing identification of potential uses is not intended to preclude other uses authorized by the Specific Plan.)

5. **Retention of Block 6 for Future Development**. The New Site Plan calls for the area shown thereon as Block 6 to be retained by the Developer and be held for future development for a variety of potential uses including, without limitation, boutique gourmet grocery, bar/restaurant, entertainment, multi-story housing and/or office uses.

6. **City Purchase of Improvements for Public Parking**. The Revitalization Plan calls for certain parking improvements within the DFP Area to be purchased by the City from the Developer, and be used by the City in perpetuity as and for free public parking. These may include all or part of the above-ground parking structure at the northwest corner of the property, the parking deck and associated underground parking at the southwest corner of the property, the parking underneath developed portions of the DFP property, and all associated ramps, driveways and approaches currently owned by the Developer.

7. **City Purchase of Land for Public Streets**. The Revitalization Plan calls for the City to purchase from the Developer the ground upon which the interior streets shown on the New Site Plan will be built. This purchase could be the ground only or the purchase from the Developer the full street in a finished condition.

8. **City Purchase of Land (Parcels A and B) for Future Use**. The Revitalization Plan calls for two parcels within the DFP Area, i.e., the two parcels directly east of the Palm Springs Art Museum (the "Art Museum") which are currently used for open space and sculpture garden purposes ("Parcels A and B"), to be purchased by the City from the Developer and be held for future development opportunities including, without limitation, possible expansion of Art Museum facilities.

B. **City Administration and Processing of Revitalization Plan**. With respect to City Administration and processing, a number of matters need to be considered, as follows:

1. **Development Agreement**. Under certain provisions of the State Government Code, local governments are authorized to enter into binding contracts with developers known as development agreements. Among other things, a development agreement, once consummated, gives the developer a vested right to proceed to develop his property in the manner specified in the development agreement and/or entitlements adopted concurrently therewith or prior thereto. In this case, the Developer has filed an application for approval of a Development Agreement. Once approved and executed, the Development Agreement will, among other things, grant the Developer the vested right to develop the DFP Area in accordance with the Revitalization Plan, and the TCC Area in accordance with the Revitalization Plan (construction of the public street from Indian Canyon Drive to Palm Canyon Drive) and other entitlements authorized by the Specific Plan (hotel and retail use), but subject to all criteria (restrictions, standards, requirements and limitations) contained in the Specific Plan.

2. **Major Architectural Review**. Section V.A of the Specific Plan provides that implementation tools will be major architectural reviews, conditional use permits, subdivision maps and, in certain circumstances, planned development permits. For purposes of the subject Revitalization Plan, the Planning Commission and City Council will consider and act on the Development Agreement application, in conjunction prior to major architectural review of proposed revitalization improvements.

3. **Substantial Conformance of Revitalization Plan**. For reasons indicated herein, the Revitalization Plan and New Site Plan are consistent and in substantial conformance with the Specific Plan in general, and the prior Renovation Plan in particular. Land uses under the Revitalization Plan will be fully consistent with land uses allowed under the Specific Plan, development standards and land use regulations set forth in the Specific Plan will be followed in the Revitalization Plan, and architectural and design concepts under the Revitalization Plan will be consistent with those contained in the Specific Plan.

4. **Project Funding Agreement**. Section V.D of the Specific Plan acknowledges (1) that although the Specific Plan occurs in an area in which infrastructure is generally complete, improvements and alterations will be required throughout the development of Museum Market Plaza, and (2) that financing for such improvements and alterations is likely to come from a number of sources, both public and private.

Subject: Account Number for Wessman Reimbursement Agreement

I think we brought an item to Council a few weeks ago to transfer funds to an account for the Reimbursement Agreement with Wessman on the Fashion Plaza. Paula is trying to get the P.O. set up to begin paying bills. Do we have an account number?

The ultimate challenge of austerity politics

Michael Gerson

America is entering a period of prolonged austerity. The entitlement commitments made in a past generation have been rendered untenable by demographics . The problem is no one's particular fault, but it is very, very large. Failing to get borrowing under control would deny our children the lives we have had in this country.

This readjustment has begun to change the tenor of politics, which is increasingly focused on the distribution of painful burdens. It used to be that a budget compromise between Republicans and Democrats meant both sides got what they wanted — tax cuts and spending increases, respectively — and neither had to pay for it. Now compromise has to involve both sides losing something and neither getting the political upside. This is what it means to run out of money.

The politics of austerity is inherently divisive. It becomes disturbingly easy to turn group against group. Divisions can arise by class. The top 1 percent of earners take home about 17 percent of national income. They currently pay about 37 percent of federal income taxes. Does the 99 percent want them to pay 40 percent? More?

What burdens should be imposed on the vote-rich middle class? Or the conflict can become generational. In 1970, federal spending on Social Security and Medicare was about 20 percent of the budget. By 2030, it is projected to be 50 percent. Is it fair for those who are younger and poorer to provide dramatically increasing subsidies to those who are older and wealthier?

It is a marvel that anyone should strive and sacrifice to be a legislator in a period of austerity. Perhaps it weeds the field to the most cynical and the most public-spirited. A few demagogues thrive by feeding divisions and leading factions. But the best leaders in lean times share certain attributes:

» **A sense of proportion**: They focus the most attention on the things that matter most. In our case, the main problem is not simply public spending, it is entitlement programs on a path of accelerating, unsustainable spending. Those who devote their main attention to cutting food stamps or soaking the rich are grinding ideological axes, not confronting fiscal realities.

» **The courage to take on large interests**: If the largest voting bloc or the most organized pressure group always prevails, then public benefits and burdens become a function of political influence, not need or merit. So politicians, at various points, will be required to resist AARP and Americans for Tax Reform, public employee unions and tea party activists.

» **A sense of humanity**: Cuts that are equally applied are not equally felt. The reduction of a malaria program that saves the lives of children is not the same as the reduction in highway funding. Across-the-board cuts avoid political choices, but they do not avoid human consequences.

These leadership attributes came to mind with the approach of World AIDS Day. Foreign assistance is an illuminating example of the politics of austerity. It is particularly easy to highlight the division between citizens and non-citizens and impose burdens on those who do not vote in American elections. Sen. Rand Paul, R-Ky., has made the most of this argument — opposing not only security assistance in troubled regions but all foreign aid.

There are a variety of substantive responses to Paul's critique of aid. American foreign policy would not be particularly American if a commitment to universal human dignity did not play some role. Acting according to that commitment has been an important element of American influence — shaping our image and serving our interests.

But Paul's crusade against aid is most notable as a failure of leadership. It lacks proportion, since the total of humanitarian assistance amounts to less than 1 percent of the federal budget — an expenditure irrelevant to America's long-term, structural fiscal challenge. He is targeting some of the most vulnerable people for ideological rather than fiscal reasons — attempting to undermine bipartisan, humanitarian achievements on AIDS, malaria and other issues that have saved millions of lives.

This is the ultimate challenge of austerity politics: to reduce the size of the government without dishonoring the values of the nation.

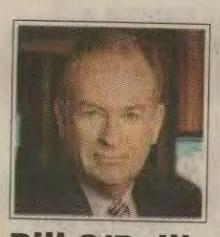
CHRIS BRITT/STATE JOURNAL-REGISTER (SPRINGFIELD, ILL.)

Those teenage werewolves were easier to deal with



Bill O'Reilly

In the 1950s, "Little Joe Cartwright" starred in a movie called "I Was a Teenage Werewolf."

After seeing a full moon, Michael Landon ran around a high school foaming at the mouth and out of control. Since there was little difference between his behavior and that of other students, he got away with it for two semesters.

As I watched the film, I remember thinking that it was going to be tough for Landon to get into college with that on his résumé. But then the 1960s happened, so that was that.

This brings me to the present. My life these days is largely confronting madness on television and then going home to deal with teenage drama from an almost-14-year-old girl. I vaguely remember being 14, because I was ensconced in a Catholic high school that gave out homework assignments like they were M&M's. I had plenty of angst. Nobody paid much attention.

Like today, many teenagers back then brooded full time. Check out James Dean, an outstandingly cloudy guy. But now teens have two things that embolden their disenchantment: the Internet and permissive parents. Earlier this week, I was encouraging my urchins to speed it up because the bus was coming.

"I can't go faster 'cause you're staring at me," the teen wailed.

"I'm not staring at you. I just came into the room."

"But I can see you!"

You get the idea. My daughter also did not want to wear anything that covered her legs — even though it was 39 degrees outside. She wanted to wear shorts. I started wishing she'd turn into a werewolf. The fur would warm her.

But it is the Internet that is changing the teenage dynamic in America. It used to be that teenagers would hang out together and swap stories of woe. I remember seeing Billy Joel and his crew at stores on Levittown Parkway. They were just slouching around the same as my guys were. Just being with other teenagers was comforting, but we actually had to leave our houses to do that. Now, teens can gang-brood from their rooms on the Net.

Because nearly every awful occurrence is highlighted on Facebook pages, teenagers now find it easier to justify their own craziness. "How can you criticize me for getting a C when Shelley got all F's and crashed her dad's car?"

Nothing is private anymore. Teenagers are subjected to (and some participate in) incredibly destructive behavior online. And parents have few options. Even if you ban home computers, hand-held devices are all over the place. You'd have to put a full-time bodyguard on the child in order to provide complete protection.

All parents can do is try their best to impose a sense of responsibility. Be watchful at all times. Kids today are growing up at warp speed; the machines march them into adulthood way before they're ready.

Even with fangs, Landon had it easier.

VALLEY VOICE

Ruiz answers specific questions with generalities

Donald Prell

The Desert Sun's political reporter Erica Felci is to be congratulated on writing an incisive Nov. 11 article regarding the task facing Dr. Raul Ruiz as he prepares to take his seat in a sorely divided Congress. However, in reading the interview, it became obvious that Ruiz avoided direct answers to Felci's questions.

The thrust of her questions included: "What role the federal government, and in particular Congress, should take in lowering unemployment, reducing the federal deficit, modifying health care legislation and immigration reform?" Ruiz provided answers that were political rhetoric and vague equivocations. Even more revealing, almost all of his "action list" are items not determined by Congress.

Ruiz replied: "We have to minimize foreclosures, revive the middle class and restore spending.

"We need to strengthen new industries so we're less dependent on the volatility of tourism.

"Our best options are health care research and alternative energy development.

"Allow Medicare to negotiate for lower prices with the drug companies.

"Address our local physician shortage crisis.

"Use electronic record keeping to eliminate expensive duplicate tests."

"Pass into law the executive order to stop deporting young people who were brought here through no fault of their own.

"Congress should stop playing politics and recognize that everyone has an interest in immigration reform. Everyone wants a reliable system that allows people who play by the rules to become productive members of society."

Ruiz was also asked, "Would you support amnesty?" He did not reply to the question.

Felci asked Ruiz, "What specific spending cuts would you support to help balance the federal budget, and what other deficit-reduction efforts should Congress pursue?"

Ruiz: "Bring troops home from Afghanistan to save $120 billion annually."

Does Dr. Ruiz not understand that when the troops leave Afghanistan they will be deployed elsewhere in the world, or if returned to bases in the U.S. they will still need to be fed, housed and paid? In addition, the U.S. will continue funding the government in Afghanistan. The actual annual savings will only be a fraction of $120 billion.

Ruiz: "Require people who earn more than $1 million annually to pay their fair share of a minimum tax rate of 30 percent. It is wrong that Mitt Romney pays a 13 percent tax rate while hardworking businesspeople, teachers or entrepreneurs pay twice that." Romney was a hardworking entrepreneur. He, like those of us in the middle class, pay the full tax rate on income from our work. And when we invest the funds we have saved, receiving interest income and long-term capital gains from that already taxed money, the tax laws provide a lower tax rate on those forms of income.

Is Dr. Ruiz proposing only those earning more than $1 million annually pay 30 percent on their income from interest and capital gains while the rest of us pay only the present rate of 15 percent? Maybe he should be asked, "Isn't it fair for our already-taxed savings to be reinvested and taxed at a lower rate?"

Ruiz: "Create jobs to increase revenues, decreasing demand for social services." Felici's question was about specific spending cuts, and he answered: "Create jobs." Congress does not create jobs, except government jobs. It is my hope that Dr. Ruiz will brief himself on what Congress can and cannot do, and in particular, federal tax law.

Note: I have never registered as a Democrat or a Republican. I am one of those independents who votes for the individual not a party.

Donald Prell of Palm Springs can be reached at dbprell@gmail.com

Democratic power in California capitol has limits

Dan Walters

So now we know. When the California Legislature reconvenes this month for brief organizational sessions, it will have historic Democratic supermajorities — 54 Assembly members and 29 senators.

However, when it returns to Sacramento in January, supposedly to do its real work, those numbers will change, because two Democratic senators will resign to take their seats in Congress, and that will touch off a game of musical chairs.

Those two departing senators, Juan Vargas and Gloria Negrete-McLeod, will almost certainly be succeeded by Democrats, most likely members of the Assembly who then would have to resign, thus sparking special elections for their seats that would stretch over most, if not all, of the 2013 session.

By winning 29 Senate seats, Democrats could lose Vargas and Negrete-McLeod and still have a 27-senator supermajority, which means they could, in theory, move legislation — tax increases and constitutional amendments — without Republican votes.

But it's more theory than reality. There are at least four Democratic senators who would be uncertain votes for major legislation that falls into the "very liberal" category, especially if it adversely affects business interests.

Lobbyists for the California Chamber of Commerce and other business groups will be paying a lot of attention to those four — Rod Wright, Ron Calderon, Lou Correa and Michael Rubio.

Nor would Cathleen Galgiani, the 29th Democrat elected this year, whose paper-thin victory was finally declared last week, be eager to vote for anything that might backfire later in her fairly conservative San Joaquin Valley district.

So while liberal activists may be clamoring for Democrats to act quickly and boldly on taxes, environmental regulations, curbs on initiatives and other matters, the Senate votes are probably not there.

The votes might be there when the two vacant Senate seats are filled, but if even one Democratic Assembly member moves up to the Senate, it would suspend the party's supermajority in that house until the vacancy is filled by another special election.

Meanwhile, Democratic Sen. Curren Price is almost certain to resign from the Senate by June to take a seat on the Los Angeles City Council, which would spark another special election. If it were to be won by a Democratic Assembly member, there would be still another Assembly vacancy.

Finally, even were two-thirds votes to be mustered in both houses for the bold steps that liberal activists want, they would have to contend with Gov. Jerry Brown, who has reiterated his 2010 campaign pledge not to raise taxes without voter approval.

The supermajorities have sparked lots of radio talk show and blogosphere speculation about what could happen but what actually does happen is likely to be much more modest.

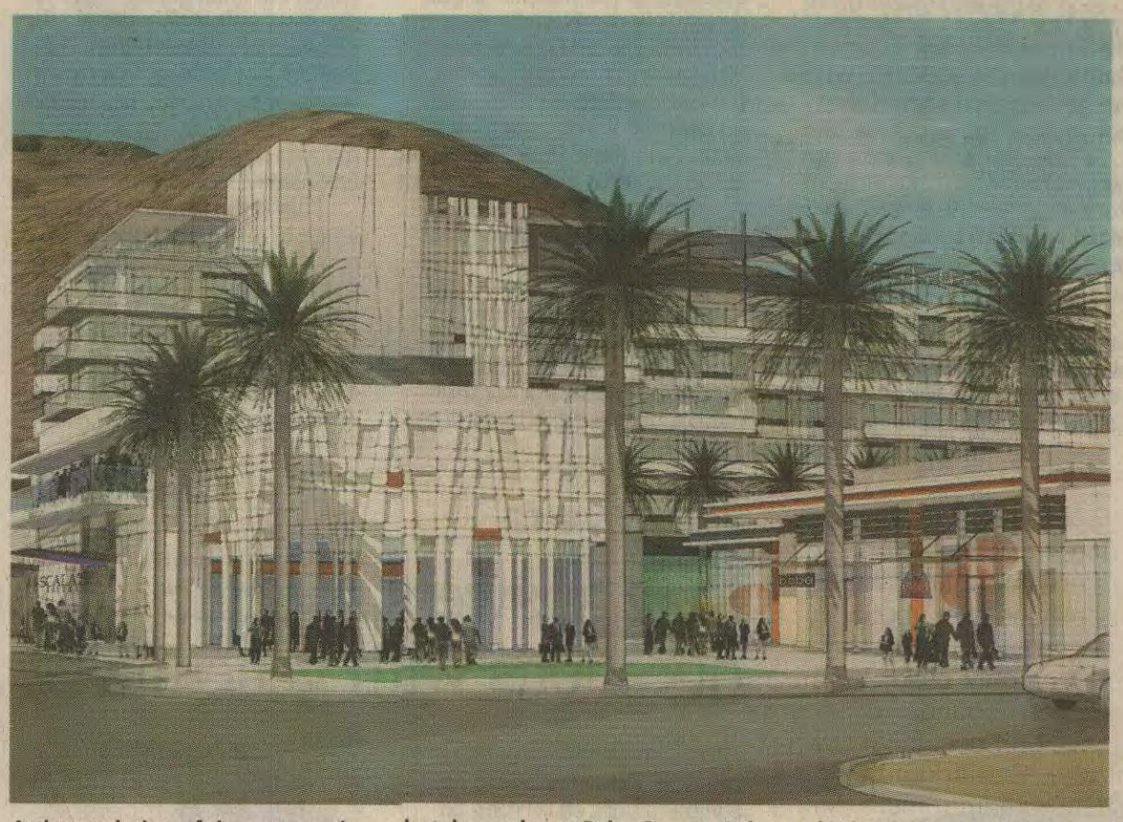
OUR VOICE

Our new downtown



Artist rendering of the proposed new hotel complex at Palm Canyon Drive and Tahquitz Canyon Way.
PROVIDED BY WESSMAN DEVELOPMENT.

The hotel should be the centerpiece

A large hotel is the linchpin to the revitalization of downtown Palm Springs.

Yet, the city's Architectural Advisory Committee and now the Planning Commission are taking shots at the proposed Hotel Palomar. That's their prerogative, and we respect all those who serve on city panels. But the city would be foolhardy to blow the deal with Kimpton Hotels, a first-class chain with more than 50 luxury hotels around the world.

A 2006 study commissioned by the Palm Springs Convention Center & Bureau of Tourism found the city needs 1,000 more rooms to attract major conventions. The Aviation Summit held in Palm Springs last month provided a perfect example. The convention needed 1,600 rooms. The tourism bureau worked with 11 hotels, some as far 3 miles away, and coordinated four shuttle routes to help visitors get around.

More rooms within walking distance of the convention center will enhance its appeal.

Members of the advisory committee said the hotel was too tall and too big.

TELL US WHAT YOU THINK.

The Desert Sun welcomes responses to its editorials. Email your comments to letters@thedesertsun.com

Developer John Wessman originally proposed 165 rooms for the Hotel Palomar, but Kimpton asked to increase the number to at least 185 to ensure profitability. The plan is to add the extra rooms to a retail building planned next door with a glass-enclosed walkway.

How tall is too tall? Nearby Hyatt Regency Suites is 65 feet tall and has 197 rooms. Hotel Palomar is proposed at 70 feet, not counting a 19-foot elevator tower. The Agua Caliente Casino Resort Spa in Rancho Mirage is 120 feet tall with 565 rooms. The Morongo Casino, Resort & Spa is 330 feet tall with 310 rooms.

Mount San Jacinto looms above Palm Springs at 10,834 feet. Naturalist John Muir wrote of San Jacinto Peak, "The view from San Jacinto is the most sublime spectacle to be found anywhere on this earth!" The view from the proposed rooftop bar and pool will be spectacular, too.

Debating the height of the hotel is certainly appropriate and healthy. The commissioners have a right — indeed, an obligation — to challenge developers. These decisions will chart the future of Palm Springs for decades and the city cannot afford to repeat the mistakes made with the creation of Desert Fashion Plaza.

However, The Desert Sun believes the height is reasonable and probably the only way to keep Kimpton Hotels in the picture.

Retail won't save downtown. Nearly one in five storefronts in the valley are empty, the highest rate of any major retail corridor in Southern California. At the end of June, the retail vacancy rate was 18.2 percent. Some of the new retail space created in the past few years has never been occupied, and the old Palm Springs Mall is practically a ghost town.

Some retail downtown is appropriate, because tourists and locals like to shop. A luxury hotel will attract high-end retailers. Tourism has been trending up in the first three months of the fiscal year and over the past two years. The city and Wessman Development are wise to capitalize on that trend.

And Kimpton Hotels & Restaurants looks like a good fit. According to its website, Bill Kimpton pioneered the boutique in 1981 — not too big but with luxurious amenities.

The chain makes a commitment to the green movement, using only recycled paper and no disposable cups. It also boasts a 100 percent rating from the Human Rights Campaign for its treatment of LGBT employees.

The Museum Market Plaza Specific Plan aims to "complement the distinctive, eclectic townscape character" that made Palm Springs famous. Similarly, the architectural advisory guidelines aspire to create a "harmonious relationship with existing and proposed adjoining developments." That's the challenge at hand.

Insisting on quality is important, but judging architecture also is subjective. Suggested improvements are appreciated, but let's not take our eye off the goal. The hotel is what makes the plan work. It is the best way to fulfill the promises to taxpayers who took the bold step of raising taxes for a brighter future for their downtown.

MYDESERT POLL

What do you think of the height of the proposed Kimpton hotel? A) Too tall. B) Just right. C) Could be taller. Cast your vote at mydesert.com/opinion

VALLEY VOICE

A great opportunity to revitalize Palm Spring

Dave Baron

Harold Matzner

It's time to revitalize downtown Palm Springs!

We have survived the economic downturn and we have a unique opportunity for Palm Springs to capture our share of the travel, vacation and business meeting recovery that is occurring.

People from all over Southern California and elsewhere have "found" Palm Springs. Of course, we were never "lost." We have a world-class brand. But Palm Springs has been hurt by the empty Fashion Plaza in its downtown core.

We need a revitalized downtown experience

Our small boutique hotels and larger hotels are prospering, yet virtually all of them, as well as our restaurateurs and business owners, complain about the same thing: We need a defining and vibrant hotel/retail shopping experience to replace the empty Desert Fashion Plaza.

It is essential that we have more specialty boutique retail stores with unique merchandise like Trina Turk and Wil and Molly's and hip, cutting-edge dining like Trio's and LuLu's. This combination will not only bring folks to Palm Springs, but will encourage them to come back time and time again and spend their dollars here.

We must take action now

As a community, we have invested a lot of resources, hard work and hope to restore our brand and position in the convention and tourism industry. We must take action now! The Palm Springs Downtown Revitalization Plan is a precious opportunity to shape our future as a city and as a vibrant, healthy community. The decayed Fashion Plaza has been and continues to be a black hole highlighting our downtown and economic failure for nearly a generation. We have an opportunity to change that right now.

Downtown plan has years of support

The plan is the product of years of planning-and-visioning forums well attended by Palm Springs residents. This has been one of the most scrutinized and planned projects in the history of our valley. And what is before the city is exactly what the voters demanded and expected when they approved Measure J.

Plan is strong and economically viable

We urge everyone to study the project on the city's website or at City Hall. You will find a project that marries new and unique retail, a vibrant restaurant scene, pedestrian-friendly plazas and open space alongside a four-star Kimpton hotel. The business plan that is used to develop the Kimpton must meet their criteria and still be buildable based on the economics of the project.

Supports businesses and restaurants

We are lucky to get the Kimpton brand in our town. Anyone who has stayed at one of the 54 Kimpton hotels will know that they are exactly what we need in terms of brand and ambience to complete our city hotel assortment. The ro top pool and bar will be a huge attraction for touri and locals alike. The Kim ton brand is the kind of magnet today's specialty retailers and finer restau rants demand when they are selecting new locatio This project will be anchored by the Kimpton, Hyatt and the Palm Sprin Art Museum that will co bine to bring 300,000 visi tors each year to its store and restaurants. Each co ponent of this plan will contribute to the overall cumulative economic suc cess of the project.

» Read your letters about the hotel on **Page B15**.

Creates mountain vie

Another benefit of the downtown plan is that it creates two new viewshe to the mountains that do currently exist — views that for the past 40 years have been hidden by the Fashion Plaza. Also, whil the zoning allows for 60-foot tall buildings stretch along the face of Palm Ca yon Drive, this plan goes lower. Palm Canyon will have single-story shops a restaurants, separated by through-streets, and som setback double-story buil ings. The hotel is setback minimum o 200 feet — a greater set-back than a other hotel Palm Canyo Drive. By transferring density to the Kimpton, w are able to have lower buildings, more open area and more views of the mountains and an econom cally viable hotel. That is important!

Supports the museum

We are also excited about the new 50,000-square-foot open area in front of the art museum. This space will be used fo concerts and other specia events that will be enjoye by both residents and visi tors alike.

Our opportunity to revitalize downtown

Palm Springs has a pre cious opportunity to re-build its downtown, and significantly improve its economic future. That is a very rare option for any municipality today. It is a opportunity that must not be squandered.

Since MAPS bought a table at the State of the City Luncheon, we drew 2 extra names to give to you for the 2 seats reserved for MAPS.

They are Angela LaFrance and Diana Shay.
Do you want them to just give their names when they check in at the luncheon?

Thanks,

Hi Jennifer,

Yes thank you. As the alternate, I'd like to get more up to speed on RCTC issues, so I would like to attend as well.

Thank you,

Paul

Measure J - New Light and Air Unit

Light and Air units are critical for modern fire fighting operations

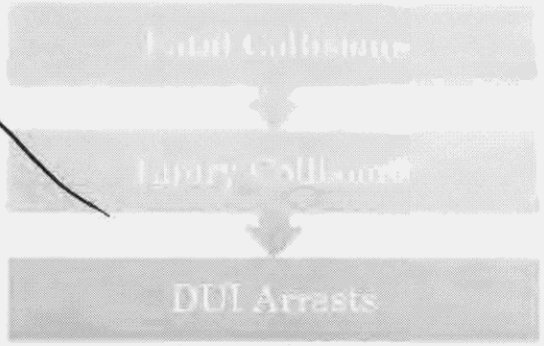
Public Safety

- Dispatch handled 67,772 police and fire calls for service.
- 42,305 were 911 emergency calls
- 2,502 animal related calls for service

- 3,167 arrests/over 2,600 traffic citations
- No homicides in 2013
- Violent crime decreased by 10% (robbery, rape, assaults)
- Residential burglary decreased 13%
- Commercial burglary decreased 31%
- Motor vehicle theft, larceny (petty theft, identity and "paper" crimes) increased

Public Safety - Traffic

- In 2013, fatal traffic collisions decrease 50%, from 10 in 2012 to 5 fatal collisions in 2013.
- Injury collisions decreased by 3%, from 248 in 2012 to 241 in 2013.
- Officers made 367 DUI arrests. This is a 37% increase from 2012 when we had 225 DUI arrests.



Public Safety

Grant Funding:

Received $250, 000 in grant funding for our traffic enforcement efforts and to purchase police equipment .

Technology:

Using technology and social media to be more efficient. In June, the Police Department launched an App that allows reporting of graffiti, suspicious activity, and will allow residents to receive alerts via their smart phone.

Volunteers:

The Police department is very proud of its volunteers. The Citizens on Patrol, Reserve Police Officers, Search and Rescue Unit, Aero Squadron, and Explorer programs have a logged over **13,000 volunteer hours combined**.

FYI for meeting Thurs. 2/6 2pm SCR

Jennifer -

Just checking back to see if you received this and can give me some guidance on which time period works best for Steve and his team. Let me know please.

Thanks!

Don

On Wed, Jan 15, 2014 at 10:11 PM, Don Perry <don@siliconsprings.com> wrote:
Jennifer -

Thanks for the note. We are excited to meet with the Mayor and his key staff. The best day and time for us will be Thursday, 2/6, at 2pm, although Monday, 2/3, at 3pm would also work (and its right before our Desert Tech Meet-up at The Ace Hotel at which the Mayor will be speaking!). Unfortunately, there is a Workforce Excellence fund-raiser the afternoon of the 4th in Indian Wells, although if that becomes the only day Steve and his team can all be available, we will make that day work.

Since there will be four attending from the city, we will bring 4 from our group. In addition to myself, Len and Joel, I have also asked our VP and CFO, Rich Silveira, to join us. For a quick bio on each of us, by the way, I encourage you to check out our web site (www.siliconsprings.com) and click onto The Team.

See you in a few weeks!

Hello Mr. Perry and Happy New Year!!

Mayor Pougnet has asked me to coordinate a meeting with you and your group for the week of February 3rd. The dates below are what I have to work with. Please indicate if any/all of these will work. Thank you.

1. Monday, Feb. 3, 4pm- City Hall

2. Tuesday, Feb. 4, 3pm – City Hall

3. Thursday, Feb. 6, anytime between 2-4pm – City Hall

We will have David Ready, John Raymond from Eco Dev. and Councilmember Paul Lewin attending along with the Mayor. I look forward to hearing from you shortly so we can get this confirmed and on the Mayor's calendar.

Best,

Jennifer

Steve -

Happy New Year!

I am reaching back to you on behalf of Len to set up a meeting to discuss this marketing idea we tossed around in December. Our Silicon Springs team had a terrific Board Meeting yesterday and we all think the timing is perfect for such a strategic move! I read yet another article in Fortune Magazine last night about the traffic problems in Silicon Valley.

We think to begin, the group should include Len, Joel and myself in addition to you, David and whoever else you would like from the city. We are fairly open the week of 1/20 and 1/27 at this point so if you could have Jennifer give us a couple of dates that work, we'd be happy to come to City Hall.

Let me know how you would like to proceed.

Best,

Don

Steve,

After the first of the year, why don't we contrive to get David, Don, Paul, you and me in the same room together to talk strategy?

SSV has been developing some targeted strategic ideas about mounting a a campaign that could do just what you and I envision.

I recommend a quiet lunch somewhere to exchange ideas and to percolate up a probable community of interest that might take a notion like this forward.

I also suspect some of your fellow mayors (think DeRosa, Harnik and Holmes, for starters) and the tech titans (think IBM, Microsoft, Oracle) who vacation here in the cooler months might have some interest in this idea.

Best for the holidays and let's huddle on this one!

Len,

This is something the City of Palm Springs has been thinking very seriously about... I have seen all the recent articles . Councilman Lewin has a very strong interest as well.

Steve

On Dec 20, 2013, at 6:43 AM, "Len Kapner" <len@siliconsprings.com> wrote:

Hi Steve,

Overnight, our President, Joel Fashingbauer drew my attention to the attached, recent article in the Washington Post bemoaning the unavailability of affordable residential housing for those who wish to live in the middle of existing tech enclaves, particularly those in metropolitan California and New York.

As you know, one of the premises behind starting Silicon Springs - The Movement was to offer a measurably lower cost of living alternative to both Silicon Beach and Silicon Valley, with less congestion, better weather and world-class resort amenities thrown in.

A brief assessment of who showed up to the most recent Desert Tech Meetup in November at the Jackalope Ranch indicates that a trickle of disgruntled techies from both San Francisco and West L.A. is beginning. As partners in progress, you and I have the power to catalyze and accelerate this phenomenon.

Business and civic leaders like you who really care about economic renewal and longer-term regional prosperity might do well to collaborate behind a marketing and public relations initiative that highlights greater Palm Springs as having most, if not all the pieces in place to become the next significant California tech enclave.

If you'd like to lead the development of such a campaign in 2014, we'd be happy to help with strategy and content development.

Just let us know.

Subject: Re-cap from State of the City meeting

All,

Just a follow up on where we are right now –

JR – you are in the process of compiling a list of places/businesses, particularly those that participated in the City's Incentive Program, for the Mayor to utilize in his video tour. Our categories are – Constructions site (Downtown Plaza), Airport, Shopping Centers (The Springs/Smoketree), Housing Developments (Escena, Sol) Hotels (Tri Ada) Conventions Center (PSIFF here too) Uptown Businesses. Please also check with the Trolley folks to be sure we will have a Trolley and driver to use on **Friday, Jan. 23 from 11am to 4pm**.

Amy – You are reaching out to Point 7 West to schedule the videotaping on Friday the 23rd from 11am to 4pm. Meet at City Hall. If they can't do it for our budget of 5,000.00 you will ask Cord Media. Also, please get back to me right away if this date doesn't work for them as you know how tight the Mayor's schedule is.

David – You are going to reach out to Lisa Middleton to produce a list of possible PSNIC people to do the ride along with Mayor Pougnet on the 23rd. He would like to review the list before we confirm anyone but would like to select 6 people total.

Once we can confirm the who, (PSNIC folks) when (date and time) and where (tour stops) we will go from there.

Thank you,
Jen

Subject: FW: Shelter Stats

Hi Steve,
Hope you are feeling better. I did mention to you that I would really like you to in some small way mention the success of the shelter. The Board of the Friends bought a table at the State of the City luncheon. Below is a lot of information on the shelter and stats. We are being held up as an example of a truly successful and innovative municipal shelter. We have had people and cities coming from all over to tour, we have a full service vet clinic and surgery center – very unusual for a municipal shelter. I think the success we have achieved is worth mentioning in your speech. Even if it is one sentence.

In the last two years the shelter population has gone from 570 animals to 254 due to the City/Friends partnership and programs and we are now a teaching facility - see below. Last year we only had 1 euthanasia for behavior and the rest (96) were all very bad medical issues – hit by a car, mauled etc. Roughly 1500 – 1700 euthanasia's per year were performed before the City/Friends new shelter partnership. This Council and you as the Mayor need to take credit for that.
Thanks,
See you next week.
Ginny

He could also mention we are a teaching facility. we have health club high school students that mentor under the med team, years 1-3 western university students assist with tnr and now we also offer their 4th yr rotations for month long.

Subject: RE: Mailer

FYI

File in Mayor Mail

Good morning, Michele: do you want the letter to be printed both sides? Or on two sheets of paper, single-sided? Also, the mail lists all appear to be the same list...please verify. If they are the same list, you have 225 records for mailing.

On the envelope, do you want a return address? The city seal? Or do you have envelopes to supply for this mailing?

Let me know your answers and I can get both a quote and production rolling for you.
Thanks,

Sandy Miller

Hi Sandy,

Will you please prepare and send out the attached mailer for us? I need a quote so I can open the purchase order ASAP. The addresses are all attached as well as the letter.

Thanks

Michele

Yes, we are a full service mail house. We inkjet the addresses directly onto the envelopes, rather than use labels. It's more efficient. The list can come as an Excel document, .csv file or tab delimited.

Thank you,

Sandy Miller

Hi Sandy,

I have a rather large mailer to get sent out. Can you do address labels, stuffing and printing. I am sure you can but just wanted to ask before I sent it to you. Also, what formats do you prefer?

Thanks

Michele

City of Palm Springs

Stephen P. Pougnet, Mayor

3200 E. Tahquitz Canyon Way • Palm Springs, California 92262
Tel: (760) 323-8200 • Fax: (760) 323-8282 • Web: www.palmspringsca.gov

January 4, 2011

Mr. Tim Hanlon, President
Wells Fargo Foundation
1800 Century Park East, Suite 1200
Los Angeles, CA 90067

Dear Tim:

We are very appreciative of the relationship between the City of Palm Springs and Wells Fargo Foundation. Together, we support many charitable works in the City. Our request for funding is again $60,000, which includes $15,000 that will remain at the Wells Fargo Foundation. We show a balance of $11,378.82 in this account that remains at Wells Fargo – after deducting the $5,000 for Steve Chase Humanitarian awards which I understand will go out soon. The $15,000, together with the $11,378.82 will bring this account to $26,378.82.

The $45,000 will be used to support a variety of causes here in Palm Springs, such as:

Veterans Day Parade	$ 10,000
Desert AIDS Project	5,000
Community Concerts	10,000
Mizell Senior Center	5,000
Miscellaneous Request	15,000
TOTAL	***$45,000***

As always, thank you, Tim, and Happy New Year to you and Tony.

Sincerely,

Stephen P. Pougnet, Mayor

February 14, 2012

Dear John,

As Mayor of Palm Springs I feel a sense of duty to support and encourage the health and wellness of our community and residents. This is especially important and of utmost importance to me when it comes to the health of our children. To help in this endeavor I am proud to present the **Mayor's 7 Mile, 5K and 1K Healthy Planet, Healthy You Race and Wellness Festival** on April 21, 2012 from 8 am to 1 pm at the City of Palm Springs Wellness Park on Tachevah and Via Miraleste. To spur even greater change and positive health initiatives for our community I have charged the City of Palm Springs Office of Sustainability with creating this premier wellness event for our community.

We hope you will be able to join us as a sponsor of this event, the premier wellness and sustainability event in our region. All proceeds will benefit organizations that work to fight childhood obesity in our community. The funds from sponsors and exhibitors of the **Mayor's 7 Mile, 5 K and 1K Healthy Planet, Healthy You Race and Wellness Fair** cover the cost of the event which serves as not only an educational opportunity for members of the public but also as a celebration of the positive changes we can make together. With your support this year, we feel confident we can achieve our goal of raising $50,000 to help fight childhood obesity in our community.

The goal of the event is to educate the community about the connection between how we care for our health and the affects on our planet. Thousands of members of the community are expected to attend the event. This includes high school students, college students, business leaders, not for profit sector and elected officials.

I have attached a description of the various sponsorship opportunities and respectfully ask you to become one of our Galaxy Sponsors of $5000.00 or more to help us in the fight against childhood obesity. I will contact you within the week to follow-up. I look forward to your support in making the Mayor's 7 Mile, 5K and 1K Healthy Planet, Health You Race and Wellness Fair a winning success.

Sincerely,

Stephen P. Pougnet, Mayor

Mayor OK to send out? JP

Dear Community Partner in Sustainability,

I want to sincerely thank you for your tremendous support of the City's sustainability efforts and the first ever Mayor's Healthy Planet Healthy You Race and Wellness Festival. What a huge success! And we owe so much thanks to you. Without your generous donation this program would not have been possible. Thanks to you the City of Palm Springs raised over $100,000 in funds including a generous match from the Desert Healthcare Foundation.

The funds that were raised through the Mayor's Healthy Planet, Healthy You Race and Wellness Festival have been earmarked for an amazing new program spearheaded by the Alliance for a Healthier Generation and the Desert Healthcare Foundation. The program will be administered by a Relationship Manager who will work for the Alliance for a Healthier Generation and will partner with the leaders of the three school districts to provide and implement programming and policies to reduce childhood obesity in the Coachella Valley.

As Mayor of Palm Springs I am committed to advancing the health of our citizens and to end childhood obesity in our community. The health of our children is of incredible importance as they are our legacy. Instilling in them a sense of the significance of health and preserving our community and environment is part of the City's mission that is lead through our sustainability programs and partnerships.

~~The Mayor's Healthy Planet Healthy You Race and Wellness Festival event was part of my challenge to the Mayor of the City of Indio to compete with our City in the Coachella Valley Healthy Living Challenge~~. ~~I am happy to announce that we have succeeded~~ in ~~winning this challenge and in addition we saw over a thousand members of our community take part in the days events~~. Thank you for becoming one of our Galaxy Sponsors of $5,000 or more that helped us in the fight against childhood obesity.

Sincerely,

Stephen P. Pougnet, Mayor

~~Steve Pougnet~~

~~Mayor of the City of Palm Springs~~

Michele, Jennifer asked me to get a draft letter from you to major donors of Mayor's race. Please include "what is going to happen with race donations" and "the plans." (Jennifer's words from her note re To Do items.) Hopefully, I can get Steve's OK when he is here Wed. afternoon.

Many thanks, Michele!

Martha

Re: Case TPM 36909 Parcel Map Waiver
Northwest Corner of Palm Canyon Drive and Andreas Road

Dear Mr. Wessman,

Attached is the Final Resolution with Conditions of Approval for the above-referenced project. The Planning Commission of the City of Palm Springs reviewed and approved the above-referenced project at its public meeting on March 25, 2015. This approval is final and the filing of the certificate of compliance must be completed within two years from the effective date of approval, pursuant to Section 9.63.110 of the Palm Springs Municipal Code.

Thank you for working with staff during this application process. Should you have any further questions, please feel free to contact me at (760) 323-8245.

Sincerely,

David A. Newell
Associate Planner

File

RESOLUTION NO. 6474

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF PALM SPRINGS, CALIFORNIA, APPROVING A PARCEL MAP WAIVER TO SUBDIVIDE ONE PARCEL INTO TWO FOR THE PROPERTY LOCATED AT THE NORTHWEST CORNER OF PALM CANYON DRIVE AND ANDREAS ROAD.

WHEREAS, Palm Springs Promenade, LLC (Applicant) has submitted a request that the Planning Commission waive the requirement for a parcel map (TPM 36909), and a request for a Certificate of Compliance to be issued and recorded, to subdivide one parcel into two parcels for the property located at the northwest corner of Palm Canyon Drive and Andreas Road, Zone CBD, Section 15; and

WHEREAS, on March 25, 2015, a public meeting on the map waiver request was held by the Planning Commission in accordance with applicable law; and

WHEREAS, the Planning Commission has carefully reviewed and considered all of the evidence presented in connection with the hearing on the project, including but not limited to the staff report, and all written and oral testimony presented.

THE PLANNING COMMISSION HEREBY FINDS AS FOLLOWS:

Section 1: The Planning Commission approval of TPM 36909 is within the scope of the original Specific Plan EIR adopted on December 2, 2009, and none of the circumstances triggering further environmental review have occurred since the adoption of the EIR, subsequent Addendum and further city approvals related to the overall project. Therefore, no further environmental review is required (Public Resources Code § 21166; California Code of Regulations § 15162.).

Section 2: The proposal complies with applicable requirements as to area, general plan, improvements and design, floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection, and other requirements of this title.

1. Area

There are no minimum area requirements specified under the Museum Market Plaza Specific Plan. Each parcel will is adequate in size to accommodate development as shown by surrounding properties of similar size or smaller.

2. *General Plan*

The General Plan designation is CBD (Central Business District). The proposed split will allow for development in accordance with this General Plan land use designation.

3. *Improvements and design*

Street improvements are installed along Palm Canyon Drive and will be installed on Belardo Road and Andreas Road in accordance with Parcel Map 36446. No further improvements are required for accommodating the proposed lot split.

4. *Floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, and environmental protection.*

Drainage control, public roads, sanitary facilities, water supply availability and environmental protection were analyzed and addressed as a part of Parcel Map 36446. The proposed lot split will not further affect these criteria.

NOW, THEREFORE, BE IT RESOLVED that, based upon the foregoing, the Planning Commission hereby approves the parcel map waiver for TPM 36909, subject to the conditions set forth in the attached Exhibit A.

ADOPTED this 25th day of March, 2015.

AYES:	7, Commissioner Roberts, Commissioner Weremiuk, Commissioner Calerdine, Commissioner Lowe, Commissioner Middleton, Vice-Chair Klatchko and Chair Hudson

Director of Planning Services

RESOLUTION NO. 6474

EXHIBIT A

TPM 36909

Palm Springs Promenade, LLC
NW Corner of North Palm Canyon Drive and Andreas Road

March 25, 2015

CONDITIONS OF APPROVAL

Before final acceptance of the project, all conditions listed below shall be completed to the satisfaction of the City Engineer, the Director of Planning Services, the Chief of Police, the Fire Chief or their designee, depending on which department recommended the condition.

Any agreements, easements or covenants required to be entered into shall be in a form approved by the City Attorney.

PLANNING

ADMINISTRATIVE

ADM 1. Project Description. This approval is for the project described per Case TPM 36909 Parcel Map Waiver, except as modified by the conditions below.

ADM 2. Parcel Map Waiver. This approval is for Parcel Map Waiver TPM 36909, date stamped February 19, 2015, located at the northwest corner of North Palm Canyon Drive and Andreas Road. This approval is subject to all applicable regulations of the Subdivision Map Act, the Palm Springs Municipal Code, and any other applicable City Codes, ordinances and resolutions.

ADM 3. Minor Deviations. The Director of Planning or designee may approve minor deviations to the project description and approved plans in accordance with the provisions of the Palm Springs Zoning Code.

ADM 4. Indemnification. The owner shall defend, indemnify, and hold harmless the City of Palm Springs, its agents, officers, and employees from any claim, action, or proceeding against the City of Palm Springs or its agents, officers or employees to attach, set aside, void or annul, an approval of the City of Palm Springs, its legislative body, advisory agencies, or administrative officers concerning Parcel Map Waiver TPM 36909. The City of Palm Springs will promptly notify the applicant of any such claim, action, or proceeding against the City of Palm Springs and the applicant will either undertake

defense of the matter or pay the City's associated legal costs or will advance funds to pay for defense of the matter by the City Attorney. If the City of Palm Springs fails to promptly notify the applicant of any such claim, action or proceeding or fails to cooperate fully in the defense, the applicant shall not, thereafter, be responsible to defend, indemnify, or hold harmless the City of Palm Springs. Notwithstanding the foregoing, the City retains the right to settle or abandon the matter without the applicant's consent but should it do so, the City shall waive further indemnification hereunder, except, the City's decision to settle or abandon a matter following an adverse judgment or failure to appeal, shall not cause a waiver of the indemnification rights herein.

ADM 5. Time Limit on Approval. Approval of the Parcel Map Waiver (TPM 36909) shall be valid for a period of two (2) years from the effective date of the approval, unless an extension is granted by the Subdivision Map Act and / or the Planning Commission. Extensions of time may be granted by the Planning Commission upon demonstration of good cause.

ADM 6. Right to Appeal. Decisions of an administrative officer or agency of the City of Palm Springs may be appealed in accordance with Municipal Code Chapter 2.05.00. Permits will not be issued until the appeal period has concluded.

ENGINEERING DEPARTMENT

Before final acceptance of the project, all conditions listed below shall be completed to the satisfaction of the City Engineer.

MAP

ENG 1. The applicant shall submit an application to the Engineering Division for a Certificate of Compliance, prepared by either an appropriately licensed registered Civil Engineer or a Land Surveyor. The Certificate of Compliance shall be approved prior to issuance of a building permit on Parcel 2

END OF CONDITIONS

CITY OF PALM SPRINGS
PLANNING COMMISSION MINUTES
March 25, 2015
Council Chamber, City Hall
3200 East Tahquitz Canyon Way
Palm Springs, CA 92262

CALL TO ORDER:

Chair Hudson called the meeting to order at 1:30 pm.

ROLL CALL:

Present: Commissioner Calerdine, Commissioner Lowe, Commissioner Middleton, Commissioner Roberts, Commissioner Weremiuk, Vice-Chair Klatchko and Chair Hudson

Staff Present: City Attorney Daudt, Director Fagg, Planning Administrative Coordinator Hintz, Assistant Director of Public Works Khamphou, Associate Planner Lyon, Assistant Planner Mlaker and Associate Planner Newell

*Commissioner Weremiuk arrived at 1:34 pm.

REPORT OF POSTING OF AGENDA:

The agenda was posted for public access at the City Hall exterior bulletin board (west side of Council Chamber) and the Planning Services counter by 4:00 pm on Thursday, March 19, 2015.

ACCEPTANCE OF THE AGENDA:

Vice-Chair Hudson reported that Item 3A would be continued to April 8, 2015.

Vice-Chair Klatchko noted his abstention on both sets of minutes due to his absence.

ACTION: Accept the agenda, as amended.

Motion: Commissioner Roberts, seconded by Commissioner Middleton and unanimously carried on a roll call vote.

AYES: Commissioner Calerdine, Commissioner Lowe, Commissioner Middleton, Commissioner Roberts, Commissioner Weremiuk, Vice-Chair Klatchko, Chair Hudson

PUBLIC COMMENTS:

Chair Hudson opened public comments:

The following persons spoke in opposition of Item 2A:

ERIK ROSENOW, Palm Springs Preservation Foundation, president, requested denial of the proposed plan or a continuance for the plan to incorporate the entire Kaptur buildings.

BARBARA MARSHALL, suggested as a public benefit - real space should be dedicated to the art community.

JUDY DEERTRACK, commented that this project should have gone for review to the Historic Preservation Board with an environmental study.

JOANNE HARRIS, requested a plan to include all of the Kaptur buildings.

GARY JOHNS, urged the Commission to demand something unique.

CHRIS MENRAD, Palm Springs Modern Committee, president, said that the Board requested to keep the entire 650 building and integrate it into a much larger project.

ROBERT IMBER, PS Modern Tours, urged the Commission to reconsider something that is appropriate for this city.

RON MARSHALL, suggested that a true compromise is to retain the entire buildings and build the new project behind it.

FRANK TYSEN, expressed concern with the water consumption that will be used to prepare the land.

There being no further speakers public comments was closed.

1. CONSENT CALENDAR:

ACTION: Approve Items 1A and 1B as part of the Consent Calendar.

Motion: Commissioner Roberts, seconded by Commissioner Weremiuk and unanimously carried 7-0 on a roll call vote.

AYES: Commissioner Calerdine, Commissioner Lowe, Commissioner Middleton, Commissioner Roberts, Commissioner Weremiuk, Vice-Chair Klatchko and Chair Hudson

1A. APPROVAL OF MINUTES: MARCH 11, 2015 STUDY SESSION AND REGULAR MEETING MINUTES

Approved, as submitted. (Vice-Chair Klatchko abstained on the study session and regular minutes.)

1B. PALM SPRINGS PROMENADE, LLC FOR A PARCEL MAP WAIVER TO SUBDIVIDE ONE LOT INTO TWO PARCELS FOR THE PROPERTY LOCATED AT THE NORTHWEST CORNER OF NORTH PALM CANYON DRIVE AND ANDREAS ROAD, ZONE CBD (CASE NO. TPM 36909). (DN)

Approved, as submitted.

1C. BARBARA FOSTER HENDERSON, OWNER REQUESTING A MAJOR ARCHITECTURE APPLICATION FOR THE CONSTRUCTION OF A 4,879-SQUARE FOOT HOUSE ON A HILLSIDE LOT AND AN ADMINISTRATIVE MINOR MODIFICATION REQUESTING AN INCREASE IN BUILDING HEIGHT LOCATED AT 888 LA MIRADA CIRCLE. (CASE 3.3834 MAJ; 7.1455 AMM). (GM)

Assistant Mlaker described the screen wall structure and noted that no objections were received.

JAMES CIOFFI, Cioffi Architect, said his client has a concern with the Cypress trees and requested a condition to return at staff level to replace them.

ACTION: Approve with conditions as amended:

- Allow the applicant to come back with the change in trees at staff level.

Motion: Commissioner Lowe, seconded by Commissioner Weremiuk and unanimously carried on a roll call vote.

AYES: Commissioner Calerdine, Commissioner Lowe, Commissioner Middleton, Commissioner Roberts, Commissioner Weremiuk, Vice-Chair Klatchko and Chair Hudson

2. PUBLIC HEARINGS:

2A. O & M HR, LLC. (NEXUS DEVELOPMENT CORP.) FOR THE DEMOLITION OF AN EXISTING DEVELOPMENT AND PARKING AREA TO CONSTRUCT "ABERDEEN"; A MIXED-USE PROJECT CONSISTING OF (74) ATTACHED AND DETACHED RESIDENTIAL DWELLINGS, (17) LIVE-WORK UNITS AND APPROXIMATELY 1,568-SQUARE FEET OF RETAIL ON 8.05-ACRES LOCATED AT THE NORTHEAST CORNER OF TAHQUITZ CANYON WAY AND CALLE EL

SEGUNDO, ZONE REO AND CU (CASE NOS. 5.1361 PD-375, 3.3820 MAJ AND TTM 36876). (DN)

Associate Planner Newell noted that the description of the project in the agenda has changed and provided an overview of the modifications made to the proposed development.

Technical Questions:

The Commission questioned and/or commented on the following items:

1. Public testimony regarding consideration of the buildings as a historic resource.
2. Parking in the front of the live/work units.
3. Does ordinance allow for Historic designation of buildings? What is the process?
4. Points of access on the east/west street to the live/work units on Palm Canyon?
5. Distance between the buildings.
6. Internal street width requirements.
7. Modification of Calle Alvarado extension.
8. Installation of a traffic signal for two-way access.
9. Setbacks and building height for the townhouses and live/work units

Commissioner Calerdine commented that it would not be fair to the developer to put in all the traffic signals. He suggested the possibility of restricting the access to right turn in / right turn out.

ROB ERES, Nexus Development, applicant, stated that they tried to accomodated as many of the Commission comments as possible. Mr. Eres described the modifications made to the development including incorporating the entire western building into the project. He provided details relating to the setbacks, parking count, pre-wired for solar, Calle Alvarado street width and the public benefit for the community. Mr. Eres requested Condition PSP. 1 be removed in reference to the internal streets and requested an action be taken today.

Commissioner Calerdine noted that the first issue that needs to be addressed is the historic preservation of the building and his first inclination is to deny the project to get a decision from the City Council. He has questions regarding the parking for the live/work units; however, he likes the project and thinks the density is a good idea.

Commissioner Roberts disclosed that he met with the applicant on several occasions. He applauds the applicant's willingness to keep one of the Kaptur buildings given their financial viability.

Commissioner Weremiuk a motion for denial.

Commission comments were made:

Vice-Chair Hudson stated that this project is very problematic and not just because of the Kaptur buildings (retention versus demotion). He continues to have problems with gated communities for high-end townhomes that are private courts. This is a very central location in the city and these projects need to be more porous and welcoming. The parking has been handled better because of the driveways and is a more realistic scenario. The streetscape has one unit type around three sides of the project because of the change that has been made to retain one of the Kaptur buildings and the meandering sidewalk along Andreas was lost. Chair Hudson said the live/work spaces are so close to the sidewalk and noted the specific standards for Section 14. He said they may work on North Palm Canyon but does not think this will be a vibrant artist colony. There are a lot of missed opportunities to treat the Tahquitz frontage in a much more realistic manner. He said these the two buildings are a pair with a breezeway in the middle and recommended to Council to retain at least 50% - one of the buildings. He encouraged Council to demand more diversity in terms of housing types and affordability.

Commissioner Lowe said he agreed with many of the comments and appreciates that 1/4 of the Kaptur building will be preserved. He said preserving 50% of the historic buildings is essential in retaining the original architecture of the project. He commented that Tahquitz is a not a walking street but rather a driving street for the live/work units.

Vice-Chair Klatchko said he has many other concerns such as losing the landscaping on Andreas and perspective drawings were just received today. He noted on the west elevation next to the residential there is only a wall and virtually no landscaping. He said Alvarado Street as a two-way access and inclusion of the Kaptur buildings are significant public benefits. He indicated that the applicant has tried to address the issues.

Commissioner Middleton was very complimentary to Palm Springs Modern for their responsiveness and timeliness in trying to work with the developer on this project. Ms. Middleton said this has been a difficult project and thanked the applicant for being very responsive to what was asked of them. She still has concerns with the viability of the live/work units on Tahquitz Canyon. She said she appreciates more sidewalk space on Tahquitz Canyon and thinks the integration of the remaining Kaptur building is very esthetically pleasing. She spoke in support of the project.

Commissioner Roberts expressed concern about sending mixed messages to the applicant. He said the Commission did not specify which building was to be retained. And in regards to Calle Alvarado, a big area of parking space behind the live/work was created. He can't say if the live/work will be a success - and many conditions could be placed so that it will not be used as storage space. He feels strongly that the applicant has come a long way and made significant changes and sacrifices for this project.

Commissioner Calerdine said there is no real analysis on the historic significance of the buildings. He does not have a concern with the density and the separation of the buildings. He likes the urban style. However, he does not think the parking layout will function for the live/work units.

ACTION: Deny the project based on the following:

- The project does not conform to the development standards of the Section 14 Specific Plan;
- The project does not conform to the development standards of the City's High-Rise Building regulations, and general concerns about building heights in excess of 35 feet;
- Scale of residential buildings with respect to separation and height;
- Concerns regarding the design, parking, setbacks and viability of the live/work space on Tahquitz Canyon Way;
- Inadequacy of the perimeter landscaping;
- Failure to address concerns noted by the Planning Commission at the February 25, 2015 meeting, including but not limited to increased building separation, increased street widths, and unencumbered pedestrian access; and
- Further analysis needed on the historical value of existing Kaptur buildings, and preference to retain two of the four existing buildings.

Motion: Commissioner Weremiuk, seconded by Commissioner Calerdine and carried 4-3-0 on a roll call vote.

AYES: Commissioner Calerdine, Commissioner Lowe, Commissioner Weremiuk, Chair Hudson
NOES: Commissioner Middleton, Commissioner Roberts, Vice-Chair Klatchko

2B. CITY OF PALM SPRINGS TO AMEND THE PALM SPRINGS ZONING CODE (PSZC) SECTIONS 93.20.07 AND 93.20.08 REGARDING REAL ESTATE AND OTHER TEMPORARY SIGNS (CASE 5.1338 ZTA). (FF)

Director Fagg provided an overview on the proposed zone text amendment relative to real estate signs.

The Commission discussed and/or commented on the following items:

1. The original approval was for real estate signs only.
2. Prior discussion on signs is allowed in the public right-a-way.
3. Realtor's concerns for sign coverage.
4. Staff to review Planning Commission video on previous action.

Chair Hudson opened the public hearing and with no speakers coming forward the public hearing was closed.

Vice-Chair Klatchko said that if signs will be allowed in the public right-a-way (not only if it doesn't block the traffic) much more consideration should be given. This has been a problematic issue in the CBD district and suggested further review of the language by the City Attorney.

Commissioner Roberts expressed concern with allowing signs in the public right-a-way (medians) which would create safety issues and enforcement problems.

Commissioner Calerdine said signs should be excluded from any median or within 50 - 100 feet of an intersection or over any part of the sidewalk. However, allowing them in large setback areas that cause no safety issues would be allowed.

ACTION: Continue to a date uncertain and refer to the City Attorney for review.

Motion: Commissioner Weremiuk, seconded by Commissioner Calerdine and unanimously carried on a roll call vote.

AYES: Commissioner Calerdine, Commissioner Lowe, Commissioner Middleton, Commissioner Roberts, Commissioner Weremiuk, Vice-Chair Klatchko, Chair Hudson

3. UNFINISHED BUSINESS:

3A. CONT'D - A MAJOR ARCHITECTURAL APPLICATION BY DENLAR LLC FOR A SINGLE-FAMILY RESIDENCE ON A HILLSIDE LOT LOCATED AT 2110 NORTH LEONARD, ZONE R-1-B (CASE 3.3817 MAJ). (KL)

Table to the next meeting.

PLANNING COMMISSION REPORTS, REQUESTS AND COMMENTS: None.

PLANNING DIRECTOR'S REPORT:

Director Fagg provided an update on the PPD subcommittee.

ADJOURNMENT:

The Planning Commission adjourned at 3:32 pm to Wednesday, April 8, 2015, at 1:30 pm, at the City Hall, Council Chamber, 3200 East Tahquitz Canyon Way.

Flinn Fagg, AICP
Director of Planning Services

PLANNING COMMISSION STAFF REPORT

DATE: March 25, 2015

SUBJECT: PALM SPRINGS PROMENADE, LLC FOR A PARCEL MAP WAIVER TO SUBDIVIDE ONE LOT INTO TWO PARCELS FOR THE PROPERTY LOCATED AT THE NORTHWEST CORNER OF NORTH PALM CANYON DRIVE AND ANDREAS ROAD, ZONE CBD (CASE NO. TPM 36909). (DN)

FROM: Department of Planning Services

SUMMARY

The Planning Commission will consider a waiver of parcel map application for Tentative Parcel Map (TPM) 36909 to subdivide one parcel into two at the northwest corner of North Palm Canyon Drive and Andreas Road. The purpose of the lot split is for financing purposes.

RECOMMENDATION:

Approve, subject to conditions.

ISSUES:

None

BACKGROUND:

The subject site is part of the Palm Springs Promenade / Downtown Redevelopment project and has been referred to as Block "A" under the Museum Market Specific Plan. The parcel is Lot 1 of Parcel Map 36446, which was recently approved by City Council on November 5, 2015. Because there will be adequate improvements on and adjacent to the lots as a result of Map 36446, the applicant has requested that a parcel map waiver (rather than a parcel map subdivision).

Surrounding Property	Existing General Plan Designations	Existing Land Use	Existing Zoning Designations
Subject Property	CBD(Central Business District)	Vacant	CBD
North	CBD	Under Construction	CBD
South	CBD	Under Construction	CBD
East	CBD	Commercial-Retail	CBD
West	CBD	Under Construction	CBD

ANALYSIS:

The existing property is approximately 1.59-acres or 69,260-square feet in size. The existing lot width is 226.95 feet and lot depth is approximately 308 feet. The subdivision will create two parcels:

1. Parcel 1 will be approximately 31,147-square feet in size, 136 feet wide and 226 feet deep.
2. Parcel 2 will be approximately 38,077-square feet in size, 170 feet wide and 226 feet deep.

The proposed parcels are located within the CBD Zone of the Museum Market Plaza Specific Plan (MMPSP). The MMPSP does not specify requirements for minimum lot area, lot width and lot depth. Development on the proposed parcels will be required to standards specified within the Plan.

MAP WAIVER

The applicant has applied for a parcel map waiver with a subsequent action to issue a Certificate of Compliance after the approval of the waiver. The City's Municipal Code outlines the process for a map waiver. Pursuant to the Palm Springs Municipal Code (PSMC) the following sections outline the process:

Section 9.63.160, *Application*:

> *"An application for a* waiver *of a parcel map, pursuant to Section 9.62.015 shall be filed on forms and accompanied by such data and information as may be prescribed by the director of planning and zoning together with an approved description of the real property involved."*

Section 9.63.170, *Referrals*:

> *"Copies of the application may be referred to other appropriate city departments or other public or private agencies affected, together with a request for a written recommendation to be returned to the director of planning and zoning within fifteen working days. Failure to submit such*

written recommendations may be deemed waiver of any objections to the application."

The application was referred to the Engineering department, which stated that parcel map waivers are used when the property to be subdivided into new parcels is already developed (thus, environmental, flood control and other related issues are already mitigated / resolved).

Section 9.62.070, *Waiver of a parcel map:*

"Except where required by the Subdivision Map *Act, no parcel map need be filed or recorded provided that pursuant to the procedure set forth in Chapter 9.63, the planning commission finds and determines that the proposed division of land complies with all applicable requirements as to area, improvement and design, floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection, and all other requirements of the Subdivision* Map *Act and any applicable provisions of this title."*

The Subdivision Map Act allows parcel map waivers for the division of land of less than five parcels as long as the local agency (the City) provides a procedure for waiving the requirement for a parcel map. The Municipal Code sections below outline the procedures for a map waiver.

Section 9.63.180, *Planning commission action*:

"(a) The planning commission shall consider the application within forty-five days after the filing of the application. The planning commission may grant the application, provided that it finds that the proposal complies with applicable requirements as to area, general plan, improvements and design, floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection, and other requirements of this title. The time limit for action may be extended by mutual consent of the subdivider and the director of planning and zoning.
(b) If a parcel map waiver approval is granted, a certificate of compliance shall be filed with the county recorder, which certificate shall describe the real properties involved, name the owners thereof, and state that a parcel map waiver *has been granted by action of the planning commission, giving the date thereof."*

Section 9.63.280, *Issuance when application for* waiver *of parcel map approved:*

"Upon request of the owner of the property, a certificate of compliance may be issued and filed for record for any real property for which an

application for waiver *of the requirement of a parcel map has been approved under this chapter."*

After the Planning Commission makes the required findings for the map waiver, the approval process becomes similar to a Lot Line Adjustment (in that a Certificate of Compliance is issued creating the new parcels proposed as part of the parcel map waiver. The Certificate of Compliance is processed by the Engineering Department at the staff level.)

REQUIRED FINDINGS:

The approval of the map waiver is dependent on the Planning Commission findings that the proposal complies with applicable requirements as to area, general plan, improvements and design, floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection, and other requirements of this title.

1. *Area*

There are no minimum area requirements specified under the Museum Market Plaza Specific Plan. Each parcel will is adequate in size to accommodate development as shown by surrounding properties of similar size or smaller.

2. *General Plan*

The General Plan designation is CBD (Central Business District). The proposed split will allow for development in accordance with this General Plan land use designation.

3. *Improvements and design*

Street improvements are installed along Palm Canyon Drive and will be installed on Belardo Road and Andreas Road in accordance with Parcel Map 36446. No further improvements are required for accommodating the proposed lot split.

4. *Floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, and environmental protection.*

Drainage control, public roads, sanitary facilities, water supply availability and environmental protection were analyzed and addressed as a part of Parcel Map 36446. The proposed lot split will not further affect these criteria.

ENVIRONMENTAL DETERMINATION:

The subdivision of parcels for finance purposes were considered under the Museum Market Plaza EIR. The proposed lot split for financing purposes is consistent with the impacts identified in the EIR and Addendum. No changed circumstances, changes in

the environment or changes in regulations have occurred since the certification of the EIR, the adoption of the Addendum, or actions on the overall project to date. Based on the requirements of the Public Resources Code and the CEQA Guidelines, no additional environmental analysis is required for this project and the mitigation measures previously imposed within the EIR will apply.

CITY OF PALM SPRINGS

CASE NO: TPM 36909

APPLICANT: PS Promenade, LLC

DESCRIPTION: An application for a waiver of parcel map for TPM 36909 to split one parcel into two lots for the property located at the northwest corner of N. Palm Canyon Drive and Andreas Road, Zone CBD, Section 15.

RESOLUTION NO. ____

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF PALM SPRINGS, CALIFORNIA, APPROVING A PARCEL MAP WAIVER TO SUBDIVIDE ONE PARCEL INTO TWO FOR THE PROPERTY LOCATED AT THE NORTHWEST CORNER OF PALM CANYON DRIVE AND ANDREAS ROAD.

WHEREAS, Palm Springs Promenade, LLC (Applicant) has submitted a request that the Planning Commission waive the requirement for a parcel map (TPM 36909), and a request for a Certificate of Compliance to be issued and recorded, to subdivide one parcel into two parcels for the property located at the northwest corner of Palm Canyon Drive and Andreas Road, Zone CBD, Section 15; and

WHEREAS, on March 25, 2015, a public meeting on the map waiver request was held by the Planning Commission in accordance with applicable law; and

WHEREAS, the Planning Commission has carefully reviewed and considered all of the evidence presented in connection with the hearing on the project, including but not limited to the staff report, and all written and oral testimony presented.

THE PLANNING COMMISSION HEREBY FINDS AS FOLLOWS:

Section 1: The Planning Commission approval of TPM 36909 is within the scope of the original Specific Plan EIR adopted on December 2, 2009, and none of the circumstances triggering further environmental review have occurred since the adoption of the EIR, subsequent Addendum and further city approvals related to the overall project. Therefore, no further environmental review is required (Public Resources Code § 21166; California Code of Regulations § 15162.).

Section 2: The proposal complies with applicable requirements as to area, general plan, improvements and design, floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection, and other requirements of this title.

1. Area

There are no minimum area requirements specified under the Museum Market Plaza Specific Plan. Each parcel will is adequate in size to accommodate development as shown by surrounding properties of similar size or smaller.

2. *General Plan*

The General Plan designation is CBD (Central Business District). The proposed split will allow for development in accordance with this General Plan land use designation.

3. *Improvements and design*

Street improvements are installed along Palm Canyon Drive and will be installed on Belardo Road and Andreas Road in accordance with Parcel Map 36446. No further improvements are required for accommodating the proposed lot split.

4. *Floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, and environmental protection.*

Drainage control, public roads, sanitary facilities, water supply availability and environmental protection were analyzed and addressed as a part of Parcel Map 36446. The proposed lot split will not further affect these criteria.

NOW, THEREFORE, BE IT RESOLVED that, based upon the foregoing, the Planning Commission hereby approves the parcel map waiver for TPM 36909, subject to the conditions set forth in the attached Exhibit A.

ADOPTED this 25th day of March, 2015.

RESOLUTION NO. ____

EXHIBIT A

TPM 36909

Palm Springs Promenade, LLC
NW Corner of North Palm Canyon Drive and Andreas Road

March 25, 2015

CONDITIONS OF APPROVAL

Before final acceptance of the project, all conditions listed below shall be completed to the satisfaction of the City Engineer, the Director of Planning Services, the Chief of Police, the Fire Chief or their designee, depending on which department recommended the condition.

Any agreements, easements or covenants required to be entered into shall be in a form approved by the City Attorney.

PLANNING

ADMINISTRATIVE

ADM 1. Project Description. This approval is for the project described per Case TPM 36909 Parcel Map Waiver, except as modified by the conditions below.

ADM 2. Parcel Map Waiver. This approval is for Parcel Map Waiver TPM 36909, date stamped February 19, 2015, located at the northwest corner of North Palm Canyon Drive and Andreas Road. This approval is subject to all applicable regulations of the Subdivision Map Act, the Palm Springs Municipal Code, and any other applicable City Codes, ordinances and resolutions.

ADM 3. Minor Deviations. The Director of Planning or designee may approve minor deviations to the project description and approved plans in accordance with the provisions of the Palm Springs Zoning Code.

ADM 4. Indemnification. The owner shall defend, indemnify, and hold harmless the City of Palm Springs, its agents, officers, and employees from any claim, action, or proceeding against the City of Palm Springs or its agents, officers or employees to attach, set aside, void or annul, an approval of the City of Palm Springs, its legislative body, advisory agencies, or administrative officers concerning Parcel Map Waiver TPM 36909. The City of Palm Springs will promptly notify the applicant of any such claim, action, or proceeding against the City of Palm Springs and the applicant will either undertake

defense of the matter or pay the City's associated legal costs or will advance funds to pay for defense of the matter by the City Attorney. If the City of Palm Springs fails to promptly notify the applicant of any such claim, action or proceeding or fails to cooperate fully in the defense, the applicant shall not, thereafter, be responsible to defend, indemnify, or hold harmless the City of Palm Springs. Notwithstanding the foregoing, the City retains the right to settle or abandon the matter without the applicant's consent but should it do so, the City shall waive further indemnification hereunder, except, the City's decision to settle or abandon a matter following an adverse judgment or failure to appeal, shall not cause a waiver of the indemnification rights herein.

ADM 5. Time Limit on Approval. Approval of the Parcel Map Waiver (TPM 36909) shall be valid for a period of two (2) years from the effective date of the approval, unless an extension is granted by the Subdivision Map Act and / or the Planning Commission. Extensions of time may be granted by the Planning Commission upon demonstration of good cause.

ADM 6. Right to Appeal. Decisions of an administrative officer or agency of the City of Palm Springs may be appealed in accordance with Municipal Code Chapter 2.05.00. Permits will not be issued until the appeal period has concluded.

ENGINEERING DEPARTMENT

Before final acceptance of the project, all conditions listed below shall be completed to the satisfaction of the City Engineer.

MAP

ENG 1. The applicant shall submit an application to the Engineering Division for a Certificate of Compliance, prepared by either an appropriately licensed registered Civil Engineer or a Land Surveyor. The Certificate of Compliance shall be approved prior to issuance of a building permit on Parcel 2

JUSTIFICATION LETTER
PARCEL OR TENTATIVE TRACT MAP

A Justification Letter explaining your application will be included in the materials reviewed by the Planning Commission; multiple related applications may be addressed in a single comprehensive letter. This letter may be prepared by the applicant or a representative. The following format is provided to assist you in the preparation of this letter.

Project Description:
Please provide a detailed description of the project. Include items such as intended use of the property; possible environmental impacts; and architectural changes.

Information:
Please provide the following information and any other that will assist the Planning Commission in making their decision:

- Number of employees / residents
- Number of lots
- Any existing similar uses owned or operated by the applicant and their location
- Range or sale prices / rents
- Number of clients, patrons, shoppers, etc...

Findings:
Please describe in detail how the project meets/supports existing City regulations for ALL of the findings of approval of each application type per the Palm Springs Zoning Ordinance.

The Justification Letter must have original signature of named owner, applicant or representative identified as such.

Note: Palm Springs Zoning Code (PSZC) Finding Sections as follows:

- Administrative Minor Modification: 94.07.00(B)(2)
- Change of Zone: 94.07.00(A)
- Conditional Use Permit: 94.02.00(B)(6)
- Minor / Major Architectural: 94.04.00(D)
- Planned Development District: 94.02.00(B)(6)
- Parcel or Tentative Tract Map: 9.63.070

PSZC can be found on the Planning Services web page at www.palmspringsca.gov

CITY OF PALM SPRINGS

DEPARTMENT OF PLANNING SERVICES

DEVELOPER NEIGHBORHOOD PROCEDURES

The City of Palm Springs strongly recommends that project applicants meet with surrounding property owners and Neighborhood Organizations located in or near the project to solicit input in the beginning stage of the design and development process.

Some of the benefits that can result from early consultation with the neighbors:

- Neighborhood feedback can strengthen projects and add value to final results.
- Neighborhood feedback may prevent problems at a later stage in the development process, often avoiding expensive delays.
- The Planning Commission and the City Council prefer to know that development applicants have contacted Neighborhood Organizations and sought their input.

APPLICANT'S STEPS TO TAKE FOR ANY NEIGHBORHOOD MEETING:

SETTING UP

- Meeting should be held at least 7 days prior to the Architectural Advisory Committee or Planning Commission meeting (whichever comes first).
- Determine a place and time for your meeting, within the following guidelines:

  Time: Start between 5:30 p.m. – 6:30 p.m.

  Days: Monday, Tuesday, or Thursday only.

  Place: Use a commercial or public location (not a private residence), as close as possible to the project location, and located within the city.

- Prepare notice with contents:

  a. Thorough description of proposed project. Include "From . . . To . . .," street address and / or Assessor Parcel Number.
  b. Date of meeting.
  c. Time of meeting: Provide a start time, but do not list an end time.

d. Place of meeting: Include room number / name and directions.
e. Contact name and phone number for night of meeting for directions / questions (contact number must be available up to and during the time of the meeting).
f. Tentative date of Architectural Advisory Committee or Planning Commission meeting.

- Fax or E-notice meeting information to the Department of Planning Services 760-322-8360. City staff will assess for suitability of time and location. Approval or corrections to notice will be faxed back within 1-2 working days.

MAILING

- Approved notices are to be mailed to all property owners and Lessees and Sub-Lessees (as recorded with the Riverside County Assessor's office) within five hundred (500') of subject property and electronically mailed to City of Palm Springs registered Neighborhood Organizations within one half mile of subject property.

- Notices should be postmarked at least 10 days prior to the neighborhood meeting date.

MEETING

- Applicant and/or representative(s) to conduct the meeting, answer questions and open and close the facility. City staff will attend, but only to monitor.

- Applicant to have someone available to answer the phone number given at least one half (1/2) hour before and after the start time regardless of attendance.

- Applicant to remain on-site at least one half (1/2) hour after the start time regardless of attendance.

STAFFING

- City staff will attend the meeting to observe only. They will be available to answer technical questions as necessary

FILING

- Applicant to complete the Neighborhood Meeting Affidavit indicating time and date of meeting and attach the mailing list used along with a copy of the notice.

- Deliver affidavit and mailing list to the Department of Planning Services, at least seventy-two (72) hours prior to the Architectural Advisory Committee or Planning Commission meeting (whichever comes first).

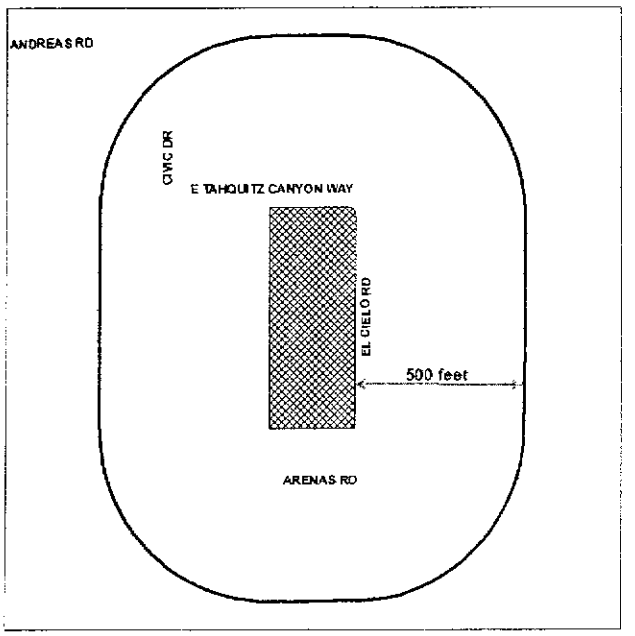
PUBLIC HEARING NOTICE REQUIREMENTS

This project requires a public hearing.

The applicant is required to obtain the following information from a certified title company. Incorrect or insufficient information may delay the development proposal.

1. Three (3) sets of typed, self-adhesive labels including assessor's parcel number and mailing addresses for properties within a 500-foot radius of the subject property and one copy of the list on plain white paper.
2. All mailing addresses of owners within a condominium project must be included in the three (3) sets of labels if any portion of the complex is affected by the 500-foot radius.
3. A list of parcels owned by Tribal Indian members owners if applicable. Contact the Bureau of Indian Affairs for information.
4. Labels for the project owner, engineer, architect, etc.
5. Assessor's parcel maps showing the 500-foot radius drawn neatly and accurately with the subject property identified.
6. A certified letter from the title company verifying property owner accuracy.

Example of required map:



Note: Palm Springs Zoning Code Public Hearing notice:

PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. *The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties.* Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of January 26, 2015 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

To Be Determined

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest at the date hereof is vested in:

Palm Springs Promenade, LLC, a California limited liability company

The estate or interest in the land hereinafter described or referred to covered by this Report is:

Fee Simple

The Land referred to herein is described as follows:

(See attached Legal Description)

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

1. General and special taxes and assessments for the fiscal year 2015-2016, a lien not yet due or payable.

2. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

3. Water rights, claims or title to water, whether or not shown by the public records.

4. The effect of a notice of existence of the Whitewater Watershed Benefit Assessment District which provides for the issuing of bonds and the levying of a special tax to pay the interest and principal payments on such bonds upon the herein described property, recorded June 10, 1991 as Instrument No. 193750 of Official Records of Riverside County, California, reference hereby being made to the record for full particulars.

5. An easement for ditches and incidental purposes, recorded April 22, 1885 in Book 50, Page 91 of Deeds, Records of San Diego County.
   In Favor of: Palm City Land Company
   Affects: As described therein

6. An easement for flumes, ditches and incidental purposes, recorded August 10, 1887 in Book 68 of Deeds, Page 471 Records of San Diego County.
   In Favor of: Palm Valley Land and Water Company
   Affects: As described therein

The location of the easement cannot be determined from record information.

7. An easement for either or both pole lines, conduits or underground facilities and incidental purposes, recorded December 01, 1967 as Instrument No. 105776 of Official Records.
In Favor of: California Water and Telephone Company
Affects: As described therein

First Installment:	$14,128.59, PAID
Penalty:	$0.00
Second Installment:	$14,128.59, PAID
Penalty:	$0.00
Tax Rate Area:	011-008
A. P. No.:	513-560-018-7

2. This report is preparatory to the issuance of an ALTA Loan Policy. The property covered by this report is vacant land.

3. According to the public records, there has been no conveyance of the land within a period of twenty-four months prior to the date of this report, except as follows:

   None

4. This preliminary report/commitment was prepared based upon an application for a policy of title insurance that identified land by street address or assessor's parcel number only. It is the responsibility of the applicant to determine whether the land referred to herein is in fact the land that is to be described in the policy or policies to be issued.

5. Should this report be used to facilitate your transaction, we must be provided with the following prior to the issuance of the policy:

   A. WITH RESPECT TO A CORPORATION:
      1. A certificate of good standing of recent date issued by the Secretary of State of the corporation's state of domicile.
      2. A certificate copy of a resolution of the Board of Directors authorizing the contemplated transaction and designating which corporate officers shall have the power to execute on behalf of the corporation.
      3. Requirements which the Company may impose following its review of the above material and other information which the Company may require.

   B. WITH RESPECT TO A CALIFORNIA LIMITED PARTNERSHIP:
      1. A certified copy of the certificate of limited partnership (form LP-1) and any amendments thereto (form LP-2) to be recorded in the public records;
      2. A full copy of the partnership agreement and any amendments;
      3. Satisfactory evidence of the consent of a majority in interest of the limited partners to the contemplated transaction;
      4. Requirements which the Company may impose following its review of the above material and other information which the Company may require.

   C. WITH RESPECT TO A FOREIGN LIMITED PARTNERSHIP:
      1. A certified copy of the application for registration, foreign limited partnership (form LP-5) and any amendments thereto (form LP-6) to be recorded in the public records;

2. A full copy of the partnership agreement and any amendment;
3. Satisfactory evidence of the consent of a majority in interest of the limited partners to the contemplated transaction;
4. Requirements which the Company may impose following its review of the above material and other information which the Company may require.

D. WITH RESPECT TO A GENERAL PARTNERSHIP:

1. A certified copy of a statement of partnership authority pursuant to Section 16303 of the California Corporation Code (form GP-I), executed by at least two partners, and a certified copy of any amendments to such statement (form GP-7), to be recorded in the public records;
2. A full copy of the partnership agreement and any amendments;
3. Requirements which the Company may impose following its review of the above material required herein and other information which the Company may require.

E. WITH RESPECT TO A LIMITED LIABILITY COMPANY:

1. A copy of its operating agreement and any amendments thereto;
2. If it is a California limited liability company, a certified copy of its articles of organization (LLC-1) and any certificate of correction (LLC-11), certificate of amendment (LLC-2), or restatement of articles of organization (LLC-10) to be recorded in the public records;
3. If it is a foreign limited liability company, a certified copy of its application for registration (LLC-5) to be recorded in the public records;
4. With respect to any deed, deed of trust, lease, subordination agreement or other document or instrument executed by such limited liability company and presented for recordation by the Company or upon which the Company is asked to rely, such document or instrument must be executed in accordance with one of the following, as appropriate:
   (i) If the limited liability company properly operates through officers appointed or elected pursuant to the terms of a written operating agreement, such documents must be executed by at least two duly elected or appointed officers, as follows: the chairman of the board, the president or any vice president, and any secretary, assistant secretary, the chief financial officer or any assistant treasurer;
   (ii) If the limited liability company properly operates through a manager or managers identified in the articles of organization and/or duly elected pursuant to the terms of a written operating agreement, such document must be executed by at least two such managers or by one manager if the limited liability company properly operates with the existence of only one manager.
5. Requirements which the Company may impose following its review of the above material and other information which the Company may require.

F. WITH RESPECT TO A TRUST:

1. A certification pursuant to Section 18100.5 of the California Probate Code in a form satisfactory to the Company.
2. Copies of those excerpts from the original trust documents and amendments thereto which designate the trustee and confer upon the trustee the power to act in the pending transaction.
3. Other requirements which the Company may impose following its review of the material require herein and other information which the Company may require.

G. WITH RESPECT TO INDIVIDUALS:

1. A statement of information.

The map attached, if any, may or may not be a survey of the land depicted hereon. First American Title Insurance Company expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of the title insurance policy, if any, to which this map is attached.

LEGAL DESCRIPTION

Real property in the City of Palm Springs, County of Riverside, State of California, described as follows:

PARCEL 1 OF PARCEL MAP NO. 36446, AS FILED IN BOOK 238, PAGES 31 THROUGH 34 INCLUSIVE, RECORDS OF RIVERSIDE COUNTY, CALIFORNIA.

APN: 513-560-018

The First American Corporation
First American Title Company
Privacy Policy

We Are Committed to Safeguarding Customer Information
In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information - particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our parent company, The First American Corporation, we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability
This Privacy Policy governs our use of the information which you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity. First American has also adopted broader guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its Fair Information Values, a copy of which can be found on our website at www.firstam.com.

Types of Information
Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information
We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies, and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies, or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers
Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security
We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American's Fair Information Values. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (02-03-10)
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   (a) building; (d) improvements on the Land;
   (b) zoning; (e) land division; and
   (c) land use; (f) environmental protection.
   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   (a) that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   (b) that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   (c) that result in no loss to You; or
   (d) that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   (a) to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   (b) in streets, alleys, or waterways that touch the Land.
   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows: For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1% of Policy Amount or $2,500.00 (whichever is less)	$10,000.00
Covered Risk 18:	1% of Policy Amount or $5,000.00 (whichever is less)	$25,000.00
Covered Risk 19:	1% of Policy Amount or $5,000.00 (whichever is less)	$25,000.00
Covered Risk 21:	1% of Policy Amount or $2,500.00 (whichever is less)	$5,000.00

ALTA RESIDENTIAL TITLE INSURANCE POLICY (6-1-87)
EXCLUSIONS

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning:
   (a) and use
   (b) improvements on the land
   (c) and division
   (d) environmental protection
   This exclusion does not apply to violations or the enforcement of these matters which appear in the public records at Policy Date.
   This exclusion does not limit the zoning coverage described in Items 12 and 13 of Covered Title Risks.
2. The right to take the land by condemning it, unless:
   (a) a notice of exercising the right appears in the public records on the Policy Date
   (b) the taking happened prior to the Policy Date and is binding on you if you bought the land without knowing of the taking

3. Title Risks:
   (a) that are created, allowed, or agreed to by you
   (b) that are known to you, but not to us, on the Policy Date -- unless they appeared in the public records
   (c) that result in no loss to you
   (d) that first affect your title after the Policy Date -- this does not limit the labor and material lien coverage in Item 8 of Covered Title Risks
4. Failure to pay value for your title.
5. Lack of a right:
   (a) to any land outside the area specifically described and referred to in Item 3 of Schedule A OR
   (b) in streets, alleys, or waterways that touch your land
   This exclusion does not limit the access coverage in Item 5 of Covered Title Risks.

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
      i. the occupancy, use, or enjoyment of the Land;
      ii. the character, dimensions, or location of any improvement erected on the Land;
      iii. the subdivision of land; or
      iv. environmental protection;

      or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
   e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   a. a fraudulent conveyance or fraudulent transfer, or
   b. a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to

   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement erected on the Land;
   iii. the subdivision of land; or
   iv. environmental protection;

   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

   b.Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at Date of Policy, but known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
   e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   a. a fraudulent conveyance or fraudulent transfer, or
   b. a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (07-26-10)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement erected on the Land;
   iii. the subdivision of land; or
   iv. environmental protection;

   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

   b. Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters

   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
   e. resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   a. a fraudulent conveyance or fraudulent transfer, or
   b. a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.

RE: Response to Comments to Museum Market Plaza FEIR and Addendum

Dear Mr. Holland:

As you know, this office represents John Wessman and Palm Springs Promenade, LLC, the owner of the property currently known as the Desert Fashion Plaza. The purpose of this letter is to respond to a letter from Kimberly Huangfu of Buchalter Nemer to Craig Ewing dated November 28, 2012, stating the opposition of North First Street Properties, LP to the Final Environmental Impact Report and Addendum for the Downtown Palm Springs Museum Market Plaza Specific Plan.

Much of Ms. Huangfu's comments appear to be directed at criticism of the Final Environmental Impact Report (FEIR) that was certified in 2009. It is therefore important to note that when the FEIR was certified, the City posted a Notice of Determination, triggering the statutory thirty (30) day challenge period for that decision. No challenge was ever filed within the statutory period, and therefore, under CEQA, the approval is conclusively presumed to be valid for all purposes (Pub. Res. Code 21080.1, 21167.2.) Ms. Huangfu's letter, which claims that the FEIR did not contain a sufficient project description, aside from being meritless, is also long overdue and now moot.

Ms. Huangfu references Cal. Pub. Res. Code 21167(c) in her claim that the statute of limitations for legal challenge of the Addendum is 180 days because the City did not file a Notice of Determination (NOD) with the State Office of Planning and Research. This claim is simply incorrect, as under Pub. Res. Code 21167(c), 21108(a) and 21152(a), filing the NOD with the Office of Planning and Research in order to shorten the statute of limitations to 30 days is required only if the project is approved by a state agency. Projects approved by a local agency, such as the City, need only file with the County Clerk in order to trigger the shorter 30 day statute of limitations. In this case, the City filed an NOD for the Addendum on October 18, 2012 with the County

The site chosen by Mr. Wessman is not suitable for such a hotel. Nothing on the old Fashion Plaza site should be over two stories in height. If approved as proposed, it will come home to haunt Palm Springs in the future.

Some years ago Mr. Wessman was turned down on his application to build a similar hotel on his personally owned property (southwest corner of Tahquitz Canyon Way and Cahilla Rd.), which is no more than 100 yards due west of where he hopes to use "Measure J" funds to construct a Kimpton Hotel. Should the city decide to approve a downtown multistory-hotel, let it be built on Wessman's own property, *using his own money. Yes, the old Fashion Plaza buildings must be torn down, and* streets, open areas, and low-scaled buildings put in their place; "Measure J" taxes are paying for all that to be accomplished. However, Palm Springs appears to be heading toward making the same mistakes as were perpetrated when the Desert Fashion Plaza was foist upon us some 25 years ago. A multistory Kimpton Hotel is not as someone wrote in Sunday's Desert Sun: "the key to our future." The key will be when we recognize; Palm Springs' future is in being Palm Springs and not some trumped-up architectural mishmash. For several years, I have suggested to the mayor, we need to *take the time to do some real visioning and construct scenarios of what Palm Springs* will likely be in the next 25 to 50 years. That way, what is built today, will be relevant in the future. Nothing more than two story structures should be built on the old Fashion Plaza property. When the City agreed to purchasing the parking garage, and then paying for the roads, infrastructure and low-rise buildings they were not approving the taxpayers financing a multi-story hotel for Mr. Wessman.

Case #_____

Addendum as compared to the FEIR. On that basis, the CEQA guidelines indicate that at most, an Addendum is appropriate.

Once an EIR for a project is approved and beyond challenge, the City's determination of whether a further EIR is required will be upheld as long as its decision is supported by substantial evidence (*Moss v County of Humboldt* (2008) 162 CA 4th 1041, 1058.) In this case, the evidence shows that the Addendum presents a less dense and impactful project overall as compared to the level of development analyzed in the FEIR for the same blocks. The evidence before the City further showed that in the one area of possible new impacts, that of visual impacts, the City required and considered view shed studies of the FEIR as compared to the Addendum, and based on that substantial evidence, reasonably found that the impacts of the Addendum were no greater than those analyzed in the FEIR, nor did the Addendum create new impacts not previously analyzed. As a result, and contrary to the assertions made by Ms. Huangfu, the City's action in approving the Addendum was wholly proper under CEQA, and the City is entitled to rely upon the approved FEIR, as modified by the Addendum, in considering specific development projects within the Museum Market Plaza.

We would ask that this letter be made of part of the administrative record in this matter and provided to the Planning Commission Members.

Sincerely,

Emily Perri Hemphill

Clerk, thereby triggering the 30 day statute of limitations, making Ms. Huangfu's comments on the Addendum also untimely.

Despite the procedural and legal deficiencies of Ms. Huangfu's objections, we would also like to address the substance of the issues raised.

As you know, in 2009, the City certified the FEIR for the Museum Market Plaza and that document was not challenged within the allowable challenge period, making it now conclusively presumed valid. Contrary to the assertions in Ms. Huangfu's letter, CEQA includes a strong presumption against requiring further environmental review once an EIR has been certified for a project. (Pub. Res. C 21166.) Under CEQA and the implementing Guidelines, a proposed change to a project that has undergone an approved EIR will trigger the preparation of a supplemental or subsequent EIR only if four conditions are all found to exist:

1) The change to the project is substantial
2) The changes involves new or more severe significant environmental impacts
3) The change will require major revisions to the EIR because of the new or more severe significant impacts
4) The new or more severe impacts were not considered in the approved EIR.

In the current situation, the original FEIR analyzed the maximum density project that could be constructed within the bounds of the Museum Market Plaza Specific Plan (MMP SP). The original FEIR analyzed for 1,443,000 square feet of mixed retail/office/restaurant/residential space within the blocks covered by the Addendum. The Addendum and its modifications reduce the amount of development within the same geographic area by 57,000 square feet. Therefore, while the Addendum relocates certain uses, it does not increase the overall density of development within the Specific Plan Area, nor does it modify traffic patterns within that area. As a result, the City reasonably could and did find that the Addendum's impacts with respect to traffic, air quality, water quality, utilities, public services and the other topics covered in the FEIR would be equal to or less than those studied in the FEIR, and therefore, no supplemental or subsequent EIR was proper.

The one issue that the City felt should be considered was that of aesthetics/visual impacts because relocation of buildings could change the impacts of the project from a visual standpoint. Toward that end, the City did require revised view shed analyses showing the difference between the visual impacts under the FEIR and under the new Addendum. Having studied that analysis, the City concluded that the impacts from an aesthetic/view standpoint were the same or better from the proposed

To: The Mayor, the City Council. The Planning Commission and the Architectural Advisory Committee.

I am confused. Very confused, actually, about the overhaul of the Desert Fashion Plaza. And, if I am, I'm sure there are others who are also confused. Erica Felci's article in this morning's Desert Sun brought it to a head for me.

When we were being sold the plans for the Plaza and also for Measure J, I don't recall a six story hotel in the mix. I do recall a movie theatre and/or a bowling alley. But not a six story hotel with a pool and bar on top, which, in essence, makes it, seven stories. The last time I heard about a tall hotel with a pool and bar on top was when John Wessman was trying to build one next to Casa Cody and Ginny insisted on story poles. Has he just moved it across the street? That doesn't cut the height any.

So, this afternoon, I went to the city website and read the Faqs (from where did THAT spelling come?) and I tried to reconcile them with the "conceptual" maps – two of them - A and A-1. The Faqs say the hotel is on the back of lot A. But the maps didn't have a lot A. They did have lots A-1 and A-2. So I'm guessing it is the one next to the Hyatt. But I shouldn't be guessing – I should be able to be certain. If it is next to the Hyatt that seems like it will give a citadel effect – sort of like a Rock of Gibraltar in the middle of downtown. That will certainly block views. And what of the "view corridors" about which we heard so much? That doesn't sound like corridors to me but, then, I may have it all wrong because of the "conceptual" maps.

Are the two renderings on the website what is really planned or are they "conceptual" too? Chris is quoted in this morning's paper as saying, "Archtecture can be fixed." Oh! I certainly wouldn't order a new house from a contractor without seeing the floor and site plans and a rendering of what it would look like. Why should anyone buy this without definite plans and drawings? I'm afraid we are going to get a duplicate of what is being torn down. Then we would be giving Wesswman and Co. a lot of money for what we already have.

And what about parking? From "the conceptual" maps it appears that all of the street level parking is gone. As I recall, that underground parking doesn't hold THAT many cars. And, in this day and age, who wants to go underground at night? With all of those

Planning Commission Meeting

shops and restaurants and a hotel, and outdoor gathering place, it seems as though parking will be a nightmare.

I'd sure like to know some definites instead of some concepts that "can be fixed".

Sincerely,

Jack Moore

To Mr. Jay Thompson, I think the plans for the new downtown hotel are atrocious. What are the people on that planning committee thinking of? Downtown does not need a seven story hotel in that spot, maybe a two story & set back a bit. Plus, it needs to conform to the charm of the whole downtown area. I'm sure most of you have been to La Jolla in San Diego? I grow up in La Jolla, and I watched developers totally destroy a beautiful small village. They tore down all the cute shops, and put up big black bldgings, and restaurants that donot blend in, and parking is a nightmare. Before I moved from La Jolla, I started walking into downtown because it was impossible to park anywhere. So please don't do the same with downtown Palm Springs. Thank You Patrick Keating-----Rancho Mirage, Ca.

Subject: Downtown development

Dear All,
I know this will NOT come as a surprise to any of you but I feel the need to register a strong protest against the proposed hotel on the site of The Desert Inn. (And I hope that you will at least read the message despite the messenger!)

Firstly, when the people of Palm Springs were asked to tax themselves in order to pay for development, they were told they would be getting boutique shopping, perhaps an Apple store and loads of entertainment venue.
Now they are getting an extra street which they will have to pay to maintain AND no theatres.

Secondly, the people were most certainly NOT told that there would be a block-long, seven story hotel which would run parallel to the mountains thus blocking all views. Apparently, only tourists will have the right to see the O'Donnell House, the foothills or the Museum.....which was another argument for putting in another new street.

Thirdly, the design is lacking. It is a very ordinary (albeit very LARGE), standard-issue, big-city downtown model! I read the New

York Times daily and check out glossy magazines regularly; in three out of every four issues of the travel section(s), a full-page article is devoted to out-of-the-way, exotic places which are

1) devoted to health and well-being
2) respectful of the environment
3) taking full advantage of the beauty of the land around it
4) NOT "selling" hustle and bustle.

Unfortunately, the direction this hotel would be taking us is away from all that we already offer. The wheel does NOT need to be re-invented.

As someone who did NOT vote for Measure J, I am not surprised by any of this. We have a lot of history to tell us that something exactly like this would transpire. But I am disappointed that there is, seemingly, a rush to get this approved whether the people, the AAC or any other commission wish to see it happen. The "outreach" on the night of the first presidential debate was not only ill-timed but it had mixed reviews at best.

What about the crying need for story poles in this instance? What about a 3-D presentation so the true impact could be better assessed? We have all complained that the defunct Fashion Plaza was ill-advised and brought us decades of pain and shouts of recrimination. I am sincerely afraid that this will have the same result.

Thank you for your time,

Roxann Ploss

Roxanne: Once again you make several great point with which I agreee.

This, of course, you know is special territory to me and I want to see it treated is a special way to be reflective of all that was and is good about Palm Springs!

I am supporting Measure J in a different way. I bought two of the bonds. This should entitle me to some say in what is done.

1. This proposed plan is not what for presented to the population as a downtown full of charming shops, restaurants, and entertainment venues. We do not need more street in the project.

2. We should have long ago learned the lesson that building the Hyatt did. Jeremy Crocker told people that it would block the view of the mountain and make the shops on the east side of Palm Canyon Drive dreary. Sure enough! That's just what happened. The stores there aren't lively and busy. Just look the blocks to the south where there is a view of the mountain. The 100 South block is busy. The 200 South block is jammed with patrons and lively all the time. The mountain is the magnet!

We villagers have repeatedly said that we don't want smoke stacks in the heart of our center. I believe that the Agua Calientes will not allow this type of structure on Section 14. They want the area to be open and have a view.

Why shouldn't we be able to see our mother earth mountain? Why is it only for tourists? This would certainly block the O'Donnell's view of the desert.

Those who stay at the Tennis Club area hotels would not like to see a tower in their view and have those in the tower invading their privacy in their bit of paradise!

The buildings are so non descript. At the street the building should only be one story high. The second story should have to be back from the front at least 40 feet. Each additional story needs to be set back as well. Nothing should be taller than 3 floors that are 30 feet in height.

The planners should be designing something that looks like our historical Mediterranean architecture and match the O'Donnell house.

We certainly don't need any steel and glass boxes.

3. People are not looking for giant hotels. They can get that in any big city or Las Vegas. Just look at how well the Hotel California on the south end and all of the Tennis Club area hotels are doing.

4. People want small intimate places that give individual attention. They don't want hustle.

I don't know anyone who thinks that this plan is an asset or likes the design.

How can we get plenty of people to tell the City, "Stop. This won't work. We will have years more of emply places with this."?

Come on, folks, learn the lessons that the last 40 years of history should have taught us. Carmel is doing quite well and it isn't planning multi story hotels.

Thanks, Roxann, for speak up. We need a ground swell of help to make this a

memorable project that will be a legacy for generations to come.

Kitty

Re: Downtown Palm Springs Redesign
Desert Fashion Plaza (DFP) Demolition and Rebuild

I am writing about the current plan for downtown revitalization as presented this week to the Architectural Advisory Committee (AAC) and Palm Springs Planning Commission (PC). I am writing as a citizen, taxpayer, homeowner, and proponent of Measure J which allowed this project to move forward, and not as the representative of the neighborhood organization I formerly chaired.

The current DFP proposal raises serious questions about the promises made to Palm Springs residents by the City Council and Mayor in order to get the necessary funding for this project. They also belie the Mayor's election promise to dedicate himself to transparency in government. The seeming rush to slam this proposal through does not inspire confidence or respect.

There are significant problems with the current proposal that mandate a relaxation of project timeframes to allow for adequate public input and evaluation. The AAC and the PC must be allowed the time to do the important work the citizens of Palm Springs count on them to accomplish. The worst decisions on Palm Springs history were those in which the Mayor and Council ignored the advice of these important commissions. It would be a tragedy if history were allowed to repeat itself in this instance. This is how we got the Desert Fashion Plaza to begin with, as well as the dreadful Shadowrock development proposal City Council pushed through, only to be reversed by a ballot initiative that overturned Council's decision by a 2-to-1 majority vote.

Currently, the most important and relevant fact right now is that no one – not a single citizen of Palm Springs – ever signed on for a project resembling the one currently on the table, because no such plan was ever presented.

THE FIRST PASS

Before the passage of Measure J, the public was invited to three wine and cheese soirees held at the convention center and billed as "visioning sessions." At those sessions, the only discussion regarding building height for the proposed DFP remodel centered on a collection of structures that were well within the general 60-foot height limit of the specific plan. In addition, the public was promised world class architecture, and shown renderings prepared by Rios, Clementi, Hale, an award-winning Los Angeles architectural firm, of what the new downtown would look like.

Then, after the tax measure was passed, the developer hired a Phoenix firm and not the firm used to sell Measure J. This move did not inspire confidence. Then on November 13, 2012 at 3 p.m. AAC met for a "first pass" review of the presentation. The

staff placed the review of this proposal as the 8th item on a calendar of 8 items, when as the most important issue to come before the city in 25 years, it should clearly have been first. To add insult to injury, the public was informed just before discussions began that the entire item had to be wrapped-up in 35 minutes because the borrowed room needed to be vacated. This clearly seems to be an orchestrated attempt to stifle public input; this sort of thing does not happen by accident.

At this meeting, the public had their first chance to see the proposed redesign. The four members of the public who gave testimony all objected to the proposed 90-foot height of the hotel. But no member of the general public can be expected to assimilate or grasp the implications of relatively complex architectural renderings on a first viewing. No models were presented, only elevations and selected renderings. And the staff report prepared in advance by the Planning Director omitted many details. No demolition plan was presented (although I do not believe anyone would object to moving demolition forward now).

Although there is a one-line footnote in the Museum Market Plaza Specific Plan (SP) that allows a hotel to exceed the 60-foot height limit with City Council approval, the current proposal clearly violates both the letter and the intent of the General and Specific plans. Heretofore there was no discussion of a 90-foot tall building. It should come as no surprise that many residents will consider the current proposal to be a betrayal of the public trust. Public funds are paying for this project.

NON-CONFORMANCE WITH SPECIFIC AND GENERAL PLANS

On December 2, 2009 Palm Springs passed the Museum Market Plaza Specific Plan which amended the 2007 General Plan and its 2005 Downtown Development Guidelines. The current DFP remodel proposal conflicts with our (GP) in several critical ways. Section I of the GP states the priorities of the plan are to "strengthen and promote those things that make Palm Springs a one-of-a-kind resort destination" and "promote development that enhances scenic views and provides visual and physical access to the city's surrounding mountains and...other scenic and natural resources." (pp. 1-12 and 1-13) The proposal on the table does not conform to these basic requirements.

The GP section on PDDs (page 1-18) requires project sponsors to "mitigate any impacts that would be generated by the modifications" proposed to existing building codes and zoning. The October 17, 2012 amendment to the SP alleges the current plan qualifies under the existing Environmental Impact Report (EIR), yet no 90-foot hotel project was ever presented during the EIR review process and this plan fails the test of reasonableness required for re-certification of a "neg dec."

The Land Use section of the GP (Section 2) permits "43 hotel rooms per net acre; it also states that such hotel projects "should be designed to be compatible with neighboring development." The 2009 SP allows up to 70 units per acre for hotel use. The 2012 revision to the SP allows the developer to negotiate for a hotel of "170 plus" rooms. The current proposal for 180 rooms and their configuration is not compatible with surrounding development, unless you consider the Hyatt Hotel, commonly seen as most insensitive and inappropriate commercial structure in downtown.

Appendix A to the GP covers the Downtown Urban Design Plan (DUDP) which requires developers to "protect or create public view corridors" and states that building

frontages should be relieved with occasional courtyards, passageways, patios, and setbacks." Some such relief is included in the current proposal, but none can be found in the hotel which has no setback on the new Belardo Road frontage at all and only the porte cochere setback and four-story monumental entrance element on the Tahquitz side. It is otherwise a vertical monolith that shoots directly upward from its foundations.

The 2012 revision to the SP says, "Each of the component blocks must be effectively permeated with public and private open spaces, allowing view corridors from the public domain and thus avoiding the creation of an overwhelming and impenetrable built form."

It also says, "Hotels may exceed 60 feet only with sympathetic massing and effective architectural treatment to visually reduce building bulk." It continues with, "Building elements throughout the Specific Plan must be varied to include stepping down so the apparent mass of the building is reduced, austere 'cliff-face' frontages avoided, and view corridors created." This passage could have been written specifically to eliminate the hotel design now on the table.

The DUDP also says "stepped building setbacks should be used in taller building to preserve/enhance existing view corridors." It specifies that land use for PPDs in the downtown core "should be comprised of a central core area consisting of taller (max. 60 ft.)" buildings "with shorter outer core (max. 30 to 45 ft.)" structures. "Building height within the central core area should be a maximum of 30 feet on the street front stepping back to 60 feet in height with minor intrusions for architectural features." (Page 35-36) The current PDD does not conform to these requirements of the GP. On page 37 of the DUDP, it states, "the east/west orientation of tall buildings is recommended." The proposed hotel is oriented north/south, as it the existing Hyatt.

OTHER DESIGN PROBLEMS

Nothing in the current design proposal approximates the quality of architecture promised the citizens of Palm Springs prior to the passage of Measure J. I trust the AAC and PC to articulate design problems. Hopefully, Council will listen. But some things are abundantly clear.

There is not a single element in the proposed elevations for the new buildings that has not already been seen elsewhere in architecture throughout America for the last 25 years. The current design is banal and mediocre, at best. These structures could be found in Phoenix, West Covina, or Palm Desert – circa 1999. When we need to be setting the gold standard for progressive thinking in terms of sustainability and architectural sophistication, we're putting forward a proposal that simply recycles existing styles. The design lacks character and distinction. And Palm Springs will have to live with – and try to promote – this design for the next 50 years.

No discussion has yet taken place about meeting the parking requirements for the proposed 180-room hotel. Is parking, which is now owned by the city and advertised in the Measure J proposal as remaining free to the public in perpetuity, now expected to be dedicated to the hotel without concomitant reimbursement?

At the November 13 AAC meeting it was revealed for the first time that the proposed six-story hotel now has an adjacent suite annex on a parcel previously shown on

the site plans as "future development." This newly revealed building, which was not shown in the staff report made available to the public, is proposed as being connected to the six-story main hotel building by glass bridges over the street level. he bridges encroach on open space. Dropping down a new box, and connecting it to another much taller one by bridges is a solution typically found in 1990s industrial parks when attempting to satisfy the growing needs of existing tenants. It looks like a "remuddle." If additional space is needed by the hotel, an entirely new design should be created. At this point, the developer has no binding commitment whatsoever from the Kimpton Hotel chain – just a "letter of intent," which any licensed real estate broker (and I have been one in California for 20 years) can tell you is only worth as much as the paper it's written on.

The inclusion of a hotel on the site is not a problem. "Heads in beds" is a concept anyone can understand, and few would question its importance in a city whose economy is based on tourism. After all, a hotel originally occupied this site. But the proposed monolith resembles a Russian housing block, with double loaded corridors and rooms facing east that will enjoy a view of rooftop HVAC equipment. The design's offensive and banal massing is not made more palatable by the proposed porte cochere and monumental glass entry. And, of course, there is the insensitivity of the design to view corridors and neighboring structures like the museum.

SOME SUGGESTIONS

It is disappointing to find ourselves, at this point in the process, with a design as crude as the current one. Certainly a shorter hotel and a reorientation to an east/west axis, instead of a north/south access would help minimize the adverse impact on views. Also a curving structure with an off-street porte cochere entry embedded inside the curve would help; even an east/west V-shape would provide some relief. Certainly a variation in the rectilinear blocks that comprise the entire project would provide some relief. Where are the curving elements? Where are the promised shaded or arcaded walkways that will allow year-round use of the new downtown buildings and protect pedestrians and shoppers during our relentless summer months? Where is the variety in shapes and street orientation, the originality of design concept, the progressive approach to 21st Century living?

One minor detail in the architects' rendering for the Market Street segment of the current plan reveals the level of sophistication at play here. That rendering shows strings of bare light bulbs criss-crossing Market Street. Unless the project is going to come complete with strippers, a carnival barker, and a bearded lady, this sort of honky tonk midway must be avoided at all costs. But there is it in the plans, and it speaks volumes.

We can and must do better than the current design.

Thank you Pauli-I will take it to the meeting today.

On Tue, Nov 13, 2012 at 9:36 PM, pauli vander zijden <paulivanderzijden@hotmail.com> wrote:

To the major of the city of Palm Springs
To the planning committee for architectural advisory

Could the city clark please bring this to attention at the council meeting?

Following I would bring to your attention at the meeting on nov. 14, 2012.

Let me first introduce myself briefly.
I am a new happy homeowner in Palm Springs, and from the Netherlands.
In my home country I am amongst many cultural organizations also a member of the museum for architecture and have travelled all over the world and enjoyed and respected preservation of heritage.

I am by now a member of 3 cultural organizations in Palm Springs.
I love the city and the way most of you put much effort, leisure time and money in the preservation of your beautiful area.
One thing has daily bothered me over the years. The Hyatt building. It is totally out of place.
At a seaside resort it would make a better picture. The Sheraton in Madeira is an example.

Now my point
Today I heard that there are plans to build a 90 feet high building/hotel on the spot of the former fashion plaza.

In the first place, though I have not seen the plans,this is way to high.
Are you taking away the mountain view? To me this is one of the most important charming backdrops of the city and for me a major decision to buy here. I enjoy walking through the historical streets.

Please stay away from high-rise.
Selling permissions, if this is the case, is a short term view.
Another ugly spot in town?
I do understand that you need to fill up the empty spots.
I can think of a different way.
That is another conversation.
I wish you wisdom in making your decision.

Kind regards,

Pauli van der Zijden, Palm Springs.

RE: Downtown Development

We have been so excited about Measure J and the potential for downtown revitalization! We remain so.

Specifically the new streets will provide additional street frontage for retail and restaurants, a developers dream. The planned visibility of the Art Museum may be a key to keeping it in its current location. It is a no secret that Palm Desert would like the entire museum. It would be fantastic if Marilyn could stay but we understand that is not possible. The razing of the bank building certainly gave us, both locals and tourists, quite a panorama of blue sky and breath-taking mountains.

We do remain, however, very concerned about the proposed hotel with its massive footprint and mountain-and-museum-blocking location. Yes, we need a hotel and, yes, it needs to be financially feasible. Is it remarkable that the proposed small boutique Arrive hotel is a viable development at two stories and yet in the heart of downtown it takes 6 stories?

The downtown rendering depicted a large, white shoebox – nothing distinctive, nothing classy – a design we fear will be a white elephant in very few years. The north-south orientation blocks the Art Museum AND the mountains. To many of us who worked to pass Measure J this is a mystery. We believed that the preservation of mountain views and opening up the view of the Art Museum were key goals.

At the very least the hotel needs to come down a floor or two and be orientated on an east-west axis allowing each room access to a view. Many oceanside hotel developers discovered such an orientation to a key view. The design and placement need serious attention.

Thank you for taking our comments into consideration.

Sincerely,

Paula Auburn & Keith Knauss

Dear Mr. Ewing:

RE: Case 5.2190 PDD 361 / Downtown Palm Springs Project

I see that the Downtown Palm Springs Project is on the agendas for the Architectural Advisory Committee meeting on 13 November 2012 and the Planning Commission on 14 November 2012. I would appreciate it if you would distribute my comments to them for their review as they consider the subject project.

The proposed project is an exciting step forward for Palm Springs, and it goes without saying that, as a resident, I'm anxious for the long-vacant Fashion Center to be redeveloped. Nonetheless, I am concerned about the proposed height of the project.

The Palm Springs Downtown Urban Design Plan that was adopted in 2005 represents several years of collaborative work between residents, business owners, policy makers, and professional planners and architects. No one party or interest group prevailed in the preparation of these guidelines; everyone won a little and lost a little, which is the sign of a good compromise. Under these guidelines, building height in the area in question was limited to 30 feet at the street front, stepping back to 60 feet.

The Museum Market Place Specific Plan obviously governs over the Downtown Urban Design Plan, and it limits building height to 60 feet, except for hotels which may be taller if a PDD is approved by the City Council. In theory, the City Council could allow the Morongo Casino to be plopped down in the middle of town by approving a PDD. However, that doesn't mean that such a structure would be aesthetically appealing, suitably scaled, or in any way appropriate for the location.

Subject: HTCNO

Dear Mr. Mayor,

I am out of town and a member of the HTCNO. I want you to know without a doubt that there is NOT unity behind Frank Tyson and his usual objections to everything Wessman does. The height of his hotel is NOT a problem to me or most of my neighbors. I live at the top of Ramon and will see the structure and it is perfectly okay with me. In fact, I think I might enjoy a skyline.

We might as well call Palm Springs "Frank Tyson City" as he has interfered with everything positive downtown. I am sorry his hotel is near this development but it is time for PALM SPRINGS TO MOVE FORWARD.

PLEASE show some backbone and perseverance in moving forward. We cannot afford more years of foot dragging because Frank Tyson doesn't want anyone to use the property around him.

You have a lot of supporters that cannot spend time like Tyson making noise and being heard. We have voted, we have approved this development, we want to move forward. Frank Tyson and his followers have had their way for 10 years downtown and enough is enough.

Thank you for understanding that there are over 40,000 residents, a majority of which are behind you and a loud minority behind Frank Tyson. Please don't let the tail wag the dog. We are counting on you to get of out of this unproductive, anti-everything attitude that has dragged this city to its feet. You have a mandate and a chance to move forward and WE ARE BEHIND YOU.

Thank you for your consideration,

RE: DOWNTOWN REDEVELOPMENT

Cc: Mr. David Ready, Mr. Jay Thompson, Members of the Palm Springs Planning Commission & Architectural Advisory Committee.

Dear Mayor Pougnet et al:

Being the Palm Springs neighborhood perhaps most immediately affected by the future shape of our new downtown redevelopment, our HTCNO Board Members and residents have been closely monitoring the evolving plans for the property.

During the Measure J campaign, we wholeheartedly supported its passage. We were very pleased by the transparency displayed in the public participation, and our representatives participated and played a clear role in that process.

The recently disclosed Wessman Development plans for the project seem to be moving in a favorable direction, specifically in the following areas:

- The addition of the "Market" street between Palm Canyon Drive & Belardo, with the flexibility to be converted to a pedestrian-only street for evening dining & special events.
- The retention of the "green space" at the Corner of Tahquitz & Palm Canyon, to provide a people-friendly entrance and enhance the connection to existing properties at our most central downtown intersection.
- The open-air entertainment "mini-park" venue near the Museum.
- Abandonment of the Bowling Alley, Movie Complex & Urban Style Fitness Center.
- The addition of an upscale Hotel, to provide much needed foot traffic, increase T.O.T revenues & support retail and entertainment venues.

However, with respect to the Hotel being proposed, we are very much concerned about the height and juxtaposition of the structure between Palm Canyon and our cherished mountains. It appears that the proposed Hotel could perhaps be reduced in overall height & extended further North, wherein it could maintain the same occupancy, have even more roof-deck & garden amenities, and not impose such an "Urban" presence on

Submitted to
Planning Commission

NOV 07 2012

Case #_____

our precious "Suburban" resort village. We certainly understand the importance of the numbers working out for each component of the new downtown, and that hotel financing is a tricky venture, at best. And we unanimously want this hotel to succeed. But let us first and foremost consider the root problems with the prior developments on this site.

It has been generally agreed upon that the Hyatt Hotel was built too tall and was a mistake in terms of the downtown urban design & the preservation of vistas. We all celebrated when the former BA building was demolished, and the presence of the Marilyn statue with the ever-changing backdrop of the mountains behind her has been an inspiration for all of us, to realize what we give up when we make mistakes like the Fashion Plaza and the Hyatt Hotel.

And that is not meant to demean the Hyatt Hotel as a member of our business community, as we are certainly proud to have the Hyatt brand presence in our downtown. Rather, we believe it is important to reflect on how its design & execution might have been incorporated more appropriately into our downtown, so as to have created a more timeless and user friendly addition to our landscape.

Our point is primarily that we must be sure not to repeat a well-recognized mistake. We would rather look towards the highly-successful resort town of Aspen, which has several high quality new hotels kept to a few stories. As we recapture and reconstruct our downtown, let's make sure we don't have to replace it again in another generation because we didn't have the foresight to make tough decisions and hold our ground on the most important and essential elements that make Palm Springs the most unique, famous and beautiful Desert Resort in the world. We love to say that we are the "Name Brand", so let's not lose sight of what that means and how we got there.

Thank you for your consideration of our concerns.

Respectfully,

Frank Tysen,

Chairman of the Historical Tennis Club Neighborhood Organization (HTCNO), writing for the Board Members and Citizens of our neighborhood, by majority vote of the HTCNO Board.

December 7, 2012

Dear Palm Springs Planning Commission:

I am sending this letter to stress my utmost support of Wessman Development and Mr. John Wessman and his plan to renovate the Desert Fashion Plaza and bring the Four Star Kimpton Hotel to downtown Palm Springs.

The revitalization of downtown Palm Springs is imperative.

I have known Mr. Wessman personally and professionally for years. He is a man of great character and integrity. He is intimately aware of the great importance and impact that this project will have on Palm Canyon Drive and the City of Palm Springs. Wessman Development has invested tremendous time money and commitment to do the project right the first time; it has been in the planning stage for 10 years. This project will create jobs, tax revenues, visibility and most of all revitalize downtown Palm Springs.

Linking the downtown area with the new Kimpton hotel, the Palm Springs Desert Arts Museum and the pedestrian friendly streets will encompass the entire area with the wonderful views of the mountains. Many residents don't even know of the Museum, this will shed new light on the Museum helping to generate our local residents to branch out and enjoy many of the deserts gems.

This project will do for downtown Palm Springs what the Gardens did for El Paseo.

Please take all the information provided by everyone involved into consideration and vote in favor of this new project it would be a travesty to let downtown Palm Springs continue to deteriorate.

Most sincerely,

Lee Morcus

Dear Mr. Ewing:

To supplement this office's November 28, 2012 letter, incorporated by reference in its entirety hereto, the following constitute additional comments of North First Street Properties, LP ("North First Street"), submitted in opposition to the approval and use of the Addendum to the Museum Market Plaza Specific Plan Final Environmental Impact Report ("Addendum" and "MMPSP FEIR", respectively) as the underlying environmental analysis for the Downtown Palm Springs Project ("Downtown Project").

Nearly one month following the City of Palm Springs City Council's October 17, 2012 approval of the Addendum to the FEIR, the Department of Planning Services ("Planning") expressed its intent to "use the Final EIR and Addendum as the environmental document" for the Downtown Project. (Dept. of Planning Services Memo to AAC, Nov. 13, 2012 at p. 1 and Planning Commission Staff Report, Nov. 7, 2012 at p. 5.) The Tentative Parcel Map, Planned Development Permit, and Major Architectural Approvals related to the Downtown Project are currently before Planning.

RECEIVED
DEC 10 2012
PLANNING SERVICES
DEPARTMENT

As noted in our November 28, 2012 letter, this comes as a surprise given the City's prior representations that it would prepare an Initial Study for the Desert Fashion Plaza Renovation Project "[a]t the time a formal application is submitted." (City Dept. of Planning Services, Feb. 17, 2009 Letter to Wessman re: Pre-App. 09-001 for the Desert Fashion Plaza Renovation Project at p. 11.) It appears that this is no longer the case. Had North First Street been privy to the City's decision to circumvent further additional environmental review and public comment, as required by the California Environmental Quality Act ("CEQA"), North First Street would have vehemently opposed approval of the Addendum, specifically its application to the Downtown Project.

1. SUBSTANTIAL CHANGES TO THE DOWNTOWN PROJECT THAT WERE NOT PREVIOUSLY ANALYZED IN THE MMPSP FEIR RENDER ENVIRONMENTAL REVIEW FOR THE DOWNTOWN PROJECT BY WAY OF AN ADDENDUM INSUFFICIENT

Under CEQA, a lead agency is required to prepare a subsequent or supplemental environmental impact report, and cannot proceed by way of an addendum, if one or more of the following events have occurred: (a) *substantial changes are proposed in the project which will require major revisions of the previous EIR* or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; (b) substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR or negative declaration due to the involvement of *new significant, environmental effects or a substantial increase in the severity of previously identified significant effects*; or, (c) new information of substantial importance, which was not known and could not have been known at the time the environmental impact report was certified as complete, becomes available. (14 Cal. Code of Regs. ("CEQA Guidelines") §§ 15162-15163, emphasis added; *see also*, Cal. Pub. Res. Code § 21166.)

It is well-established that significant changes to a project, particularly when the project entails phased construction as it does here, trigger additional environmental review by way of a subsequent or supplemental EIR for changes that are more minor in nature. For instance, an approved amphitheater project was deemed to have been substantially changed when the plans increased the number of seats from 5,000 to 7,000, and the configuration of the stage was reoriented adjacent to a neighboring residential area, presumably increasing potential noise impacts. (*Concerned Citizens of Costa Mesa, Inc. v. 32nd Dist. Agric. Ass'n* (1986) 42 Cal.3d 929.) Similarly, in *American Canyon Community United for Responsible Growth v. City of American Canyon* (2006) 145 Cal.App.4th 1062, 1066-1067, the court held that the city prejudicially violated CEQA by failing to prepare a supplemental EIR to assess changes related to the size and type of retail development proposed to replace a shopping center with a 24-hour supercenter.

Similar to the facts at issue here, the MMPSP FEIR is not sufficiently elastic to cover new developments and substantial changes that have since been introduced. Accordingly, the preparation of an addendum in this instance was inappropriate given the nature and scope of the project changes that have occurred since the MMPSP FEIR was certified in December 2009.

a. Project Changes and Modifications

In 2009, the MMPSP FEIR proposed policies and development standards for a master planned, mixed use project to include retail, office, high density residential, and hotel development on 20.6 acres, including the delineation of three Planning Areas that set forth the following configurations specific to expected uses and maximum land use intensities. (MMPSP FEIR at p. I-12.)

Table I-1
Maximum Land Use Intensities[1]

Land Use	Planning Area 1	Planning Area 2	Planning Area 3	Total
Retail or Office (square feet)	385,000	15,000	N/A	400,000
Residential (dwelling units)	900	55	N/A	955
Hotel (rooms)	565	55	N/A	620

As proposed, however, the Downtown Project purports to "develop a total of approximately 1.4 million square feet of mixed commercial space on a portion of the site", which includes "three separate blocks of commercial retail space, a [89 foot tall] 170-room hotel [with a rooftop pool], a [newly proposed] major public outdoor performance space (1.3 acres of 57,000 sq. ft.), underground public parking and the establishment of a public street grid." (Addendum at p. 1.) Public improvements for the 13.2-acre planning area include streets, sidewalks, drainage, approximately 1,100 public parking spaces, public restrooms and other associated facilities. (*Id.* at p. 6.)

Notwithstanding the conversion of the previously considered movie theater to what has now been deemed as an "Event Area" or "outdoor entertainment venue" for concerts and other large-scale public events, the Addendum erroneously concludes that "the proposed Downtown Palm Springs project does not present any new potentially significant effects not evaluated in the previous EIR." (Addendum at p. 4.) This is simply not true. Conspicuously absent from the Addendum is any analysis or explanation of the environmental impacts that will emanate from

[1] The Addendum notes that "in adopting the Specific Plan in 2009, the City Council deleted two areas that were identified in the draft Specific Plan," namely Planning Area 2 and Planning Area 3 which are no longer part of the Specific Plan. (Addendum at p. 8.) This further reduces the maximum allowable land use intensity for Planning Area 1 (the Downtown Project Area) to 385,000 square feet for retail and office and 565 hotel rooms.

the proposed Event Area or any of the changed land use designations. Therefore, the Addendum provides an incomplete and legally insufficient analysis that is not supported by substantial evidence.

2. THE ANALYSIS (OR LACK THEREOF) PROVIDED IN THE ADDENDUM IS NOT SUPPORTED BY SUBSTANTIAL EVIDENCE AND FAILS TO PROPERLY EXPLAIN WHY THE CITY DECIDED NOT TO PREPARE A SUBSEQUENT OR SUPPLEMENTAL EIR

Though CEQA does not set forth a specific format for addendums, CEQA Guideline Section 15164 states that the agency must, at a minimum, explain why it decided not to prepare a subsequent EIR and support it findings with substantial evidence in the record, neither of which have occurred here. Not only does the Addendum fail to clearly articulate the precise post-2009 FEIR project changes, with respect to height and other considerations that would arguably result in environmental impacts, the Addendum superficially concludes that "[n]o substantial changes have occurred within the planning area," and that the Downtown Project "would therefore not result in new or expanded impacts beyond those identified in the previously certified Special Plan EIR and Addendum." (Addendum at p. 4.)

The following provides a non-exhaustive list of environmental impacts that were not properly assessed in the Addendum.

a. A Supplemental or Subsequent EIR is Needed to Assess Noise, Traffic, and Air Quality Impacts Associated with the New Event Area

In 2009, the MMPSP FEIR concluded that the "[b]uildout of the proposed project will result in short-term, yet potentially intrusive, noise impacts associated with demolition of existing structures, grading and construction, as well as the transport of construction workers, materials, and equipment to and from the site." (MMPSP FEIR at p. III-144.) Thus, the "[d]emolition, grading and construction noise impacts will be temporary and short-lived and are not expected to impact community noise levels on a long-term basis." (*Ibid.*) Though the MMPSP FEIR considers potential traffic noise and operational noise impacts associated with construction of the project, the Addendum fails to assess or analyze the need for additional long-term mitigation measures, such as the inclusion of sound walls or other noise-reducing measures, related to the Event Area on a forward going basis following construction.

Likewise, traffic conditions and related air quality impacts should be reassessed on both a short and long-term basis as the change in land use from a movie theater to an outdoor entertainment venue could significantly alter projected traffic patterns.

b. A Supplemental or Subsequent EIR is Needed to Further Analyze the Project Size and Designated Land Uses

The Addendum provides a block-by-block comparison between the MMPSP uses and the proposed Downtown Project uses, showing a total aggregate reduction from 1,443,000 to 1,386,000 square feet. On the surface, this block-by-block comparison appears to reduce the size of the Downtown Project. Upon further review, however, it appears that alterations have been made to the land use designations that could significantly impact the analyses set forth in the MMPSP FEIR.

For instance, the proposed uses now include categories of "mixed retail/office" and "mixed retail/hotel" that were not previously assessed. Block B previously contemplated 3,000 square feet of restaurant space that now has been changed to 90,000 of mixed retail and office. Block C now includes hotel use instead of office. Though seemingly subtle in scope, these alterations in land use designations could significantly impact traffic patterns and require further review.

c. Height of the Newly Proposed Kimpton Hotel Was Not Previously Evaluated in the MMPSP FEIR and Grossly Exceeds the Allowable Height Limit of 60 Feet

The revised site plans for the Kimpton Hotel propose the construction of a six-story hotel with a rooftop pool area. Standing at 89 feet in height, the hotel would tower over all of the other proposed development within the Downtown Project area and exceeds the 60 foot height limit set forth in the MMPSP, thus potentially imposing additional shadow impacts not previously considered in the MMPSP FEIR. Any such shadow analysis would be separate and apart from the artificial aesthetic analysis provided in the Addendum.

As is the case with several of the developments within the Downtown Project, the specifics of the proposed project were not previously assessed in the MMPSP FEIR because such information was simply not known at that time. While it is understandable that project refinements will occur over time, there comes a point when such "refinements" trigger further environmental review when the changes are substantial in nature, as is the case here.

3. CONCLUSION

The Downtown Project, as proposed in the various applications pending before Planning today, is comprised of a series of substantial "project" changes that were not previously analyzed in the FEIR. As the Downtown Project changes have occurred in serial increments, over a protracted period of time, the full environmental significance of them in the aggregate has only recently emerged. By its very nature, this sort of process unfairly disguises the reality, a defect that can only be cured by a full environmental analysis of the final product.

As a result, the City has a legal obligation to meaningfully evaluate changes that have since occurred specific to the proposed Downtown Project, and provide additional review by way of a subsequent or supplemental EIR. The intent of this letter is to highlight various shortcuts that have been taken that constitute a disservice to the environmental protections that CEQA affords. The scale of the Downtown Project warrants a full and thorough review of the potential environmental impacts to assess whether additional mitigation measures should be instituted before a project of this magnitude can proceed and add impacts not previously disclosed or greater in intensity than previously studied.

PROPOSED ADDITIONAL CONDITIONS FOR LANDSCAPE PLAN

The applicant shall submit a unified landscape plan for the entire project consistent with the Project financing agreement, including the following elements.

1. ***Preliminary Landscape Development Plan*** *(1 colored copy) The applicant shall indicate, on a separate site plan or incorporated into the colored site plan, the basic landscape concepts for the project. This should include tree and shrub grouping, groundcover areas, flatwork concepts, significant grading concepts and a written statement of the landscape development concept for the project.*

2. Project Master Streetscape Plan

- Establishment of a basic design theme for street furniture and similar hardscape elements
- Proposed location of hardscape elements including planters, fountains, retaining walls, others
- Proposed location of street furniture including benches, trash receptacles, bus stops, bicycle racks, others?
- Proposed thematic plantings
- Proposed street signage and way finding
- Transitions to existing improvements
- Locations for public art
- Plans for temporary and permanent preservation of the Palm Springs Walk of Fame
- Plans for temporary pedestrian routes during construction

3. Master Pedestrian Paseo Plan:
The project proposes a pedestrian promenade from the Hilton Hotel to the new public square at the corner of Tahquitz and North Palm Canyon. The promenade includes four elements from north to south:

- The connection from the Hyatt Hotel through Building "A"
- Market Street between Building "B" and "B-1"

Submitted to Planning Commission

DEC 05 2012

Case # 1

- Pedestrian Plaza from New Main Street and to the new public square at
- New Public Square at the corner of Tahquitz and North Palm Canyon

As part of the Landscape Plan, the applicant shall prepare a master plan for this promenade element including the following elements.

- Establishing a unified "brand" for the four elements of the Paseo to encourage pedestrians to follow the entire Paseo.
- Proposed location of hardscape elements including planters, fountains, retaining walls, others
- Proposed location of street furniture including benches, trash receptacles, bus stops, bicycle racks, others?
- Proposed thematic plantings
- Proposed Paseo signage and way finding
- Locations for public art
- Easements required to ensure public access along the Paseo, including through Building A.
- Operational Plan for Market Street, including timing and procedures for opening and closure of the street to vehicles
- Establishing of a minimum clear width for the Paseo between New Main Street and Tahquitz in this segment. 12', 20'?
- Considerations for bicycle usage on the Paseo segment between New Main Street and Tahquitz (if allowed).
- Establishing guidelines for business encroachment (i.e., outdoor dining) into Market Street and the pedestrian connection from New Main Street to Tahquitz. (this may go somewhere else)
- Master Plan for the Public Square at Tahquitz and North Palm Canyon (This intersection is the exact center of downtown Palm Springs and the design of the Public Square should reflect the importance of the location)

At the block level, there would be a condition that the landscape plans for each building be consistent with the approved Master Landscape Plan

Talking Points DFP for Architectural Advisory Committee

November 18, 2012

*I am Harold Meyerman, Chairman, Board of Trustees, Palm Springs Art Museum

*Mr. Matzner and I were appointed some years ago by the Board of Trustees to represent the Board in all matters pertaining to the Desert Fashion Plaza project.

*For well over 10 years we have tried to make do behind the dump across the street from us. Finally there is hope for progress.

*The Wessman Group has done a fine job recently cleaning up at least a portion of the property so now you can actually see the Museum from Palm Canyon.

*The Museum has expressed its 4 critical goals over the years:

1.) We should be visible from PC

2.) We should be accessible from PC

3.) We need parking, badly

4.) We need room for expansion if we want to have our Palm Springs location as the center of all our museum activities in the region in the future.

*The project as it is configured now, meets our 4 goals

*Recently, we had expressed our concerns re a kink in the road to Mr. Wessman and Mr. Braun since it harmed visibility from Palm Canyon. They have now dealt with it;

*The design will allow us to be visible from Palm Canyon. There will be a major 14 1/2ft Wang sculpture in front of the Museum presently being built in China. Where today we have a fountain in front of the Museum, the sculpture should be visible from Palm Canyon;

*The Museum now attracts over 180,000. People. Admissions have grown at a rate of 10% per year;

*We take care of in excess of 50,000. Students

*We have opened in Palm Desert, both a Museum building, the Galen, and a sculpture garden, called the Faye Sarkowsky sculpture gardens. Our facility is already successful beyond our imagination

*We hope to soon start the renovation of our A&D Center along Palm Canyon.

*This acquisition was negotiated with Mr. Matzner and myself and with Messrs Wessman and Braun

*We have an exceptional Architecture and Design Curator, Sidney Wiliams, who I believe is with us today

*There should be no question in anyone's mind that the Museum considers A&D as an increasingly important strategic part of what we are all about as a Museum. We expect that the architecture being considered across the street from us will live up to our expectations;

*We are on the move and assuming we can get past the issues under discussion, sooner rather than later, the Museum will be increasingly perceived as central to our downtown revitalization;

*We are now amongst the leading, top 10 mid size museums in the country. We have a fabulous team under the leadership of Dr. Steven Nash

*We have one of the best boards in the desert, increasingly weighted to the East Valley since 90% of our funding comes from that part of the world;

*We have an exciting exhibitions program and, as a regional museum, are increasingly focusing on outreach throughout the desert;

*We also seek to become a destination point where people come to Palm Springs because we have a magnificent Museum, hence our excitement to have a top flight, financially viable hotel across the street

*The project as it is envisaged, with restaurants, galleries et al across the street suits our needs as a Museum.

*Our four major goals: Visibility, Access, Parking and room for expansion are all met

*The Board of the Museum strongly supports going forward and hopes that the community can pull together and make it come about without any further delay

*Thank you

JAMES THOMPSON
CITY CLERK

My name is Kathleen Adams and I was born and raised in Palm Springs.

I was young when Palm Springs was in its full glory, Bullocks, Robinsons, Sacs 5th Avenue, George Wilde's, Mary Helens, Woolworths, and the famous Desert Inn, all on Palm Canyon Drive, downtown Palm Springs.

Palm Springs was built as o destination, for many as a health retreat, believed to have heoling waters,a dry climate, and the benefit of the spiritual powers of the mountains.

People came here to be heoled and faund the beauty of PS a constant and were immersed in a life style that forever changed their lives. Many stayed becoming permanent residence of the desert.

Many years ago there were city laws in place that prevented high rise buildings because it was thought that our vistas were more important than commerce. Some believe that our quiet solitude reigns over glitter, sparkle, and the towering shadings of sunless buildings.

Slowly things changed and we have notstopped chasing a glitzy Palm Springs.

I was here when the Desert Inn was torn down and we mourned. I was here when the Hyatt went up and we picketed, nat wanting to endure that weighted structure with hidden views blacked out forever by its massive size. The Fashian Inn Plaza a monster misplaced in down town Palm Springs.

I believe we know what does not work. Since our slow unsuccessful down town ventures, Palm Desert created El Paseo, Rancho Mirage a town less, exclusive city, create a center, a sort of down town with the River.

This is our chance to create something special. Something creative without losing what Palm Springs is without any help from us, beoutiful, serene, healing, quiet, an experience that changes lives.

Why can't our down town reflect that? Low key, peaceful, beautiful with mountain views at every stop. A pace that speaks of health, and wellbeing instead of hip, fast glitzy and foreign.

Why do we not review our possible unrealistic time table placed on completing this project?Why are we not using local Palm Springs architects that love our desert and savor all its glory?

John Wessman can build a building anywhere and without a doubt beautiful, but at what cost? Has he lost sight of the natural beauty of Palm Springs and is trying to build just another Fashion Inn?

I know whatever we decide as a city, our decision lasts a life time, as the down town existing project, although, failed and empty many years ago, has remained a constant reminder of our failure to create a better Palm Springs

Please don't make the same historicol mistake. Why doeshistory repeats itself? We need to learn from our mistakes. The Fashion Inn Plaza was in part not successful due to itsmassive dominating shadowing structures. Don't do it again only bigger and taller.

Item 1

Planning Commission Meeting

December 5, 2012

The site chosen by Mr. Wessman is not suitable for such a hotel. Nothing on the old Fashion Plaza site should be over two stories in height. If approved as proposed, it will come home to haunt Palm Springs in the future.

Some years ago Mr. Wessman was turned down on his application to build a similar hotel on his personally owned property (southwest corner of Tahquitz Canyon Way and Cahilla Rd.), which is no more than 100 yards due west of where he hopes to use "Measure J" funds to construct a Kimpton Hotel. Should the city decide to approve a downtown multistory-hotel, let it be built on Wessman's own property, *using his own money. Yes, the old Fashion Plaza buildings must be torn down, and* streets, open areas, and low-scaled buildings put in their place; "Measure J" taxes are paying for all that to be accomplished. However, Palm Springs appears to be heading toward making the same mistakes as were perpetrated when the Desert Fashion Plaza was foist upon us some 25 years ago. A multistory Kimpton Hotel is not as someone wrote in Sunday's Desert Sun: "the key to our future." The key will be when we recognize; Palm Springs' future is in being Palm Springs and not some trumped-up architectural mishmash. For several years, I have suggested to the mayor, we need to *take the time to do some real visioning and construct scenarios of what Palm Springs* will likely be in the next 25 to 50 years. That way, what is built today, will be relevant in the future. Nothing more than two story structures should be built on the old Fashion Plaza property. When the City agreed to purchasing the parking garage, and then paying for the roads, infrastructure and low-rise buildings they were not approving the taxpayers financing a multi-story hotel for Mr. Wessman.

Re: *Downtown Palm Springs Project (Planning Commission November 28, 2012 Regular Meeting, Agenda No. 1A) - Comments to Draft Museum Market Plaza Specific Plan Final Environmental Impact Report and Addendum*

Dear Mr. Ewing:

The following constitute the comments of North First Street Properties, LP ("North First Street")[1] submitted to oppose the use of the Final Environmental Impact Report (SCH No. 2008060184) and Addendum to Museum Market Plaza Specific Plan Final Environmental Impact Report ("FEIR" and "Addendum", respectively) for the "Downtown Palm Springs Project"[2] absent further environmental review. In light of the deficiencies set forth below, North First Street respectfully requests that the City of Palm Springs Planning Commission, City Council, and City Attorney's Office (collectively, hereinafter referred to as the "City") require

[1] North First Street is an owner of real property in the City of Palm Springs and has a vested interest in upholding the integrity of the environmental review process as intended under the California Environmental Quality Act ("CEQA").

[2] Hereinafter, referred to as the "Downtown Project", which is defined in the Addendum (but not the FEIR) as a "development program" that includes the construction of three separate blocks of commercial retail space, including the Desert Fashion Plaza Renovation Project discussed in further detail below, a 170-room hotel, a 1.3-acre public "event space", underground public parking, and a public street grid with extension through the project site to existing streets. (Addendum at p. 1.)

further environmental review for the Downtown Project and all of the individual project components subsumed within the "development program," as required by CEQA.

On October 22, 2008, the City, as the lead agency, released the draft EIR for the Museum Market Plaza Specific Plan ("Specific Plan DEIR"), which effectively sought to amend the City's land use and community development policies as applied to the Museum Market Plaza Specific Plan ("Specific Plan" or "Specific Plan Project") area. Subsequent thereto, the project sponsor, Wessman Development, LLC ("Wessman"), amended the Specific Plan DEIR to include an "option to remodel the existing Desert Fashion Plaza" ("Desert Fashion Plaza Renovation Project"). Set forth generally in the Specific Plan DEIR, no project-specific environmental review for what the City is now referring to as the "Downtown Project" or the Desert Fashion Plaza Renovation Project was performed as part of the Specific Plan DEIR, FEIR, or Addendum process.

At this critical juncture, it is unclear if and when the City intends to conduct any additional environmental reviews. As of February 17, 2009, the City stated that "an Initial Study will be prepared under the guidelines of the California Environmental Quality Act (CEQA)" for the Desert Fashion Plaza Renovation Project "[a]t the time a formal application is submitted." (City Dept. of Planning Services, Feb. 17, 2009 Letter to Wessman re: Pre-App. 09-001 for the Desert Fashion Plaza Renovation Project at p. 11.) Oddly, this is in stark contrast to more recent representations where the City has indicated that it does not intend to undergo further environmental review on a project-level basis, but rather that "[t]he City proposes to use the Final EIR and Addendum as the environmental document for th[e] Downtown Palm Springs Project." (City Memo from Planner E. Robertson to AAC, Nov. 13, 2012 at p. 1.)

As such, it appears that no initial study, or any environmental review for that matter, has been considered with respect to the revised Downtown Project, which now entails the subdivision of a 13.2-acre site into thirteen parcels, as well as the construction of a "major public outdoor performance space (1.3 acres or 57,000 sq. ft.), underground public parking and the establishment of a public street grid, including extension through the project site of existing streets." Said projects are part of the Downtown Project submittals that are currently pending before the Planning Commission. (Addendum at p. 1.) Apparently, the Addendum further provides that "[f]ull implementation of the [Downtown] project will include future phases west of Belardo Road that are not proposed at this time . . . " (*Id.*) Once again, it appears that the public is to presume that the City will similarly forgo further environmental review so long as the future "phases" fall under the larger subset of the "Downtown Project" area.

This is of grave concern as the lack of required environmental review runs afoul of the protections provided for under CEQA. During the October 17, 2012 City Council meeting, one of the City councilmembers aptly stated that the Downtown Project is the "largest project in the history (and quite possible the future) of Palm Springs." In order to assess the totality of cumulative environmental impacts, further consideration must be afforded to properly define the

scope of each individual project, as well as of the Downtown Project in the aggregate. Given the expedited nature of recent approvals related to the Downtown Project, we are asking the City to give the pending approvals the time and consideration that a project of this magnitude requires.

I. FACTUAL BACKGROUND

On April 30, 2008, Wessman presented the City with a draft Specific Plan for the Museum Market Plaza. Initiated by the City Council, City staff ("Staff") was charged with the task of assessing whether the Specific Plan conformed with the Palm Springs General Plan, Downtown Design Guidelines, and the Palm Springs Zoning Code.

On June 13, 2008, the City issued a Notice of Preparation ("NOP") and Initial Study, which indicated that the following environmental factors would be potentially affected by the Specific Plan Project as contemplated at that time, including aesthetics, hazards and hazardous materials, public services, utilities/service systems, cultural resources, hydrology/water quality, noise, recreation, air quality, geology/soils, land use/planning, population/housing, and transportation/traffic, all of which would require a Statement of Overriding Considerations. (DEIR, App. A, Initial Study at p. 4.) Accordingly, the City prepared a DEIR and "undertook a *preliminary review* of the potential environmental impacts associated with the build out of the Specific Plan," specifically to identify "the range of development that would be permitted within the Specific Plan or Project Area . . . [and] evaluate[d] . . . the various policies and development standards for a master planned, mixed use project that would accommodate retail, office, high density residential, and resort development, and the environmental impacts the Project would cause if it were approved and developed." (City Council Staff Report, Dec. 2, 2009 at p. 0004; *see also*, Specific Plan DEIR at p. I-1, emphasis supplied.)

The Specific Plan Project proposes program-level "policies and development standards for a master planned, mixed use project to include Retail, Office, High Density Residential and Resort development on 20.6 acres," which initially allowed for the development of 400,000 square feet of retail or office, 955 residential dwelling units, and 620 hotel rooms. (*Id.* at App. A, NOP at p. 2.) The DEIR contained a "program-level analysis" of the environmental impacts related to the Specific Plan Project, which sought to:

> "examine . . . the total scope of environmental effects that would occur as a result of buildout of the entire proposed project. By examining the full scope of the proposed project and subsequent applications and approvals at this stage of planning, the *Program EIR provides a full disclosure of the environmental impacts that may occur throughout the project site*, together with an analysis of the site specific and cumulative environmental impacts that will occur throughout the buildout time frame of the project and may be

> found to support all levels of approvals necessary to implement the Project."

(City Council Staff Report, Dec. 2, 2009 at p. 0005 adopted Resolution No. 22077, emphasis added.)

Following several continuances, the City Council enacted Ordinance No. 1764 and adopted the Specific Plan Project and the DEIR on December 2, 2009. (Ord. No. 1764, §3 at p. 2 [Museum Market SP "includes comprehensive rules and regulations that will govern future development that may occur within the boundaries of the specific plan and such regulations may conflict with provisions of the Palm Springs Zoning Ordinance."].) As for the Desert Fashion Plaza Renovation Project, the City Council conducted a Conformity Review under the draft Museum Market Plaza Specific Plan and found the proposed plan for revitalization of the Desert Fashion Plaza Renovation Project to be in general conformance with the Specific Plan. (City Council Staff Report, Oct. 17, 2012 at p. 002.) The scope and specifics of the proposed Desert Fashion Plaza Renovation Project, however, were not contemplated as a part of the DEIR or Addendum. A Notice of Determination as to the initial Specific Plan Project was filed on December 7, 2009.

Nearly three years later, City Staff reviewed the latest site and development plans for the Specific Plan Project Area and concluded that "no new impacts are expected which were not fully analyzed in the Specific Plan [D]EIR, except for aesthetics/visual resources." (City Council Staff Report, Oct. 17, 2012 at p. 003.) The City noted, however, that "since the new plan proposes building height and mass in different configurations from the Specific Plan, it was necessary to analyze the new project's visual impacts and prepare an addendum of the aesthetics/visual resources section of the EIR" and included photographic simulations to reflect environmental impacts associated with the new height and mass configurations associated with the Downtown Palm Springs Project. (*Id.*)

No additional studies concerning air quality, noise, water availability, traffic, or population and housing were provided, despite numerous and substantial modifications to the original Specific Plan Project that were not assessed in the DEIR or Addendum.

Notwithstanding these substantial project changes, the City adopted an Addendum to the FEIR on October 17, 2012 for the newly entitled "Proposed Renovation Plan," also referred as the "Downtown Palm Springs Project." A subsequent notice of determination with respect to the Addendum has not been filed with the Office of Planning and Research, thereby extending the applicable statute of limitations for legal challenges from 30 to 180 days. (Cal. Pub. Res. Code § 21167(c).)

Future expansion and actions related to the Downtown Project, which presently includes the four pending approvals before the Planning Commission, namely the (1) Tentative Parcel

Map No. 36446 to subdivide the parcel; (2) Major Architectural Approval 3.3605/Block A; (3) Major Architectural Approval 3.3606/Block B; (4) Major Architectural Approval 3.3607/Block C; and (4) Planned Development District PD 361/Block C-1, will indisputably be significant. Consequently, such changes and refinements to the "Downtown Project," which were never assessed on a project-level in the Specific Plan Project, should either have been analyzed as part of the original DEIR, or become the subject of subsequent or supplemental environmental review. (14 Cal. Code of Regs. §§ 15162-15164.) Therefore, issues concerning the applicability of the Addendum and the FEIR for the Specific Project Plan to the pending City approvals for the Downtown Project are currently outstanding and have been timely raised for consideration by the Planning Commission.

II. THE PROJECT DESCRIPTION IN THE DEIR AND THE ADDENDUM IS INSUFFICIENT AS APPLIED TO THE DOWNTOWN PROJECT

"CEQA requires that '[a]n accurate, stable and finite description' of the project be established 'early enough in the planning stages of [the] project to enable environmental concerns to influence the project's program and design, yet late enough to provide meaningful information for environmental assessment." (*Planning and Conservation League v. Castaic Lake Water Agency*, 180 Cal.App.4th 210, 234-35 (2009), quoting *Kings County Farm Bureau v. City of Hanford*, 221 Cal.App.3d 692, 738 (1990).) An EIR must, therefore, "include an analysis of the environmental effects of future expansion or other action if: (1) it is a reasonably foreseeable consequence of the initial project; and (2) the future expansion or action will be significant in that it will likely change the scope or nature of the initial project or its environmental effects." (*Id.*) Of course, "if the future action is not considered at that time, it will have to be discussed in a subsequent EIR before the future action can be approved under CEQA." (*Id.*)

None of these conditions has been met in this instance. The Specific Plan Project, as defined in the FEIR, serves to provide a framework of guidelines and regulations with a roadmap for long-term growth consistent with the City's general plan. As specific projects evolve, such as changes to the Desert Fashion Plaza Renovation Project or the newly proposed "Event Area," the scope of the "project" should similarly account for subsequent modifications and project refinements, which would require additional environmental review, at a minimum. Nevertheless, the fact that the Downtown Project and the Desert Fashion Plaza Renovation Project were not reviewed in its entirety at the outset, but rather broken down into components to be separately reviewed at separate times, renders the Addendum and any prior environmental document upon which it is based per se inadequate.

///

///

III. THE INADEQUATE PROJECT DESCRIPTION IS INEXTRICABLY LINKED TO THE SPECIFIC PLAN PROJECT'S IMPROPER SEGMENTATION AND COMPLETE LACK OF ENVIRONMENTAL REVIEW WITH RESPECT THE DOWNTOWN PROJECT

CEQA defines "project" broadly to encompass "the whole of an action which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment." (*Planning and Conservation League, supra*, 180 Cal.App.4th at 235, quoting CEQA Guidelines § 15378(a) and (c).) This definition precludes "piecemeal review which results from chopping a large project into many little ones – each with a minimal potential impact on the environment – which cumulatively may have disastrous consequences." (*Planning and Conservation, supra*, 180 Cal.App.4th at 235 [citations omitted].)

Nevertheless, the City engaged in just such "segmentation" or "piecemealing" here. In 2009, the "project description" for the Specific Plan DEIR, as applied to the Downtown Project, is non-existent and sorely inadequate under CEQA. For instance, the DEIR generally alludes to project phrasing with no specificity as to what the individual phased projects would entail. Beyond vague references to "allow[ing] for the broadest range of development" and ballpark estimates of the anticipated square footage of projects classified by land use (and not when the projects would be constructed), no specific assertions are made as to the individual or cumulative impacts of these phased projects. (DEIR at p. I-12.)

Furthermore, the City made certain assurances to the public that it would undergo additional environmental review and conduct an initial study for the Desert Fashion Plaza Renovation Project to gauge whether additional environmental review was warranted. To date, no such evaluation has occurred. As a result, the Downtown Project cannot proceed without a project-specific environmental assessment.

IV. THE ADDENDUM DID NOT ALLOW ADEQUATE OPPORTUNITY FOR PUBLIC REVIEW AND COMMENT GIVEN THE SUPERFICIAL NATURE OF THE ENVIRONMENTAL REVIEW AS TO THE DOWNTOWN PROJECT

"Generally, the ultimate decision of whether to approve a project, be that decision right or wrong, is a nullity if based upon an EIR that does not provide the decisionmakers, and the public, with the information about the project that is required by CEQA." (*Planning and Conservation League, supra*, 180 Cal.App.4th at 241[cites omitted].) Just such absence of adequate public disclosure renders the Addendum, in this instance, a "nullity."

It is readily apparent that the FEIR for the Specific Plan Area provided inadequate public disclosure by setting forth nothing more than a wide-ranging plan for the systematic implementation of certain planning objectives and policies for a defined area. What the Specific

Plan FEIR and Addendum lack, however, is a sufficiently detailed accounting of the facts and environmental analyses needed to provide any meaningful evaluation of significant environmental impacts and the implementation of potential mitigation measures.

V. CONCLUSION

For the foregoing reasons, the City should reevaluate the scope of the Specific Plan FEIR, as applied to the Downtown Project, and provide supplemental review by way of a subsequent or supplemental EIR. Inconsistent with all of the primary CEQA objectives, the Addendum and FEIR for the Specific Plan, as adopted, not only fail to provide adequate notice to the public, but also fail to provide the City and interested parties with the information needed to thoroughly assess and mitigate avoidable environmental damage. As a result, the City's misplaced attempt to streamline the Downtown Project by inappropriately circumventing CEQA requirements for such a large-scale series of long-term phased projects constitutes a manifest injustice and must be remedied before the Downtown Project can proceed.

Dear All,
I know this will NOT come as a surprise to any of you but I feel the need to register a strong protest against the proposed hotel on the site of The Desert Inn. (And I hope that you will at least read the message despite the messenger!)

Firstly, when the people of Palm Springs were asked to tax themselves in order to pay for development, they were told they would be getting boutique shopping, perhaps an Apple store and loads of entertainment venue.
Now they are getting an extra street which they will have to pay to maintain AND no theatres.

Secondly, the people were most certainly NOT told that there would be a block-long, seven story hotel which would run parallel to the mountains thus blocking all views. Apparently, only tourists will have the right to see the O'Donnell House, the foothills or the Museum.....which was another argument for putting in another new street.

Thirdly, the design is lacking. It is a very ordinary (albeit very LARGE), standard-issue, big-city downtown model! I read the New

Subject: RE: Downtown development

Roxanne: Once again you make several great point with which I agreee.

This, of course, you know is special territory to me and I want to see it treated is a special way to be reflective of all that was and is good about Palm Springs!

I am supporting Measure J in a different way. I bought two of the bonds. This should entitle me to some say in what is done.

The planners should be designing something that looks like our historical Mediterranean architecture and match the O'Donnell house.

We certainly don't need any steel and glass boxes.

3. People are not looking for giant hotels. They can get that in any big city or Las Vegas. Just look at how well the Hotel California on the south end and all of the Tennis Club area hotels are doing.

4. People want small intimate places that give individual attention. They don't want hustle.

I don't know anyone who thinks that this plan is an asset or likes the design.

How can we get plenty of people to tell the City, "Stop. This won't work. We will have years more of emply places with this."?

Come on, folks, learn the lessons that the last 40 years of history should have taught us. Carmel is doing quite well and it isn't planning multi story hotels.

Thanks, Roxann, for speak up. We need a ground swell of help to make this a

or the Museum.....which was another argument for putting in another new street.

Thirdly, the design is lacking. It is a very ordinary (albeit very LARGE), standard-issue, big-city downtown model! I read the New York Times daily and check out glossy magazines regularly; in three out of every four issues of the travel section(s), a full-page article is devoted to out-of-the-way, exotic places which are

1) devoted to health and well-being
2) respectful of the environment
3) taking full advantage of the beauty of the land around it
4) NOT "selling" hustle and bustle.

Unfortunately, the direction this hotel would be taking us is away from all that we already offer. The wheel does NOT need to be re-invented.

As someone who did NOT vote for Measure J, I am not surprised by any of this. We have a lot of history to tell us that something exactly like this would transpire. But I am disappointed that there is, seemingly, a rush to get this approved whether the people, the AAC or any other commission wish to see it happen. The "outreach" on the night of the first presidential debate was not only ill-timed but it had mixed reviews at best.

What about the crying need for story poles in this instance? What about a 3-D presentation so the true impact could be better assessed? We have all complained that the defunct Fashion Plaza was ill-advised and brought us decades of pain and shouts of recrimination. I am sincerely afraid that this will have the same result.

Thank you for your time,

Roxann Ploss

Roxann Ploss
Palm Springs, Ca.

"You cannot maintain a soul of a community if you detach it from history." Dani Dayan

staff placed the review of this proposal as the 8th item on a calendar of 8 items, when as the most important issue to come before the city in 25 years, it should clearly have been first. To add insult to injury, the public was informed just before discussions began that the entire item had to be wrapped-up in 35 minutes because the borrowed room needed to be vacated. This clearly seems to be an orchestrated attempt to stifle public input; this sort of thing does not happen by accident.

At this meeting, the public had their first chance to see the proposed redesign. The four members of the public who gave testimony all objected to the proposed 90-foot height of the hotel. But no member of the general public can be expected to assimilate or grasp the implications of relatively complex architectural renderings on a first viewing. No models were presented, only elevations and selected renderings. And the staff report prepared in advance by the Planning Director omitted many details. No demolition plan was presented (although I do not believe anyone would object to moving demolition forward now).

Although there is a one-line footnote in the Museum Market Plaza Specific Plan (SP) that allows a hotel to exceed the 60-foot height limit with City Council approval, the current proposal clearly violates both the letter and the intent of the General and Specific plans. Heretofore there was no discussion of a 90-foot tall building. It should come as no surprise that many residents will consider the current proposal to be a betrayal of the public trust. Public funds are paying for this project.

NON-CONFORMANCE WITH SPECIFIC AND GENERAL PLANS

On December 2, 2009 Palm Springs passed the Museum Market Plaza Specific Plan which amended the 2007 General Plan and its 2005 Downtown Development Guidelines. The current DFP remodel proposal conflicts with our (GP) in several critical ways. Section I of the GP states the priorities of the plan are to "strengthen and promote those things that make Palm Springs a one-of-a-kind resort destination" and "promote development that enhances scenic views and provides visual and physical access to the city's surrounding mountains and...other scenic and natural resources." (pp. 1-12 and 1-13) The proposal on the table does not conform to these basic requirements.

The GP section on PDDs (page 1-18) requires project sponsors to "mitigate any impacts that would be generated by the modifications" proposed to existing building codes and zoning. The October 17, 2012 amendment to the SP alleges the current plan qualifies under the existing Environmental Impact Report (EIR), yet no 90-foot hotel project was ever presented during the EIR review process and this plan fails the test of reasonableness required for re-certification of a "neg dec."

The Land Use section of the GP (Section 2) permits "43 hotel rooms per net acre; it also states that such hotel projects "should be designed to be compatible with neighboring development." The 2009 SP allows up to 70 units per acre for hotel use. The 2012 revision to the SP allows the developer to negotiate for a hotel of "170 plus" rooms. The current proposal for 180 rooms and their configuration is not compatible with surrounding development, unless you consider the Hyatt Hotel, commonly seen as most insensitive and inappropriate commercial structure in downtown.

Appendix A to the GP covers the Downtown Urban Design Plan (DUDP) which requires developers to "protect or create public view corridors" and states that building

the site plans as "future development." This newly revealed building, which was not shown in the staff report made available to the public, is proposed as being connected to the six-story main hotel building by glass bridges over the street level. he bridges encroach on open space. Dropping down a new box, and connecting it to another much taller one by bridges is a solution typically found in 1990s industrial parks when attempting to satisfy the growing needs of existing tenants. It looks like a "remuddle." If additional space is needed by the hotel, an entirely new design should be created. At this point, the developer has no binding commitment whatsoever from the Kimpton Hotel chain – just a "letter of intent," which any licensed real estate broker (and I have been one in California for 20 years) can tell you is only worth as much as the paper it's written on.

The inclusion of a hotel on the site is not a problem. "Heads in beds" is a concept anyone can understand, and few would question its importance in a city whose economy is based on tourism. After all, a hotel originally occupied this site. But the proposed monolith resembles a Russian housing block, with double loaded corridors and rooms facing east that will enjoy a view of rooftop HVAC equipment. The design's offensive and banal massing is not made more palatable by the proposed porte cochere and monumental glass entry. And, of course, there is the insensitivity of the design to view corridors and neighboring structures like the museum.

SOME SUGGESTIONS

It is disappointing to find ourselves, at this point in the process, with a design as crude as the current one. Certainly a shorter hotel and a reorientation to an east/west axis, instead of a north/south access would help minimize the adverse impact on views. Also a curving structure with an off-street porte cochere entry embedded inside the curve would help; even an east/west V-shape would provide some relief. Certainly a variation in the rectilinear blocks that comprise the entire project would provide some relief. Where are the curving elements? Where are the promised shaded or arcaded walkways that will allow year-round use of the new downtown buildings and protect pedestrians and shoppers during our relentless summer months? Where is the variety in shapes and street orientation, the originality of design concept, the progressive approach to 21st Century living?

One minor detail in the architects' rendering for the Market Street segment of the current plan reveals the level of sophistication at play here. That rendering shows strings of bare light bulbs criss-crossing Market Street. Unless the project is going to come complete with strippers, a carnival barker, and a bearded lady, this sort of honky tonk midway must be avoided at all costs. But there is it in the plans, and it speaks volumes.

We can and must do better than the current design.

November 25, 2012

To: The Mayor, the City Council. The Planning Commission and the Architectural Advisory Committee.

I am confused. Very confused, actually, about the overhaul of the Desert Fashion Plaza. And, if I am, I'm sure there are others who are also confused. Erica Felci's article in this morning's Desert Sun brought it to a head for me.

When we were being sold the plans for the Plaza and also for Measure J, I don't recall a six story hotel in the mix. I do recall a movie theatre and/or a bowling alley. But not a six story hotel with a pool and bar on top, which, in essence, makes it, seven stories. The last time I heard about a tall hotel with a pool and bar on top was when John Wessman was trying to build one next to Casa Cody and Ginny insisted on story poles. Has he just moved it across the street? That doesn't cut the height any.

So, this afternoon, I went to the city website and read the Faqs (from where did THAT spelling come?) and I tried to reconcile them with the "conceptual" maps – two of them - A and A-1. The Faqs say the hotel is on the back of lot A. But the maps didn't have a lot A. They did have lots A-I and A-2. So I'm guessing it is the one next to the Hyatt. But I shouldn't be guessing – I should be able to be certain. If it is next to the Hyatt that seems like it will give a citadel effect – sort of like a Rock of Gibraltar in the middle of downtown. That will certainly block views. And what of the "view corridors" about which we heard so much? That doesn't sound like corridors to me but, then, I may have it all wrong because of the "conceptual" maps.

Are the two renderings on the website what is really planned or are they "conceptual" too? Chris is quoted in this morning's paper as saying, "Archtecture can be fixed." Oh! I certainly wouldn't order a new house from a contractor without seeing the floor and site plans and a rendering of what it would look like. Why should anyone buy this without definite plans and drawings? I'm afraid we are going to get a duplicate of what is being torn down. Then we would be giving Wesswman and Co. a lot of money for what we already have.

And what about parking? From "the conceptual" maps it appears that all of the street level parking is gone. As I recall, that underground parking doesn't hold THAT many cars. And, in this day and age, who wants to go underground at night? With all of those

ARC Mtg.
11/26/12

shops and restaurants and a hotel, and outdoor gathering place, it seems as though parking will be a nightmare.

I'd sure like to know some definites instead of some concepts that "can be fixed".

Sincerely,

Jack Moore

City of Palm Springs
Office of the City Clerk
Attn: James Thompson, City Clerk
3200 E. Tahquitz Canyon Way
Palm Springs, CA 92262

Dear Sir or Madam:

Pursuant to the Public Records Act, as codified at California Government Code Section 6250, *et seq.*, please provide copies of the following public records available in files (whether in paper or electronic format) of the City of Palm Springs ("**City**")[1], which may likely include documents from the City's Department of Planning Services ("**Planning**") and Architectural Advisory Committee ("**AAC**"), within ten (10) days from the date of this request.[2]

The requested documents relate specifically to any and all City records and files, correspondence, notes, or other documentation pertaining to the proposed "Downtown Palm Springs Project" ("**Project**"), including but not limited to the following:

1. Any and all documents, records, meeting minutes, correspondence, and/or handwritten or typed notes relating to Palm Springs Promenade, LLC or Wessman Development Company's ("**Developer**") applications filed with Planning, including but not limited to Project models, photo-simulations of the Project, completed "Environmental Assessment" documents, site maps, architectural

[1] "City" relates to all former and present City employees, including but not limited to members of the City Council, Planning Services Department, and the Architectural Advisory Committee.

[2] I do not seek any records or portions of records that are protected by the Public Records Act, the attorney-client privilege, or the attorney work product doctrine, and thus consent to the City's redaction of any responsive records, but only to the extent redaction is absolutely necessary in order to preserve these privileges. (Cal. Gov't Code § 6253(a) ["Any reasonably segregable portion of a record shall be available for inspection by any person requesting the record after deletion of the portions that are exempted by law."].)

Please note that this request includes electronic communications of the City. You are being asked to ensure that responsive emails or technical documents maintained electronically are not destroyed.

elevations, floor plans and roof plans, exhibits, preliminary landscape development plan, drainage map, topographic map, exterior lighting plan, and grading plan, for the following[3]:

a) Planning Development District for Block C of the Museum Market Plaza Specific Plan area (Case No. 5.1290-PD361) [previously requested on December 6, 2012 with a statutory response date of December 16, 2012];

b) Tentative Tract Map No. 36446 to subdivide the Museum Market Plaza property [previously requested on December 6, 2012 with a statutory response date of December 16, 2012];

c) Major Architectural Approval 3.3605-MAJ/Block A;

d) Major Architectural Approval 3.3606-MAJ/Block B; and,

e) Major Architectural Approval 3.3607-MAJ/BlockC.

2. Any and all e-mails, letters, or any other communication by and between the City and the Developer, and all others acting or purporting to act on behalf of the Developer, from 2009 to present, related to the Downtown Palm Springs Project Applications.

3. Any and all internal and external e-mails, letters, or any other communication or report by the City, or included in the City's file, related to the Museum Market Plaza Specific Plan Addendum to the Final Environmental Impact Report ("**MMPSP Addendum**") that was approved by the City Council on October 17, 2012. This request includes any findings or determinations by the City specific to the MMPSP Addendum.

4. Any and all agendas, meeting minutes, public comments letters, and materials distributed, including memorandums and staff reports that were not posted to the City of Palm Springs website but disseminated at the following ***Planning Commission*** meetings:

a) December 5, 2012, including copies of the approved final resolutions when available; and,

b) November 28, 2012, including a copy of the Developer's Powerpoint presentation that was displayed on the overhead projector during the meeting;

c) November 14, 2012;

d) November 7, 2012; and,

e) May 25, 2011.

///

[3] Collectively, hereinafter referred to as the "Downtown Palm Spring Project Applications."

5. Any and all agendas, meeting minutes, public comments letters, and materials distributed, including memorandums and staff reports related to the following ***City Council*** meetings:

a) October 17, 2012;

b) April 18, 2012;

c) June 20, 2011;

d) December 2, 2009;

e) May 13, 2009; and,

f) January 14, 2009.

6. Any and all agendas, meeting minutes, public comment letters, and materials distributed, including memorandums and staff reports related to the following ***AAC*** meetings:

a) November 26, 2012;

b) November 19, 2012; and,

c) November 13, 2012.

It is my understanding that Marci Knighten of this office requested copies of the 2008 Museum Market Plaza Specific Plan ("MMPSP"), MMPSP Addendum to the Final Environmental Impact Report (approved on Oct. 17, 2012), Wessman Applications for the Planned Development District (Case No. 5.1290-PD361) and Tentative Parcel Map No. 36446, and the Project Financing Agreement for the Desert Fashion Plaza, entered into by and between the City of Palm Springs and Developer on September 29, 2011, on December 6, 2012. Please provide these previously requested documents as soon as they become available.

I can be reached at (415) 296-1696 if you have any questions regarding the requested documents listed above. I would be happy to make arrangements for copying or assist in reviewing files. Please let me know if there is a security deposit for any copying related charges and send all final invoices to my attention to ensure prompt payment.

Very truly yours,

JAMES THOMPSON
CITY CLERK

December 14, 2012

City Council
City of Palm Springs
3200 East Tahquitz Canyon Way
Palm Springs, CA 92262

To the City Council of Palm Springs:

The Greater Palm Springs Convention & Visitors Bureau (CVB) is the regional organization dedicated to marketing the valley's nine cities as one destination, generating economic impact, incremental tax revenue and long-term strategies.

Tourism is the leading industry in the Coachella Valley. In 2011, Greater Palm Springs welcomed an estimated 11.5 million domestic and international travelers and generated over $5 billion in sales. Overall, tourism is responsible for one out of every four jobs in Greater Palm Springs and saves each household an estimated $3,100 each year in local taxes.

The modern traveler is looking for destinations that are relevant and current, which greatly impacts the tourism industry's competitive nature. To increase market share, it is critical to continually enhance the City of Palm Springs' destination product and maintain its world-class brand.

The transformation of downtown Palm Springs will have a positive impact on the entire region and will be a "demand driver" for new travelers. Today's visitor is drawn to pedestrian-friendly plazas, open spaces, and brands that are unique, authentic and emotionally relevant to their needs.

We believe the Kimpton brand and design will deliver on these important aspects and integrates well into our long-term destination strategies. The Kimpton brand has already proven to be a very desirable product for the 25-45 age group, recently identified through current research as a high-interest demographic for Greater Palm Springs.

Additionally, we estimate the new Kimpton Hotel will generate over $17 million in visitor spending annually and will supplement efforts in attracting more group business for Palm Springs Convention Center. Conventions typically have a higher economic impact than leisure travelers, based on a greater delegate spend.

On behalf of the Greater Palm Springs CVB, we are very excited about the new direction of downtown Palm Springs and the addition of the Kimpton Hotel. We thank you for your commitment, vision and support in helping to guide our destination forward with positive and productive opportunities.

It truly is a "Brand New Day" in our Oasis!

Sincerely,

Scott White
President & CEO

JAMES THOMPSON
CITY CLERK

XC - Council
CHR
JR
Jay T

December 13, 2012

DEC 17 2012

Mayor Steve Pougnet and
City Councilmembers
City of Palm Springs
3200 E. Tahquitz Canyon Way
Palm Springs, CA 92262

Dear Mayor Pougnet:

The Coachella Valley Economic Partnership is a regional economic development organization devoted to expanding the business community, improving the quality of the workforce and strengthening the overall economy and quality of life for the region.

We wholeheartedly support the plans for revitalizing Downtown. This project will not only revitalize downtown Palm Springs, but it will attract, support and expand many new and existing businesses in the area.

The Kimpton Hotel will bring 80,000 visitors annually to the center of our downtown. These visitors are the important consumers with buying power our local retailers, businesses and restaurants are trying to attract to Palm Springs.

The revitalization of downtown will also create 1,000 new construction jobs and 1,500 new permanent restaurant, hotel and management jobs. It will also provide needed support to ancillary businesses such as marketing firms and accountants.

Revitalizing downtown Palm Springs will have tremendous benefits regionally as the new prosperity spills over into other communities. A new downtown Palm Springs will mean a stronger Coachella Valley.

The team developing this project has a tremendous track record of the highest standards of architectural accomplishments. For five decades the acclaimed architecture firm Allen & Philp has masterfully created successful and vibrant hospitality and mixed-use projects. That is exactly what they have designed for our downtown. Wessman Development is one of the Valley's most notable developers. One only has to look at Plaza Mercado as proof of Wessman's success. Exceptionally designed, it is the most successful retail and culinary center in downtown Palm Springs.

We commend the City Council for having the vision to support this project. We commend the people of Palm Springs for supporting Measure J that made this project possible. This downtown plan has been in the works for nearly ten years and most California cities would dream of the opportunity before us. We look forward to your approval and moving Palm Springs and the entire Coachella Valley forward.

Sincerely,

Thomas E. Flavin

Mr. Michael Depatie, Chief Executive Officer
Kimpton Hotel and Restaurant Group, LLC
222 Kearny Street, Suite 200
San Francisco, CA 94108

Subject: Kimpton Hotel and Restaurant Group Interest in Palm Springs

Dear Mr. Depatie,

The Palm Springs Preservation Foundation is a highly-regarded non-profit California corporation with an all-volunteer board and more than 1,800 members. Aside from our extensive advocacy efforts we produce a variety of educational products that celebrate southern California's architecture and the preservation of the area's historic resources.

We understand that the Kimpton Hotel and Restaurant Group has signed a "Letter of Intent" to occupy a proposed hotel in the Desert Fashion Plaza being developed by Wessman Development in the city of Palm Springs. We enthusiastically and sincerely welcome your distinctive and exceptional brand to become part of the Palm Springs tradition. However, because this development venture will receive almost $43 million in taxpayer subsidies we feel we have a special obligation to state our concerns about this project.

As you know, Palm Springs has an international reputation for its historic character and magnificent mountain views. Over the years our citizens have fought strenuously to preserve view corridors, significant architecture and the scale of our beautiful city.

We are encouraged that the current development plan restores the historic street grid and provides new opportunities for the rehabilitation of the architecturally-significant Town & Country Center (Paul R. Williams and A. Quincy Jones, 1948). However, a portion of the developer's plan includes a six-story hotel (with an 89-foot tower) and a design described as "cliff-like." This building height, which is out of scale with our downtown, is being touted by the local developer as "essential" for your involvement in this project. In view of Kimpton's reputation as a civic-minded corporation sensitive to local quality of life issues, we are skeptical this is the case and we would be happy to discuss our concerns with you in detail.

If you have any questions, or if we can be of further assistance, please contact the foundation at (760) 837-7117 or info@pspreservationfoundation.org.

Sincerely,

Ron Marshall

For the record --- Palm Springs City Council Meeting, December 19, 2012

My name is Donald Prell. Palm Springs is my year-round home. As the city council is about to approve the construction of a "high-rise-hotel," in part to replace the former ill-conceived Desert Fashion Plaza, I wish to go on record pointing out the city is about to repeat the mistakes made thirty years ago.

Yes, more hotel space is needed in Palm Springs to help bring the Convention Center to break-even; but this downtown hotel is not how to do it. Big hotels need to be constructed walking distance from the Convention Center, not where this one is to be built.

The foot-print of what is proposed is not large enough to provide the necessary underground parking to meet code requirements. The developer may be able to supply 75 to 100 underground spaces, but the code dictates at least 250 spaces, to cover the number of hotel rooms and event/banquet facilities in the above ground structure.

Since the mayor and city council seem not to be addressing this problem, the plan will be approved as-is. Then when questions

arise concerning parking, the mayor and city council will go along with the developer, approving many 'exceptions.' The first undoubtedly will be allowing the hotel to construct substantially fewer parking spaces than required by code. Second, granting the hotel use of the free-parking being offered to the public by the city, located in the present underground garage, which the city is currently purchasing from the developer. For hotel guests to get to the hotel's parking spaces, they will need to drive through the city owned parking structure. Who will pay the additional cost for security and upkeep, the city or the developer?

A few years from now, the developer will come to the city with plans to build high-rise residential condos and apartments on the vacant pads west of the hotel, and of course they will be approved; ending open space in downtown Palm Springs!

As I am in my late eighties, I will be unable to attend the meeting of the Palm Springs city council on December 16, 2037. Yet I am certain they will be attempting to explain, why in December 2012, the city rushed ahead to approve an ill-conceived high-rise hotel in what should have remained a low-rise development in the center of downtown Palm Springs.

****

By Desert Sun Editorial Board

A large hotel is the linchpin to the revitalization of downtown Palm Springs.

Yet, the city's Architectural Advisory Committee and now the Planning Commission are taking shots at the proposed Hotel Palomar. That's their prerogative, and we respect all those who serve on city panels. But the city would be foolhardy to blow the deal with Kimpton Hotels, a first-class chain with more than 50 luxury hotels around the world.

A 2006 study commissioned by the Palm Springs Convention Center & Bureau of Tourism found the city needs 1,000 more rooms to attract major conventions. The Aviation Summit held in Palm Springs last month provided a perfect example. The convention needed 1,600 rooms. The tourism bureau worked with 11 hotels, some as far 3 miles away, and coordinated four shuttle routes to help visitors get around.

More rooms within walking distance of the convention center will enhance its appeal.

Members of the advisory committee said the hotel was too tall and too big. Developer John Wessman originally proposed 165 rooms for the Hotel Palomar, but Kimpton asked to increase the number to at least 185 to ensure profitability. The plan is to add the extra rooms to a retail building planned next door with a glass-enclosed walkway.

How tall is too tall? Nearby Hyatt Regency Suites is 65 feet tall and has 197 rooms. Hotel Palomar is proposed at 70 feet, not counting a 19-foot elevator tower. The Agua Caliente Casino Resort Spa in Rancho Mirage is 120 feet tall with 565 rooms. The Morongo Casino, Resort & Spa is 330 feet tall with 310 rooms.

Mount San Jacinto looms above Palm Springs at 10,834 feet. Naturalist John Muir wrote of San Jacinto Peak, "The view from San Jacinto is the most sublime spectacle to be found anywhere on this earth!" The view from the proposed rooftop bar and pool will be spectacular, too.

Debating the height of the hotel is certainly appropriate and healthy. The

commissioners have a right — indeed, an obligation — to challenge developers. These decisions will chart the future of Palm Springs for decades and the city cannot afford to repeat the mistakes made with the creation of Desert Fashion Plaza. A large hotel is the linchpin to the revitalization of downtown Palm Springs.

OUR TIME IS NOW

by Harold Matzner and David Baron

It's time to revitalize downtown Palm Springs!

We have survived the economic downturn and we have a unique opportunity for Palm Springs to capture our share of the travel, vacation, and business meeting recovery that is occurring.

People from all over Southern California and elsewhere have 'found' Palm Springs. Of course, we were never "lost." We have a world-class brand. But Palm Springs has been hurt by the empty Fashion Plaza in its Downtown core.

We need a revitalized Downtown experience
Our small boutique hotels and larger hotels are prospering, yet virtually all of them, as well as our restaurateurs and business owners, complain about the same thing -- We need a defining and vibrant hotel/retail shopping experience to replace the empty Desert Fashion Plaza.

It is essential that we have more specialty boutique retail stores with unique merchandise like Trina Turk and Wil and Molly's and hip, cutting-edge dining like Trio's and LuLu's. This combination will not only bring folks to Palm Springs, but will encourage them to come back time and time again and spend their dollars here.

We must take action now
As a community we have invested a lot of resources, hard work, and hope to restore our brand and position in the convention and tourism industry. We must take action now!

The Palm Springs Downtown Revitalization Plan is a precious opportunity to shape our future as a city and as a vibrant, healthy community. The decayed Fashion Plaza has been and continues to be a 'black hole' highlighting our downtown and economic failure for nearly a generation. We have an opportunity

to change that right now.

Downtown Plan has years of planning and support
The Downtown Plan is the product of years of planning and visioning forums well attended by Palm Springs residents. This has been one of the most scrutinized and planned projects in the history of our Valley. And what is before the City is exactly what the voters demanded and expected when they approved Measure J.
Plan is strong and economically viable
We urge everyone to study the project on the City's website or at City Hall. You will find a project that marries new and unique retail, a vibrant restaurant scene, pedestrian-friendly plazas and open space alongside a four star Kimpton hotel. The business plan that is used to develop the Kimpton must meet their criteria and still be buildable based on the economics of the project.

Supports local businesses and restaurants
We are lucky to get the Kimpton brand in our town. Anyone who has stayed at one of the 54 Kimpton hotels will know that they are exactly what we need in terms of brand and ambiance to complete our City's hotel assortment. The rooftop pool and bar will be a huge attraction for tourists and locals alike. The Kimpton brand is the kind of magnet today's specialty retailers and finer restaurants demand when they are selecting new locations. This project will be anchored by the Kimpton, Hyatt, and the Palm Springs Art Museum that will combine to bring 300,000 visitors each year to its stores and restaurants. Each component of this plan will contribute to the overall cumulative economic success of the project.

Creates mountain views
Another benefit of the Downtown plan is that it creates two new viewsheds to the mountains that do not currently exist -- views that for the past 40 years have been hidden by the old Fashion Plaza. Also, while the zoning allows for 60-foot tall buildings stretched along the face of Palm Canyon, this plan goes lower. Palm Canyon will have single story shops and restaurants, separated by through-streets, and some setback double story buildings. The hotel is setback a minimum of 200 feet – a greater setback than any other hotel on Palm Canyon. By transferring density to the Kimpton, we are able to have lower buildings, more open areas and more views of the mountains, and an economically viable hotel. That is important!
Supports Art Museum
We are also excited about the new 50,000 square foot open area in front of the

Art Museum. This space will be used for concerts and other special events that will be enjoyed by both residents and visitors alike.

Support our opportunity to revitalize Downtown
The City of Palm Springs has a precious opportunity to rebuild its Downtown, and significantly improve its economic future. That is very rare option for any municipality today. It is an opportunity that must not be squandered.

November 28, 2012

Members of the Palm Springs Planning Commission, City staff, my name is Robert Moon and I have lived in the Vista Last Palmas neighborhood for 11 years. I am here today speaking as a private citizen and full time year around resident and not as a representative of any board or commission on which I currently serve.

The City of Palm Springs is famous throughout the world for it's beautiful scenery, incredible weather, and iconic architecture. However our beloved downtown has begun to stagnate. The old Fashion Plaza sits deteriorating on 13 acres right in the heart of our city. I have heard people say that the downtown should continue to be a village; that the new hotel should mirror the 13 small boutique hotels lined up along Bellardo. I most strongly disagree. Yes, we need to continue to aggressively preserve the best examples of our architectural heritage, and our small intimate family hotels are a priceless assets to our city. However, we will not survive, much less prosper, if we try to wrap downtown Palm Springs in a giant roll of saran wrap and wish for a time that has long since passed. If we are to survive and flourish it is imperative that we continue to evolve and grow. This plan for downtown Palm Springs with it's plazas, open spaces, sight lines and village green, all with the Kimpton hotel as it's focal point, will be the key to our future and our prosperity for decades to come.

Is the proposed hotel too tall? No. The scale of the hotel is appropriate to the location and will stand proudly as a centerpiece in the very heart of our downtown. Is it too massive? No. It is just large enough and grand enough to attract upscale corporate executive offsite meetings and conference business as well as be a destination point for sophisticated travellers from throughout the US and abroad - without being so large as to dominate the downtown. It's scale fits with the proposed downtown development. It's setback will minimize the blocking of the view from Palm Canyon Drive. The architecture of the hotel as well as the entire development is creative, modern, varied, and interesting. The recent changes made to the hotel design, such as the 30 foot prow windows, have made it even more interesting. This is a building that will represent the spirit and taste of our current early 21st century just as our mid century modern architecture represented the spirit and taste of the Palm Springs of 50 years ago. This exciting hotel with it's iconic roof top deck will be to the Palm Springs of today what the El Mirador and Racquet Club were to the Palm Springs of yesterday.

Success breeds success. This new downtown development with it's vibrant up-scale full service hotel as a centerpiece will be a needed shot of adrenaline right into the heart of our beautiful city. It will create an excitement and a vibe that will be contagious and result in a 21st century renaissance of our downtown. It is a critical first step in moving Palm Springs from being a 1960 village to that of a proud, beautiful, vibrant and diverse city that reflects the excitement and wonder of this new 21st century.

Let's all get on board, get on track, and get it built.

Robert Moon

Subject: Hotel and Mall and Retailers

Hi Jay Thompson,

This is a letter to the City Council, Planning Commission, and Architectural Review Commissions. Could you please forward to all of them?

Dear Council and Commission Members,

My partner and I both live in Palm Springs and own a small business in Palm Springs. We are all for whatever can be done to revitalize the City. I'm okay with the size and appearance of the hotel. I know Kimpton Hotels; if they are okay with it then it will be successful. Please approve this hotel and get the mall going so that we can have a draw downtown.

That includes the Monroe statue. Personally, it does nothing for me. However, the tourists seem to love it. Is there any way to keep it?

Lastly, I see Palm Desert has landed another major retailer. (Wine and Cork). We wish we could get stores like that in Palm Springs. Especially, a retailer list Costco who would bring in lots of sales tax revenue, but is very good to their employees.

CITY OF PALM SPRINGS
Department of Planning
3200 E. Tahquitz Canyon Way
Palm Springs, California 92262
ATTENTION: Craig A. Ewing, AICP
craig.ewing@palmsprings-ca.gov

RE: The City's Council's upcoming consideration of Downtown Palm Springs Project,

Dear Mr. Ewing:

Advocates for Better Community Development ("ABCD") continues to be seriously considered about the City of Palm Springs' ("City") apparent intention to hastily approve the current iteration of the Downtown Palm Springs Project, despite the Project's many inconsistencies with the Specific Plan and the City's failure to adequately analyze the Project's potential impacts. I previously described the City's failure to adequately review the project as required by the California Environmental Quality Act ("CEQA") in a letter I submitted to the City on December 5, 2012. Please distribute a copy of this letter to each member of the City Council in advance of tomorrow's hearing.

A. **The City should not proceed until there is a final and stable project description.**

The record shows that despite the many revisions to the Project, the record does not include a stable and finite project description. The project description underwent revisions in October 2012, and again in advance of the Planning Commission's consideration in November. Yet, as the Staff Report admits, the applicant has yet to submit a final and conforming project description for the buildings on Block b-1. According to the Staff Report, the applicant will submit the plans at a later date, yet the City is poised to approve the Project now. As a finite and stable project description is essential for a careful review of the Project impacts, the City must put off any final approvals until all aspects of the Project are adequately defined.

B. Owing to Project inconsistencies with the Specific Plan, the City Council may not approve the Project as currently proposed.

1. The City may not approve the Project because Blocks b and b-1 are inconsistent with the height and set back standards set forth in the Specific plan

The City's failure to require a final project description before approving the Project is particularly egregious because the applicant's current proposal for Blocks b, b-1, (and c and c-1) are inconsistent with the height and setback requirements set forth in the Specific Plan. The City apparently believes that despite these inconsistencies, the Project can be considered consistent with the Specific Plan. As the Staff Report describes it, "the City Council deemed the present plan (including the development of Block "b-1") to be conforming, requiring that flexibility be used in applying Plan's Block B standards. Staff believes that the general height standards (max. 60 feet) can apply to Block "b/b-1," which would make the proposed buildings conforming. The height in Block "c-1" may be addressed through the hotel Development Permit. Dec. 19, 2012 Staff Report, p.9.

Where the maximum height and minimum set back limits are specifically set in the Specific Plan, the City may not invoke "flexibility" to deem non-conforming buildings somehow consistent. Staff's proposed strategy of applying "general height standards" to Blocks b/b1 does not cure the inconsistency. There is simply no "general height" standard, as the Staff apparently believes. The Specific Plan, which was adopted following extensive public consideration and debate, includes very specific height and set back restrictions for each designated block. There is no authority for the Staff's contention that "the general" height standard can be applied to Blocks b and b-1 in direct contravention of the Specific Plan height/set back designations for these blocks. Gov. Code §65455 (No public work, subdivision map may be approved unless it is consistent with the adopted specific plan.)

Rather than invoking "flexibility", the Project proponent was required to apply for an exception to the Specific Plan requirements, which would be akin to requesting a zoning variance. Committee to Save Hollywoodland Specific Plan v. City of Los Angeles (2008) 161 Cal.App.4th 1168. To be granted an exception (similar to a request for a variance), the applicant has the burden of demonstrating conditions, such as the peculiar conditions of the particular lot, that justify a departure from the carefully laid out requirements of the Specific Plan. It is highly doubtful that the applicant here would be able to make such a showing under the facts of this case.

2. The City may not approve the Project as proposed because buildings proposed in Blocks b and b-1 exceed the maximum allowed square footage.

The Project is also inconsistent with the maximum square footage allowed by the Specific Plan. As the Staff Report readily admits (at p. 10), according to the Specific Plan, the maximum allowed floor square footage on Block b/b-1 is 3000 square feet (Sq Ft). The current proposal calls for a whopping 75,562 Sq Ft on Block b and b-1. Although the Specific Plan permits a

maximum of 15% transfer between blocks, the proposed Project exceeds this limit by a significant margin. Moreover, the "westerly building encroaches into setbacks and right-of-ways . . . ." Staff Report at p. 13. It is clear that the proposed Project is inconsistent with and betrays the Specific Plan's vision of Block b and b-1 as a central public gathering place by calling for two story buildings, a private alley and encroachment into setbacks and right-of-ways.

Ignoring this straight forward and specific standard, Staff opines that "a larger transfer may be recognized [??] between Blocks "A" and "b / b-1" so long as the maximum sum allowed on the two blocks is not exceeded." The Staff Report fails to offer any justification for this novel and unwarranted interpretation of the plain language of the Specific Plan. Contrary to the Staff's proposed approach, the City may not simply ignore the plain language of its own recently adopted Specific Plan.

The Staff Report admits that "the Specific Plan's approach to Block B has been modified by this proposal and the Council's conformity review of October 17, 2012." The approach proposed by Staff therefore violates California's planning laws by attempting to modify and revise the Specific Plan in a significant manner without following the procedures set forth in the Government Code, or compliance with CEQA.

The Staff attempts to gloss over the clear inconsistency by euphemistically describing the current plan as simply "postponing" the Specific Plan's vision for Block B. Staff Report at p. 15. Yet the Staff Report does not explain or expand on the concept of "postponing" the Specific Plan's vision of a central public gathering place. This is not a case where the City postpones implementation of a goal or policy; here, the City is being asked to approve a Project that would essentially make the attainment of the Specific Plan's goal impossible. The Project, therefore, is inconsistent with the Specific Plan.

3. <u>The City may not approve the proposed Hotel on Block c-1</u>

The proposed 185 room, 84 foot high hotel cannot be approved under the current Specific Plan. As set forth in my December 5, 2012 letter, the City has yet to conduct adequate environmental review of the proposed hotel to the extent that it is substantially more massive and taller than the hotel considered in the Specific Plan EIR. The proposed hotel, moreover, is inconsistent with the specific building standards set forth in the Specific Plan and is incompatible with the City's own vision for Downtown.

As the Staff Report recognizes, the "major challenge is the height of the hotel along West Tahquitz Canyon Way" where the proposed set back is 30-35 feet. Staff Report at p. 11. Staff goes on to recognize that the hotel would represent a "significant mass" on Tahquitz Canyon at Belardo Rd. p. 12. As proposed, the hotel would be inconsistent with the Specific Plan's requirement that significant building mass not be located along the street edge.

Staff also notes that the varying elevations and building facades throughout the site do not fulfill

the Specific Plan's goal of achieving a "coherent visual identity." I should also note that the Staff's analysis of the Project's visual impact and consistency with the Specific Plan is exactly the kind of analysis that ought to be conducted within the framework of CEQA in order to afford the public adequate opportunity to study the proposed plans provide comments to the City.

In several places, the Staff claims that the size and height of the proposed hotel is "necessary to support of the project." See, e.g., Staff Report at p. 13. Yet, there is no evidence or discussion in the record to support this contention. Put another way, there is no evidence to support the conclusion that the City could not have required the applicant to modify the hotel design by reducing the height, location and massing in order to make the Project consistent with the Specific Plan. There is no evidence, for example, of any economic studies to lend credence to the applicant's apparent contention that building a smaller hotel would render the Project economically infeasible.

In order to get around the Specific Plan's height and set-back standards, the applicant has requested that the City process this application as a Planned Development District or PDD. As an initial matter, I question the application of the PDD process in this instance. A PDD may be appropriate where the project is subject to the general plan and zoning standards. In this instance, however, the hotel is subject, not to general development standards, but the specific and carefully laid out standards set out in the Specific Plan, including set-back standards which this Project ignores. By adopting a Specific Plan in this instance, the City has already adequately considered the appropriate development standards that should apply to this specific project. Deviation from these standards by analyzing the Project as a PDD is antithetical to the careful planning work the City undertook in adopting the Specific Plan.

The City may not attempt to revise or abrogate the Specific Plan development standards by invoking the general provisions of PDD pursuant to Palm Springs Municipal Code ("PSMC") 93.040. Once development standards are adopted pursuant to a Specific Plan, any revisions thereto must comply with process and procedures set forth in Government Code, subject to compliance with CEQA. See, Longtin's California Land Use, 2nd Ed., at §2.30.

Even if processing the Project as a PDD were appropriate in this case, the City may not approve the requested added height and deviation from the minimum set-back standards because it cannot make the requisite findings. As the Staff Report explains, the City may not allow the hotel to exceed 60 feet unless the City Council can make a finding that the intent of the High Rise Ordinance (93.04.00) is met. The City may not approve a Project that is inconsistent with the Specific Plan's building standards and policy of not locating significant building mass near the edge of a street by making a finding that the Project meets the intent of the High Rise Ordinance. The City may not invoke an ordinance to approve a project that is fundamentally inconsistent with an adopted Specific Plan. Put another way, the Specific Plan trumps the ordinance.

The Staff Report attempts to paper over the proposed hotel's inconsistency with the Specific Plan by listing some of the Specific Plan's objectives which Staff contends are implemented by

the Proposed Project. Staff Report at p. 24. What Staff seems to ignore, however, is that while the Project as a whole may be consistent with some aspects of the Specific Plan, it simply does not follow that it is consistent with all relevant provisions of the Specific Plan. As I have explained above, the City may not approve the proposed hotel in reliance on the PDD ordinance to the extent that the proposed hotel is inconsistent with specific development standards (set back) set forth in the Specific Plan.

Conclusion

Owing to significant inconsistencies with the Specific Plan, the City cannot approve the Project as proposed. As I have described above, the City has yet to identify a stable and finite project description. To the extent that the current proposal is significantly inconsistent with the Specific Plan, it appears that the applicant expects the City simply to ignore the Specific Plan by approving a Project that meets the applicant's private vision for Downtown, but betrays that of the Specific Plan the residents of Palm Springs. Unfortunately, the City appears to be willing a partner in this enterprise. I implore you to reconsider and require the applicant to come back with a plan that is consistent with the Specific Plan.

Sincerely,

/ s /

Re: Palm Springs Downtown Renovation Project

Note to Council:

Modify the indemnification provisions in each set of conditions of approval for the Downtown Palm Springs Renovation Project to read as follows:

Indemnification. The owner shall defend, indemnify, and hold harmless the City of Palm Springs, its agents, officers, and employees from any claim, action, or proceeding against the City of Palm Springs or its agents, officers, or employees to attack, set aside, void, or annul, an approval of the City of Palm Springs, its legislative body, advisory agencies, or administrative officers concerning Case _____. The City will promptly notify the applicant of any such claim, action, or proceeding against the City of Palm Springs and the owner will undertake the defense of the matter at the owner's sole cost and expense, including without limitation owner's attorney's fees and costs. The foregoing notwithstanding, the City shall be solely responsible for its own attorney's fees and legal costs. The City retains the right to settle or abandon the matter without the owner's consent but should it do so, the City shall completely waive the indemnification obligation of owner herein, except the City's decision to settle or abandon a matter following an adverse final judgment shall not cause a waiver of the indemnification rights herein.

Subject: Tonight's meeting

Councilmembers,

I hope you have all read Robert Stone's excellent op-ed in the Sun a few days ago. Stone articulated my position perfectly and I hope you read it carefully.
The Maxim now Hyatt should be a lesson in what not to do, what not to build and where not to build it. I appreciate the reminder to us all of the hotel Wessman wanted to build next to Le Valluris. Same type of arrogance. Spreading the hotel mass along the mountains so the hotel rooms have the best view, and consequently block views from Palm Canyon and the area we most need to redevelop in the old mall space (closest to Palm Canyon).
Not only is the hotel too tall, the architecture is underwhelming to say the least. We need bold, exciting, contemporary modern architecture that will sit comfortably and appropriately beside the incredible stock of midcentury architecture our City is famous for!! And that will blend with faux-Spanish village fell, but not too much.
More arrogance from Wessman in his take or leave attitude when faced with criticism of the hotel design. Did he really think this bland, large mass would fly with those of who really care about architecture and what we can see from Palm Canyon.
Resist the urge to approve by being pushed by those who say enough has been said already.
Resist the urge to rush and push through what we will live with for generations.
Sincerely,

Terry House

Subject: FROM ROBERT IMBER re tonight

Dear All;

Tonight, I urge you personally draw on what ever it takes...common sense, logic or just plain political responsibility to address realistic concerns regarding downtown. An successful, lasting end result *cannot* be accomplished with the hastened review and decisions of late. **Municipalities nationwide regularly accomplish similar major redevelopment successfully** (e.g. *LIND Project*, San Diego; *Movietown Plaza*, West Hollywood; Portland, OR; Santa Barbara and Ventura,CA).

Committee and Commission review, much overridden or shelved, supported by informed public and professional input clearly determined copious insufficiencies and exclusions... not just "Sea of Sameness" architecture, building heights, views, paint colors or planters but critical planning, environmental and safety components that have not been sufficiently addressed at this juncture.

For example:

conformance (City, State); parking; deliveries and loading bays; density and congestion; public services and safety; disabled access; police and fire access and evacuation; pedestrian and vehicular access and circulation; viable road and sidewalk parameters; sustainability; noise; lighting; viable year-round use; walkability; deliveries and traffic back-up on streets (per the developer: it is to be as it is today...already often untenable); permanent indoor/outdoor uses; after business hours needs and activities; trash removal; promised permanent open spaces; views; architecture, perimeter parking (elsewhere) to remove cars from the center...the list goes on.

What a remarkable opportunity still, to bring our divergent community proudly together to its shared goal. Sadly, an opportunity seemingly devastated by repeating divisive"*business as usual*" than brought us here originally.

As an architectural and tourism expert who has brought thousands of worldwide visitors and millions of dollars to Palm Springs (including via real estate purchased by tourgoers), the innocuous architecture is an embarrassment...and should not be accepted by leadership of a city known and much revitalized by its built environment.

RE: Comments by ABCD to Downtown Palm Springs Project

Dear Mr. Ewing:

This office represents John Wessman and Palm Springs Promenade, LLC, the applicant for various entitlements related to the Downtown Palm Springs Project. The purpose of this letter is to respond to correspondence from Advocates for Better Community Development ("ABCD") submitted on December 4, 2012 and December 18, 2012.

In their letter of 12/4/12, ABCD complains that the EIR does not analyze the "current project". However, the current project is the implementation of the Museum Market Plaza Specific Plan ("SP"). The SP was fully analyzed in the project EIR, a document certified in 2009 which is now beyond challenge. While the SP provides the basic framework for the Downtown Palm Springs Project, the SP did contemplate that some adjustments would be necessary and therefore, it specifically provides that in conjunction with Phase One of the SP's implementation, the property owner may seek a "conformity review" to determine that the project, as proposed "is generally consistent with the Specific Plan." (SP page V-2.) The standard for this conformity finding is that the proposal "reasonably furthers the goals or objectives of the Specific Plan." (ibid.)

At the time it was considering the Addendum, the City completed a conformity review on the revised site plan, and found that the revision was in conformance with the SP. In demanding further environmental review, ABCD ignores CEQA's mandate that provides that once an EIR is approved, the City may not require further environmental review unless it finds that the changes in the project trigger new significant impacts or increase the severity of previously analyzed impacts.

12/19/2012
ITEM 1.A

The Addendum considered the revised site plan which is now brought forward for development in the current applications. The City found that except for visual impacts, the proposed project would not increase the impacts as analyzed in the EIR, nor would it create new impacts. With respect to the visual impacts, the City required new viewshed analyses, using the exact same locations as used in the EIR. These showed that while one area had greater visual impacts, overall, the revised project presented less of an impact to the mountain views and therefore did not trigger the requirement for new environmental review.

The City's determinations in this regard are given great weight by the courts, and are upheld so long as there is substantial evidence in the record to support the council's decision. The analysis and comparisons done to the original EIR provide that evidence and the Council's decision with regard to the addendum and their approval of the applications tonight are within the CEQA guidelines.

ABCD complains that the project description is not "stable", however, the applications clearly set forth what is being proposed and the City has built into its conditions of approval specific additional reviews to make certain that the details are consistent with expectations. Such follow up procedures are not indicative of an "unstable" project description, but rather are additional steps built in by the City to assure that the end product conforms with the City's environmental expectations as defined in the EIR and the Addendum.

ABCD's complaints about b-1 are premature since the resolutions do not approve, but rather, continue that building for redesign.

ABCD complains that the City's approval of the hotel's height/set backs should not be allowed via a PDD. Yet, the Specific Plan directly says *"Hotels may exceed 60 feet in height, subject to approval by the City Council via a Planned Development District."* (SP p. III-9, fn 12.) It is not up to ABCD to replace its own version of procedure with that approved by the City via the SP. The City, through the proposed resolution, is making the findings they need to approve the PDD as requested.

The revised site plan which was considered and approved with the Addendum presents modifications to Block B and the open space originally planned in that area. This revised site plan relocates, but does not eliminate the originally planned open space, making a finding of consistency with the overall goals of the SP appropriate in this regard. Furthermore, the SP, as originally approved, recognized that certain improvements would not be required to be implemented with Phase One of the Project, including the provision of open space in Block B. (See SP, page V-3.)

ABCD's primary complaint appears to be an objection to the City's use of its discretionary powers to determine how it wishes the Downtown Project to develop. The EIR, along with the Addendum, analyzes a project that is more densely developed than the project currently being proposed, thereby maximizing the impacts analyzed. The SP, recognizing that this is a large project which will take time to complete, provides for some flexibility via the phasing as discussed above, and via the conformity review process. In the context of that process, the Council must find that the proposed project "*is generally consistent*" with the SP, with the standard being "*whether the proposal reasonably furthers the goals or objectives of the Specific Plan.*" (SP, page V-2.) The Conformity Review process does not require that the Council find the proposed project to match precisely the conceptual elements analyzed in the SP and the EIR. Rather, it demands that the review bear in mind the goals and objectives of the SP, which the Council clearly found were supported by the Addendum and which are supported by the pending applications.

Sincerely,

W. Curt Ealy

City of Palm Springs

Addendum to Final Environmental Impact Report (Museum Market Plaza Specific Plan)

Prepared for Proposed Renovation Plan ("Downtown Palm Springs")

1. Summary

A. Introduction

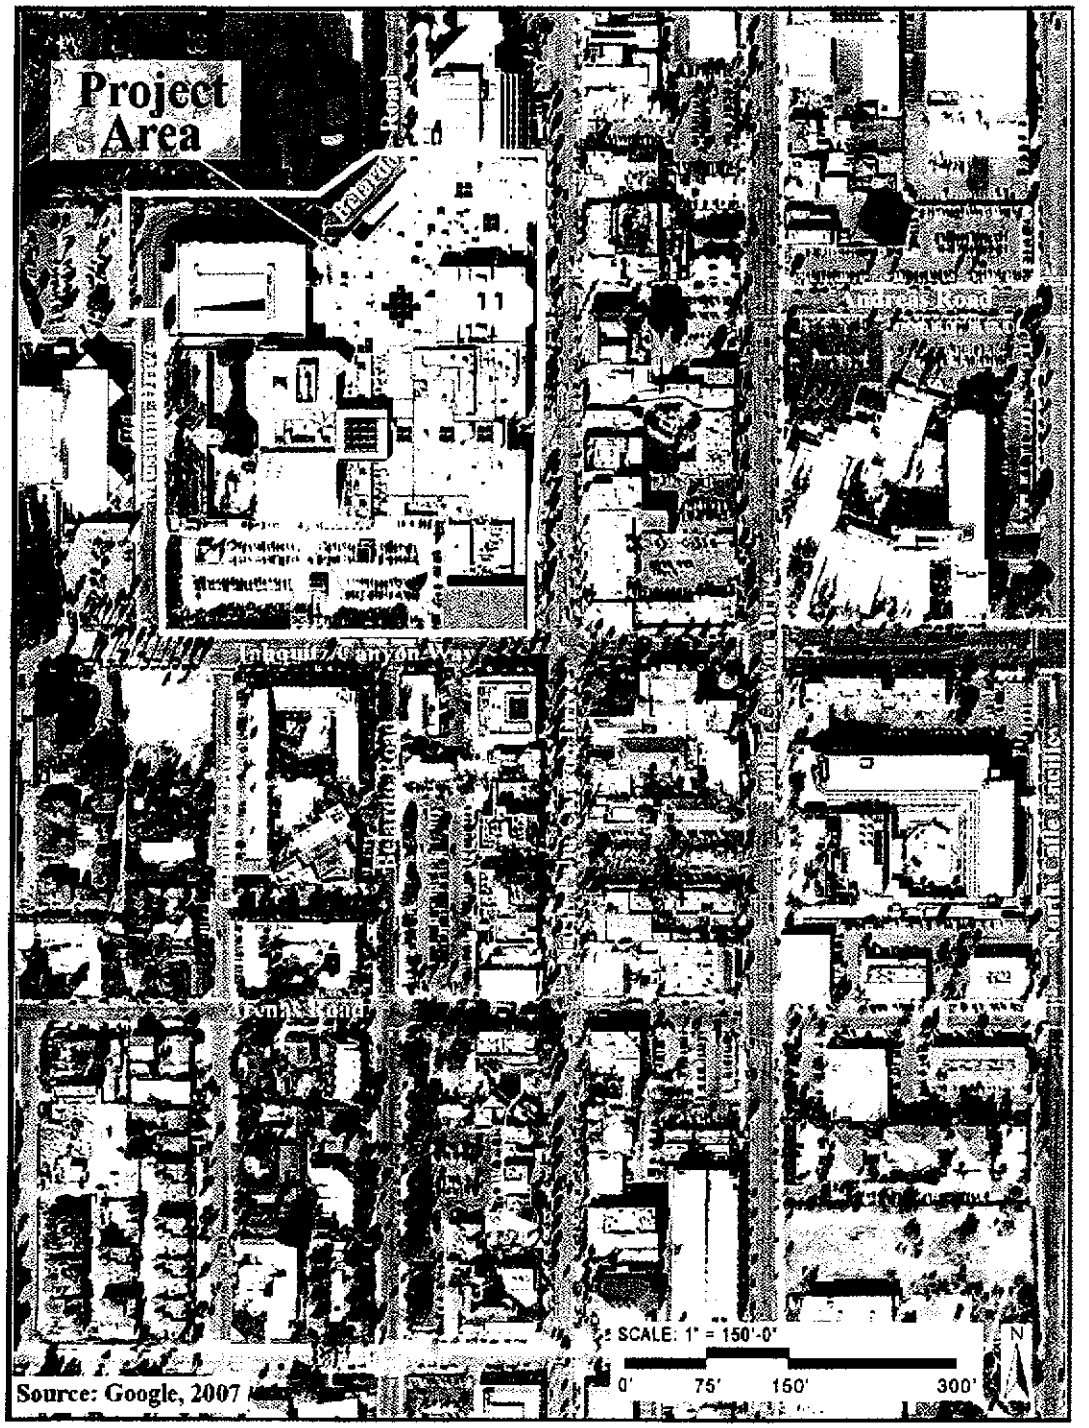
This Addendum to the Environmental Impact Report for the Museum Market Plaza Specific Plan has been prepared by the City of Palm Springs in compliance with the requirements of the California Environmental Quality Act (CEQA). The EIR was certified in December 2009 based on the development program identified in the Specific Plan. The City previously updated its General Plan in November of 2007, providing additional policy direction for land use, housing, circulation and other long-range community planning issues. This Addendum identifies changes in a proposed development program ("Downtown Palm Springs" or "project") for the subject 13.2-acre site, along with updated site and contextual information useful in review of the proposed project.

The project consists of the subdivision and development of 13.2 acres within the Museum Market Specific Plan, located at the northwest corner of Tahquitz Canyon Way and Palm Canyon Drive (see Figure 1). The project sponsor, Palm Springs Promenade, LLC, proposes to develop a total of approximately 1.4 million square feet of mixed commercial space on a portion of the site, along with related public facilities as further described in Chapter 2A below. The project site adjoins existing development to the north, east, west and south.

Development of the project, as proposed, include three separate blocks of commercial retail space, a 170-room hotel, a major public outdoor performance space (1.3 acres or 57,000 sq. ft.), underground public parking and the establishment of a public street grid, including extension through the project site of existing streets: Belardo and Andreas Roads. Full implementation of the project will include future phases west of Belardo Road that are not proposed at this time, but which are defined by the provisions of the approved Specific Plan. This Addendum examines the consistency of the current project design and implementation with the Specific Plan EIR. Following this Summary Chapter, the Addendum includes the following major components:

- Chapter 2: Project Description
- Chapter 3: Review of Current Project Setting, Impacts and Mitigation Measures
- Chapter 4: Conclusions
- Chapter 5: Technical Appendices

Figure 1: Project Location



MUSEUM MARKET PLAZA SPECIFIC PLAN EIR ADDENDUM - FIGURE 1

B. Previous EIR and Need for Addendum

The Museum Market Plaza Specific Plan and EIR were approved / certified in December of 2009[1]. The Specific Plan establishes detailed standards and guidelines for land use, development density, design and infrastructure, as well as policies and procedures for administration, implementation and phasing. The Specific Plan EIR evaluated development on all of the properties within the original 19.4-acre planning area at a project level, and includes specific mitigation measures to address both site-specific and cumulative effects of planned development.

The Specific Plan EIR identifies thresholds of significance for all project impacts, and includes a comprehensive set of mitigation measures to reduce the potential effects of development on aesthetics / visual resources, air quality, cultural resources, geology / soils, hazards and hazardous materials, hydrology, water quality / resources, land use planning, noise, population and housing, public services, recreational resources, transportation / traffic, utilities / service systems and economics. In all cases other than aesthetics / visual resources, air quality and cultural resources, the proposed mitigation measures were found to reduce the effects of buildout under the Specific Plan to a less than-significant level.

The City adopted a Statement of Overriding Considerations on December 2, 2009, finding that the benefits derived from implementing the Specific Plan outweighed the remaining (unavoidable) post-mitigation significant effects identified in the EIR. As further discussed in Chapters 3 and 4, the aesthetics / visual resources, air quality, cultural resources and other environmental effects of the proposed Downtown Palm Springs project would be less than those associated with the original Specific Plan project. This addendum has been prepared incorporating updated project information, with recommendations for refinement of several original Specific Plan mitigation measures, as appropriate, to efficiently address the current project design and context.

This Museum Market Plan EIR Addendum has been prepared in accordance with the standards identified in Section 15164 of the CEQA Guidelines to evaluate the proposed project. As discussed in Chapters 2 and 3, the proposed Downtown Palm Springs project calls for commercial mixed use densities which are consistent with those identified in the Specific Plan. The project proposes a street arrangement, building heights and masses, and commercial uses which differ from those identified in the Specific Plan; nevertheless the proposed streets, structures and uses achieve the basic purposes of the Specific Plan. Subsection (a) of CEQA Guidelines Section 15164 provides that:

> *"The lead agency or responsible agency shall prepare an addendum to a previously certified EIR if some changes or additions are necessary but none of*

[1] Terra Nova Planning & Research, Inc., Museum Market Plaza Specific Plan and Draft and Final EIR, SCH #2008061084.

the conditions described in Section 15162 calling for preparation of a subsequent EIR have occurred."

It is the conclusion of the analysis presented in Chapters 2 and 3 that *none* of the conditions identified in Guidelines Section 15162, as summarized below, would apply to the proposed project for the following reasons:

(1) Substantial changes proposed in the project which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects.

The proposed Downtown Palm Springs project is consistent with all elements of the adopted Specific Plan, and would therefore not result in new or expanded impacts beyond those identified in the previously certified Specific Plan EIR and Addendum.

(2) Substantial changes with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects.

No substantial changes have occurred within the planning area, community or region which would lead to new or expanded significant project impacts. As described in Chapters 2 and 3, cumulative development within the planning area is no greater than anticipated under the Specific Plan project-level EIR.

(3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete, shows any of the following:

(a) The project will have one or more significant effects not discussed in the previous EIR or negative declaration.

The proposed Downtown Palm Springs project does not present any new potentially significant effects not evaluated in the previous EIR.

(b) Significant effects previously examined will be substantially more severe than shown in the previous EIR.

The analysis provided in this Addendum shows that the previously identified significant effects of the Specific Plan would not be accentuated through implementation of the proposed Downtown Palm Springs project.

(c) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative.

No changes in the feasibility of Specific Plan mitigation measures have been identified.

(d) *Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.*

No new significant effects on the environment have been identified from the Downtown Palm Springs project. No mitigation measures or alternatives except those mitigation measures adopted with the 2009 Specific Plan EIR are considered necessary to substantially reduce significant impacts associated with the project. A Statement of Overriding Considerations adopted in 2009 remains a part of the certified EIR and applicable to the Downtown Palm Springs project.

2. Project Description

A. Proposed Land Uses and Improvements

The Downtown Palm Springs project proposes the subdivision and public improvements for 13.2 acres of the Museum Market Plaza Specific Plan planning area and the development of four blocks within the planning area. The project proposes a total of 1,237,000 square feet of mixed-use commercial development (retail, restaurants and office), a 170-room hotel with appurtenant uses on three blocks and a 1.3-acre (57,000 sq. ft.) outdoor entertainment venue on the fourth block. Public improvements for the 13.2-acre planning area includes streets, sidewalks, drainage, approximately 1,100 public parking spaces, public restrooms and other associated facilities.

A parcel map is called for to realign property boundaries, allow dedication of public streets and abandonment of certain rights-of-way, and offer of public easements. Two existing streets adjacent to the project area will be extended through the site:

- Belardo Road, a north-south local street will be extended through the site, from Tahquitz Canyon Way to Museum Drive, and
- Andreas Road, an east-west local street will be extended through the site, from North Palm Canyon Drive to Belardo Road.

As shown in Figure 2, the Downtown Palm Springs project includes construction of all streets and public improvements. The proposed project entitlements, including a tentative parcel map, Planned Development Permit and architectural design approval, and related plans and permits are associated with a Project Financing Agreement (as amended) between the developer and the City.

A majority of the subject property has been developed as an enclosed shopping mall. The westerly third of the site is developed with surface and underground parking associated with the shopping center. This parking was identified in the Specific Plan as to be retained for future use, and it is preserved in the proposed Downtown Palm Springs project. The physical characteristics of the project site itself are substantially unchanged from the description presented in the 2009 EIR, and the conditions of surrounding properties have also not substantially changed. No significant new development in the surrounding commercial, residential and institutional areas has occurred.

As noted above, the Downtown Palm Springs project proposes a total of 272,000 square feet of mixed-use commercial (retail, restaurant and office) in the three blocks fronting N. Palm Canyon Drive (Blocks A, B and C). A 170-room hotel is also proposed for Block C. Block E is proposed as an outdoor entertainment venue.

A block-by-block comparison of the Specific Plan and the Downtown Palm Springs project is provided below:

Block	**MMP Specific Plan** Uses / Sq Ft		**Proposed** Uses / Sq Ft	
A	Mixed Retail	220,000	Mixed Retail / Office	92,000
B	Restaurant	3,000	Mixed Retail / Office	90,000
C	Mixed Retail / Office	245,000	Mixed Retail / Hotel	229,000
D & F	Retail / Residential	455,000	Retail / Residential	455,000
E, G & H	Retail / Residential	520,000	Retail / Residential	520,000
TOTAL SF		1,443,000		1,386,000

Downtown Palm Springs has been planned for construction in multiple phases. Phase I includes all public street and infrastructure improvements and the development of Blocks A, B, C and E. Subsequent phases for Block D, F, G and H are not scheduled at this time (Figures 2 and 4).

B. Relationship to Adopted Museum Market Plaza Specific Plan

Current land use classifications and planned roadway alignments for the Museum Market Plaza Specific Plan are shown in Figure 3 below. The project adjoins two Major Thoroughfare streets, Tahquitz Canyon Way on the south and N. Palm Canyon Drive on the east. It also adjoins Museum Drive on the west, a Collector Street. Since the adoption of the Specific Plan in 2009, no changes to these streets have occurred.

In adopting Specific Plan in 2009, the City Council deleted two areas that were identified in the draft Specific Plan and analyzed in the Specific Plan EIR:

- Planning Area 2, southwest of Tahquitz Canyon Way and Belardo Road, and
- Planning Area 3, northeast of Arenas Drive and Belardo Road

Development of these sites was evaluated in the Specific Plan EIR, but such development is no longer part of the Specific Plan. In addition, Blocks K-1 and K-2 of the Specific Plan are not a part of this project; no plans are currently pending for any of these sites.

As called for in the Specific Plan, the proposed project extends a Collector Street (Belardo Road) through the site with a 62-foot right-of-way, connecting it with the existing Belardo Road alignment at both the south and north ends of the project (see Figure 2). A new east-west street called for in the Specific Plan (labeled, "Museum Way", 48-foot right-of-way) is also to be constructed with the Downtown Palm Springs Project, beginning at N. Palm Canyon Drive to the east and terminating in front of the Palm Springs Art Museum at existing Museum Way. The Specific Plan called for a portion of existing Museum Way along the north-west corner of the site near O'Donnell Golf Course to be abandoned, but this is to be retained as a public street in the proposed project.

The proposed project will also construct Andreas Road, a Collector Street, from its current terminus at N. Palm Canyon Drive to Belardo Road (new) within the project site, and a private street ("Market Street") within Block B. A street identified in the Specific Plan within Blocks D and F, from W. Tahquitz Canyon Way to Museum Way (new) is not part of the current project.

The Downtown Palm Springs project indicates Belardo Road at a right-of-way at 41 feet for one lane of travel in each direction and parallel parking. Additional width for sidewalks is to be dedicated by the developer via easements with the tentative parcel map. The new Main Street (called Museum Drive in the Specific Plan) is also proposed at a right-of-way width at 41 feet, with additional sidewalk width to be dedicated. The exact configurations of Belardo Road and new Museum Way will be subject to further review and refinement consistent with future detailed plans for the project.

The internal street pattern has achieved the Specific Plan goal of affording multiple points of access to the project. Primary access to the project site will be provided from N. Palm Canyon Drive, W. Tahquitz Canyon Way, the extension of Belardo Road, as indicated in the Specific Plan. Additional access will be afforded by the retention of Museum Drive (existing) near O'Donnell Golf Course and the extension of Andreas Road from N. Palm Canyon Drive.

As noted in the preceding section, commercial land use densities for the 13.2-acre project are consistent with those shown in the adopted Specific Plan. The proposed street grid is generally consistent with the Specific Plan and divides the site into development blocks similar to the Specific Plan's planning areas. The changes to the street grid and the relocation of the public space from Block B to Block E re-arranges the distribution of development spaces within the project area, increasing the development potential of Block B and creating a larger outdoor entertainment venue on Block E (Figure 4).

As proposed, the Downtown Palm Springs project would comply with all applicable mitigation measures identified in the Specific Plan EIR. No supplemental mitigation measures are recommended as a result of the analysis contained in this. Please see Section 3.B for additional analysis.

DOWNTOWN PALM SPRINGS

WESSMAN DEVELOPMENT

Prepared by ALLEN WILLIAMS ASSOCIATES • NILES, ILLINOIS (847) 647-2600

FIGURE 4

C. Environmental Context of Proposed Project

The project site and the contiguous parcels to the north, east, west and south remain developed, with no significant change following preparation of the Museum Market Plaza Specific Plan and supporting EIR analysis. Today, the site continues to be at the center of Palm Springs' traditional downtown commercial district. No development has occurred within one-half (1/2) mile of the project site.

Access to the project will continue to be provided by the City's existing street network, including Major Arterials adjacent to the project (Palm Canyon Drive and Tahquitz Canyon Way) as well as those within one mile of the project (Indian Canyon Way and Ramon Road). Collector and local streets also serving the project site and vicinity are unchanged. Approximately three-quarters mile south of the site, Belardo Road now extends to the intersection of South and East Palm Canyon Drives by construction of a new bridge over Tahquitz Creek. This completion (bridge dedicated September 2012) provides an alternate route of access to the project site; however, the extended portion does not serve significant residential or commercial properties and is not expected to be an additional source of trips to the project. No other changes to the street network have occurred and no new impacts to traffic are expected from the proposed project beyond that analyzed in the Specific Plan EIR.

The Downtown Palm Springs project proposes a reduction and re-arrangement of certain uses and development areas, most notably the substitution of a hotel for the commercial office building in Block C. Other blocks show both an individual and overall reduction in square footage and building mass, and the overall proposal is similar to the renovation plan accepted by the City Council as conforming to the Specific Plan in 2009. Nevertheless, the proposed project's relocation of development among the planning area blocks may result in altered visual impacts, especially on views toward the San Jacinto Mountains to the west. This is further discussed and analyzed in Chapter 3, below.

As the last remaining large-scale redevelopment project in the Palm Springs central commercial district, the proposed project will provide an important anchor to the City's commercial and touristic core over the next several decades. Completion of this project per the terms of the associated Project Financing Agreement (as amended) will also provide for an outdoor performance venue within the Specific Plan area. The 1.3-acre event space will serve the needs of residents and visitors in the form of urban open space and as a venue for cultural and social activities. No loss of cultural or social amenities will occur as a result of the project.

No other environmental impacts are expected to result from the project which are not already analyzed and, as needed, mitigated in the Museum Market Plaza Specific Plan EIR and associated Statement of Overriding Consideration and Mitigation Monitoring Program.

3. Environmental Setting, Impacts and Mitigation

A. Certified FEIR for the Museum Market Plaza Specific Plan

The certified project EIR for the Museum Market Plaza Specific Plan anticipated development of the subject property without the need for further environmental documentation. The final Mitigation Monitoring and Reporting Plan, adopted with the EIR certification, includes a complete set of measures to avoid or substantially lessen the effects of implementing the Specific Plan (including development of the subject property), with three exceptions: A Statement of Overriding Considerations was adopted on December 9, 2009, as part of the EIR certification and Specific Plan approval, finding that the benefits derived from implementing the Specific Plan outweighed a remaining post-mitigation significant effect on aesthetics / visual resources, regional air quality and cultural resources. These original unavoidable significant impacts were found to be a function of the location, scale and urban intensity of the Specific Plan project and region-wide air quality conditions.

The proposed Downtown Palm Springs project is consistent with the land uses and improvements as analyzed for this site and the surrounding area under the Specific Plan EIR. The resulting the aesthetic / visual resources, air quality, cultural resources and other environmental effects of the Downtown Palm Springs project will be no greater than those associated with the adopted Specific Plan project, as discussed below

The adopted Mitigation Measures for the Museum Market Plaza Specific Plan are attached to this Addendum as Appendix I. The proposed project must comply with each applicable measure. The analysis provided in Section 3.B below confirms that the proposed project would not differ materially in its effects on aesthetics / visual resources from the analysis presented in the Specific Plan EIR.

B. Updated CEQA Documentation – Aesthetics / Visual Resources

The following analysis on the potential impacts of the Downtown Palm Springs project is based on photo-simulations which may be compared with the photographic analysis of the Specific Plan EIR. In the EIR's analysis of project impacts on aesthetics / visual resources, eleven view locations were identified and photographed. (Three locations – numbers 1, 2, and 11 – were oriented to portions of the original Specific Plan project area that are not part of the Downtown Palm Springs project and are not necessary for this analysis.) The remaining eight locations are:

View 3 – from the intersection of Indian Canyon Drive and Andreas Road, looking west along Andreas Road.

View 4 – from the east side of Palm Canyon Drive, approximately mid-way between the intersections with Tahquitz Canyon Way and Andreas Road at the pedestrian signal light, looking north along the west side of Palm Canyon Drive.

View 5 – from the east side of Palm Canyon Drive at a point opposite the Hyatt Hotel, looking south along the west side of Palm Canyon Drive.

View 6 – from within the O'Donnell Golf Course, looking in a southeasterly direction.

View 7 – from the northeastern corner of the Art Museum, looking across Museum Drive in a northeasterly direction.

View 8 – from the east side of Cahuilla Road, looking in a northwesterly direction.

View 9 – from the intersection of Belardo and Arenas Roads, looking in a northeasterly direction.

View 10 – from the intersection of Palm Canyon Drive and Tahquitz Canyon Way, looking west along the north side of Tahquitz Canyon Way.

In the Specific Plan, EIR, the viewsheds were digitally photographed and images of the proposed building envelopes were incorporated into the photographs to simulate the appearance of the site at project completion. The simulations did not depict building architecture, but provided a concept illustrating the potential maximum building height, the minimum setback and stepbacks, and the spatial distribution of structures within the plan.

For the proposed Downtown Palm Springs project, these same digital photographs were used and images of the proposed buildings were incorporated into the photographs to simulate the appearance of the site upon completion of the new project. Both photo-simulations – for the Specific Plan and for the Downtown Palm Springs project – have been compared to determine the individual and cumulative changes to impacts on aesthetics / visual resources of the Downtown Palm Springs project.

View 3
This view is taken from the intersection of Indian Canyon Drive and Andreas Road, looking west along Andreas Road. Proposed development evaluated in the Specific Plan EIR included Block K to the immediate right and Block A in the center and further distant. The Downtown Palm Springs project does not include Block K. The exclusion of Block K provides significant reduction in the amount of building mass in the viewshed. The development of Block A according to the Downtown Palm Springs project provides an incremental improvement in mountain views, as compared to the Specific Plan, as the new project's buildings are lower in height and setback further from the viewer.

View 4
This view is taken from the east side of Palm Canyon Drive, approximately mid-way between the intersections with Tahquitz Canyon Way and Andreas Road at the pedestrian signal light, looking north along the west side of Palm Canyon Drive. Proposed development in the Specific Plan includes a low-rise (one-story) building in Block B, and multiple story buildings in Block A. The Downtown Palm Springs project proposes more intense development in Block B which results in greater building bulk in

view. Views of the mountains to the left, behind trees and other in Blocks E, G & H will be lost. This incremental loss of mountain views is not considered significant compared to the Specific Plan as the proposed buildings are consistent with and similar to buildings already occurring in the area. No other scenic resources, such as historic buildings are visible.

View 5
This view is taken from the east side of Palm Canyon Drive at a point opposite the Hyatt Hotel, looking south along the west side of Palm Canyon Drive. The Specific Plan building allowance for Block A is a multi-story building along N. Palm Canyon Drive which serves as the primary building mass from this view. The Downtown Palm Springs project proposes only one-story buildings along the street frontage of Blocks A and B. The reduction in building mass proposed by the Downtown Palm Springs project restores the views of distant mountains, incrementally improving long-range views.

View 6
This view is taken from within the O'Donnell Golf Course, looking in a southeasterly direction. No significant view elements or scenic resources beyond the trees at the golf course are visible. The Specific Plan would allow a small amount of building mass to be visible above the trees, and the Downtown Palm Springs project would show similar or slightly less building mass. No change to these insignificant view impacts would result.

View 7
This view is taken from the northeastern corner of the Art Museum, looking across Museum Drive in a northeasterly direction. No significant view elements or scenic resources except the trees at O'Donnel Golf Course are visible. The Specific Plan would allow a multiple story building mass up to a height of 60 feet within Block H. The Downtown Palm Springs project would eliminate this building with single story parking in its place. New two-story buildings to be constructed in future phases to the west and south two stories present significantly less mass from this viewpoint. The impacts of the Specific Plan on this viewshed are substantially reduced by the Downtown Palm Springs project.

View 8
This view is taken from the east side of Cahuilla Road, looking in a northwesterly direction. Proposed development evaluated in the Specific Plan EIR included Block L to the immediate left and Blocks D and F in the center-right and further distant. The Downtown Palm Springs project does not include Block L, which was deleted from the final Specific Plan. The deletion of Block L provides significant reduction in the amount of building mass in the viewshed, revealing significant views of the mountains and the Palm Springs Art Museum. The development of Blocks D and F according to the Downtown Palm Springs project provides significant additional reductions in building mass, as compared to the Specific Plan, as the new project's buildings are limited to the far right side of the perspective and only surface parking is provided to the center and left.

View 9
This view is taken from the intersection of Belardo and Arenas Roads, looking in a northeasterly direction. Proposed development evaluated in the Specific Plan EIR included Block J to the center and right and Block C in the far distant center-left of this viewpoint. The Downtown Palm Springs project does not include Block J, which was deleted from the final Specific Plan. The deletion of Block J provides significant reduction in the amount of building mass in the viewshed. The development of Blocks D and F according to the Downtown Palm Springs project provides incremental increase in visible building mass, but it is only a small addition to the overall perspective and does not hinder views of any scenic resource, including historic buildings. The impacts on this viewshed are substantially reduced by the Downtown Palm Springs project.

View 10
This view is taken from the intersection of Palm Canyon Drive and Tahquitz Canyon Way, looking west along the north side of Tahquitz Canyon Way. Proposed development in the Specific Plan allows multiple story building mass up to 60 feet in height in Blocks C, D and F. The Downtown Palm Springs project proposes slightly less intense overall development in Block C, but with one and two story buildings in the foreground of this view and greater building bulk (ranging from 70 to 89 feet) further back. One to three-story buildings are planned for the nearer portion of Block D. Views of the mountains will be modified such that more of the mountain base will be visible in the center-left, while somewhat less mountain and ridgeline will be seen in the center of the perspective. Overall, the impact is about the same, although the loss of ridgeline views can be considered significant. No other scenic resources, such as historic buildings are visible.

Summary and Determination
Based on an analysis of the eight photographic viewpoints from the Specific Plan EIR, the development of the Downtown Palm Springs project as compared to potential development allowed by the Specific Plan will have incrementally different effects on views. With the exception of View 10, the impact are not individually nor cumulative significant. The loss of ridgeline views may be considered significant, but View 10 indicates that the amount of ridgeline lost from view is less than 15% of the visible ridgeline. Further, other portions of the mountain are revealed in View 10 by the Downtown Palm Springs project. Taken together, the overall effect on aesthetics and visual resources of the Downtown Palm Springs project is no more significant that the Museum Market Plaza Specific Plan.

4. Conclusions

A. No Substantial Change in the Project

Implementation of the proposed Downtown Palm Springs project would result in substantially the same scale and nature of commercial development contemplated in the 2009 Specific Plan EIR. The proposed project is substantially consistent with land use, circulation, open space, grading and related policies contained in the Museum Market Plaza Specific Plan.

B. No Substantial Changes in Circumstances

There are no substantial changes in the circumstances under which the Downtown Palm Springs project would be carried out. Three years following preparation of the Specific Plan EIR, the project site remains the last significant property available for redevelopment in the City's commercial / touristic core. The site adjoins an established street grid that has not changed since certification of the EIR. Implementation of the proposed project would create a key public event and entertainment venue, as identified in the Specific Plan, and improve the internal circulation by constructing additional public and private streets.

C. No New Information of Substantial Importance

Supplemental information has been assembled for the preparation of this Addendum. None of this information is of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete. Specifically, the project does not present any new potentially significant effects not evaluated in the previous EIR. In addition, the previously identified significant effects of the Specific Plan would not be accentuated through implementation of the proposed Park Ridge project. No changes in the feasibility of originally adopted Specific Plan mitigation measures have been identified (see Appendix I).

5. Technical Appendix

Photo-simulations for the Downtown Palm Springs project (numbered based on Specific Plan EIR

Key Map – indicates all eleven photo locations analyzed in the EIR. Three photo locations (1, 2 and 11) do not address the Downtown Palm Springs project boundaries and are excluded from this analysis.

View 3 – from the intersection of Indian Canyon Drive and Andreas Road, looking west along Andreas Road.

View 4 – from the east side of Palm Canyon Drive, approximately mid-way between the intersections with Tahquitz Canyon Way and Andreas Road at the pedestrian signal light, looking north along the west side of Palm Canyon Drive.

View 5 – from the east side of Palm Canyon Drive at a point opposite the Hyatt Hotel, looking south along the west side of Palm Canyon Drive.

View 6 – from within the O'Donnell Golf Course, looking in a southeasterly direction.

View 7 – from the northeastern corner of the Art Museum, looking across Museum Drive in a northeasterly direction.

View 8 – from the east side of Cahuilla Road, looking in a northwesterly direction.

View 9 – from the intersection of Belardo and Arenas Roads, looking in a northeasterly direction.

View 10 – from the intersection of Palm Canyon Drive and Tahquitz Canyon Way, looking west along the north side of Tahquitz Canyon Way.

GRANT DEED

Grant of Fee Title by Grantor. Palm Springs Promenade, LLC, a California limited liability company ("Grantor"), as the owner of fee title to the real property legally described on *Exhibit "A"* attached hereto ("Entire Property"), hereby grants to the City of Palm Springs, a municipal corporation and charter city ("City"), the portions of the Entire Property legally described and depicted on *Exhibit "B"* attached hereto ("Granted Property"), and retains the portions of the Entire Property described on *Exhibit "C"* attached hereto ("Retained Property"), subject to terms, covenants, conditions, restrictions, reservations, easements, exceptions and agreements as set forth below:

(1) The Granted Property shall not be sold, transferred or conveyed to any person, entity, or agency, other than to a successor public agency to the City or the Palm Springs Public Financing Authority so long as such sale, transfer or conveyance is subject to the authority and responsibility to fully comply with all of the terms, covenants, conditions, restrictions, reservations, easements, exceptions and agreements contained in this grant deed;

(2) City acknowledges that private facilities consisting of commercial, retail, office, theater, hotel and residential uses are planned for construction and operation in the vicinity of the Parking Facilities, and that such uses would not be possible or economically viable without ongoing and continued operation and maintenance of the Parking Facilities; accordingly, subject to City's rights to temporarily close all or a portion of the Parking Facilities and/or otherwise limit vehicular and/or pedestrian access as the City may reasonably determine is necessary for the restoration, demolition and construction or reconstruction, or renovation of Parking Facilities, City agrees as follows: (a) City shall operate, maintain, and use the Parking Facilities as and for free parking, in a safe, sound, attractive, operational and top quality condition, in perpetuity, for the benefit of the public, including without limitation Grantor, its authorized agents, employees, guests, invitees and customers, and Grantor's authorized tenants and subtenants, and their authorized agents, employees, guests, invitees and customers; (b) Parking Facilities and two existing escalators therein will be operated every day during all hours in which any business in the Project (including any 24 hour fitness center) is open, and (c) during any and all times when a hotel is open for business and operating within the Project, surface and subsurface Parking Facilities within Parcel 11 and subsurface Parking Facilities within Airspace Parcel 4 will be operated 24 hours a day, seven days a week.

(3) The public, including without limitation Grantor, its authorized agents, employees, guests, invitees, and customers, and Grantor's authorized tenants and subtenants, and their authorized agents, employees, guests, invitees, and customers, shall have the right of vehicular and pedestrian ingress and egress into and out of Parking Facilities for vehicle parking, and all ancillary and related vehicle and pedestrian use incidental thereto; and

Grant of Easements for Utility Facilities. Grantor, as the owner of the Retained Property, hereby Grants to City, as the owner and for the benefit of the Granted Property, and any and all portions thereof and any and all improvements now or hereafter constructed or maintained thereon ("Granted Property"), rights, as follows: City shall have rights, within any and all public and/or quasi public portions of the Retained Property, to install and maintain utility facilities. Concerning utility facilities, City's rights and obligations (as owner of the Granted Property and with respect to the Retained Property) shall be essentially the same as Grantor's rights and obligations (as owner of the Retained Property and with respect to the Granted Property) concerning utility facilities, as set forth in the paragraph immediately above.

Maintenance Costs – Support Devices and Utility Facilities. With respect to support devices and utility facilities as referenced above, the following shall apply: Grantor shall be obligated to maintain, in a safe, sound and operable condition and at Grantor's cost, support devices and utility facilities located within the Retained Property and support devices and utility facilities that support the Retained Property or improvements thereon located within the Granted Property, and City shall be obligated to maintain, in a safe, sound and operable condition and at City's cost, support devices and utility facilities located within the Granted Property and utility facilities that support the Granted Property located on the Retained Property. In the event that Grantor fails to so maintain, City may go upon the Retained Property and perform maintenance and hold Grantor responsible for all costs reasonably incurred in connection therewith, and, in the event that City fails to so maintain, Grantor may go upon the Granted Property and perform maintenance and hold City responsible for all costs reasonably incurred in connection therewith.

Mechanical Room Airspace. The mechanical room airspace, i.e., airspace Lot C Parcel 1, shall be retained by Grantor as part of the Retained Property, but be subject to the following: The mechanical room airspace will contain mechanical, electrical and other equipment necessary, expedient or convenient to operate facilities and equipment located both within the Retained Property and the Granted Property; accordingly, both Grantor and City shall have access to and reasonable use of said mechanical room airspace, and facilities therein. City (and Grantor) shall have rights to install, use, operate and/or maintain mechanical, electrical and other equipment as reasonably necessary, expedient or convenient. Each party shall be responsible for its own installation and maintenance costs. The parties agree to cooperate with each other and make reasonable efforts to promote and achieve effective, efficient and proper operations.

Grantor's Covenant to Operate and Maintain. Grantor, as the owner of the Retained Property, acknowledges that in order for the City to make the commitments to operate the Parking Facilities as provided in Section (2) of this Grant Deed, the commercial, retail, office, theater, hotel and residential uses must be designed, operated, and maintained at a high commercial standard; accordingly, Grantor shall operate and maintain all commercial, retail, office, theater, hotel and residential uses constructed or installed on the Retained Property in a first class condition and Grantor shall use commercially reasonable efforts to lease the premises.

Indemnification. Grantor shall indemnify, defend and hold harmless City and City's employees, contractors, agents, public officials, council members, and invitees from any damage to the Granted Property or any improvements thereon or any third party claims, costs, fees or suits arising from Grantor's exercise of any rights, privileges or obligations provided or retained pursuant to the provisions of this Grant Deed; and, likewise, City shall indemnify, defend and hold harmless Grantor and Grantor's agents and employees from any damage to the Retained Property or any improvements thereon or any third party claims, costs, fees or suits arising from City's exercise of any rights, privileges or obligations provided or granted pursuant to the provisions of this Grant Deed.

Characteristics of Easement Rights. Easement rights and obligations, as set forth above, shall extend in perpetuity, be appurtenant to benefitted properties, be binding on the burdened property, enforceable as easements, covenants running with the land and/or equitable servitudes, and be enforceable by and binding upon the respective heirs, successors and assigns of Grantor and City.

JOHN L. SANBORN PLS 4146
05/08/12 WO. 11-105

PROPOSED ADDITIONAL CONDITIONS FOR LANDSCAPE PLAN

The applicant shall submit a unified landscape plan for the entire project consistent with the Project financing agreement, including the following elements.

1. *Preliminary Landscape Development Plan (1 colored copy) The applicant shall indicate, on a separate site plan or incorporated into the colored site plan, the basic landscape concepts for the project. This should include tree and shrub grouping, groundcover areas, flatwork concepts, significant grading concepts and a written statement of the landscape development concept for the project.*

2. Project Master Streetscape Plan

- Establishment of a basic design theme for street furniture and similar hardscape elements
- Proposed location of hardscape elements including planters, fountains, retaining walls, others
- Proposed location of street furniture including benches, trash receptacles, bus stops, bicycle racks, others?
- Proposed thematic plantings
- Proposed street signage and way finding
- Transitions to existing improvements
- Locations for public art
- Plans for temporary and permanent preservation of the Palm Springs Walk of Fame
- Plans for temporary pedestrian routes during construction

3. Master Pedestrian Paseo Plan:
The project proposes a pedestrian promenade from the Hilton Hotel to the new public square at the corner of Tahquitz and North Palm Canyon. The promenade includes four elements from north to south:

- The connection from the Hyatt Hotel through Building "A"
- Market Street between Building "B" and "B-1"

Submitted to Planning Commission

DEC 05 2012

Case # 1

- Pedestrian Plaza from New Main Street and to the new public square at
- New Public Square at the corner of Tahquitz and North Palm Canyon

As part of the Landscape Plan, the applicant shall prepare a master plan for this promenade element including the following elements.

- Establishing a unified "brand" for the four elements of the Paseo to encourage pedestrians to follow the entire Paseo.
- Proposed location of hardscape elements including planters, fountains, retaining walls, others
- Proposed location of street furniture including benches, trash receptacles, bus stops, bicycle racks, others?
- Proposed thematic plantings
- Proposed Paseo signage and way finding
- Locations for public art
- Easements required to ensure public access along the Paseo, including through Building A.
- Operational Plan for Market Street, including timing and procedures for opening and closure of the street to vehicles
- Establishing of a minimum clear width for the Paseo between New Main Street and Tahquitz in this segment. 12', 20'?
- Considerations for bicycle usage on the Paseo segment between New Main Street and Tahquitz (if allowed).
- Establishing guidelines for business encroachment (i.e., outdoor dining) into Market Street and the pedestrian connection from New Main Street to Tahquitz. (this may go somewhere else)
- Master Plan for the Public Square at Tahquitz and North Palm Canyon (This intersection is the exact center of downtown Palm Springs and the design of the Public Square should reflect the importance of the location)

At the block level, there would be a condition that the landscape plans for each building be consistent with the approved Master Landscape Plan

CITY COUNCIL STAFF REPORT

DATE: December 19, 2012 PUBLIC HEARING

SUBJECT: Downtown Palm Springs Renovation Project:
TPM 36446 / Tentative Parcel Map,
MAJ 3.3605, 3.3606, 3.3607 / Major Architectural Approvals, and
5.1290 PD 361 / Planned Development Permit

FROM: David H. Ready, City Manager

BY: Department of Planning Services

SUMMARY

The City Council will review the following applications:

1. By Palm Springs Promenade LLC (Wessman Development) and the City of Palm Springs:
   a. Tentative Parcel Map No. 36446 to subdivide 13.6 acres into fourteen lots for development and four lots for public streets.

2. By Palm Springs Promenade LLC (Wessman Development):
   a. Major Architectural Approval Case No. 3.3605 for development of lands located at the northwest corner of North Palm Canyon and Andreas Road (new): Block "A",
   b. Major Architectural Approval Case No. 3.3606 for development of lands located at the northwest of North Palm Canyon and "New Main Street": Block "B",
   c. Major Architectural Approval Case No. 3.3607 for development of lands located along the westerly frontage of North Palm Canyon Drive, south of "New Main Street": Block C, and
   d. Planned Development District Case No. 5.1290 / PDD 361 for development of a hotel in excess of 60 feet in height and associated uses located at the northeast corner of West Tahquitz Canyon Way and Belardo Road (new): Block "c-1".

The applications are collectively submitted as the Downtown Palm Springs Renovation Project for lands within the existing Desert Fashion Plaza site, generally located at the northwest corner of N. Palm Canyon Drive and W. Tahquitz Canyon Way. A public

PLANNED DEVELOPMENT DISTRICT

hearing is required.

RECOMMENDATION:

1. Open the public hearing and receive public testimony;

2. Adopt the following resolutions:

   A. A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PALM SPRINGS, CALIFORNIA, APPROVING TENTATIVE PARCEL MAP 36446 TO SUBDIVIDE THE MUSEUM MARKET PLAZA PROPERTY OF APPROXIMATELY 13.57 ACRES INTO 14 PARCELS FOR DEVELOPMENT AND 4 LOTS FOR PUBLIC INFRASTRUCTURE, LOCATED AT THE NORTHWEST CORNER OF PALM CANYON DRIVE AND TAHQUITZ CANYON WAY

   B. A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PALM SPRINGS, CALIFORNIA, APPROVING CASE NO. 3.3605 – MAJ FOR THE DEVELOPMENT OF BLOCK A OF THE DOWNTOWN PALM SPRINGS RENOVATION PROJECT, LOCATED AT THE NORTHWEST CORNER OF NORTH PALM CANYON DRIVE AND ANDREAS ROAD (NEW)

   C. A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PALM SPRINGS, CALIFORNIA, APPROVING CASE NO. 3.3606 – MAJ FOR THE DEVELOPMENT OF BLOCK B OF THE DOWNTOWN PALM SPRINGS RENOVATION PROJECT, LOCATED AT THE NORTHWEST CORNER OF NORTH PALM CANYON DRIVE AND "NEW MAIN STREET"

   D. A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PALM SPRINGS, CALIFORNIA, APPROVING CASE NO. 3.3607 – MAJ FOR THE DEVELOPMENT OF BLOCK C OF THE DOWNTOWN PALM SPRINGS RENOVATION PROJECT, LOCATED ALONG THE WESTERLY FRONTAGE OF NORTH PALM CANYON DRIVE, SOUTH OF "NEW MAIN STREET"

   E. A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PALM SPRINGS, CALIFORNIA APPROVING CASE NO. 5.1290 / PDD 361 / BLOCK "C-1", A PRELIMINARY PLANNED DEVELOPMENT DISTRICT FOR A HOTEL OF APPROXIMATELY 185 ROOMS, RESTAURANTS, MEETING ROOMS, RETAIL USES AND ANCILLARY USES, LOCATED WITHIN BLOCK C OF THE MUSEUM MARKET PLAZA SPECIFIC PLAN AT THE

PLANNED DEVELOPMENT DISTRICT

NORTHEAST CORNER OF WEST TAHQUITZ CANYON WAY AND BELARDO ROAD

PRIOR ACTIONS:

On December 2, 2009, the City Council made findings, adopted a Mitigation Monitoring and Reporting Program, adopted a Statement of Overriding Considerations, and certified the Museum Market Specific Plan Environmental Impact Report ("Specific Plan EIR") and adopted Ordinance 1764, thereby approving the Museum Market Plaza Specific Plan. The Specific Plan covers the design guidelines and development standards for the area commonly known as the Desert Fashion Plaza.

On September 29, 2011, the City and Palm Springs Promenade, LLC, entered into a Project Financing Agreement applicable to the financing, development, redevelopment, creation and refurbishment of public and private improvements within the Specific Plan area (the "Agreement"). The Agreement included, among other things, a Site Plan and Project Description depicting the proposed improvements.

On October 17, 2012, the City Council approved Amendment No. 2 to the Project Financing Agreement between the City and Palm Springs Promenade, LLC (the "Amendment"). The Amendment included an Updated Site Plan and "Updates to Project Description" reflecting modifications to the proposed improvements originally approved in the Agreement. The Amendment provided that the Updated Site Plan and Updates to Project Description amended and superseded the original Site Plan and Project Description, respectively, in the Agreement. On October 17, 2012, the City Council also conducted a conformity review of the project described in the Amendment, as allowed by the Museum Market Plaza Specific Plan, and concluded that the project conformed to the policies and objectives of the Specific Plan. In support of these actions, the City Council adopted an Addendum to the Specific Plan EIR pursuant to the California Environmental Quality Act ("CEQA"). The City Council found that the proposed project described in the Amendment was within the scope of the Specific Plan EIR, and, based on the Specific Plan EIR and Addendum, found that no further environmental review was required. (Public Resources Code § 21166; California Code of Regulations, Title 14, §§ 15162, 15164.)

The City is now in the process of considering additional entitlements implementing the project approved in the Amendment for CEQA purposes on October 17, 2012. On December 5, 2012, the Planning Commission adopted resolutions recommending the Tentative Parcel Map and approving the three Major Architectural Approvals and the Planned Development District permit.

On December 6, 2012, the City received Councilmember Mills request to review the Planning Commission actions on the project.

BACKGROUND AND SETTING

PLANNED DEVELOPMENT DISTRICT

The Museum Market Plaza is located in the heart of the City's Business District, specifically at the northwest corner of North Palm Canyon Drive and West Tahquitz Canyon Way. The irregularly shaped property is bounded by Belardo Road to the north, Tahquitz Canyon Way to the south, Museum Drive to the west and North Palm Canyon Drive to the east.

The original Desert Fashion Plaza was built in the late 1960's; since then there have been several renovations and additions especially around the 1980's. A portion of the property that was once occupied by Bank of America was recently demolished as part of the preparations for the redevelopment of the site.

Table 2: Surrounding land uses, General Plan, Zoning

	Land Use	General Plan	Zoning
North	Hyatt Hotel & Retail & Comm.	CBD & Open Space	C-B-D
South	Retail / Commercial Buildings	CBD & Small Hotels	R-3
East	Retail / Commercial Uses	CBD	C-B-D
West	Palm Springs Art Museum	Public/Quasi-Public	C-B-D

PROJECT DESCRIPTION

Tentative Parcel Map 36446

The proposed tentative parcel map (TPM 36446) would create fourteen (14) parcels for future development and four (4) lots for public street right-of-way. The map is required to reconfigure the site for development and financing purposes. The development parcels will range from 11,486 to 66,940 square feet in size. Lots A, B, C and D represent public street rights-of-way, and are generally sized and designed for two lanes of vehicular traffic (one lane each way) and on-street parking. The street lots and parcels 8, 9, 10 and 11 will be owned by the City, who is co-applicant for the map:

There are four zoning entitlements associated with the project: Three Major Architectural Approvals and a Planned Development District.

Major Architectural Approval 3.3605 / Block "A"

This site is located adjacent to the existing Hyatt Suites Hotel, fronts N. Palm Canyon Drive and extends to Andreas and Belardo Roads (both new). The block is presently developed with a portion of the Desert Fashion Plaza and this structure is to be retained and repurposed for retail use. No new square footage is to be added to the existing one-story, 52,607 sf building. New exterior building facades are proposed and the interior will be demised to allow multiple retail and food service tenants. The building maintains a height of 28 feet and lot coverage of about 78% of the block. The applicant reports that the remainder of the site is divided between landscaping (10%) and hardscape (12%).

PLANNED DEVELOPMENT DISTRICT

Major Architectural Approval 3.3606 / Blocks "b / b-1"

Blocks b / b-1 are immediately south of Block A, fronting N. Palm Canyon Drive to the east, Belardo Road (new) to the west, and between Andreas Road (new) and a new street between N. Palm Canyon and the Palm Springs Art Museum. Two buildings are proposed (Block b and Block b-1), with a maximum of two-stories and about 40 feet in height. Total square footage is not known at this time as the applicant has indicated that the building along the westerly side is to be redesigned and resubmitted; the proposed uses of the remaining building will be retail, restaurant and office. The building pads are oriented in a north-south direction, each fronting either N. Palm Canyon Drive or Belardo Road (new). Between these buildings, a private street is proposed to provide vehicular and pedestrian access, but which can also be closed to traffic as a festival / event space. The applicant reports that building coverage will be about 67% of the site, with landscaping and hardscape covering 33%.

Major Architectural Approval 3.3607 / Block "c"

At the corner of W. Tahquitz Canyon Way and N. Palm Canyon, Block c is proposed to be divided into two projects. Block C will include buildings ranging from one to three stories, with a maximum height of 52 feet. The buildings are oriented to N. Palm Canyon Drive and "New Main Street", but also to the public open space in the middle of the Block. Uses will be retail, restaurant and office, totaling about 45,000 square feet. The applicant reports that building coverage will be about 53% of this portion of Block C, with 26% landscaping and 7% paving.

Planned Development District PD 361 / Block "c-1"

A hotel of approximately 185 rooms is proposed on the westerly (back) half of Block c-1, with the entry fronting on W. Tahquitz Canyon Way. The main portion of the hotel runs along the east side of Belardo Road (new) and rises to a height of approximately 84 feet (plus elevator / stair tower). Total floor area is about 180,000 square feet, and includes restaurant and retail uses in addition to the hotel and its support uses and services. The applicant reports that the building footprint will cover about 60% of the site; landscaping and hardscape will comprise the remaining 40%.

STAFF ANALYSIS:

The General Plan policies and zoning will be governed by the development standards and guidelines of the Museum Market Plaza Specific Plan. The Central Business District allows a minimum lot size of 9,600 square feet, with a minimum lot width of 75 feet, and minimum lot depth of 128 feet. The proposed mixed-use lot sizes will range from 14,807 to 66,940 square feet; the public access lots (lettered lots A-D) sizes will range from 12,240 square feet to 30,399 square feet in size, additional analysis are provided below. All other development standards in the new subdivision will be consistent with the General Plan and the Specific Plan.

Site Layout / Access

PLANNED DEVELOPMENT DISTRICT

The most notable physical changes in the layout of the proposed parcel map are the lots designated for public roads.

- Lot A, will be developed as pubic access linking Palm Canyon Drive to Museum Drive, and terminates directly at the entry to the Palm Springs Art Museum.
- Lots B and C will extend Belardo Road through the site, connecting it to the existing streets south of Tahquitz Canyon Way and behind the Hyatt Hotel to the north.
- Lot D will be an extension of Andreas Road, from Palm Canyon Drive to the Belardo Road extension.

These new streets will be owned and maintained by the City; the developer will have air rights to these parcels. In addition, the City will own Parcels 8, 9, 10, and 11; currently, these parcels contain the subterranean and above ground parking structures (see attached map).

Vacations and Acquisitions

To accommodate future development along the frontage of City streets, the City will vacate portions of the current sidewalk areas, as agreed to in the Project Financing Agreement. These areas will be rededicated to the City as easements for sidewalks and pedestrian rights-of-way upon completion of construction activities on these parcels. In addition to the above-mentioned areas, the City will acquire Parcels 8, 9, 10 and 11.

Property Development Standards

The Museum Market Plaza Specific Plan standards and guidelines govern the development of the site and apply to the three Major Architectural Approvals and the Planned Development District. The standards to be evaluated are:

- Permitted and Conditionally Permitted Uses
- Setbacks, Overall Building Height and Stepbacks
- Maximum Allowed Square Footage and Building Mass
- Projections Above Building Height or into Rights-of-Way
- Open Space
- Building Articulation
- Parking and Trash Enclosures

It should be noted that the blocks proposed on the Tentative Parcel Map vary from those shown on the Specific Plan. On October 17, 2012, the proposal was reviewed by the City Council under Section V.2 "Conformity Review Procedure". Since the public parking and a portion of the Desert Fashion Plaza (Block A) are proposed to be retained, the proposal was accepted by the Council as a renovation project, and further determined to be conforming to the Specific Plan. Consequently, staff has approached the project's review against the Specific Plan's development standards with some flexibility, as further explained below.

Permitted and Conditionally Permitted Uses

Permitted and conditionally permitted uses by the Specific Plan are found on the table attached to this report as Exhibit 3. In addition, there are "ground floor use limitations"

PLANNED DEVELOPMENT DISTRICT

(Section III.E.1) which require that street frontages be reserved for retail and tourist-oriented goods and services. Based on staff's understanding of the project, the proposal is expected to conform to the allowed uses, including the hotel. The buildings are generally oriented for retail commercial, restaurant and upstairs office uses. Final review and approval of specific uses will be undertaken at the time any business license application or other zoning clearance is submitted by future tenants.

Setbacks and Overall Building Height

The setbacks required by the Specific Plan for these applications may be summarized as follows: For Palm Canyon, 15 feet; for all other streets, 12 feet; and for interior property lines, zero setback. The following table summarizes actual and required setbacks:

Block and Street	Provided (Ft)	Required Setback (Ft.)
Block "A"		
N. Palm Canyon Drive	17	15
Andreas Road	12	12
Belardo Road	17	12
Interior Line (north side)	0	0
Block "b"		
N. Palm Canyon Drive	18	15
New Main Street	14	12
Interior Line (west side)	0	0
Andreas Road	15	12
Block "b-1"		
New Main Street	***1***	12
Belardo Road	***0***	12
Andreas Road	***7***	12
Interior Line (east side)	35	0
Block "c"		
N. Palm Canyon Drive	15	15
Tahquitz Canyon Way	94	12
Interior Line (west side)	0	0
New Main Street	12	12
Block "c-1"		
Tahquitz Canyon Way	15	12
Belardo Road	***7***	12
New Main Street	***10***	12
Interior Line (east side)	0	0

As noted in bold / italics, Block "b-1" and "c-1" provide less setbacks than required. The applicant has indicated that a redesign of the building on Block "b-1" will be submitted at a later date, and the Commission has approved the associated case (3.3606-MAJ) for such resubmittal. For the hotel in block "c-1", the applicant has requested the identified reductions as part of the Planned Development District permit.

Stepbacks

Stepbacks are intended to provide additional distance from the street for taller building elements to improve long-distance views and reduce any 'canyon effect' for pedestrians. The Specific Plan defines stepbacks as, "...the horizontal distance a building face must be set back from the property line at each given height." Different stepbacks have been adopted for the various streets in the Specific Plan area, and the following chart shows the actual and required stepbacks for the proposed project:

Block and Street	Provided (Ft) Height / Stepback	Required (Ft.) Height / Stepback
Block "A"		
N. Palm Canyon Drive	Height under 30 ft.	30 / 20
Andreas Road	Height under 30 ft.	30 / 10
Belardo Road	Height under 30 ft.	30 / 15
Block "b"		
N. Palm Canyon Drive	30 / 70	30 / 20
New Main Street	30 / 15	30 / 10
Andreas Road	30 / 14	30 / 10
Block "b-1"		
New Main Street	30 / ***1***	30 / 10
Belardo Road	30 / ***0***	30 / 15
Andreas Road	30 / ***7***	30 / 10
Block "c"		
N. Palm Canyon Drive	30 / 18	30 / 20
Tahquitz Canyon Way	35 / 217	35 / 20
New Main Street	30 / 11	30 / 10
Block "c-1"		
Tahquitz Canyon Way	35 / ***15***	35 / 20
Belardo Road	30 / ***7***	30 / 15
New Main Street	30 / 10	30 / 10

Again, Blocks "b-1" and "c-1" have non-conforming conditions. The Planned Development Permit for the hotel may be used to allow the Block "c-1" encroachments.

As previously noted, the building on Block "b-1" is proposed and conditioned to be resubmitted at a future date.

Building Height
The maximum allowed building height for the Specific Plan is generally 60 feet, but there are exceptions:

Block	Provided (Ft)	Maximum Allowed Building Height (Ft)
A	20.5	60
b	***38***	16 (former Block B)
b-1	***39***	16 (former Block B)
c	46.5	60
c-1	***84***	60

The Specific Plan envisioned Block B as a green space with few buildings. On October 17, 2012, the City Council's deemed the present plan (including development of Block "b / b-1") to be conforming, requiring that flexibility be used in applying the Plan's Block B standards. Staff believes that the general height standards (max. 60 feet) can apply to Block "b / b-1", which would make the two proposed buildings conforming. The height in Block "c-1" may be addressed through the hotel Planned Development Permit.

Projections above Height or into Rights-of-Way
The Specific Plan allows limited projections above the maximum building height (vertical projections) or into street rights-of-way (horizontal projections). Vertical projections may not exceed fifteen (15) feet above the building height. Horizontal projections are allowed as:

- Awnings or architectural features (no more than 10 feet into the ROW),
- Porticos (not exceeding 20% of the building's linear frontage), or
- Balconies and terraces (not more than six (6) feet into the ROW)

Since the map proposes a revision to property boundaries, staff has concluded that no ROW encroachments (horizontal projections) are evident in any of the blocks. Vertical projections above the building heights are:

Block	Provided (Ft)	Maximum Above Building Height (Ft)
A	+ 8	+ 15
b	+ 7	+ 15
b-1	+ 9	+ 15
c	+ 7	+ 15
c-1	+ 8	+ 15

The project conforms to this standard.

Maximum Allowed Square Footage and Building Mass

The Specific Plan establishes limits for development intensity using standards for maximum square footage (floor area) and maximum building mass (volume). The applicant has not submitted information on building mass, so only square footage can be analyzed at this time:

Block	Provided (Sq Ft)	Maximum Allowed Floor Area (Sq Ft)
A	52,507	220,000
b / b-1	75,562	3,000
c / c-1	223,900	245,000

As with building height, staff has concluded that the maximum allowed floor area standard must be treated with some flexibility based on the Council's action of October 17, 2012. While transfers of square footage between blocks are permitted by the Specific Plan, such transfers are limited to no more than 15%. Staff believes that a larger transfer may be recognized between Blocks "A" and "b / b-1" so long as the maximum sum allowed on the two blocks is not exceeded. Such is the case with the proposal and staff believes that it can be determined to be conforming.

Open Space

A minimum amount of open space is required by the Specific Plan in each Block:

Block	Provided (%)	Minimum Open Space (%)
A	21.6	10
b / b-1	33.1	90
c	47.1	10
c-1	40.3	10

Here is another case where the Block B standards from the Specific Plan require interpretation and a flexible approach. Block "b / b-1" has been accepted by the City Council as appropriate for more intensive development under the proposed renovation plan. Consequently, a lower percentage more closely aligned with the other blocks is appropriate. Since all blocks provide open space in a range from 20 to over 45%, the project overall can be considered conforming to the Specific Plan.

Building Articulation

Standards for the articulation of building facades are established in the Specific Plan to avoid excessive uniformity / monotony. An articulation may either protrude or recess at least two (2) feet from adjoining wall surfaces, and at intervals of no less than sixty (60 feet across an exterior elevation. Staff has reviewed the proposed elevations and determined that the upper floor west elevations of both buildings on Blocks "b" and "b-1" lack sufficient articulation to meet the standard. These conditions may be resolved with

further design work through the architecture review process. All other building facades provide the minimum articulation specified in the Plan.

Parking, Loading and Trash Enclosures
The parking standards for the project as established in the Specific Plan are relatively straightforward: Hotels must provide one vehicle space for each room and all other uses must provide one space for each 325 square feet of floor area. Staff has calculated the parking requirement for the project:

Block and Floor Area (Sq Ft) / Rooms		Required (No. of Spaces)
A	52,507 ÷ 325	162
b	42,082 ÷ 325	129
b-1	33,480 ÷ 325	103
c	45,937 ÷ 325	141
c-1	14,107 ÷ 325	43
c-1	185 Hotel Rooms	185
Required Parking **TOTAL**		**793+**

Staff notes that there are approximately eleven hundred (1,100) public parking spaces within the Specific Plan area. Further, the project is deemed by the City Council to be sufficiently supplied with parking via these public parking facilities. Consequently the parking demand is considered to be met.

Loading facilities and trash enclosures are shown throughout the project, and will be further discussed following review by the Architectural Advisory Committee.

Architecture – General Provisions
The Museum Market Plaza Specific Plan discussion of architecture identifies certain general principles for the physical development of the site. The existing surrounding environment needs to be taken into account so that development achieves, "...sympathetic relationships between the new buildings and the existing adjoining developments..." The blocks of the Specific Plan must be "...clearly identified by a coherent visual identity." Lastly, the Specific Plan calls for a, "...unified, distinctive and adaptable urban design concept, that is based on versatile design principles..."

The "sympathetic relationships" objective appears to be generally met by the project as the edge of the blocks fronting N. Palm Canyon Drive are proposed to be one story buildings, with the exception of the three story corner building in Block C, at Palm Canyon and "New Main". The major challenge is the height of the hotel along West Tahquitz Canyon Way; where the six-story building is setback from the street curb about 30 to 35 feet. Adjacent existing development includes the three-story Palm Mountain Resort & Spa at the southwest corner of Tahquitz and Belardo, but directly south is a surface parking lot serving the Oasis mixed use commercial building (southwest corner W.

Tahquitz Way and S. Palm Canyon Drive). The overall plan respects the scale of development along Palm Canyon Drive and at the corner of Palm Canyon Drive and Tahquitz Canyon Way, but the hotel presents a significant mass close to Tahquitz at Belardo Road.

The "coherent visual identity" objective is met in part by the grid of small, urban-scale blocks that provides a repetitive block pattern along N. Palm Canyon Drive. Further, distinctive street paving will enhance a visual identity of the site. Finally, the landscape and street furniture plans have the potential to confirm a coherent visual identity, and should be reviewed with that goal in mind. Meanwhile, building architecture is not seen as fulfilling this objective as the elevations and building façades are proposed to vary throughout the site.

The last overall objective is to establish a "unified, distinctive and adaptable urban design concept". Since "unified" and "distinctive" are potentially conflicting ideas, the question is whether the sum of the projects' design elements meets the objective in a coherent, successful way. As noted above, the block pattern, streetscape, and landscape should contribute to a unified look and should be sufficient for that purpose. Distinctiveness should be achieved through building architecture, materials, finishes and colors. The building elevations on Blocks A, B and C provide distinctive looks within a contemporary genre, but it is unlikely that upon completion the present design will be read as anything but a single project. This will be mitigated over time as new tenants modify individual façades for their own branded look.

The last part of the objective is "adaptable", which has to be taken into consideration within the context of buildings which will have a life of thirty to fifty years. This proposal provides adaptability in the storefront elevations that will be modified by individual tenants, the open courtyards and Market Street that are available for outdoor uses and the flexible use of Block A as a new-styled multi-tenant retail complex.

Architecture – Building Height, Scale and Massing

The Specific Plan recognizes that the site is intended for "...an intensive level of development...", but that the pedestrian experience requires buildings to be "...designed to the human scale with active, pedestrian friendly frontages." View corridors and public and private open spaces are to be provided throughout. An average maximum height of 60 feet is to be maintained, although hotels may exceed 60 feet. Most significantly, building elements must be varied to reduce the appearance of mass and avoid "cliff-face" frontages. Guidelines for individual blocks are also identified and discussed below.

The pedestrian-level objectives are generally met by the project as one-story buildings predominate along N. Palm Canyon Drive and the internal street frontages are primarily retail and restaurant spaces. Necessary "back-of-house" and service entries are minimized. View corridors along the internal east-west streets are provided. Public and private open spaces are found on Blocks B and C, with the existing building on Block A

retained and re-purposed to including interior public circulation, including connection to the abutting Hyatt Hotel.

Overall height of the three blocks is maintained at an average less than 60 feet, including the hotel in Block C which has a maximum height approaching 90 feet. However, the proposed hotel presents a tall façade at Tahquitz Canyon Way as well as a six-plus story building mass along Belardo. The architecture mitigates some of the building's height so that it does not appear "cliff-faced", but its overall volume remains pronounced. Given the developer's expressed need for a hotel of 185 rooms to support the remainder of the project and the goals of creating pedestrian-friendly street frontages and useful open spaces, the design and placement of the hotel is the project's primary trade-off within the Specific Plan's design guidelines.

Block A
The massing of Block A buildings is relatively low in respect to the Hyatt Hotel to the north. Since the existing mall building is to be retained, the relationship to the hotel's south elevation is unchanged. The three street elevations are arranged to include entryways oriented to pedestrian uses, and retail and restaurant facades "frames" that are available for future tenant customization.

Block B
The Specific Plan's approach to Block B has been modified by this proposal and the Council's conformity review of October 17, 2012. Consequently, the development of Block B with two two-story buildings and a private alley should be evaluated in light of the overall plan's scope. The one-story portion facing N. Palm Canyon Drive is respectful of the scale of development along the street, and the two story portion is setback significantly. The overall scale and placement of the Block B buildings are an appropriate transition between Block A and C; however the westerly building encroaches into setbacks and rights-of-way and is proposed, and conditioned for redesign and resubmittal.

Block C
Stepped frontages and massing "concentrated toward the center" are required in order that the volume of the larger buildings respects the surrounding streetscapes and development intensities. This is achieved along Palm Canyon in Block C, with the exception of a three-story building at the corner of Palm Canyon and "New Main" providing a modest landmark statement. As previously noted, the proposed hotel does not meet the guidelines for avoiding significant building mass along the street edge. Neither does it step back from Tahquitz Canyon or Belardo, nor concentrate that mass toward the center. As previously noted, this arrangement allows for several desirable features: The lower, pedestrian-oriented buildings along Palm Canyon; the internal pedestrian courtyard; and the size of hotel identified as necessary to support the project.

Architecture – Architectural Style and Treatment

Recognizing that Palm Springs' existing downtown development is an eclectic mix of styles, the Specific Plan also states that new development should be "of its time, using contemporary designs of a scale and form reflective of locally distinctive models." The challenge noted by the Specific Plan is to provide variations on a consistent architectural theme, with a variety of detailing and materials; the buildings should not be too "idiosyncratic".

Additional objectives include incorporating a sustainability paradigm, a response to the demands of the desert climate, and the sensitive treatment of street fronts. More specific direction is provided to assure the recesses and reveals provide shade and visual interest, including building projections, covered walkways and arcades. Buildings situated at important intersections should receive special treatments.

Overall, the project achieves the stated objectives. A contemporary style is adopted throughout the project, without the introduction of artificial variety (such as Mission Revival or Art Deco segments). The elevations at the street level as well as on the upper floors are composed of a variety of materials and colors arranged with slight variations in scale, massing, and repetition. The architecture supports the underlying objective of most downtowns: Providing "safe discovery" for pedestrians moving among the small blocks of shops and restaurants.

Architecture – Storefronts

According to the Specific Plan, storefronts should be "visually permeable", with clearly-defined entrances. While detailed storefront designs will be provided by individual tenants in the future, the elevations proposed for the retail and restaurant buildings show significant glazing and flexible "frames" for future tenant use.

Architecture – Building Materials

Exterior building materials are to be provided from a "rich palette of complementary materials and finishes." The Specific Plan also notes that the intense level of development contemplated for the area requires that building facades be "softened" by surface treatments. The deliberate and coordinated use of colors, materials, textures and glazing should aim to visually reduce building mass, create shadow effects and promote a sense of permeability and spaciousness.

The project includes color / material boards for each block that provide coordinated, but varied palettes of muted colors for the main stucco finishes with stone, tile, aggregates and metals used for accents and highlights. The colors are muted desert colors, with coordinated accents, and materials include tiles and metal to add interest. It is expected that the ground floors will present more diverse and energized elevations, especially once tenants propose their specific storefront designs. Upper levels are somewhat more subdued to achieve the 'softening' contemplated by the Specific Plan. Overall, the color and material boards achieve the Plan's objectives.

Connectivity, Streetscapes, Open Spaces

The Museum Market Plaza Specific Plan recognizes that the configuration and design of streets and passageways are vital to assuring full use of the downtown area by pedestrians and drivers. East-west linkages are especially important and the Tentative Parcel Map and proposed site plan provide an extension of Andreas Road, as well as a new "Main" street to penetrate the site. "New Main" Street's western terminus in front of the Palm Springs Art Museum will provide a formal and dramatic visual connection between N. Palm Canyon and a major community institution and architectural landmark.

The extension of Belardo Road through the site (north-south) further develops the idea of a downtown by creating small blocks for increased retail frontage and pedestrian access. Outdoor passageways within Blocks B and C and the indoor passage in the Block A building further enhance opportunities for exploring the area and creating the hierarchy of streets and pedestrian linkages called for in the Plan.

The importance of off-site views is highlighted in the Specific Plan as, "...existing view corridors are protected and new ones created." The new east-west streets provide for enhancement of existing and new views, with street trees providing a frame as called for in the Plan. The proposed arrangement of one- to three-story buildings and a six-plus story hotel is expected to have a mixed impact on views, depending on the location of the observer. By eliminating major portions of the existing Desert Fashion Plaza, the plan is anticipated to open up some views that did not exist before, while reducing others somewhat.

Street design treatments are to provide "...a strong sense of continuity and place..." Consistent with the Plan's direction, sidewalks are provided on the streets and internal open spaces, "...to accommodate a variety of compatible outdoor activities and thereby extend the hours of active use." Most sidewalks are at least 8-feet wide, and internal passageways range in width from ten (10) to eighty (80) or more feet. While street treatments and furnishings are not specifically identified, the applicant has indicated that pavers and other decorative treatment will characterize the streets and that asphalt concrete will be minimal. These treatments will provide the unifying character to the area as the buildings and open spaces provide unique shopping and dining experiences, storefront-by-storefront and block-by-block.

Connectivity – Public Open Spaces

The Specific Plan's discussion of Block B highlights its role in the Plan's vision of a central public gathering place. The City Council's October 17, 2012 conformity determination of the current site plan postpones this vision for the current renovation plan. The distinctive sense of place that is to be anchored by the public plaza is now achieved by other means: The Market Street in Block B, the pedestrian corridor from the Hyatt to the corner of Palm Canyon and Tahquitz and the use of Block E as an interim outdoor event space (not a part of the current entitlements).

Landscaping

Landscape guidelines in the Specific Plan focus on assuring that landscaping adds to the area's high-quality design, while respecting the desert setting and the need to be drought-tolerant. The choice of landscape materials must also consider the "vertical dimension" in the use of palm trees, as well as trees that will provide shade. The Specific Plan calls for the establishment of three landscape zones: 1) The Streetscape Zone, with palm trees predominating along the streets (to emulate those on Palm Canyon Drive), 2) The Transition Zone with a greater variety of shade trees and shrubs on secondary streets (Market Street), and 3) The Open Space Zone, where the widest variety of plants is used in the plazas and public spaces.

Further, landscaping is supposed to highlight and enhance focal points, including a Major Focal Point at Museum Drive and New Main (called Museum Way in the Specific Plan). Minor Focal Points (Palm Canyon and New Main, Belardo and New Main, and Andreas and Belardo) must also be give special attention. Finally, the Specific Plan provides a recommended landscape palette from which a landscape plan should be developed. While only a conceptual landscape plan has been submitted, it appears to achieve the goals of the Specific Plan. More detailed landscaping needs to be presented before a final action is taken by the City.

Street Furniture, Lighting and Art

As a vision for a pedestrian-oriented area, the Specific Plan recognizes that "Well-designed street furniture, lighting and public art enliven townscape character and contribute to a strong sense of local identity." As with other design elements, street furniture, lighting, and art should be selected to support the overall identity of the planning area, yet also providing variety and distinctiveness. No plan for these elements has been presented, and detailed specifications and plans will be needed prior to final action.

Public Benefit Policy for Planned Development Districts

On September 17, 2008, the City Council adopted a policy requiring public benefits be provided with every proposed Planned Development District. The policy states that the public benefit should be proportionate to the deviation or relief sought from the underlying development standards for the zone.

The applicant is seeking relief from the height standards and certain setback and stepback standards of the Museum Market Plaza Specific Plan, and the following public benefits have been proposed:

- Fulfillment of the Museum Market Plaza Specific Plan objectives;
- Redevelopment of the Desert Fashion Plaza site;
- Revitalization of the downtown core;
- Construction of a new, high-quality hotel; and
- Development of public courtyards and other pedestrian-oriented spaces

Staff believes the degree of relief sought by the applicant is significant, but that the proposed public benefits are proportionate with the deviations being sought by the PDD.

A finding in support of this conclusion is provided below.

REQUIRED FINDINGS:

Tentative Parcel Map Findings

The following findings required for the proposed Tentative Parcel Map are pursuant to Section 66474 of the California Subdivision Map Act. Unlike most findings used by the City, these findings are presented in the negative such that if any of them are met, the City shall deny approval:

1. *That the proposed map is not consistent with applicable general and specific plans as specific in Section 65451;*

   The project is subject to the Museum Market Plaza Specific Plan ("Specific Plan'), which governs as both general plan and specific plan (zoning) for the site. The proposed map implements the land use and development objectives of the Specific Plan by establishing a public street grid within the boundaries of the site and in alignment with surrounding streets. The plan further establishes lots of record for the redevelopment of small commercial blocks in the City's downtown core, which is a primary objective of the specific plan. Consequently, the proposed map is consistent with the applicable general and specific plans, and this finding is not met.

2. *That the design or improvement of the proposed subdivision is not consistent with applicable general and specific plans;*

   The design of the proposed subdivision and the associated improvements will implement the goals and objectives of the applicable Museum Market Plaza Specific Plan in that public streets, sidewalks, parking facilities and related public facilities will be established within the project boundaries in support of future private development. The design of the street grid will provide vehicular access and parking, as well as pedestrian access in alignment with surrounding streets and sidewalks ways that will extend the urban character of the surrounding area into the site. Consequently, the design of the proposed subdivision and the associated improvements are consistent with the applicable general and specific plans, and this finding is not met.

3. *That the site is not physically suitable for the type of development;*

   The site is slightly more than thirteen (13) acres and is generally flat with a gentle slope from north to south and west to east. Existing improvements on the site include underground parking facilities, which are to be retained and an enclosed retail shopping center, which will be largely demolished. Surrounding areas are developed with urban commercial buildings and

uses. The site will accommodate the proposed subdivision of fourteen private lots and associated public streets, and the subdivision will facilitate re-use of the site for an expansion of the City's downtown retail commercial core, as intended by the applicable Museum Market Plaza Specific Plan. Consequently, the site is physically suitable for the type of development, and this finding is not met.

4. *That the site is not physically suitable for the proposed density of development;*

The subdivision proposes to establish public streets and public and private parcels within a flat, gently sloping site to expand the existing downtown core. The proposed density of development will include existing underground parking; one, two and three story buildings; as well as a multi-story hotel and future development on fourteen parcels. The site is bordered by two major thoroughfares (N. Palm Canyon Drive and West Tahquitz Canyon Way), and additional local public streets will be constructed. Adequate lot sizes, access and parking are provided for the proposed density of development. Consequently, the site is physically suitable for the proposed density of development and this finding is not met.

5. *That the design of the subdivision or the proposed improvements are likely to cause substantial environmental damage or substantially and avoidable injure fish or wildlife or their habitat;*

The design of the subdivision and the proposed improvements have been evaluated under the provisions of the California Environmental Quality Act (CEQA) and an Environmental Impact Report, Statement of Overriding Considerations, Mitigation Monitoring Program and subsequent EIR Addendum have been prepared and certified for the proposed subdivision. No substantial environmental damage nor substantially or avoidable injury to fish, wildlife or their habitat is expected to occur. Consequently, this finding is not met.

6. *That the design of the subdivision or type of improvements is likely to cause serious public health problems;*

No serious public health problems have been identified in the certified Environmental Impact Report, Statement of Overriding Considerations, Mitigation Monitoring Program or subsequent EIR Addendum prepared for the proposed subdivision and its anticipated improvements. Consequently, this finding is not met.

7. *That the design of the subdivision or the type of improvements will conflict with easements acquired by the public at large, for access through or use*

of, property within the proposed subdivision. In this connection, the governing body may approve a map if it finds that alternate easements, for access or for use, will be provided, and that these will be substantially equivalent to ones previously acquired by the public. This subsection shall apply only to easement of record or to easement established by judgment of a court of competent jurisdiction and no authority is hereby granted to a legislative body to determine that the public at large has acquired easements for access through or use of property with the proposed subdivision;

All easements on or near the subject site have been identified. New easements and other agreements have been established between the applicants, including the City of Palm Springs to resolve all access issues. Consequently, this finding is not met.

Major Architectural Approval Guidelines

The Palm Springs Zoning Code Section 94.04.00(D) provides guidelines for the architectural review of development projects, with conformance evaluated based on the guidelines presented below. The attached draft resolutions provide block-specific responses to each of the guidelines; a summary of these findings is provided in this report.

1. *Site layout, orientation, location of structures and relationship to one another and to open spaces and topography. Definition of pedestrian and vehicular areas; i.e., sidewalks as distinct from parking lot areas;*

   The project proposes the demolition of a portion of the existing Desert Fashion Plaza building and the construction of retail commercial buildings fronting either N. Palm Canyon Drive, Belardo Road (new), Andreas Road (new) and "New Main" street. The buildings will range in size from one to three stories, thereby maintaining a low-rise appearance along N. Palm Canyon consistent with the building scale in the area. Pedestrian access is provided on sidewalks along all perimeter public streets and via the private street ("Market Street") in Block B and the open courtyard within Block C / C-1. Underground parking can be accessed from nearby stairways and elevators via public sidewalks.

2. *Harmonious relationship with existing and proposed adjoining developments and in the context of the immediate neighborhood/community, avoiding both excessive variety and monotonous repetition, but allowing similarity of style, if warranted;*

   The buildings are constrained in size by the street grid so that they remain in scale with the surrounding area. The heights of the proposed buildings range from 28 to 50 feet and are generally consistent with the development

character of the surrounding area, which includes one-, two- and multiple-story buildings. The proposed architecture is of a contemporary style consistent with surrounding development, but introduces design elements, colors and materials of a higher quality than the existing development in the vicinity. The selection of design elements differs among the blocks within the Museum Market Plaza Specific Plan area, yet they contribute to the overall identity of an up-scale contemporary center.

3. *Maximum height, area, setbacks and overall mass, as well as parts of any structure (buildings, walls, screens, towers or signs) and effective concealment of all mechanical equipment;*

The proposed buildings' mass and overall height are generally consistent with development patterns in the area. The setbacks for the buildings fronting N. Palm Canyon provide sufficient sidewalk width and additional space for outdoor seating. The building identified as Block "b-1" is proposed for continuance and redesign, as indicated in the conditions of approval for Case No. 3.3606. Parapets and other design elements will provide screening of proposed rooftop equipment.

4. *Building design, materials and colors to be sympathetic with desert surroundings; and*
5. *Harmony of materials, colors and composition of those elements of a structure, including overhangs, roofs, and substructures which are visible simultaneously;*

The building architecture is contemporary in style, with a color and material palette that introduces muted desert colors, with limited use of accent colors via metal, stone and glass. Covered walkways for outdoor seating, pedestrian circulation and solar control are integrated into the building elevations facing the perimeter public streets, while umbrellas and other movable shading are proposed for Market Street within Block B. Individual tenancies will establish street level storefronts and would be subject to further review.

6. *Consistency of composition and treatment;*

The buildings are proposed with a consistent use of contemporary design elements. Corner tenancies and restaurant locations are distinguished from the remainder of the building exteriors with more color and glass in order to highlight building corners as visual landmarks and connect indoor seating with outdoor seating areas.

PLANNED DEVELOPMENT DISTRICT

7. *Location and type of planting, with regard for desert climate conditions. Preservation of specimen and landmark trees upon a site, with proper irrigation to insure maintenance of all plant materials;*

   Landscape plans have not been submitted in sufficient detail to evaluate against this guideline and recommendations for further review are incorporated into the attached conditions of approval.

8. *Signs and graphics, as understood in architectural design including materials and colors;*

   A sign program not been submitted to evaluate against this guideline and recommendations for further review are incorporated into the attached conditions of approval.

9. *The planning architectural advisory committee may develop specific written guidelines to supplement the design criteria and carry out the purposes of this chapter.*

   The Architectural Advisory Committee and Planning Commission provided the recommendations for guidelines for design and subsequent architectural review, which are provided for the City Council's consideration and described in the attached draft resolution.

Planned Development District Findings.

Pursuant to the Museum Market Plaza Specific Plan and Palm Springs Zoning Code Section 94.02.00 (Conditional Use Permit) and Section 94.03.00 (Planned Development District), the City Council must make the following findings to approve a Planned Development District. Staff has prepared a response to each finding for the Council's consideration:

1. *That the use applied for at the location set forth in the application is properly one for which a conditional use permit is authorized by this Zoning Code.*

   Pursuant to the Museum Market Plaza Section III.C.1, hotels are permitted by right, but under Section III.D, hotels are subject to a Planned Development District permit if they are proposed at more than sixty (60) feet in height. Planned Development District permits are regulated in the Palm Springs Zoning Code under Sections 93.03, including Section 93.03.B, which states, *"...the proposed uses as shown on the preliminary development plan for the PD are in conformity with the required findings and conditions as set forth in Section 94.02.00 (conditional use permit)..."* Consequently, the proposed hotel, with a building height in excess of sixty (60) feet is properly one for which a conditional use permit is authorized by the zoning code and the project conforms to this finding.

PLANNED DEVELOPMENT DISTRICT

2. *That the use is necessary or desirable for the development of the community, is in harmony with the various elements or objectives of the general plan, and is not detrimental to existing uses or to future uses specifically permitted in the zone in which the proposed use is to be located.*

The proposed hotel with ancillary and accessory uses will complement the retail commercial character of the City's downtown core and have been demonstrated to be necessary and desirable for the successful redevelopment of the site and surrounding area. The proposed development conforms to the land use plan of the Museum Market Plaza Specific Plan, which is the General Plan for the site. The proposed uses are expected to attract additional tourists, shoppers, workers and patrons such that the project will not be detrimental to, but is anticipated to enhance existing and future uses permitted in the Museum Market Plaza Specific Plan and adjacent Central Business District zone.

3. *That the site for the intended use is adequate in size and shape to accommodate such use, including yards, setbacks, walls or fences, landscaping and other features required in order to adjust such use to those existing or permitted future uses of land in the neighborhood;*

The proposed project is located on the westerly half of Block C of the Museum Market Plaza Specific Plan, which is also proposed under separate permits to be developed with an open courtyard and other retail commercial buildings. The site plan proposed for the hotel provides adequate setbacks and stepbacks in conformance with the development standards of Museum Market Plaza Specific Plan Section III.D. The additional height above sixty (60) feet requested by the applicant is specifically recognized in Specific Plan Section III.D as allowable with approval of a Planned Development District permit, and this finding is met.

4. *That the site for the proposed use relates to streets and highways properly designed and improved to carry the type and quantity of traffic to be generated by the proposed use;*

The hotel development is proposed on a site that is surrounded on four sides by public streets, including two major thoroughfares, N. Palm Canyon Drive and W. Tahquitz Canyon Way. A two-lane, undivided collector (Belardo Road) is proposed along the westerly property line, and a local street ("New Main Street") will be constructed along the north side of the site. The hotel entry will front on W. Tahquitz Canyon Way and support services will take access from Belardo Road. The traffic analysis for the project has concluded that the street pattern will be adequate to carry the

type and quantity of traffic to be generated by the proposed use and this finding is met.

5. *That the conditions to be imposed and shown on the approved site plan are deemed necessary to protect the public health, safety and general welfare and may include minor modification of the zone's property development standards.*

Conditions have been developed for the proposed site plan to address all development issues, including public improvements, mitigation measures, building construction, design and esthetics, minor modifications of the development standards of the Museum Market Plaza Specific Plan, an increase in proposed height and all other issues related to the public health, safety and general welfare, and are attached and made a part of this resolution; this finding is met.

<u>High-rise Building Finding.</u>
Pursuant to Palm Springs Zoning Code Section 93.04.00 (High-rise buildings), the City Council must make the following finding to allow the height of the hotel to exceed the Specific Plan standard of sixty (60) feet:

1. *That the provisions of Section 93.04.00 (High-rise buildings) may be altered by the City Council upon finding that the intent of this section is met.*

Section 93.04.00 (High-rise buildings) establishes provisions in the form of standards for landscape and open space, maximum height, setbacks and stepbacks, and conformity with the resort character of the community and the natural surroundings. No specific intent statement is included in Section 93.04.00; however, the following intent statements for the entire Palm Springs Zoning Code and for Planned Development District permits are considered applicable and appropriate to this section:

a. The stated purpose of the Palm Springs Zoning Code, as codified in Section 91.01 is *"...promoting and protecting the public health, safety and welfare of the people of the city of Palm Springs and to provide for the social, physical and economic advantages resulting from comprehensive and orderly planned use of land resources."*; and
b. The intent of the Planned Development District permit as codified in Section 94.03.00 is, *"...to insure compliance with the general plan and good zoning practices while allowing certain desirable departures from the strict provisions of specific zone classifications."*

The provisions of Section 93.04.00 are altered for this Planned Development District permits, as allowed by Section 93.04.00.G, because the proposed development is located in the center of the most urbanized and densely developed commercial district of the City and will provide a

hotel to anchor the area's retail, commercial, hotel and tourist activity, thereby improving the economic health of the City's central business district. Further, the additional height and building volume of the proposed hotel will establish a visual landmark for the downtown core without adversely affecting background views of the mountains to the west. These outcomes will meet the intent of the zoning code by promoting the rejuvenation of the City's downtown, expanding and improving retail and tourist industries, increasing social activities and encouraging new investment in surrounding properties. The proposal will also insure compliance with the General Plan and good zoning practices because it will implement the Museum Market Plaza Specific Plan, which is the General Plan for the Site, by contributing to the following Specific Plan objectives:

1. *The highest quality development which provides an exciting and safe living, working and shopping experience for all.*
2. *The creation of a pedestrian and vehicular connection from the Palm Springs Art Museum, through Palm Canyon and Indian Canyon Drives, to the Resort/Convention Center District.*
3. *The development of retail commercial development which successfully mixes national and regional chain stores with local businesses, focused on the major roadways which bound the site, including North Palm Canyon, Indian Canyon, Tahquitz Canyon and Belardo.*

   ...

6. *The development of additional resort hotels which provide luxury accommodations and increase the visitors to the City's downtown.*

Policy on Public Benefits

Pursuant to the policy on public benefits for Planned Development Districts, the City Council must find that the following public benefits are deemed proportionate to the level of zoning flexibility requested, including deviations from the height and other development standards of the Museum Market Plaza Specific Plan:

1. Fulfillment of the Museum Market Plaza Specific Plan objectives;
2. Redevelopment of the Desert Fashion Plaza site;
3. Revitalization of the downtown core;
4. Construction of a new, high-quality hotel; and
5. Development of public courtyards and other pedestrian-oriented spaces

Staff recommends that the City Council make such finding.

CONCLUSION:

The five applications represent a significant renovation of the Desert Fashion Plaza and site, including new public and private streets, repurposing of a portion of the existing shopping center and new buildings for retail, commercial, office, restaurant, hotel and other uses. As previously noted, the Planning Commission has reviewed the proposal

PLANNED DEVELOPMENT DISTRICT

and adopted resolutions to approve (or recommend approval, in the case of the Tentative Parcel Map) the applications. Their actions and comments, including certain concerns related to the open space elements of the project and the hotel design, generally match those of the Architectural Advisory Committee. While minutes of the AAC and Planning Commission meetings are not yet available, the Commissions comments are attached to this report. Staff recommends that the City Council approve the five entitlement applications, subject to conditions of approval provided on the draft resolutions.

ENVIRONMENTAL DETERMINATION:

An Addendum to a Final Environmental Impact Report was approved by the City Council on October 17, 2012. The City Council certified that the certified Specific Plan EIR and the Addendum together are adequate to support approval of each component of the proposed project as approved in the Amendment and any future discretionary approvals needed to implement the project. The entitlements currently under consideration by the City Council simply implement the project approved in the Amendment for CEQA purposes on October 17, 2012 No further environmental review is required. (Public Resources Code § 21166; California Code of Regulations, Title 14, § 15162.)

NOTIFICATION:

A notice was mailed to all listed property owners within a four hundred foot radius in accordance with state law. As of the writing of this staff report, staff received correspondence from the public which is attached to this report.

FISCAL IMPACT: No fiscal impact.

RE: The City's Council's upcoming consideration of Downtown Palm Springs Project,

Dear Mr. Ewing:

Advocates for Better Community Development ("ABCD") continues to be seriously considered about the City of Palm Springs' ("City") apparent intention to hastily approve the current iteration of the Downtown Palm Springs Project, despite the Project's many inconsistencies with the Specific Plan and the City's failure to adequately analyze the Project's potential impacts. I previously described the City's failure to adequately review the project as required by the California Environmental Quality Act ("CEQA") in a letter I submitted to the City on December 5, 2012. Please distribute a copy of this letter to each member of the City Council in advance of tomorrow's hearing.

A. The City should not proceed until there is a final and stable project description.

The record shows that despite the many revisions to the Project, the record does not include a stable and finite project description. The project description underwent revisions in October 2012, and again in advance of the Planning Commission's consideration in November. Yet, as the Staff Report admits, the applicant has yet to submit a final and conforming project description for the buildings on Block b-1. According to the Staff Report, the applicant will submit the plans at a later date, yet the City is poised to approve the Project now. As a finite and stable project description is essential for a careful review of the Project impacts, the City must put off any final approvals until all aspects of the Project are adequately defined.

B. Owing to Project inconsistencies with the Specific Plan, the City Council may not approve the Project as currently proposed.

1. The City may not approve the Project because Blocks b and b-1 are inconsistent with the height and set back standards set forth in the Specific plan

The City's failure to require a final project description before approving the Project is particularly egregious because the applicant's current proposal for Blocks b, b-1, (and c and c-1) are inconsistent with the height and setback requirements set forth in the Specific Plan. The City apparently believes that despite these inconsistencies, the Project can be considered consistent with the Specific Plan. As the Staff Report describes it, "the City Council deemed the present plan (including the development of Block "b-1") to be conforming, requiring that flexibility be used in applying Plan's Block B standards. Staff believes that the general height standards (max. 60 feet) can apply to Block "b/b-1," which would make the proposed buildings conforming. The height in Block "c-1" may be addressed through the hotel Development Permit. Dec. 19, 2012 Staff Report, p.9.

Where the maximum height and minimum set back limits are specifically set in the Specific Plan, the City may not invoke "flexibility" to deem non-conforming buildings somehow consistent. Staff's proposed strategy of applying "general height standards" to Blocks b/b1 does not cure the inconsistency. There is simply no "general height" standard, as the Staff apparently believes. The Specific Plan, which was adopted following extensive public consideration and debate, includes very specific height and set back restrictions for each designated block. There is no authority for the Staff's contention that "the general" height standard can be applied to Blocks b and b-1 in direct contravention of the Specific Plan height/set back designations for these blocks. Gov. Code §65455 (No public work, subdivision map may be approved unless it is consistent with the adopted specific plan.)

Rather than invoking "flexibility", the Project proponent was required to apply for an exception to the Specific Plan requirements, which would be akin to requesting a zoning variance. Committee to Save Hollywoodland Specific Plan v. City of Los Angeles (2008) 161 Cal.App.4th 1168. To be granted an exception (similar to a request for a variance), the applicant has the burden of demonstrating conditions, such as the peculiar conditions of the particular lot, that justify a departure from the carefully laid out requirements of the Specific Plan. It is highly doubtful that the applicant here would be able to make such a showing under the facts of this case.

2. The City may not approve the Project as proposed because buildings proposed in Blocks b and b-1 exceed the maximum allowed square footage.

The Project is also inconsistent with the maximum square footage allowed by the Specific Plan. As the Staff Report readily admits (at p. 10), according to the Specific Plan, the maximum allowed floor square footage on Block b/b-1 is 3000 square feet (Sq Ft). The current proposal calls for a whopping 75,562 Sq Ft on Block b and b-1. Although the Specific Plan permits a

maximum of 15% transfer between blocks, the proposed Project exceeds this limit by a significant margin. Moreover, the "westerly building encroaches into setbacks and right-of-ways . . . ." Staff Report at p. 13. It is clear that the proposed Project is inconsistent with and betrays the Specific Plan's vision of Block b and b-1 as a central public gathering place by calling for two story buildings, a private alley and encroachment into setbacks and right-of-ways.

Ignoring this straight forward and specific standard, Staff opines that "a larger transfer may be recognized [??] between Blocks "A" and "b / b-1" so long as the maximum sum allowed on the two blocks is not exceeded." The Staff Report fails to offer any justification for this novel and unwarranted interpretation of the plain language of the Specific Plan. Contrary to the Staff's proposed approach, the City may not simply ignore the plain language of its own recently adopted Specific Plan.

The Staff Report admits that "the Specific Plan's approach to Block B has been modified by this proposal and the Council's conformity review of October 17, 2012." The approach proposed by Staff therefore violates California's planning laws by attempting to modify and revise the Specific Plan in a significant manner without following the procedures set forth in the Government Code, or compliance with CEQA.

The Staff attempts to gloss over the clear inconsistency by euphemistically describing the current plan as simply "postponing" the Specific Plan's vision for Block B. Staff Report at p. 15. Yet the Staff Report does not explain or expand on the concept of "postponing" the Specific Plan's vision of a central public gathering place. This is not a case where the City postpones implementation of a goal or policy; here, the City is being asked to approve a Project that would essentially make the attainment of the Specific Plan's goal impossible. The Project, therefore, is inconsistent with the Specific Plan.

3. <u>The City may not approve the proposed Hotel on Block c-1</u>

The proposed 185 room, 84 foot high hotel cannot be approved under the current Specific Plan. As set forth in my December 5, 2012 letter, the City has yet to conduct adequate environmental review of the proposed hotel to the extent that it is substantially more massive and taller than the hotel considered in the Specific Plan EIR. The proposed hotel, moreover, is inconsistent with the specific building standards set forth in the Specific Plan and is incompatible with the City's own vision for Downtown.

As the Staff Report recognizes, the "major challenge is the height of the hotel along West Tahquitz Canyon Way" where the proposed set back is 30-35 feet. Staff Report at p. 11. Staff goes on to recognize that the hotel would represent a "significant mass" on Tahquitz Canyon at Belardo Rd. p. 12. As proposed, the hotel would be inconsistent with the Specific Plan's requirement that significant building mass not be located along the street edge.

Staff also notes that the varying elevations and building facades throughout the site do not fulfill

the Specific Plan's goal of achieving a "coherent visual identity." I should also note that the Staff's analysis of the Project's visual impact and consistency with the Specific Plan is exactly the kind of analysis that ought to be conducted within the framework of CEQA in order to afford the public adequate opportunity to study the proposed plans provide comments to the City.

In several places, the Staff claims that the size and height of the proposed hotel is "necessary to support of the project." See, e.g., Staff Report at p. 13. Yet, there is no evidence or discussion in the record to support this contention. Put another way, there is no evidence to support the conclusion that the City could not have required the applicant to modify the hotel design by reducing the height, location and massing in order to make the Project consistent with the Specific Plan. There is no evidence, for example, of any economic studies to lend credence to the applicant's apparent contention that building a smaller hotel would render the Project economically infeasible.

In order to get around the Specific Plan's height and set-back standards, the applicant has requested that the City process this application as a Planned Development District or PDD. As an initial matter, I question the application of the PDD process in this instance. A PDD may be appropriate where the project is subject to the general plan and zoning standards. In this instance, however, the hotel is subject, not to general development standards, but the specific and carefully laid out standards set out in the Specific Plan, including set-back standards which this Project ignores. By adopting a Specific Plan in this instance, the City has already adequately considered the appropriate development standards that should apply to this specific project. Deviation from these standards by analyzing the Project as a PDD is antithetical to the careful planning work the City undertook in adopting the Specific Plan.

The City may not attempt to revise or abrogate the Specific Plan development standards by invoking the general provisions of PDD pursuant to Palm Springs Municipal Code ("PSMC") 93.040. Once development standards are adopted pursuant to a Specific Plan, any revisions thereto must comply with process and procedures set forth in Government Code, subject to compliance with CEQA. See, Longtin's California Land Use, 2nd Ed., at §2.30.

Even if processing the Project as a PDD were appropriate in this case, the City may not approve the requested added height and deviation from the minimum set-back standards because it cannot make the requisite findings. As the Staff Report explains, the City may not allow the hotel to exceed 60 feet unless the City Council can make a finding that the intent of the High Rise Ordinance (93.04.00) is met. The City may not approve a Project that is inconsistent with the Specific Plan's building standards and policy of not locating significant building mass near the edge of a street by making a finding that the Project meets the intent of the High Rise Ordinance. The City may not invoke an ordinance to approve a project that is fundamentally inconsistent with an adopted Specific Plan. Put another way, the Specific Plan trumps the ordinance.

The Staff Report attempts to paper over the proposed hotel's inconsistency with the Specific Plan by listing some of the Specific Plan's objectives which Staff contends are implemented by

the Proposed Project. Staff Report at p. 24. What Staff seems to ignore, however, is that while the Project as a whole may be consistent with some aspects of the Specific Plan, it simply does not follow that it is consistent with all relevant provisions of the Specific Plan. As I have explained above, the City may not approve the proposed hotel in reliance on the PDD ordinance to the extent that the proposed hotel is inconsistent with specific development standards (set back) set forth in the Specific Plan.

Conclusion

Owing to significant inconsistencies with the Specific Plan, the City cannot approve the Project as proposed. As I have described above, the City has yet to identify a stable and finite project description. To the extent that the current proposal is significantly inconsistent with the Specific Plan, it appears that the applicant expects the City simply to ignore the Specific Plan by approving a Project that meets the applicant's private vision for Downtown, but betrays that of the Specific Plan the residents of Palm Springs. Unfortunately, the City appears to be willing a partner in this enterprise. I implore you to reconsider and require the applicant to come back with a plan that is consistent with the Specific Plan.

Sincerely,

/ s /

RE: Downtown Palm Springs Project
Comments Re Museum Market Plaza Specific Plan

Dear Mr. Ewing:

This letter is a follow-up to our correspondence of December 4, 2012 and our email of December 6, 2012 asking for information on the Downtown Palm Springs Project. The City Clerk's Office informs us that the project is tentatively being placed on the Agenda for the December 19, 2012 City Council meeting but could not confirm that the project will actually go in front of the Council on that date. We still have not received any response from you regarding our earlier document request.

I am asking for your help in finding copies of final staff reports, resolutions or other actions/recommendations adopted by the Planning Commission on December 5, 2012, in connection with the Downtown Palm Springs Project. In particular, I would like to obtain a copy of any reports, including staff reports, and final conditions of approval for all of the various inter-related Downtown Palm Springs sub-projects, particularly the Planned Development District (PDD) for the proposed hotel.

I would also like to inform you that I was unable to view a video or even the agenda of the Planning Commission's December 5, 2012 hearing. Instead of the Planning Commission meeting, the link on http://palmsprings.granicus.com/ViewPublisher.php?view_id=3 directs the viewer to a November 27, 2012 meeting of Villagefest Board.

RECEIVED
DEC 17 2012
PLANNING SERVICES
DEPARTMENT

No agenda, staff report or minutes are currently available for the Planning Commission meeting on the City's website. The City's failure to make these documents available on the website has seriously hampered our ability to understand and participate in the City's review process.

We would appreciate obtaining the aforementioned documents prior to the December 19th meeting.

Thank you,

Babak Naficy

RESOLUTION NO. 6300

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF PALM SPRINGS, CALIFORNIA, RECOMMENDING TO THE CITY COUNCIL APPROVAL OF TENTATIVE PARCEL MAP 36446 TO SUBDIVIDE THE MUSEUM MARKET PLAZA PROPERTY OF APPROXIMATELY 13.57 ACRES INTO 14 PARCELS FOR DEVELOPMENT AND 4 LOTS FOR PUBLIC INFRASTRUCTURE, LOCATED AT THE NORTHWEST CORNER OF PALM CANYON DRIVE AND TAHQUITZ CANYON WAY.

WHEREAS, Palm Springs Promenade, LLC and the City of Palm Springs, ("applicants") has filed an application with the City, pursuant to the Museum Market Specific Plan and Section 9.62.010 of the Palm Springs Municipal Code for a Tentative Parcel Map to subdivide the Museum Market Plaza property of approximately 13.57 acres into 14 parcels for development and 4 lots for public infrastructure, located at the northwest corner of Palm Canyon Drive and Tahquitz Canyon, APN's: 513-560-002, -004, -007 - 008 and -009), zone Museum Market Plaza Specific Plan, Section 15/R4/T4; and

WHEREAS, on October 17, 2012, the City Council reviewed a project description of the proposed development and adopted an Addendum to the Museum Market Plaza Specific Plan Final Environmental Impact Report (EIR) and certified that the EIR, with the accompanying Statement of Overriding Considerations and Mitigation Monitoring Program, and the Addendum, is an adequate and complete analysis of the potential environmental impacts of the proposed project; and

WHEREAS, on November 13, 19 and 26, 2012, the Architectural Advisory Committee (AAC) reviewed the proposed project and voted 6-0 to recommend approval, with conditions, to the Planning Commission; and

WHEREAS, on November 7, 2012, the Planning Commission conducted an orientation session on the proposed project, and on November 14 and 28, 2012, the Commission conducted a public hearing in accordance with applicable law; and

WHEREAS, the Planning Commission has carefully reviewed and considered all of the evidence presented in connection with the hearing on the project, including but not limited to the project description and exhibits, the staff report and memoranda, and written and oral testimony presented at the meetings.

THE PLANNING COMMISSION HEREBY FINDS AS FOLLOWS:

Section 1: The following findings required for the proposed Tentative Parcel Map are pursuant to Section 66474 of the California Subdivision Map Act. If any of these findings are not met, the City shall deny approval:

1. *That the proposed map is not consistent with applicable general and specific plans as specific in Section 65451;*

   The project is subject to the Museum Market Plaza Specific Plan ("Specific Plan'), which governs as both general plan and specific plan (zoning) for the site. The proposed map implements the land use and development objectives of the Specific Plan by establishing a public street grid within the boundaries of the site and in alignment with surrounding streets. The plan further establishes lots of record for the redevelopment of small commercial blocks in the City's downtown core, which is a primary objective of the specific plan. Consequently, the proposed map is consistent with the applicable general and specific plans, and this finding is not met.

2. *That the design or improvement of the proposed subdivision is not consistent with applicable general and specific plans;*

   The design of the proposed subdivision and the associated improvements will implement the goals and objectives of the applicable Museum Market Plaza Specific Plan in that public streets, sidewalks, parking facilities and related public facilities will be established within the project boundaries in support of future private development. The design of the street grid will provide vehicular access and parking, as well as pedestrian access in alignment with surrounding streets and sidewalks ways that will extend the urban character of the surrounding area into the site. Consequently, the design of the proposed subdivision and the associated improvements are consistent with the applicable general and specific plans, and this finding is not met.

3. *That the site is not physically suitable for the type of development;*

   The site is slightly more than thirteen (13) acres and is generally flat with a gentle slope from north to south and west to east. Existing improvements on the site include underground parking facilities, which are to be retained and an enclosed retail shopping center, which will be largely demolished. Surrounding areas are developed with urban commercial buildings and uses. The site will accommodate the proposed subdivision of fourteen private lots and associated public streets, and the subdivision will facilitate re-use of the site for an expansion of the City's downtown retail commercial core, as intended by the applicable Museum Market Plaza Specific Plan. Consequently, the site is physically suitable for the type of development, and this finding is not met.

4. *That the site is not physically suitable for the proposed density of development;*

The subdivision proposes to establish public streets and public and private parcels within a flat, gently sloping site to expand the existing downtown core. The proposed density of development will included existing underground parking; one, two and three story buildings; as well as a multi-story hotel and future development on fourteen parcels. The site is bordered by two major thoroughfares (N. Palm Canyon Drive and West Tahquitz Canyon Way), and additional local public streets will be constructed. Adequate lot sizes, access and parking are provided for the proposed density of development. Consequently, the site is physically suitable for the proposed density of development and this finding is not met.

5. *That the design of the subdivision or the proposed improvements are likely to cause substantial environmental damage or substantially and avoidable injure fish or wildlife or their habitat;*

The design of the subdivision and the proposed improvements have been evaluated under the provisions of the California Environmental Quality Act (CEQA) and an Environmental Impact Report, Statement of Overriding Considerations, Mitigation Monitoring Program and subsequent EIR Addendum have been prepared and certified for the proposed subdivision. No substantial environmental damage nor substantially or avoidable injury to fish, wildlife or their habitat is expected to occur. Consequently, this finding is not met.

6. *That the design of the subdivision or type of improvements is likely to cause serious public health problems;*

No serious public health problems have been identified in the certified Environmental Impact Report, Statement of Overriding Considerations, Mitigation Monitoring Program or subsequent EIR Addendum prepared for the proposed subdivision and its anticipated improvements. Consequently, this finding is not met.

7. *That the design of the subdivision or the type of improvements will conflict with easement, acquired by the public at large, for access through or use of, property within the proposed subdivision. In this connection, the governing body may approve a map if it finds that alternate easements, for access or for use, will be provided, and that these will be substantially equivalent to ones previously acquired by the public. This subsection shall apply only to easement of record or to easement established by judgment of a court of competent jurisdiction and no authority is hereby*

granted to a legislative body to determine that the public at large has acquired easements for access through or use of property with the proposed subdivision;

All easements on or near the subject site have been identified. New easements and other agreements have been established between the applicants, including the City of Palm Springs to resolve all access issues. Consequently, this finding is not met.

NOW, THEREFORE, BE IT RESOLVED, that, based on the foregoing, the Planning Commission hereby approves Tentative Parcel Map No. 36446 to subdivide the Museum Market Plaza property of approximately 13.57 acres into 14 parcels for development and 4 lots for public infrastructure, located at the northwest corner of Palm Canyon Drive and Tahquitz Canyon, as indicated on the attached map, Exhibit A, and subject to those conditions set forth in Exhibit B, attached hereto and made a part of this resolution.

ADOPTED this 5th day of December, 2012.

AYES: 7, Calerdine, Weremiuk, Klatchko, Munger, Roberts, Vice Chair Hudson and Chair Donenfeld

CITY OF PALM SPRINGS, CALIFORNIA

Craig A. Ewing, AICP
Director of Planning Services

RESOLUTION NO. 6300

EXHIBIT A

Case Tentative Parcel Map No. 36446
Downtown Palm Springs

December 5, 2012

CONDITIONS OF APPROVAL

Before final acceptance of the project, all conditions listed below shall be completed to the satisfaction of the City Engineer, the Director of Planning Services, the Director of Building and Safety, the Chief of Police, the Fire Chief or their designee, depending on which department recommended the condition.

Any agreements, easements or covenants required to be entered into shall be in a form approved by the City Attorney.

PROJECT CONDITIONS (AS ADOPTED BY PLANNING COMMISSION):

1. Prior to recordation of the Final Map, the applicant shall submit for review by the AAC and Planning Commission a unified landscape plan for the entire project consistent with the Project Financing Agreement, including the following elements:
    a. Preliminary Landscape Development Plan: The applicant shall indicate, on a separate site plan or incorporated into the colored site plan, the basic landscape concepts for the project. This should include tree and shrub grouping, groundcover areas, flatwork concepts, significant grading concepts and a written statement of the landscape development concept for the project.

    b. Project Master Streetscape Plan
        i. Establishment of a basic design theme for street furniture and similar hardscape elements
        ii. Proposed location of hardscape elements including planters, fountains, retaining walls, others
        iii. Proposed location of street furniture including benches, trash receptacles, bus stops, bicycle racks, others?
        iv. Proposed thematic plantings
        v. Proposed street signage and way finding
        vi. Transitions to existing improvements
        vii. Locations for public art
        viii. Plans for temporary and permanent preservation of the Palm Springs Walk of Fame

ix. Plans for temporary pedestrian routes during construction

c. Master Pedestrian Paseo Plan. The project proposes a pedestrian promenade from the Hilton Hotel to the new public square at the corner of Tahquitz and North Palm Canyon. The promenade includes four elements from north to south:
   i. The connection from the Hyatt Hotel through Building "A"
   ii. Market street between Building "b" and "B-1"
   iii. Pedestrian Plaza from New Main Street and to the new public square at the corner of Tahquitz and North Palm Canyon

2. As part of the Landscape Plan to be submitted in accordance with Condition No. 1, above, the applicant shall prepare a master plan for the pedestrian promenade elements of Blocks B and C and associated street crossings, including the following elements.
   iv. Establishing a unified "brand" for the four elements of the Paseo to encourage pedestrians to follow the entire Paseo.
   v. Proposed location of hardscape elements including planters, fountains, retaining walls
   vi. Proposed location of street furniture including benches, trash receptacles, bus stops, bicycle racks
   vii. Proposed thematic plantings
   viii. Proposed Paseo signage and way finding
   ix. Locations for public art
   x. Easements required to ensure public access along the Paseo, including through Building A.
   xi. Operational Plan for Market Street, including timing and procedures for opening and closure of the street to vehicles
   xii. Establishing of a minimum clear width for the Paseo between New Main Street and Tahquitz in this segment.
   xiii. Considerations for bicycle usage on the Paseo segment between New Main Street and Tahquitz.
   xiv. Establishing guidelines for business encroachment (i.e., outdoor dining) into Market Street and the pedestrian connection from New Main Street to Tahquitz.
   xv. Master Plan for the Public Square at Tahquitz and North Palm Canyon

ADMINISTRATIVE CONDITIONS

ADM 1. Project Description. This approval is for the project described per Case 3.3605 – MAJ, except as modified by the conditions below.

ADM 2. Reference Documents. The site shall be developed and maintained in accordance with the approved plans, including site plans, architectural elevations,

exterior materials and colors, landscaping, and grading on file in the Planning Division, except as modified by the conditions below.

ADM 3. Conform to all Codes and Regulations. The project shall conform to the conditions contained herein, all applicable regulations of the Palm Springs Zoning Ordinance, Municipal Code, and any other City County, State and Federal Codes, ordinances, resolutions and laws that may apply.

ADM 4. Minor Deviations. The Director of Planning or designee may approve minor deviations to the project description and approved plans in accordance with the provisions of the Palm Springs Zoning Code.

ADM 5. Indemnification. The owner shall defend, indemnify, and hold harmless the City of Palm Springs, its agents, officers, and employees from any claim, action, or proceeding against the City of Palm Springs or its agents, officers or employees to attach,. set aside, void or annul, an approval of the City of Palm Springs, its legislative body, advisory agencies, or administrative officers concerning Case 3.3467-MAJ. The City of Palm Springs will promptly notify the applicant of any such claim, action, or proceeding against the City of Palm Springs and the applicant will either undertake defense of the matter and pay the City's associated legal costs or will advance funds to pay for defense of the matter by the City Attorney. If the City of Palm Springs fails to promptly notify the applicant of any such claim, action or proceeding or fails to cooperate fully in the defense, the applicant shall not, thereafter, be responsible to defend, indemnify, or hold harmless the City of Palm Springs. Notwithstanding the foregoing, the City retains'the right to settle or abandon the matter without the applicant's consent but should it do so, the City shall waive the indemnification herein, except, the City's decision to settle or abandon a matter following an adverse judgment or failure to appeal, shall not cause a waiver of the indemnification rights herein.

ADM 6. Maintenance and Repair. The property owner(s) and successors and assignees in interest shall maintain and repair the improvements including and without limitation all structures, sidewalks, bikeways, parking areas, landscape, irrigation, lighting, signs, walls, and fences between the curb and property line, including sidewalk or bikeway easement areas that extend onto private property, in a first class condition, free from waste and debris, and in accordance with all applicable law, rules, ordinances and regulations of all federal, state, and local bodies and agencies having jurisdiction at the property owner's sole expense. This condition shall be included in the recorded covenant agreement for the properly if required by the City.

ADM 7. Time Limit on Approval. Approval of the Major Architectural Application (MAJ) shall be valid for a period of two (2) years from the effective date of the approval. Extensions of time may be granted by the Planning Commission upon demonstration of good cause.

ADM 8. Right to Appeal. Decisions of an administrative officer or agency of the City of Palm Springs may be appealed in accordance with Municipal Code Chapter 2.05.00. Permits will not be issued until the appeal period has concluded.

ADM 9. Public Art Fees. This project shall be subject to Chapters 2.24 and 3.37 of the Municipal Code regarding public art. The project shall either provide public art or payment of an in lieu fee. In the case of the in-lieu fee, the fee shall be based upon the total building permit valuation as calculated pursuant to the valuation table in the Uniform Building Code, the fee being ½% for commercial projects or ¼% for residential projects with first $100,000 of total building permit valuation for individual single-family units exempt. Should the public art be located on the project site, said location shall be reviewed and approved by the Director of Planning and Zoning and the Public Arts Commission, and the property owner shall enter into a recorded agreement to maintain the art work and protect the public rights of access and viewing.

ADM 10. Complv with Citv Noise Ordinance. This use shall comply with the provisions of Section 11.74 Noise Ordinance of the Palm Springs Municipal Code.

ENVIRONMENTAL ASSESSMENT CONDITIONS

ENV 1 Coachella Vallev Multiple-Species Habitat Conservation Plan (CVMSHCP) Local Development Permit Fee (LDMF) required. All projects within the City of Palm Springs are subject to payment of the CVMSHCP LDMF prior to the issuance of certificate of occupancy.

PLANNING DEPARTMENT CONDITIONS

PLN 1. Water Efficient Landscaping Conformance. The project is subject to the Water Efficient Landscape Ordinance (Chapter 8.60.00) of the Palm Springs Municipal Code and all other water efficient landscape ordinances. The applicant shall submit a landscape and irrigation plan to the Director of Planning or designee for review and approval prior to the issuance of a building permit. Landscape plans shall be wet stamped and approved by the Riverside County Agricultural Commissioner's Office prior to submittal. Prior to submittal to the City, landscape plans shall also be certified by the local water agency that they are in conformance with the water agency's and the State's Water Efficient Landscape Ordinances.

PLN 2. Sign Applications Required. No signs are approved by this action. Separate approval and permits shall be required for all signs in accordance with Zoning Ordinance Section 93.20.00.

PLN 3. Flat Roof Requirements. Roof materials on flat roofs must conform to California Title 24 thermal standards for "Cool Roofs". Such roofs must have a minimum initial thermal emittance of 0.75 and minimum initial solar reflectance of 0.70. Only matte (non-specular) roofing is allowed in colors such as beige or tan.

PLN 4. Screen Roof-mounted Equipment. All roof mounted mechanical equipment shall be screened per the requirements of Section 93.03.00 of the Zoning Ordinance.

PLN 5. Surface Mounted Downspouts Prohibited. No exterior downspouts shall be permitted on any facade on the proposed building(s) that are visible from adjacent streets or residential and commercial areas.

PLN 6. Exterior Alarms & Audio Systems. No sirens, outside paging or any type of signalization will be permitted, except approved alarm systems.

PLN 7. Outside Storage Prohibited. No outside storage of any kind shall be permitted except as approved as a part of the proposed plan.

POLICE DEPARTMENT CONDITIONS

POL 1. Developer shall comply with Section II of Chapter 8.04 "Building Security Codes" of the Palm Springs Municipal Code.

BUILDING DEPARTMENT CONDITIONS

BLD 1. Prior to any construction on-site, all appropriate permits must be secured.

ENGINEERING DEPARTMENT CONDITIONS

Before final acceptance of the project, all conditions listed below shall be completed to the satisfaction of the City Engineer.

STREETS

ENG 1. Abandonment of right-of-way is required to facilitate the proposed development application. The abandonment of right-of-way shall be completed with the recordation of Parcel Map No. 36446, as indicated by the conditions herein. The abandonment of right-of-way shall be approved by the City Council in conjunction with the approval of Parcel Map No. 36446.

ENG 2. All private and public street improvements are subject to the Project Financing Agreement as amended.

N. PALM CANYON DRIVE

ENG 3. Vacate 9.5 feet of public right-of-way from the south property line of proposed Parcel 13, to a point approximately 110 feet south of the north property line of proposed Parcel 13, as shown and detailed on the approved version of Tentative Parcel Map No. (TPM) 36446; a 25 feet radius property line at the intersection of

N. Palm Canyon Drive and Tahquitz Canyon Way shall be maintained, as shown and detailed on the approved version of TPM36446. From the point 110 feet south of the north property line of proposed Parcel 13, abandon 14.5 feet northerly to the north property line of proposed Parcel 1, with the following exception: from approximately 70 feet south of the north property line of Parcel 13 northerly to approximately 40 feet north of the south property line of Parcel 2, the vacation width shall be 17.5 feet, as shown and detailed on the approved version of TPM36446.

ENG 4. Dedicate public utility easements in areas for which public right-of-way has been vacated on Parcel Map No. 36446.

ENG 5. Dedicate a minimum sidewalk easement of 8 feet (or as needed to match existing sidewalk) for those portions of sidewalk located outside of the public right-of-way after vacation of right-of-way on N. Palm Canyon Drive. Any existing underground utilities under the existing sidewalk, shall not be relocated in conjunction with this project.

ENG 6. All broken or off grade street improvements shall be repaired or replaced.

TAHQUITZ CANYON WAY

ENG 7. Vacate public right-of-way from the east property line of proposed Parcel 13 westerly to the west property line of proposed Parcel 4 as shown and detailed on the approved version of Tentative Parcel Map No. (TPM) 36446. 11.5 feet of right-of-way shall be abandoned (leaving a 25 feet radius property line at the curb return at the intersection of N. Palm Canyon Drive and Tahquitz Canyon Way) to a point approximately 100 feet west of the east property line of proposed parcel 13 of TPM36446, at which point, 23.53 feet of public right-of-way shall be abandoned westerly to a point approximately 25 feet easterly of the west property line of proposed Parcel 12 of TPM36446; from this point, the abandonment decreases to 11.5 feet, extending to the west property line of proposed Parcel 4 as shown and detailed on TPM36446.

ENG 8. Dedicate public utility easements in areas for which public right-of-way has been vacated on Parcel Map No. 36446.

ENG 9. Dedicate a minimum sidewalk easement of 8 feet (or as needed to match existing sidewalk) for those portions of sidewalk located outside of the public right-of-way after abandonment of right-of-way on Tahquitz Canyon Way. Any existing underground utilities under the existing sidewalk, shall not be relocated in conjunction with this project.

ENG 10. All broken or off grade street improvements shall be repaired or replaced.

ON-SITE PUBLIC STREETS (LOTS "A" (NEW MAIN STREET), LOT "B" AND "C" (BELARDO ROAD), AND LOT "D" (ANDREAS ROAD)

ENG 11. Dedicate full street right-of-way width of 41 feet as shown on the approved version of Tentative Parcel Map No. 36446, together with property line - corner cut-backs at each intersection between Lots "A", "B", "C", and "D", as required by the City Engineer.

ENG 12. Parking shall be restricted along both sides of Lot "A", "B", "C", and "D" as necessary to maintain a minimum 24 feet wide clear two-way travel way, except for designated parallel parking spaces. Regulatory Type R26 "No Parking" signs shall be installed along Lot "A", Lot "B", Lot "C", and Lot "D", as necessary to enforce parking restrictions.

ENG 13. The proposed Lot B (Belardo Road) grades shall meet the existing grades at the existing escalator located approximately 130 feet north of the south property line of proposed Parcel 4 (after abandonment of right-of-way), on the west side of the proposed Belardo Road.

ENG 14. The proposed Lot B (Belardo Road) includes airspace of 10.20 feet under the south end of Lot B and airspace of 9.0 feet under the north end of Lot B; the airspace is owned by the applicant.

ENG 15. The proposed Lot C (Belardo Road) grades shall meet the existing grades at the existing escalator located approximately 25 feet south of the north property line of proposed Parcel 3, on the east side of the proposed Belardo Road. Note that this escalator is proposed for removal, which would void this condition if the proposal for removal becomes a reality.

ENG 16. The proposed Lot C (Belardo Road) shall cross over the underground parking garage from the approximate proposed curb lines of Lot "D" (Andreas Road) on the east end of the proposed Belardo Road, to approximately 45 feet south of the south curb line; and to approximately 105 feet north of the north curb line, of Lot "D" (Andreas Road), respectively; the crossing(s) over the underground parking structure shall extend to the west property line of Lot "C" (Belardo Road); the airspace is owned by the applicant.

ENG 17. The proposed Lot C (Belardo Road) includes airspace of 10.0 feet adjacent to the east end of Lot C and the existing portion of Belardo Road that turns to the north along the west wall of the Hyatt Hotel; the airspace is owned by the applicant.

ENG 18. The proposed Lot C (Belardo Road) includes airspace of 20.2 feet along approximately 75 feet of Lot C (that is adjacent to and south of Lot D), in

accordance with legal descriptions provided by applicant; the airspace is owned by the applicant.

ENG 19. The proposed Lot D (Andreas Road) includes airspace of 20.2 feet along approximately 190 feet south of Lot D (that is adjacent to and south of Lot C), in accordance with legal descriptions provided by applicant. The airspace is owned by the applicant.

ENG 20. Construct pavement with a minimum pavement section of 3 inches asphalt concrete pavement over 6 inches crushed miscellaneous base with a minimum subgrade of 24 inches at 95% relative compaction, or equal, between the edges of proposed travelway along the entire proposed New Main Street, Belardo Road, and Andreas Road frontages, in accordance with City of Palm Springs Standard Drawing No. 110 and the Museum Market Plaza Specific Plan. If an alternative pavement section is proposed for New Main Street and intersections (such as decorative concrete pavers), the proposed pavement section shall be designed by a California registered Geotechnical Engineer using "R" values from the project site and submitted to the City Engineer for approval.

MARKET STREET (ON-SITE PRIVATE STREET)

ENG 21. Dedicate an easement for public utility purposes, including sewers, with the right of ingress and egress for service and emergency vehicles and personnel over the proposed private travelway between Parcel 2 and Parcel 3.

ENG 22. Construct pavement with a minimum pavement section of 3 inches asphalt concrete pavement over 6 inches crushed miscellaneous base with a minimum subgrade of 24 inches at 95% relative compaction, or equal, between the edges of proposed travelway along the entire proposed alleyway frontage in accordance with City of Palm Springs Standard Drawing No. 110. If an alternative pavement section is proposed (such as decorative concrete pavers), the proposed pavement section shall be designed by a California registered Geotechnical Engineer using "R" values from the project site and submitted to the City Engineer for approval.

DRAINAGE

ENG 23. Direct release of on-site nuisance water or stormwater runoff shall not be permitted to N. Palm Canyon Drive, Tahquitz Canyon Way, proposed New Main Street (Lot A), proposed Belardo Road (Lot B and C), and Andreas Road (Lot D). Provisions for the interception of nuisance water from entering adjacent public streets from the project site shall be provided through the use of a minor storm drain system that collects and conveys nuisance water to landscape or parkway areas, and in only a stormwater runoff condition, pass runoff directly to the streets through parkway or under sidewalk drains.

ENG 24. This project will be required to install measures in accordance with applicable National Pollution Discharge Elimination System (NPDES) Best Management Practices (BMP's) included as part of the NPDES Permit issued for the Whitewater River Region from the Colorado River Basin Regional Water Quality Control Board (RWQCB). The applicant is advised that installation of BMP's, including mechanical or other means for pre-treating contaminated stormwater and non-stormwater runoff, will be required by regulations imposed by the RWQCB. It shall be the applicant's responsibility to design and install appropriate BMP's, in accordance with the NPDES Permit, that effectively intercept and pre-treat contaminated stormwater and non-stormwater runoff from the project site, prior to release to the City's municipal separate storm sewer system ("MS4"), to the satisfaction of the City Engineer and the RWQCB. Such measures shall be designed and installed on-site; and provisions for perpetual maintenance of the measures shall be provided to the satisfaction of the City Engineer, including provisions in Covenants, Conditions, and Restrictions (CC&R's) required for the development.

MAP

ENG 25. A Parcel Map shall be prepared by a California registered Land Surveyor or qualified Civil Engineer and submitted to the Engineering Division for review and approval. A Title Report prepared for subdivision guarantee for the subject property, the traverse closures for the existing parcel and all lots created therefrom, and copies of record documents shall be submitted with the Parcel Map to the Engineering Division as part of the review of the Map. The Parcel Map shall be approved by the City Council prior to issuance of building permits.

ENG 26. In accordance with Government Code Section 66411.1 (b), the Tentative Parcel Map is a subdivision of five or more lots (parcels), and is subject to construction of all required public improvements. Prior to approval of a Parcel Map, all required public improvements shall be completed to the satisfaction of the City Engineer, or shall be secured by the Project Financing Agreement signed by Palm Springs Promenade, LLC and the City of Palm Springs on September 7, 2011 (in accordance with Government Code Section 66462) as amended.

ENG 27. In accordance with Section 66445 (j) of the Government Code, the western existing public right-of-way of 9.5 feet for N. Palm Canyon may be vacated upon the filing of a Parcel Map identifying the abandonment of the right-of-way granted to the City of Palm Springs, from the south property line of proposed Parcel 13, to a point located approximately 110 feet south of the north property line of proposed Parcel 13 (leaving a 25 feet radius property line at the curb return at the intersection of N. Palm Canyon Drive and Tahquitz Canyon Way), at which, 14.5 feet of public right-of-way shall be abandoned northerly to the north property line of proposed Parcel 1, with the following exception: from approximately 70

feet south of the north property line of Parcel 13 northerly to approximately 40 feet north of the south property line of Parcel 2, the vacation width shall be 17.5 feet, as shown and detailed on the approved version of TPM36446. Sidewalk easements and public utility easements shall be dedicated on the Parcel Map (or by separate instrument) as needed for those portions of sidewalk located outside of the public right-of-way after abandonment of right-of-way on N. Palm Canyon Drive.

ENG 28. In accordance with Section 66445 (j) of the Government Code, the northern existing public right-of-way of 11.5 feet for Tahquitz Canyon Way may be vacated upon the filing of a Parcel Map identifying the abandonment of the right-of-way granted to the City of Palm Springs, from the east property line of proposed Parcel 13 (leaving a 25 feet radius property line at the intersection of N. Palm Canyon Drive and Tahquitz Canyon Way), to a point located approximately 100 feet west of the east property line of the proposed Parcel 13 as shown and detailed on the approved version of Tentative Parcel Map No. (TPM) 36446. From that point, 23.53 feet of public right-of-way shall be abandoned westerly to a point approximately 25 feet easterly of the west property line of the proposed Parcel 12 of TPM36446; from this point, the abandonment decreases back down to 11.5 feet, extending to the west property line of the proposed Parcel 4 of TPM36446, as shown and detailed on TPM36446. Sidewalk easements and public utility easements shall be dedicated on the Parcel Map (or by separate instrument) as needed for those portions of sidewalk located outside of the public right-of-way after abandonment of right-of-way on Tahquitz Canyon Way.

ENG 29. Upon approval of a parcel map, the parcel map shall be provided to the City in G.I.S. digital format, consistent with the "Guidelines for G.I.S. Digital Submission" from the Riverside County Transportation and Land Management Agency." G.I.S. digital information shall consist of the following data: California Coordinate System, CCS83 Zone 6 (in U.S. feet); monuments (ASCII drawing exchange file); lot lines, rights-of-way, and centerlines shown as continuous lines; full map annotation consistent with annotation shown on the map; map number; and map file name. G.I.S. data format shall be provided on a CDROM/DVD containing the following: ArcGIS Geodatabase, ArcView Shapefile, ArcInfo Coverage or Exchange file (e00), DWG (AutoCAD 2004 drawing file), DGN (Microstation drawing file), DXF (AutoCAD ASCII drawing exchange file), and PDF (Adobe Acrobat 6.0 or greater) formats. Variations of the type and format of G.I.S. digital data to be submitted to the City may be authorized, upon prior approval of the City Engineer.

TRAFFIC

ENG 30. No construction traffic shall enter the project site from N. Palm Canyon Drive or Tahquitz Canyon Way.

RE: Response to Comments to Museum Market Plaza FEIR and Addendum

Dear Mr. Holland:

As you know, this office represents John Wessman and Palm Springs Promenade, LLC, the owner of the property currently known as the Desert Fashion Plaza. The purpose of this letter is to respond to a letter from Kimberly Huangfu of Buchalter Nemer to Craig Ewing dated November 28, 2012, stating the opposition of North First Street Properties, LP to the Final Environmental Impact Report and Addendum for the Downtown Palm Springs Museum Market Plaza Specific Plan.

Much of Ms. Huangfu's comments appear to be directed at criticism of the Final Environmental Impact Report (FEIR) that was certified in 2009. It is therefore important to note that when the FEIR was certified, the City posted a Notice of Determination, triggering the statutory thirty (30) day challenge period for that decision. No challenge was ever filed within the statutory period, and therefore, under CEQA, the approval is conclusively presumed to be valid for all purposes (Pub. Res. Code 21080.1, 21167.2.) Ms. Huangfu's letter, which claims that the FEIR did not contain a sufficient project description, aside from being meritless, is also long overdue and now moot.

Ms. Huangfu references Cal. Pub. Res. Code 21167(c) in her claim that the statute of limitations for legal challenge of the Addendum is 180 days because the City did not file a Notice of Determination (NOD) with the State Office of Planning and Research. This claim is simply incorrect, as under Pub. Res. Code 21167(c), 21108(a) and 21152(a), filing the NOD with the Office of Planning and Research in order to shorten the statute of limitations to 30 days is required only if the project is approved by a state agency. Projects approved by a local agency, such as the City, need only file with the County Clerk in order to trigger the shorter 30 day statute of limitations. In this case, the City filed an NOD for the Addendum on October 18, 2012 with the County

Clerk, thereby triggering the 30 day statute of limitations, making Ms. Huangfu's comments on the Addendum also untimely.

Despite the procedural and legal deficiencies of Ms. Huangfu's objections, we would also like to address the substance of the issues raised.

As you know, in 2009, the City certified the FEIR for the Museum Market Plaza and that document was not challenged within the allowable challenge period, making it now conclusively presumed valid. Contrary to the assertions in Ms. Huangfu's letter, CEQA includes a strong presumption against requiring further environmental review once an EIR has been certified for a project. (Pub. Res. C 21166.) Under CEQA and the implementing Guidelines, a proposed change to a project that has undergone an approved EIR will trigger the preparation of a supplemental or subsequent EIR only if four conditions are all found to exist:

1) The change to the project is substantial
2) The changes involves new or more severe significant environmental impacts
3) The change will require major revisions to the EIR because of the new or more severe significant impacts
4) The new or more severe impacts were not considered in the approved EIR.

In the current situation, the original FEIR analyzed the maximum density project that could be constructed within the bounds of the Museum Market Plaza Specific Plan (MMP SP). The original FEIR analyzed for 1,443,000 square feet of mixed retail/office/restaurant/residential space within the blocks covered by the Addendum. The Addendum and its modifications reduce the amount of development within the same geographic area by 57,000 square feet. Therefore, while the Addendum relocates certain uses, it does not increase the overall density of development within the Specific Plan Area, nor does it modify traffic patterns within that area. As a result, the City reasonably could and did find that the Addendum's impacts with respect to traffic, air quality, water quality, utilities, public services and the other topics covered in the FEIR would be equal to or less than those studied in the FEIR, and therefore, no supplemental or subsequent EIR was proper.

The one issue that the City felt should be considered was that of aesthetics/visual impacts because relocation of buildings could change the impacts of the project from a visual standpoint. Toward that end, the City did require revised view shed analyses showing the difference between the visual impacts under the FEIR and under the new Addendum. Having studied that analysis, the City concluded that the impacts from an aesthetic/view standpoint were the same or better from the proposed

Addendum as compared to the FEIR. On that basis, the CEQA guidelines indicate that at most, an Addendum is appropriate.

Once an EIR for a project is approved and beyond challenge, the City's determination of whether a further EIR is required will be upheld as long as its decision is supported by substantial evidence (*Moss v County of Humboldt* (2008) 162 CA 4th 1041, 1058.) In this case, the evidence shows that the Addendum presents a less dense and impactful project overall as compared to the level of development analyzed in the FEIR for the same blocks. The evidence before the City further showed that in the one area of possible new impacts, that of visual impacts, the City required and considered view shed studies of the FEIR as compared to the Addendum, and based on that substantial evidence, reasonably found that the impacts of the Addendum were no greater than those analyzed in the FEIR, nor did the Addendum create new impacts not previously analyzed. As a result, and contrary to the assertions made by Ms. Huangfu, the City's action in approving the Addendum was wholly proper under CEQA, and the City is entitled to rely upon the approved FEIR, as modified by the Addendum, in considering specific development projects within the Museum Market Plaza.

We would ask that this letter be made of part of the administrative record in this matter and provided to the Planning Commission Members.

Sincerely,

Emily Perri Hemphill

PLANNING COMMISSION
CITY OF PALM SPRINGS, CALIFORNIA

3200 East Tahquitz Canyon Way, Palm Springs, California
www.palmspringsca.gov

AGENDA

Wednesday, December 5, 2012	1:30 PM Meeting

CALL TO ORDER:

ROLL CALL:

REPORT OF POSTING OF AGENDA: Agenda available for public access at the City Hall exterior bulletin board (west side of Council Chamber) and the Planning Services counter by 6:00 p.m. on Thursday, November 29, 2012. A posting of this Agenda can be found on the City's website at: www.palmspringsca.gov. Pursuant to G.C. Section 54957.5 the designated office for inspection of public records in connection with the public meeting of the Planning Commission is the Office of the City Clerk, City Hall, located at 3200 East Tahquitz Canyon Way, Palm Springs, California.

It is the intention of the City of Palm Springs to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, or in meetings on a regular basis, you will need special assistance beyond what is normally provided, the City will attempt to accommodate you in every reasonable manner. Please contact the Planning Department, (760) 323-8245, at least 48 hours prior to the meeting to inform us of your particular needs and to determine if accommodation is feasible.

If any individual or group challenges the action in court, issues raised may be limited to only those issues raised at the Public Hearing described in this notice or in written correspondence at, or prior to, the Planning Commission meeting.

Please silence all cell phones, pagers and/or other electronic devices for the duration of the meeting.

ACCEPTANCE OF THE AGENDA: The Planning Commission will discuss the order of the agenda, may amend the order, note abstentions and request Consent Calendar items be removed from the consent calendar for discussion.

PUBLIC COMMENTS: This time has been set aside for members of the public to address the Planning Commission on Consent Calendar and other agenda items; and items of general interest within the subject matter jurisdiction of the Commission. Please note that the Planning Commission is prohibited from taking action on items not listed on the posted agenda. Three (3) minutes is allowed for each speaker. Testimony for Public Hearings maybe offered at this time or at the time of the hearing.

OTHER BUSINESS:

1. Tentative Tract Map No. 36446 – A Tentative Parcel Map (TPM 36446) to subdivide the Museum Market Plaza property of approximately 13.57 acres into 14 parcels for development and 4 lots for public infrastructure, located at the northwest corner of Palm Canyon Drive and Tahquitz Canyon Way.

   Recommendation: Adopt draft resolution requested by the Planning Commission on November 28, 2012.

2. Major Architectural Approval 3.3605-MAJ / Block A – To allow the renovation and remodel of a one-story retail commercial portion of the existing Desert Fashion Plaza, located in Block A of the Museum Market Plaza Specific Plan and at the northwest corner of N. Palm Canyon Drive and Andreas Road (new).

   Recommendation: Adopt the draft resolution requested by the Planning Commission on November 28, 2012.

3. Major Architectural Approval 3.3606-MAJ / Block B – To allow the redevelopment of a portion of the Desert Fashion Plaza with two two-story retail commercial buildings and a private street, located in Block B of the Museum Market Plaza Specific Plan and at the northwest corner of N. Palm Canyon Drive and "New Main Street".

   Recommendation: Adopt draft resolution requested by the Planning Commission on November 28, 2012.

4. Major Architectural Approval 3.3607-MAJ / Block C – To allow the redevelopment of a portion of the Desert Fashion Plaza with a one- and three-story retail commercial building, located in Block C of the Museum Market Plaza Specific Plan and along the westerly frontage of N. Palm Canyon Drive, south of "New Main Street"

   Recommendation: Adopt draft resolution requested by the Planning Commission on November 28, 2012.

5. Planned Development District 5.1290 / PD 361 / Block c-1 – A preliminary Planned Development District (PDD) within Block C of the Museum Market Plaza Specific Plan area for a hotel of approximately 185 rooms and various accessory and ancillary uses, including adjustments in certain Specific Plan development standards, including building height in excess of sixty (60) feet; located at the northeast corner of West Tahquitz Canyon Way and Belardo Road

   Recommendation: Adopt draft resolution requested by the Planning Commission on November 28, 2012.

PLANNING COMMISSION COMMENTS: This portion of the meeting is set aside for brief general comments and/or other issues of concern from members of the Planning Commission.

PLANNING DIRECTOR'S REPORT: This time is set aside for the Planning Director to update the Planning Commission on important items initiated by staff or members of the City Council.

ADJOURNMENT: The Planning Commission will adjourn to 1:30 p.m., Wednesday, December 12, 2012, City Hall, Council Chamber, 3200 East Tahquitz Canyon Way.

ADDED STARTERS: If there are added starters, action is required to determine eligibility for consideration.

Re: *Downtown Palm Springs Project (Planning Commission November 28, 2012 Regular Meeting, Agenda No. 1A) - Comments to Draft Museum Market Plaza Specific Plan Final Environmental Impact Report and Addendum*

Dear Mr. Ewing:

The following constitute the comments of North First Street Properties, LP ("North First Street")[1] submitted to oppose the use of the Final Environmental Impact Report (SCH No. 2008060184) and Addendum to Museum Market Plaza Specific Plan Final Environmental Impact Report ("FEIR" and "Addendum", respectively) for the "Downtown Palm Springs Project"[2] absent further environmental review. In light of the deficiencies set forth below, North First Street respectfully requests that the City of Palm Springs Planning Commission, City Council, and City Attorney's Office (collectively, hereinafter referred to as the "City") require

[1] North First Street is an owner of real property in the City of Palm Springs and has a vested interest in upholding the integrity of the environmental review process as intended under the California Environmental Quality Act ("CEQA").

[2] Hereinafter, referred to as the "Downtown Project", which is defined in the Addendum (but not the FEIR) as a "development program" that includes the construction of three separate blocks of commercial retail space, including the Desert Fashion Plaza Renovation Project discussed in further detail below, a 170-room hotel, a 1.3-acre public "event space", underground public parking, and a public street grid with extension through the project site to existing streets. (Addendum at p. 1.)

further environmental review for the Downtown Project and all of the individual project components subsumed within the "development program," as required by CEQA.

On October 22, 2008, the City, as the lead agency, released the draft EIR for the Museum Market Plaza Specific Plan ("Specific Plan DEIR"), which effectively sought to amend the City's land use and community development policies as applied to the Museum Market Plaza Specific Plan ("Specific Plan" or "Specific Plan Project") area. Subsequent thereto, the project sponsor, Wessman Development, LLC ("Wessman"), amended the Specific Plan DEIR to include an "option to remodel the existing Desert Fashion Plaza" ("Desert Fashion Plaza Renovation Project"). Set forth generally in the Specific Plan DEIR, no project-specific environmental review for what the City is now referring to as the "Downtown Project" or the Desert Fashion Plaza Renovation Project was performed as part of the Specific Plan DEIR, FEIR, or Addendum process.

At this critical juncture, it is unclear if and when the City intends to conduct any additional environmental reviews. As of February 17, 2009, the City stated that "an Initial Study will be prepared under the guidelines of the California Environmental Quality Act (CEQA)" for the Desert Fashion Plaza Renovation Project "[a]t the time a formal application is submitted." (City Dept. of Planning Services, Feb. 17, 2009 Letter to Wessman re: Pre-App. 09-001 for the Desert Fashion Plaza Renovation Project at p. 11.) Oddly, this is in stark contrast to more recent representations where the City has indicated that it does not intend to undergo further environmental review on a project-level basis, but rather that "[t]he City proposes to use the Final EIR and Addendum as the environmental document for th[e] Downtown Palm Springs Project." (City Memo from Planner E. Robertson to AAC, Nov. 13, 2012 at p. 1.)

As such, it appears that no initial study, or any environmental review for that matter, has been considered with respect to the revised Downtown Project, which now entails the subdivision of a 13.2-acre site into thirteen parcels, as well as the construction of a "major public outdoor performance space (1.3 acres or 57,000 sq. ft.), underground public parking and the establishment of a public street grid, including extension through the project site of existing streets." Said projects are part of the Downtown Project submittals that are currently pending before the Planning Commission. (Addendum at p. 1.) Apparently, the Addendum further provides that "[f]ull implementation of the [Downtown] project will include future phases west of Belardo Road that are not proposed at this time . . . " (*Id.*) Once again, it appears that the public is to presume that the City will similarly forgo further environmental review so long as the future "phases" fall under the larger subset of the "Downtown Project" area.

This is of grave concern as the lack of required environmental review runs afoul of the protections provided for under CEQA. During the October 17, 2012 City Council meeting, one of the City councilmembers aptly stated that the Downtown Project is the "largest project in the history (and quite possible the future) of Palm Springs." In order to assess the totality of cumulative environmental impacts, further consideration must be afforded to properly define the

City of Palm Springs

Department of Planning Services

Memorandum

Date: December 5, 2012

To: Planning Commission

From: Craig A. Ewing, AICP, Director of Planning Services

Subject: Draft Resolutions of Approval:
- Tentative Parcel Map No. TPM 36446,
- Major Architectural Approvals 3.3605, 3.3606 and 3.3607, and
- Planned Development District Permit 5.1290 / PD 360 / Block "c-1"

On November 28, 2012, the Planning Commission directed staff to prepare draft resolutions of approval, with conditions, on the above five applications. The draft resolutions are attached for the Commission's consideration and action.

Attachment: Draft Resolutions, TPM 36446, MAJ 3.3605, 3.3606, 3.3607 and PDD 5.1290 / PD 360 / Block "c-1"

DRAFT

RESOLUTION NO.

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF PALM SPRINGS, CALIFORNIA, RECOMMENDING TO THE CITY COUNCIL APPROVAL OF TENTATIVE PARCEL MAP 36446 TO SUBDIVIDE THE MUSEUM MARKET PLAZA PROPERTY OF APPROXIMATELY 13.57 ACRES INTO 14 PARCELS FOR DEVELOPMENT AND 4 LOTS FOR PUBLIC INFRASTRUCTURE, LOCATED AT THE NORTHWEST CORNER OF PALM CANYON DRIVE AND TAHQUITZ CANYON WAY.

WHEREAS, Palm Springs Promenade, LLC and the City of Palm Springs, ("applicants") has filed an application with the City, pursuant to the Museum Market Specific Plan and Section 9.62.010 of the Palm Springs Municipal Code for a Tentative Parcel Map to subdivide the Museum Market Plaza property of approximately 13.57 acres into 14 parcels for development and 4 lots for public infrastructure, located at the northwest corner of Palm Canyon Drive and Tahquitz Canyon, APN's: 513-560-002, -004, -007 - 008 and -009), zone Museum Market Plaza Specific Plan, Section 15/R4/T4; and

WHEREAS, on October 17, 2012, the City Council reviewed a project description of the proposed development and adopted an Addendum to the Museum Market Plaza Specific Plan Final Environmental Impact Report (EIR) and certified that the EIR, with the accompanying Statement of Overriding Considerations and Mitigation Monitoring Program, and the Addendum, is an adequate and complete analysis of the potential environmental impacts of the proposed project; and

WHEREAS, on November 13, 19 and 26, 2012, the Architectural Advisory Committee (AAC) reviewed the proposed project and voted 6-0 to recommend approval, with conditions, to the Planning Commission; and

WHEREAS, on November 7, 2012, the Planning Commission conducted an orientation session on the proposed project, and on November 14 and 28, 2012, the Commission conducted a public hearing in accordance with applicable law; and

WHEREAS, the Planning Commission has carefully reviewed and considered all of the evidence presented in connection with the hearing on the project, including but not limited to the project description and exhibits, the staff report and memoranda, and written and oral testimony presented at the meetings.

THE PLANNING COMMISSION HEREBY FINDS AS FOLLOWS:

Section 1: The following findings required for the proposed Tentative Parcel Map are pursuant to Section 66474 of the California Subdivision Map Act. If any of these findings are not met, the City shall deny approval:

1. *That the proposed map is not consistent with applicable general and specific plans as specific in Section 65451;*

   The project is subject to the Museum Market Plaza Specific Plan ("Specific Plan'), which governs as both general plan and specific plan (zoning) for the site. The proposed map implements the land use and development objectives of the Specific Plan by establishing a public street grid within the boundaries of the site and in alignment with surrounding streets. The plan further establishes lots of record for the redevelopment of small commercial blocks in the City's downtown core, which is a primary objective of the specific plan. Consequently, the proposed map is consistent with the applicable general and specific plans, and this finding is not met.

2. *That the design or improvement of the proposed subdivision is not consistent with applicable general and specific plans;*

   The design of the proposed subdivision and the associated improvements will implement the goals and objectives of the applicable Museum Market Plaza Specific Plan in that public streets, sidewalks, parking facilities and related public facilities will be established within the project boundaries in support of future private development. The design of the street grid will provide vehicular access and parking, as well as pedestrian access in alignment with surrounding streets and sidewalks ways that will extend the urban character of the surrounding area into the site. Consequently, the design of the proposed subdivision and the associated improvements are consistent with the applicable general and specific plans, and this finding is not met.

3. *That the site is not physically suitable for the type of development;*

   The site is slightly more than thirteen (13) acres and is generally flat with a gentle slope from north to south and west to east. Existing improvements on the site include underground parking facilities, which are to be retained and an enclosed retail shopping center, which will be largely demolished. Surrounding areas are developed with urban commercial buildings and uses. The site will accommodate the proposed subdivision of fourteen private lots and associated public streets, and the subdivision will facilitate re-use of the site for an expansion of the City's downtown retail commercial core, as intended by the applicable Museum Market Plaza Specific Plan. Consequently, the site is physically suitable for the type of development, and this finding is not met.

4. *That the site is not physically suitable for the proposed density of development;*

The subdivision proposes to establish public streets and public and private parcels within a flat, gently sloping site to expand the existing downtown core. The proposed density of development will included existing underground parking; one, two and three story buildings; as well as a multi-story hotel and future development on fourteen parcels. The site is bordered by two major thoroughfares (N. Palm Canyon Drive and West Tahquitz Canyon Way), and additional local public streets will be constructed. Adequate lot sizes, access and parking are provided for the proposed density of development. Consequently, the site is physically suitable for the proposed density of development and this finding is not met.

5. *That the design of the subdivision or the proposed improvements are likely to cause substantial environmental damage or substantially and avoidable injure fish or wildlife or their habitat;*

The design of the subdivision and the proposed improvements have been evaluated under the provisions of the California Environmental Quality Act (CEQA) and an Environmental Impact Report, Statement of Overriding Considerations, Mitigation Monitoring Program and subsequent EIR Addendum have been prepared and certified for the proposed subdivision. No substantial environmental damage nor substantially or avoidable injury to fish, wildlife or their habitat is expected to occur. Consequently, this finding is not met.

6. *That the design of the subdivision or type of improvements is likely to cause serious public health problems;*

No serious public health problems have been identified in the certified Environmental Impact Report, Statement of Overriding Considerations, Mitigation Monitoring Program or subsequent EIR Addendum prepared for the proposed subdivision and its anticipated improvements. Consequently, this finding is not met.

7. *That the design of the subdivision or the type of improvements will conflict with easement, acquired by the public at large, for access through or use of, property within the proposed subdivision. In this connection, the governing body may approve a map if it finds that alternate easements, for access or for use, will be provided, and that these will be substantially equivalent to ones previously acquired by the public. This subsection shall apply only to easement of record or to easement established by judgment of a court of competent jurisdiction and no authority is hereby*

granted to a legislative body to determine that the public at large has acquired easements for access through or use of property with the proposed subdivision;

All easements on or near the subject site have been identified. New easements and other agreements have been established between the applicants, including the City of Palm Springs to resolve all access issues. Consequently, this finding is not met.

NOW, THEREFORE, BE IT RESOLVED, that, based on the foregoing, the Planning Commission hereby approves Tentative Parcel Map No. 36446 to subdivide the Museum Market Plaza property of approximately 13.57 acres into 14 parcels for development and 4 lots for public infrastructure, located at the northwest corner of Palm Canyon Drive and Tahquitz Canyon, as indicated on the attached map, Exhibit A, and subject to those conditions set forth in Exhibit B, attached hereto and made a part of this resolution.

ADOPTED this 5th day of December, 2012.

RESOLUTION NO. _____

EXHIBIT A

Case Tentative Parcel Map No. 36446
Downtown Palm Springs

December 5, 2012

CONDITIONS OF APPROVAL

Before final acceptance of the project, all conditions listed below shall be completed to the satisfaction of the City Engineer, the Director of Planning Services, the Director of Building and Safety, the Chief of Police, the Fire Chief or their designee, depending on which department recommended the condition.

Any agreements, easements or covenants required to be entered into shall be in a form approved by the City Attorney.

ADMINISTRATIVE CONDITIONS

ADM 1. Project Description. This approval is for the project described per Case 3.3605 – MAJ, except as modified by the conditions below.

ADM 2. Reference Documents. The site shall be developed and maintained in accordance with the approved plans, including site plans, architectural elevations, exterior materials and colors, landscaping, and grading on file in the Planning Division, except as modified by the conditions below.

ADM 3. Conform to all Codes and Regulations. The project shall conform to the conditions contained herein, all applicable regulations of the Palm Springs Zoning Ordinance, Municipal Code, and any other City County, State and Federal Codes, ordinances, resolutions and laws that may apply.

ADM 4. Minor Deviations. The Director of Planning or designee may approve minor deviations to the project description and approved plans in accordance with the provisions of the Palm Springs Zoning Code.

ADM 5. Indemnification. The owner shall defend, indemnify, and hold harmless the City of Palm Springs, its agents, officers, and employees from any claim, action, or proceeding against the City of Palm Springs or its agents, officers or employees to attach,. set aside, void or annul, an approval of the City of Palm Springs, its legislative body, advisory agencies, or administrative officers concerning Case 3.3467-MAJ. The City of Palm Springs will promptly notify the applicant of any such claim, action, or proceeding against the City of Palm Springs and the applicant will either undertake

defense of the matter and pay the City's associated legal costs or will advance funds to pay for defense of the matter by the City Attorney. If the City of Palm Springs fails to promptly notify the applicant of any such claim, action or proceeding or fails to cooperate fully in the defense, the applicant shall not, thereafter, be responsible to defend, indemnify, or hold harmless the City of Palm Springs. Notwithstanding the foregoing, the City retains the right to settle or abandon the matter without the applicant's consent but should it do so, the City shall waive the indemnification herein, except, the City's decision to settle or abandon a matter following an adverse judgment or failure to appeal, shall not cause a waiver of the indemnification rights herein.

ADM 6. Maintenance and Repair. The property owner(s) and successors and assignees in interest shall maintain and repair the improvements including and without limitation all structures, sidewalks, bikeways, parking areas, landscape, irrigation, lighting, signs, walls, and fences between the curb and property line, including sidewalk or bikeway easement areas that extend onto private property, in a first class condition, free from waste and debris, and in accordance with all applicable law, rules, ordinances and regulations of all federal, state, and local bodies and agencies having jurisdiction at the property owner's sole expense. This condition shall be included in the recorded covenant agreement for the properly if required by the City.

ADM 7. Time Limit on Approval. Approval of the Major Architectural Application (MAJ) shall be valid for a period of two (2) years from the effective date of the approval. Extensions of time may be granted by the Planning Commission upon demonstration of good cause.

ADM 8. Right to Appeal. Decisions of an administrative officer or agency of the City of Palm Springs may be appealed in accordance with Municipal Code Chapter 2.05.00. Permits will not be issued until the appeal period has concluded.

ADM 9. Public Art Fees. This project shall be subject to Chapters 2.24 and 3.37 of the Municipal Code regarding public art. The project shall either provide public art or payment of an in lieu fee. In the case of the in-lieu fee, the fee shall be based upon the total building permit valuation as calculated pursuant to the valuation table in the Uniform Building Code, the fee being ½% for commercial projects or ¼% for residential projects with first $100,000 of total building permit valuation for individual single-family units exempt. Should the public art be located on the project site, said location shall be reviewed and approved by the Director of Planning and Zoning and the Public Arts Commission, and the property owner shall enter into a recorded agreement to maintain the art work and protect the public rights of access and viewing.

ADM 10. Comply with City Noise Ordinance. This use shall comply with the provisions of Section 11.74 Noise Ordinance of the Palm Springs Municipal Code.

ENVIRONMENTAL ASSESSMENT CONDITIONS

ENV 1 Coachella Valley Multiple-Species Habitat Conservation Plan (CVMSHCP) Local Development Permit Fee (LDMF) required. All projects within the City of Palm Springs are subject to payment of the CVMSHCP LDMF prior to the issuance of certificate of occupancy.

PLANNING DEPARTMENT CONDITIONS

PLN 1. Water Efficient Landscaping Conformance. The project is subject to the Water Efficient Landscape Ordinance (Chapter 8.60.00) of the Palm Springs Municipal Code and all other water efficient landscape ordinances. The applicant shall submit a landscape and irrigation plan to the Director of Planning or designee for review and approval prior to the issuance of a building permit. Landscape plans shall be wet stamped and approved by the Riverside County Agricultural Commissioner's Office prior to submittal. Prior to submittal to the City, landscape plans shall also be certified by the local water agency that they are in conformance with the water agency's and the State's Water Efficient Landscape Ordinances.

PLN 2. Sign Applications Required. No signs are approved by this action. Separate approval and permits shall be required for all signs in accordance with Zoning Ordinance Section 93.20.00.

PLN 3. Flat Roof Requirements. Roof materials on flat roofs must conform to California Title 24 thermal standards for "Cool Roofs". Such roofs must have a minimum initial thermal emittance of 0.75 and minimum initial solar reflectance of 0.70. Only matte (non-specular) roofing is allowed in colors such as beige or tan.

PLN 4. Screen Roof-mounted Equipment. All roof mounted mechanical equipment shall be screened per the requirements of Section 93.03.00 of the Zoning Ordinance.

PLN 5. Surface Mounted Downspouts Prohibited. No exterior downspouts shall be permitted on any facade on the proposed building(s) that are visible from adjacent streets or residential and commercial areas.

PLN 6. Exterior Alarms & Audio Systems. No sirens, outside paging or any type of signalization will be permitted, except approved alarm systems.

PLN 7. Outside Storage Prohibited. No outside storage of any kind shall be permitted except as approved as a part of the proposed plan.

POLICE DEPARTMENT CONDITIONS

POL 1. Developer shall comply with Section II of Chapter 8.04 "Building Security Codes" of the Palm Springs Municipal Code.

BUILDING DEPARTMENT CONDITIONS

BLD 1. Prior to any construction on-site, all appropriate permits must be secured.

ENGINEERING DEPARTMENT CONDITIONS

Before final acceptance of the project, all conditions listed below shall be completed to the satisfaction of the City Engineer.

STREETS

ENG 1. Abandonment of right-of-way is required to facilitate the proposed development application. The abandonment of right-of-way shall be completed with the recordation of Parcel Map No. 36446, as indicated by the conditions herein. The abandonment of right-of-way shall be approved by the City Council in conjunction with the approval of Parcel Map No. 36446.

ENG 2. All private and public street improvements are subject to the Project Financing Agreement as amended.

N. PALM CANYON DRIVE

ENG 3. Vacate 9.5 feet of public right-of-way from the south property line of proposed Parcel 13, to a point approximately 110 feet south of the north property line of proposed Parcel 13, as shown and detailed on the approved version of Tentative Parcel Map No. (TPM) 36446; a 25 feet radius property line at the intersection of N. Palm Canyon Drive and Tahquitz Canyon Way shall be maintained, as shown and detailed on the approved version of TPM36446. From the point 110 feet south of the north property line of proposed Parcel 13, abandon 14.5 feet northerly to the north property line of proposed Parcel 1, with the following exception: from approximately 70 feet south of the north property line of Parcel 13 northerly to approximately 40 feet north of the south property line of Parcel 2, the vacation width shall be 17.5 feet, as shown and detailed on the approved version of TPM36446.

ENG 4. Dedicate public utility easements in areas for which public right-of-way has been vacated on Parcel Map No. 36446.

ENG 5. Dedicate a minimum sidewalk easement of 8 feet (or as needed to match existing sidewalk) for those portions of sidewalk located outside of the public right-of-way after vacation of right-of-way on N. Palm Canyon Drive. Any existing underground utilities under the existing sidewalk, shall not be relocated in conjunction with this project.

ENG 6. All broken or off grade street improvements shall be repaired or replaced.

TAHQUITZ CANYON WAY

ENG 7. Vacate public right-of-way from the east property line of proposed Parcel 13 westerly to the west property line of proposed Parcel 4 as shown and detailed on the approved version of Tentative Parcel Map No. (TPM) 36446. 11.5 feet of right-of-way shall be abandoned (leaving a 25 feet radius property line at the curb return at the intersection of N. Palm Canyon Drive and Tahquitz Canyon Way) to a point approximately 100 feet west of the east property line of proposed parcel 13 of TPM36446, at which point, 23.53 feet of public right-of-way shall be abandoned westerly to a point approximately 25 feet easterly of the west property line of proposed Parcel 12 of TPM36446; from this point, the abandonment decreases to 11.5 feet, extending to the west property line of proposed Parcel 4 as shown and detailed on TPM36446.

ENG 8. Dedicate public utility easements in areas for which public right-of-way has been vacated on Parcel Map No. 36446.

ENG 9. Dedicate a minimum sidewalk easement of 8 feet (or as needed to match existing sidewalk) for those portions of sidewalk located outside of the public right-of-way after abandonment of right-of-way on Tahquitz Canyon Way. Any existing underground utilities under the existing sidewalk, shall not be relocated in conjunction with this project.

ENG 10. All broken or off grade street improvements shall be repaired or replaced.

ON-SITE PUBLIC STREETS (LOTS "A" (NEW MAIN STREET), LOT "B" AND "C" (BELARDO ROAD), AND LOT "D" (ANDREAS ROAD)

ENG 11. Dedicate full street right-of-way width of 41 feet as shown on the approved version of Tentative Parcel Map No. 36446, together with property line - corner cut-backs at each intersection between Lots "A", "B", "C", and "D", as required by the City Engineer.

ENG 12. Parking shall be restricted along both sides of Lot "A", "B", "C", and "D" as necessary to maintain a minimum 24 feet wide clear two-way travel way, except for designated parallel parking spaces. Regulatory Type R26 "No Parking" signs shall be installed along Lot "A", Lot "B", Lot "C", and Lot "D", as necessary to enforce parking restrictions.

ENG 13. The proposed Lot B (Belardo Road) grades shall meet the existing grades at the existing escalator located approximately 130 feet north of the south property line of proposed Parcel 4 (after abandonment of right-of-way), on the west side of the proposed Belardo Road.

ENG 14. The proposed Lot B (Belardo Road) includes airspace of 10.20 feet under the south end of Lot B and airspace of 9.0 feet under the north end of Lot B; the airspace is owned by the applicant.

ENG 15. The proposed Lot C (Belardo Road) grades shall meet the existing grades at the existing escalator located approximately 25 feet south of the north property line of proposed Parcel 3, on the east side of the proposed Belardo Road. Note that this escalator is proposed for removal, which would void this condition if the proposal for removal becomes a reality.

ENG 16. The proposed Lot C (Belardo Road) shall cross over the underground parking garage from the approximate proposed curb lines of Lot "D" (Andreas Road) on the east end of the proposed Belardo Road, to approximately 45 feet south of the south curb line; and to approximately 105 feet north of the north curb line, of Lot "D" (Andreas Road), respectively; the crossing(s) over the underground parking structure shall extend to the west property line of Lot "C" (Belardo Road); the airspace is owned by the applicant.

ENG 17. The proposed Lot C (Belardo Road) includes airspace of 10.0 feet adjacent to the east end of Lot C and the existing portion of Belardo Road that turns to the north along the west wall of the Hyatt Hotel; the airspace is owned by the applicant.

ENG 18. The proposed Lot C (Belardo Road) includes airspace of 20.2 feet along approximately 75 feet of Lot C (that is adjacent to and south of Lot D), in accordance with legal descriptions provided by applicant; the airspace is owned by the applicant.

ENG 19. The proposed Lot D (Andreas Road) includes airspace of 20.2 feet along approximately 190 feet south of Lot D (that is adjacent to and south of Lot C), in accordance with legal descriptions provided by applicant. The airspace is owned by the applicant.

ENG 20. Construct pavement with a minimum pavement section of 3 inches asphalt concrete pavement over 6 inches crushed miscellaneous base with a minimum subgrade of 24 inches at 95% relative compaction, or equal, between the edges of proposed travelway along the entire proposed New Main Street, Belardo Road, and Andreas Road frontages, in accordance with City of Palm Springs Standard Drawing No. 110 and the Museum Market Plaza Specific Plan. If an alternative pavement section is proposed for New Main Street and intersections (such as decorative concrete pavers), the proposed pavement section shall be designed by a California registered Geotechnical Engineer using "R" values from the project site and submitted to the City Engineer for approval.

MARKET STREET (ON-SITE PRIVATE STREET)

ENG 21. Dedicate an easement for public utility purposes, including sewers, with the right of ingress and egress for service and emergency vehicles and personnel over the proposed private travelway between Parcel 2 and Parcel 3.

ENG 22. Construct pavement with a minimum pavement section of 3 inches asphalt concrete pavement over 6 inches crushed miscellaneous base with a minimum subgrade of 24 inches at 95% relative compaction, or equal, between the edges of proposed travelway along the entire proposed alleyway frontage in accordance with City of Palm Springs Standard Drawing No. 110. If an alternative pavement section is proposed (such as decorative concrete pavers), the proposed pavement section shall be designed by a California registered Geotechnical Engineer using "R" values from the project site and submitted to the City Engineer for approval.

DRAINAGE

ENG 23. Direct release of on-site nuisance water or stormwater runoff shall not be permitted to N. Palm Canyon Drive, Tahquitz Canyon Way, proposed New Main Street (Lot A), proposed Belardo Road (Lot B and C), and Andreas Road (Lot D). Provisions for the interception of nuisance water from entering adjacent public streets from the project site shall be provided through the use of a minor storm drain system that collects and conveys nuisance water to landscape or parkway areas, and in only a stormwater runoff condition, pass runoff directly to the streets through parkway or under sidewalk drains.

ENG 24. This project will be required to install measures in accordance with applicable National Pollution Discharge Elimination System (NPDES) Best Management Practices (BMP's) included as part of the NPDES Permit issued for the Whitewater River Region from the Colorado River Basin Regional Water Quality Control Board (RWQCB). The applicant is advised that installation of BMP's, including mechanical or other means for pre-treating contaminated stormwater and non-stormwater runoff, will be required by regulations imposed by the RWQCB. It shall be the applicant's responsibility to design and install appropriate BMP's, in accordance with the NPDES Permit, that effectively intercept and pre-treat contaminated stormwater and non-stormwater runoff from the project site, prior to release to the City's municipal separate storm sewer system ("MS4"), to the satisfaction of the City Engineer and the RWQCB. Such measures shall be designed and installed on-site; and provisions for perpetual maintenance of the measures shall be provided to the satisfaction of the City Engineer, including provisions in Covenants, Conditions, and Restrictions (CC&R's) required for the development.

MAP

ENG 25. A Parcel Map shall be prepared by a California registered Land Surveyor or qualified Civil Engineer and submitted to the Engineering Division for review and approval. A Title Report prepared for subdivision guarantee for the subject property, the traverse closures for the existing parcel and all lots created therefrom, and copies of record documents shall be submitted with the Parcel Map to the Engineering Division as part of the review of the Map. The Parcel Map shall be approved by the City Council prior to issuance of building permits.

ENG 26. In accordance with Government Code Section 66411.1 (b), the Tentative Parcel Map is a subdivision of five or more lots (parcels), and is subject to construction of all required public improvements. Prior to approval of a Parcel Map, all required public improvements shall be completed to the satisfaction of the City Engineer, or shall be secured by the Project Financing Agreement signed by Palm Springs Promenade, LLC and the City of Palm Springs on September 7, 2011 (in accordance with Government Code Section 66462) as amended.

ENG 27. In accordance with Section 66445 (j) of the Government Code, the western existing public right-of-way of 9.5 feet for N. Palm Canyon may be vacated upon the filing of a Parcel Map identifying the abandonment of the right-of-way granted to the City of Palm Springs, from the south property line of proposed Parcel 13, to a point located approximately 110 feet south of the north property line of proposed Parcel 13 (leaving a 25 feet radius property line at the curb return at the intersection of N. Palm Canyon Drive and Tahquitz Canyon Way), at which, 14.5 feet of public right-of-way shall be abandoned northerly to the north property line of proposed Parcel 1, with the following exception: from approximately 70 feet south of the north property line of Parcel 13 northerly to approximately 40 feet north of the south property line of Parcel 2, the vacation width shall be 17.5 feet, as shown and detailed on the approved version of TPM36446. Sidewalk easements and public utility easements shall be dedicated on the Parcel Map (or by separate instrument) as needed for those portions of sidewalk located outside of the public right-of-way after abandonment of right-of-way on N. Palm Canyon Drive.

ENG 28. In accordance with Section 66445 (j) of the Government Code, the northern existing public right-of-way of 11.5 feet for Tahquitz Canyon Way may be vacated upon the filing of a Parcel Map identifying the abandonment of the right-of-way granted to the City of Palm Springs, from the east property line of proposed Parcel 13 (leaving a 25 feet radius property line at the intersection of N. Palm Canyon Drive and Tahquitz Canyon Way), to a point located approximately 100 feet west of the east property line of the proposed Parcel 13 as shown and detailed on the approved version of Tentative Parcel Map No. (TPM) 36446. From that point, 23.53 feet of public right-of-way shall be abandoned westerly to a point approximately 25 feet easterly of the west property line of the proposed Parcel 12 of TPM36446; from this point, the abandonment decreases back down to 11.5 feet, extending to the west property line of the proposed Parcel 4 of

TPM36446, as shown and detailed on TPM36446. Sidewalk easements and public utility easements shall be dedicated on the Parcel Map (or by separate instrument) as needed for those portions of sidewalk located outside of the public right-of-way after abandonment of right-of-way on Tahquitz Canyon Way.

ENG 29. Upon approval of a parcel map, the parcel map shall be provided to the City in G.I.S. digital format, consistent with the "Guidelines for G.I.S. Digital Submission" from the Riverside County Transportation and Land Management Agency." G.I.S. digital information shall consist of the following data: California Coordinate System, CCS83 Zone 6 (in U.S. feet); monuments (ASCII drawing exchange file); lot lines, rights-of-way, and centerlines shown as continuous lines; full map annotation consistent with annotation shown on the map; map number; and map file name. G.I.S. data format shall be provided on a CDROM/DVD containing the following: ArcGIS Geodatabase, ArcView Shapefile, ArcInfo Coverage or Exchange file (e00), DWG (AutoCAD 2004 drawing file), DGN (Microstation drawing file), DXF (AutoCAD ASCII drawing exchange file), and PDF (Adobe Acrobat 6.0 or greater) formats. Variations of the type and format of G.I.S. digital data to be submitted to the City may be authorized, upon prior approval of the City Engineer.

TRAFFIC

ENG 30. No construction traffic shall enter the project site from N. Palm Canyon Drive or Tahquitz Canyon Way.

scope of each individual project, as well as of the Downtown Project in the aggregate. Given the expedited nature of recent approvals related to the Downtown Project, we are asking the City to give the pending approvals the time and consideration that a project of this magnitude requires.

I. FACTUAL BACKGROUND

On April 30, 2008, Wessman presented the City with a draft Specific Plan for the Museum Market Plaza. Initiated by the City Council, City staff ("Staff") was charged with the task of assessing whether the Specific Plan conformed with the Palm Springs General Plan, Downtown Design Guidelines, and the Palm Springs Zoning Code.

On June 13, 2008, the City issued a Notice of Preparation ("NOP") and Initial Study, which indicated that the following environmental factors would be potentially affected by the Specific Plan Project as contemplated at that time, including aesthetics, hazards and hazardous materials, public services, utilities/service systems, cultural resources, hydrology/water quality, noise, recreation, air quality, geology/soils, land use/planning, population/housing, and transportation/traffic, all of which would require a Statement of Overriding Considerations. (DEIR, App. A, Initial Study at p. 4.) Accordingly, the City prepared a DEIR and "undertook a *preliminary review* of the potential environmental impacts associated with the build out of the Specific Plan," specifically to identify "the range of development that would be permitted within the Specific Plan or Project Area . . . [and] evaluate[d] . . . the various policies and development standards for a master planned, mixed use project that would accommodate retail, office, high density residential, and resort development, and the environmental impacts the Project would cause if it were approved and developed." (City Council Staff Report, Dec. 2, 2009 at p. 0004; *see also*, Specific Plan DEIR at p. I-1, emphasis supplied.)

The Specific Plan Project proposes program-level "policies and development standards for a master planned, mixed use project to include Retail, Office, High Density Residential and Resort development on 20.6 acres," which initially allowed for the development of 400,000 square feet of retail or office, 955 residential dwelling units, and 620 hotel rooms. (*Id.* at App. A, NOP at p. 2.) The DEIR contained a "program-level analysis" of the environmental impacts related to the Specific Plan Project, which sought to:

> "examine . . . the total scope of environmental effects that would occur as a result of buildout of the entire proposed project. By examining the full scope of the proposed project and subsequent applications and approvals at this stage of planning, the *Program EIR provides a full disclosure of the environmental impacts that may occur throughout the project site*, together with an analysis of the site specific and cumulative environmental impacts that will occur throughout the buildout time frame of the project and may be

> found to support all levels of approvals necessary to implement the Project."

(City Council Staff Report, Dec. 2, 2009 at p. 0005 adopted Resolution No. 22077, emphasis added.)

Following several continuances, the City Council enacted Ordinance No. 1764 and adopted the Specific Plan Project and the DEIR on December 2, 2009. (Ord. No. 1764, §3 at p. 2 [Museum Market SP "includes comprehensive rules and regulations that will govern future development that may occur within the boundaries of the specific plan and such regulations may conflict with provisions of the Palm Springs Zoning Ordinance."].) As for the Desert Fashion Plaza Renovation Project, the City Council conducted a Conformity Review under the draft Museum Market Plaza Specific Plan and found the proposed plan for revitalization of the Desert Fashion Plaza Renovation Project to be in general conformance with the Specific Plan. (City Council Staff Report, Oct. 17, 2012 at p. 002.) The scope and specifics of the proposed Desert Fashion Plaza Renovation Project, however, were not contemplated as a part of the DEIR or Addendum. A Notice of Determination as to the initial Specific Plan Project was filed on December 7, 2009.

Nearly three years later, City Staff reviewed the latest site and development plans for the Specific Plan Project Area and concluded that "no new impacts are expected which were not fully analyzed in the Specific Plan [D]EIR, except for aesthetics/visual resources." (City Council Staff Report, Oct. 17, 2012 at p. 003.) The City noted, however, that "since the new plan proposes building height and mass in different configurations from the Specific Plan, it was necessary to analyze the new project's visual impacts and prepare an addendum of the aesthetics/visual resources section of the EIR" and included photographic simulations to reflect environmental impacts associated with the new height and mass configurations associated with the Downtown Palm Springs Project. (*Id.*)

No additional studies concerning air quality, noise, water availability, traffic, or population and housing were provided, despite numerous and substantial modifications to the original Specific Plan Project that were not assessed in the DEIR or Addendum.

Notwithstanding these substantial project changes, the City adopted an Addendum to the FEIR on October 17, 2012 for the newly entitled "Proposed Renovation Plan," also referred as the "Downtown Palm Springs Project." A subsequent notice of determination with respect to the Addendum has not been filed with the Office of Planning and Research, thereby extending the applicable statute of limitations for legal challenges from 30 to 180 days. (Cal. Pub. Res. Code § 21167(c).)

Future expansion and actions related to the Downtown Project, which presently includes the four pending approvals before the Planning Commission, namely the (1) Tentative Parcel

Map No. 36446 to subdivide the parcel; (2) Major Architectural Approval 3.3605/Block A; (3) Major Architectural Approval 3.3606/Block B; (4) Major Architectural Approval 3.3607/Block C; and (4) Planned Development District PD 361/Block C-1, will indisputably be significant. Consequently, such changes and refinements to the "Downtown Project," which were never assessed on a project-level in the Specific Plan Project, should either have been analyzed as part of the original DEIR, or become the subject of subsequent or supplemental environmental review. (14 Cal. Code of Regs. §§ 15162-15164.) Therefore, issues concerning the applicability of the Addendum and the FEIR for the Specific Project Plan to the pending City approvals for the Downtown Project are currently outstanding and have been timely raised for consideration by the Planning Commission.

II. THE PROJECT DESCRIPTION IN THE DEIR AND THE ADDENDUM IS INSUFFICIENT AS APPLIED TO THE DOWNTOWN PROJECT

"CEQA requires that '[a]n accurate, stable and finite description' of the project be established 'early enough in the planning stages of [the] project to enable environmental concerns to influence the project's program and design, yet late enough to provide meaningful information for environmental assessment." (*Planning and Conservation League v. Castaic Lake Water Agency*, 180 Cal.App.4th 210, 234-35 (2009), quoting *Kings County Farm Bureau v. City of Hanford*, 221 Cal.App.3d 692, 738 (1990).) An EIR must, therefore, "include an analysis of the environmental effects of future expansion or other action if: (1) it is a reasonably foreseeable consequence of the initial project; and (2) the future expansion or action will be significant in that it will likely change the scope or nature of the initial project or its environmental effects." (*Id.*) Of course, "if the future action is not considered at that time, it will have to be discussed in a subsequent EIR before the future action can be approved under CEQA." (*Id.*)

None of these conditions has been met in this instance. The Specific Plan Project, as defined in the FEIR, serves to provide a framework of guidelines and regulations with a roadmap for long-term growth consistent with the City's general plan. As specific projects evolve, such as changes to the Desert Fashion Plaza Renovation Project or the newly proposed "Event Area," the scope of the "project" should similarly account for subsequent modifications and project refinements, which would require additional environmental review, at a minimum. Nevertheless, the fact that the Downtown Project and the Desert Fashion Plaza Renovation Project were not reviewed in its entirety at the outset, but rather broken down into components to be separately reviewed at separate times, renders the Addendum and any prior environmental document upon which it is based per se inadequate.

///

///

III. THE INADEQUATE PROJECT DESCRIPTION IS INEXTRICABLY LINKED TO THE SPECIFIC PLAN PROJECT'S IMPROPER SEGMENTATION AND COMPLETE LACK OF ENVIRONMENTAL REVIEW WITH RESPECT THE DOWNTOWN PROJECT

CEQA defines "project" broadly to encompass "the whole of an action which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment." (*Planning and Conservation League, supra*, 180 Cal.App.4th at 235, quoting CEQA Guidelines § 15378(a) and (c).) This definition precludes "piecemeal review which results from chopping a large project into many little ones – each with a minimal potential impact on the environment – which cumulatively may have disastrous consequences." (*Planning and Conservation, supra*, 180 Cal.App.4th at 235 [citations omitted].)

Nevertheless, the City engaged in just such "segmentation" or "piecemealing" here. In 2009, the "project description" for the Specific Plan DEIR, as applied to the Downtown Project, is non-existent and sorely inadequate under CEQA. For instance, the DEIR generally alludes to project phrasing with no specificity as to what the individual phased projects would entail. Beyond vague references to "allow[ing] for the broadest range of development" and ballpark estimates of the anticipated square footage of projects classified by land use (and not when the projects would be constructed), no specific assertions are made as to the individual or cumulative impacts of these phased projects. (DEIR at p. I-12.)

Furthermore, the City made certain assurances to the public that it would undergo additional environmental review and conduct an initial study for the Desert Fashion Plaza Renovation Project to gauge whether additional environmental review was warranted. To date, no such evaluation has occurred. As a result, the Downtown Project cannot proceed without a project-specific environmental assessment.

IV. THE ADDENDUM DID NOT ALLOW ADEQUATE OPPORTUNITY FOR PUBLIC REVIEW AND COMMENT GIVEN THE SUPERFICIAL NATURE OF THE ENVIRONMENTAL REVIEW AS TO THE DOWNTOWN PROJECT

"Generally, the ultimate decision of whether to approve a project, be that decision right or wrong, is a nullity if based upon an EIR that does not provide the decisionmakers, and the public, with the information about the project that is required by CEQA." (*Planning and Conservation League, supra*, 180 Cal.App.4th at 241[cites omitted].) Just such absence of adequate public disclosure renders the Addendum, in this instance, a "nullity."

It is readily apparent that the FEIR for the Specific Plan Area provided inadequate public disclosure by setting forth nothing more than a wide-ranging plan for the systematic implementation of certain planning objectives and policies for a defined area. What the Specific

Plan FEIR and Addendum lack, however, is a sufficiently detailed accounting of the facts and environmental analyses needed to provide any meaningful evaluation of significant environmental impacts and the implementation of potential mitigation measures.

V. CONCLUSION

For the foregoing reasons, the City should reevaluate the scope of the Specific Plan FEIR, as applied to the Downtown Project, and provide supplemental review by way of a subsequent or supplemental EIR. Inconsistent with all of the primary CEQA objectives, the Addendum and FEIR for the Specific Plan, as adopted, not only fail to provide adequate notice to the public, but also fail to provide the City and interested parties with the information needed to thoroughly assess and mitigate avoidable environmental damage. As a result, the City's misplaced attempt to streamline the Downtown Project by inappropriately circumventing CEQA requirements for such a large-scale series of long-term phased projects constitutes a manifest injustice and must be remedied before the Downtown Project can proceed.

Very truly yours,

PLANNING COMMISSION
CITY OF PALM SPRINGS, CALIFORNIA
Council Chamber

3200 East Tahquitz Canyon Way, Palm Springs, California
www.palmspringsca.gov

AGENDA

Wednesday, November 28, 2012	1:30 PM Regular Meeting

CALL TO ORDER:

ROLL CALL:

REPORT OF POSTING OF AGENDA: Agenda is available for public access at the City Hall exterior bulletin board (west side of Council Chamber) and the Planning Services counter by 6:00 p.m. on Tuesday, November 20, 2012. A posting of this Agenda can be found on the City's website at: www.palmspringsca.gov. Pursuant to G.C. Section 54957.5 the designated office for inspection of public records in connection with the public meeting of the Planning Commission is the Office of the City Clerk, City Hall, located at 3200 East Tahquitz Canyon Way, Palm Springs, California.

It is the intention of the City of Palm Springs to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, or in meetings on a regular basis, you will need special assistance beyond what is normally provided, the City will attempt to accommodate you in every reasonable manner. Please contact the Planning Department, (760) 323-8245, at least 48 hours prior to the meeting to inform us of your particular needs and to determine if accommodation is feasible.

If any individual or group challenges the action in court, issues raised may be limited to only those issues raised at the Public Hearing described in this notice or in written correspondence at, or prior to, the Planning Commission meeting.

Please silence all cell phones, pagers and/or other electronic devices for the duration of the meeting.

ACCEPTANCE OF THE AGENDA: The Planning Commission will discuss the order of the agenda, may amend the order, note abstentions and request Consent Calendar items be removed from the consent calendar for discussion.

PUBLIC COMMENTS: This time has been set aside for members of the public to address the Planning Commission on Consent Calendar and other agenda items; and items of general interest within the subject matter jurisdiction of the Commission. Please note that the Planning Commission is prohibited from taking action on items not listed on the posted agenda. Three (3) minutes is allowed for each speaker. Testimony for Public Hearings maybe offered at this time or at the time of the hearing.

1. PUBLIC HEARING:

1A. Case 5.1290-PD361 – Applications by Wessman Development for a Tentative Parcel Map (TPM 36446) to subdivide a property of approximately 13.57 acres into 13 parcels for development and 4 lots for public infrastructure and Planned Development District (5.1290-PD361) for a hotel in excess of 60 feet in height as allowed under the provisions of Museum Market Plaza Specific Plan; Major Architectural applications (3.3605-MAJ, 3.3606-MAJ & 3.3607-MAJ) for Blocks A, b/b-1 and c/c-1 of the site. The site is located at the northwest corner of West Tahquitz Canyon Way and North Palm Canyon Drive. Zone Museum Market Plaza Specific Plan, Section 15. (Craig A. Ewing)

Recommendation: Open the public hearing, accept any testimony and continue the hearing to the meeting of December 5, 2012.

2. **DISCUSSION ITEM:** Time Extension Requests – New formats and requirements for the extensions of previously approved projects.

PLANNING COMMISSION COMMENTS: This portion of the meeting is set aside for brief general comments and/or other issues of concern from members of the Planning Commission.

PLANNING DIRECTOR'S REPORT: This time is set aside for the Planning Director to update the Planning Commission on important items initiated by staff or members of the City Council.

ADJOURNMENT: The Planning Commission will adjourn to 1:30 p.m., Wednesday, December 5, 2012, at 1:30 pm, City Hall, Council Chamber, 3200 East Tahquitz Canyon Way.

ADDED STARTERS: If there are added starters, action is required to determine eligibility for consideration.

CITY OF PALM SPRINGS

DEPARTMENT OF PLANNING SERVICES

MEMORANDUM

Date: November 28, 2012

To: Planning Commission

From: Craig A. Ewing, AICP

Subject: Downtown Palm Springs Project – Report on AAC Actions:
TPM 36446 / Tentative Parcel Map,
5.1290 PD 361 / Planned Development Permit, and
MAJ 3.3605, 3.3606, 3.3607 / Major Architectural Approvals

On Monday, November 26, 2012, the Architectural Advisory Committee (AAC) conducted its third meeting on the above applications. The following recommendations were adopted:

MAJ 3.3605 / Block A (between Andreas Road extension and Hyatt Hotel):
Motion by Jensen / second by Fauber / approved 6-0; to recommend approval, subject to standard conditions and the following conditions, to be accomplished prior to issuance of building permits:

1. Review by the AAC of exterior elevation details at 40% and again at 70% construction drawings, including the following additional information:
    a. All proposed colors, materials and finishes;
    b. Those portions of existing building to be removed and all new construction; and
    c. Details on building interface with Hyatt Hotel building and lobby;
2. Review by the AAC of conceptual landscape plan at time of 40% construction drawing review, with AAC review of detailed plans to follow;
3. Review by the AAC of exterior elevations for all individual tenancies;
4. Review by the AAC of landscape, lighting and hardscape plans, including all street furniture, subject to the following
    a. Seek expansion of landscaping areas from proposed 10% of site, and
    b. Use a variety of plant materials in landscape pallette;
5. Review by the AAC of street paving plans, and traffic movement patterns; and
6. Submission and review by AAC of a sign program for Block A.

MAJ 3.3606 / Block B (between "New Main" and Andreas Road extension):
Motion by Harlan / second by Thompson / approved 6-0; to recommend approval, subject to standard conditions and the following conditions, to be accomplished prior to issuance of building permits:

1. Building B-1 not approved, but continued for redesign;
2. Review by the AAC of exterior elevation details at 40% and again at 70% construction drawings, including the following additional information:
    a. All proposed colors, materials and finishes;
    b. Trash areas to be re-studied;
3. Review by the AAC of conceptual landscape plan at time of 40% construction drawing review, with AAC review of detailed plans to follow;
4. Review by the AAC of exterior elevations for all individual tenancies;
5. Review by the AAC of landscape, lighting and hardscape plans, including all street furniture, subject to the following
    a. Use a variety of plant materials in landscape pallette;
6. Review by the AAC of street paving plans, and traffic movement patterns; and
7. Submission and review by AAC of a sign program for Block B.

MAJ 3.3607 / Block C (south of "New Main", along N. Palm Canyon Drive only):
Motion by Harlan / second by Fauber / approved 6-0; to recommend approval, subject to standard conditions and the following conditions, to be accomplished prior to issuance of building permits:

1. Review by the AAC of exterior elevation details at 40% and again at 70% construction drawings, including the following additional information:
    a. All proposed colors, materials and finishes;
2. Review by the AAC of conceptual landscape plan at time of 40% construction drawing review, with AAC review of detailed plans to follow;
3. Review by the AAC of exterior elevations for all individual tenancies;
4. Review by the AAC of landscape, lighting and hardscape plans, including all street furniture, subject to the following
    a. Use a variety of plant materials in landscape pallette;
5. Review by the AAC of street paving plans, and traffic movement patterns; and
6. Submission and review by AAC of a sign program for Block C.

5.1290 / PD 361 / Hotel
Motion by Fauber / second by Thompson / approved 6-0; to recommend denial as submitted, with comments:

Vice-Chair Harlan:

Cannot support as presented due to building height and bulk; hotel does not support character of boutique hotels on S. Belardo (HTCNO); too similar to Tahquitz Canyon Way development; architecture not the same caliber as remainder of project.

Fauber:

Project should go forward; hotel size will change area character, but that doesn't make him uncomfortable; hotel height OK with new revisions; prefers transparent 'bridge'; hotel not ideal design.

Fredricks:

Project design not "ready"; use balloons to show building height; building materials should be first quality.

Jensen:

Hotel architecture not "ready"; needs story poles / balloons to show building height; needs greater emphasis on sustainability in design.

Thompson:

Supports hotel; likes proposed changes; height not an issue, but architecture should be more interesting; materials are of concern, but can be worked out.

Purnel:

Hotel architecture should be more eclectic within overall project.

CITY OF PALM SPRINGS

DEPARTMENT OF PLANNING SERVICES

MEMORANDUM

Date: November 28, 2012

To: Planning Commission

From: Craig A. Ewing, AICP

Subject: Downtown Palm Springs Project:
TPM 36446 / Tentative Parcel Map,
5.1290 PD 361 / Planned Development Permit, and
MAJ 3.3605, 3.3606, 3.3607 / Major Architectural Approvals

Introduction:

At the meeting of Wednesday, November 14, 2012, the Planning Commission received a staff report on Downtown Palm Springs Project, with specific attention given to the project's conformance with the development standards of the Museum Market Plaza Specific Plan. The Commission opened the public hearing on the project, following notification as required by law, and continued the hearing to November 28. The Commission also identified the following additional information that it wished to receive about the project and staff forwarded the list to the applicant that evening (see attached e-mail):

a. Modeling of the project within the larger downtown area (update the last sheet of today's handout with more accurate building volumes),
b. Photo-simulations of the proposed project from the east side of N. Palm Canyon Drive,
c. The agreement regarding the interim use of Block D for a public event venue,
d. Design options for the 'billboard' space on the hotel's elevation tower (east elevation),
e. Sightline studies for views, comparing the existing condition with proposed project,
f. The structural configuration of the underground parking,
g. Sun / shadow studies for the open space areas (Blocks B and C),
h. Anticipate vehicular traffic movement patterns (see Public Works for assistance).

At the time this memo was prepared, items "f" and "h" have been received and will be presented at the meeting. Other items may also be presented to the Commission.

As previously noted, the Planning Commission has been requested by the City Council to complete your review of the project so that the Council might begin its deliberations on December 19, 2012. To help achieve this, staff has prepared a report for this meeting to focus on the project's conformance with the design guidelines of the Specific Plan. The Commission now has the basic information it needs to take action on the requests. Staff will be prepared to offer draft resolutions for Commission consideration and action at your meeting of Wednesday, December 5, 2012, and set the stage for the Council's review.

This memorandum provides a discussion of the project in light of the design policies of the Museum Market Plaza Specific Plan, which governs the development of the property. These policies are for use by the AAC, Planning Commission and City Council to evaluate the proposal and more fully inform the Architectural Review findings of the Zoning Code (Section 94.04.D, attached).

Project Description:

As more fully described in your prior staff reports, the proposal is made up of five entitlements: A Tentative Parcel Map to reconfigure the site for development and financing purposes, three Major Architectural Approvals for the proposed buildings, and a Planned Development District for a hotel exceeding 60 feet in height.

Tentative Parcel Map No. 36446
The proposed tentative parcel map (TPM 36446) would create thirteen (13) parcels for future development and four (4) lots for public street right-of-way. The map is required to reconfigure the site for development and financing purposes. On November 19, 2012, the applicant submitted a revised tentative map and site plan which re-aligns "New Main" (see attached exhibit). These changes alter the proposed areas of Block B and C / C-1 and may also modify the setbacks and stepbacks for the buildings. At the time this memo was prepared, staff had not completed its analysis of the new plan's conformance with the development standards of the Museum Market Plaza Specific Plan. A new analysis will be provided at the meeting of November 28, 2012.

Major Architectural Approval 3.3605 / Block A
This site is located adjacent to the existing Hyatt Suites Hotel, fronts N. Palm Canyon Drive and extends to Andreas and Belardo Roads (both new). The block is presently developed with a portion of the Desert Fashion Plaza multi-tenant building and this structure is to be retained and repurposed for retail use. No new square footage is to be added to the existing one-story, 52,608 sf building. New exterior building facades are proposed and the interior will be demised to allow multiple retail and food service tenants. The building maintains a height of 28 feet and lot coverage of about 78% of

the block. The remainder of the site is divided between landscaping (10%) and paving (12%).

Major Architectural Approval 3.3606 / Block B

Block B is immediately south of Block A, fronting N. Palm Canyon Drive to the east, Belardo Road (new) to the west, and between Andreas Road (new) and a new street between N. Palm Canyon and the Palm Springs Art Museum. Two buildings are proposed, with a maximum of two-stories and 45 feet in height; they are proposed for use as retail, restaurant and office. The buildings are oriented in a north-south direction, each fronting either N. Palm Canyon Drive or Belardo Road (new). Between these buildings a private street ("Market Street") is proposed to provide vehicular and pedestrian access, but which can also be closed to traffic as a festival / event space. The buildings will cover about 66% of the site, with landscaping covering 25% and streets and paving 9%.

Major Architectural Approval 3.3607 / Block C

At the corner of W. Tahquitz Canyon Way and N. Palm Canyon, Block C is proposed to be divided into two projects. Block C-1 will include buildings ranging from one to three stories, with a maximum height of 52 feet. The buildings are oriented to W. Tahquitz Canyon Way and N Palm Canyon Drive, but also to the public open space in the middle of the Block. Uses will be retail, restaurant and office, totaling 57,050 square feet. Building coverage is 67% of this portion of Block C, with 26% landscaping and 7% paving.

Planned Development District PD 361 / Block C-1

A hotel is proposed on the westerly (back) half of Block C, with the entry fronting on W. Tahquitz Canyon Way. The main portion of the hotel runs along the east side of Belardo Road (new) and rises to a height of approximately 89 feet. Total square footage is approximately 140,272. The building footprint will cover about 51% of the site; landscaping will comprise about 26% of the site; and another 23% will be devoted to streets other paving.

Analysis:

The General Plan policies and zoning will be governed by the development standards and design guidelines of the Museum Market Plaza Specific Plan. An analysis of the project against the Specific Plan development standards was presented to the Commission on November 14, 2012. The Specific Plan's design guidelines (see attached) also must be considered by the Commission and they are presented below.

Architecture – General Provisions

The Museum Market Plaza Specific Plan discussion of architecture identifies certain general principles for the physical development of the site. The existing surrounding environment needs to be taken into account so that development achieves, "...sympathetic relationships between the new buildings and the existing adjoining

developments..." The blocks of the Specific Plan must be "...clearly identified by a coherent visual identity." Lastly, the Specific Plan calls for a, "...unified, distinctive and adaptable urban design concept, that is based on versatile design principles..."

The "sympathetic relationships" objective appears to be generally met by the project as the edge of the blocks fronting N. Palm Canyon Drive are proposed to be one story buildings, with the exception of the three story corner building in Block C, at Palm Canyon and "New Main". The major challenge is the height of the hotel along West Tahquitz Canyon Way, where the six-story building is setback from the street curb about 30 to 35 feet. Adjacent existing development includes the three-story Palm Mountain Resort & Spa at the southwest corner of Tahquitz and Belardo, but directly south is a surface parking lot serving the Oasis mixed use commercial building (southwest corner W. Tahquitz Way and S. Palm Canyon Drive). The overall plan respects the scale of development along Palm Canyon Drive and at the corner of Palm Canyon Drive and Tahquitz Canyon Way, but the hotel presents a significant mass close in to Tahquitz at Belardo Road..

The "coherent visual identity" objective is met in part by the grid of small, urban-scale blocks provides a repetitive block pattern along N. Palm Canyon Drive. Further, distinctive street paving will enhance a visual identity of the site. Finally, the landscape and street furniture plans have the potential to confirm a coherent visual identity, and should be reviewed with that goal in mind. Meanwhile, building architecture is not seen as fulfilling this objective as the elevations and building façades are proposed to vary throughout the site.

The last overall objective is to establish a "unified, distinctive and adaptable urban design concept". Since "unified" and "distinctive" are potentially conflicting ideas, the question is whether the sum of the projects' design elements provide meet the objective in a coherent, successful way. As noted above, the block pattern, streetscape and landscape should contribute to a unified look and should be sufficient for that purpose. Distinctiveness should be achieved through building architecture, materials, finishes and colors. The building elevations on Blocks A, B and C provide distinctive looks within a contemporary genre, but it is unlikely that upon completion the present design will be read as anything but a single project. The ability of buildings' to "learn" over time should mitigate this, as new tenants modify individual façades for their own branded look.

The last part of the objective is "adaptable", which has to be taken into consideration within the context of buildings which will have a life of thirty to fifty years. This proposal provides adaptability in the storefront elevations that will be modified by individual tenants, the open courtyards and Market Street that are available for outdoor uses and the flexible use of Block A as a new-styled multi-tenant retail complex.

Architecture – Building Height, Scale and Massing

The Specific Plan recognizes that the site is intended for "...an intensive level of development...", but that the pedestrian experience requires buildings to be

"...designed to the human scale with active, pedestrian friendly frontages." View corridors and public and private open spaces are to be provided throughout. An average maximum height of 60 feet is to be maintained, although hotels may exceed 60 feet. Most significantly, building elements must be varied to reduce the appearance of mass and avoid "cliff-face" frontages. Guidelines for individual blocks are also identified, and discussed below.

The pedestrian-level objectives are generally met by the project as one-story buildings predominate along N. Palm Canyon Drive and the internal street frontages are primarily retail and restaurant spaces. Necessary "back-of-house" and service entries are minimized. View corridors along the internal east-west streets are provided. Public and private open spaces are found on Blocks B and C, with the existing building on Block A retained and re-purposed to including interior public circulation, including connection to the abutting Hyatt Hotel.

Overall height of the three blocks is maintained at an average less than 60 feet, including the hotel in Block C which has a maximum height approaching 90 feet. However, the proposed hotel presents a tall façade at Tahquitz Canyon Way as well as a six-plus story building mass along Belardo. The architecture mitigates some of the building's height so that it does not appear "cliff-faced", but its overall volume is remains pronounced. Given the developer's expressed need for a hotel of 185 rooms to support the remainder of the project and the goals of creating pedestrian-friendly street frontages and useful open spaces, the design and placement of the hotel is the project's primary trade-off within the Specific Plan's design guidelines proposed by.

Block A
The massing of Block A buildings is required to respect of the Hyatt Hotel to the north. The existing mall building is to be retained, maintaining the existing relationship with the hotel's south elevation, and no changes are proposed here. The three street elevations are arranged with retail and restaurant facades "frames" that are oriented to pedestrian uses and available for future tenant customization.

Block B
The Specific Plan's approach to Block B has been modified by this proposal and the Council's conformity review of October 17, 2012. Consequently, the development of Block B with two two-story buildings and a private alley should be evaluated in light of the overall plan's scope. The one-story portion facing N. Palm Canyon Drive is respectful of the scale of development along the street, and the two story portion is setback significantly. The overall scale and placement of the Block B buildings is an appropriate transition between Block A and C; however the westerly building encroaches into setbacks and rights-of-way and is recommended for redesign.

Block C
Stepped frontages and massing "concentrated toward the center" are required in order that the volume of the larger buildings respects the surrounding streetscapes and

development intensities. This is achieved along Palm Canyon in Block C, with the exception of a three-story building at the corner of Palm Canyon and "New Main" providing a modest landmark statement. As previously noted, the proposed hotel does not meet the guidelines for avoiding significant building mass along the street edge. Neither does it step back from Tahquitz Canyon or Belardo, nor concentrate that mass toward the center. Also previously noted, this arrangement allows for the lower, pedestrian-oriented buildings along Palm Canyon and the internal streets; for the open spaces within Blocks C and B; and for the size of hotel identified as necessary to support the project.

Architecture – Architectural Style and Treatment

Recognizing that Palm Springs' existing downtown development is an eclectic mix of styles, the Specific Plan also states that new development should be "of its time, using contemporary designs of a scale and form reflective of locally distinctive models." The challenge noted by the Specific Plan is to provide variations on a consistent architectural theme, with a variety of detailing and materials; the buildings should not be too "idiosynchratic".

Additional objectives include incorporating a sustainability paradigm, a response to the demands of the desert climate, and the sensitive treatment of street fronts. More specific direction is provided to assure the recesses and revieals provide shade and visual interest, including building projections, covered walkways and arcades. Buildings situated at important intersections should receive special treatments.

Overall, the project achieves the stated objectives. A contemporary style is adopted throughout the project, without the introduction of artificial variety (such as Mission Revival or Art Deco segments). The elevations at the street level as well as on the upper floors are composed of a variety of materials and colors arranged with slight variations in scale, massing, and repetition. The architecture supports the underlying objective of most downtowns: Providing "safe discovery" for pedestrians moving among the small blocks of shops and restaurants.

Architecture – Storefronts

According to the Specific Plan, storefronts should be "visually permeable", with clearly-defined entrances. While detailed storefront designs will be provided by individual tenants in the future, the elevations proposed for the retail and restaurant buildings show significant glazing and flexible "frames" for future tenant use.

Architecture – Building Materials

Exterior building materials are to be provided from a "rich palette of complementary materials and finishes." The Specific Plan also notes that the intense level of development contemplated for the area requires that building facades be "softened" by surface treatments. The deliberate and coordinated use of colors, materials, textures and glazing should aim to visually reduce building mass, create shadow effects and promote a sense of permeability and spaciousness.

The project includes color / material boards for each block that provide coordinated, but varied palettes of muted colors for the main stucco finishes with stone, tile, aggregates and metals used for accents and highlights. for the four main developments (Block A, Block B, Block C and the hotel). The colors are muted desert colors, with coordinated accents, and materials include tiles and metal to add interest. It is expected that the ground floors will present more diverse and energized elevations, especially once tenants propose their specific storefront designs. Upper levels should be more subdued to achieve the 'softening' contemplated by the Specific Plan. Overall, the color and material boards achieve the Plan's objectives.

Connectivity, Streetscapes, Open Spaces

The Museum Market Plaza Specific Plan recognizes that the configuration and design of streets and passageways are vital to assuring full use of the downtown area by pedestrians and drivers. East-west linkages are especially important and the Tentative Parcel Map and proposed site plan provide an extension of Andreas Road, as well as a new "Main" street to penetrate the site. "New Main" Street's western terminus in front of the Palm Springs Art Museum will provide a formal and dramatic visual connection between N. Palm Canyon and a major community institution and architectural landmark.

The extension of Belardo Road through the site (north-south) further develops the idea of a downtown by creating small blocks for increased retail frontage and pedestrian access. Outdoor passageways within Blocks B and C and the indoor passage in the Block A building further enhance opportunities for exploring the area and creating the hierarchy of streets and pedestrian linkages called for in the Plan.

The importance of off-site views is highlighted in the Specific Plan as, "...existing view corridors are protected and new ones created." The new east-west streets provide for enhancement of existing and new views, with street trees providing a frame as called for in the Plan. The proposed arrangement of one-story buildings and six-plus story hotel is expected to have a mixed impact on views, depending on the location of the observer. By eliminating major portions of the existing Desert Fashion Plaza, the plan is anticipated to open up some views that did not exist before, while reducing others somewhat.

Street design treatments are to provide "...a strong sense of continuity and place..." Consistent with the Plan's direction, sidewalks are provided on the streets and internal open spaces, "...to accommodate a variety of compatible outdoor activities and thereby extend the hours of active use." Most sidewalks are at least 8-feet wide, and internal passageways range in width from ten (10) to eighty (80) or more feet. While street treatments and furnishings are not specifically identified, the applicant has indicated that pavers and other decorative treatment will characterize the streets and that asphalt concrete will be minimal. These treatments will provide the unifying character to the area as the buildings and open spaces provide unique shopping and dining experiences, storefront-by-storefront and block-by-block.

Connectivity – Public Open Spaces

The Specific Plan's discussion of Block B highlights its role in the Plan's vision of a central public gather place. The City Council's October 17, 2012 conformity determination of the current site plan postpones this vision for the current renovation plan. The distinctive sense of place that is to be anchored by the public plaza is now achieved by other means: The Market Street in Block B, the pedestrian corridor from the Hyatt to the corner of Palm Canyon and Tahquitz and the use of Block D as an interim outdoor event space (not a part of the current entitlements).

Landscaping

Landscape guidelines in the Specific Plan focus on assuring that landscaping adds to the area's high-quality design, while respecting the desert setting and the need to be drought-tolerant. The choice of landscape materials must also consider the "vertical dimension" in the use of palm trees, as well as trees that will provide shade. The Specific Plan calls for the establishment of three landscape zones: 1) The Streetscape Zone, with palm trees predominating along the streets (to emulate those on Palm Canyon Drive), 2) The Transition Zone with a greater variety of shade trees and shrubs on secondary streets (Market Street), and 3) The Open Space Zone, where the widest variety of plants is used in the plazas and public spaces.

Further, landscaping is supposed to highlight and enhance focal points, including a Major Focal Point at Museum Drive and New Main (called Museum Way in the Specific Plan). Minor Focal Points (Palm Canyon and New Main, Belardo and New Main, and Andreas and Belardo) must also be give special attention. Finally, the Specific Plan provides a recommended landscape palette from which a landscape plan should be developed. While only a conceptual landscape plan has been submitted, it appears to achieve the goals of the Specific Plan. More detailed landscaping needs to be presented before a final action is taken by the City.

Street Furniture, Lighting and Art

As a vision for a pedestrian-oriented area, the Specific Plan recognizes that "Well-designed street furniture, lighting and public art enliven townscape character and contribute to a strong sense of local identity." As with other design elements, street furniture, lighting, and art should be selected to support the overall identity of the planning area, yet also providing variety and distinctiveness. No plan for these elements has been presented, and detailed specifications and plans will be needed prior to final action.

Recommendation:

The Commission may close the hearing and discuss the project. Any actions on the applications should be in the form of motions to direct staff to prepare draft resolutions; these would be available for final action at your meeting of December 5, 2102.

Subject: Requirements for 11/28 Planning Commission - Downtown Palm Springs

Michael,

Based on today's meeting, we will be seeking from you by noon, Tuesday, November 21 the following items:

1. **Modeling of the project within the larger downtown area (update the last sheet of today's handout with more accurate building volumes),**
2. **Photo-simulations of the proposed project from the east side of N. Palm Canyon Drive,**
3. **The agreement regarding the interim use of Block D for a public event venue,**
4. **Design options for the 'billboard' space on the hotel's elevation tower (east elevation),**
5. **Sightline studies for views, comparing the existing condition with proposed project,**
6. **The structural configuration of the underground parking,**
7. **Sun / shadow studies for the open space areas (Blocks B and C),**
8. **Anticipate vehicular traffic movement patterns (see Public Works for assistance).**

Thank you,

- **Craig A. Ewing, AICP**
- **Director of Planning Services**
- **City of Palm Springs**

94.04.D. Planning Commission Architectural Advisory Committee Review Guidelines.

The planning commission architectural advisory committee shall examine the material submitted with the architectural approval application and specific aspects of design shall be examined to determine whether the proposed development will provide desirable environment for its occupants as well as being compatible with the character of adjacent and surrounding developments, and whether aesthetically it is of good composition, materials, textures and colors. Conformance will be evaluated, based on consideration of the following:

1. Site layout, orientation, location of structures and relationship to one another and to open spaces and topography. Definition of pedestrian and vehicular areas; i.e., sidewalks as distinct from parking lot areas;

2. Harmonious relationship with existing and proposed adjoining developments and in the context of the immediate neighborhood/community, avoiding both excessive variety and monotonous repetition, but allowing similarity of style, if warranted;

3. Maximum height, area, setbacks and overall mass, as well as parts of any structure (buildings, walls, screens, towers or signs) and effective concealment of all mechanical equipment;

4. Building design, materials and colors to be sympathetic with desert surroundings;

5. Harmony of materials, colors and composition of those elements of a structure, including overhangs, roofs, and substructures which are visible simultaneously;

6. Consistency of composition and treatment;

7. Location and type of planting, with regard for desert climate conditions. Preservation of specimen and landmark trees upon a site, with proper irrigation to insure maintenance of all plant materials;

8. Signs and graphics, as understood in architectural design including materials and colors;

9. The planning architectural advisory committee may develop specific written guidelines to supplement the design criteria and carry out the purposes of this chapter.

F. Design Guidelines

1. Architecture

a. General Provisions

Consistent with the requirements and recommendations of the General Plan and the Downtown Urban Design Guidelines, all development within the Specific Plan area will complement the distinctive, eclectic townscape character that has made Palm Springs nationally and internationally famous. The existing built form and characteristic townscape spatial arrangements, together with the startling local topography, have created a unique environment that provides all users with a well-defined sense of place.

The northwest corner of the area contained within the Specific Plan fronts open space, but other than that, the Specific Plan addresses an area that is bordered on all sides by existing urban development. Achieving sympathetic relationships between new buildings and the existing adjoining developments will therefore be fundamental to the successful integration of forthcoming development into the wider context.

The Specific Plan area will be known as the Museum Market Plaza and its component blocks must be clearly unified by a coherent visual identity. An encompassing visual identity creates an essential sense of place and all design elements must work together to reinforce an underlying perception of continuity. The formulation of a unified, distinctive and adaptable urban design concept, that is based on versatile design principles and can, while retaining integrity, lend itself to interesting variations in application, detail and materials, is therefore an essential element of the Specific Plan.

b. Building Height, Scale and Massing

The Specific Plan allows for an intensive level of development, where careful attention to appropriate building height, scale and massing will be essential. The area is pedestrian oriented and all buildings should be sensitively designed to the human scale with active, pedestrian friendly frontages. Each of the component blocks must be effectively permeated with public and private open spaces, allowing view corridors to and from the public domain and thus avoiding the creation of an overwhelming and impenetrable built form. Within each block, individual buildings must be treated with care and consistency.

With the exception of Block K, all Blocks within Specific Plan are defined as Central Core in terms of the Palm Springs Downtown Urban Design Guidelines. In accordance with the recommendations of the Guidelines, this Specific Plan allows for an average maximum building height of 60 feet. However, with sympathetic massing and effective architectural treatment to visually reduce building bulk, hotels may exceed 60 feet, subject to City Council approval. The

design of the buildings, and the layout of the Specific Plan area, is intended to implement the goals of the General Plan, to create a new mixed use center of Palm Springs.

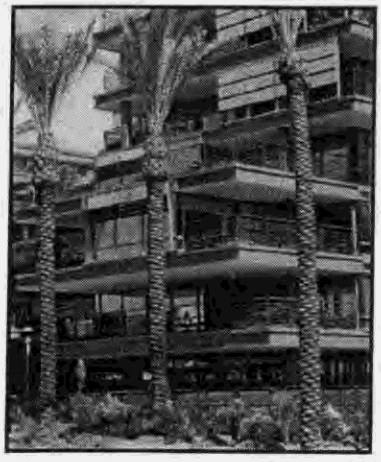
Building elements throughout the Specific Plan must be varied to include stepping down so that the apparent mass of the building is reduced, austere 'cliff-face' frontages avoided, and view corridors created.

In addition to conforming to the requirements concerning building height and stepped frontages, massing of the buildings in Block A must also respect the presence of the existing building to the north, the largely open space of the Plaza to the south and the hierarchy of streetscapes to either side.

Block B provides the public open space for the Plaza and the built form should therefore remain entirely subordinate to that of the blocks abutting, allowing views across the Plaza in all directions. So that the unimpeded views and predominance of landscaping that typically characterize public open spaces can prevail, buildings shall be visually permeable and not exceed one story in height. They are limited to a maximum total area of 3,000 square feet and should be massed to the east and west of the block, gently framing a central open space.

Buildings included in Block C should conform to the requirements concerning building height and stepped frontages, with massing concentrated towards the centre. Sympathetic massing of the new built form will also respect the spatial characteristics of the Plaza to the north, the surrounding hierarchy of streetscapes and the modest levels of existing development to the southwest of the block.

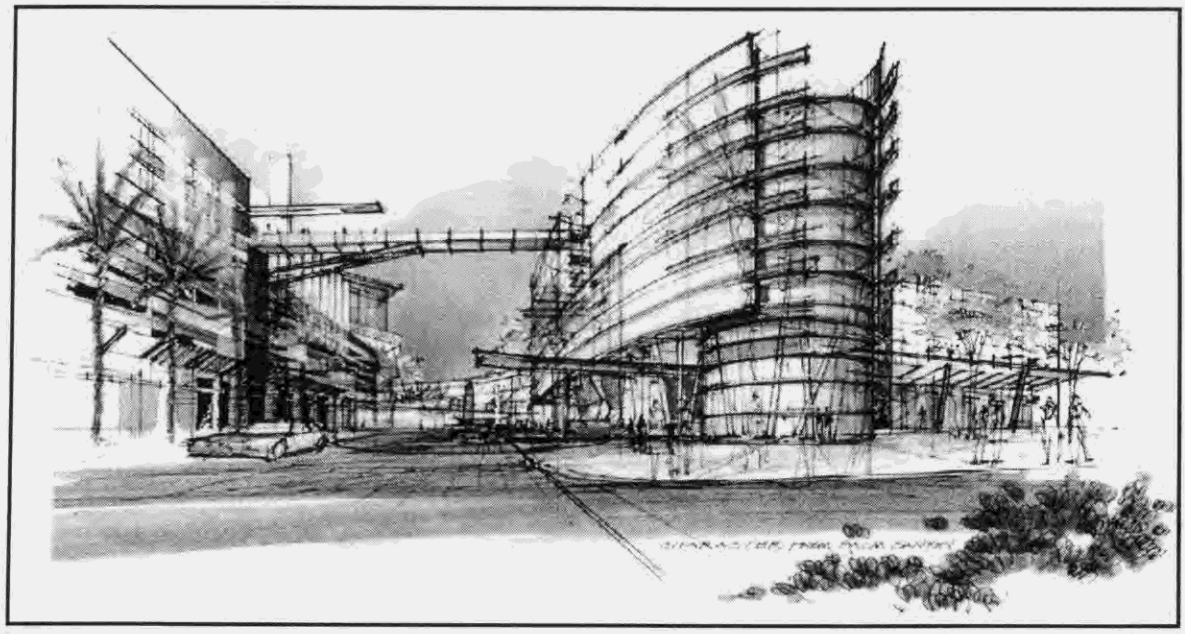
The blocks defined as D and F may be developed together as one block, or as two blocks divided by a central access route, and with limited exceptions, the standard constraint on building height will apply, together with the requirement for stepped frontages. If developed as one block, massing should be concentrated away from Tahquitz Canyon Way, and pedestrian and visual permeability must be included so that the creation of an impenetrable and overtly urban mega-block is avoided. If the two blocks are separated by the introduction of a parking access drive, massing of the component buildings will require careful consideration so that the creation of an uninviting, alley-like access route is avoided. Sympathetic massing of the new built form will respect the spatial characteristics of the Museum and open areas to the west, as well as the surrounding hierarchy of streetscapes.



For the purposes of the Specific Plan, Blocks E, G and H are discussed as a single entity. However, with sympathetic massing and effective architectural treatment to visually reduce building bulk, elements to the north and west of the block may be

developed as a hotel to a height exceeding 60 feet, subject to City Council approval. To the north east of Block E, G and H, built form of approximately 75 feet in height already exists and its well-articulated frontage provides an effective edge to the open space of the golf course. Subject to sensitive architectural treatment, the new built form will continue the adjacent well-defined edge along the northern frontage of Block E, G and H. Massing of the new development towards the north and northwest of the block also results in it having minimal impact on any of the significant streetscenes within the Specific Plan. To avoid the creation of an impenetrable and overtly urban mega-block, effective massing of the new built form will include ample provision for visual and pedestrian permeability.

Another potential exception to the 60-foot height limit may be at Block K, where subject to City Council approval, additional building heights may be developed. Increased building height at



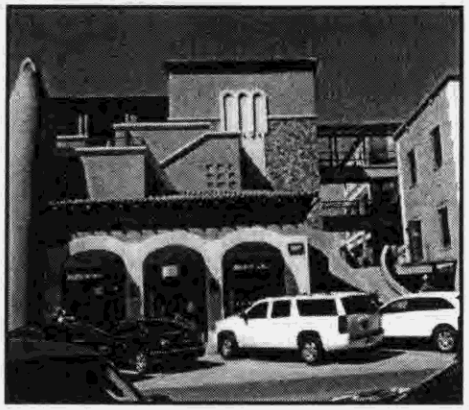
Block K will result in the new built form providing visual continuity between the constrained level of development allowed to the west and the intensive levels of existing and proposed development in Section 14, to the east, including the new proposed Spa Hotel and Hard Rock Hotel, both proposed at 100 feet in height. Block K includes a private street that provides east-west permeability and connects the areas to the east of the Specific Plan with the new Plaza and the existing Museum. The fragmented nature of the block presents challenges in terms of achieving sympathetic massing, as all street frontages should be designed to the human scale and the existing modest levels of development at abutting sites must be respected.

Exhibit III-2: Cross Sections with stepbacks.

c. Architectural Style and Treatment

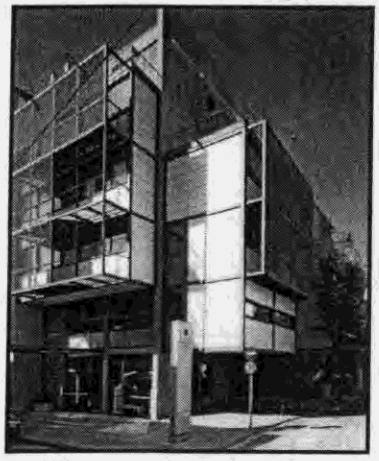
Eclectic Architecture is a defining feature of Downtown Palm Springs and while renown for its uniquely Californian Modernist buildings, the area is also rich in interesting examples of Spanish and Mediterranean styles.

Where the distinctive character of an area derives from its diversity of development over many decades, new built form that merely replicates previous styles is counter to the way in which the area has evolved. New development, while contextual, should therefore be of its time, using contemporary designs of a scale and form reflective of locally distinctive models.



Aside from landmark buildings, most buildings forming part of a streetscape do not need to be idiosyncratic. Too many buildings of individual dominance and distinction compete with each other and create urban chaos. A more harmonious townscape is achieved by using variations on a consistent architectural theme, with variety in the detailing and materials.

With reference to the City's legacy of Modern, Spanish and Mediterranean styles, a forward-looking architectural theme recognizing a new sustainability paradigm is the primary direction for future development in the Specific Plan area. The theme seeks to encourage architecture that builds on Palm Springs' tradition of responding to the demands of a desert climate, but with new respect for minimizing energy and materials use in construction and occupancy. New design esthetics will be needed to incorporate solar control, passive energy production (solar and wind), and wireless technologies with time-honored concerns for pedestrian entries, security and orientation, building function, view preservation and visual appeal in the manipulation of form, materials and color. Particular attention to the sensitive treatment of the street front forms a core objective within the unified Urban Design concept. Together, these principles will provide the Museum Market Plaza area with a cohesive and distinctive character. Within this overall architectural theme, interesting variation in rooflines, elevational articulation, detailing and materials will be needed to create a richly textured built environment. Recesses and reveals that provide shade and create shadow lines, such as building projections, covered walkways, colonnades, arcades, and other human scale openings shall be included to reduce the impact of building mass and create visual interest. The means of enclosure



to courtyards and balconies shall be visually permeable where appropriate and the stepping back of upper floors will also be utilized to further reduce the visual impact of building mass and maximize view corridors.

In accordance with the prevailing architectural theme, buildings are to be clearly legible with active main frontages and well-defined entrances. All elevations of a building shall be consistently treated, and rooftop mechanical and electrical equipment must be screened as an integral part of the architectural treatment.

Buildings situated at important intersections should receive special treatments. The inclusion of architecturally definitive features and corner cut-backs assists in the creation of a distinctive sense of place, as well increasing opportunities to create useable outdoor public spaces.

Block K will accommodate an architecturally inspired landmark building that will be the 'Flagship' of the Museum Market Plaza. In its location at the eastern end of the new east-west thoroughfare, it will form a balanced counterpart to the Palm Springs Art Museum building located at the western extreme of the new street. Although standing alone as a landmark building, its architectural treatment will complement the architectural theme prevailing throughout the Museum Market Plaza. In addition to the frontages enclosing the private street that bisects block K, the building will have two major street frontages and distinctive 'gateway' features must form an integral part of the architectural treatment of both the eastern and western facades.

Special architectural treatments will also be required for the western and northern elevations of the buildings included in Block EGH, and the western elevation of Block DF. While consistent with the prevailing architectural theme, western elevational treatments should defer to the presence of the adjacent Art Museum building and relate to the public open space immediately in front of it. Effective articulation of the northwestern and northern frontages of Block EGH will be essential to reduce the visual dominance of the tall building.

Parking structures at street level have a potential to result in austere and impermeable frontages. While consistent with the prevailing architectural theme, they will require special design treatment to minimize the impact of the structure on the pedestrian experience. Parking structures must be visually permeable and include 'designed-in' safety features. Elevations require effective articulation, incorporating projections, recesses and interesting combinations of materials to avoid the creation of continuous, harsh frontages. Parking structures must also have well defined entrances, easy access and legible interior spatial arrangements to invite consistent usage.

Exhibit III-3
Architectural Treatments

d. Storefronts

Well-designed storefronts make a significant contribution to streetscape character and assist in the creation of lively frontages. The pedestrian experience is enhanced by visually permeable, largely glazed storefronts that minimize the division between interior and exterior space, and allow interesting views of inviting interiors. Clearly defined and easily accessible entrances create active frontages and draw people into the store, while visually permeable design treatment allows the interior of the store to function as an extensive display area at all hours, thereby maximizing economic opportunities for vendors.

Essential security equipment must be inconspicuously located so that the creation of a hostile atmosphere is avoided. If permitted, security grilles must be internally mounted, fully retractable during trading hours and visually permeable when in use after the store is closed.

While allowing flexibility for individual distinctiveness, shopfront design should be compatible with the Museum Market Plaza architectural theme and reflect the appearance and scale of the building above.

e. Building Materials

Designed as an integral component of the Museum Market Plaza architectural theme, a rich palette of complementary materials and finishes will create subtle continuity throughout the area by visually linking eclectic architectural styles. While consistent with the broader theme, it is essential that materials, colors and finishes are appropriate to the architectural style of individual buildings.

The Specific Plan allows for an intensive level of development and building facades must be softened and articulated by the innovative use of a harmonious range of surface treatments. In addition to visually reducing building mass, interesting variety in color and material assist in the creation of a lively townscape. Intense sunshine is a prevailing feature of the Palm Springs environment and textured surface finishes on which interesting shadow effects can be achieved will contribute much to distinctive local character. Wide expanses of glazing blur the distinction between interior and exterior space, promoting an essential sense of permeability and spaciousness long associated with the Palm Springs townscape.

2. Connectivity, Streetscapes, Open Spaces

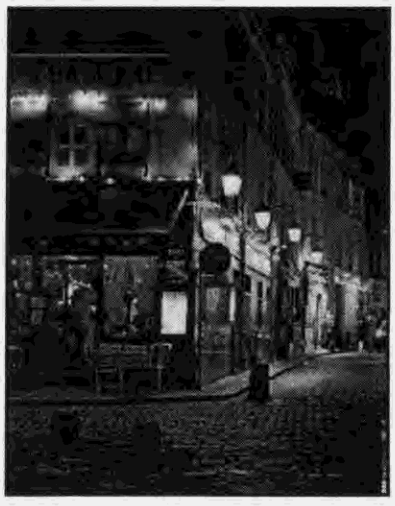
a. Connectivity and Streetscenes

Streetscape character has a fundamental impact on the vitality of downtown by either encouraging or deterring pedestrian activities and a legible, well defined hierarchy of streets and pedestrian links, connected by a sequence of versatile public open spaces, effectively permeates the Specific Plan.

East-west connectivity is facilitated for both vehicles and pedestrians. Upgrading the streetscape of Andreas Road and introducing a street that bisects block K and continues through to the Art Museum will enhance connectivity to and from Section 14, as well as providing an opportunity to form several definitive intersections. The existing link between Museum Drive and Belardo Road is not essential to successful circulation, and subject to an appropriate design solution, severance of the two could occur.

Permeating the blocks included in the Specific Plan with well-designed pedestrian connections avoids the creation of overwhelmingly urban mega-blocks, adds visual interest to the streetscene and encourages pedestrian activity. The design treatment of pedestrian links, both within the Plan Area and to adjacent development, forms an integral part of the Museum Market Plaza Urban Design concept, creating inviting, multi-purpose spaces of distinctive character that include 'designed-in' safety features.

View corridors have contributed much to the unique townscape character of Palm Springs. The mountains form a spectacular backdrop to the City and downtown streetscenes offer distinctive longitudinal views, where the vertical rhythm of the mature palm trees acts as an effective foil to the general horizontality of the built form. In terms of preserving local distinctiveness, it is important that existing view corridors are protected and new ones created. As building heights within the Specific Plan generally exceed those previously existing, it is essential that architectural elements and building components be varied and reduce the overall perception of mass, resulting in graduated frontages that allow generous view corridors. A particularly definitive local view will be created by the opening of a new east-west street that allows tree-framed views in both directions. Views to the east will extend to the startling focal point of the new building and views to the west will include the iconic Art Museum, with the mountain behind. The new street will also be the starting point of an interconnected town center extending from the Museum, through the new Spa Resort and Casino, and to the Hard Rock Hotel and Convention Center.



In accordance with the Museum Market Plaza Urban Design concept, streetscapes should be characterized by consistent, but adaptable, design treatments so that a strong sense of continuity and place is achieved. Component spaces of special use or interest can be individually defined by a complementary variety of detailing and material. Major vehicle and pedestrian routes within the Specific Plan shall be enclosed by active frontages, with sidewalks designed to accommodate a variety of compatible outdoor activities and thereby extend the hours of active use. Consistent with the Urban Design concept for the Museum Market Plaza, a full range of features and amenities to

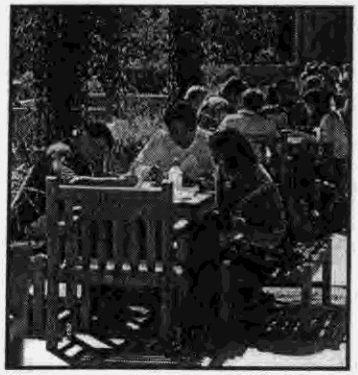
enhance the pedestrian experience and encourage pedestrian activity shall be incorporated into the design of sidewalks and other public open spaces (see Section III.4 Street Furniture). Parking structures at street level have a potential to result in austere and impermeable frontages and the sidewalk fronting a street level parking structure will require sensitive design treatment and landscaping to soften the visual impact of the parking structure.

Within the Specific Plan, a hierarchy of definitive intersections is to be created. Street surfaces at selected intersections will be given visual definition by the introduction of special surface finishes, while landscaped sidewalk projections or 'bulbs', together with building corner cutbacks, will create useable public open spaces and contribute to a more pleasing pedestrian experience. All design treatments will be consistent with the unified Urban Design concept, with special interest and variety being achieved in the detailing. Key definitive intersections should be created at all four corners of the Main Plaza and at the junctions of Tahquitz Canyon Way with Belardo Road and North Palm Canyon Drive. Secondary definitive intersections may be created at other minor intersections within the Specific Plan area. A visual link between the Museum Market Plaza and the Section 14 district immediately to the east should be achieved by the introduction of special street surface finishes to Indian Canyon Drive, at the gateway to the new connector through Block K. This will draw the attention of drivers to the gateway as well as encouraging pedestrian circulation between the two areas.

Exhibit III-4: Open Spaces

b. Public Open Spaces

The Main Plaza, occupying Block B fulfills the need for a public gathering place in the Specific Plan area. Successful, pedestrian oriented open spaces have clearly defined edges, are well connected by being situated adjacent to, but not on, main movement spaces and they are well integrated into the surrounding urban fabric. The Main Plaza is centrally located between North Palm Canyon Drive and Belardo Road, thereby linking two important north-south routes and providing east-west connectivity. The area is effectively enclosed by the surrounding blocks and its spatial characteristics provide opportunity for extended and varied uses. The Main Plaza is fundamental to the creation of a distinctive sense of place and it will be a definitive space, forming the nucleus of the Museum Market Plaza. Design and detailing must be consistent with the wider Urban Design concept and the Main Plaza will include a distinctive central focal point, such as a commanding piece of art or water feature, creative landscaping and a wide range of amenities to facilitate pedestrian activities. Built form within the Plaza will remain limited and subordinate; wide views should exist in all directions.



Public gathering spaces on a smaller scale will also be created in front of the Art Museum and in the center of Block K. The two secondary open spaces will form an integral part of the significant view corridor that will exist between the Art Museum to the west and the Block K buildings to the east. The design treatment of the two spaces will complement that of the Main Plaza so that a clear hierarchical relationship between the open spaces within the Museum Market Plaza is evident and continuity of theme maintained.

c. Common Open Space in Residential Projects

Common area open space for residential projects is intended to provide opportunities for views within the blocks to the surrounding mountains and streetscene. When designed in conjunction with building articulation, the aesthetic effect will be improved for residents and visitors alike. Permeating the built form with interesting and sensitively designed open spaces prevents the creation of continuous frontages and overwhelming urban 'mega-blocks', while facilitating the safety of users by allowing spontaneous observation.

The domestic use of common open spaces in residential projects must be reflected in spatial proportions to the human scale and in gentle means of enclosure that, while providing residents with an essential level of privacy, allow landscape features and a sense of spaciousness to prevail. Design treatments must be consistent with the wider urban design concept and result in lively and inviting common spaces that complement the architectural style of the adjacent buildings and encourage appropriate use.

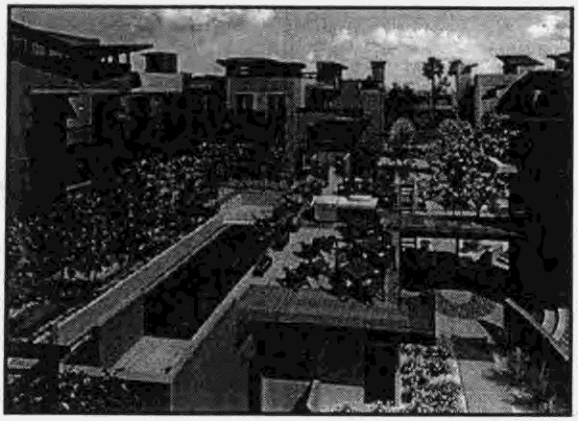


Exhibit III-5: Conceptual Master Landscape Plan

3. Landscaping

Highly defined landscaping is an essential part of achieving quality design within the Museum Market Plaza Specific Plan, and will have a profound effect on the quality of life enjoyed by residents and visitors. Development of this landscape plan has been guided by a variety of considerations, including the natural and developed setting within which the planning area occurs.

The Specific Plan landscape plan has been designed to be compatible and consistent with the local setting as well as the Downtown Design Guidelines. Landscaped open space areas that are responsive to desert conditions, utilizing thoughtful and creative designs that limit water demand and are in harmony with the natural setting. The master landscape palette includes a variety of drought tolerant and native species.

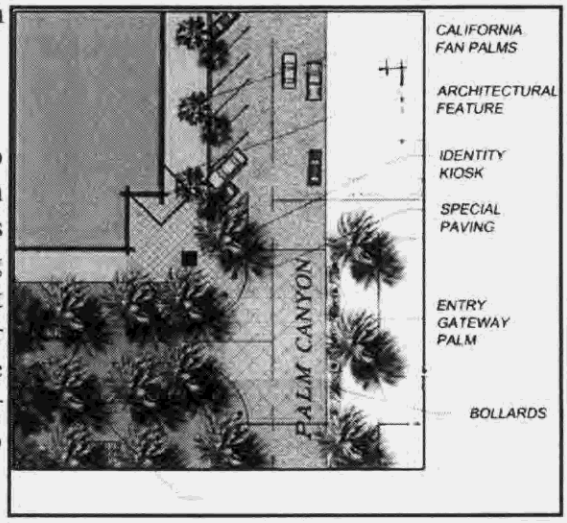
Use of landscaping throughout the site to provide connectivity linking all residential, commercial and mixed-use areas. Open space areas provide for pedestrian and bicycle access and connect to the hotels and Convention Center to the east.

Landscaping will be utilized as a functional design element within all planning areas. Landscape treatments and enhancements are designed to maximize the use of native desert and compatible drought-tolerant planting materials. Landscape plans will address water erosion issues and must demonstrate the water efficiency gained from plant and irrigation system selection.

To accomplish the design objectives, landscape elements will incorporate vertical dimension. Fan palms, date palms, acacia and Rhus lancia are appropriate trees within the project. Trees can also be used to provide shading and cooling. Use of trees shall take into careful account the viewsheds, as well as that rightfully enjoyed by adjoining properties.

The conceptual Master Landscaping Plan for the Museum Market Plaza is shown in Exhibit III-5. The Museum Market Plaza is divided into a series of Major and Minor Entries, and Major and Minor Focal Points.

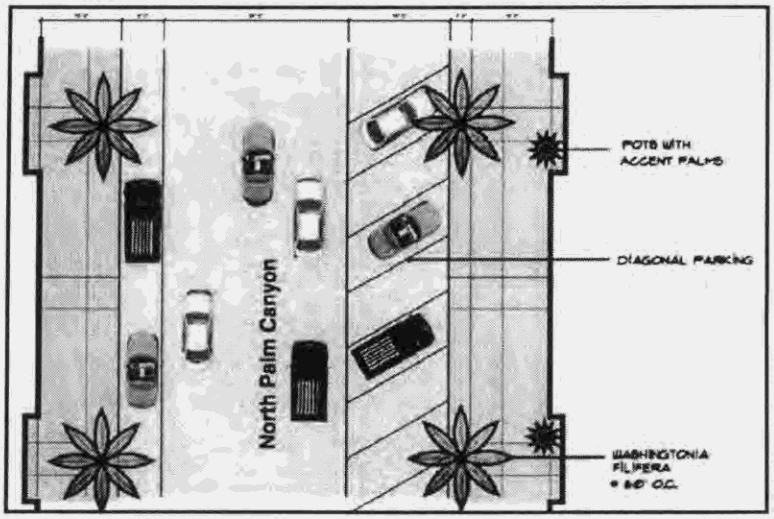
As the central focal point to the entire project, the Main Plaza is to be given particular attention and care. The Plaza is to transition between the regimented street landscaping on surrounding streets, into a shaded, people friendly place where the atmosphere invites visitors to sit, enjoy the cool air, and the water feature. Shade trees are intended to have larger canopies, including Desert Museum Cercidium, and Tipu Tree. Although by necessity the Plaza will be finished in decorative pavement to a great extent, lawn areas and fountains are encouraged in this area, as are benches, and restaurant terraces associated with the two planned single story buildings.



From the Plaza, the landscaping plan returns to the theme of California fan palm and date palm trees lining interior streets, with shade trees provided at intersections. Additional planting along the streets should focus on potted accent palms, typical of an urban environment, rather than planting strips and beds. Planting beds are appropriate when surrounding shade trees near parking areas, particularly on secondary streets, to soften the asphalt and hardscape.

Landscaping Zones

The landscaping concept divides landscaping into three "zones": the Streetscape Zone, the Transition Zone and the Open Space Zone.



The Streetscape Zone is designed to integrate into the landscaping patterns already occurring in Downtown Palm Springs. Street trees and plantings will emulate the rows of palm trees which now flank Palm Canyon Drive, and will extend throughout the primary streets in all planning areas. Shade trees are provided at intersections to break up the linear nature of the palms, and cool the environment for both pedestrians and vehicles. Plantings are focused on potted palms and annual color, which does not block pedestrian activity.

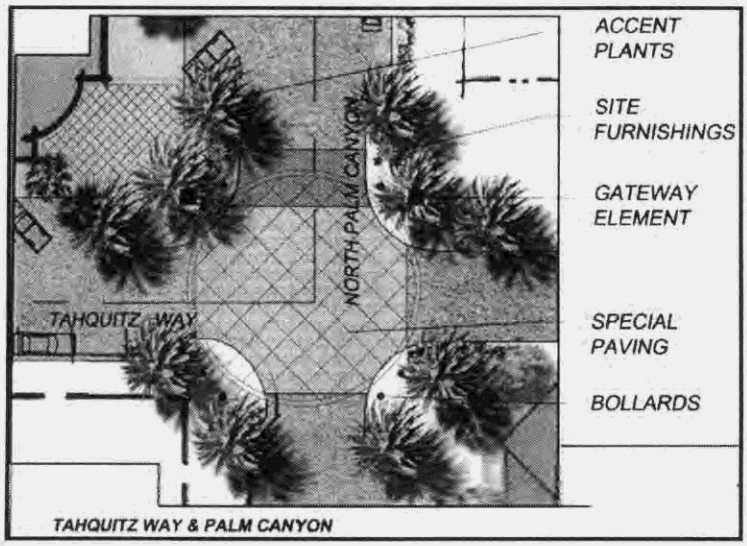
The Transition Zone has a less intense focus on palm trees, and introduces a greater variety of shade trees and shrubs. The Transition Zone plants should apply to the secondary streets and the

residential areas, to soften the built environment, and provide greater shade and cooling. Planting areas should include a mix of potted palms and plants, as well as planting beds surrounding street trees, to reflect a less intense urban environment.

The Open Space Zone applies not only to the Main Plaza, but also to the common area open spaces that will be created within each Block. This Zone includes the widest variety of plant materials, and is intended to connect the Streetscape and Transition Zones. In areas away from the Main Plaza, the focus should be on canopy and accent trees, and a higher intensity of groundcovers, particularly in areas where the primary uses are residential.

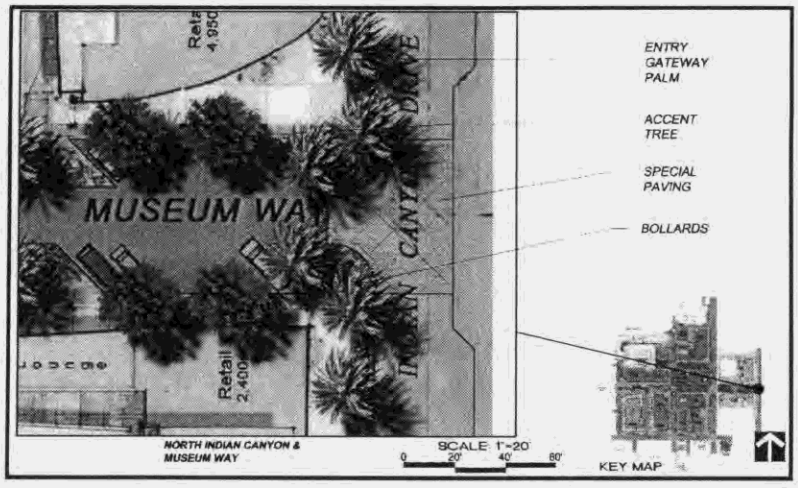
Entries and Focal Points

In addition to the Main Plaza, particular care must be taken in the landscape design of Major and Minor Entries, and Major and Minor Focal Points, as depicted in Exhibit III-7. The Entries to the Specific Plan must be designed to include the signature palms, accent trees and special paving, to draw the visitor in, and define the space.



The Major Focal Point in the project will be the intersection of Museum Way and Museum Drive. This area, in front of the Museum, must be designed to draw the eye from as far away as Indian Canyon, and should include not only significant vertical elements, but also extensive special paving and public art. Landscaping in this area should act as a frame to the Museum building, and not obliterate the structure.

At Minor Focal Points, the emphasis must be on landscaping and hardscape which is at a pedestrian scale, and provides opportunities for street furniture, directional signage and shade. Again, accent paving which defines the area is critical to providing a sense of place within the project.



Continuity of Theme

The overall theme of the landscaping plan must be maintained throughout the Specific Plan. Since it is expected that the project will develop in phases, and that individual buildings and blocks will have differing architectural character, the connecting thread between the buildings and blocks will be the landscaping. As projects are reviewed and approved, the least amount of variation should be allowed in landscaping patterns, unlike the architectural variety which is expected in architecture. Since the Main Plaza and major roadway streetscapes are expected to be the in the first phase of development, these areas will set the tone for the balance of the landscaping plans throughout Museum Market Plaza. Once established, their design theme should be adhered to for all subsequent phases of the project.

Table III-5
Landscape Palette

Plant Zone			Scientific Name	Common Name	Size
			Palms		
S		O	Butia capitata	Pindo Palm	36"-Box
S			Phoenix dactylifera	Date Palm	20' B.T.H.

Exhibits III-6: Landscaping Hierarchy

4. Street Furniture, Lighting and Art

Well-designed street furniture, lighting and public art enliven townscape character and contribute to a strong sense of local identity. The Museum Market Plaza is a pedestrian oriented area and street furniture should be designed to the human scale and placed to enhance the pedestrian experience. While consistent with the general design principles included in the Palm Springs Downtown Urban Design Plan, a variation on the recommended theme that complements the Urban Design concept for the Museum Market Plaza should be implemented within the confines of the Specific Plan. Special detailing will define the Museum Market Plaza as an area of distinctive identity, while maintaining continuity of theme ensures that the downtown area as a whole engenders a clearly perceptible sense of place. While allowing for interesting variations in complementary design, all elements must work together to create a distinctive, unified identity.

The Plan's downtown location offers many opportunities for public art and items of cultural or educational interest to be incorporated into the design of public open spaces, with the Main Plaza presenting an opportunity to display an exceptionally commanding piece. Lighting, while facilitating public safety, should provide illumination levels appropriate to the uses of the area and contribute to the general ambience.

ARCHITECTURAL ADVISORY COMMITTEE

CITY OF PALM SPRINGS
City Hall, Council Chamber
3200 East Tahquitz Canyon Way
Monday, November 26, 2012
3:00 p.m.

AGENDA

CALL TO ORDER -

REPORT OF POSTING OF AGENDA - Agenda available for public access at the City Hall exterior bulletin board (west side of Council Chamber) and the Planning Services counter by 4:00 p.m. on Tuesday, November 20, 2012. A posting of this Agenda can be found on the City's web site at: www.palmspringsca.gov Pursuant to G.C. Section 54957.5 the designated office for inspection of public records in connection with the public meeting of the Architectural Advisory Committee is the office of the City Clerk, City Hall located at 3200 East Tahquitz Canyon Way, Palm Springs, California.

It is the intention of the City of Palm Springs to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, or in meetings on a regular basis, you will need special assistance beyond what is normally provided, the City will attempt to accommodate you in every reasonable manner. Please contact the Planning Department, (760) 323-8245, at least 48 hours prior to the meeting, to inform us of your particular needs and to determine if accommodation is feasible.

PUBLIC COMMENTS - Three (3) minute time limit per person on matters within the jurisdiction of the Architectural Advisory Committee.

ACTION ITEMS:

TIME Est.	NO.	CASE #:	DESCRIPTION:
3:05	2.	5.1290 PDD-361	Wessman Development – A Planned Development District and three Major Architectural Applications for development of the Downtown Palm Springs project located at 123 North Palm Canyon Drive / northwest corner of W. Tahquitz Canyon Way and N. Palm Canyon Drive, Zone Museum Market Specific Plan; Section 15. (CE)
			Non-Action Item Committee Member Discussion

Estimated time of Adjournment – 6:00 pm

ADJOURNMENT: The Architectural Advisory Committee will adjourn to its regularly scheduled meeting on Monday, December 10, 2012, at 3:00 p.m., City Hall, Council Chamber, 3200 E. Tahquitz Canyon Way.

CHAIRMAN / COMMISSIONER / STAFF COMMENTS:

CITY OF PALM SPRINGS

DEPARTMENT OF PLANNING SERVICES

MEMORANDUM

Date: November 26, 2012

To: Architectural Advisory Committee

From: Craig A. Ewing, AICP

Subject: Downtown Palm Springs Project:
5.1290 PD 361 / Planned Development Permit, and
MAJ 3.3605, 3.3606, 3.3607 / Major Architectural Approvals

The Architectural Advisory Committee has received materials on the four applications, taken public comment and may now adopt a recommendation for each request. This memo summarizes the four applications and possible motions regarding each item based on comments received from the AAC over the last three meetings.

Major Architectural Approval 3.3605 / Block A

This site is located adjacent to the existing Hyatt Suites Hotel, fronts N. Palm Canyon Drive and extends to Andreas and Belardo Roads (both new). The block is presently developed with a portion of the Desert Fashion Plaza multi-tenant building and this structure is to be retained and repurposed for retail use. No new square footage is to be added to the existing one-story, 52,608 sf building. New exterior building facades are proposed and the interior will be demised to allow multiple retail and food service tenants. The building maintains a height of 28 feet and lot coverage of about 78% of the block. The remainder of the site is divided between landscaping (10%) and paving (12%).

Potential Action:

Recommend approval, subject to standard conditions and the following conditions, to be accomplished prior to issuance of building permits:

1. Final review by the AAC of exterior elevation details (90% construction drawings);
2. Review by the AAC of exterior elevations for all individual tenancies;
3. Review by the AAC of landscape, lighting and hardscape plans, including all street furniture;
4. Review by the AAC of street paving plans
5. Submission and review by AAC of a sign program for Block A.
6. (other)

Major Architectural Approval 3.3606 / Block B

Block B is immediately south of Block A, fronting N. Palm Canyon Drive to the east, Belardo Road (new) to the west, and between Andreas Road (new) and a new street between N. Palm Canyon and the Palm Springs Art Museum. Two buildings are proposed, with a maximum of two-stories and 45 feet in height, for retail, restaurant and office uses. The buildings are oriented in a north-south direction, each fronting either N. Palm Canyon Drive or Belardo Road (new). Between these buildings a private street ("Market Street") is proposed to provide vehicular and pedestrian access, but which can also be closed to traffic as a festival / event space. The buildings will cover about 66% of the site, with landscaping covering 25% and streets and paving 9%.

Potential Action:

Recommend approval, subject to standard conditions and the following conditions:

1. Continuance of Building B-1 (west side) for resubmission and review;

The following conditions are to be accomplished prior to issuance of building permits:

2. Final review by the AAC of exterior elevation details (90% construction drawings);
3. Review by the AAC of exterior elevations for all individual tenancies;
4. Review by the AAC of landscape, lighting and hardscape plans, including all street furniture;
5. Review by the AAC of street paving plans
6. Submission and review by AAC of a sign program for Block B.
7. (other)

Major Architectural Approval 3.3607 / Block C

At the corner of W. Tahquitz Canyon Way and N. Palm Canyon, Block C is proposed to be divided into two projects. Block C-1 will include buildings ranging from one to three stories, with a maximum height of 52 feet. The buildings are oriented to W. Tahquitz Canyon Way and N Palm Canyon Drive, but also to the public open space in the middle of the Block. Uses will be retail, restaurant and office, totaling 57,050 square feet. Building coverage is 67% of this portion of Block C, with 26% landscaping and 7% paving.

Potential Action:

Recommend approval, subject to standard conditions and the following conditions, to be accomplished prior to issuance of building permits:

1. Final review by the AAC of exterior elevation details (90% construction drawings);
2. Review by the AAC of exterior elevations for all individual tenancies;
3. Review by the AAC of landscape, lighting and hardscape plans, including all street furniture;
4. Review by the AAC of street paving plans
5. Submission and review by AAC of a sign program for Block C.
6. (other)

Planned Development District PD 361 / Block C-1

A hotel of approximately 185 rooms is proposed on the westerly (back) half of Block C (referred to as Block C-1), with the entry fronting on W. Tahquitz Canyon Way. The main portion of the hotel runs along the east side of Belardo Road (new) and rises to a height of approximately 89 feet. Total square footage is 140,272, including the following uses:

Hotel –	117,978 sf
Restaurant –	8,512 sf
Retail –	5,595 sf
Assembly –	8,187 sf

The building footprint will cover about 51% of the site; landscaping will comprise about 26% of the site; and another 23% will be devoted to streets other paving.

Potential Actions:

Recommend approval, subject to standard conditions and the following conditions, to be accomplished prior to issuance of building permits:

1. Revise exterior elevations to address:
    a. Eliminate 'billboard' on exterior of elevator shaft and develop appropriate architectural design statement, subject to AAC review
    b. Redesign exterior to reflect local stylistic elements, subject to AAC review
    c. (other)
2. Review by the AAC of exterior elevations for all individual tenancies;
3. Review by the AAC of landscape, lighting and hardscape plans, including all street furniture;
4. Review by the AAC of street paving plans
5. Submission and review by AAC of a sign program for Block C-1.
6. (other)

- *or* -

Recommend denial, based AAC comments (height, mass, orientation, etc.)

Planning Commission Members Present: Hudson

City Staff Present: David Ready – City Manager

REVISIONS TO AGENDA:

PUBLIC COMMENTS: Three (3) minute time limit per person on matters within the jurisdiction of the Architectural Advisory Committee.

There were no public comments.

AGENDA ITEM #2: Case 5.1290 PDD-361 – Downtown Palm Springs
Wessman Development – A Planned Development District and three Major Architectural Applications for development of the Downtown Palm Springs project located at 123 North Palm Canyon Drive / northwest corner of W. Tahquitz Canyon Way and N. Palm Canyon Drive, Zone Museum Market Specific Plan; Section 15. (CE)

Vice Chair Harlan invited members of the public to speak regarding the Downtown Palm Springs Plan.

Harold Meyerman – representing the Palm Springs museum supports the plan.

Helene Galen – representing the Palm Springs Museum supports the plan.

Aftab Dada – General Manager of the Hilton Palm Springs and Chair of Palm Springs Resorts supports the Kimpton Hotel proposal and the plan.

Harold Matzner – On the Board of Directors of the Palm Springs Art Museum stated that the Board voted unanimously to support the proposed plan.

Robert Stone – stated that he likes the street grid system and the exterior finishes. The level of architecture is mediocre with no curvilinear elements. Does not support the height of the hotel. He stated that the Museum Market Specific Plan does not support buildings over 60' in height. The hotel should have an orientation of east-west not north-south.

Tee Jones – local resident supports the plan.

Chris Brookes – speaking on behalf of Valley builders and contactors supports the plan.

Jerry Keller – owner of Lulu's restaurant supports the plan.

Andrew Starke – President of the Palm Springs Chamber supports the plan and likes the courtyard concept.

Jim Gazan – supports the plan, however the hotel design is not unique and he presented several possible design concepts to the AAC.

Gary Johns – stated that the review process has been rushed. The new main street will benefit the museum; however the tall hotel will block views of the museum.

Frank Tyson – requested that the architecture be improved; height be reduced; eclectic architecture should be used. The process is rushed.

Richard Clifford – supports the plan.

Planning Director Ewing stated that the new plan before the AAC includes a new street alignment of Market Street. He directed the AAC's attention to the Staff Report for suggested guidelines.

Vice Chair Harlan asked for clarification on page 5 of the Staff report regarding the proposed height of the hotel. Was an alternative plan proposed that met this goal?

Director Ewing responded by saying that other options were reviewed, however when a 180-room hotel came into play the height was driven by the design. He continued with a more detailed description of the project; a discussion on Block A; and the intent of the museum market plaza specific plan (MMSP).

Member Thompson asked if the hotel messaging on the elevator tower was part of the plan. In reference to building height in the Planning Commission report on page 8 of 10; clarification regarding the building height chart.

Member Fauber stated that he was not clear on what is considered non-conforming conditions and encroachments. The MMSP references blocks, do these blocks correspond

to the current submission. He asked for an explanation on the proposed time limit on development on Block E – open space. Are there material boards?

Director Ewing responded by stating that material boards are available for viewing. A separate sign package will be submitted at a later date. He stated that the City is in negotiations with the developer to hold the public event space for ten years from the completion of the project.

Member Fredricks – asked if there is a time line for construction on the parcels other than Block C-1.

Director Ewing responded by stating that no specific time line has been devised, however the MMSP does allow phasing for a project.

Member Secoy-Jensen asked if the AAC should review each of the blocks separately.

Vice Chair Harlan stated that the Planning Commission staff report discussed possible uses in the new development and referred to 1st chart on page 8 of 11.

Member Thompson asked if the AAC will review final plans at a later date.

John Wessman provided detailed background information followed by a presentation by the architect.

CHAIRMAN / COMMITTEE / STAFF COMMENTS:

None.

ADJOURNMENT:

There being no further comments, the AAC meeting adjourned at 7:30 pm.

Edward O. Robertson

AGENDA

CALL TO ORDER -

REPORT OF POSTING OF AGENDA - Agenda available for public access at the City Hall exterior bulletin board (west side of Council Chamber) and the Planning Services counter by 4:00 p.m. on Thursday, November 15, 2012. A posting of this Agenda can be found on the City's web site at: www.palmspringsca.gov Pursuant to G.C. Section 54957.5 the designated office for inspection of public records in connection with the public meeting of the Architectural Advisory Committee is the office of the City Clerk, City Hall located at 3200 East Tahquitz Canyon Way, Palm Springs, California.

It is the intention of the City of Palm Springs to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, or in meetings on a regular basis, you will need special assistance beyond what is normally provided, the City will attempt to accommodate you in every reasonable manner. Please contact the Planning Department, (760) 323-8245, at least 48 hours prior to the meeting, to inform us of your particular needs and to determine if accommodation is feasible.

PUBLIC COMMENTS - Three (3) minute time limit per person on matters within the jurisdiction of the Architectural Advisory Committee.

CITY OF PALM SPRINGS

DEPARTMENT OF PLANNING SERVICES

MEMORANDUM

Date: November 19, 2012

To: Architectural Advisory Committee

From: Craig A. Ewing, AICP

Subject: Downtown Palm Springs Project

Introduction:

At the meeting of Tuesday, November 13, 2012, the Architectural Advisory Committee (AAC) received an orientation on Downtown Palm Springs Project. As noted at that meeting, the AAC and Planning Commission are being requested by the City Council to complete your review of the project so that the Council might begin its deliberations on December 19, 2012. To help achieve this, staff has scheduled this special meeting to focus on the project and set the stage for the AAC to adopt its recommendation.

This memorandum provides a discussion of the project in light of the design policies of the Museum Market Plaza Specific Plan, which governs the development of the property. These policies are used by the AAC, Planning Commission and staff to evaluate the proposal and more fully inform the Architectural Review findings of the Zoning Code (Section 94.04.D, attached). A separate memo to the Planning Commission was prepared to analyze the projects' conformance with the development standards of the Museum Market Plaza Specific Plan (zoning conformance), which is attached.

Project Description:

As more fully described in your memo of November 13, 2012, the proposal is made up of four entitlements: Three for architectural approval of proposed buildings, and a Planned Development District for a hotel exceeding 60 feet in height. of America was recently demolished as part of the preparations for the redevelopment of the site. (A Tentative Parcel Map is also required to reconfigure the site for development and financing purposes; the map is not subject to AAC review.)

Major Architectural Approval 3.3605 / Block A

This site is located adjacent to the existing Hyatt Suites Hotel, fronts N. Palm Canyon Drive and extends to Andreas and Belardo Roads (both new). The block is presently developed with a portion of the Desert Fashion Plaza multi-tenant building and this structure is to be retained and repurposed for retail use. No new square footage is to be added to the existing one-story, 52,608 sf building. New exterior building facades are proposed and the interior will be demised to allow multiple retail and food service tenants. The building maintains a height of 28 feet and lot coverage of about 78% of the block. The remainder of the site is divided between landscaping (10%) and paving (12%).

Major Architectural Approval 3.3606 / Block B

Block B is immediately south of Block A, fronting N. Palm Canyon Drive to the east, Belardo Road (new) to the west, and between Andreas Road (new) and a new street between N. Palm Canyon and the Palm Springs Art Museum. Two buildings are proposed, with a maximum of two-stories and 45 feet in height. Total square footage is 75,636 and the uses will be retail and restaurant. The buildings are oriented in a north-south direction, each fronting either N. Palm Canyon Drive or Belardo Road (new). Between these buildings a private street is proposed to provide vehicular and pedestrian access, but which can also be closed to traffic as a festival / event space. The buildings will cover about 66% of the site, with landscaping covering 25% and streets and paving 9%.

Major Architectural Approval 3.3607 / Block C-1

At the corner of W. Tahquitz Canyon Way and N. Palm Canyon, Block C is proposed to be divided into two projects. Block C-1 will include buildings ranging from one to three stories, with a maximum height of 52 feet. The buildings are oriented to W. Tahquitz Canyon Way and N Palm Canyon Drive, but also to the public open space in the middle of the Block. Uses will be retail, restaurant and office, totaling 57,050 square feet. Building coverage is 67% of this portion of Block C, with 26% landscaping and 7% paving.

Planned Development District PD 361 / Block C-2

A hotel is proposed on the westerly (back) half of Block C, with the entry fronting on W. Tahquitz Canyon Way. The main portion of the hotel runs along the east side of Belardo Road (new) and rises to a height of approximately 89 feet. Total square footage is 140,272, including the following uses:

Hotel –	117,978 sf
Restaurant –	8,512 sf
Retail –	5,595 sf
Assembly –	8,187 sf

The building footprint will cover about 51% of the site; landscaping will comprise about 26% of the site; and another 23% will be devoted to streets other paving.

Analysis:

The General Plan policies and zoning will be governed by the development standards and design guidelines of the Museum Market Plaza Specific Plan. The development standards are not the direct purview of the AAC, but we have provided the analysis in the attached Planning Commission staff report for background information. The Specific Plan's design guidelines (see attached) directly pertain to the AAC's review and they are presented below.

Architecture – General Provisions

The Museum Market Plaza Specific Plan discussion of architecture identifies certain general principles for the physical development of the site. The existing surrounding environment needs to be taken into account so that development achieves, "...sympathetic relationships between the new buildings and the existing adjoining developments..." The blocks of the Specific Plan must be "...clearly identified by a coherent visual identity." Lastly, the Specific Plan calls for a, "...unified, distinctive and adaptable urban design concept, that is based on versatile design principles..."

The "sympathetic relationships" objective appears to be generally met by the project as the edge of the blocks fronting N. Palm Canyon Drive are proposed to be one story buildings, with the exception of the three story corner building in Block C, at Palm Canyon and "New Main". The major challenge is the height of the hotel along West Tahquitz Canyon Way, where the six-story building is setback from the street curb about 30 to 35 feet. Adjacent existing development includes the three-story Palm Mountain Resort & Spa at the southwest corner of Tahquitz and Belardo, but directly south is a surface parking lot serving the Oasis mixed use commercial building (southwest corner W. Tahquitz Way and S. Palm Canyon Drive). The overall plan respects the scale of development along Palm Canyon Drive and at the corner of Palm Canyon Drive and Tahquitz Canyon Way, but the hotel presents a significant mass close in to Tahquitz at Belardo Road..

The "coherent visual identity" objective is met in part by the grid of small, urban-scale blocks provides a repetitive block pattern along N. Palm Canyon Drive. Further, distinctive street paving will enhance a visual identity of the site. Finally, the landscape and street furniture plans have the potential to confirm a coherent visual identity, and should be reviewed with that goal in mind. Meanwhile, building architecture is not seen as fulfilling this objective as the elevations and building façades are proposed to vary throughout the site.

The last overall objective is to establish a "unified, distinctive and adaptable urban design concept". Since "unified" and "distinctive" are potentially conflicting ideas, the question is whether the sum of the projects' design elements provide meet the objective in a coherent, successful way. As noted above, the block pattern, streetscape and landscape should contribute to a unified look and should be sufficient for that purpose. Distinctiveness should be achieved through building architecture, materials, finishes and colors. The building elevations on Blocks A, B and C provide distinctive looks within a

contemporary genre, but it is unlikely that upon completion the present design will be read as anything but a single project. The ability of buildings' to "learn" over time should mitigate this, as new tenants modify individual façades for their own branded look.

The last part of the objective is "adaptable", which has to be taken into consideration within the context of buildings which will have a life of thirty to fifty years. This proposal provides adaptability in the storefront elevations that will be modified by individual tenants, the open courtyards and Market Street that are available for outdoor uses and the flexible use of Block A as a new-styled multi-tenant retail complex.

Architecture – Building Height, Scale and Massing

The Specific Plan recognizes that the site is intended for "...an intensive level of development...", but that the pedestrian experience requires buildings to be "...designed to the human scale with active, pedestrian friendly frontages." View corridors and public and private open spaces are to be provided throughout. An average maximum height of 60 feet is to be maintained, although hotels may exceed 60 feet. Most significantly, building elements must be varied to reduce the appearance of mass and avoid "cliff-face" frontages. Guidelines for individual blocks are also identified, and discussed below.

The pedestrian-level objectives are generally met by the project as one-story buildings predominate along N. Palm Canyon Drive and the internal street frontages are primarily retail and restaurant spaces. Necessary "back-of-house" and service entries are minimized. View corridors along the internal east-west streets are provided. Public and private open spaces are found on Blocks B and C, with the existing building on Block A retained and re-purposed to including interior public circulation, including connection to the abutting Hyatt Hotel.

Overall height of the three blocks is maintained at an average less than 60 feet, including the hotel in Block C which has a maximum height approaching 90 feet. However, the proposed hotel presents a tall façade at Tahquitz Canyon Way as well as a six-plus story building mass along Belardo. The architecture mitigates some of the building's height so that it does not appear "cliff-faced", but its overall volume is remains pronounced. Given the developer's expressed need for a hotel of 185 rooms to support the remainder of the project and the goals of creating pedestrian-friendly street frontages and useful open spaces, the design and placement of the hotel is the project's primary trade-off within the Specific Plan's design guidelines proposed by.

Block A

The massing of Block A buildings is required to respect of the Hyatt Hotel to the north. The existing mall building is to be retained, maintaining the existing relationship with the hotel's south elevation, and no changes are proposed here. The three street elevations are arranged with retail and restaurant facades "frames" that are oriented to pedestrian uses and available for future tenant customization.

Block B

The Specific Plan's approach to Block B has been modified by this proposal and the Council's conformity review of October 17, 2012. Consequently, the development of Block B with two two-story buildings and a private alley should be evaluated in light of the overall plan's scope. The one-story portion facing N. Palm Canyon Drive is respectful of the scale of development along the street, and the two story portion is setback significantly. The overall scale and placement of the Block B buildings is an appropriate transition between Block A and C; however the westerly building encroaches into setbacks and rights-of-way and is recommended for redesign.

Block C
Stepped frontages and massing "concentrated toward the center" are required in order that the volume of the larger buildings respects the surrounding streetscapes and development intensities. This is achieved along Palm Canyon in Block C, with the exception of a three-story building at the corner of Palm Canyon and "New Main" providing a modest landmark statement. As previously noted, the proposed hotel does not meet the guidelines for avoiding significant building mass along the street edge. Neither does it step back from Tahquitz Canyon or Belardo, nor concentrate that mass toward the center. Also previously noted, this arrangement allows for the lower, pedestrian-oriented buildings along Palm Canyon and the internal streets; for the open spaces within Blocks C and B; and for the size of hotel identified as necessary to support the project.

Architecture – Architectural Style and Treatment
Recognizing that Palm Springs' existing downtown development is an eclectic mix of styles, the Specific Plan also states that new development should be "of its time, using contemporary designs of a scale and form reflective of locally distinctive models." The challenge noted by the Specific Plan is to provide variations on a consistent architectural theme, with a variety of detailing and materials; the buildings should not be too "idiosynchratic".

Additional objectives include incorporating a sustainability paradigm, a response to the demands of the desert climate, and the sensitive treatment of street fronts. More specific direction is provided to assure the recesses and revieals provide shade and visual interest, including building projections, covered walkways and arcades. Buildings situated at important intersections should receive special treatments.

Overall, the project achieves the stated objectives. A contemporary style is adopted throughout the project, without the introduction of artificial variety (such as Mission Revival or Art Deco segments). The elevations at the street level as well as on the upper floors are composed of a variety of materials and colors arranged with slight variations in scale, massing, and repetition. The architecture supports the underlying objective of most downtowns: Providing "safe discovery" for pedestrians moving among the small blocks of shops and restaurants.

Architecture – Storefronts
According to the Specific Plan, storefronts should be "visually permeable", with clearly-defined entrances. While detailed storefront designs will be provided by individual

tenants in the future, the elevations proposed for the retail and restaurant buildings show significant glazing and flexible "frames" for future tenant use.

Architecture – Building Materials

Exterior building materials are to be provided from a "rich palette of complementary materials and finishes." The Specific Plan also notes that the intense level of development contemplated for the area requires that building facades be "softened" by surface treatments. The deliberate and coordinated use of colors, materials, textures and glazing should aim to visually reduce building mass, create shadow effects and promote a sense of permeability and spaciousness.

The project includes color / material boards for each block that provide coordinated, but varied palettes of muted colors for the main stucco finishes with stone, tile, aggregates and metals used for accents and highlights. for the four main developments (Block A, Block B, Block C and the hotel). The colors are muted desert colors, with coordinated accents, and materials include tiles and metal to add interest. It is expected that the ground floors will present more diverse and energized elevations, especially once tenants propose their specific storefront designs. Upper levels should be more subdued to achieve the 'softening' contemplated by the Specific Plan. Overall, the color and material boards achieve the Plan's objectives.

Connectivity, Streetscapes, Open Spaces

The Museum Market Plaza Specific Plan recognizes that the configuration and design of streets and passageways are vital to assuring full use of the downtown area by pedestrians and drivers. East-west linkages are especially important and the Tentative Parcel Map and proposed site plan provide an extension of Andreas Road, as well as a new "Main" street to penetrate the site. "New Main" Street's western terminus in front of the Palm Springs Art Museum will provide a formal and dramatic visual connection between N. Palm Canyon and a major community institution and architectural landmark.

The extension of Belardo Road through the site (north-south) further develops the idea of a downtown by creating small blocks for increased retail frontage and pedestrian access. Outdoor passageways within Blocks B and C and the indoor passage in the Block A building further enhance opportunities for exploring the area and creating the hierarchy of streets and pedestrian linkages called for in the Plan.

The importance of off-site views is highlighted in the Specific Plan as, "...existing view corridors are protected and new ones created." The new east-west streets provide for enhancement of existing and new views, with street trees providing a frame as called for in the Plan. The proposed arrangement of one-story buildings and six-plus story hotel is expected to have a mixed impact on views, depending on the location of the observer. By eliminating major portions of the existing Desert Fashion Plaza, the plan is anticipated to open up some views that did not exist before, while reducing others somewhat.

Street design treatments are to provide "...a strong sense of continuity and place..." Consistent with the Plan's direction, sidewalks are provided on the streets and internal

open spaces, "...to accommodate a variety of compatible outdoor activities and thereby extend the hours of active use." Most sidewalks are at least 8-feet wide, and internal passageways range in width from ten (10) to eighty (80) or more feet. While street treatments and furnishings are not specifically identified, the applicant has indicated that pavers and other decorative treatment will characterize the streets and that asphalt concrete will be minimal. These treatments will provide the unifying character to the area as the buildings and open spaces provide unique shopping and dining experiences, storefront-by-storefront and block-by-block.

Connectivity – Public Open Spaces

The Specific Plan's discussion of Block B highlights its role in the Plan's vision of a central public gather place. The City Council's October 17, 2012 conformity determination of the current site plan postpones this vision for the current renovation plan. The distinctive sense of place that is to be anchored by the public plaza is now achieved by other means: The Market Street in Block B, the pedestrian corridor from the Hyatt to the corner of Palm Canyon and Tahquitz and the use of Block D as an interim outdoor event space (not a part of the current entitlements).

Landscaping

Landscape guidelines in the Specific Plan focus on assuring that landscaping adds to the area's high-quality design, while respecting the desert setting and the need to be drought-tolerant. The choice of landscape materials must also consider the "vertical dimension" in the use of palm trees, as well as trees that will provide shade. The Specific Plan calls for the establishment of three landscape zones: 1) The Streetscape Zone, with palm trees predominating along the streets (to emulate those on Palm Canyon Drive), 2) The Transition Zone with a greater variety of shade trees and shrubs on secondary streets (Market Street), and 3) The Open Space Zone, where the widest variety of plants is used in the plazas and public spaces.

Further, landscaping is supposed to highlight and enhance focal points, including a Major Focal Point at Museum Drive and New Main (called Museum Way in the Specific Plan). Minor Focal Points (Palm Canyon and New Main, Belardo and New Main, and Andreas and Belardo) must also be give special attention. Finally, the Specific Plan provides a recommended landscape palette from which a landscape plan should be developed. While only a conceptual landscape plan has been submitted, it appears to achieve the goals of the Specific Plan. More detailed landscaping needs to be presented before a final action is taken by the City.

Street Furniture, Lighting and Art

As a vision for a pedestrian-oriented area, the Specific Plan recognizes that "Well-designed street furniture, lighting and public art enliven townscape character and contribute to a strong sense of local identity." As with other design elements, street furniture, lighting and art should be selected with the overall identity of the planning area in mind, yet also providing variety and distinctiveness. No plan for these elements has been presented, and detailed specifications and plans will be needed prior to final action.

Recommendation:

Recommendations from the AAC will be forwarded to the Planning Commission for a final action.

CITY OF PALM SPRINGS

CASE NO: TPM 36446

APPLICANT: Wessman Development

DESCRIPTION: An application to subdivide the Museum Market Plaza into 17 parcels for future development and 4 lots for public infrastructure. The approximately 13.57-acre property is located at 101 & 123 South Palm Canyon Drive.

D. Planning Commission Architectural Advisory Committee Review Guidelines.

The planning commission architectural advisory committee shall examine the material submitted with the architectural approval application and specific aspects of design shall be examined to determine whether the proposed development will provide desirable environment for its occupants as well as being compatible with the character of adjacent and surrounding developments, and whether aesthetically it is of good composition, materials, textures and colors. Conformance will be evaluated, based on consideration of the following:

1. Site layout, orientation, location of structures and relationship to one another and to open spaces and topography. Definition of pedestrian and vehicular areas; i.e., sidewalks as distinct from parking lot areas;

2. Harmonious relationship with existing and proposed adjoining developments and in the context of the immediate neighborhood/community, avoiding both excessive variety and monotonous repetition, but allowing similarity of style, if warranted;

3. Maximum height, area, setbacks and overall mass, as well as parts of any structure (buildings, walls, screens, towers or signs) and effective concealment of all mechanical equipment;

4. Building design, materials and colors to be sympathetic with desert surroundings;

5. Harmony of materials, colors and composition of those elements of a structure, including overhangs, roofs, and substructures which are visible simultaneously;

6. Consistency of composition and treatment;

7. Location and type of planting, with regard for desert climate conditions. Preservation of specimen and landmark trees upon a site, with proper irrigation to insure maintenance of all plant materials;

8. Signs and graphics, as understood in architectural design including materials and colors;

9. The planning architectural advisory committee may develop specific written guidelines to supplement the design criteria and carry out the purposes of this chapter.

PLANNING COMMISSION
CITY OF PALM SPRINGS, CALIFORNIA

3200 East Tahquitz Canyon Way, Palm Springs, California
www.palmspringsca.gov

AGENDA

Wednesday, November 14, 2012	1:30 PM Regular Meeting

CALL TO ORDER:

ROLL CALL:

REPORT OF POSTING OF AGENDA: Agenda available for public access at the City Hall exterior bulletin board (west side of Council Chamber) and the Planning Services counter by 4:00 p.m. on Thursday, November 8, 2012. A posting of this Agenda can be found on the City's website at: www.palmspringsca.gov. Pursuant to G.C. Section 54957.5 the designated office for inspection of public records in connection with the public meeting of the Planning Commission is the Office of the City Clerk, City Hall, located at 3200 East Tahquitz Canyon Way, Palm Springs, California.

It is the intention of the City of Palm Springs to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, or in meetings on a regular basis, you will need special assistance beyond what is normally provided, the City will attempt to accommodate you in every reasonable manner. Please contact the Planning Department, (760) 323-8245, at least 48 hours prior to the meeting to inform us of your particular needs and to determine if accommodation is feasible.

If any individual or group challenges the action in court, issues raised may be limited to only those issues raised at the Public Hearing described in this notice or in written correspondence at, or prior to, the Planning Commission meeting.

Please silence all cell phones, pagers and/or other electronic devices for the duration of the meeting.

ACCEPTANCE OF THE AGENDA: The Planning Commission will discuss the order of the agenda, may amend the order, note abstentions and request Consent Calendar items be removed from the consent calendar for discussion.

PUBLIC COMMENTS: This time has been set aside for members of the public to address the Planning Commission on Consent Calendar and other agenda items; and items of general interest within the subject matter jurisdiction of the Commission. Please note that the Planning Commission is prohibited from taking action on items not listed on the posted agenda. Three (3) minutes is allowed for each speaker. Testimony for Public Hearings maybe offered at this time or at the time of the hearing.

1. CONSENT CALENDAR:

1A. Minutes of October 10, 2012.

Recommendation: To approve, minutes of October 10, 2012.

2. OTHER BUSINESS:

2A. Discussion of Tour of Desert Water Agency Facilities

2B. Case 5.1285 CUP – A resolution of denial for the installation of tennis court lighting, and the approval of Case 3.3594 SFR for the construction of a new 6,283-square foot single family residence within the Estancias Development at 3181 Las Brisas Way, Zone R-1-B, Section 35. (Project Planner: Glenn Mlaker, AICP, Assistant Planner)

Recommendation: To adopt a denial resolution for Case 5.1285 CUP, and approved Case 3.3594 SFR subject to the Conditions of Approval.

2. PUBLIC HEARINGS:

3A. Case 5.1143 CUP – A request by Brook Anthony Ortiz for approval of a conditional use permit to operate a cocktail lounge at 188 South Indian Canyon Drive, Zone RA Section 14. (Ken Lyon, Associate Planner)

Recommendation: That the Planning Commission approve Case 5.1143 CUP to operate a cocktail lounge at 188 South Indian Canyon Drive, subject to Conditions of Approval.

3B. Case 5.1277 CUP – An application by Whitewater Solar Farm 1, LLC., for a Conditional Use Permit and a request for 7.75 acres of "Take" under the guidelines of the Coachella Valley Multiple Species Conservation Plan, to develop a 3 Megawatt solar energy production facility on roughly 12 acres of a 108-acre parcel located at 58641 Tipton Road, Zone 0-5 (Open Space) and W (Watercourse). (Ken Lyon, Associate Planner)

Recommendation: That the Planning Commission adopt the draft Mitigated Negative Declaration (MND), approve Case 5.1277 CUP, subject to Conditions of Approval and recommend to the City Council to allocate 7.75 acres of Take to this project from the Whitewater River Conservation Area.

3C. Case 5.1290-PD361 – Applications by Wessman Development for a Tentative Parcel Map (TPM 36446) to subdivide a property of approximately 13.57 acres into 13 parcels for development and 4 lots for public infrastructure and a Planned Development District (5.1290-PDD 361) for a hotel in excess of 60 feet in height as allowed under the provisions of Museum Market Plaza Specific Plan; Major Architectural applications (3.3605-MAJ, 3.3606-MAJ & 3.3607-MAJ) for Blocks A, b/b-1 and c/c-1 of the site. The site is located at the northwest corner of West Tahquitz Canyon Way and North Palm Canyon Drive.

Recommendation: Open the public hearing, accept any testimony and continue the hearing to the meeting of November 28, 2012

PLANNING COMMISSION COMMENTS: This portion of the meeting is set aside for brief general comments and/or other issues of concern from members of the Planning Commission.

PLANNING DIRECTOR'S REPORT: This time is set aside for the Planning Director to update the Planning Commission on important items initiated by staff or members of the City Council.

ADJOURNMENT: The Planning Commission will adjourn to 1:30 p.m., Wednesday, November 28, 2012, City Hall, Council Chamber, 3200 East Tahquitz Canyon Way.

ADDED STARTERS: If there are added starters, action is required to determine eligibility for consideration.

Planning Commission Staff Report

Date:	November 14, 2012
Case Nos.:	TPM 36446, 5.1290 PD 361 MAJ 3.3605, 3.3606, 3.3607
Application Type:	Tentative Parcel Map, Planned Development Permit and Major Architectural Approvals to develop the Downtown Palm Springs project
Location:	Northwest corner of North Palm Canyon Drive and Tahquitz Canyon Way; approximately 14 acres.
Applicant:	Wessman Development Company and the City of Palm Springs
Zone and General Plan:	Museum Market Plaza Specific Plan
APN:	513-560-002 & 513-560-004
From:	Craig Ewing, AICP, Director of Planning Services

PROJECT SUMMARY

The proposal is a revision of the applications for a tentative parcel map and zoning entitlements filed by Wessman Development Company to subdivide and develop the approximately 13.6-acre Desert Fashion Plaza property. The Desert Fashion Plaza property is located along the northwest corner of North Palm Canyon Drive and West Tahquitz Canyon Way.

In a revision since the report of November 7, 2012 was prepared, the map would divide the site into thirteen (13) parcels for future development and four (4) lettered lots for public access ways, with new lot sizes and configurations.

The entitlements are for a Planned Development District for a hotel exceeding 60 feet in height and for architectural approval of the remaining buildings. As with the map, the

plans for new construction have been modified sine the November 7, 2012 report, including an expansion of the hotel.

This staff report provides a description of the proposed project, an analysis of the map and development entitlements against the Specific Plan. Additional analysis, information regarding design guidelines, and findings and draft resolutions for consideration by the Commission will be forthcoming.

RECOMMENDATION

1. Open the public hearing, accept any testimony continue the matter to the meeting of November 28, 2012.

PRIOR ACTIONS

On December 2, 2009, the City Council certified the Final Environmental Impact Report and adopted Ordinance 1764, thereby approving the Museum Market Plaza Specific Plan. The Specific Plan covers the design guidelines and development standards for the area commonly known as the Desert Fashion Plaza.

On October 17, 2012, the City Council adopted an Addendum to the Final EIR of the Museum Market Plaza Specific Plan and certified the FEIR and Addendum as an adequate and complete environmental analysis of the project. The City Council also conducted a conformity review of the Downtown Palm Springs proposal, as allowed by the Museum Market Plaza Specific Plan and concluded that the project conformed to the policies and objectives of the Specific Plan.

On November 7, 2012, the Planning Commission received an orientation on the proposed development.

BACKGROUND

The Museum Market Plaza is located in the heart of the City's Business District, specifically at the northwest corner of North Palm Canyon Drive and West Tahquitz Canyon Way. The irregularly shaped property is bounded by Belardo Road to the north, Tahquitz Canyon Way to the south, Museum Drive to the west and North Palm Canyon Drive to the east.

The original Desert Fashion Plaza was built in the late 1960s; since then there have been several renovations and additions especially around the 1980s. A portion of the property that was once occupied by Bank of America was recently demolished as part of the preparations for the redevelopment of the site.

Table 2: Surrounding land uses, General Plan, Zoning

	Land Use	General Plan	Zoning
North	Hyatt Hotel & Retail & Comm.	CBD & Open Space	C-B-D
South	Retail / Commercial Buildings	CBD & Small Hotels	R-3
East	Retail / Commercial Uses	CBD	C-B-D
West	Palm Springs Art Museum	Public/Quasi-Public	C-B-D

PROJECT DESCRIPTION

Tentative Parcel Map 36446

The proposed tentative parcel map (TPM 36446) would create thirteen (13) parcels for future development and four (4) lots for public street right-of-way. The map is required to reconfigure the site for development and financing purposes. The development parcels will range from 14,807 to 66,940 square feet in size. Lots A, B, C and D represent public street rights-of-way, and are generally sized and designed for two lanes of vehicular traffic (one lane each way) and on-street parking. The street lots and parcels 8, 9, 10 and 11 will be owned by the City, who is co-applicant for the map:

Dev't Lot No.	Proposed Area – sq ft	Block No.	Proposed Uses
1	66,940	A	Mixed Retail
2	41,398	b	Mixed Retail / Office
3	29,280	b-1	Mixed Retail / Office
4	30,667	D	(future use)
5	31,573	F	(future use)
6	56,412	E	Event Venue (Interim)
7	19,284	G	(future use)
8	55,873	---	Public Parking
9	14,807	H-1	Museum
10	18,090	H-2	Museum
11	54,667	---	Public Parking
12	61,476	c-1	Hotel
13	37,423	c	Mixed Retail

Street Lot No.		
A	30,399	New "Main" street
B	12,862	Belardo Road extension
C	19,142	Belardo Road extension
D	12,240	Andreas Road extension
TOTAL	592,533 / 13.6 Ac	

There are four zoning entitlements associated with the project: Three Major Architectural Approvals and a Planned Development District.

Major Architectural Approval 3.3605 / Block "A"

This site is located adjacent to the existing Hyatt Suites Hotel, fronts N. Palm Canyon Drive and extends to Andreas and Belardo Roads (both new). The block is presently developed with the former Saks Fifth Avenue building and this structure is to be retained and repurposed for retail use. No new square footage is to be added to the existing one-story, 52,607 sf building. New exterior building facades are proposed and the interior will be demised to allow multiple retail and food service tenants. The building maintains a height of 28 feet and lot coverage of about 78% of the block. The remainder of the site is divided between landscaping (10%) and hardscape (12%).

Major Architectural Approval 3.3606 / Blocks "b / b-1"

Blocks b / b-1 are immediately south of Block A, fronting N. Palm Canyon Drive to the east, Belardo Road (new) to the west, and between Andreas Road (new) and a new street between N. Palm Canyon and the Palm Springs Art Museum. Two buildings are proposed (Block b and Block b-1), with a maximum of two-stories and about 40 feet in height. Total square footage is 75,562 and the uses will be retail, restaurant and office. The buildings are oriented in a north-south direction, each fronting either N. Palm Canyon Drive or Belardo Road (new). Between these buildings, a private street is proposed to provide vehicular and pedestrian access, but which can also be closed to traffic as a festival / event space. The buildings will cover about 67% of the site, with landscaping and hardscape covering 33%.

Major Architectural Approval 3.3607 / Block "c"

At the corner of W. Tahquitz Canyon Way and N. Palm Canyon, Block c is proposed to be divided into two projects. Block C-1 will including buildings ranging from one to three stories, with a maximum height of 52 feet. The buildings are oriented to W. Tahquitz Canyon Way and N Palm Canyon Drive, but also to the public open space in the middle of the Block. Uses will be retail, restaurant and office, totaling 45,937 square feet. Building coverage is 53% of this portion of Block C, with 26% landscaping and 7% paving.

Planned Development District PD 361 / Block "c-1"

A hotel of approximately 185 rooms is proposed on the westerly (back) half of Block c-1, with the entry fronting on W. Tahquitz Canyon Way. The main portion of the hotel runs along the east side of Belardo Road (new) and rises to a height of approximately 89 feet. Total square footage is 177,963, including the following uses:

Hotel –	148,459 sf
Restaurant –	8,512 sf
Rooftop (Non A/C) –	15,397 sf
Retail –	5,595 sf

The building footprint will cover about 60% of the site; landscaping and hardscape will comprise the remaining 40%.

ANALYSIS

The General Plan policies and zoning will be governed by the development standards and guidelines of the Museum Market Plaza Specific Plan. The Central Business District allows a minimum lot size of 9,600 square feet, with a minimum lot width of 75 feet, and minimum lot depth of 128 feet. The proposed mixed-use lot sizes will range from 14,807 to 66,940 square feet; the public access lots (lettered lots A-D) sizes will range from 12,240 square feet to 30,399 square feet in size, additional analysis are provided below. All other development standards in the new subdivision will be consistent with the General Plan and the Specific Plan.

Site Layout / Access

The most notable physical changes in the layout of the proposed parcel map are the lots designated for public roads.

- Lot A, will be developed as pubic access linking Palm Canyon Drive to Museum Drive
- Lots B and C will extend Belardo Road north of Tahquitz Canyon Way.
- Lot D will be an additional linkage from Palm Canyon Drive to the Belardo Road extension.
- Parcel 17 is a private alley way designed to connect the future street on Lot D to the future street on Lot A.

These new streets, with the exception of the alley way (Parcel 17), will be owned and maintained by the City; the developer will have air rights to these parcels. In addition, the City will also own Parcels 8, 9, 10, and 11; currently, these parcels contain the subterranean and above ground parking structures (see attached).

Vacations and Acquisitions

To accommodate future development along the frontage of proposed Parcels 1, 2, 12, 13 and 15, under a Financing Agreement (Attachment 5) between the City and the developer, the City will vacate portions of the current sidewalk areas; along Tahquitz Canyon Way, the City will also vacate portions of current sidewalk areas along Parcels 3, 4, and 12. These areas will be rededicated to the City as easements for sidewalks and pedestrian rights-of-way upon completion of construction activities on these parcels. In addition to the above-mentioned areas, the City will acquire Parcels 8, 9, 10 and 11.

Property Development Standards

The Museum Market Plaza Specific Plan standards and guidelines govern the development of the site. The standards to be evaluated are:

- Permitted and Conditionally Permitted Uses
- Setbacks, Overall Building Height and Stepbacks
- Maximum Allowed Square Footage and Building Mass
- Projections Above Building Height or into Rights-of-Way
- Open Space
- Building Articulation
- Parking and Trash Enclosures

It should be noted that the blocks proposed on the Tentative Parcel Map vary from those shown on the Specific Plan. On October 17, 2012, the proposal was reviewed by the City Council under Section V.2 "Conformity Review Procedure". Since the public parking and a portion of the Desert Fashion Plaza (Block A) are proposed to be retained, the proposal was accepted by the Council as a renovation project, and further determined to be conforming to the Specific Plan. Consequently, staff has approached the project's review against the Specific Plan's development standards with some flexibility, as further explained below.

Permitted and Conditionally Permitted Uses

Permitted and conditionally permitted uses by the Specific Plan are found on the table attached to this report as Exhibit 3. In addition, there are "ground floor use limitations" (Section III.E.1) which require that street frontages be reserved for retail and tourist-oriented goods and services. Based on staff's understanding of the project, the proposal is expected to conform to the allowed uses, including the hotel. The buildings are generally oriented for retail commercial, restaurant and upstairs office uses. Final review and approval of specific uses will be undertaken at the time any business license application or other zoning clearance is submitted by future tenants.

Setbacks and Overall Building Height

The setbacks required by the Specific Plan for these applications may be summarized as follows: For Palm Canyon, 15 feet; for all other streets, 12 feet; and for interior property lines, zero setback. The following table summarizes actual and required setbacks:

Block and Street	Provided (Ft)	Required Setback (Ft.)
Block "A"		
N. Palm Canyon Drive	17	15
Andreas Road	12	12
Belardo Road	17	12
Interior Line (north side)	0	0
Block "b"		
N. Palm Canyon Drive	18	15
New Main Street	14	12
Interior Line (west side)	0	0
Andreas Road	15	12
Block "b-1"		
New Main Street	***1***	12
Belardo Road	***0***	12
Andreas Road	***7***	12
Interior Line (east side)	35	0

Block and Street	Provided (Ft)	Required Setback (Ft)
Block "c"		
N. Palm Canyon Drive	15	15
Tahquitz Canyon Way	94	12
Interior Line (west side)	0	0
New Main Street	12	12
Block "c-1"		
Tahquitz Canyon Way	15	12
Belardo Road	***7***	12
New Main Street	***10***	12
Interior Line (east side)	0	0

As noted in bold / italics, Block "b-1" and "c-1" provide less setbacks than required. The applicant has requested the identified reductions for Block "c-1" through the hotel Planned Development, but no reductions have been sought for Block "b-1".

Stepbacks

Stepbacks are intended to provide additional distance from the street for taller building elements to improve long-distance views and reduce any 'canyon effect' for pedestrians. The Specific Plan defines stepbacks as, "...the horizontal distance a building face must be set back from the property line at each given height." Different stepbacks have been adopted for the various streets in the Specific Plan area, and the following chart shows the actual and required stepbacks for the proposed project:

Block and Street	Provided (Ft) Height / Stepback	Required (Ft.) Height / Stepback
Block "A"		
N. Palm Canyon Drive	Height under 30 ft.	30 / 20
Andreas Road	Height under 30 ft.	30 / 10
Belardo Road	Height under 30 ft.	30 / 15
Block "b"		
N. Palm Canyon Drive	70	30 / 20
New Main Street	15	30 / 10
Andreas Road	14	30 / 10
Block "b-1"		
New Main Street	***1***	30 / 10
Belardo Road	***0***	30 / 15
Andreas Road	***7***	30 / 10

Block and Street	Provided (Ft) Height / Stepback	Required (Ft.) Height / Stepback
Block "c"		
N. Palm Canyon Drive	18	30 / 20
Tahquitz Canyon Way	217	35 / 20
New Main Street	11	30 /10
Block "c-1"		
Tahquitz Canyon Way	***15***	35 / 20
Belardo Road	***7***	30 / 15
New Main Street	10	30 / 10

Again, Blocks "b-1" and "c-1" have non-conforming conditions. The Planned Development Permit for the hotel may be used to allow the Block "c-1" encroachments. Block "b-1" must be redesigned or the application amended.

Building Height
The maximum allowed building height for the Specific Plan is generally 60 feet, but there are exceptions:

Block	Provided (Ft)	Maximum Allowed Building Height (Ft)
A	20.5	60
b	***38***	16 (former Block B)
b-1	***39***	16 (former Block B)
c	46.5	60
c-1	***81.5***	60

The Specific Plan envisioned Block B as a green space with few buildings. On October 17, 2012, the City Council's deemed the present plan (including development of Block "b / b-1") to be conforming, requiring that flexibility be used in applying the Plan's Block B standards. Staff believes that the general height standards (max. 60 feet) can apply to Block "b / b-1", which would make the two proposed buildings conforming. The height in Block "c-1" may be addressed through the hotel Planned Development Permit.

Projections above Height or into Rights-of-Way
The Specific Plan allows limited projections above the maximum building height (vertical projections) or into street rights-of-way (horizontal projections). Vertical projections may not exceed fifteen (15) feet above the building height. Horizontal projections are allowed as:

- Awnings or architectural features (no more than 10 feet into the ROW),
- Porticos (not exceeding 20% of the building's linear frontage), or
- Balconies and terraces (not more than six (6) feet into the ROW)

Since the map proposes a revision to property boundaries, staff has concluded that no ROW encroachments (horizontal projections) are evident in any of the blocks. Vertical projections above the building heights are:

Block	Provided (Ft)	Maximum Above Building Height (Ft)
A	+ 8	+ 15
b	+ 7	+ 15
b-1	+ 9	+ 15
c	+ 7	+ 15
c-1	+ 8	+ 15

The project conforms to this standard.

Maximum Allowed Square Footage and Building Mass
The Specific Plan establishes limits for development intensity using standards for maximum square footage (floor area) and maximum building mass (volume). The applicant has not submitted information on building mass, so only square footage can be analyzed at this time:

Block	Provided (Sq Ft)	Maximum Allowed Floor Area (Sq Ft)
A	52,507	220,000
b / b-1	75,562	3,000
c / c-1	223,900	245,000

As with building height, staff has concluded that the maximum allowed floor area standard must be treated with some flexibility based on the Council's action of October 17, 2012. While transfers of square footage between blocks is permitted by the Specific Plan, such transfers are limited to no more than 15%. Staff believes that a larger transfer may be recognized between Blocks "A" and "b / b-1" so long as the maximum sum allowed on the two blocks is not exceeded. Such is the case with the proposal and staff believes that it can be determined to be conforming.

Open Space
A minimum amount of open space is required by the Specific Plan in each Block:

Block	Provided (%)	Minimum Open Space (%)
A	21.6	10
b / b-1	33.1	90
c	47.1	10
c-1	40.3	10

Here is another case where the Block B standards from the Specific Plan require interpretation and a flexible approach. Block "b / b-1" has been accepted by the City Council as appropriate for more intensive development under the proposed renovation plan. Consequently, a lower percentage more closely aligned with the other blocks is

appropriate. Since all blocks provide open space in a range from 20 to over 45%, the project overall can be considered conforming to the Specific Plan.

Building Articulation
Standards for the articulation of building facades are established in the Specific Plan to avoid excessive uniformity / monotony. An articulation may either protrude or recess at least two (2) feet from adjoining wall surfaces, and at intervals of no less than sixty (60 feet across an exterior elevation. Staff has reviewed the proposed elevations and determined that the upper floor west elevations of both buildings on Blocks "b" and "b-1" lack sufficient articulation to meet the standard. These conditions may be resolved with further design work through the architecture review process. All other building facades provide the minimum articulation specified in the Plan.

Parking, Loading and Trash Enclosures
The parking standards for the project as established in the Specific Plan are relatively straitforward: Hotels must provide one vehicle space for each room and all other uses must provide one space for each 325 square feet of floor area. Staff has calculated the parking requirement for the project:

Block and Floor Area (Sq Ft) / Rooms		Required (No. of Spaces)
A	52,507 ÷ 325	162
b	42,082 ÷ 325	129
b-1	33,480 ÷ 325	103
c	45,937 ÷ 325	141
c-1	14,107 ÷ 325	43
c-1	185 Hotel Rooms	185
Required Parking **TOTAL**		**793**

Staff notes that there are approximately eleven hundred (1,100) public parking spaces within the Specific Plan area. Further, the project is deemed by the City Council to be sufficiently supplied with parking via these public parking facilities. Consequently the parking demand is considered to be met.

Loading facilities and trash enclosure are shown throughout the project, and will be further discussed following review by the Architectural Advisory Committee.

Design Review
The Specific Plan includes guidelines for Architecture, Streetscapes, Open Space and Landscaping. Staff will develop additional information for the Architectural Advisory Committee and the Planning Commission for subsequent review.

CITY OF PALM SPRINGS

CASE NO: CASE 5.1290-PDD 361 & TPM 36446

APPLICANT: Wessman Development

DESCRIPTION: Applications to develop a hotel in excess of 60 feet and to subdivide the Museum Market Plaza property into 13 parcels for future development and 4 lots for public infrastructure. The approximate 13.57-acre property is located at 101 & 123 South Palm Canyon Drive.

C. Uses

1. Allowable Uses

Uses permitted within the Specific Plan are listed in Table III-I. If a proposed use is not listed in the Table, the Planning Director shall, upon written request and in conformance with the provisions of Section 94.01.02 of the Palm Springs Zoning Ordinance, review the proposed unlisted use and determine whether it is permitted, requires a Conditional Use Permit or is prohibited.

According to the provisions of the General Plan, supermarket uses are prohibited in the downtown area. However, in view of the potential for residential uses, an appropriately located supermarket may be accepted in the Specific Plan.

All uses listed in the Table will be applied to requests for new development, alteration or expansion of existing uses, tenant improvements resulting in a listed use, or change in occupancy.

In accordance with Section 9404.00 of the Palm Springs Zoning Ordinance, all new structures for permitted uses require Major Architectural Approval to be granted by the Planning Commission.

I declare under penalty of perjury that the foregoing is true and correct.

Joanne Bruggemans
Senior Secretary

AFFIDAVIT OF POSTING

I, Joanne Bruggemans, Senior Secretary, of the City of Palm Springs, California, do hereby certify that a copy of the attached Notice of Public Hearing was posted at City Hall, 3200 East Tahquitz Canyon Drive, on the exterior legal notice posting board and in the Office of the City Clerk on November 1, 2012.

I declare under penalty of perjury that the foregoing is true and correct.

Joanne Bruggemans
Senior Secretary

NOTICE OF PUBLIC HEARING
PLANNING COMMISSION
CITY OF PALM SPRINGS

CASE NOS. 5.1290-PDD 361 & TPM 36446
THE MUSEUM MARKET PLAZA BY WESSMAN DEVELOPMENT
101 & 123 NORTH PALM CANYON DRIVE

NOTICE IS HEREBY GIVEN that the Planning Commission of the City of Palm Springs, California, will hold a public hearing at its meeting of November 14, 2012. The Planning Commission meeting begins at 1:30 p.m., in the Council Chamber at City Hall, 3200 East Tahquitz Canyon Way, Palm Springs.

The purpose of this hearing is to consider applications by Wessman Development for a Tentative Parcel Map (TPM 36446) to subdivide the property of an approximately 13.57 acres into 13 parcels for development and 4 lots for public infrastructure and a Planned Development District (PDD 361) for a hotel in excess of 60 feet in height as allowed under the provisions of Museum Market Plaza Specific Plan. The Planning Commission will also consider Major Architectural applications for other components of the project. The site is located at the northwest corner of West Tahquitz Canyon Way and North Palm Canyon Drive.

ENVIRONMENTAL DETERMINATION: An Addendum to a Final Environmental Impact Report was previously approved by the City Council on October 17, 2012 for the subject site. The City Council certified that the certified Specific Plan EIR and the Addendum together are adequate to support approval of each component of the proposed Downtown Palm Springs project, any minor modifications to the project, and any future discretionary approvals needed to implement the Downtown Palm Springs Project. The certified Final EIR and approved Addendum are proposed to be used as the environmental document for this project.

REVIEW OF PROJECT INFORMATION: The staff report and other supporting documents regarding this project are available for public review at City Hall between the hours of 8:00 a.m. to 11:00 a.m. and 2:00 p.m. to 6:00 p.m., Monday through Thursday. Please contact the Office of the City Clerk at (760) 323-8204 if you would like to schedule an appointment to review these documents.

COMMENT ON THIS APPLICATION: Response to this notice may be made verbally at the Public Hearing and/or in writing before the hearing. Written comments may be made to the Planning Commission by letter (for mail or hand delivery) to:

James Thompson, City Clerk
3200 E. Tahquitz Canyon Way
Palm Springs, CA 92262

Any challenge of the proposed project in court may be limited to raising only those issues raised at the public hearing described in this notice, or in written correspondence delivered to the City Clerk at, or prior, to the public hearing. (Government Code Section 65009[b][2]).

An opportunity will be given at said hearing for all interested persons to be heard. Questions regarding these cases may be directed to Craig A. Ewing, AICP, Director of Planning Services, or Edward Robertson, Principal Planner, at (760) 323-8245.

Si necesita ayuda con esta carta, porfavor llame a la Ciudad de Palm Springs y puede hablar con Nadine Fieger telefono (760) 323-8245.

	9.		Non-Action Item Committee Member Discussion

Estimated time of Adjournment – 5:15 pm

ADJOURNMENT: The Architectural Advisory Committee will adjourn to Monday, November 19, 2012, at 3:00 p.m., City Hall, Council Chamber, 3200 E. Tahquitz Canyon Way.

CHAIRMAN / COMMISSIONER / STAFF COMMENTS:

CITY OF PALM SPRINGS

DEPARTMENT OF PLANNING SERVICES

MEMORANDUM

Date: November 13, 2012

To: Architectural Advisory Committee

From: Edward O. Robertson, Principal Planner

Subject: Downtown Palm Springs Project

Introduction:

The proposal is made up of applications for a tentative parcel map and zoning entitlements filed by Wessman Development Company to subdivide and develop the approximately 13.67-acre Desert Fashion Plaza property. The map would divide the site into thirteen (13) parcels for future development and four (4) lettered lots for public access ways. The entitlements are for architectural approval of the proposed buildings, including a Planned Development District for a hotel exceeding 60 feet in height. The Desert Fashion Plaza property is located along the northwest corner of North Palm Canyon Drive and West Tahquitz Canyon Way.

Environmental Assesmant:

A Final Environmental Impact Report was certified by the City Council for the Museum Market Plaza Specific Plan on December 2, 2009. The City Council on October 17, 2012 reviewed and certified an Addendum to the Specific Plan Final EIR and concluded that it is an adequate and complete environmental document for the proposed project. The City proposes to use the Final EIR and Addendum as the environmental document for this project.

Background:

The Museum Market Plaza is located in the heart of the City's Business District, specifically at the northwest corner of North Palm Canyon Drive and West Tahquitz Canyon Way. The irregularly shaped property is bounded by Belardo Road to the north, Tahquitz Canyon Way to the south, Museum Drive to the west and North Palm Canyon Drive to the east. The original Desert Fashion Plaza was built in the late 1960s; since then there have been several renovations and additions especially around the 1980s. A

portion of the property that was once occupied by Bank of America was recently demolished as part of the preparations for the redevelopment of the site. The Tentative Parcel Map is required to reconfigure the site for development and financing purposes.

Table 2: Surrounding land uses, General Plan, Zoning

	Land Use	General Plan	Zoning
North	Hyatt Hotel & Retail & Comm.	CBD & Open Space	C-B-D
South	Retail / Commercial Buildings	CBD & Small Hotels	R-3
East	Retail / Commercial Uses	CBD	C-B-D
West	Palm Springs Art Museum	Public/Quasi-Public	C-B-D

The proposed tentative parcel map (TTM 36446) is a request for the creation of thirteen (13) parcels for future development and four (4) lots for public street right-of-way. The proposed parcels will range from approximately 10,935 square feet to 66,940 square feet in size. Lots A, B, C and D represent the street rights-of-way, and they range from 4,752 square feet to 30,399 square feet in size.

There are four zoning entitlements associated with the project: Three Major Architectural Approvals and a Planned Development District.

Major Architectural Approval 3.3605 / Block A

This site is located adjacent to the existing Hyatt Suites Hotel, fronts N. Palm Canyon Drive and extends to Andreas and Belardo Roads (both new). The block is presently developed with the former Saks Fifth Avenue building and this structure is to be retained and repurposed for retail use. No new square footage is to be added to the existing one-story, 52,608 sf building. New exterior building facades are proposed and the interior will be demised to allow multiple retail and food service tenants. The building maintains a height of 28 feet and lot coverage of about 78% of the block. The remainder of the site is divided between landscaping (10%) and paving (12%).

Major Architectural Approval 3.3606 / Block B

Block B is immediately south of Block A, fronting N. Palm Canyon Drive to the east, Belardo Road (new) to the west, and between Andreas Road (new) and a new street between N. Palm Canyon and the Palm Springs Art Museum. Two buildings are proposed, with a maximum of two-stories and 45 feet in height. Total square footage is 75,636 and the uses will be retail and restaurant. The buildings are oriented in a north-south direction, each fronting either N. Palm Canyon Drive or Belardo Road (new). Between these buildings a private street is proposed to provide vehicular and pedestrian access, but which can also be closed to traffic as a festival / event space. The buildings will cover about 66% of the site, with landscaping covering 25% and streets and paving 9%.

Major Architectural Approval 3.3607 / Block C-1

At the corner of W. Tahquitz Canyon Way and N. Palm Canyon, Block C is proposed to be divided into two projects. Block C-1 will include buildings ranging from one to three stories, with a maximum height of 52 feet. The buildings are oriented to W. Tahquitz

Canyon Way and N Palm Canyon Drive, but also to the public open space in the middle of the Block. Uses will be retail, restaurant and office, totaling 57,050 square feet. Building coverage is 67% of this portion of Block C, with 26% landscaping and 7% paving.

Planned Development District PD 361 / Block C-2

A hotel is proposed on the westerly (back) half of Block C, with the entry fronting on W. Tahquitz Canyon Way. The main portion of the hotel runs along the east side of Belardo Road (new) and rises to a height of approximately 89 feet. Total square footage is 140,272, including the following uses:

Hotel – 117,978 sf
Restaurant – 8,512 sf
Retail – 5,595 sf
Assembly – 8,187 sf

The building footprint will cover about 51% of the site; landscaping will comprise about 26% of the site; and another 23% will be devoted to streets other paving.

Analysis:

The General Plan policies and zoning will be governed by the development standards and guidelines of the Museum Market Plaza Specific Plan. The Central Business District allows a minimum lot size of 9,600 square feet, with a minimum lot width of 75 feet, and minimum lot depth of 128 feet. The proposed mixed-use lot sizes will range from 10,935 to 66, 940 square feet; the public access lots (lettered lots A-D) sizes will range from 4,752 square feet to 30,399 square feet in size, additional analysis are provided below. All other development standards in the new subdivision will be consistent with the General Plan and the Specific Plan.

Site Layout / Access:

The most notable physical changes in the layout of the proposed parcel map are the lots designated for public roads.

- Lot A, will be developed as public access linking Palm Canyon Drive to Museum Drive
- Lots B and C will extend Belardo Road north of Tahquitz Canyon Way.
- Lot D will be an additional linkage from Palm Canyon Drive to the Belardo Road extension.
- Parcel 17 is a private alley way designed to connect the future street on Lot D to the future street on Lot A.

These new streets, with the exception of the alley way (Parcel 17), will be owned and maintained by the City; the developer will have air rights to these parcels. In addition, the City will also own Parcels 8, 9, 10, and 11; currently, these parcels contain the subterranean and above ground parking structures (see attached).

Vacations and Acquisitions:

To accommodate future development along the frontage of proposed Parcels 1, 2, 12, 13 and 15, under a Financing Agreement between the City and the developer, the City will vacate portions of the current sidewalk areas; along Tahquitz Canyon Way, the City

will also vacate portions of current sidewalk areas along Parcels 3, 4, and 12. These areas will be rededicated to the City as easements for sidewalks and pedestrian rights-of-way upon completion of construction activities on these parcels. In addition to the above-mentioned areas, the City will acquire Parcels 8, 9, 10 and 11. The existing Desert Fashion Plaza parking facilities are located on these parcels.

Property Development Standards:
The Museum Market Plaza Specific Plan standards and guidelines will be used to evaluate the proposed development. Staff will prepare an analysis of the project against these standards and guidelines for the Committee's review at upcoming meetings.

Recommendation:

Recommendations from the AAC will be forwarded to the Planning Commission for a final action.

PLANNING COMMISSION
CITY OF PALM SPRINGS, CALIFORNIA

3200 East Tahquitz Canyon Way, Palm Springs, California
City Hall, Council Chamber
www.palmspringsca.gov

AGENDA

Wednesday, November 7, 2012	1:30 PM Study Session

CALL TO ORDER:

ROLL CALL:

REPORT OF POSTING OF AGENDA: Agenda available for public access at the City Hall exterior bulletin board (west side of Council Chamber) and the Planning Services counter by 5:00 p.m. on Thursday, November 1, 2012. A posting of this agenda can be found on the City's website at: www.palmspringsca.gov. Pursuant to G.C. Section 54957.5 the designated office for inspection of public records in connection with the public meeting of the Planning Commission is the Office of the City Clerk, City Hall, located at 3200 East Tahquitz Canyon Way, Palm Springs, California.

It is the intention of the City of Palm Springs to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, or in meetings on a regular basis, you will need special assistance beyond what is normally provided, the City will attempt to accommodate you in every reasonable manner. Please contact the Planning Department, (760) 323-8245, at least 48 hours prior to the meeting to inform us of your particular needs and to determine if accommodation is feasible.

If any individual or group challenges the action in court, issues raised may be limited to only those issues raised at the Public Hearing described in this notice or in written correspondence at, or prior to, the Planning Commission meeting.

Please silence all cell phones, pagers and/or other electronic devices for the duration of the meeting.

ACCEPTANCE OF THE AGENDA: The Planning Commission will discuss the order of the agenda, may amend the order, note abstentions and request Consent Calendar items be removed from the consent calendar for discussion.

PUBLIC COMMENTS: This time has been set aside for members of the public to address the Planning Commission on Consent Calendar and other agenda items; and items of general interest within the subject matter jurisdiction of the Commission. Please note that the Planning Commission is prohibited from taking action on items not listed on the posted agenda. Three (3) minutes is allowed for each speaker. Testimony for Public Hearings maybe offered at this time or at the time of the hearing.

1. **DISCUSSION:** Applications by Wessman Development for development of the Downtown Palm Springs project at 123 N. Palm Canyon Drive / northwest corner of W. Tahquitz Canyon Way and N. Palm Canyon Drive:

a. A Tentative Parcel Map (TPM 36446) to subdivide the Museum Market Plaza property of approximately 13.57 acres into 13 parcels for development and 4 lots for public infrastructure,
b. A Planned Development District (5.1290 –PDD 361) for a hotel in excess of sixty (60) feet in height as allowed under the provisions of Museum Market Plaza Specific Plan, and
c. Major Architectural Applications (MAJ 3.3605, 3.3606, and 3.3607) for Blocks A, B and C-1 of the site.

2. **DISCUSSION:** Time Extension Requests – New formats and requirements for the extensions of previously approved projects.

PLANNING COMMISSION COMMENTS: This portion of the meeting is set aside for brief general comments and/or other issues of concern from members of the Planning Commission.

PLANNING DIRECTOR'S REPORT: This time is set aside for the Planning Director to update the Planning Commission on important items initiated by staff or members of the City Council.

ADJOURNMENT: The Planning Commission will adjourn to a regular meeting on Wednesday, November 14, 2012, at 1:30 p.m., City Hall, Council Chamber, 3200 East Tahquitz Canyon Way.

ADDED STARTERS: If there are added starters, action is required to determine eligibility for consideration.

Motion Leslie Munger, seconded by J.R. Roberts and carried 5-2 on a roll call vote.

AYES: Leslie Munger, Philip Klatchko, J.R. Roberts, Chair Donenfeld, Vice Chair Hudson
NOES: Lyn Calerdine, Kathy Weremiuk

2D. Case TTM 36446 - An application by Wessman Development for Tentative Tract Map 36446 to subdivide the Museum Market Plaza of approximately 13.57 acres into 17 parcels for future development and 4 lots for public infrastructure. A Specific Plan was previously adopted for the site. (Project Planner: Edward Robertson)

Commissioner Klatchko noted his absention due to a business-related conflict of interest.

ACTION: To continue the hearing to an indefinite date.

Motion Chair Donenfeld, seconded by Leslie Munger and carried 6-0 on a roll call vote.

AYES: Leslie Munger, J.R. Roberts, Chair Donenfeld, Vice Chair Hudson, Lyn Calerdine, Kathy Weremiuk
ABSTAIN: Philip Klatchko

PLANNING COMMISSION COMMENTS:

The Commission commented on the following items:

1. A request for full scale plans and color pictures for major projects to be provided to the Commission.
2. Thanked staff and enforcement for removal of the double-sign at the shopping center on Sunrise Way and Vista Chino.

PLANNING DIRECTOR'S REPORT:

The Commission discussed the City Council meeting scheduled for October 3, 2012 to discuss the Museum Market Plaza.

Commissioner Munger commented that she would be out of town on October 3rd.

Please note that the Planning Commission is prohibited from taking action on items not listed on the posted agenda. Three (3) minutes is allowed for each speaker. Testimony for Public Hearings maybe offered at this time or at the time of the hearing.

1. OTHER BUSINESS:

1A. Case 5.1029 PD 315 – A request by Arroyo Vista Partners, LLC, for minor amendments to the previously approved Palermo Mixed Use Development located at the northeast corner of Indian Canyon Drive and San Rafael Drive, Zone PD

315, Section 35. (Project Planner: Edward Robertson, Principal Planner) (*Cont'd from the meeting of September 12, 2012.)*

Recommendation: That the Planning Commission approve the proposed phasing plans and the conversion of the six model units subject to the conditions of approval.

1B. Case 5.0856 CUP – A request by Freeway Development, LLC, for a one-year time extension for a previously approved Conditional Use Permit for a 65-unit hotel with two drive-thru restaurants located at 610 West Garnet Avenue, Zone M-1-P, Section 15. (Project Planner, Glenn Mlaker, AICP, Assistant Planner)

Recommendation: That the Planning Commission approve a one-year time extension from August 13, 1012 to August 12, 2013.

2. PUBLIC HEARINGS:

2A. Case 5.1284 PDD 360 A preliminary and final Planned Development District (PDD) application seeking approval for a 32-room hotel with accessory restaurant and retail uses, parking and landscaping on a roughly 1.27 acre lot at1551 North Palm Canyon Drive; Zone C-1 / R-3, Resort Combining Zone. (Ken Lyon, Associate Planner).

Recommendation: To continue to a date certain of Wednesday, October 10, 2012.

2B. Case 5.1160 PDD 341 AMND B / TPM 35989 (Vivante Palm Springs) – An amendment by O & M Tahquitz, LLC (Nexus Development) to a previously approved Planned Development District to allow a 132-unit assisted living facility and three commercial buildings on a 10-acre site located at the northwest corner of Tahquitz Canyon Way and Hermosa Drive in Section 14. (Project Planner: David A. Newell, Associate Planner).

Recommendation: That the Planning Commission approve the amendment as prepared and recommend approval to the City Council.

2C. Case 5.1202-B - An application by the City of Palm Springs to amend the Palm Springs Zoning Code relating to portable open signs in commercial areas of the City. (Craig A. Ewing, AICP, Director of Planning Services)

Recommendation: That the Planning Commission conduct a public hearing and forward its recommendation to the City Council.

2D. Case TTM 36446 – An application by Wessman Development for Tentative Tract Map 36446 to subdivide the Museum Market Plaza of approximately 13.57 acres into 17 parcels for future development and 4 lots for public infrastructure. A Specific Plan was previously adopted for the site. (Project Planner: Edward Robertson)

Recommendation: That the Planning Commission recommend approval of tentative tract map 36446 (TTM 36446) to the City Council as proposed.

PLANNING COMMISSION COMMENTS: This portion of the meeting is set aside for brief general comments and/or other issues of concern from members of the Planning Commission.

PLANNING DIRECTOR'S REPORT: This time is set aside for the Planning Director to update the Planning Commission on important items initiated by staff or members of the City Council.

ADJOURNMENT: The Planning Commission will adjourn to 1:30 p.m., Wednesday, October 10, 2012, City Hall, Council Chamber, 3200 East Tahquitz Canyon Way.

ADDED STARTERS: If there are added starters, action is required to determine eligibility for consideration.

CITY OF PALM SPRINGS

DEPARTMENT OF PLANNING SERVICES

MEMORANDUM

Date: September 26, 2012

To: Planning Commission

From: Edward O. Robertson, Principal Planner

Subject: A request to continue Wessman Development TPM 36446 hearing

---

The applicant, Wessman Development, has requested that the hearing of the proposed tentative parcel map for the Desert Fashion Plaza scheduled for September 26, 2012, be continued indefinitely. According to the applicant, more time is needed to make necessary changes to the tentative parcel map.

Recommendation: That the Commission not take testimony and continue the item to an indefinite date. Noticing and publication of a new hearing date will be made when the applicant submits a complete revised map.

CITY OF PALM SPRINGS
PUBLIC HEARING NOTIFICATION

PLANNING SERVICES DEPARTMENT
Craig Ewing, Director of Planning Services

Meeting Date: September 26, 2012

Subject: Case TPM 36446 – Wessman Development

AFFIDAVIT OF MAILING

I, Joanne Bruggemans, Senior Secretary of the City of Palm Springs, California, do hereby certify that a copy of the attached Notice of Public Hearing was mailed to each and every person on the attached list on September 13, 2012 in a sealed envelope, with postage prepaid, and depositing same in the U.S. Mail at Palm Springs, California. (66 notices)

I declare under penalty of perjury that the foregoing is true and correct.

Joanne Bruggemans
Senior Secretary

AFFIDAVIT OF PUBLICATION

I, Joanne Bruggemans, Senior Secretary, of the City of Palm Springs, California, do hereby certify that a copy of the attached Notice of Public Hearing will be published in the Desert Sun on September 15, 20121.

I declare under penalty of perjury that the foregoing is true and correct.

Joanne Bruggemans
Senior Secretary

AFFIDAVIT OF POSTING

I, Joanne Bruggemans, Senior Secretary, of the City of Palm Springs, California, do hereby certify that a copy of the attached Notice of Public Hearing was posted at City Hall, 3200 East Tahquitz Canyon Drive, on the exterior legal notice posting board and in the Office of the City Clerk on September 13, 2012.

I declare under penalty of perjury that the foregoing is true and correct.

Joanne Bruggemans
Senior Secretary

NOTICE OF PUBLIC HEARING
PLANNING COMMISSION
CITY OF PALM SPRINGS

TENTATIVE PARCEL MAP 36446
WESSMAN DEVELOPMENT
101 & 123 NORTH PALM CANYON DRIVE

NOTICE IS HEREBY GIVEN that the Planning Commission of the City of Palm Springs, California, will hold a public hearing at its meeting of September 26, 2012. The Planning Commission meeting begins at 1:30 p.m., in the Council Chamber at City Hall, 3200 East Tahquitz Canyon Way, Palm Springs.

The purpose of this hearing is to consider an application by Wessman Development for Tentative Parcel Map 36446 to subdivide the Museum Market Plaza property of approximately 13.57 acres into 17 parcels for future development and 4 lots for public infrastructure. A Specific Plan with established development guidelines and standards was previously approved for the subject site.

ENVIRONMENTAL DETERMINATION: A Final Environmental Impact Report was previously adopted by the City Council in 2009 for the subject site. Pursuant to Section 15162 of the California Environmental Quality Act (CEQA), the preparation of further documentation is not necessary since the circumstances surrounding the project are not likely to change as a result of the proposed parcel map. The subdivision of the property could not intensify the proposed use, and could not result in any new environmental impacts beyond those already identified and assessed in the certified Final Environmental Impact Report.

REVIEW OF PROJECT INFORMATION: The staff report and other supporting documents regarding this are available for public review at City Hall between the hours of 8:00 a.m. to 11:00 a.m. and 2:00 p.m. to 6:00 p.m., Monday through Thursday. Please contact the Office of the City Clerk at (760) 323-8204 if you would like to schedule an appointment to review these documents.

COMMENT ON THIS APPLICATION: Response to this notice may be made verbally at the Public Hearing and/or in writing before the hearing. Written comments may be made to the Planning Commission by letter (for mail or hand delivery) to:

James Thompson, City Clerk
3200 E. Tahquitz Canyon Way
Palm Springs, CA 92262

Any challenge of the proposed project in court may be limited to raising only those issues raised at the public hearing described in this notice, or in written correspondence delivered to the City Clerk at, or prior, to the public hearing. (Government Code Section 65009[b][2]).

An opportunity will be given at said hearing for all interested persons to be heard. Questions regarding this case may be directed to Edward Robertson, Principal Planner, Planning Services Department, at (760) 323-8245.

Si necesita ayuda con esta carta, porfavor llame a la Ciudad de Palm Springs y puede hablar con Nadine Fieger telefono (760) 323-8245.

James Thompson, City Clerk

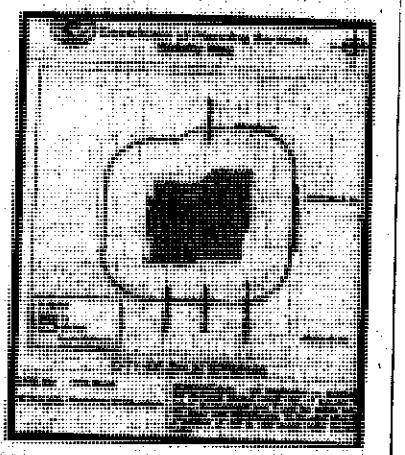
NOTICE OF PUBLIC HEARING
PLANNING COMMISSION
CITY OF PALM SPRINGS

TENTATIVE PARCEL MAP 36446
WESSMAN DEVELOPMENT
101 & 123 NORTH PALM CANYON DRIVE

NOTICE IS HEREBY GIVEN that the Planning Commission of the City of Palm Springs, California, will hold a public hearing at its meeting of September 26, 2012. The Planning Commission meeting begins at 1:30 p.m., in the Council Chamber at City Hall, 3200 East Tahquitz Canyon Way, Palm Springs.

The purpose of this hearing is to consider an application by Wessman Development for Tentative Parcel Map 36446 to subdivide the Museum Market Plaza property of approximately 13.57 acres into 17 parcels for future development and 4 lots for public infrastructure. A Specific Plan with established development guidelines and standards was previously approved for the subject site.



ENVIRONMENTAL DETERMINATION: A Final Environmental Impact Report was previously adopted by the City Council in 2009 for the subject site. Pursuant to Section 15162 of the California Environmental Quality Act (CEQA), the preparation of further documentation is not necessary since the circumstances surrounding the project are not likely to change as a result of the proposed parcel map. The subdivision of the property could not intensify the proposed use, and could not result in any new environmental impacts beyond those already identified and assessed in the certified Final Environmental Impact Report.

REVIEW OF PROJECT INFORMATION: The staff report and other supporting documents regarding this are available for public review at City Hall between the hours of 8:00 a.m. to 11:00 a.m. and 2:00 p.m. to 6:00 p.m., Monday through Thursday. Please contact the Office of the City Clerk at (760) 323-8204 if you would like to schedule an appointment to review these documents.

COMMENT ON THIS APPLICATION: Response to this notice may be made verbally at the Public Hearing and/or in writing before the hearing. Written comments may be made to the Planning Commission by letter (for mail or hand delivery) to:

James Thompson, City Clerk
3200 E. Tahquitz Canyon Way
Palm Springs, CA 92262

Any challenge of the proposed project in court may be limited to raising only those issues raised at the public hearing described in this notice, or in written correspondence delivered to the City Clerk at, or prior, to the public hearing. (Government Code Section 65009[b][2]).

An opportunity will be given at said hearing for all interested persons to be heard. Questions regarding this case may be directed to Edward Robertson, Principal Planner, Planning Services Department, at (760) 323-8245.

Si necesita ayuda con esta carta, porfavor llame a la Ciudad de Palm Springs y puede hablar con Nadine Fleger telefond (760) 323-8245.

James Thompson, City Clerk

NOTICE OF PUBLIC HEARING
PLANNING COMMISSION
CITY OF PALM SPRINGS

TENTATIVE PARCEL MAP 36446
WESSMAN DEVELOPMENT
101 & 123 NORTH PALM CANYON DRIVE

NOTICE IS HEREBY GIVEN that the Planning Commission of the City of Palm Springs, California, will hold a public hearing at its meeting of September 26, 2012. The Planning Commission meeting begins at 1:30 p.m., in the Council Chamber at City Hall, 3200 East Tahquitz Canyon Way, Palm Springs.

The purpose of this hearing is to consider an application by Wessman Development for Tentative Parcel Map 36446 to subdivide the Museum Market Plaza property of approximately 13.57 acres into 17 parcels for future development and 4 lots for public infrastructure. A Specific Plan with established development guidelines and standards was previously approved for the subject site.

ENVIRONMENTAL DETERMINATION: A Final Environmental Impact Report was previously adopted by the City Council in 2009 for the subject site. Pursuant to Section 15162 of the California Environmental Quality Act (CEQA), the preparation of further documentation is not necessary since the circumstances surrounding the project is not likely to change as a result of the proposed parcel map. The subdivision of the property could not intensify the proposed use, and could not result in any new environmental impacts beyond those already identified and assessed in the certified Final Environmental Impact Report.

REVIEW OF PROJECT INFORMATION: The staff report and other supporting documents regarding this are available for public review at City Hall between the hours of 8:00 a.m. to 11:00 a.m. and 2:00 p.m. to 6:00 p.m., Monday through Thursday. Please contact the Office of the City Clerk at (760) 323-8204 if you would like to schedule an appointment to review these documents.

COMMENT ON THIS APPLICATION: Response to this notice may be made verbally at the Public Hearing and/or in writing before the hearing. Written comments may be made to the Planning Commission by letter (for mail or hand delivery) to:

James Thompson, City Clerk
3200 E. Tahquitz Canyon Way
Palm Springs, CA 92262

Any challenge of the proposed project in court may be limited to raising only those issues raised at the public hearing described in this notice, or in written correspondence delivered to the City Clerk at, or prior, to the public hearing. (Government Code Section 65009[b][2]).

An opportunity will be given at said hearing for all interested persons to be heard. Questions regarding this case may be directed to Edward Robertson, Principal Planner, Planning Services Department, at (760) 323-8245.

Si necesita ayuda con esta carta, porfavor llame a la Ciudad de Palm Springs y puede hablar con Nadine Fieger telefono (760) 323-8245.

1. CONSENT CALENDAR:

ACTION: To approve Items 1A and 1B, as part of the Consent Calendar.

Motion Lyn Calerdine, seconded by J.R. Roberts and unanimously carried 6-0 on a roll call vote.

AYES: Leslie Munger, Tracy Conrad, Philip Klatchko, J.R. Roberts, Vice Chair Hudson, Lyn Calerdine
ABSENT: Chair Donenfeld

1A. Minutes of April 11, 2012

Approved, as amended.

1B. Case 3.3405 MAJ & 6.519 VAR - A request by Ramon Office Building, LLC, for a one-year time extension for the construction of a two-story office building of approximately 21,874 square feet in size on an approximate site area of 65,918 square feet located at 4001 East Ramon Road, Zone P, Section 19. (Project Planner: David A. Newell, Associate Planner)

Approved, as part of the Consent Calendar.

2. OTHER BUSINESS:

2A. Museum Market Plaza Specific Plan - Implementation / Review Process

Commissioners' Klatchko and Conrad left the Council Chamber at 1:33 p.m.

Director Ewing reported this Specific Plan establishes a permit streamlining process which will assure a thorough review of Major Architectural Review, Conditional Use Permit, Conditional Use Permit and Subdivision applications. He noted that a subdivision map has been filed (to reorganize the lot lines within the property) and will come for review by the Planning Commission in a couple of months.

CITY OF PALM SPRINGS
PLANNING COMMISSION MINUTES
April 25, 2012
Council Chamber, City Hall
3200 East Tahquitz Canyon Way
Palm Springs, CA 92262

CALL TO ORDER:

Vice-Chair Hudson called the meeting to order at 1:30 p.m.

ROLL CALL:	**Present This Meeting:**	**Present to Date:**	**FY: 2011/2012 Absences:**
Lyn Calerdine	X	3	0
Tracy Conrad	X	16	2
Philip Klatchko	X	14	4
Leslie Munger	X	16	2
J.R. Roberts	X	18	0
Doug Hudson, Vice Chair	X	15	3
Doug Donenfeld, Chair		17	1

REPORT OF POSTING OF AGENDA:

The Agenda was posted for public access at the City Hall exterior bulletin board (west side of Council Chamber) and the Planning Services counter by 4:00 p.m. on Thursday, April 19, 2012.

ACCEPTANCE OF THE AGENDA:

Commissioner Conrad noted a correction on the minutes of April 11th relating to her attendance. Ms. Conrad stated that she would be abstaining on Item 2A. (the Museum Market Plaza Specific Plan) due to a property-related conflict of interest.

Commissioner Klatchko noted his abstention on Item 2A. (the Museum Market Plaza Specific Plan) due to a business-related conflict of interest. He would be leaving the meeting since this is the last item on the agenda.

Director Ewing provided an overview on the:

-A progressive calculation of building square footage and mass;
-Conformity Review Procedure to be consider by the City Council;
-Phasing
-Schedule of Performance

Commissioner Calerdine requested a copy of the Museum Market Plaza's original submittal. Director Ewing explained that the tentative map is the most accurate layout that has been submitted and noted that the Town and Country Center has not been designated as a historic structure by the City Council.

Director Ewing provided an overview on the procedure for the "Conformity Review". He stated that it is an opportunity for any property owner within the Specific Plan boundary area to request a review to determine that a proposed project is a rehabilitation, renovation and/or remodel of existing buildings and facilities. The City Council will consider whether the proposal furthers the goals or objectives of the Specific Plan.

Vice Chair Hudson requested clarification on the timelines for the construction of the engineering infrastructures. Director Ewing replied that tentative tract map will include a full review and conditions of approval by the Engineering department pertaining to all public improvements.

Director Ewing recommended that the Commission could hold special meetings to review multiple projects within the 45 days of submission. The only prerequisite is a 72-hour notice unless a public hearing is required. Commissioner Roberts requested that once the application submittals are received to schedule the special meetings so the Commission can review the projects.

PLANNING COMMISSION COMMENTS:

No comments were received.

PLANNING DIRECTOR'S REPORT:

Director Ewing reported that 7-Eleven has withdrawn their appeal to the City Council of the Planning Commission's action to deny their request for a conditional use permit. He informed the Commission that the City Council overturned the Commission's action to deny the sign program for the Ralph's / CVS Center and granted approval of the two tenant signs with certain conditions.

ADJOURNMENT:

There being no further comments the Planning Commission adjourned at 2:13 p.m. to Wednesday, May 9, 2012, at 1:30 p.m., City Hall, Council Chamber, 3200 East Tahquitz Canyon Way.

Craig A. Ewing, AICP
Director of Planning Services

CITY OF PALM SPRINGS
DEPARTMENT OF PLANNING SERVICES
MEMORANDUM

Date: April 25, 2012 OTHER BUSINESS

To: The Planning Commission

From: Craig A. Ewing, AICP, Director of Planning Services

Subject: Museum Market Plaza Specific Plan – Implementation / Review Process

---

Later this year, the Planning Commission will review development plans for renovation and reconstruction at the Desert Fashion Plaza site. This memo provides an opportunity for the Commission to consider and discuss the procedures that it will use to review the pending applications. Staff will present an overview of the attached materials to precede the Commission's discussion.

Attachments:

1. Museum Market Plaza Specific Plan, Section V
2. Museum Market Plaza Specific Plan Phasing Plan (Exhibit V-1)
3. Project Financing Agreement (Exhibit D / Performance Schedule)

V. ADMINISTRATION AND IMPLEMENTATION

A. Application Review Process

The implementation tools for the Specific Plan will be Major Architectural Reviews, Conditional Use Permits and subdivision maps. Under certain conditions, Planned Development Permits may be required, if the condition meets the standards of section V-B, below.

The successful implementation of the Museum Market Plaza Specific Plan is critical to the long-term health of downtown Palm Springs. In order to assure an efficient and streamlined entitlement process, applications for areas within the Specific Plan will require special handling. This Specific Plan establishes a permit streamlining process which will assure the thorough review of Major Architectural Review, Conditional Use Permit and subdivision applications.

1. Application Requirements and Process

Major Architectural Review applications will include the following in addition to the materials required as part of a standard Major Architectural Review application:

a. A progressive calculation of building square footage and mass, provided on the site plan. The analysis shall include square footage and mass permitted for the applicable Block under the Specific Plan (Table III-3); square footage and mass approved to date; and square footage and mass proposed with the application.
b. If the project is for hotel or residential use, a progressive calculation of the number of hotel rooms or residential units provided on the site. The analysis shall include rooms or units permitted for the Specific Plan area approved to date and roomr or units proposed with the application.
c. If the project is for retail or office use, a progressive calculation of the square footage provided on the site. The analysis shall include square footage permitted for the Specific Plan area approved to date and square footage proposed with the application.
d. A calculation of parking required, parking provided within the applicable Block, and parking provided elsewhere in the Specific Plan area.
e. If parking is proposed to be located outside the boundaries of the Block where the use is to occur, the application shall include a demonstration that sufficient parking occurs elsewhere in the Specific Plan area, and shall be constructed prior to occupancy of the use, to accommodate the use.
f. If parking is proposed to be reduced for shared uses, a parking study, completed by a qualified traffic engineer or parking professional, utilizing recognized sources of data.

When found complete by the Planning Department, a meeting for the Major Architectural Application shall be held within 30 days by the Architectural Advisory Committee, and a public meeting shall be scheduled, within 45 days, before the Planning Commission. Such review shall include any evaluation required under the California Environmental Quality Act (CEQA). The Commission, upon closing the public hearing, shall:

1. Request changes to the application and continue the matter; or
2. Approve the project, including the addition or modification of project conditions; or
3. Deny the project.

Actions of the Commission can be appealed to the City Council. The decision of the City Council shall be final.

Applications for Conditional Use Permits and subdivisions, not involving construction of new structures and only the use in question, shall be processed consistent with the provisions of Section 94.020.00 et. seq. of the Palm Springs Zoning Ordinance.

Planned Development Permits, if required, will be processed consistent with the requirements of Section 94.30.00 et. seq. of the Palm Springs Zoning Ordinance.

2. Conformity Review Procedure.

In accordance with the provisions of Subsection C (Phasing) of this Section V, Phase One of the Specific Plan's implementation includes the opportunity for any property owner within the specific plan boundary area to request a "Conformity Review". Conformity Review is a determination that a proposed project consisting of the rehabilitation, renovation, and/or remodel of existing buildings and facilities (a "Renovation Project") within the Specific Plan is generally consistent with the Specific Plan.

a. The property owner shall fully complete and file a request for Conformity Review describing the proposed project and identifying the rehabilitation, renovation, and remodel components and file such other information as the Planning Director may require. The filing may be schematic and conceptual; precise plans or drawings shall not be required unless the submission is processed concurrently with an entitlement provided under the City's Zoning Ordinance. The filing and processing fees, if any, shall be assessed according to the City's resolution of fees and charges.

b. The Planning Director shall consider the request for Conformity Review and shall prepare written findings and recommendations to the City Council. The request for Conformity Review shall be considered by the City Council at a noticed public hearing pursuant Government Code section 6061. The City Council shall approve, conditionally approve, or deny the request. The decision of the Council is final.

c. In the review and consideration of the Conformity Request, the City Council shall consider whether the proposal reasonably furthers the goals or objectives of the Specific Plan, including without limitation Subsection C of this Section V.

B. Specific Plan Amendments

Interpretations of this Specific Plan which may be needed to clarify standards, guidelines, or the definitions of permitted uses, or may be otherwise required, and which do not change development standards, guidelines or permitted uses in this Specific Plan may be made by the Director of Planning Services.

All other changes shall be considered amendments to this Specific Plan, and shall be subject to public hearing and review by the Planning Commission and City Council.

C. Phasing

In response to market conditions, implementation of the Museum Market Plaza is expected to begin with the renovation of the existing Desert Fashion Plaza Shopping Center (Phase One). The current placement of buildings, parking, and pathways at the Center may be the basis for renovation in this first phase. This phase is not required to implement certain elements of the Plan intended for subsequent phases, including the full street grid system, the removal of the existing underground parking garage, and the provision of open space within Block B. Renovation of all or a significant portion of the existing Desert Fashion Plaza Shopping Center which preserves opportunities for enhancing the connection between the Museum and the Casino/Convention Center area shall be deemed consistent with the Specific Plan. Nothing herein shall be construed as allowing or permitting any deviation from the maximum height or density requirements of the Specific Plan.

A renovation plan that is consistent with the Specific Plan's Phase One policy is the Wessman Company's proposal submitted to the City on January 13, 2009 ("Wessman Renovation Plan"), including any changes or revisions identified in the written comments of the Director of Planning Services, dated February 17, 2009.

The City specifically finds that the Wessman Renovation Plan is consistent with the Specific Plan and furthers the objectives of the Specific Plan in that the Wessman Renovation Plan will:

a. Renovate a significant portion of the existing Desert Fashion Plaza Shopping Center for retail, office and resort uses, as provided in the Specific Plan,

b. Facilitate the development of an east/west connection through the site to the Museum which does not currently exist, thereby contributing to the Specific Plan's goal of restoring the visual presence for the Museum that has been lacking since the construction of the Desert Fashion Plaza and creating the opportunity for direct access between the Museum and the Casino/Convention Center area,

c. Create, within the new east/west connection, areas for outdoor dining and other pedestrian oriented activities to draw customers to the Center and give energy to the downtown area,

d. Create, with the addition of the east/west connection, additional retail spaces with lively street frontages on the ground floor that do not exist within the current Desert Fashion Plaza,

e. Provide new opportunities for high quality retail development which will contribute to realizing the Specific Plan's goal of helping to create a stable and varied economy, increase the City's tax base and act as a catalyst for further redevelopment in downtown, and

f. Achieve the Specific Plan goal of expanding recreational uses in the downtown which extend the hours of active use in the area, by adding a theater and additional restaurants.

Subsequent phasing of the Museum Market Plaza will be determined by the market. Exhibit V-1 illustrates how phasing may occur at the site, subsequent to any renovation project as allowed above (Conformity Review). Phasing may be modified by market pressures, including changes in both the commercial and residential environments:

Phase Two: Construction of the Main Plaza, the installation of the new east-west roadway from the Museum to Palm Canyon Drive, the extension of Belardo through the site, and improvements to Palm Canyon Drive.

Phase Three: Blocks A and C, focusing on the Main Plaza and Palm Canyon frontage. This phase may also include the southern portion of Block E, G & H.

Phase Four: D & F, and the northern portion of Block E, G & H.

Phase Five: Block K, including the new east-west street between Palm Canyon and Indian Canyon Drives; however, this block and / or the new east-west street may be developed in an earlier phase, if the market allows.

Exhibit V-1 Phasing

(INSERT PHASING PLAN)

D. Financing

Although the Specific Plan occurs in an area in which infrastructure is generally complete, improvements and alterations will be required throughout the development of Museum Market Plaza, to allow for the intensity of use proposed and to adjust public improvements along the boundaries and edges of the Specific Plan area. Financing for these improvements is likely to come from a number of sources, both public and private. In addition, the costs for the preparation of the Specific Plan can also be recovered. Some of the potential funding mechanisms are described briefly below. This list is not intended to be exhaustive or exclusive. The allocation of costs and the apportionment of fees pursuant to the provisions of this Subsection, including without limitation a credit on fees, may be provided in an owner's participation agreement or disposition and development agreement (DDA) between a developer and the City of Palm Springs Redevelopment Agency or a development agreement (DA) between a developer and the City.

Specific Plan Fee

To defray the cost of preparation, adoption, and administration of the specific plan, including all related studies and environmental documentation, the City Council should consider the adoption of a fee to be imposed upon all persons seeking approvals of the City or the Redevelopment Agency of the City of Palm Springs which are required to be consistent with the specific plan in the manner provided under Government Code Section 65456. A portion of any amounts collected pursuant to such fee shall be used to reimburse any person who advanced or incurred costs for the preparation of the specific plan in excess of such person's fair share of such costs as determined under the provisions of Government Code Section 65456.

Special Improvement Districts

Special Improvement or Assessment Districts may be initiated subject to the approval of property owners or voters. They allow the municipality to issue tax-exempt bonds for public infrastructure improvements. Assessments are generally accompanied by a formal lien against each property which receives the improvements. Those properties benefiting from the improvement are assessed an annual cost on their tax bill. Assessments are proportional to the amount of benefit being received by the property owner. The assessments are generally paid over up to 30 years, but may be prepaid.

Redevelopment Agency Participation

The Museum Market Plaza is the catalyst to the long term economic health of Downtown Palm Springs. The area is also within the boundaries of the City's Redevelopment Plan. As such, developers and builders may negotiate with the Redevelopment Agency for direct contributions, tax rebates or other participation from the Agency's tax increment funds.

Developer Impact Fees

Developer impact fees can be used for a variety of improvements, and require the preparation of cost estimates and fair share distribution based on a "rational nexus" that the fee being paid is equivalent to the cost which would otherwise be incurred by the developer to provide his fair

share of an improvement. Existing Impact Fees may be applicable to roadway improvements on Palm Canyon or Indian Canyon, or could be created to address the project's improvements. Conversely, most of the development within the Specific Plan area has in the past contributed to Development Impact Fee and TUMF fees, which may be credited to the Museum Market Plaza construction.

Landscaping and Lighting Districts

Landscaping and Lighting Districts may be created to provide a range of infrastructure improvements. Annual assessment would be raised from properties in the district. Funds may be used for construction and maintenance of curbs, gutters, sidewalks, paving, parkway landscaping and other facilities. The long-term maintenance of the Specific Plan area's street system could be financed through this vehicle.

Mello-Roos Districts

Mello-Roos districts can be used to finance a wide range of improvements, including land purchases and maintenance. The creation of the district results in a special tax levied on the affected property owners. Mello-Roos district taxes are not tied to property value, but rather to a special tax formula based on the level of benefit received by each property.

Schedule of Performance – Exhibit D

Project Financing Agreement

No.	Milestone	Comment	Days for Performance	Anticipated Date based on days to perform, any delay by the city for approvals adjusts each date automatically forward
1	Approval of PFA. City approves or disapproves PFA and, if approves, executes PFA	PFA approved September 7 subject to minor changes		September 26 2011
2	Detailed Physical Evaluation of the Property. The City shall retain structural engineer to obtain a detailed structural inspection of the parking structure.		1	September 26 2011
3	Title Report. Developer delivers to City Preliminary Title Report.			September 30 2011
4	Approval or Disapproval of Title Exceptions. City approves or disapproves title exceptions.	Within 15 days after delivery of Preliminary Title Report from Developer.	15	
5	Structural Engineer. City completes detailed structural inspection of the parking structure to determine if estimated cost of improvements is excessive.	Within 30 days after hiring structural engineer	30	
6	**Opening of Escrow**. The City and Developer open escrow for conveyance of the parking structure and other public assets to the City.			Dec 12th 2011
7	**Right to Terminate**. City waives its right to terminate Agreement based on inability to identify source of public financing	Per PFA.		**December 21 2011**
8	**Reimbursement Agreement**. City staff recommends to Council to provide additional funds for first phase design work; Any additional payments will be reimbursed to the city upon the close of the future private / public improvement escrow	If not approved all time lines from milestone 9a on adjust forward in sequence to the date when the private and public improvement escrow closes		December 28 2011

9a	**Private Improvement Development Plans**. Developer contracts with architectural firm and other necessary sub consultants to produce Major Architectural Application Plan sufficient to comply with Milestone No. 18a, submittal of plans.	Within 40 days City approved funding first phase of design work, otherwise 9a adjusts forward to milestone 17		January 30 2012
9b	**Public Improvement Development Plans.** Developer contracts with engineering firms and other necessary sub consultants.			March 30th 2012
10	**Bank of America Demolition.** Developer commences demolition of **Bank of America building** (after Film Festival 2012 ends) and the installation of basic site landscaping. Upon pulling demo permit (no later than Jan 21st 2012) complete demo of Bank of America within 60 days	**Developer to apply for demolition permit after December 21 but prior to Jan 21**	**60**	**Major Milestone March 21st 2012**
11	Funds Control Agent. City and Developer contract with a mutually acceptable and reputable independent fund control agent ("IFC Agent")			April 2, 2012
12	Sewer Connections. City and Developer undertake comprehensive site review to determine number and location of sewer connections to determine credit for sewer connection charges in building permit fees.	December 22nd – 2013 June 30th 2012		June 30 2013
13	Deposit of Grant Deed. The Developer shall deposit the grant deed for the Parking Structure and City Parcels into escrow.	One (1) week prior to Closing.		April 8, 2012
14	**Deposit of Purchase Price and Other Required Sums**. The City shall deposit the Purchase Price of the Parking Structure and other public assets, funds for the public improvements and other required sums into escrow.	One (1) week prior to Closing.		April 8, 2012
15	Escrow Fees and Charges. Escrow Agent gives notice of fees, charges, and costs to close Escrow.	Three (3) days prior to Closing.		April 11, 2012
	Intentionally left blank	Intentionally left		

16		blank		
17	**Close of Escrow**. The Developer shall convey fee title to the Parking Structure and other public assets to the City and the City shall accept such conveyance. The Escrow Agent shall cause the Grant Deed and Easement for Access (and other related documents) to be recorded with the Riverside County Recorder.			April 15, 2012
18a	**Application Submission.** Major Architectural Approval Application for the **first building** on one of the following: Blocks A-1, A-2, C and F or adjacent street grid.			**Major Milestone June 1st 2012**
19a	**Approval by City**. Major Architectural Approval. Architectural Advisory, Planning Commission, and City Council approval of submittal from milestone 18a.	Within 45 days from date of submission of architectural application of the first building.	45	
18 b	**Plan Submission Public Improvements;** Major architectural application including site plan and street improvements			**Major Milestone Dec 28th 2012**
19b	**Approval by City Council. Public Improvements -** The City process *includes* the Architectural Advisory Committee, Planning Commission, and City Council approval.	Within 45 days from date of submission of architectural application.	45	
18 c	**Application Submission.** /Major Architectural Approval Application for the **remaining building** of the following: Blocks A-1, A-2, C and F			**Major Milestone Oct 31st 2012**
19c	**Approval by City Council.** Major Architectural Approval **of remaining** buildings A1, A2, C or F. The City process submitted Architectural Advisory Committee, Planning Commission, and City Council approval.	Within 45 days from submission of architectural application of remaining buildings.	45	

18 d	**Application Submission Major Architectural Approval for hardscape and landscape plans;** *includes* the Architectural Advisory Committee, Planning Commission, and City Council approval			**Major Milestone Feb 28th 2013**
19d	Approval by City Council. **Landscape and hardscape**- The City process *includes* the Architectural Advisory Committee, Planning Commission, and City Council approval. application shall include final Site	Within 45 days from submission of architectural application.	45	
20a	**Submittal of Construction Documents**. Developer submits Construction (Building and Engineer) Plans for approval by Building and Engineering Departments (Milestone 19 a)			May 31, 2013
21 a	**City to finalize Plan Check of submitted Construction Documents** milestone 20 a documents	Plan Check completed within 60 days of submittal to the Building department	60	
22	**Developer to deposit $ 2 million and City to issue Building Permit for the first building** on one of the following: Blocks A-1, A-2, C and F or adjacent street grid.			**Major Milestone Aug 30th 2013**
23a	**Commence Demolition of Existing Improvements.** Developer commences demolition of remaining site improvements in preparation for construction of public and private improvements. Portions of Block C will be demolished last, because of CPK Lease)			As early as July 26th 2013
23b	**Commencement of Construction of Developer's Improvements**. Developer commences construction of public and private improvements.			**Major Milestone Sep 30th , 2013**
20 b	**Submittal of all of remaining Construction Documents**. Developer submits Construction (Building and Engineering) Plans and Grading Plan for approval by Building and Engineering Departments for the **remaining buildings** Blocks A-1, A-2, C and F or adjacent street grid, hardscape and landscaping plans	Contingent on meeting milestones 19, a,b		Sep 30th 2013

21 b	**City to finalize Plan Check** of Construction Documents and issue Building Permit for the remaining buildings (see 20 b) of the following: Blocks A-1, A-2, C and F or adjacent street grid, hardscape and landscape plans	Plan Check completed within 60 days of submittal to the Building and Engineering department	60	
23c	**Substantial Completion of Construction of Developer's Core & Shell and public Improvements**. Developer substantially completes Core & Shell Improvements parking improvement upgrades, public streets and sidewalks, open space plazas.			**Major Milestone December 28th, 2014**
24	City to certify substantial completion of all private and public improvements after Developer has notified it in writing and release and reconvey in full the Performance Deed of Trust (regardless of any outstanding balance) – within 15 days of notification by Developer		15	January 12th 2015

MAJOR MILESTONES as defined in the PFA 3.A Developer Default

It is understood that the foregoing Schedule of Performance is subject to all of the terms and conditions set forth in the text of the PFA Agreement..The time periods set forth in this schedule will adjust automatically forward if city approvals are not obtained at the scheduled dates listed above

The time periods set forth in this Schedule of Performance may be altered or amended only by written agreement signed by both Developer and City. A failure by either party to enforce a breach of any particular time provision shall not be construed as a waiver of any other time provision. The City Manager shall have the authority to approve extensions of time without City Council action not to exceed a cumulative total of 180 days.

TENTATIVE TRACT OR PARCEL MAP AND ENVIRONMENTAL ASSESSMENT APPLICATION (TTM / TPM)

TO THE APPLICANT:

Your cooperation in completing this application and supplying the information requested will expedite City review of your application pursuant to local procedures, State Law, and the California Environmental Quality Act (CEQA). The City is required to make an environmental assessment on all projects over which it exercises discretionary approval. Applications submitted will not be considered complete until all information necessary to make the environmental assessment is complete. If necessary, attach additional sheets referencing your responses. Also, if your response to one question is applicable to others in this form, please feel free to reference the appropriate question.

Please submit this completed application and subsequent material to the Department of Planning Services at 3200 East Tahquitz Canyon Way, Palm Springs, CA 92262 ~ Phone: 760-323-8245 ~ Fax: 760-322-8380

Expanded statement of project: (This statement should reflect in detail the use being applied for and/or in the case of new development, the statement should reflect the architectural and environmental characteristics important to the project, type of environment being created, unique aspects, landscape, concepts, etc.)

MAP FOR SUBDIVISION PURPOSES

2. Project Common Name (if any):

DESERT FASHION PLAZA

3. What original deed restriction(s), if any, concerning the type of improvements and class of uses permitted were placed on the property involved? You may attach copy of original printed restrictions in answer to this question after properly underscoring those features governing the type of improvements and class of uses permitted thereby.

NONE

What date do restrictions expire?: _____
(Month - Day - Year)

4. When did present owner acquire the property? 3-25-1998
(Month - Day - Year)

5. Relationship to a larger project or series of projects. Describe how this project relates to other activities, phases, and developments planned or now underway:

MUSEUM MARKET PLAZA SPECIFIC PLAN - RENOVATION OF DESERT FASHION PLAZA

6. List and describe any other related permits and other public approvals required for this project to proceed, including those required by the City, Regional, State, and Federal agencies. Indicate subsequent approval agency name and type approval required:

7. Does your project abut a State Highway 111 or I-10? Yes ☐ No ☑ If yes, please attach two (2) additional site plans for Caltrans review.Describe proposed access to the State Highway and indicate reasoning behind your proposal:

8. Is your project located on Agua Caliente Band of Cahuilla Indian Reservation land?
Yes ☐ No ☑ If yes, please attach a copy of the lease.

9. Does your project fall within the noise impact combining zone as shown on the City's Official Zoning Map? Yes ☐ No ☑ If yes, a signed Airspace and Avigation Easement Deed must be submitted prior to issuance of building permits.

10. Is any part of your project historic, have historic value, or has been designated a historic site?
Yes ☐ No ☑ If yes, the project may have to be approved by the Historic Site Preservation Board.

EXISTING CONDITIONS:

1. Project Site Area: _____(square feet and acreage)

2. Existing use of the project site: DESERT FASHION PLAZA

3. Existing uses of adjacent properties (Example - North, shopping center; South, single family dwellings; East, vacant, etc.):

NORTH - HOTEL, EAST - COMMERCIAL/RETAIL, SOUTH - COMMERCIAL/RETAIL/HOTEL, WEST - MUSEUM

4. Site topography description. (If any portion of the site exceeds one percent (1%) slope, attach a topographic display of the proposal site or incorporate into plot plan; if less than one percent (1%) slope, please provide elevation at each corner of the site on the plot plan:

FLAT

5. Grading (estimate number of cubic yards of dirt being moved): Cut _____ Fill_____

6. Are there any natural or man-made drainage channel areas through or adjacent to the property: Yes ☐ No ☑ If yes, submit a display of such drainage channel areas. Describe the disposition of these channels/areas should the proposal be implemented.

7. Are there any known archaeological finds near or within the proposed site? Yes ☐ No ☑

(An archaeological survey may be requested should it be determined that the proposal site hosts archaeological finds.)

8. Describe any cultural or scenic aspects of the project site:

NONE

9. Describe existing site vegetation and its proposed disposition should the proposal be approved:

NONE

(If any significant plant materials, e.g. mature trees, exist on the site, please prepare a site plan that illustrates their number, type, size, and location.)

10. Describe accessibility of proposal site to the following utilities: gas, water, sewer, and electricity. If proposal site does not have immediate access, further describe necessary extension of sewers and provide a graphic display, 8-1/2"x11" that indicates their present location in relation to the proposal site.

ADJACENT TO SITE AS SHOWN ON TENTATIVE MAP

11. Does the proposal necessitate the installation of individual sewage disposal systems? (septic tanks and absorption fields) Yes ☐ No ☑ If yes, respond to the following under separate cover and attach four (4) copies to this application:

A. Provide name, address, phone and fax numbers, and place of residence of person who will sign report of waste discharge form

B. Origin of wastewater being discharged within proposal site. Include each type, such as sewage, swimming pool backwash, self-service laundry, etc

C. Present and design flow in gallons-per-operating day of each type of wastewater

D. Source of water supply

E. Location of nearest well within 200 lineal feet of proposed site

F. Proposed type of treatment and disposal of wastewater

G. For subsurface disposal systems, submit an 8-1/2" x 11" site plan (to scale) with borders (1-1/2" top and 1-1/2" bottom) showing existing and proposed restrooms, recreation vehicle spaces, swimming pools, septic tanks, seepage pits or leach fields. Also indicate areas reserved for 100% replacement of seepage pits or leach fields in case of failure.

H. Percolation test rate of soil

I. Depth of groundwater at disposal site

J. Describe whether the development will be fully occupied throughout the year. If not, what will be:

1. Peak occupancy and time of year? _____

2. Low occupancy and time of year? _____

ANTICIPATED CHANGES AS A RESULT OF THE PROPOSAL

Are the following items applicable to the project or its effects? Discuss all items checked "Yes" or "Maybe" on a separate sheet.

1.	Change in existing features of hillsides or substantial alteration of ground contours.	Yes ☐	No ☑	Maybe ☐
2.	Change in the dust, ash, smoke, fumes, or odors in the project vicinity.	Yes ☐	No ☑	Maybe ☐
3.	Subject to or resulting in soil erosion by wind or flooding.	Yes ☐	No ☑	Maybe ☐
4.	Change in ground water quality or quantity, or alteration of existing drainage patterns.	Yes ☐	No ☑	Maybe ☐
5.	Change in existing noise or vibration level in the vicinity. Subject to roadway or airport noise (has the required acoustical report been submitted?)	Yes ☐	No ☑	Maybe ☑
6.	Involves the use or disposal of potentially hazardous materials, such as toxic substances, flammable or explosives.	Yes ☐	No ☑	Maybe ☐
7.	Involves the use of substantial amounts of fuel or energy.	Yes ☐	No ☑	Maybe ☐
8.	Changes the demand for municipal services (police, fire, sewage, etc.)	Yes ☐	No ☑	Maybe ☐
9.	Changes the demand for utility services, beyond those presently available or planned in the near future.	Yes ☐	No ☑	Maybe ☐
10.	Significantly affects any unique or natural features, including mature trees.	Yes ☐	No ☑	Maybe ☐
11.	Change in scenic views or vistas from existing residential areas or public land/roads.	Yes ☐	No ☑	Maybe ☐
12.	Results in the dislocation or relocation of people.	Yes ☐	No ☑	Maybe ☐
13.	Generates controversy based on aesthetics or other features of the project.	Yes ☐	No ☑	Maybe ☐

☐ Additional explanation of "Yes" and "Maybe" answers are attached

CERTIFICATION: I hereby certify that the statements furnished above and in the attached exhibits present the data and information required for this initial evaluation to the best of my ability and that the facts, statements, and information presented are true and correct to the best of my knowledge and belief.

RESIDENTIAL PROJECTS: **DO NOT** answer if the project is not residential.

1. Number and type of dwelling units (specify number of bedrooms):

_____

2. Schedule of unit sizes: _____
3. Number of stories: _____ Height: _____
4. Largest single building (sq. ft.): _____ Height: _____
5. Square footage of each building and of the uses in each building:

_____

_____

6. Type of household size expected and population projection for the entire project:

_____

7. Describe the number and types of recreational facilities:

_____

_____

8. Is there any night lighting of the project: Yes☐ No☐ If yes, what type? _____
9. Range of sales prices or rents: $ _____ to $ _____
10. Area and percent of total project devoted to:

Building	_____	ft.	_____	%
Paving, including streets or drives, etc.	_____	ft.	_____	%
Landscaping, Open, Recreation Area	_____	ft.	_____	%

11. Parking spaces required: _____ Number provided: _____
12. Number of parking spaces covered: _____ Number open: _____
13. Is the proposal site affected by a roadway noise contour or airport noise contour? Yes☐ No☐
    If yes, please fill in the following where applicable:

	Existing Roadway Contour		2010 Roadway Contour	
70db	_____	feet from centerline	_____	feet from centerline
65db	_____	feet from centerline	_____	feet from centerline
60db	_____	feet from centerline	_____	feet from centerline
55db	_____	feet from centerline	_____	feet from centerline

Airport

Existing 65 CNEL Contour _____ Projected 65 CNEL Contour _____

If your proposal facilitates a residential development which is impacted by any of the above noise situations, you may be required to submit an acoustical report indicating the noise impact as it affects the proposal site and development and mitigation measure to reduce the impact to an acceptable level prior to approval of the proposal. Please refer to the attached sheets for more information on acoustical reports. All evaluation work must be performed by a registered professional acoustical consultant. Please feel free to contact the Department of Planning Services should you have any questions regarding the above.

COMMERCIAL, INDUSTRIAL, INSTITUTIONAL OR OTHER: **DO NOT** answer if project is residential.

1. Type of use(s) and major functions (s). If offices, specify type and number:

_____

_____

2. Square footage of total building area: _____

3. Square footage of building area devoted to each proposed use(s):

_____

_____

4. Number of stories: _____ Height: _____ Feet: _____

5. Largest single building (sq.ft.): _____ Height : _____

6. Number of square feet in outdoor storage areas: _____

7. Parking Spaces: Required: _____ Provided: _____

8. Hours of operation: _____

9. Maximum number of clients, patrons, shoppers, etc. at one time: _____

10. Maximum number of employees at one time: _____

    Number of full-time employees: _____ Number of Part-time employees: _____

11. If patron seating is involved, state the number: _____

12. Is there any night light of the project? Yes ☐ No ☐ If yes, what type?: _____

13. Area and percent of total project devoted to:

Building	_____ ft.	_____ %
Paving, including streets or drives, etc.	_____ ft.	_____ %
Landscaping, Open, Recreation Area	_____ ft.	_____ %
TOTAL PROJECT AREA	_____ ft.	_____ %

TENTATIVE TRACT OR PARCEL MAP AND ENVIRONMENTAL ASSESSMENT APPLICATION (TTM / TPM)

TO THE APPLICANT:

Your cooperation in completing this application and supplying the information requested will expedite City review of your application pursuant to local procedures, State Law, and the California Environmental Quality Act (CEQA). The City is required to make an environmental assessment on all projects over which it exercises discretionary approval. Applications submitted will not be considered complete until all information necessary to make the environmental assessment is complete. If necessary, attach additional sheets referencing your responses. Also, if your response to one question is applicable to others in this form, please feel free to reference the appropriate question.

Please submit this completed application and subsequent material to the Department of Planning Services at 3200 East Tahquitz Canyon Way, Palm Springs, CA 92262 ~ Phone: 760-323-8245 ~ Fax: 760-322-8380

TO THE PLANNING COMMISSION:

I, (We) the undersigned applicant(s) for the property described below, hereby request that you grant an approval of this Planned Development application to allow the use described as follows: (Include statement of purpose for the project and specify type of use.)

TO SUBDIVIDE THE PROPERTY INTO LOTS FOR FUTURE DEVELOPEMENT AND LOTS FOR PUBLIC STREETS

The proposed use will be constructed and/or operated on the property situated on:

N. PALM CANYON DR. (Street, Drive, Road, etc.) between AMADO RD.

to the north TAHQUITZ CANYON DR. to the south N. PALM CANYON DR.

to the east and MUSEUM DR. to the west.

Zone: PD 147 Section: 15, T4S,R4E.

Legal description (Lot, Block, Tract, Section, Township, Range) of the property is: (If the legal description is by metes and bounds, it must have a point of beginning that can be identified on the City Engineering department maps.)

PARCELS 1,2,3&4 OF PARCEL MAP 20326, PMB 133/81-85

Assessor's Parcel Number(s) 513 - 560 - 002 513 - 560 - 004

GENERAL INFORMATION:

1. Expanded statement of project: (This statement should reflect in detail the use being applied for and/or in the case of new development, the statement should reflect the architectural and environmental characteristics important to the project, type of environment being created, unique aspects, landscape, concepts, etc.)

MAP FOR SUBDIVISION PURPOSES

2. Project Common Name (if any):

DESERT FASHION PLAZA

3. What original deed restriction(s), if any, concerning the type of improvements and class of uses permitted were placed on the property involved? You may attach copy of original printed restrictions in answer to this question after properly underscoring those features governing the type of improvements and class of uses permitted thereby.

NONE

What date do restrictions expire?: _____
(Month - Day - Year)

4. When did present owner acquire the property? 3-25-1998
(Month - Day - Year)

5. Relationship to a larger project or series of projects. Describe how this project relates to other activities, phases, and developments planned or now underway:

MUSEUM MARKET PLAZA SPECIFIC PLAN - RENOVATION OF DESERT FASHION PLAZA

6. List and describe any other related permits and other public approvals required for this project to proceed, including those required by the City, Regional, State, and Federal agencies. Indicate subsequent approval agency name and type approval required:

7. Does your project abut a State Highway 111 or I-10? Yes ☐ No ☑ If yes, please attach two (2) additional site plans for Caltrans review.Describe proposed access to the State Highway and indicate reasoning behind your proposal:

8. Is your project located on Agua Caliente Band of Cahuilla Indian Reservation land?
Yes ☐ No ☑ If yes, please attach a copy of the lease.

9. Does your project fall within the noise impact combining zone as shown on the City's Official Zoning Map? Yes ☐ No ☑ If yes, a signed Airspace and Avigation Easement Deed must be submitted prior to issuance of building permits.

10. Is any part of your project historic, have historic value, or has been designated a historic site?
Yes ☐ No ☑ If yes, the project may have to be approved by the Historic Site Preservation Board.

EXISTING CONDITIONS:

1. Project Site Area: _____(square feet and acreage)

2. Existing use of the project site: DESERT FASHION PLAZA

3. Existing uses of adjacent properties (Example - North, shopping center; South, single family dwellings; East, vacant, etc.):

NORTH - HOTEL, EAST - COMMERCIAL/RETAIL, SOUTH - COMMERCIAL/RETAIL/HOTEL, WEST - MUSEUM

4. Site topography description. (If any portion of the site exceeds one percent (1%) slope, attach a topographic display of the proposal site or incorporate into plot plan; if less than one percent (1%) slope, please provide elevation at each corner of the site on the plot plan:

FLAT

5. Grading (estimate number of cubic yards of dirt being moved): Cut _____ Fill_____

6. Are there any natural or man-made drainage channel areas through or adjacent to the property: Yes ☐ No ☑ If yes, submit a display of such drainage channel areas. Describe the disposition of these channels/areas should the proposal be implemented.

7. Are there any known archaeological finds near or within the proposed site? Yes ☐ No ☑

(An archaeological survey may be requested should it be determined that the proposal site hosts archaeological finds.)

8. Describe any cultural or scenic aspects of the project site:

NONE

9. Describe existing site vegetation and its proposed disposition should the proposal be approved:

NONE

(If any significant plant materials, e.g. mature trees, exist on the site, please prepare a site plan that illustrates their number, type, size, and location.)

10. Describe accessibility of proposal site to the following utilities: gas, water, sewer, and electricity. If proposal site does not have immediate access, further describe necessary extension of sewers and provide a graphic display, 8-1/2"x11" that indicates their present location in relation to the proposal site.

ADJACENT TO SITE AS SHOWN ON TENTATIVE MAP

11. Does the proposal necessitate the installation of individual sewage disposal systems? (septic tanks and absorption fields) Yes☐ No☑ If yes, respond to the following under separate cover and attach four (4) copies to this application:

A. Provide name, address, phone and fax numbers, and place of residence of person who will sign report of waste discharge form

B. Origin of wastewater being discharged within proposal site. Include each type, such as sewage, swimming pool backwash, self-service laundry, etc

C. Present and design flow in gallons-per-operating day of each type of wastewater

D. Source of water supply

E. Location of nearest well within 200 lineal feet of proposed site

F. Proposed type of treatment and disposal of wastewater

G. For subsurface disposal systems, submit an 8-1/2" x 11" site plan (to scale) with borders (1-1/2" top and 1-1/2" bottom) showing existing and proposed restrooms, recreation vehicle spaces, swimming pools, septic tanks, seepage pits or leach fields. Also indicate areas reserved for 100% replacement of seepage pits or leach fields in case of failure.

H. Percolation test rate of soil

I. Depth of groundwater at disposal site

J. Describe whether the development will be fully occupied throughout the year. If not, what will be:

1. Peak occupancy and time of year? _____

2. Low occupancy and time of year? _____

ANTICIPATED CHANGES AS A RESULT OF THE PROPOSAL

Are the following items applicable to the project or its effects? Discuss all items checked "Yes" or "Maybe" on a separate sheet.

1.	Change in existing features of hillsides or substantial alteration of ground contours.	Yes ☐	No ☑	Maybe ☐
2.	Change in the dust, ash, smoke, fumes, or odors in the project vicinity.	Yes ☐	No ☑	Maybe ☐
3.	Subject to or resulting in soil erosion by wind or flooding.	Yes ☐	No ☑	Maybe ☐
4.	Change in ground water quality or quantity, or alteration of existing drainage patterns.	Yes ☐	No ☑	Maybe ☐
5.	Change in existing noise or vibration level in the vicinity. Subject to roadway or airport noise (has the required acoustical report been submitted?)	Yes ☐	No ☑	Maybe ☑
6.	Involves the use or disposal of potentially hazardous materials, such as toxic substances, flammable or explosives.	Yes ☐	No ☑	Maybe ☐
7.	Involves the use of substantial amounts of fuel or energy.	Yes ☐	No ☑	Maybe ☐
8.	Changes the demand for municipal services (police, fire, sewage, etc.)	Yes ☐	No ☑	Maybe ☐
9.	Changes the demand for utility services, beyond those presently available or planned in the near future.	Yes ☐	No ☑	Maybe ☐
10.	Significantly affects any unique or natural features, including mature trees.	Yes ☐	No ☑	Maybe ☐
11.	Change in scenic views or vistas from existing residential areas or public land/roads.	Yes ☐	No ☑	Maybe ☐
12.	Results in the dislocation or relocation of people.	Yes ☐	No ☑	Maybe ☐
13.	Generates controversy based on aesthetics or other features of the project.	Yes ☐	No ☑	Maybe ☐

☐ Additional explanation of "Yes" and "Maybe" answers are attached

CERTIFICATION: I hereby certify that the statements furnished above and in the attached exhibits present the data and information required for this initial evaluation to the best of my ability and that the facts, statements, and information presented are true and correct to the best of my knowledge and belief.

Fidelity National Title Company

PRELIMINARY REPORT

36446

In response to the application for a policy of title insurance referenced herein, ***Fidelity National Title Company*** *hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Fidelity National Title Insurance Company, a California Corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

PRELIMINARY REPORT
Your Reference:

Fidelity National Title Company
Order No.: 996-**23005092**-RH1

OWNER'S DECLARATION

The undersigned hereby declares as follows:

1. (Fill in the applicable paragraph and strike the other)

   a. Declarant ("Owner") is the owner or lessee, as the case may he, of certain premises located at

   _____,

   further described as follows: See Preliminary Report/Commitment No. 996-**23005092**-RH1 for full legal description (the "Land").

   b. Declarant is the _____ of _____ ("Owner"), which is the owner or lessee, as the case may be, of certain premises located at

   _____,

   further described as follows: See Preliminary Report/Commitment No. 996-**23005092**-RH1 for full legal description (the "Land").

2. (Fill in the applicable paragraph and strike the other)

   a. During the period of six months immediately preceding the date of this declaration no work has been done, no surveys or architectural or engineering plans have been prepared, and no materials have been furnished in connection with the erection, equipment, repair, protection or removal of any building or other structure on the Land or in connection with the improvement of the Land in any manner whatsoever.

   b. During the period of six months immediately preceding the date of this declaration certain work has been done and materials furnished in connection with _____ upon the Land in the approximate total sum of $_____, but no work whatever remains to be done and no materials remain to be furnished to complete the construction in full compliance with the plans and specifications, nor are there any unpaid bills incurred for labor and materials used in making such improvements or repairs upon the Land, or for the services of architects, surveyors or engineers, except as follows: _____. Owner, by the undersigned Declarant, agrees to and does hereby indemnify and hold harmless Fidelity National Title Insurance Company against any and all claims arising therefrom.

3. Owner has not previously conveyed the Land; is not a debtor in bankruptcy (and if a partnership, the general partner thereof is not a debtor in bankruptcy); and has not received notice of any pending court action affecting the title to the Land.

4. Except as shown in the above-referenced Preliminary Report/Commitment, there are no unpaid or unsatisfied mortgages, deeds of trust, Uniform Commercial Code financing statements, claims of lien, special assessments, or taxes that constitute a lien against the Land or that affect the Land but have not been recorded in the public records.

5. The Land is currently in use as _____; _____occupy/occupies the Land; and the following are all of the leases or other occupancy rights affecting the Land:

   _____

6. There are no other persons or entities that assert an ownership interest in the Land, nor are there unrecorded easements, claims of easement, or boundary disputes that affect the Land.

7. There are no outstanding options to purchase or rights of first refusal affecting the Land.

This declaration is made with the intention that Fidelity National Title Insurance Company (the "Company") and its policy issuing agents will rely upon it in issuing their title insurance policies and endorsements. Owner, by the undersigned Declarant, agrees to indemnify the Company against loss or damage (including attorneys fees, expenses, and costs) incurred by the Company as a result of any untrue statement made herein.

I declare under penalty of perjury that the foregoing is true and correct and that this declaration was executed on ____ at _____.

Fidelity National Financial, Inc.
Privacy Statement

Fidelity National Financial, Inc. and its subsidiaries ("FNF") respect the privacy and security of your non-public personal information ("Personal Information") and protecting your Personal Information is one of our top priorities. This Privacy Statement explains FNF's privacy practices, including how we use the Personal Information we receive from you and from other specified sources, and to whom it may be disclosed. FNF follows the privacy practices described in this Privacy Statement and, depending on the business performed, FNF companies may share information as described herein.

Personal Information Collected
We may collect Personal Information about you from the following sources:

- Information we receive from you on applications or other forms, such as your name, address, social security number, tax identification number, asset information, and income information;
- Information we receive from you through our Internet websites, such as your name, address, email address, Internet Protocol address, the website links you used to get to our websites, and your activity while using or reviewing our websites;
- Information about your transactions with or services performed by us, our affiliates, or others, such as information concerning your policy, premiums, payment history, information about your home or other real property, information from lenders and other third parties involved in such transaction, account balances, and credit card information; and
- Information we receive from consumer or other reporting agencies and publicly recorded documents.

Disclosure of Personal Information
We may provide your Personal Information (excluding information we receive from consumer or other credit reporting agencies) to various individuals and companies, as permitted by law, without obtaining your prior authorization. Such laws do not allow consumers to restrict these disclosures. Disclosures may include, without limitation, the following:

- To insurance agents, brokers, representatives, support organizations, or others to provide you with services you have requested, and to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure in connection with an insurance transaction;
- To third-party contractors or service providers for the purpose of determining your eligibility for an insurance benefit or payment and/or providing you with services you have requested;
- To an insurance regulatory authority, or a law enforcement or other governmental authority, in a civil action, in connection with a subpoena or a governmental investigation;
- To companies that perform marketing services on our behalf or to other financial institutions with which we have joint marketing agreements and/or
- To lenders, lien holders, judgment creditors, or other parties claiming an encumbrance or an interest in title whose claim or interest must be determined, settled, paid or released prior to a title or escrow closing.

We may also disclose your Personal Information to others when we believe, in good faith, that such disclosure is reasonably necessary to comply with the law or to protect the safety of our customers, employees, or property and/or to comply with a judicial proceeding, court order or legal process.

Disclosure to Affiliated Companies – We are permitted by law to share your name, address and facts about your transaction with other FNF companies, such as insurance companies, agents, and other real estate service providers to provide you with services you have requested, for marketing or product development research, or to market products or services to you. We do not, however, disclose information we collect from consumer or credit reporting agencies with our affiliates or others without your consent, in conformity with applicable law, unless such disclosure is otherwise permitted by law.

Disclosure to Nonaffiliated Third Parties – We do not disclose Personal Information about our customers or former customers to nonaffiliated third parties, except as outlined herein or as otherwise permitted by law.

Confidentiality and Security of Personal Information
We restrict access to Personal Information about you to those employees who need to know that information to provide products or services to you. We maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard Personal Information.

Access to Personal Information/Requests for Correction, Amendment, or Deletion of Personal Information
As required by applicable law, we will afford you the right to access your Personal Information, under certain circumstances to find out to whom your Personal Information has been disclosed, and request correction or deletion of your Personal Information. However, FNF's current policy is to maintain customers' Personal Information for no less than your state's required record retention requirements for the purpose of handling future coverage claims.

For your protection, all requests made under this section must be in writing and must include your notarized signature to establish your identity. Where permitted by law, we may charge a reasonable fee to cover the costs incurred in responding to such requests. Please send requests to:

Chief Privacy Officer
Fidelity National Financial, Inc.
601 Riverside Avenue
Jacksonville, FL 32204

Changes to this Privacy Statement
This Privacy Statement may be amended from time to time consistent with applicable privacy laws. When we amend this Privacy Statement, we will post a notice of such changes on our website. The effective date of this Privacy Statement, as stated above, indicates the last time this Privacy Statement was revised or materially changed.

Privacy Policy Effective Date: 5/1/2008

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the field rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for each discount. These discounts only apply to transaction involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

FNF Underwritten Title Company
FNTC - Fidelity National Title Company
FNTCCA –Fidelity National Title Company of California

FNF Underwriter
FNTIC - Fidelity National Title Insurance Company

Available Discounts

CREDIT FOR PRELIMINARY REPORTS AND/OR COMMITMENTS ON SUBSEQUENT POLICIES (FNTIC)
Where no major change in the title has occurred since the issuance of the original report or commitment, the order may be reopened within 12 or 36 months and all or a portion of the charge previously paid for the report or commitment may be credited on a subsequent policy charge.

FEE REDUCTION SETTLEMENT PROGRAM (FNTC, FNTCCA and FNTIC)
Eligible customers shall receive $20.00 reduction in their title and/or escrow fees charged by the Company for each eligible transaction in accordance with the terms of the Final Judgments entered in *The People of the State of California et al. v. Fidelity National Title Insurance Company et al., Sacramento Superior Court Case No. 99AS02793, and related cases.*

DISASTER LOANS (FNTIC)
The charge for a lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within 24 months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be 50% of the appropriate title insurance rate.

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (FNTIC)
On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be 50% to 70% of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be 40% to 50% of the appropriate title insurance rate, depending on the type of coverage selected.

Notice

You may be entitled to receive a $20.00 discount on escrow services if you purchased, sold or refinanced residential property in California between May 19,1995 and November 1, 2002. If you had more than one qualifying transaction, you may be entitled to multiple discounts.

If your previous transaction involved the same property that is the subject of your current transaction, you do not have to do anything; the Company will provide the discount, provided you are paying for escrow or title services in this transaction.

If your previous transaction involved property different from the property that is the subject of your current transaction, you must inform the Company of the earlier transaction, provide the address of the property involved in the previous transaction, and the date or approximate date that the escrow closed to be eligible for the discount.

Unless you inform the Company of the prior transaction on property that is not the subject of this transaction, the Company has no obligation to conduct an investigation to determine if you qualify for a discount. If you provided the Company information concerning a prior transaction, the Company is required to determine if you qualify for a discount.

Effective through November 1, 2014

ATTACHMENT ONE

AMERICAN LAND TITLE ASSOCIATION
RESIDENTIAL TITLE INSURANCE POLICY (6-1-87) EXCLUSIONS

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning:
   - land use
   - improvements on the land
   - land division
   - environmental protection

   This exclusion does not apply to violations or the enforcement of these matters which appear in the public records at Policy Date.

   This exclusion does not limit the zoning coverage described in Items 12 and 13 of Covered Title Risks.
2. The right to take the land by condemning it, unless:
   - a notice of exercising the right appears in the public records on the Policy Date
   - the taking happened prior to the Policy Date and is binding on you if you bought the land without knowing of the taking.
3. Title Risks:
   - that are created, allowed, or agreed to by you
   - that are known to you, but not to us, on the Policy Date—unless they appeared in the public records
   - that result in no loss to you
   - that first affect your title after the Policy Date—this does not limit the labor and material lien coverage in Item 8 of Covered Title Risks
4. Failure to pay value for your title.
5. Lack of a right:
   - to any land outside the area specifically described and referred to in Item 3 of Schedule A

   OR
   - in streets, alleys, or waterways that touch your land

This exclusion does not limit the access coverage in Item 5 of Covered Title Risks

In addition to the Exclusions, you are not insured against loss, costs, attorneys' fees, and the expenses resulting from:

1. Any rights, interests, or claims of parties in possession of the land not shown by the public records.
2. Any easements or liens not shown by the public records. This does not limit the lien coverage in Item 8 of Covered Title Risks.
3. Any facts about the land which a correct survey would disclose and which are not shown by the public records. This does not limit the forced removal coverage in Item 12 of Covered Title Risks.
4. Any water rights or claims or title to water in or under the land, whether or not shown by the public records.

CALIFORNIA LAND TITLE ASSOCIATION STANDARD COVERAGE POLICY - 1990
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy (except to the extent that this policy insures the priority of the lien of the insured mortgage over any statutory lien for services, labor or material or to the extent insurance is afforded herein as to assessments for street improvements under construction or completed at Date of Policy); or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

SCHEDULE B, PART I
EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

PART I

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

FORMERLY AMERICAN LAND TITLE ASSOCIATION LOAN POLICY (10-17-92) WITH A.L.T.A. ENDORSEMENT–FORM 1 COVERAGE EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy (except to the extent that this policy insures the priority of the lien of the insured mortgage over any statutory lien for services, labor or material or to the extent insurance is afforded herein as to assessments for street improvements under construction or completed at Date of Policy); or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any statutory lien for services, labor or materials (or the claim of priority of any statutory lien for services, labor or materials over the lien of the insured mortgage) arising from an improvement or work related to the land which is contracted for and commenced subsequent to Date of Policy and is not financed in whole or in part by proceeds of the indebtedness secured by the insured mortgage which at Date of Policy the insured has advanced or is obligated to advance.
7. Any claim, which arises out of the transaction creating the interest of the mortgagee insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:
   (i) the transaction creating the interest of the insured mortgagee being deemed a fraudulent conveyance or fraudulent transfer; or
   (ii) the subordination of the interest of the insured mortgagee as a result of the application of the doctrine or equitable subordination; or
   (iii) the transaction creating the interest of the insured mortgagee being deemed a preferential transfer except where the preferential transfer results from the failure:
      (a) to timely record the instrument of transfer; or
      (b) of such recordation to impart notice to a purchaser for value or a judgment or lien creditor.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

2006 AMERICAN LAND TITLE ASSOCIATION LOAN POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

FORMERLY AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY (10-17-92)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the estate or interest insured by this policy.
4. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:
   (i) the transaction creating the estate or interest insured by this policy being deemed a fraudulent conveyance or fraudulent transfer; or
   (ii) the transaction creating the estate or interest insured by this policy being deemed a preferential transfer except where the preferential transfer results from the failure:
      (a) to timely record the instrument of transfer; or
      (b) of such recordation to impart notice to a purchaser for value or a judgment or lien creditor.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage Policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, which are not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

2006 AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (10-22-03)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (10-22-03)
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of any law or government regulation. This includes ordinances, laws and regulations concerning:
   a. building
   b. zoning
   c. Land use
   d. improvements on Land
   e. land division
   f. environmental protection

   This Exclusion does not apply to violations or the enforcement of these matters if notice of the violation or enforcement appears in the Public Records at the Policy Date.
   This Exclusion does not limit the coverage described in Covered Risk 14, 15, 16, 17 or 24.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not apply to violations of building codes if notice of the violation appears in the Public Records at the Policy Date.
3. The right to take the Land by condemning it, unless:
   a. notice of exercising the right appears in the Public Records at the Policy Date; or
   b. the taking happened before the Policy Date and is binding on You if You bought the Land without Knowing of the taking.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they appear in the Public Records.
   b. that are Known to You at the Policy Date, but not to Us, unless they appear in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date—this does not limit the coverage described in Covered Risk 7, 8.d., 22, 23, 24 or 25.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any Land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 18.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 14, 15, 16, and 18, Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 14:	1% of Policy Amount or $2,500.00 (whichever is less)	$10,000.00
Covered Risk 15:	1% of Policy Amount or $5,000.00 (whichever is less)	$25,000.00
Covered Risk 16:	1% of Policy Amount or $5,000.00 (whichever is less)	$25,000.00
Covered Risk 18:	1% of Policy Amount or $2,500.00 (whichever is less)	$5,000.00

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (02-03-10)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (02-03-10)
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.

   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date—this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$10,000.00
Covered Risk 18:	1% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$25,000.00
Covered Risk 19:	1% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$25,000.00
Covered Risk 21:	1% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$5,000.00

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (10/13/01)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the Land; (ii) the character, dimensions or location of any improvements now or hereafter erected on the Land; (iii) a separation in ownership or a change in the dimensions or areas of the Land or any parcel of which the Land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the Land has been recorded in the Public Records at Date of Policy. This exclusion does not limit the coverage provided under Covered Risks 12, 13, 14 and 16 of this policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the Land has been recorded in the Public Records a Date of Policy. This exclusion does not limit the coverage provided under Covered Risks 12, 13, 14, and 16 of this policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the Public Records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without Knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) created, suffered, assumed or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (this paragraph does not limit the coverage provided under Covered Risks 8, 16, 18, 19, 20, 21, 22, 23, 24, 25 and 26); or
   (e) resulting in loss or damage which would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of the Insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with applicable doing business laws of the state in which the Land is situated.
5. Invalidity or unenforceability of the lien of the Insured Mortgage, or claim thereof, which arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, except as provided in Covered Risk 27, or any consumer credit protection or truth-in-lending law.
6. Real property taxes or assessments of any governmental authority which become a lien on the Land subsequent to date of Policy. This exclusion does not limit the coverage provided under Covered Risks 7, 8(e) and 26.
7. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This exclusion does not limit the coverage provided in Covered Risk 8.
8. Lack of priority of the lien of the Insured Mortgage as to each and every advance made after Date of Policy, and all interest charged thereon, over liens, encumbrances and other matters affecting the title, the existence of which are Known to the Insured at:
   (a) The time of the advance; or
   (b) The time a modification is made to the terms of the Insured Mortgage which changes the rate of interest charged, if the rate of interest is greater as a result of the modification than it would have been before the modification. This exclusion does not limit the coverage provided in Covered Risk 8.
9. The failure of the residential structure, or any portion thereof to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This exclusion does not apply to violations of building codes if notice of the violation appears in the Public Records at Date of Policy.

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (07/26/10)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) created, suffered, assumed or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.

Planning Commission Staff Report

June 13, 2012

Case:	5.1281 CZ
Application Type:	Change of Zone (CZ)
Location:	Various Locations throughout the City (18 parcels)
Applicant:	City of Palm Springs
Zone:	Various
General Plan:	Various
APN:	Various
From:	Craig A. Ewing, AICP, Director of Planning Services

PROJECT DESCRIPTION:

An application by City of Palm Springs to change the zone designation of eighteen separate parcels from their current designations to Civic Center District / Civic Uses Zone.

RECOMMENDATION:

1. Open the public hearing and receive any testimony.

2. Adopt the attached draft resolution recommending the City Council change the zoning designation of eighteen parcels from various current zoning designations to Civic Center District (Civic Uses) Zone.

PRIOR ACTIONS TAKEN ON THE PROJECT:

On May 5, 2012, the City Council initiated the Change of Zone for city-owned properties from their current designations to the Civic Center District / Civic Uses Zone.

BACKGROUND AND SETTING:

The subject parcels are located throughout the City and are presently vacant or developed with public uses, including public parking lots, fire stations, and cultural facilities. The eighteen parcels are listed below with their location / address / Assessors Parcel Number and their current zones:

Blue Coyote Parking Lot (APN 513-082-023, -040)	CBD
Casa del Camino Property (APN 505-182-004)	C-1
Catholic Church Parking Lot (N/W corner Alejo and Belardo Roads)	R-2
Convention Center (277 North Avenida Caballeros)	PD 164
Convention Center Parking Lot (APN 508-034-012, -013, -014)	HDR
Downtown Parking Garage (275 S. Indian Canyon Drive)	CBD
Fire Station No. 1 (277 N. Indian Canyon Dr.)	CBD
Fire Station No. 4 (1300 Laverne Way)	R-1-C
Food Court Parking Lot (APN 513-082-043)	CBD
Henry Frank Arcade Parking Lot (261-265 N. Indian Canyon Drive)	CBD
Jackie Lee Houston Plaza (APN 008-609-883)	HDR
McManus Village (211-233 S. Palm Canyon Drive)	CD
Plaza Theater (128 S. Palm Canyon Drive	CBD
Prairie Schooner Parcel (APN 508-055-008, -009, -007)	RA
PSL-15 Subleasehold (S/E corner Amado Rd & Avenida Caballeros)	RA
Vineyard Parking Lot (APN 513-153-015, -016, -25)	CBD
Visitor Center (2901 N. Palm Canyon Drive)	ESA-SP
Welwood Murray Memorial Library (100 S. Palm Canyon Drive)	CBD

ANALYSIS:

The subject properties are located throughout the City, from the Visitor Center at Tram Way to Fire Station No. 4 on Laverne. Many of the lots are public parking facilities in the downtown area, from Alejo to Ramon. Vacant properties that support the Convention Center and other Section 14 development are included, as well. The proposed redesignation to CC / CU will more correctly describe on the zoning map the current use of these properties and assure that their future uses are consistent with the needs of the community.

General Plan

The proposed change of zone was evaluated and found to be consistent with policies and goals of the City's General Plan. The proposed change of zone is in conformity with the general plan map and report, because the proposed changes from C-B-D, C-1 (etc.) to Civic Center District / Civic Uses Zone allows uses on the subject sites, including parks, public parking and other civic-oriented uses, which may be accommodated in all General Plan Land Use Categories, and further support and serve the General Plan Land Uses Categories of the adjacent and surrounding properties. A

General Plan amendment is not necessary to allow the change of zone, as proposed.

Change of Zone.
The project proposes to change the zone designation from a number of different zones to Civic Center District / Civic Uses. The change of zone is necessary to correctly align the zoning map with existing and anticipted uses for the properties. Findings for the change of zone are found in PSZO Section 94.07.00 (A) as follows:

1. *The proposed change of zone is in conformity with the general plan map and report.*

The proposed changes from C-B-D, C-1 (etc.) to Civic Center District / Civic Uses Zone allow uses on the subject sites, including parks, public parking and other civic-oriented uses, which may be accommodated in all General Plan Land Use Categories, and further support and serve the General Plan Land Uses Categories of the adjacent and surrounding properties.

2. *The subject property is suitable for the uses permitted in the proposed zone, in terms of access, size of parcel, relationship to similar or related uses, and other considerations deemed relevant by the commission and council.*

The subject properties are city-owned and either vacant or presently developed and established with parks, parking lots and other civic-oriented uses, including appropriate accessory uses, access ways and buffers. The proposed Civic Center District / Civic Uses zone specifically allows public uses and uses accessory thereto, and therefore, the properties are suited for the uses permitted in the proposed Civic Center District / Civic Uses zone.

3. *The proposed change of zone is necessary and proper at this time, and is not likely to be detrimental to the adjacent property or residents.*

The change of zone to the Civic Center District / Civic Uses zone is specifically designed to identify and regulate the public uses in which the subject properties are presently or anticipated to be developed, and further because the proposed Civic Center District / Civic Uses Zone will not introduce any new uses not presently allowed in the current zones, but assures that parks, public parking and other public facilities are available to serve adjacent and surrounding land uses.

ENVIRONMENTAL ASSESSMENT:

Pursuant to the California Environmental Quality Act (CEQA) Guidelines, the proposed Change of Zone has been deemed "a project". Staff has determined that the propose change of zone (Case 5.1281 CZ) may be deemed Categorically Exempt from the provisions of CEQA under Section 15305 (Minor Alterations in Land Use Limitations) of the Guidelines for the California Environmental Quality Act. The proposed change of zone restricts the potential uses of the subject properties to those relating to public

purposes and also does not increase land use densities.

NOTIFICATION:

A public hearing notice was advertised and was mailed to all property owners within 400 feet of the subject property. As of the writing of this report, staff has not received any comment.

; and

WHEREAS, the proposed change of zone (Case 5.1281 CZ) is considered a "project" pursuant to the terms of the California Environmental Quality Act ("CEQA"), and it has been recommended that the propose amendment be determined to be Categorically Exempt from the provisions of CEQA under Section 15305 (Minor Alterations in Land Use Limitations) of the Guidelines for the California Environmental Quality Act, because the proposed change of zone restricts the potential uses of the subject properties to

those relating to public purposes and also does not increase land use densities; and

WHEREAS, a notice of public hearing of the Planning Commission of the City of Palm Springs, California for Case 5.1281 CZ (Change of Zone) was given in accordance with applicable law; and

WHEREAS, on June 13, 2012, a public hearing of the Planning Commission was held to review said case and at said hearing the Planning Commission reviewed and considered all of the evidence presented in connection with the hearing on the project, including, but not limited to, the staff report, and all written and oral testimony presented and voted to recommend a Categorical Exemption for the project under CEQA and to recommend approval of change of zone.

THE PLANNING COMMISSION HEREBY FINDS AS FOLLOWS:

SECTION 1. Pursuant to CEQA, the Planning Commission hereby recommends to the City Council that the propose change of zone (Case 5.1281 CZ) be determined to be Categorically Exempt from the provisions of CEQA under Section 15305 (Minor Alterations in Land Use Limitations) of the Guidelines for the California Environmental Quality Act because the proposed change of zone restricts the potential uses of the subject properties to those relating to public purposes and also does not increase land use densities.

SECTION 2: Pursuant to PSZC Section 94.07.00 (Change of Zone), the Planning Commission finds as follows:

1. *The proposed change of zone is in conformity with the general plan map and report.*

The proposed changes from C-B-D, C-1 (etc.) to Civic Center District / Civic Uses Zone allows uses on the subject sites, including parks, public parking and other civic-oriented uses, which are permitted in the applicable General Plan Land Use Categories, and further support and serve the General Plan Land Uses Categories of the adjacent and surrounding properties.

2. *The subject property is suitable for the uses permitted in the proposed zone, in terms of access, size of parcel, relationship to similar or related uses, and other considerations deemed relevant by the commission and council.*

The subject properties are city-owned and either vacant or presently developed and established with parks, parking lots and other civic-oriented uses, including appropriate accessory uses, access ways and buffers. The proposed Civic Center District / Civic Uses zone specifically allows public uses and uses accessory thereto, and therefore, the properties are suited for the uses permitted in the proposed Civic Center District / Civic Uses zone.

3. *The proposed change of zone is necessary and proper at this time, and is not likely to be detrimental to the adjacent property or residents.*

The change of zone to the Civic Center District / Civic Uses zone is specifically designed to identify and regulate the public uses in which the subject properties are presently or anticipated to be developed, and further because the proposed Civic Center District / Civic Uses Zone will not introduce any new uses not presently allowed in the current zones, but assures that parks, public parking and other public facilities are available to serve adjacent and surrounding land uses.

NOW, THEREFORE, BE IT RESOLVED that, based upon the foregoing, the Planning Commission hereby recommends that the City Council determine that the proposed change of zone Case 5.1281 CZ is Categorically Exempt from the provisions of CEQA under Section 15305 (Minor Alterations in Land Use Limitations) of the Guidelines for the California Environmental Quality Act and also recommends adoption of an ordinance to approve a change the zone (Case 5.1281 CZ) of eighteen city-owned properties to Civic Center District / Civic Uses Zone, as set forth in Exhibit A.

ADOPTED this 13th day of June, 2012.

ORDINANCE NO. ____

AN ORDINANCE OF THE CITY COUNCIL OF PALM SPRINGS, CALIFORNIA AMENDING THE ZONING MAP TO CHANGE THE ZONING DESIGNATION OF EIGHTEEN PARCELS FROM VARIOUS CURRENT ZONING DESIGNATIONS TO CIVIC CENTER DISTRICT (CIVIC USES) ZONE, CASE NO. 5.1281 CZ (CHANGE OF ZONE)

City Attorney's Summary

This ordinance amends the Palm Springs Zoning Map to designate eighteen City-owned properties as Civic Center District / Civic Uses from their current zone designations.

The City council of the City of Palm Springs hereby finds:

A. On May 16, 2012, the City Council initiated and introduced for first reading an ordinance for a Change of Zone for certain specific parcels from their current zoning designation to Civic Center District / Civic Uses Zone, as follows:

Blue Coyote Parking Lot (APN 513-082-023, -040)	CBD
Casa del Camino Property (APN 505-182-004)	C-1
Catholic Church Parking Lot (N/W corner Alejo and Belardo Roads)	R-2
Convention Center (277 North Avenida Caballeros)	PD 164
Convention Center Parking Lot (APN 508-034-012, -013, -014)	HDR
Cork n Bottle (342-344 N. Palm Canyon Drive)	CBD
Desert Hotel Property (284 N. Indian Canyon Drive)	CBD
Downtown Parking Garage (275 S. Indian Canyon Drive)	CBD
Fire Station No. 1 (277 N. Indian Canyon Dr.)	CBD
Fire Station No. 4 (1300 Laverne Way)	R-1-C
Food Court Parking Lot (APN 513-082-043)	CBD
Henry Frank Arcade Parking Lot (261-265 N. Indian Canyon Drive)	CBD
Jackie Lee Houston Plaza (APN 008-609-883)	HDR
McKinney Parcel (190 West Sunny Dunes)	C-2
McManus Village (211-233 S. Palm Canyon Drive)	CD
Plaza Theater (128 S. Palm Canyon Drive	CBD
Prairie Schooner Parcel (APN 508-055-008, -009, -007)	RA
PSL-15 Subleasehold (S/E corner Amado Rd & Avenida Caballeros)	RA
Vineyard Parking Lot (APN 513-153-015, -016, -25)	CBD
Visitor Center (2901 N. Palm Canyon Drive)	ESA-SP
Welwood Murray Memorial Library (100 S. Palm Canyon Drive)	CBD

B. The proposed change of zone (Case 5.1281 CZ) is considered a "project" pursuant to the terms of the California Environmental Quality Act ("CEQA"), and it has been recommended that the propose amendment be determined to be Categorically Exempt from the provisions of CEQA under Section 15305 (Minor Alterations in Land Use Limitations) of the Guidelines for the California Environmental Quality Act, because the proposed change of zone restricts the potential uses of the subject properties to those relating to public purposes and also does not increase land use densities.

C. A notice of public hearing of the Planning Commission of the City of Palm Springs, California for Case 5.1281 CZ (Change of Zone) was given in accordance with applicable law.

D. On June 13, 2012, a public hearing of the Planning Commission was held to review said case and at said hearing the Planning Commission reviewed and considered all of the evidence presented in connection with the hearing on the project, including, but not limited to, the staff report, and all written and oral testimony presented and voted to recommend a Categorical Exemption for the project under CEQA and to recommend approval of change of zone.

E. A notice of public hearing of the City Council of the City of Palm Springs, California for Case 5.1281 CZ was given in accordance with applicable law.

F. On _____, 2012, a public hearing on Case 5.1281 CZ was held by the City Council in accordance with applicable law and at said hearing the City Council carefully reviewed and considered all of the evidence presented in connection with the hearing on the project, including, but not limited to, the staff report, and all written and oral testimony presented.

G. A Change of Zone is adopted by ordinance and includes two readings and a thirty-day period before it is effective.

H. An ordinance was prepared for two readings before this Council for the approval of Case 5.1281 CZ.

I. The proposed change of zone is in conformity with the general plan map and report, because the proposed changes from C-B-D, C-1 (etc.) to Civic Center District / Civic Uses Zone allows uses on the subject sites, including parks, public parking and other civic-oriented uses, which are permitted in the applicable General Plan Land Use Categories, and further support and serve the General Plan Land Uses Categories of the adjacent and surrounding properties.

J. The subject property is suitable for the uses permitted in the proposed zone, in terms of access, size of parcel, relationship to similar or related uses, and other considerations deemed relevant by the commission and council,

because the subject properties are city-owned and either vacant or presently developed and established with parks, parking lots and other civic-oriented uses, including appropriate accessory uses, access ways and buffers; the proposed Civic Center District / Civic Uses zone specifically allows public uses and uses accessory thereto, and therefore, the properties are suited for the uses permitted in the proposed Civic Center District / Civic Uses zone.

K. The proposed change of zone is necessary and proper at this time, and is not likely to be detrimental to the adjacent property or residents, because the change of zone to the Civic Center District / Civic Uses zone is specifically designed to identify and regulate the public uses in which the subject properties are presently or anticipated to be developed, and further because the proposed Civic Center District / Civic Uses Zone will not introduce any new uses not presently allowed in the current zones, but assures that parks, public parking and other public facilities are available to serve adjacent and surrounding land uses.

THE CITY COUNCIL OF THE CITY OF PALM SPRINGS, CALIFORNIA ORDAINS:

Section 1. Pursuant to CEQA, the City Council hereby determines that the propose change of zone (Case 5.1281 CZ) is Categorically Exempt from the provisions of CEQA under Section 15305 (Minor Alterations in Land Use Limitations) of the Guidelines for the California Environmental Quality Act because the proposed change of zone restricts the potential uses of the subject properties to those relating to public purposes and also does not increase land use densities.

Section 2. The City Council amends the Palm Springs Zoning Map to change the zoning designation of the following properties from the current zone, as shown, to Civic Center District / Civic Uses Zone:

Blue Coyote Parking Lot (APN 513-082-023, -040)	CBD
Casa del Camino Property (APN 505-182-004)	C-1
Catholic Church Parking Lot (N/W corner Alejo and Belardo Roads)	R-2

REPORT OF POSTING OF AGENDA:

The agenda was available for public access at the City Hall exterior bulletin board (west side of Council Chamber) and the Planning Services counter by 4:00 p.m. on Thursday, June 7, 2012.

ACCEPTANCE OF THE AGENDA:

Chair Donenfeld reported that the applicant has requested, Item 2A, Case 3.3038 MAA Appeal, be continued.

Chair Donenfeld reported that staff has requested Item 3B, Case 5.1218-B ZTA, be pulled from the agenda.

Commissioner Roberts spoke in favor of continuing Item 2A to a date certain.

Commissioner Munger noted her abstention on Item 3D.

The agenda was accepted, as amended.

THIS ITEM WAS PULLED OUT OF ORDER OF THE AGENDA.

2A. Case 3.3038 MAA Appeal - An appeal by Eisenhower Medical Center of the Planning Director's decision to approve landscape lighting for the medical office building located at 151 South Sunrise Way, Zone RA (Resort Attraction of Section 14 Specific Plan), Section 15. (Project Planner: David A. Newell, Associate Planner)

ACTION: To continue to a date certain of June 27, 2012.

Motion J.R. Roberts, seconded by Leslie Munger and unanimously carried 6-0 on a roll call vote.

AYES: Leslie Munger, Philip Klatchko, J.R. Roberts, Chair Donenfeld, Vice Chair Hudson, Lyn Calerdine
ABSENT: Tracy Conrad

ACTION: The agenda was accepted, as amended. **Motion J.R. Roberts, seconded by Lyn Calerdine**

PUBLIC COMMENTS:

Chair Donenfeld opened public comments:

-Robert Van Roo, commented on Item 3B, was pleased to hear that this item is going back to staff for further review and is looking forward to the opportunity to apply for a permit.
-Jennifer Lugo, commented on Item 3B, spoke in favor of changing the number of Medical Cannabis permits.

There being no further appearances public comments was closed.

1. CONSENT CALENDAR:

Vice Chair Hudson noted his business-related abstention on Item 1B.

ACTION: To approve, Items 1A, 1B, 1C and 1D, as part of the Consent Calendar.

Motion J.R. Roberts, seconded by Leslie Munger and unanimously carried 6-0 on a roll call vote.

AYES: Leslie Munger, Philip Klatchko, J.R. Roberts, Chair Donenfeld, Vice Chair Hudson, Lyn Calerdine
ABSENT: Tracy Conrad

1A. May 9, 2012 draft minutes

Approved, as part of the Consent Calendar.

1B. Case 3.854 MAA - A request by Mike McAuliffe, architect, for the demolition and remodeling of an existing master bedroom suite to be replaced with a new 746-square foot addition to a hillside residence located at 1843 Leonard Road, Zone R-1-A, Section 3. (Project Planner: Glenn Mlaker, AICP, Assistant Planner)

Approved, as part of the Consent Calendar, noting the abstention of Vice Chair Hudson.

1C. Case 3.2422 MAA - A request by Benjamin Hertz, architect, requesting approval for the addition of a 452-square foot pool cabana on a hillside lot located at 787 W. Stevens Road, Zone R-1-A, Section 10. (Project Planner: Glenn Mlaker, AICP, Assistant Planner)

Approved, as part of the Consent Calendar.

1D. Case 3.3323 SFR Time Extension - A request by Cioffi Architects for a one-year time extension for a previously approved 2,976-square foot single-family hillside residence located at 581 Palisades Drive, Zone R-1-A, Section 15. (Project Planner: David A. Newell, Associate Planner)

Approved, as part of the Consent Calendar.

2. OTHER BUSINESS:

2B. Presentation of Green Building Program - Coachella Valley Association of Governments

-Katie Barrows, Director of Environmental Resources, Coachella Valley Association of Governments (CVAG), provided background information on the Voluntary Green Building Program. She reported that the program is consistent with the proposed mandatory update for Title 24 that will become effective January 1, 2014. Ms. Barrows stated that funding will be available to provide training programs and workshops for city staff, the Commission, homeowners, building owners, renters and contractors.

-Nicole Criste, Terra Nova Planning, reported that this program is designed to include a strong emphasis on educational workshops for homeowners, building owners and contractors on energy efficiency and sustainability in new and existing residential and commercial buildings. Ms. Criste provided an overview on the electronic checklist system that uses a "point value system", rebates, discounts and financial incentives and permit processing.

Commissioner Calerdine asked if there are ways of maintaining the building's view toward the west but limiting the exposure to the sun. Ms. Criste responded that one way is to separate the house foundation from the patio foundation by at least 6 inches and the heat will be reduced from traveling into the house.

Commissioner Roberts suggested that low cost alternative green building materials be offered. Ms. Criste responded that the cost of green building materials have been coming down in price as the market increases. She noted that they are currently working with retailers to provide extra incentives such as gift certificates and/or discounts for those participating in the program. Commissioner Roberts supported that idea and suggested providing a list of green building retailers who provide incentives for green building materials.

Commissioner Munger commented on the importance of offering tax credits as an incentive.

Chair Donenfeld commented about the overwhelming confusion that is out there with homeowners and contractors pertaining to sustainability elements. Ms. Criste responded that a section of this program includes educational literature that will be available at Building Department counters that will be easy-to read and include lots of graphics. Workshops will also be offered. Katie commented that this program is designed to bridge the gap and make information readily available and easy to understand.

ACTION: To approve and recommend approval to the City Council to forward with the Commission comments.

Motion J.R. Roberts, seconded by Vice Chair Hudson and unanimously carried 6-0 on a roll call vote.

AYES: Leslie Munger, Philip Klatchko, J.R. Roberts, Chair Donenfeld, Vice Chair Hudson, Lyn Calerdine
ABSENT: Tracy Conrad

3. PUBLIC HEARINGS:

3A. Case PA 12-002 - A pre-application by Path Ventures, LLC, proposing an 81-unit affordable senior apartment complex on roughly 4.99 acres at the southeast corner of North Palm Canyon Drive and Via Olivera, Zone C-1/R-2. (Project Planner: Ken Lyon, Associate Planner)

Ken Lyon, Associate Planner, provided background as outlined in the staff report dated June 13, 2012. Mr. Lyon reviewed the AAC comments from the June 11, 2012 meeting.

Chair Donenfeld opened the public hearing:

-William Spencer, project architect, was available for questions from the Commission.
-John Malloy, Executive Director, Path Ventures, stated that the development corporation's mission is to provide affordable housing that includes life skill services and noted their willingness to take the AAC recommendations into consideration.
-Mr. Waterman, commented on the lack of access for fire trucks to this property and spoke in opposition of the project.

There being no further appearances the public hearing was closed.

Vice Chair Hudson offered the following comments:

-The frontage along North Palm Canyon needs more attention and include a perimeter wall to control pedestrian access across Palm Canyon.
-Push back the buildings away from Palm Canyon due to the noise.
-Reassess the distribution and design of open space; consider relocating the open space and shade pavilion at the northwest corner of the site to some other area – due to the high winds in this area.
-Create outdoor amenities that are sheltered from the intense wind on the north side of town.
-The project needs a site plan strategy to better organize and locate various buildings, parking and recreational elements.
-Take a stronger look at the landscaping and open-space as an overall scheme instead of focusing only on the placement of the housing units.
-Consider placement of the communal elements in a special "precinct" on the site where they can be enjoyed more fully.
-Consider cutting down on the parking spaces to yield a better project.

Commissioner Klatcko offered the following suggestions:

-The proximity of the residential units to Palm Canyon and provide tenants with more protection from the noise level.
-Consider the visual impact of the site to visitors entering the City; and develop a stronger, more attractive presence along Palm Canyon Drive.

Commissioner Calerdine offered the following suggestions:

-Consider walls or berms or other means of mitigating the street noise from Palm Canyon.
-Look at a means of providing a secondary access to the site for vehicular movement (emergency access, etc.)
-Work with staff on any special features for the sharp corner at Palm Canyon and Via Olivera.

Commissioner Roberts offered the following comments/suggestions:

-The location of the parking is in a more quiet area than the housing units.

-Consideration of wind and noise coming from Palm Canyon.
-Appreciates the energy efficient elements and encouraged the use of green landscape materials.

Commissioner Munger offered the following comment:

-Give some consideration to making each building look unique to make it easier for tenants to identify their own units.

Chair Donenfeld thanked the development team for their time with the submittal of the Pre-Application process.

The item was pulled from the agenda.

3B. Case 5.1218-B ZTA - A zoning ordinance text revision; proposing revisions in Zoning Code Section 93.23.15(F) changing the number of medical cannabis permits from three to four and revising the solicitation and selection process for consideration of award of a fourth permit. (Project Planner: Ken Lyon, Associate Planner)

3C. Case 5.1280 ZTA - A zoning ordinance text amendment to re-title the "CC" Civic Center District Zone to the "CU" Civic Uses Zone and modify certain development standards of said zone. (Project Planner: Craig A. Ewing, AICP, Director of Planning Services)

Director Ewing provided background information as outlined in the staff report date June 13, 2012.

Chair Donenfeld opened the public hearing; and with no appearances coming forward the public hearing was closed.

ACTION: To adopt the attached draft resolution recommending the City Council amend Section 92.23 of the Palm Springs Zoning Code to re-title the "CC" Civic Center District Zone to the "CU" Civic Uses Zone and modify certain development standards.

Motion Lyn Calerdine, seconded by J.R. Roberts and unanimously carried 6-0 on a roll call vote.

AYES: Leslie Munger, Philip Klatchko, J.R. Roberts, Chair Donenfeld, Vice Chair Hudson, Lyn Calerdine
ABSENT: Tracy Conrad

3D. Case 5.1281 CZ – A change of zone to amend the Zoning Map for the properties listed below from the current zones as shown to CU – Civic Uses Zone (formerly the "CC" Civic Center District Zone). (Project Planner: Craig A. Ewing, AICP, Director of Planning Services)

Commissioner Munger left the Council Chamber at 2:45 p.m.

Craig A. Ewing, Director of Planning Services, provided background information as outlined in the staff report date June 13, 2012.

Chair Donenfeld opened the public hearing; and with no appearances coming forward the public hearing was closed.

ACTION: To adopt the attached draft resolution recommending the City Council change the zoning designation of eighteen parcels from various current zoning designations to Civic Center District (Civic Uses) Zone.

Motion Philip Klatchko, seconded by Lyn Calerdine and carried 5-0 on a roll call vote.

AYES: Philip Klatchko, J.R. Roberts, Chair Donenfeld, Vice Chair Hudson, Lyn Calerdine
ABSENT: Tracy Conrad

ABSTAIN: Leslie Munger

Commissioner Munger re-entered the Council Chamber at 2:50 p.m.

4. PLANNING COMMISSION COMMENTS:

4A. Discussion of going "dark" for the month of August.

The consensus of the Commission is to go dark for the month of August.

PLANNING DIRECTORS REPORT:

Director Ewing provided an update on the tentative tract map for the Desert Fashion Plaza site which will be coming to the Commission. Director Ewing spoke about the City Council's second action of approval for the CVS/Ralph's Shopping Center amendment to the Sign Program.

ADJOURNMENT:

There being no further comments the Planning Commission adjourned at 2:53 p.m. to 1:30 p.m., Wednesday, June 27, 2012, City Hall, Council Chamber, 3200 East Tahquitz Canyon Way.

Robert Van Edward

ORDINANCE NO. 1809

AN ORDINANCE OF THE CITY OF PALM SPRINGS, CALIFORNIA, AMENDING THE ZONING MAP TO CHANGE THE ZONING DESIGNATION OF EIGHTEEN PARCELS FROM VARIOUS CURRENT ZONING DESIGNATIONS TO CIVIC CENTER DISTRICT (CIVIC USES) ZONE, CASE NO. 5.1281 CZ (CHANGE OF ZONE).

City Attorney's Summary

This ordinance amends the Palm Springs Zoning Map to designate eighteen City-owned properties as Civic Center District / Civic Uses from their current zone designations.

The City council of the City of Palm Springs hereby finds:

A. On May 16, 2012, the City Council initiated and introduced for first reading an ordinance for a Change of Zone for certain specific parcels from their current zoning designation to Civic Center District / Civic Uses Zone, as follows:

Blue Coyote Parking Lot (APN 513-082-023, -040)	CBD
Casa del Camino Property (APN 505-182-004)	C-1
Catholic Church Parking Lot (N/W corner Alejo and Belardo Roads)	R-2
Convention Center (277 North Avenida Caballeros)	PD 164
Convention Center Parking Lot (APN 508-034-012, -013, -014)	HDR
Cork n Bottle (342-344 N. Palm Canyon Drive)	CBD
Desert Hotel Property (284 N. Indian Canyon Drive)	CBD
Downtown Parking Garage (275 S. Indian Canyon Drive)	CBD
Fire Station No. 1 (277 N. Indian Canyon Dr.)	CBD
Fire Station No. 4 (1300 Laverne Way)	R-1-C
Food Court Parking Lot (APN 513-082-043)	CBD
Henry Frank Arcade Parking Lot (261-265 N. Indian Canyon Drive)	CBD
Jackie Lee Houston Plaza (APN 008-609-883)	HDR
McKinney Parcel (190 West Sunny Dunes)	C-2
McManus Village (211-233 S. Palm Canyon Drive)	CD
Plaza Theater (128 S. Palm Canyon Drive	CBD
Prairie Schooner Parcel (APN 508-055-008, -009, -007)	RA
PSL-15 Subleasehold (S/E corner Amado Rd & Avenida Caballeros)	RA
Vineyard Parking Lot (APN 513-153-015, -016, -25)	CBD
Visitor Center (2901 N. Palm Canyon Drive)	ESA-SP
Welwood Murray Memorial Library (100 S. Palm Canyon Drive)	CBD

B. The proposed change of zone (Case 5.1281 CZ) is considered a "project" pursuant to the terms of the California Environmental Quality Act ("CEQA"), and it has been recommended that the propose amendment be determined to be Categorically Exempt from the provisions of CEQA under Section 15305 (Minor Alterations in Land Use Limitations) of the Guidelines for the California Environmental Quality Act, because the proposed change of zone restricts the potential uses of the subject properties to those relating to public purposes and also does not increase land use densities.

C. A notice of public hearing of the Planning Commission of the City of Palm Springs, California for Case 5.1281 CZ (Change of Zone) was given in accordance with applicable law.

D. On June 13, 2012, a public hearing of the Planning Commission was held to review said case and at said hearing the Planning Commission reviewed and considered all of the evidence presented in connection with the hearing on the project, including, but not limited to, the staff report, and all written and oral testimony presented and voted to recommend a Categorical Exemption for the project under CEQA and to recommend approval of change of zone.

E. A notice of public hearing of the City Council of the City of Palm Springs, California for Case 5.1281 CZ was given in accordance with applicable law.

F. On July 11, 2012, a public hearing on Case 5.1281 CZ was held by the City Council in accordance with applicable law and at said hearing the City Council carefully reviewed and considered all of the evidence presented in connection with the hearing on the project, including, but not limited to, the staff report, and all written and oral testimony presented.

G. A Change of Zone is adopted by ordinance and includes two readings and a thirty-day period before it is effective.

H. An ordinance was prepared for two readings before this Council for the approval of Case 5.1281 CZ.

I. The proposed change of zone is in conformity with the general plan map and report, because the proposed changes from C-B-D, C-1 (etc.) to Civic Center District / Civic Uses Zone allows uses on the subject sites, including parks, public parking and other civic-oriented uses, which are permitted in the applicable General Plan Land Use Categories, and further support and serve the General Plan Land Uses Categories of the adjacent and surrounding properties.

J. The subject property is suitable for the uses permitted in the proposed zone, in terms of access, size of parcel, relationship to similar or related uses, and other considerations deemed relevant by the commission and council, because the subject properties are city-owned and either vacant or presently developed and

established with parks, parking lots and other civic-oriented uses, including appropriate accessory uses, access ways and buffers; the proposed Civic Center District / Civic Uses zone specifically allows public uses and uses accessory thereto, and therefore, the properties are suited for the uses permitted in the proposed Civic Center District / Civic Uses zone.

K. The proposed change of zone is necessary and proper at this time, and is not likely to be detrimental to the adjacent property or residents, because the change of zone to the Civic Center District / Civic Uses zone is specifically designed to identify and regulate the public uses in which the subject properties are presently or anticipated to be developed, and further because the proposed Civic Center District / Civic Uses Zone will not introduce any new uses not presently allowed in the current zones, but assures that parks, public parking and other public facilities are available to serve adjacent and surrounding land uses.

THE CITY COUNCIL OF THE CITY OF PALM SPRINGS, CALIFORNIA ORDAINS:

Section 1. Pursuant to CEQA, the City Council hereby determines that the propose change of zone (Case 5.1281 CZ) is Categorically Exempt from the provisions of CEQA under Section 15305 (Minor Alterations in Land Use Limitations) of the Guidelines for the California Environmental Quality Act because the proposed change of zone restricts the potential uses of the subject properties to those relating to public purposes and also does not increase land use densities.

Section 2. The City Council amends the Palm Springs Zoning Map to change the zoning designation of the following properties from the current zone, as shown, to Civic Center District / Civic Uses Zone:

Blue Coyote Parking Lot (APN 513-082-023, -040)	CBD
Casa del Camino Property (APN 505-182-004)	C-1
Catholic Church Parking Lot (N/W corner Alejo and Belardo Roads)	R-2
Convention Center (277 North Avenida Caballeros)	PD 164
Convention Center Parking Lot (APN 508-034-012, -013, -014)	HDR
Cork n Bottle (342-344 N. Palm Canyon Drive)	CBD
Desert Hotel Property (284 N. Indian Canyon Drive)	CBD
Downtown Parking Garage (275 S. Indian Canyon Drive)	CBD
Fire Station No. 1 (277 N. Indian Canyon Dr.)	CBD
Fire Station No. 4 (1300 Laverne Way)	R-1-C
Food Court Parking Lot (APN 513-082-043)	CBD
Henry Frank Arcade Parking Lot (261-265 N. Indian Canyon Drive)	CBD
Jackie Lee Houston Plaza (APN 008-609-883)	HDR
McKinney Parcel (190 West Sunny Dunes)	C-2
McManus Village (211-233 S. Palm Canyon Drive)	CD

Plaza Theater (128 S. Palm Canyon Drive	CBD
Prairie Schooner Parcel (APN 508-055-008, -009, -007)	RA
PSL-15 Subleasehold (S/E corner Amado Rd & Avenida Caballeros)	RA
Vineyard Parking Lot (APN 513-153-015, -016, -25)	CBD
Visitor Center (2901 N. Palm Canyon Drive)	ESA-SP
Welwood Murray Memorial Library (100 S. Palm Canyon Drive)	CBD

Section 3. Effective Date: This Ordinance shall be in full force and effect thirty (30) days after passage.

Section 4. Publication: The City Clerk is hereby ordered to and directed to certify to the passage of this Ordinance, and to cause the same or summary thereof or a display advertisement, duly prepared according to law, to be published in accordance with law.

PASSED, APPROVED, AND ADOPTED this 11th day of July 2012.

STEPHEN P. POUGNET, MAYOR
